practicable on or before April 5, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the office of the hearing clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: February 23, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

#### National Institutes of Health BIOLOGICAL MODELS SEGMENT ADVISORY GROUP

#### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Biological Models Segment Advisory Group, March 22 and 23, 1973, at 9 a.m., National Institutes of Health, Building Landow, 7910 Woodmont Avenue, Be-

thesda, MD. Conference Room B301-B303. This meeting will be open to the public from 1:30 p.m., March 23, 1973, to discuss long range plans in model development of specific organ cancers and the immunologic feasibility of implementing a cooperative agreement with other nations in assessing the carcinogenesis of breast cancer and closed to the public from 9 a.m., March 22, 1973 through 1:30 p.m., March 23, 1973, in accordance with the provisions set forth in section 552 (b)(4) of title 5, United States Code and 10(d) of Public Law 92-463. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Md. 20014, 301-496-1911, will furnish summaries of the open/closed meeting and roster of committee members.

Dr. Richard A. Pledger, Executive Secretary, Landow Building, Room A306, National Institutes of Health, Bethesda, Md. 20014, 301-496-5471, will provide substantive program information.

Dated: February 26, 1973.

JOHN F. SHERMAN,  
Deputy Director,  
National Institutes of Health.

# DEPARTMENT OF TRANSPORTATION

## Federal Aviation Administration

# APPLICATION OF AREA NAVIGATION IN THE NATIONAL AIRSPACE SYSTEM

## Policy Regarding Implementation of Area Navigation Concepts Recommended by Joint FAA/Industry Task Force

Notice is hereby given that the Federal Aviation Administration (FAA) intends to clarify the potential role of area navigation in the National Airspace System.

As a result of a joint FAA/Industry Symposium held in January 1972 wherein area navigation capabilities and potentials were explored in depth, conclusions were drawn which recommended the FAA assume a more dynamic leadership role and provide the aviation industry with guidance in the matter of area navigation (RNAV) applications. Consistent with the tenor of the symposium a joint FAA/Industry User Task Force was formed to provide advice to the FAA as to the potential use of area navigation techniques in the National Airspace System. The guideline under which the task force functioned was simply stated—"Determine where we are, where we are going, how we get there and the payoff."

The deliberations and activity of the task force culminated in a report titled "Application of Area Navigation in the National Airspace System" and was presented to the FAA for consideration and adoption. In addition to other related issues the report includes a concept of applied RNAV techniques to the Air Traffic Control System spanning a 10-year time frame, identification of problem areas with solutions, suggested minimum equipment operating characteristics, anticipated benefits, and a plan of action to adopt RNAV as the prime method of navigation in the National Airspace System. The action plan provides a framework for implementation actions deemed necessary for an orderly development and transition to an RNAV-based system. These actions would require, in addition to the formulation of new methods of application and regulations, extensive investigative efforts to validate the conclusions of the task force and support system implementation.

The FAA appreciates the efforts that were expended by the task force in the development of its findings and recommendations. However, the FAA believes there is a need for additional inputs from all segments of the aviation community to insure recognition and adequate

consideration of their needs. Accordingly, prior to establishing a policy with regards to how the agency should pursue the matter of application of area navigation in the national airspace system, all members of the aviation community are invited to provide comments on the report of the FAA/Industry RNAV Task Force.

Any interested person who wishes to express his views or comment with respect to this report may do so by submitting them in writing to the Federal Aviation Administration, Air Traffic Service, Chief, Automation Division, AAT-500, 800 Independence Avenue SW., Washington, DC 20591. All communications received prior to May 31, 1973, will be considered in the formulation of a final policy.

This notice is issued under the authority of sections 307(a) and 312(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on March 2, 1973.

WILLIAM M. FLENER,  
Acting Associate Administrator  
for Operations.

# FLIGHT SERVICE STATION AT UNALAKLEET, ALASKA

## Notice of Conversion to Remote Control Outlet

Notice is given that on March 1, 1973, the Flight Service Station at Unalakleet, Alaska, will be converted from a manned Flight Service Station to a full-time Remote Control Outlet. Services to the general aviation public, formerly provided by this office, will be provided by remote control from the Nome, Alaska, Flight Service Station. This information will be reflected in the FAA Organization Statement the next time it is re-issued.

(Sec. 313(a), 72 Stat. 752; 49 U.S.C. 1354)

Issued in Anchorage, Alaska, on February 23, 1973.

QUENTIN S. TAYLOR,  
Acting Director, Alaskan Region.  
[FR Doc.73-4182 Filed 3-5-73; 8:45 am]

# National Highway Traffic Safety Administration

## NATIONAL MOTOR VEHICLE SAFETY ADVISORY COUNCIL

### Notice of Public Meeting

On March 14-15, 1973, the National Motor Vehicle Safety Advisory Council will hold open meetings in the DOT Headquarters Building, 400 Seventh Street SW., Washington, DC. The Advisory Council is composed of 22 members, a majority of whom are representatives of the general public, including representatives of State and local gov-

ernments, with the remainder including representatives of motor vehicle manufacturers, motor vehicle equipment manufacturers, and motor vehicle dealers. The Secretary of Transportation consults with the Advisory Council on motor vehicle safety standards promulgated under the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1381 et seq.).

The following meetings, subject to the approval of the Secretary of Transportation, will be held in the DOT Headquarters Building, Room 4238.

The Crashworthiness Committee of the Council will meet from 1 p.m. to 5 p.m. on March 14, 1973, with the following agenda:

Accident investigation issues and problems.  
Retrofit of seatbelts.  
Clarification of NCUTLO model seatbelt law.  
Schoolbus and motorcycle ESV's.  
New business.

The full Advisory Council will meet in regular session from 9 a.m. to 1 p.m. on March 15 with the following agenda:

Status report—airbag fleet test program.  
Investigation of airbag crashes.  
Council travel budget.  
Report of meeting with domestic auto industry.  
Report of crashworthiness committee.  
New business.  
Future meetings.

This notice is given pursuant to section 10(a) (2) of Public Law 92-463, Federal Advisory Committee Act (FACA) effective January 5, 1973.

For further information, contact Executive Secretariat, Room 5215, 400 Seventh Street SW., Washington, DC, telephone 202-426-2872.

Issued on February 28, 1973.

CALVIN BURKHART,  
Executive Secretary.  
[FR Doc.73-4258 Filed 3-5-73; 8:45 am]

# ATOMIC ENERGY COMMISSION

[Dockets Nos. 50-373, 50-374]

## COMMONWEALTH EDISON CO.

### Amended Notice of Evidentiary Hearing

In the matter of Commonwealth Edison, Co. (La Salle County Nuclear Power Station, Units 1 and 2), Dockets Nos. 50-373 and 50-374.

Take notice, on February 26, 1973, by telegram to the parties and by press release, the evidentiary hearing on health and safety issues scheduled by the Board for February 28, 1973, was postponed. That hearing will be held at the Mars Theater, Main Street, Marseilles, Ill., on Tuesday, March 20, 1973, commencing at 10 a.m., local time.

The public is invited to the hearing and limited appearance statements will be received in the course of the first day of the hearing. Oral limited appearance statements will be limited to 5 minutes for each person. Written statements in place of or supplementing oral statements will be accepted by the Board if submitted at the time provided for limited appearances.

## NOTICES

Limited appearance statements will also be received under the same conditions at the subsequent evidentiary hearing on environmental issues. Limited appearance statements relating to either health and safety or environmental issues or both may be made at either hearing. Since the parties will have technical personnel knowledgeable on health and safety matters present at the first segment of the hearing, it would be more beneficial to individuals who are interested only in the health and safety issues to make a limited appearance on March 20, 1973. The parties will have technical personnel knowledgeable on environmental matters at the subsequent hearing on the environmental issues; therefore it would be more beneficial to individuals who are only interested in the environmental aspects to make a limited appearance at that time. No individuals will be permitted to make more than one oral limited appearance statement.

Issued at Washington, D.C., this 28th day of February 1973.

It is so ordered.

THE ATOMIC SAFETY AND LICENSING BOARD,  
ELIZABETH S. BOWERS,  
Chairman.

[FR Doc. 73-4198 Filed 3-5-73; 8:45 am]

[Docket No. 50-286]

**CONSOLIDATED EDISON CO. OF NEW YORK**  
**Notice of Hearing on Facility Operating License**

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), the National Environmental Policy Act of 1969 (NEPA), and the regulations in Title 10, Code of Federal Regulations, Part 50, Licensing of Production and Utilization Facilities, and Part 2, rules of practice, notice is hereby given that, subject to conditions set forth in a memorandum and order of February 28, 1973, a hearing will be held on the pressurized water reactor identified as the Indian Point Nuclear Generating Unit No. 3 (the facility) of the applicant, Consolidated Edison Co. of New York. The hearing to consider the issuance of an operating license for the facility will be held at a time and place to be set in the future by the Atomic Safety and Licensing Board. The facility is in Buchanan, Westchester County, N.Y. Construction of the facility was authorized by Construction Permit No. CPPR-62, issued by the Atomic Energy Commission on August 13, 1969. The instant facility is subject to the provisions of section C.3 of appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities for which construction permits were issued prior to January 1, 1970.

The Licensing Board, designated by the Chairman of the Atomic Safety and Licensing Board Panel, will consist of

Samuel W. Jensch, Esq. (chairman), Dr. John C. Geyer, and Mr. R. B. Briggs. Mr. Ernest E. Hill has been designated as a technically qualified alternate, and Max D. Paglin, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

A Notice of Consideration of Issuance of Facility Operating License and Notice of Opportunity for Hearing was published in the *Federal Register* on October 25, 1972 (37 FR 22816). The notice provided that, within 30 days from the date of publication, any person whose interest may be affected by the proceeding could file a petition for leave to intervene in accordance with the requirements of 10 CFR Part 2, Rules of Practice. Petitions for leave to intervene were thereafter filed by various petitioners, including (1) the State of New York; (2) Hudson River Fishermen's Association (HRFA); (3) Save Our Strippers (SOS); (4) Cortlandt Conservation Association, Inc. (CCA); and (5) Mary Hays Weik. As set out in the memorandum and order referred to above, a public hearing will be held. Petitioners New York, HRFA, and SOS will be admitted as parties to the proceeding; petitioners CCA and Weik may subsequently be admitted as parties or, alternatively, will be permitted to make limited appearances pursuant to 10 CFR 2.715.

A prehearing conference or conferences will be held by the Licensing Board, at a date and place to be set by it, to consider pertinent matters in accordance with the Commission's rules of practice. The date and place of the hearing will be set by the Board at or after the prehearing conference. Notices as to the dates and places of the prehearing conference and the hearing will be published in the *Federal Register*. The specific issues to be considered at the hearing will be determined by the Licensing Board.

For further details pertinent to the matters under consideration, see the application for the facility operating license, dated December 4, 1970, as amended, and the Applicant's environmental report, dated June 14, 1971, as supplemented, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, NY. As they become available, the following documents also will be available at the above locations:

- (1) The report of the Advisory Committee on Reactor Safeguards on the application for facility operating license;
- (2) the Commission's draft detailed statement on environmental considerations pursuant to 10 CFR Part 50, appendix D;
- (3) the Commission's final detailed statement on environmental consideration;
- (4) the safety evaluation prepared by the Directorate of Licensing;
- (5) the proposed facility operating license; and
- (6) the technical specifications, which will be attached to the proposed facility operating license. Copies of items (1), (3), (4), and (5) may also be obtained by request to the Deputy Director for

Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Any person who wishes to make an oral or written statement in this proceeding but who has not filed a petition for leave to intervene as noted above, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's rules of practice. Limited appearances will be permitted at the time of the hearing in the discretion of the Licensing Board, within such limits and on such conditions as may be fixed by it. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, on or before April 5, 1973. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified above. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the Commission's rules of practice, must be filed by the parties to this proceeding (other than the regulatory staff) on or before March 26, 1973.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

Pending further order of the Licensing Board, parties are required to file pursuant to the provisions of 10 CFR 2.708 of the Commission's rules of practice, an original and 20 conformed copies of each such paper with the Commission.

Issued at Washington, D.C., this 28th day of February 1973.

It is so ordered.

THE ATOMIC SAFETY AND LICENSING BOARD,  
ELIZABETH S. BOWERS,  
Chairman.

[Docket No. 50-329; 50-330]

**CONSUMERS POWER CO.**  
**Notice of Oral Argument**

In the matter of Consumers Power Co. (Midland Plant, Units 1 and 2) Dockets Nos. 50-329 and 50-330.

Notice is hereby given that the oral argument in the above-captioned proceeding, which was previously calendared for Tuesday, March 6, 1973, has now been rescheduled, in accordance with the Atomic Safety and Licensing Appeal Board's Order of February 28, 1973, for Wednesday, March 14, 1973, at 10:30

a.m. in Room 309, U.S. Court of Claims, 717 Madison Place NW., Washington, DC 20005.

Dated: February 28, 1973.

For the Atomic Safety and Licensing Appeal Board.

MARGARET E. DUFFLO,  
Secretary to the Appeal Board.

[FR Doc. 73-4196 Filed 3-5-73; 8:45 am]

[Dockets Nos. 50-369, 50-370]

**DUKE POWER CO.**  
**Issuance of Construction Permits**

Notice is hereby given that, pursuant to the initial decision of the Atomic Safety and Licensing Board, the Deputy Director for Reactor Projects, Directorate of Licensing, has issued Construction Permits Nos. CPPR-83 and CPPR-84 to Duke Power Co. for construction of two pressurized water nuclear reactors at the applicant's site on the shore of Lake Norman, in Mecklenburg County, N.C. The reactors, known as the McGuire Nuclear Station, Units 1 and 2, are designed for initial operation at 3,411 megawatts (thermal).

Copies of the initial decision and the construction permits are on file in the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545, and in the Public Library of Charlotte, Mecklenburg County, 310 North Tryon Street, Charlotte, NC 28208.

Dated at Bethesda, Md., this 28th day of February 1973.

For the Atomic Energy Commission.

D. B. VASSALLO,  
Chief, Pressurized Water Reactors Branch No. 1,  
Directorate of Licensing.

[Docket No. 50-331]

**IOWA ELECTRIC LIGHT & POWER CO., ET AL.**  
**Notice of Hearing**

In the matter of Iowa Electric Light & Power Co., Central Iowa Power Cooperative, and Corn Belt Power Cooperative (Duane Arnold Energy Center), Docket No. 50-331.

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, Licensing of Production and Utilization Facilities and Part 2, Rules of Practice, notice is hereby given that a hearing will be held at a time and place to be set in the future by an Atomic Safety and Licensing Board, to begin in or in the vicinity of Palo, Iowa; in Linn County, Iowa, about 8 miles northwest of Cedar Rapids, Iowa. On June 22, 1970, construction was authorized by Construction Permit No. CPPR-70 for a boiling water nuclear reactor at steady-state power levels not to exceed 1,658 megawatts thermal. The hearing will be conducted by an Atomic Safety and Licensing Board (Board)

designated by the Chairman of the Atomic Safety and Licensing Board Panel, consisting of Elizabeth S. Bowers, Esq. (chairman); Lester Kornblith, Jr., and Dr. William E. Martin. Dr. A. Dixon Callihan has been designated a technically qualified alternate, and Douglas V. Rieger, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

On September 30, 1972, a Notice of Hearing Pursuant to 10 CFR Part 50, appendix D, Section B; Notice of Consideration of Issuance of Facility Operating License and Opportunity for Hearing in the above matter appeared in the *Federal Register* (37 FR 20584). The notice advised that, within 30 days from the date of publication, "any person whose interest may be affected by this proceeding may file a petition for leave to intervene (1) with respect to whether, considering those matters covered by appendix D to 10 CFR Part 50, the construction permit should be continued, modified, terminated, or appropriately conditioned to protect environmental matters; and (2) with respect to the issuance of the facility operating license." Petitions to intervene were filed by George W. Brown, Ph. D., and by John Laitner. As stated in the memorandum and order on this matter, dated February 27, 1973, it was determined that both petitioners must be denied. Both petitioners were invited to make limited appearances at the hearing.

Since there are no issues in controversy on the issuance of an operating license, except for the following, the hearing will be limited to the provisions of section B of appendix D to 10 CFR Part 50, which sets forth procedures for environmental review of certain licenses to construct or operate production or utilization facilities issued in the period January 1, 1970, to September 9, 1971. The Board will, in accordance with section A.11 of said appendix D: (a) Determine whether the requirements of section 102(2) (C) and (D) of NEPA and appendix D to 10 CFR Part 50 of the Commission's regulations have been complied with in this proceeding; (b) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view toward determining the action to be taken; and (c) determine, after weighing the environmental, economic, technical, and other benefits against environmental costs and considering available alternatives, whether the construction permit should be continued, modified, terminated, or appropriately conditioned to protect environmental values.

An operating license would be issued only after appropriate findings are made by the Director of Regulation on the matters set forth below (and upon compliance with the applicable provisions of Appendix D to 10 CFR Part 50 dealt with above):

1. Whether construction of the facility has been substantially completed in conformity with the construction permit and the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

2. Whether the facility will operate in conformity with the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

3. Whether there is reasonable assurance (i) that the activities authorized by the operating license can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the regulations of the Commission.

4. Whether the applicant is technically and financially qualified to engage in the activities authorized by the operating license in accordance with the regulations of the Commission.

5. Whether the applicable provisions of 10 CFR Part 140, Financial Protection Requirements and Indemnity Agreements, of the Commission's regulations have been satisfied.

6. Whether the issuance of the license will be inimical to the common defense and security or to the health and safety of the public.

For further details pertinent to the matters under consideration, see the application for the facility operating license docketed May 8, 1972, as amended, and the Applicant's Environmental Report dated November 1971, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Reference Service, Cedar Rapids Public Library, 426 Third Avenue SE., Cedar Rapids, IA 52401. As they become available, the following documents also will be available at the above locations: (1) The report of the Advisory Committee on Reactor Safeguards on the application for facility operating license; (2) the Commission's draft detailed statement on environmental considerations pursuant to 10 CFR Part 50, appendix D; (3) the Commission's final detail statement on environmental considerations; (4) the safety evaluation prepared by the Directorate of Licensing; (5) the proposed facility operating license; and (6) the proposed technical specifications, which will be attached to the proposed facility operating license. Copies of items (3), (4), and (5) may be obtained by request to Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

With respect to this proceeding concerning continuation, modification, termination or conditioning the construction permit, the Commission will delegate to the Atomic Safety and Licensing Appeal Board the authority and the review function which would otherwise be exercised and performed by the Commission. The Commission will establish the Appeal Board pursuant to 10 CFR 2.785 and will make the delegation pursuant to subparagraph (a)(1) of that section. The Appeal Board will be composed of a Chairman, and two other members to be designated by the Commission. Notice as to the membership of the Appeal Board will be published in the *Federal Register*.

Issued at Washington, D.C., this 27th day of February 1973.

It is so ordered.

THE ATOMIC SAFETY AND  
LICENSING BOARD,  
ELIZABETH S. BOWERS,  
Chairman.

[FR Doc. 73-4197 Filed 3-5-73; 8:45 am]

[Docket No. 50-20]

# MASSACHUSETTS INSTITUTE OF TECHNOLOGY

## Notice of Proposed Issuance of Construction Permit

The Atomic Energy Commission (the Commission) is considering the issuance of a construction permit and subsequently an amended facility operating license to the Massachusetts Institute of Technology (MIT) in Cambridge, Mass. Since 1958, MIT has been authorized by the Commission (under Facility License No. R-37) to operate a heavy water-moderated and cooled reactor on its campus for research and development, and medical therapy purposes. In October 1965, the Commission amended the license to authorize MIT to operate the reactor at 5 megawatts (thermal).

The proposed permit would authorize MIT to make modifications to convert the reactor to a light water-cooled heavy water reflected reactor. The proposed amended license subsequently would authorize operation of the modified reactor at its presently licensed power level of 5 megawatts (thermal) and an increase from 17.5 kilograms to 45 kilograms in the quantity of contained uranium 235 that MIT is authorized to receive, possess and use in connection with operation of the modified reactor, in accordance with MIT's application dated November 18, 1970, as amended.

The Commission has found that MIT's application dated November 18, 1970, and amendments thereto dated January 4, 1971, July 12, 1971, May 12, 1972, July 19, 1972, August 11, 1972, August 17, 1972, November 29, 1972, December 18, 1972, and January 12, 1973, comply with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations published in 10 CFR Ch. I. Prior to issuance of the proposed construction permit, the Commission will have made the remainder of the findings required by the Act and the Commission's regulations which are set forth in the proposed permit.

Upon completion of the modifications to the reactor in compliance with the terms and conditions of the construction permit and the application, as amended, and in the absence of good cause to the contrary, the Commission will issue to MIT (without prior notice) an amended Class 104 a. and c. facility license authorizing operation of the reactor at power levels up to 5 megawatts (thermal) since the application is complete enough to permit evaluation of the safety of the operation of the modified facility in the manner and location pro-

## NOTICES

posed. Prior to the issuance of the license, the facility will be inspected by a representative of the Commission to determine whether it has been modified in accordance with the application and the provisions of the construction permit. The amended operating license will not be issued until the Commission makes the findings required by the Act and the Commission's regulations which are set forth in the proposed amended license, and concludes that the issuance of the amended license will not be inimical to the common defense and security or to the health and safety of the public.

On or before April 5, 1973, the applicant may file a request for a hearing and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to these actions, see (1) the application by MIT dated November 18, 1970, and amendments thereto, (2) the proposed construction permit, (3) proposed amended facility license, and (4) the Commission's related Safety Evaluation, all of which are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, DC. A copy of each of items (2), (3), and (4) may be obtained upon request sent to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing. Prior to issuance of the amended facility operating license, to the proposed Technical Specifications for Facility Operating License No. R-37 will be made available in the above Public Document Room.

Dated at Bethesda, Md., this 23d day of February 1973.

For the Atomic Energy Commission.

ROBERT J. SCHEMEL,  
Acting Assistant Director for  
Operating Reactors, Directorate of Licensing.

### COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

#### CERTAIN WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN HONG KONG

##### Entry or Withdrawal From Warehouse for Consumption

MARCH 1, 1973.

The purpose of this notice is to advise that since hand-made carpets, rugs and floor coverings of man-made fiber and wool are excluded from the coverage of the United States-Hong Kong Bilateral Wool and Man-Made Fiber Textile Agreement of January 6, 1972, shipments of such carpets, rugs and floor coverings, produced or manufactured in Hong Kong, from Hong Kong do not require a visa for entry for consumption or withdrawal from warehouse for consumption in the United States.

ARTHUR GAREL,  
Acting Chairman, Committee  
for the Implementation of  
Textile Agreements.

COMMISSIONER OF CUSTOMS,  
Department of the Treasury,  
Washington, D.C. 20229.

MARCH 1, 1973.

DEAR MR. COMMISSIONER: Pursuant to paragraph 2 of the bilateral United States-Hong Kong Wool and Man-Made Fiber Textile Agreement of January 6, 1972, a Hong Kong textile visa is not required for hand-made (handwoven, hand-knotted, or hand-

inserted with a hand-held tool) carpets, rugs and floor coverings made of man-made fiber and wool.

This letter will be published in the FEDERAL REGISTER.

Sincerely,

ARTHUR GAREL,  
Acting Chairman, Committee  
for the Implementation of  
Textile Agreements and Director, Office  
of Textiles.

[FR Doc. 73-4268 Filed 3-5-73; 8:45 am]

### CERTAIN COTTON TEXTILES AND COTTON, WOOL, AND MANMADE FIBER TEXTILE PRODUCTS FROM HONG KONG

#### Entry or Withdrawal From Warehouse for Consumption

MARCH 2, 1973.

This notice advises that the Hong Kong textile visa will no longer be required for the entry for consumption or the withdrawal from warehouse for consumption of commercial shipments of textile products from Hong Kong valued at \$250 or less.

ARTHUR GAREL,  
Acting Chairman, Committee  
for the Implementation of  
Textiles.

COMMITTEE FOR THE IMPLEMENTATION OF  
TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,  
Department of the Treasury,  
Washington, D.C. 20226.

MARCH 2, 1973.

DEAR MR. COMMISSIONER: This letter amends, but does not cancel, the directive of January 3, 1973, which established an export visa requirement for the entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and manmade fiber textiles and textile products, produced or manufactured in Hong Kong.

Under the provisions of the bilateral Cotton Textile Agreement of December 17, 1970, as amended, and the bilateral Wool and Man-Made Fiber Textile Agreement of January 6, 1972, between the Governments of the United States and Hong Kong, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, effective as soon as possible and until further notice, the directive of January 3, 1973, is amended by adding after the second paragraph the following sentence:

"These visa requirements will not be applicable to commercial shipments of textiles and textile products valued at \$250 or less."

The actions taken with respect to the Government of Hong Kong and with respect to imports of cotton, wool, and manmade fiber textiles and textile products from Hong Kong, have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such action, fall within the foreign affairs exception to the rule making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ARTHUR GAREL,  
Acting Chairman, Committee  
for the Implementation of  
Textile Agreements.

## COST OF LIVING COUNCIL

[Cost of Living Council Order No. 20]

## CONSTRUCTION INDUSTRY STABILIZATION COMMITTEE

## Delegation of Authority

Pursuant to the authority vested in me by Executive Order 11695, it is hereby ordered as follows:

1. In addition to the authority delegated by Cost of Living Council Order No. 16, the Construction Industry Stabilization Committee is hereby authorized to review and issue determinations, in accordance with the procedures established pursuant to Executive Order 11695 and Cost of Living Council Order No. 16, with respect to any wage or salary increase pursuant to any collective bargaining agreement which is within the terms of § 130.72(b) of the Council's regulations (6 CFR 130.72(b)).

2. In accordance with the procedures set forth in Executive Order 11695 and Cost of Living Council Order No. 16, the parties to any collective bargaining agreement which is within the terms of § 130.72(b) shall promptly submit such agreement to the appropriate craft dispute board, or, where there is no appropriate craft dispute board, directly to the Construction Industry Stabilization Committee.

3. This order shall be effective January 11, 1973.

Issued in Washington, D.C., on February 28, 1973.

GEORGE P. SCHULTZ,  
Chairman, Cost of Living Council.  
[FR Doc. 73-4212 Filed 3-5-73; 8:45 am]

## TERMINATION OF THE PAY BOARD AND PRICE COMMISSION

## Announcement of Effective Date

In accordance with section 10(a) of Executive Order No. 11695, which provided that the Pay Board and Price Commission are abolished effective not more than 90 days from the date of that order or such earlier date as the Chairman of the Cost of Living Council may designate, I do hereby designate March 1, 1973, as the effective date on which the Pay Board and Price Commission are terminated.

An orderly transfer of stabilization functions has been accomplished and all outstanding matters have been disposed of or transferred to the Cost of Living Council. Consequently, effective March 1, 1973:

1. All delegations of economic stabilization functions to the Pay Board and Price Commission not previously revoked, and all redelegations issued thereunder, are terminated without prejudice to actions taken thereunder. All economic stabilization functions will be performed by the Cost of Living Council as provided by Executive Order No. 11695 and in accordance with Cost of Living Council regulations, rulings, orders (including delegations to the Commissioner of Internal Revenue and the Construction Industry Stabilization Committee), and other appropriate public issuances.

2. All decisions and orders of the Pay Board and Price Commission, or their delegates, issued prior to March 1, 1973, shall, subject to such modifications as the Cost of Living Council may make from time to time, operate according to their terms and continue in full force and effect.

3. All regulations, rulings, and orders of the Pay Board and Price Commission which were in effect on January 10, 1973, shall continue in full force and effect to the extent provided by Executive Order No. 11695 and Cost of Living Council regulations, rulings, orders, and other appropriate public issuances.

4. All records, including reports, cases, and requests for information, property, personnel, and funds relating to the Pay Board and Price Commission and not previously transferred to the Cost of Living Council, are transferred to the Cost of Living Council.

GEORGE P. SCHULTZ,  
Chairman, Cost of Living Council.

MARCH 1, 1973.

## FEDERAL MARITIME COMMISSION

## BOARD OF TRUSTEES OF THE GALVESTON WHARVES AND LYKES BROS. STEAMSHIP COMPANY, INC.

## Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

## NOTICES

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015, or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for a hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before March 16, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## Notice of agreement filed by:

Mr. Carl S. Parker, Jr., Galveston Wharves, 802 Rosenberg, Post Office Box 328, Galveston, TX 77550.

Agreement No. T-2521-1, between the Board of Trustees of the Galveston Wharves (Galveston) and Lykes Bros. Steamship Company, Inc. (Lykes), amends the basic agreement between the parties which is a 3-year lease providing for first call on berth privileges for Lykes' Seabee barges at a covered barge loading, unloading, and interchange terminal. The purpose of the modification is to change the rate for using the bridge crane at the facility from \$27.50 per hour straight time and \$40 per hour overtime (in both instances manned by Galveston personnel) to \$21 per hour unmanned, straight time or overtime.

Dated: February 28, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,  
Secretary.

Notice of agreement filed by:

Mr. Richard A. Bobler, Port of San Francisco, Ferry Building, San Francisco, CA 94111.

Agreement No. T-2743, between the San Francisco Port Commission (Port) and American President Lines, Ltd. (APL), is a license, under which the Port will provide APL with a containership terminal at Pier 94 East, San Francisco, CA. The facility will include (a) 35 acres for shipside, container yard, gate, container freight station, and other support services; (b) two berths consisting of a

minimum of 1,550 lineal feet; (c) two container cranes; and (d) a container freight station, maintenance, and repair facility, transit shed, administration building, and other ancillary facilities. APL occupancy of the facility under the license will be for a term ending January 1, 1980, subject to revocation by the Port on 30 days' notice. As compensation, the Port is to receive all tariff charges applicable to APL's operations in connection with the facility, plus 27½ cents per square foot per month for area used in the Administration Building. The agreement provides for an option, however, under which APL may pay the Port an annual minimum of \$975,000 for the rights under the license and 15,000 square feet of the Administration Building. Any tariff receipts over the minimum will be divided equally up to the amount of \$1,200,000 annually at which point APL will retain all tariff charges.

Dated: February 27, 1973.

By order of the Federal Maritime Commission.

#### INACTIVE TARIFFS

##### Notice of Intent To Cancel

The domestic offshore files of the Federal Maritime Commission contain several tariffs which have for a period of time been classified as inactive either due to the absence of any tariff changes for a period of 1 year or longer or because the Commission's staff has been unable to correspond with the tariff filers or because the Commission's staff has been advised that the tariff filers no longer offer a common-carrier service. The following carriers, including their

last known address, fall into the "inactive tariff" category.

B & R Tug and Barge, Inc., 400 Norton Building, Seattle, Wash. 98104.  
Berger Transportation Co., Ames Terminal, Seattle, Wash.  
Boyer Towing, Inc., Box 443, Ketchikan, AK 99901.

Brito Shipping Corp., 43-45 Throop Avenue, Brooklyn, NY 11206.  
Capitol Transportation, Inc., General Post Office Box 3008, San Juan, PR 00936.  
Caribe Shipping, Inc., 1134 Broadway, Brooklyn, NY.

Carib Star Line, Inc., 617 Parque Street, Santurce, PR 00909.  
Chasqui Moving & Storage, Inc., 911 Longwood Avenue, Bronx, NY 10459.

Cymcon Barge Lines, Inc., 233 Broadway, New York, NY 10007.  
Felix Moving Co., 587 East 168th Street, Bronx, NY 10472.

Figueras Deliveries & Moving, 1813 Southern Boulevard, Bronx, NY 10460.  
Golden Arrow Hydrofoil Corp., 20 Evergreen Place, East Orange, NJ 07018.

Gulf Alaska Shipping Corp., 610 Bank of the Southwest Building, Houston, Tex. 77102.  
Hawaii Container Service, 330 Cypress Street, Oakland, CA 94607.

Hawaiian Freight Service, Inc., Bush Terminal Building 57, Brooklyn, NY.  
Hawaiian Pacific Line, Inc., 625 Market Street, San Francisco, CA.

Hawaiian Water Transportation Corp., 1025 Ala Moana Boulevard, Honolulu, HI.  
Isbrandtsen Steamship Co., a division of American Export Lines, Inc., 26 Broadway, New York, NY 10004.

Kahane Trucking Co., 10923 South Painter Avenue, Santa Fe Springs, CA 90670.  
Kay Transport Co., Inc., Box 9605, Baltimore, MD 21237.

Los Hermanitos Shipping Co., Inc., 43-45 Throop Avenue, Brooklyn, NY 11206.  
Lykes Bros. Steamship Co., Inc., Post Office Box 53068, New Orleans, LA 70150.

Major Van Lines, Inc., 601 Ocean Avenue, Jersey City, NJ 07305.  
P. D. M., Inc., 811 Traction, Los Angeles, CA 90013.

Pan American Express, 2612 West Division Street, Chicago, IL 60622.  
Pope & Talbot, Inc., 1 Bush Street, San Francisco, CA 94105.

Rico Shipping Co., 1997 Third Avenue, New York, NY.  
Roho Enterprises, Inc., 10637 Northeast Second Place, Bellevue, WA 98004.

Signal Terminals, Inc., 1645 Daisy Avenue, Long Beach, CA 90803.  
States Marine-Island Agency, Inc., Post Office Box 1540, Stamford, CT 06904.

Transoceanic Navigation Co., Post Office Box 7514, Honolulu, HI 96821.  
Virgin Islands Hydroline, Inc., Post Office Box 639, St. Thomas, VI 00801.

Weeks Moving & Storage Corp., 55 Maple Avenue, Rockville Centre, NY 11570.  
X-Presso Parcel Service, Inc., 796 Southern Boulevard, Bronx, NY 10455.

Inactive tariffs reflect inaccurate information to the shipping public and serve no useful purpose in the Commission's files. Further, Rule 18(g) of Tariff Circular No. 3, as amended (46 CFR 531.18(g)), requires the cancellation of inactive tariffs; and, accordingly, the Commission proposes to cancel these tariffs in the absence of a showing of good cause as to why they should not be cancelled.

Now, therefore it is ordered, That the above carriers advise the Director, Bureau of Compliance at 1405 I Street NW.,

#### NOTICES

Washington, DC 20573, in writing on or before April 5, 1973, of any reasons why the Commission should not cancel inactive tariffs.

It is further ordered, That a copy of this order be sent by registered mail to the last known address of the carriers listed herein;

It is further ordered, That the tariffs of all carriers named herein not responding to this order be, and they are in such event hereby cancelled;

It is further ordered, That this notice be published in the FEDERAL REGISTER and a copy thereof filed with any tariff cancelled pursuant to this notice.

By the Commission pursuant to authority delegated by section 7.15 of Commission Order No. 1 (Revised) dated September 29, 1970.

FRANCIS C. HURNEY,  
Secretary.

[FR Doc. 73-4247 Filed 3-5-73; 8:45 am]

[Docket No. 73-7; Agreement No. T-2719]

#### PORT OF HOUSTON AUTHORITY AND LOUIS DREYFUS CORP.

##### Order of Investigation and Hearing

On December 27, 1972, an agreement, whereby the Port of Houston Authority (PHA) will lease the grain elevator facilities at Houston, Tex., for a period of 10 years to Louis Dreyfus Corp. (Dreyfus), was filed with the Commission for: (1) Determination as to the applicability of section 15 of the Shipping Act, 1916 (Act); or (2) approval pursuant to the provisions of section 15 of the Act. The agreement, designated Agreement T-2719, was noticed in the FEDERAL REGISTER on January 5, 1973, and protests were filed by the West Gulf Maritime Association (WGMA), the International Longshoremen's Association, South Atlantic and Gulf Coast District (ILA), and Cook Industries, Inc. (Cook).

The lease provides that Dreyfus will operate the grain elevator facilities, which were constructed with public funds and operated by PHA as the only public grain elevator in the Port of Houston, for its exclusive use. If, in Dreyfus' sole discretion, the entire facility is not required for Dreyfus' use, then others may use the excess capacity. Moreover, the lease will grant to Dreyfus the prior right to use the berths and berthing facilities in conjunction with the leased premises, will grant to Dreyfus the unabridged right to establish rules and regulations governing the operation of the grain elevator and the use of the berths and berthing facilities, and provides that Dreyfus will not be required to hire PHA employees or to assume any employee agreement that preexisted the lease.

In consideration for these provisions, Dreyfus will pay a rental fee of \$1,006,000 per annum, will make any improvements necessary to bring the elevator facilities into compliance with all "laws, regulations, rules, or orders of duly constituted governmental bodies or agencies with . . . authority over emissions or discharges which affect or may affect the

environment", and with the Occupational Safety and Health Act of 1970.

Finally, the agreement is subject to a prior lease of a portion of the facilities to the I. S. Joseph Co. (Joseph), which is detailed in the Commission's order to show cause issued this date.

The ILA has been staffing and manning the elevator facilities at Houston under contracts governing wage rates, hours, and conditions of employment which are consistent with the same paid other ILA employees at the Port of Houston.

Since Dreyfus is not bound by any labor agreements preexisting the lease, and PHA will discharge or transfer its present employees, the ILA claims that substandard wages, hours, and conditions of employment will probably prevail at the elevator if the agreement is approved. Such a situation allegedly will jeopardize the position of the ILA at other private elevators in the Port of Houston and will be contrary to the best interests of the United States. Moreover, the decreased flow of grain which the ILA claims will necessarily result from the reduction of many users of the elevator to one, will require fewer ILA employees, and therefore, will be contrary to the best interests of the United States, and detrimental to the free flow of commerce.

The members of WGMA are engaged in the operation, handling, and stevedoring of vessels in the foreign commerce into and out of Houston. Its objections to approval of the agreement are: (1) That the elevator facilities were constructed with public funds, heretofore served the public on a nondiscriminatory basis, and under the agreement, will be turned over to a private concern for its own use with no public control over its operations; (2) that it is unfair and discriminatory to grant Dreyfus preferential use of two of Houston's limited berthing facilities without providing substitute berths for waiting vessels; and (3) that Dreyfus' refusal to serve common carriers is unfair and discriminatory to common carriers subject to the Commission's jurisdiction and protection, because this tariff provision is an attempt to remove the agreement from the Commission's jurisdiction.

Cook is, inter alia, a grain merchandizer which has used 66 to 87 percent of the Houston grain elevator facilities over the past 4 years. It unsuccessfully attempted to secure the lease of the Houston grain elevator facilities, but was outbid by Dreyfus.

Cook's objections to approval are: (1) Based on revenues the elevator has generated in the past, Dreyfus' operation of the elevator facility will return insufficient profits to pay the rental fees of \$1,006,000 per annum; (2) based on limited information regarding Dreyfus' financial condition, Cook questions its ability to meet the rental fees and expenditures for improvements under the lease, thus endangering PHA's ability to earn a fair compensation for the entire lease term; (3) Cook will be excluded as a Texas-Gulf exporter of grain because Houston is the only port with sufficient

## NOTICES

storage and handling capabilities and adequate rail facilities to handle Cook's grain requirements; and (4) Dreyfus' decision to exclude common carriers will adversely affect the small grain exporters that use common carrier services.

Moreover, Cook claims that implementation of the agreement will cause a diversion of traffic from Houston because Dreyfus will not ship as much grain and the small exporter, which uses common carriers will be excluded from the facility. As a result, the Port suffers the loss of revenues.

For these reasons, Cook alleges that the agreement grants Dreyfus an undue and unreasonable preference and advantage to the undue and unreasonable prejudice of Cook and other grain exporters in violation of section 16 first, and constitutes an unreasonable practice by PHA in violation of section 17.

The jurisdictional questions presented by Agreement T-2719 lend themselves to early resolution by affidavits of fact and memoranda of law and are being considered in a separate order to show cause issued this day.

*Now, therefore, it is ordered,* That pursuant to sections 15 and 22 of the Shipping Act, 1916, an investigation be instituted to determine:

1. Whether Agreement T-2719, if found subject to the requirements of section 15, should be approved, disapproved, or modified pursuant to that section;

2. Whether the implementation of Agreement T-2719 will result in any practice which will subject any person, locality, or description of traffic to undue or unreasonable prejudice or disadvantage in violation of section 16 of the Shipping Act, 1916 (46 U.S.C. 815);

3. Whether the implementation of Agreement T-2719 will result in any practice which is unjust or unreasonable in violation of section 17 of the Shipping Act, 1916 (46 U.S.C. 816);

*It is further ordered,* That PHA and Dreyfus be made respondents, and that Cook, WGMA, and ILA be made petitioners in this proceeding;

*It is further ordered,* That this matter be assigned for public hearing before an administrative law judge of the Commission's Office of Administrative Law Judges and that the hearing be held at a date and place to be determined and announced by the Presiding Administrative Law Judge;

*It is further ordered,* That notice of this order be published in the FEDERAL REGISTER, and that a copy thereof and notice of hearing be served upon respondents and petitioners;

*It is further ordered,* That any person, other than respondents, petitioners, and the Commission's Bureau of Hearing Counsel, who desires to become a party to this proceeding and participate therein, shall file a petition to intervene with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, with copies to all parties;

*And it is further ordered,* That all future notices issued by or on behalf of the Commission in this proceeding, including notice of time and place of hearing or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY,  
Secretary.

[FR Doc. 73-4248 Filed 3-5-73; 8:45 am]

[Docket No. 73-8; Agreement No. T-2719]

# PORT OF HOUSTON AUTHORITY AND LOUIS DREYFUS CORP.

## Order To Show Cause

On December 27, 1972, an agreement, whereby the Port of Houston Authority (PHA) will lease the grain elevator facilities at Houston, Tex., for a period of 10 years to Louis Dreyfus Corp. (Dreyfus), was filed with the Commission for: (1) Determination as to the applicability of section 15 of the Shipping Act, 1916 (Act); or (2) approval pursuant to the provisions of section 15 of the Act. The agreement, designated Agreement T-2719, was noticed in the Federal Register on January 5, 1973, and protests, detailed in an order of investigation issued this date, were filed by the West Gulf Maritime Association (WGMA), the International Longshoremen's Association (ILA), and Cook Industries, Inc. (Cook).

The grain elevator facilities that are the subject of the proposed lease were constructed with public funds, are operated by PHA, and are the only public grain elevator facilities in Houston.

The lease provides, inter alia, that Dreyfus will operate these facilities as a grain elevator in connection with shipments to and from Houston, will receive prior right to use the berths and berthing facilities in conjunction therewith, will not be required to hire PHA employees, or to assume any employee agreement that preexisted the lease, and will establish rules and regulations governing the operation of the grain elevator and the use of the berths and berthing facilities. If neither Dreyfus nor its affiliates require use of the entire facility, then Dreyfus, in its sole discretion, may serve others desiring to use the excess capacity.

Finally, the agreement is subject to a prior lease of a portion of the facilities to the I. S. Joseph Company (Joseph), which is engaged in pelletizing "... a number of different soft or powdery substances or ingredients" and in exporting the pelletized product. Presently, PHA loads this pelletized product into vessels, including common carriers, calling at the elevator facility.

On January 30, 1973, Dreyfus filed its proposed tariff with the Commission, and among its provisions is the following:

Common carriers by water, as defined by the Shipping Act of 1916, shall not be accepted for loading at the elevator.

By this tariff provision, Dreyfus' claims that it is not an "other person subject to the Act" as defined in section 1 of the Act, and therefore, the agreement is not subject to section 15.

The Port of Houston Authority files a terminal tariff with this Commission, and is an "other person subject to the Act", but there is some question regarding Dreyfus' status under section 1 of the Act. The terms of Agreement T-2719 do not preclude Dreyfus from serving common carriers by water, and it is the agreement which must be considered by the Commission in determining whether approval is required under the standards of section 15. Moreover, the agreement is subject to the lease between PHA and Joseph, whereby PHA has been loading Joseph's pelletized products into vessels, including common carriers by water. Thus, despite Dreyfus' tariff provision denying service to common carriers, it may have to provide terminal service to common carriers pursuant to the Joseph lease.

The jurisdictional questions presented by Agreement T-2719 lend themselves to early resolution by affidavits of fact and memoranda of law. The factual questions presented by the protests to Agreement No. T-2719 will be considered in a separate order of investigation and hearing issued this day.

*Now, therefore, it is ordered,* That, pursuant to sections 15 and 22 of the Shipping Act, 1916, Dreyfus and PHA be named respondents in this proceeding and that they be ordered to show cause why Dreyfus should not be found to be an "other person subject to the Act" as defined in section 1 of the Act;

*It is further ordered,* That Dreyfus and PHA be ordered to show cause why Agreement T-2719 should not be found subject to section 15 of the Act;

*It is further ordered,* That there appearing to be no material issues of fact in dispute regarding the jurisdictional issues arising under section 15, this proceeding shall be limited to the submission of affidavits and memoranda of law and replies thereto. Should any party feel that an evidentiary hearing be required, that party must accompany any request for such hearing with a statement setting forth in detail the facts to be proven, their relevance to the issues in this proceeding, and why such proof cannot be submitted through affidavit. Requests for hearing shall be filed on or before March 14, 1973. Affidavits of fact and memoranda of law shall be filed by respondents and served upon all parties no later than the close of business March 14, 1973. Reply affidavits and memoranda of law shall be filed by the Commission's Bureau of Hearing Counsel and intervenors, if any, no later than the close of business March 26, 1973. Time and date of oral argument if requested and/or deemed necessary by the Commission will be announced at a later date.

*It is further ordered,* That a notice of this order be published in the FEDERAL REGISTER and that a copy thereof be served upon respondents.

*It is further ordered,* That persons other than those already party to this proceeding who desire to become parties to this proceeding and to participate therein shall file a petition to intervene

pursuant to Rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) no later than close of business March 9, 1973.

*It is further ordered,* That all documents submitted by any party of record in this proceeding shall be directed to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, in an original and 15 copies as well as being mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY,  
Secretary.

## FEDERAL POWER COMMISSION

[Docket No. RP73-57]

### SOUTH TEXAS NATURAL GAS GATHERING CO.

#### Notice of Change in Purchase Gas Adjustment Clause

FEBRUARY 26, 1973.

Take notice that South Texas Natural Gas Gathering Co. (South Texas) on February 7, 1973, tendered for filing a revised substitute page 1 to the notice of change in rate which became effective as of January 10, 1973, and a Substitute Exhibit A-1. South Texas states that both of these sheets reflect a base purchase gas cost as of January 10, 1973, of 21.02 cents per Mcf, instead of 21.65 cents per Mcf shown on the sheets submitted on December 4, 1972.

By paragraph (D) of the Commission's order issued January 10, 1973, in Shell Oil Co. et al., Dockets Nos. C172-240 et al., including South Texas Natural Gas Gathering Co., Docket No. RP73-57, the Commission accepted South Texas' revised PGA clause to become effective as of the date of the issuance of that order. South Texas had submitted its PGA clause on October 17, 1972, and had submitted a revision to its PGA clause on December 4, 1972. As revised, Exhibit A-1 to South Texas' PGA clause reflected a base purchase gas cost of 21.65 cents per Mcf which was anticipated to be effective as of the termination of the suspension period in Docket No. RP73-57. Since the Commission's order of January 10, 1973, terminated the suspension period in Docket No. RP73-57 as of that date, South Texas says that it is appropriate to revise the base purchase gas cost in the PGA clause to reflect more accurately the base purchase gas cost as of that date.

South Texas requests that these sheets be made effective as of January 10, 1973, in accordance with the Commission's order of that date.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 13, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make pro-

testants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

## FEDERAL RESERVE SYSTEM

### BANKAMERICA CORP.

#### Proposed Acquisition of GAC Finance, Inc.

Bankamerica Corp., San Francisco, Calif., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b) (2) of the Board's Regulation Y, for permission to acquire voting shares of GAC Finance, Inc., Allentown, Pa., and thereby to acquire indirectly shares of 145 active subsidiaries of GAC Finance, Inc., all doing business under the name of GAC Finance, Inc. Notice of the application was published on November 29 or 30, 1972, in each of the regional editions of The Wall Street Journal and was published or is in the process of publication in newspapers of general circulation in each of the communities in which is located one or more of the 408 offices of GAC Finance, Inc. located in the United States and to be retained by applicant if the proposed transaction is consummated. The offices of subsidiaries of GAC Finance, Inc. located in California would be promptly sold by applicant to an unaffiliated third party in the event of consummation of the proposed transaction. The subsidiaries of GAC Finance, Inc., operate offices in the District of Columbia and every State other than Alaska, Arkansas, Delaware, Hawaii, Maine, Nevada, Utah, Vermont, and Wisconsin.

Applicant states that the proposed subsidiary would engage in the activities of making direct loans to consumers; purchasing sales finance paper; financing inventory of distributors of and dealers in various consumer durable goods through agreements with manufacturers in the case of distributors and with distributors in the case of dealers; servicing manufacturer-funded receivables arising from inventory financing by certain manufacturers of consumer durable goods; rediscount financing for nonaffiliated consumer finance and consumer sales finance companies; and sale to its direct consumer borrowers of credit life and credit health and accident insurance and of insurance coverage against damage to personal property securing extensions of credit made by the subsidiary to its direct consumer borrowers. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, in-

creased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 27, 1973.

Board of Governors of the Federal Reserve System, February 27, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
Assistant Secretary of the Board.

## FIRST INTERNATIONAL BANKSHARES, INC.

### Acquisition of Bank

J 84-000, Folio 6675, 31-10

First International Bankshares, Inc., Dallas, Tex., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Park Cities Bank & Trust Co., Highland Park (Dallas), Tex. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than March 27, 1973.

Board of Governors of the Federal Reserve System, January 27, 1973.

#### WESTERN & SOUTHERN LIFE INSURANCE CO.

##### Determination Regarding "Grandfather" Privileges

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of \$60 million on or after December 31, 1970, the Board is required to make such a determination within a 2-year period.

Notice of the Board's proposed review of the grandfather privileges of the Western & Southern Life Insurance Co., Cincinnati, Ohio, and an opportunity for interested persons to submit comments and views or request a hearing, has been given (37 FR 22414). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in section 4(a)(2) of the Act.

On the evidence before it, the Board makes the following findings. The Western & Southern Life Insurance Co., Cin-

cinnati, Ohio (Registrant), became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the Act, by virtue of Registrant's ownership of substantially all the voting shares of The Southern Ohio Bank, Cincinnati, Ohio (Bank) (assets of about \$110 million, as of December 31, 1970). Bank, control of which was acquired by Registrant in April 1968, had total deposits of approximately \$115 million as of December 31, 1971, representing under 5 percent of the total deposits of the 37 commercial banks in the Cincinnati banking market. Bank's management, financial condition, and prospects are regarded as good, and the Board has found no evidence of unsound banking practices.

Registrant, a mutual life insurance company since 1948 (converted from a stock company organized in 1888), is engaged in investing and in the business of selling, underwriting, and issuing individual and group life insurance, accident and health policies as well as selling individual annuity contracts and apparently has engaged in such activities continuously since before June 30, 1968. In addition, Registrant has four other direct subsidiaries and one indirect subsidiary, all of which are engaged in nonbanking activities. The Waslic Management Corp., Cincinnati, Ohio (formed in July 1946) manages apartment buildings and commercial buildings owned by Registrant in Hamilton County, Ohio. Ronado Management Co., Los Angeles, Calif. (formed in January 1969), manages apartment buildings and commercial buildings owned by Registrant in Los Angeles, Calif. WestAd, Inc., Cincinnati, Ohio (formed in May 1970), prepares copy or scripts and arranges for publication or broadcasting of advertising for Registrant and two of its subsidiaries. Eagle Savings Association, Cincinnati, Ohio (acquired in April 1970), with savings capital of approximately \$213 million, as of December 31, 1971, is the largest savings and loan association in Hamilton County as well as in the Cincinnati banking market; and controls over 10 percent of savings capital at savings and loan associations headquartered in the county and close to 9 percent of total savings capital in the Cincinnati market area. Eagle Investment Co., Cincinnati, Ohio (formed in March 1971), is a wholly owned subsidiary of Eagle Savings Association and is engaged in the activity of purchasing and developing real estate for sale to others as permitted under Ohio law.

It appears that the direct activities of Registrant and the activities of the Waslic Management Corp. are eligible for grandfather benefits. To the extent that Waslic Management Co. furnishes services solely to the bank holding company, such activity appears to be exempt, under section 4(c)(1)(C) of the Act,

<sup>1</sup> Section 4(c)(1)(C) of the Act enables a holding company to acquire (without) Board approval "(1) shares of any company engaged . . . solely in . . . (C) furnishing services to or performing services for such bank holding company or its banking subsidiaries; . . ."

from the general prohibitions against nonbanking activities. Registrant acquired its interests in its other nonbanking subsidiaries after June 30, 1968; consequently, such subsidiaries seem not to be entitled to grandfather authority for retention beyond December 31, 1980. However, to the extent that Ronado Management Co. or WestAd is engaged in performing services for Registrant or its banking subsidiary, such activities would appear to warrant exemption under section 4(c)(1)(C) of the Act. Eagle Savings Association does not appear to qualify for grandfather benefits nor for exemption under any provision of the Act; thus, Registrant must reduce its interest in such subsidiary to 5 percent or less of the outstanding shares of such subsidiary by December 31, 1980, unless, in the interim, the Registrant receives Board approval for retention (or ceases to be a bank holding company). In addition, Registrant acquired its interest in Eagle Investment Co. after December 31, 1970, and without Board approval (which is required under the Act). On this basis, Registrant should take prompt steps to divest itself of its interest in that company unless Registrant can demonstrate that its interest in Eagle Investment Co. is lawful under the Act.<sup>2</sup>

The total resources of banks, savings and loan associations, and insurance companies in the Cincinnati banking market as of December 31, 1971, was over \$8 billion. Registrant, which operates some 400 offices in 30 States, had total assets of slightly less than \$2 billion on this date or about 24 percent of the total. Bank and Eagle Savings Association represent an additional 1.4 percent and 2.6 percent, respectively. However, because of the broad geographic area over which Registrant's interests are spread, the above 24-percent figure substantially overstates Registrant's resources available to the Cincinnati market. The record shows that 36 commercial banks, 195 savings and loan associations and 23 mortgage companies currently operate in the Cincinnati market and compete with Registrant. Furthermore, Bank does not appear to be of sufficient size to add measurably to Registrant's influence in the market; there is no evidence that Registrant has used Bank to finance other ventures of Registrant; Registrant has not taken any dividends from Bank; and Registrant must either divest itself of Eagle Savings Association (or cease to be a bank holding company) by Decem-

<sup>2</sup> Registrant (in its Registration Statement filed with the Board) indicates that its interest in Eagle Investment Co. is permissible under section 4(c)(11) of the Act. To the extent the activities engaged in by Eagle Investment were performed by Registrant on or before June 30, 1968, and continuously thereafter until taken over by a de novo corporation (through the formation of Eagle Investment Co.), such activities would be entitled to grandfather benefits and, under the provisions of section 4(c)(11) of the Act, Registrant would have the authority to hold the shares of Eagle Investment Co. Not enough information is available now to the Board to determine the validity of Registrant's claim with respect to the interest in Eagle Investment Co.

ber 31, 1980, or secure Board approval to retain the S. & L. beyond that date.

On the basis of the foregoing and all the facts before the Board, it appears that the volume, scope, and nature of the activities of Registrant and its grandfathered subsidiaries do not demonstrate an undue concentration of resources, decreased or unfair competition, conflicts of interest nor unsound banking practices.

There appears to be no reason to require Registrant to terminate its grandfathered interests. It is the Board's judgment that, at this time, termination of the grandfather privileges of Registrant is not necessary in order to prevent an undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. However, this determination is not authority to enter into any activity that was not engaged in on June 30, 1968, and continuously thereafter, or any activity that is not the subject of this determination. Nor is this determination authority for Registrant to acquire any additional real property or any additional shares of any company if the Registrant's holdings in said company will exceed 5 percent of the outstanding voting shares of such company.

A significant alteration in the nature or extension of Registrant's activities or a change in location thereof (significantly different from any described in this determination) will be cause for a reevaluation by the Board of Registrant's activities under the provisions of section 4(a)(2) of the Act, that is, whenever the alteration or change is such that the Board finds that a termination of the grandfather privileges is necessary to prevent an undue concentration of resources or any of the other evils at which the Act is directed. No merger, consolidation, acquisition of assets other than in the ordinary course of business, nor acquisition of any interest in a going concern, to which the Registrant or any nonbank subsidiary thereof is a party, may be consummated without prior approval of the Board. Further, the provision of any credit, property, or service by the Registrant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970.

The determination herein does not preclude a later review by the Board of Registrant's nonbank activities and a future determination by the Board in favor of termination of grandfather benefits of Registrant. The determination herein is subject to the Board's authority to require modification or termination of the activities of Registrant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulation and orders issued thereunder, or to prevent evasions thereof.

By determination of the Board of Governors, effective February 26, 1973.

[SEAL] TYNN SMITH,  
Secretary of the Board.

#### GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.; Temporary Reg. F-170]

##### SECRETARY OF DEFENSE

##### Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in a telephone services rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d)(40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the City Council of El Paso, Tex., in a proceeding involving the application of Mountain Bell Telephone Co., for a telephone rate increase.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,  
Acting Administrator  
of General Services

#### SECURITIES AND EXCHANGE COMMISSION

[70-5309]

##### CENTRAL AND SOUTH WEST CORP.

Notice of Proposed Amendment of Certificate of Incorporation To Split Authorized Common Stock Two-for-One, and Order Authorizing Solicitation of Proxies in Connection Therewith

FEBRUARY 28, 1973.

Notice is hereby given that Central and South West Corp., 300 Delaware Avenue, Wilmington, DE 19899 (Central), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6 and 7 of the Act and Rules 20, 23, 62, and 100(a) promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Central proposes, by amendment to its Certificate of Incorporation, to effect a two-for-one split of its authorized common stock of 24 million shares, par value \$7 per share. The proposed split would result in 48 million shares of authorized common stock with par value of \$3.50 per share. Central's board of directors has proposed the split in the interests of encouraging wider ownership of Central's shares of common stock and making them more attractive to a larger segment of investors. Presently, there are approximately 31,000 Central common stockholders of record.

Central intends to present the proposed amendment to its shareholders effecting the two-for-one split at its annual shareholders' meeting on April 19, 1973, and to solicit proxies in connection with the said meeting. The affirmative vote of a majority of the outstanding shares is required for adoption of the amendment. Central has filed its proxy solicitation materials for acceleration of the effectiveness of its declaration with respect to the solicitation as provided in Rule 62. The cost of solicitation, which will be borne by Central, is estimated at

\$13,000, principally consisting of printing and mailing costs.

If the amendment is adopted and made effective, Central proposes to issue to each stockholder of record stock certificates for a number of shares of its common stock, par value of \$3.50 per share, equal to the number of shares registered in his name. Stockholders will not be required to surrender outstanding stock certificates.

It is estimated that the fees and expenses of the transaction, excluding the costs associated with the solicitation of the proxies is \$116,000, including additional stock exchange listing fees of \$60,000 and transfer agents' expenses of \$36,500. Central represents that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 2, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of law or fact raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It appearing that the declaration regarding the proposed solicitation of proxies should be permitted to become effective forthwith pursuant to Rule 62:

*It is ordered*, That the declaration regarding the proposed solicitation of proxies, be and hereby is, permitted to become effective forthwith pursuant to Rule #2 and subject to the terms and conditions prescribed in Rule 24 under the Act.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL]

RONALD F. HUNT,  
Secretary.

### INVESTORS DIVERSIFIED SERVICES, INC., AND INVESTORS SYNDICATE OF AMERICA, INC.

#### Notice of Filing of Application for Order Exempting Proposed Transactions

Notice is hereby given that Investors Diversified Services, Inc., IDS Tower, Minneapolis, Minn. 55402 (IDS), and its wholly owned subsidiary, Investors Syndicate of America, Inc. (ISA), which is registered under the Investment Company Act of 1940 (Act) as a face-amount certificate company (hereinafter sometimes referred to collectively as Applicants), have filed an application pursuant to section 17(b) of the Act for an order of the Commission exempting from the provisions of section 17(a) of the Act the sale by IDS to ISA of certain noninsured home improvement loans in exchange for cash. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

IDS proposes to sell to ISA for cash approximately, but no more than, \$10 million of noninsured home improvement loans (amounts as given herein refer to unpaid principal balance less unamortized discount, except as otherwise noted). Inasmuch as IDS is an affiliated person of ISA, the foregoing transaction is prohibited by section 17(a) of the Act unless exempted pursuant to section 17(b) of the Act.

ISA is required to invest its assets, in amounts equal to its face-amount certificate reserves and capital stock requirement, in qualified investments. Under section 28(b) of the Act, qualified investments are defined to mean invest-

ments of a kind which life insurance companies are permitted to invest in or hold under the provisions of the Code of the District of Columbia, and such other investments as the Commission shall by rule, regulation, or order authorize as qualified investments.

The Commission on February 9, 1960, issued an order (Investment Company Act Release No. 2973) which authorized, as qualified investments for ISA, property improvement loans insured by the Commissioner of the Federal Housing Administration (FHA) under the provisions of Title I of the National Housing Act. Under that order ISA limited its holdings of such insured property improvement loans to an amount not in excess of 15 percent of its total qualified investments.

The Commission on March 4, 1965, also issued an order (Investment Company Act Release No. 4178) which authorized, as qualified investments for ISA, uninsured property improvement loans. The maximum principal amount of an uninsured loan was limited to \$5,000 per property, regardless of the number of units of which the property might be comprised. Obligors on uninsured loans were to be required to have an interest in the property of the kind prescribed by the FHA regulations for FHA-insured loans. The aggregate amount of loans purchased by ISA, both FHA-insured and uninsured, could not exceed 15 percent of ISA's total qualified investments, provided that not more than 5 percent of ISA's total assets could be invested in uninsured loans.

From 1960 to 1967 Investors Syndicate Credit Corp. (ISCC), a then wholly-owned subsidiary of ISA, generated, sold, and serviced both insured and, since 1965, uninsured loans for ISA. In 1967, pursuant to a declaration of dividends in kind, ISCC became a wholly-owned subsidiary of IDS (becoming IDS Credit Corp., but referred to herein as ISCC), but continued its business relationships with ISA pursuant to a Commission order (Investment Company Act Release No. 4909).

IDS disposed of ISCC (which thereafter, became FBS Financial, Inc.) in 1971. In connection with such disposition and shortly prior thereto, ISA purchased \$9,850,000 in uninsured loans from ISCC, which purchase was authorized pursuant to the Commission's order of October 28, 1971 (Investment Company Act Release No. 6794), and in connection with such disposition IDS received from ISCC certain loans amounting to \$29.3 million as of December 29, 1972.

Such loans comprise commercial notes, mobile home contracts, miscellaneous retail contracts, land contracts, cottage plan contracts, shell home contracts, and noninsured home improvement loans, the latter including the loans involved in the subject transaction and amounting to \$11.4 million as of December 29,

1972. IDS and ISCC then entered into a servicing agreement dated December 30, 1971, whereby ISCC agreed to collect on such loans and to repurchase all delinquent loans to the extent of its existing reserve for losses. The loans proposed to be purchased by ISA are calculated to provide a net annual yield of 7½ percent. They are seasoned loans with an original term of not more than 60 months and a current average maturity of approximately 20 months. None of said loans is more than 1 monthly payment past due. ISCC will continue to service said loans pursuant to the terms of its servicing agreement with IDS, which terms cover the eventuality of sale of the loans by IDS to an affiliate, and when any of said loans shall prove to be uncollectible, they will be repurchased by ISCC to the extent of the then existing loss reserve maintained by ISCC. To the extent that such loss reserve proves insufficient to cover any such uncollectible loans, IDS will execute to ISA its written agreement that should the loss reserve of ISCC not be sufficient to provide full recourse on any of said loans which prove uncollectible, IDS will repurchase from ISA any of said loans determined in the discretion of ISA to be uncollectible.

Loss experience with respect to noninsured property improvement loans purchased previously, pursuant to the Commission orders referred to above, has been favorable. In face amount, the aggregate amount of such loans purchased by ISA through November 30, 1972, was \$34.8 million, and by said date there had been a total liquidation of \$27.4 million. The aggregate of such loans repurchased and applied against loss reserve by ISCC to such date was \$600,775, or 1.73 percent of the amount purchased. The repurchase percentage with respect to the loans purchased by IDS has been considerably higher than this, but Applicants attribute the difference to the facts that many of the loans purchased by IDS were unseasoned or became the subject of litigation. However, inasmuch as the subject loans now proposed to be purchased by ISA would be only seasoned loans, none of which is more than one monthly payment past due, Applicants believe that ISA's experience with respect to such loans will be similar to its past experience with loans of the same type. Applicants contend that, in any event, ISA would not suffer adverse effects from a higher incidence of default in view of the undertaking to be entered into by IDS to repurchase in event of default.

ISA's holding of Title I and noninsured property loans upon consummation of the proposed transaction will be well within the limits set by previous orders of the Commission noted above. Total ISA holdings of such loans as of November 30, 1972, constituted 2.48 percent of qualified assets, and an additional \$10 million of loans would increase such percentage to 3.48 percent.

The proposed purchase will cover only loans constituting qualified investments as provided in Commission orders dated February 9, 1960, and March 4, 1965, Investment Company Act Releases Nos.

## NOTICES

2973 and 4178, as amended by Investment Company Act Release No. 6170 of August 25, 1970, and by the Commission's order of October 28, 1971, Investment Company Act Release No. 6794, and will conform to said orders as presently in effect.

ISA initiated negotiations for the proposed transaction because ISA is in need of portfolio investments and, in the light of its investment program, is particularly desirous of obtaining short to medium term investments at an attractive yield and with the liquidating features of the loans in question. The 7½ percent yield on the subject loans is higher than the yield generally available in the open market for any other than long-term investments and is particularly attractive in view of the guaranty agreement to be entered into with IDS. IDS, on the other hand, is interested in the transaction because it had taken over the subject loans outside its normal course of business and only to facilitate the disposition of ISCC. IDS borrowed money in order to carry the loans, and IDS is interested in improving its cash and loan positions as a result of the sale.

Applicants believe that the proposed transaction will provide a sound and favorable investment to ISA and that its terms are reasonable and fair and do not involve overreaching on the part of any person concerned. Investment in uninsured loans has been a policy of ISA for a number of years and is consistent with the policy of ISA as recited in its registration statement and reports filed under the Act.

Section 17(a) of the Act, as here pertinent, prohibits an affiliated person of a registered investment company from selling to such registered company any securities or other property unless the Commission, upon application pursuant to section 17(b), grants an exemption from the provisions of section 17(a). Such exemption may be granted if evidence establishes that the terms of the proposed transactions, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned. In addition, the proposed transaction must be consistent with the policy of the registered investment company concerned and with the general purposes of the Act.

Notice is further given that any interested person may, not later than March 23, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in

case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing thereon shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

### MASSACHUSETTS INCOME DEVELOPMENT FUND, INC.

#### Notice of Filing of Application for Order Exempting Sale by Open-End Company

Notice is hereby given that Massachusetts Income Development Fund, Inc., 200 Berkeley Street, Boston, MA 02116, (Applicant), a Massachusetts corporation registered under the Investment Company Act of 1940 (Act) as a diversified, open-end management investment company, has filed an application pursuant to section 6(c) of the Act requesting an order of the Commission exempting from the provisions of section 22(d) of the Act a transaction in which Applicant's redeemable securities will be issued without any sales charge in exchange for substantially all of the assets of Ridgewood Investment Co. (Ridgewood). All interested persons are referred to the

application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Ridgewood, an Ohio corporation, is a personal holding company, all of whose outstanding common stock is held, in the aggregate, by not more than eight individuals and one trust, and is exempt from registration under the Act by reason of the provisions of section 3(c) (1) thereof.

In December 1972, Applicant and Ridgewood negotiated an Agreement and Plan of Reorganization (Agreement) whereby substantially all the assets of Ridgewood, consisting of securities and cash, are to be transferred to Applicant in exchange for shares of \$1 par value capital stock of Applicant. Pursuant to the Agreement, the number of shares of Applicant to be delivered to Ridgewood shall be determined on the business day preceding the closing date, as defined in the Agreement, by dividing the net value of the assets of Ridgewood (subject to certain adjustments as set forth in the Agreement), to be transferred to Applicant by the net asset value per share of Applicant. The application represents that the shareholders of Ridgewood have no present intention of redeeming or otherwise disposing of shares of Applicant following the proposed transaction.

It is a condition of the Agreement that Ridgewood receive prior to the closing an opinion of its counsel to the effect that the proposed exchange constitutes a tax-free reorganization within the meaning of section 368(a) (1) (C) of the Internal Revenue Code, in which case the tax basis of Ridgewood's assets will be carried over to Applicant and remain the same after the transaction (in the hands of Applicant) as before (in the hands of Ridgewood). The adjustment in the Agreement provides a formula to minimize the potential tax effect, if any, to Applicant of any disproportion in realized and unrealized taxable gains and losses of the combining companies.

As of November 10, 1972, the net asset value of Applicant's stock was \$15.11 per share, and the net value of the assets of Ridgewood to be delivered to Applicant was approximately \$771,075. Assuming that the closing under the Agreement had taken place on that date, there would have been no adjustment to the value of assets of Ridgewood to be transferred, and Ridgewood would have received 51,030.77 shares of Applicant in the exchange.

Section 22(d) of the Act provides, in pertinent part, that registered open-end investment companies may sell their shares only at the current public offering price as described in the prospectus. The public offering price of Applicant's shares, as described in its prospectus, includes a sales charge. Section 6(c) of the Act permits the Commission, upon application, to exempt a transaction from the provisions of the Act if it finds that such an exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

The application states that there is no affiliation between Applicant and Ridgewood and that the Agreement was arrived at by arms-length bargaining. The application further contends that the proposed acquisition will be beneficial to the shareholders of Applicant because it will enable Applicant to increase its portfolio size without brokerage commissions, although Applicant does presently intend to sell securities received from Ridgewood representing approximately 29 percent of the market value of Ridgewood as of February 16, 1973. It is also represented that there will be no effect on the market prices of the shares to be acquired, and that the increase in portfolio size will result in reduced expenses per share of Applicant's outstanding stock.

Notice is further given that any interested person may, not later than March 23, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

[812-3388]

#### NATIONAL MUNICIPAL TRUST (FIRST AND SUBSEQUENT NATIONAL AND STATE SERIES)

##### Notice of Filing of Application for Order Granting Exemption

Notice is hereby given that National Municipal Trust (First and Subsequent National and State Series) (Applicant), c/o Kohlmeier & Co., 147 Carondelet Street, New Orleans, LA 70150, a unit investment trust registered under the

Investment Company Act of 1940 (Act), has filed an application pursuant to section 6(c) of the Act for exemption from the provisions of section 14(a) of the Act and Rules 19b-1 and 22c-1 under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Applicant is a registered unit investment trust, organized under the laws of the State of New York. It is intended that the United States Trust Company of New York will act as Trustee of Applicant (Trustee) pursuant to a trust agreement (Trust Agreement) between the Trustee and Kohlmeier & Co., Legg, Mason & Co., Inc., and Piper, Jaffray & Hopwood Inc. (or succeeding sponsors) (Sponsors). Standard & Poor's Corp. will serve as Evaluator with respect to each Series of Applicant.

Pursuant to the Trust Agreement for each Series of Applicant, the Sponsors will deposit with the Trustee in excess of \$3 million principal amount of tax-free municipal bonds (bonds), which the Sponsors shall have accumulated for such purpose, and simultaneously with such deposit will receive from the Trustee registered certificates representing in excess of 3,000 units which will represent the entire ownership of a Series. Applicant presently proposes to offer units of its First Series for sale to the public, and for this purpose a registration statement under the Securities Act of 1933 has been filed which has not yet become effective. Since the Trust Agreement does not provide for the issuance of additional units after the initial offering of a Series, the proceeds of bonds which may be sold, redeemed or which mature will be distributed to unitholders. While the Sponsors are not obligated to do so, it is their present intention to maintain a secondary market for units of the Applicant and continuously to offer to purchase such units at prices in excess of the redemption price, as set forth in the Trust Agreement.

#### SECTION 14(a)

Section 14(a) of the Act, in substance, provides that no registered investment company and no principal underwriter for such a company shall make a public offering of securities of which such company is the issuer unless: (1) The company has a net worth of at least \$100,000; (2) at the time of a previous public offering it had a net worth of \$100,000; or (3) provision is made that a net worth of \$100,000 will be obtained from not more than 25 responsible persons within 90 days, or the entire proceeds received, including sales charge, will be refunded.

Applicant asserts that section 14(a) of the Act is intended to limit the formation of undercapitalized investment companies. Applicant states that it is intended that each Series, at the date of deposit and before any unit is offered to the public, will have a net worth far in excess of \$100,000, that the Sponsors intend to sell all units to the public at an offering price disclosed in the prospectus for such Series, that it is intended that a

secondary market for the units be maintained, and that interest rates and other applicable information concerning the underlying bonds will be disclosed in the prospectus.

The Sponsors have agreed to the requested exemption being subject to the condition that they will refund, on demand and without deduction, all sales charges paid by purchasers of units in the initial public offering of a Series if, within 90 days from the time that the registration statement relating to such Series becomes effective, either (1) the net worth of such Series shall be reduced to less than \$100,000, or (2) such fund shall have been terminated. The Sponsors have further agreed to instruct the Trustee on the date of deposit of each Series that in the event that redemption by the Sponsors of units constituting a part of the unsold units shall result in that Series having a net worth of less than \$2 million, the Trustee shall terminate the Series in the manner provided in the Trust Agreement and distribute any municipal bonds or other assets deposited with the Trustee pursuant to the Trust Agreement as provided therein.

#### RULE 19b-1

Rule 19b-1(b) provides, in part, that no registered investment company which is not a "regulated investment company" as defined in section 851 of the Internal Revenue Code shall make more than one distribution of long-term capital gains in any 1 taxable year of such investment company.

Applicant proposes to make monthly distributions of principal and interest to unitholders of a Series. Distributions of principal constituting capital gains to unitholders may arise in two instances: (1) If an issuing authority calls or redeems an issue held in the portfolio, the sums received by Applicant will be distributed to unitholders on the next distribution date; and (2) if bonds are sold in order to provide funds necessary to meet redemptions.

Applicant states that the dangers against which Rule 19b-1 is intended to guard will not exist in connection with any Series of Applicant, since neither Applicant nor the Sponsors have control over the events which could trigger capital gains. Applicant seeks to make a combined distribution of principal, including capital gains, and interest each month, and states that any capital gains in such distribution will be clearly indicated as such in accompanying reports to unitholders. In addition, it is alleged that the amounts involved in a normal distribution of principal will be relatively small in comparison to the normal interest distribution.

Paragraph (b) of Rule 19b-1 provides that a unit investment trust may distribute capital gain dividends received from a "regulated investment company" within a reasonable time after receipt. Applicant states that the purpose behind such provision is to avoid forcing unit investment trusts to accumulate valid distributions received throughout the year and distribute them only at yearend. Applicant further alleges that its situation

places it squarely within the purpose of such provision. However, in order to comply with the literal requirements of the rule, Applicant would be forced to hold any moneys which would constitute capital gains upon distribution until the end of its taxable year. Applicant contends that such a practice would clearly be to the detriment of the unitholders.

#### RULE 22c-1

Rule 22c-1 provides, in part, that redeemable securities of registered investment companies may be sold, redeemed, or repurchased at a price based on the current net asset value (computed on each day during which the New York Stock Exchange is open for trading not less frequently than once daily as of the time of the close of trading on such Exchange) which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicant states that the rule has two purposes: (1) To eliminate or to reduce any dilution of the value of outstanding redeemable securities of registered investment companies which would occur through the redemption or repurchase of such securities at a price above their net asset value or the sale of such securities at a price based on a previously established net asset value which would permit a potential investor to take advantage of an upswing in the market and the accompanying increase in the net asset value of the securities; and (2) to minimize speculative trading practices in the securities of registered investment companies.

Applicant represents that the Sponsors, while not obligated to do so, intend to maintain a market for the units and continuously to offer to purchase units at prices in excess of redemption prices. For purposes of the secondary market transactions, an evaluation will only be made once each week.

Applicant asserts that the pricing of units by the Sponsors in the secondary market in no way affects the assets of Applicant, i.e., the underlying bonds. Finally, because of the nature of the bonds in the portfolio, price changes are limited. Thus the movement in the municipal bond market is not sufficient to make speculation in an interest in a group of bonds ordinarily profitable.

Applicant asserts that public unit holders benefit from the Sponsors' pricing procedure in the secondary market, since they receive a normally higher purchase price for their units without the cost burden of daily evaluations of the unit redemption value. Moreover, the application states that the Sponsors have undertaken to adopt a procedure whereby the Evaluator, without a formal evaluation, will provide the Sponsors with estimated evaluations on trading days. In the case of a repurchase, if the Evaluator cannot state that the previous Friday's price is at least equal to the current bid price, the Sponsors will order a full evaluation. In case of resale, if the Evaluator cannot state that the previous Friday's price is no more than one-half point (\$5 per \$1,000 principal amount of

underlying bonds) greater than the current offering price, a full evaluation will be ordered.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than March 20, 1973, at 5:30 p.m., submit to the Commission in writing a request for hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

#### STAR-GLO INDUSTRIES INC. Order Suspending Trading

FEBRUARY 27, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, \$0.10 par value, and all other securities of Star-Glo Industries Inc., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c) (5) of the Securities Exchange Act of

1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from February 28, 1973 through March 9, 1973.

By the Commission.

### SMALL BUSINESS ADMINISTRATION

[Delegation of Authority No. 30-VII, Amdt. 1]  
CHIEF, REGIONAL FINANCING DIVISION,  
ET AL.

#### Delegation of Authority To Conduct Program Activities in the Field Offices

Delegation of Authority No. 30-VII (37 FR 17616) is hereby amended to include approval and certain other authority for strategic arms limitation economic injury loans; more clearly define certain other authorities; eliminates references to Class B disasters; and includes authority to contract for local credit bureau services and loss verification services. Parts I, II, and VIII are revised to read as follows:

#### PART I—FINANCING PROGRAM

##### SECTION A. Loan approval authority . . . . .

3. Displaced business and other economic injury loans. a. To decline displaced business loans, coal mine health, and safety loans, strategic arms limitation economic injury loans, consumer protection loans (meat, egg, poultry), occupational safety and health, and economic injury disaster loans in connection with declarations made by Secretary of Agriculture for natural disasters in any amount and to approve such loans up to the following amounts (SBA share):

b. To approve or decline displaced business loans, coal mine health and safety loans, strategic arms limitation economic injury loans, consumer protection loans (meat, egg, poultry), occupational safety and health, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters up to the following amounts (SBA share):

SEC. B. Other financing authority—1. a. To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), strategic arms limitation economic injury loans, occupational safety and health, and coal mine health and safety loan participation agreements with banks:

3. To cancel, reinstate, modify, and amend authorizations:

a. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, strategic arms limitation economic injury loans, and coal mine health and safety loans:

b. For fully undischarged or partially disbursed business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, strategic arms limitation economic injury loans, and coal mine health and safety loans:

c. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, and occupational safety and health, strategic arms limitation economic injury loans, loans personally approved under delegated authority: Not applicable.

#### PART II—DISASTER PROGRAM

SECTION A. Disaster loan authority—1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of (1) \$50,000 per household for repairs or replacement of the home and/or not to exceed an additional \$10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed \$55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to \$50,000; and (2) \$500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan:

(1) Chief and Assistant Chief, Regional Financing Division.  
(2) District Directors.  
(3) Chiefs, District Financing Divisions.  
(4) Disaster Branch Managers, as assigned.

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) in any amount and to approve such loans up to the total SBA funds of \$50,000:

(1) Supervisory Loan Officers, Regional Financing Division.

3. To decline disaster guaranteed loans in any amount and to approve such loans up to an SBA guarantee of the following amounts:

(1) Chief and Assistant Chief, Regional Financing Division... \$500,000  
(2) Supervisory Loan Officers, Regional Financing Divisions... 50,000  
(3) District Directors... 500,000  
(4) Chiefs, District Financing Division... 350,000  
(5) Disaster Branch Managers, as assigned... 350,000

4. To appoint as a processing representative any bank in the disaster area:  
(1) Chief and Assistant Chief, Regional Financing Division.  
(2) District Directors.  
(3) Disaster Branch Managers, as assigned.

SEC. B. Administrative authority—1. Establishment of Disaster Field Offices. (a) To establish field offices upon receipt of advice of the designation of a disaster area and to close disaster field offices when no longer advisable to maintain such offices; and (2) to obligate the Small Business Administration to reimburse the General Services Administration for the rental of temporary office space.

(1) Chief and Assistant Chief, Regional Financing Division.  
(2) District Directors.  
(3) Disaster Branch Managers, as assigned.

2. Purchase and contract authority— a. To contract for local credit bureau services and loss verification services pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that Chapter.

(1) Chief and Assistant Chief, Regional Financing Division.  
(2) District Directors.  
(3) Disaster Branch Managers, as assigned.

#### PART VIII—ADMINISTRATIVE

SECTION A. Authority to purchase, or contract for equipment, services, and supplies—1. To purchase reproductions of loan documents, chargeable to the revolving fund, requested by U.S. attorneys in foreclosure cases:

(1) Chief, Regional Administrative Division.  
(2) District Directors.  
(3) Chief, District Administrative Divisions.

2. To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that Chapter.

(1) Chief, Regional Administrative Division.  
(2) Regional Office Services Manager.  
(3) District Directors.  
(4) Chief, District Administrative Divisions.

3. To rent motor vehicles and garage space for the storage of such vehicles when not furnished by this Administration.

(1) Chief, Regional Administrative Division.  
(2) Regional Office Services Manager.  
(3) District Directors.

Effective date: Part I, Sec. A, 3a and 3b; Sec. B, 1a, 3a, 3b and 3c, Septem-

ber 28, 1972; Parts II and VIII, July 1, 1972.

C. I. MOYER,  
Regional Director,  
Region VII.

### SBA-GUARANTEED SBIC DEBENTURES DUE 1983

#### Notice of Invitation To Bid

The Small Business Administration (SBA), pursuant to the authority of the Small Business Investment Act of 1958, as amended, invites bids for an issue of approximately \$38 million debentures issued by small business investment companies (SBIC's) and guaranteed as to principal and interest by SBA. The exact principal amount will be determined on March 6, 1973, and incorporated in the final papers. A description of the debentures and SBA's guaranty, together with the bid requirements, are set forth in the Notice of Sale. The documents referred to therein are available from SBA. Bids should be submitted in the manner provided by the Official Form of Proposal. The Notice of Sale and the Official Form of Proposal are as follows:

#### NOTICE OF SALE

OF  
\$  
% DEBENTURES DUE MARCH 1, 1983  
FULLY GUARANTEED AS TO PRINCIPAL AND  
INTEREST

BY THE  
SMALL BUSINESS ADMINISTRATION

ISSUED BY  
SMALL BUSINESS INVESTMENT COMPANIES

As more fully described in the Preliminary Prospectus relating thereto, \$ aggregate principal amount of Debentures due March 1, 1983 (the "Debentures") will be issued by certain Small Business Investment Companies and will be fully guaranteed as to principal and interest by the Small Business Administration (the "SBA"). Sealed proposals for the purchase of all the Debentures shall be hand delivered to the Federal Reserve Bank of New York, 33 Liberty Street, New York, N.Y., Northwest Conference Room, on March 13, 1973, and must be received by the SBA at such place prior to 11 a.m. (e.s.t.), at which time and place all proposals will be publicly opened and announced.

Timely payment of the principal of and interest on the Debentures will be guaranteed by the SBA acting pursuant to section 303(b) of the Small Business Investment Act of 1958, as amended, which provides that the full faith and credit of the United States is pledged to the payment of all amounts required to be paid pursuant to this guaranty.

The Debentures, to be issued in principal amounts of \$10,000 each, will be dated and bear interest from March 27, 1973, and will mature on March 1, 1983. The Debentures will not be subject to redemption or prepayment prior to maturity.

The Debentures will bear interest at the rate specified in the proposal of the successful bidder in accordance with this Notice of Sale. Interest will be payable on March 1 and September 1 in each year. The principal of and interest on the Debentures will be payable at the principal office of the Federal Reserve Bank of New York, as Fiscal Agent of the SBA.

As described in the Preliminary Prospectus, the Debentures will be offered pursuant to

Guaranty Agreements<sup>1</sup> covering a specific Debenture or Debentures identified in a debenture register maintained by the SBA. The Debentures represented by the Guaranty Agreements will be held by, and be payable to, the SBA, as bailee for holders of Guaranty Agreements, and the SBA, as collection agent, will remit payments of principal and interest on the Debentures to such holders through its Fiscal Agent. The successful bidder (the term "bidder" as used herein applying to a single bidder or, in the case of a group of bidders, to such group) shall be deemed to have designated the SBA to act as bailee of the Debentures in accordance with the Guaranty Agreement.

Each proposal must be submitted on the Official Form of Proposal referred to in the closing paragraph of this Notice of Sale and must represent a bid of not less than 99 percent nor more than 101 percent of the principal amount of all the Debentures, plus interest thereon accrued to the date of delivery, and must specify in a multiple of  $\frac{1}{4}$  or  $\frac{1}{2}$  of 1 percent the rate per annum of interest which the Debentures are to bear. Only one interest rate may be specified for the Debentures. Each proposal must be enclosed in a sealed envelope and should be addressed to the Small Business Administration in care of the addressee specified in the first paragraph hereof and be marked on the outside, in substance, "Proposal for Debentures." Each proposal must be submitted in duplicate, and each counterpart must be signed by the bidder.

The right is reserved by the SBA pursuant to authority vested in it by the issuing SBIC's to reject all proposals, or any proposal not conforming to this Notice of Sale or not on the Official Form of Proposal (without alteration except for the insertions required by the form). The right is also reserved to waive, if permitted by law, any irregularity in any proposal.

As between legally acceptable proposals complying with this Notice of Sale, the Debentures will be sold to the bidder whose bid shall result in the lowest basis cost of money computed from March 27, 1973, to the maturity date of the Debentures. Such lowest basis cost of money will be determined by reference to a specially prepared table of bond yields, a copy of which is available for examination by prospective bidders at the national office of the SBA. Straight-line interpolation will be applied if necessary. If it should be necessary to make such a determination for a coupon rate not shown in said table of bond yields, reference will be made to other tables of bond yields prepared by Financial Publishing Co. The decision of the SBA, acting pursuant to authority vested in it by the issuing SBIC's, as to the lowest basis cost of money shall be conclusive. If two or more bids provide the identical lowest basis cost of money, the SBA (unless it shall reject all bids) will give the makers of such identical resulting bids an opportunity to submit improved bids within such time as the SBA shall specify, but in no case later than 2 hours after the opening of such bids. If no improved bid is made by the makers of such identical resulting bids within the time specified by the SBA, or if upon such rebidding two or more improved bids again provide the identical basis cost of money, the SBA in its discretion may, within 2 hours after the time specified for such rebidding, accept any one of the identical resulting bids or may reject all bids.

Proposals will be accepted or rejected promptly but not later than 3 p.m. (e.s.t.), on the date set for receiving proposals. When

<sup>1</sup> Filed as part of the original document.

<sup>2</sup> Filed as part of the original document.

the successful bidder has been ascertained, the SBA will promptly accept the proposal of such bidder by executing and delivering to such successful bidder the duplicate of its proposal whereupon the Purchase Agreement attached as an exhibit to the Official Form of Proposal will become effective without any separate execution thereof, and thereafter all rights of SBA, the issuing SBIC's and the successful bidder shall be determined solely in accordance with the terms thereof.

As soon as practicable after the successful bidder is ascertained, the SBA will modify the Preliminary Prospectus relating to the Debentures to reflect the effect of the proposal of the successful bidder, and the document so modified will constitute the Prospectus. The SBA will then furnish the successful bidder with copies of the Prospectus in reasonable quantity as required by it in connection with the public offering and sale of the Debentures, including one copy thereof signed manually by the Administrator or Deputy Administrator of the SBA.

The successful bidder will be furnished, without cost, the opinions of Hogan & Hartson, Special Counsel to the SBA, and the General Counsel of the SBA, as to the validity of the Debentures and the guaranty by the SBA of the payment of the principal of and interest on such debentures, each in substantially the form annexed to the Purchase Agreement.

The successful bidder will also be furnished without cost memoranda prepared by Hogan & Hartson with respect to (1) the status of the Debentures for sale under the securities or blue sky laws of various States and (2) the legality of the Debentures for investment by certain financial institutions in various States.

Messrs. Brown, Wood, Fuller, Caldwell & Ivey, New York, N.Y., will act as counsel for the successful bidder and will furnish an opinion at the closing substantially in the form annexed to the Purchase Agreement. The compensation and disbursements of such counsel are to be paid by the successful bidder under the terms of the Purchase Agreement. Said counsel will, on request, advise any prospective bidders of the amount of such compensation and estimated disbursements to be paid by the successful bidder.

A Guaranty Agreement (in temporary form) representing all the Debentures will be delivered at the office of the Federal Reserve Bank of New York, 33 Liberty Street, New York, N.Y., on March 27, 1973, at 10 a.m. (e.s.t.), or such other place, date, and time as may mutually be agreed upon, at which time the successful bidder shall pay the purchase price by one or more checks payable in Federal funds to the order of "Federal Reserve Bank of New York."

The Guaranty Agreement(s) representing the Debentures will be delivered in definitive form on April 16, 1973 in exchange for the temporary Guaranty Agreement in such denominations (in integral multiples of \$10,000) and registered in such names as shall be requested by the successful bidder on or before April 6, 1973.

Copies of the Preliminary Prospectus dated March 6, 1973, relating to the Debentures, the Official Form of Proposal, the Form of Purchase Agreement and the preliminary blue sky and legal investment memoranda will be furnished upon application to the SBA.

Dated: March 6, 1973.

MARCH 13, 1973.

GENTLEMEN: Subject to the provisions and in accordance with the terms of the attached Notice of Sale (the "Notice of Sale"), which is hereby made a part of this proposal, the undersigned (the "Representatives"), on behalf of the persons, firms, and corporations named in Schedule A of the Purchase Agreement attached hereto (the "Purchase Agreement"), as the same may be changed by the Representatives subject to the provisions hereof (the "Purchasers"), severally and not jointly, hereby offer to purchase (for resale to the public) on the terms and conditions set forth in this proposal and the purchase agreement all of the \$ aggregate principal amount of Debentures due March 1, 1983, to be issued by certain Small Business Investment Companies (SBIC's) and to be fully guaranteed as to principal and interest by the Small Business Administration (the "SBA") (such \$ principal amount of Debentures being hereinafter referred to as the "Debentures"), at the price of percent of the principal amount thereof plus interest accrued thereon from March 27, 1973, to the date of their delivery. The Representatives are Purchasers and represent and warrant to the SBA that they have all necessary power and authority to act for each of the Purchasers.

Said Debentures shall bear interest at the rate of percent per annum.

Receipt of the Notice of Sale, the Purchase Agreement and the Preliminary Prospectus, dated March 6, 1973, prepared in connection with the sale of the Debentures, is hereby acknowledged.

Changes may be made by the Representatives as to the Purchasers (other than the Representatives) set forth in Schedule A and as to the respective principal amounts of Debentures set opposite their respective names in Schedule A, provided that any Debentures not purchased as a result of such changes shall be purchased severally by the Representatives in proportion to their respective commitments hereunder.

If this bid shall be approved by the SBA as resulting in the lowest basis cost of money, computed as provided in the Notice of Sale, the Representatives will, promptly upon receipt of notification from the SBA and prior to completion by the SBA of the form of acceptance set forth below, supply to the SBA any such changes to Schedule A.

In consideration of the agreement of the SBA set forth in the Notice of Sale, the Representatives agree on behalf of each of the Purchasers that: (a) the offer of such Purchaser included in this proposal shall be irrevocable until 3 p.m. (e.s.t.), on the date hereof unless sooner rejected by the SBA; and (b) when all changes, if any, to Schedule A to the Purchase Agreement attached hereto shall be made and this bid accepted by the SBA by execution of the form of acceptance set forth below, said Purchase Agreement shall become effective with-

<sup>1</sup> Filed as part of the original document.

## NOTICES

out any separate execution thereof, and thereafter all rights of the SBA, the SBIC's and of the Purchasers shall be determined solely in accordance with the terms of said Purchase Agreement.

This Official Form of Proposal must be submitted in duplicate and shall be deemed rejected by the SBA unless accepted by the SBA prior to 3 p.m. (e.s.t.), on the date hereof.

Very truly yours,

By \_\_\_\_\_

On behalf of and as the  
Representatives of the per-  
son(s), firm(s), and/or  
corporation(s) named or  
to be named in Schedule  
A to the Purchase Agree-  
ment hereto attached.

Accepted this 13th day of March 1973.

SMALL BUSINESS ADMINISTRATION,  
ANTHONY G. CHASE,  
Deputy Administrator.

% DEBENTURES DUE MARCH 1, 1983

FULLY GUARANTEED AS TO PRINCIPAL AND INTER-  
EST BY THE SMALL BUSINESS ADMINISTRATION

ISSUED BY  
SMALL BUSINESS INVESTMENT COMPANIES  
Purchase Agreement

The undersigned, acting for and in behalf of themselves and the other Purchasers named in Schedule A hereof (herein called the "Purchasers"), for whom they are acting as Representatives for the purposes of this Agreement as set forth below, hereby confirm their agreement with the Small Business Administration (herein called "SBA"), an agency of the United States acting pursuant to authorization on behalf of certain Small Business Investment Companies ("SBIC's"), for the purchase by the Purchasers, acting severally and not jointly, and the sale by the SBIC's of \$ aggregate principal amount of % Debentures due March 1, 1973 to be issued by the SBIC's and to be fully guaranteed as to principal and interest by SBA (such \$ principal amount of % Debentures due March 1, 1983 being hereinafter referred to as the "Debentures"). Each Debenture is to be in the principal amount of \$10,000 and ownership of the Debentures is to be evidenced by Guaranty Agreements (herein called the "Guaranty Agreements") in substantially the form attached hereto as Schedule B. The undersigned represent and warrant that as such Representatives (hereinafter called the "Representatives"), they have been authorized by the other Purchasers to enter into and execute this Agreement on their behalf and to act for them in the manner provided herein.

SECTION 1. *Purchase and sale.* Upon the terms and conditions and upon the basis of the representations, warranties and agreements herein set forth, SBA agrees, pursuant to authorization from the SBIC's, to cause such SBIC's to sell to the Purchasers and the Purchasers agree, severally and not jointly, to purchase from the SBIC's, the respective principal amounts of Debentures set forth opposite the names of the Purchasers in Schedule A hereof at the purchase price set forth in the Form of Official Proposal to which this Purchase Agreement is attached, plus interest, if any, accrued thereon from March 27, 1973 to the date of Closing (hereinafter defined). The Purchasers contemplate a public offering of the Debentures. SBA agrees to (a) assemble the Debentures as agent for the SBIC's for sale to the Purchasers; (b) accept delivery of the Debentures as bailee pursuant to the Guaranty

Agreements; (c) make delivery of the Guaranty Agreements as provided in section 3 hereof; and (d) direct the Federal Reserve Bank of New York to distribute to the SBIC's the purchase price for the Debentures, less any cost incident to the sale of the Debentures (see section 6 herein), paid by the Purchasers to the Federal Reserve Bank of New York for the account of the SBIC's.

SEC. 2. *Representations, warranties, and agreements of SBA.* SBA represents, warrants, and agrees with the Purchasers that:

(a) The Guaranty Agreements, when executed and delivered at the Closing, will be in substantially the form attached hereto as Schedule B and will be legal, valid and binding undertakings of SBA in accordance with their terms.

(b) The Debentures are identified in a debenture register maintained at SBA, and SBA has full power and authority on behalf of the SBIC's to deliver such Debentures in accordance herewith and to receipt for the purchase price therefor upon payment thereof by the Purchasers to the Federal Reserve Bank of New York for the account of the SBIC's.

(c) SBA has full power and authority to accept the Debentures as bailee on behalf of the holders of Guaranty Agreements and upon delivery thereof to SBA as herein and in the Guaranty Agreements provided, the holders of Guaranty Agreements will have title to the Debentures, subject to no prior liens or restrictions.

(d) The guaranty by SBA of the Debentures is in conformity with section 303(b) of the Small Business Investment Act of 1958, as amended, and will be within the limitations set forth in section 4(c)(4)(B) of the Small Business Act and the authority of SBA under and pursuant to Public Law 92-544, in each case after giving effect to all other loans, guarantees and other obligations or commitments outstanding pursuant to Title III of the Small Business Investment Act of 1958.

SEC. 3. *Payment for delivery of debentures—closing.* Payment of the purchase price for the Debentures shall be made at the office of the Federal Reserve Bank of New York, 33 Liberty Street, New York, New York, or at such other places as shall be agreed upon by SBA and the Representatives, at 10 a.m. (e.s.t.) on March 27, 1973 (the "Closing"). The Closing may be postponed to such later time or date as shall be agreed upon by SBA and the Representatives. Such payment shall be made to the Federal Reserve Bank of New York for the account of the SBIC's by the Purchasers, or the Representatives on their behalf, in federal funds, against delivery of the Debentures to SBA, as bailee, pursuant to the Guaranty Agreements and against delivery of the Guaranty Agreements to or upon the order of the Representatives for the respective accounts of the Purchasers. Delivery of the Guaranty Agreements at the Closing shall be effected by delivery to such person, firm or corporation as shall be designated by the Representatives of one Guaranty Agreement in temporary form evidencing ownership of the Debentures.

SEC. 4. *Prospectus.* SBA has heretofore furnished to the Representatives copies of a Preliminary Prospectus relating to the Debentures and Guaranty Agreements. SBA agrees that, as soon as practicable after this Agreement becomes effective, it will complete the Preliminary Prospectus and will make such changes therein as it may deem advisable and as shall be approved by the Representatives as to form and substance and as not involving a material adverse change from the Preliminary Prospectus, and that one or more copies thereof as so completed and changed (the "Prospectus") will be

executed on behalf of SBA by its authorized representative, dated the date the proposal was accepted by SBA, and delivered to the Representatives on or prior to the date of Closing. SBA hereby authorizes the Purchasers to use the Prospectus in connection with the public offering and sale of the Debentures.

SBA represents and warrants to each of the Purchasers that the statements and information contained in the Prospectus at the date thereof and at the date of Closing will be true, correct and complete in all material respects, and the Prospectus as of such times will not omit any statement or information which should be included therein for the purpose for which it is to be used or which is necessary to make the statements and information contained therein not misleading in any material respect, except as such statements and information may have been furnished in writing by the Purchasers expressly for use in the Prospectus.

SEC. 5. *Blue Sky qualification.* SBA agrees to cooperate with the Purchasers in qualifying the Debentures for offering and sale under the securities or Blue Sky laws of such States as may be designated by the Representatives, provided that SBA shall not be required to file any general consent to service of process under the laws of any such State, and that any applications required in connection therewith shall be prepared on behalf of SBA by Special Counsel for SBA and, to the extent permitted by law, filed by such counsel on behalf of SBA.

SEC. 6. *Payment of expenses.* The Purchasers shall be under no obligation to pay any expenses incident to the performance of the obligations of SBA hereunder including, but not limited to, the fees and disbursements of Special Counsel for SBA and the cost of printing or other reproduction and delivery of the Bidding Papers, the Preliminary Prospectus, the Prospectus, the Debentures, the Guaranty Agreements, the memoranda referred to in the notice of sale, and the opinion of the General Counsel of SBA. The Purchasers agree to pay all their expenses, including the fees and disbursements of counsel for the Purchasers, incurred in connection with the debentures or Guaranty Agreements.

SEC. 7. *Conditions of purchasers' obligations.* The obligations of the Purchasers to purchase and pay for the Debentures shall be subject to the accuracy of the representations and warranties on the part of SBA and to the performance of its obligations to be performed hereunder prior to the Closing, and to the following further conditions:

(a) At the time of closing, the Representatives shall have received the favorable opinions of the General Counsel of SBA, Hogan & Hartson, Special Counsel for SBA, and Brown, Wood, Fuller, Caldwell & Ivey, counsel for the Purchasers, each dated the date of closing, substantially in the forms of Exhibits A, B, and C to this Agreement.

(b) At the time of closing, the Representatives shall have received a certificate of SBA dated the date of closing, signed by the Administrator or Deputy Administrator of SBA, to the effect that:

(i) The representations and warranties of SBA contained herein are true and correct, as if made as of the time of closing; and

(ii) The debentures have been delivered to SBA, as bailee, in accordance herewith and pursuant to the Guaranty Agreements.

If any conditions contained in this Agreement shall not be satisfied or if the obligations of the Purchasers shall be terminated for any reason permitted by this Agreement, this Agreement shall terminate and neither

<sup>1</sup> Filed as part of the original document.

## NOTICES

the Purchasers nor SBA nor the SBIC's shall be under further obligation hereunder.

SEC. 8. *Termination of agreement.* The Representatives shall have the right to terminate this Agreement by giving the notice indicated below in this section, at any time at or prior to the Closing (a) if there shall have occurred any new outbreak of hostilities or other national or international calamity or development the effect of which on the financial markets of the United States shall be such as, in the judgment of the Representatives, makes it impracticable for the Purchasers to sell the Debentures, (b) if trading on the New York Stock Exchange shall have been suspended or maximum or minimum prices for trading shall have been fixed, or maximum ranges for prices for securities on the New York Stock Exchange shall have been required by that Exchange or by order of any governmental authority having jurisdiction, (c) if a banking moratorium shall have been declared by Federal authorities, or (d) if there shall have been enacted legislation which would adversely affect SBA's power as described in the Prospectus to guarantee the Debentures. If the Representatives shall elect to terminate this Agreement as provided in this section, SBA shall be notified promptly by the Representatives, by telephone or telegram, and such notice confirmed by letter. If this Agreement shall be terminated as provided in this section, neither the Purchasers nor the SBIC's nor SBA shall be under further obligation hereunder.

SEC. 9. *Substitution of purchasers or increase in purchasers' commitments.* If for any reason one or more of the Purchasers shall fail at the Closing to purchase the Debentures which they have agreed to purchase hereunder (the "Unpurchased Debentures"), then:

(a) If the aggregate principal amount of Unpurchased Debentures does not exceed \$3,000,000, the remaining Purchasers shall be obligated to purchase the full amount thereof, in proportion to their respective commitments hereunder.

(b) If the aggregate principal amount of Unpurchased Debentures exceeds \$3,000,000, any of the remaining Purchasers selected by the Representatives, or any other purchasers the Representatives select, shall have the right within 24 hours after the closing to purchase or procure purchasers for all, but not less than all, of such Unpurchased Debentures in such amounts as may be agreed upon; and if the remaining Purchasers shall not agree to purchase and/or procure a party or parties to agree to purchase such Debentures on such terms within such period, then SBA shall be entitled to an additional period of 24 hours in which to procure another responsible party or parties to agree to purchase such Debentures on such terms. If neither the remaining Purchasers nor SBA shall procure another party or parties to agree to purchase such Debentures within the aforesaid periods, then SBA may, at its option, by written notice delivered to the Purchasers: (a) Terminate this agreement without any liability on the part of SBA or any Purchaser; or (b) elect to proceed with the sale to the remaining Purchasers of the Debentures which they have agreed to purchase.

The termination of this Agreement pursuant to this section shall be without liability on the part of SBA, the SBIC's or any of said remaining Purchasers.

Nothing herein shall relieve any Purchaser so defaulting from liability, if any, for such default.

In the event of a default by any one or more Purchasers as set forth in this section, either the Representatives or SBA shall have the right to postpone the Closing for an additional period of not exceeding 5 business

days in order that any required changes in any documents or arrangements may be effected.

SEC. 10. *Representations, warranties, and agreements to survive delivery.* All representations, warranties, agreements, and covenants contained in this Agreement shall remain operative and in full force and effect regardless of any investigation made by or on behalf of any Purchaser or by or on behalf of SBA, and shall survive delivery of the Debentures to the Purchasers.

SEC. 11. *Notices.* Except as herein otherwise provided, all communications hereunder shall be in writing and, if sent to the Purchasers, shall be mailed, delivered, or telegraphed and confirmed in writing to the Representatives to the care of and at the address of the first Representative appearing in Schedule A hereto or, if sent to SBA shall be mailed, delivered, or telegraphed and confirmed in writing to 1441 L Street NW, Washington, DC 20416, attention of the Administrator or Acting Administrator, and a copy of each notice shall be furnished to the General Counsel of SBA.

Bids will be opened at the Federal Reserve Bank of New York at 11 a.m., e.s.t., on March 13, 1973. SBA reserves the right to reject all bids.

Dated: March 1, 1973.

ANTHONY G. CHASE,  
Deputy Administrator.

## DEPARTMENT OF LABOR

Occupational Safety and Health  
Administration

STANDARDS ADVISORY COMMITTEE ON  
AGRICULTURE

## Notice of Subcommittee Meetings

Notice is hereby given that the Standards Advisory Committee on Agriculture, and its subcommittees on Pesticides, Temporary Labor Camps, and Machinery Guarding, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656) will meet on Wednesday, March 14, 1973, starting at 9:30 a.m., and on Thursday, March 15, 1973, starting at 9 a.m., in the Federal Building, 1961 Stout Street, Denver, CO. The Committee will meet in Room 1430, the Subcommittee on Pesticides in Room 15032, the Subcommittee on Temporary Labor Camps in Room 15036, and the Subcommittee on Machinery Guarding in Room 1430.

The agenda provides for the full committee to meet in an introductory session each day after which the three subcommittees will meet in separate sessions. The subcommittees will continue their development of recommendations for standards in their respective areas of pesticides, temporary labor camps, and machinery guarding. At 1:30 p.m., on March 15, 1973, the full committee will meet to receive and consider the final recommendations of each subcommittee.

The meetings shall be open to the public. Any interested person wishing to submit written presentations to the committee or any of its subcommittees may do so by filing such statements with the Executive Secretary, Office of Standards, Occupational Safety and Health

Administration, Room 509, 400 First Street NW, Washington, DC 20210, not later than March 12, 1973, or by filing them with the Executive Secretary at the meetings.

Signed at Washington, D.C., this 1st day of March 1973.

CHAIN ROBBINS,  
Acting Assistant  
Secretary of Labor.

#### Wage and Hour Division

#### CERTIFICATES AUTHORIZING EMPLOYMENT OF FULL-TIME STUDENTS WORKING OUTSIDE OF SCHOOL HOURS AT SPECIAL MINIMUM WAGES IN RETAIL OR SERVICE ESTABLISHMENTS OR IN AGRICULTURE

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR Part 519), and Administrative Order No. 621 (36 FR 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly rates lower than the minimum wage rates otherwise applicable under section 6 of the act. While effective and expiration dates are shown for those certificates issued for less than a year, only the expiration dates are shown for certificates issued for a year. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below \$1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at wages below \$1 an hour in the base year; or provide the same standards authorized in certificates previously issued to the establishment.

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before April 5, 1973 pursuant to the provisions of 29 CFR 519.9.

Signed at Washington, D.C., this 28th day of February 1973.

ROBERT G. GRONEWALD,  
Authorized Representative  
of the Administrator.

[Notice 223]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before March 26, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73943. By order of February 9, 1973, the Motor Carrier Board, on reconsideration, approved the transfer to Gold Van Lines, Inc., Gallipolis, Ohio, of a portion of the operating rights in Certificate No. MC-55777 issued to Mills Transfer Co., Gallipolis, Ohio, authorizing the transportation of: New household furniture, and household goods, as defined by the Commission, between specified points and areas in Ohio, Kentucky, Virginia, West Virginia, Pennsylvania, Maryland, Michigan, and the District of Columbia. John M. Friedman, Practitioner, 2930 Putnam Avenue, Hurricane, WV 25526.

No. MC-FC-74074. By order entered February 8, 1973, the Motor Carrier Board approved the transfer to Enterprise Truck Leasing, Inc., Laurel, Miss.,

of that portion of the operating rights set forth in Certificate No. MC-50242 (Sub-No. 1), issued June 3, 1965, to J. C. Bowman Trucking Co., Natchez, Miss., authorizing the transportation of structural steel, tanks and heavy machinery, except oilfield equipment, materials, and supplies, between points in Louisiana and Mississippi. Harold D. Miller, Jr., Post Office Box 22567, Jackson, MS 39205, attorney for transferee, and Joseph S. Zuccaro, Box 1047, Natchez, MS 39120, attorney for transferor.

No. MC-FC-74122. By order of February 12, 1973, the Motor Carrier Board approved the transfer to Garland Gehrke, Lincoln, Ill., of a portion of the operating rights in Certificate No. MC-48441 (Sub-No. 2) and all of the operating rights in Certificate No. MC-48441 (Sub-No. 6), issued December 15, 1969, and January 22, 1970, respectively, to City Express, Inc., Streator, Ill., authorizing the transportation of glass containers, bottles, or jars, and caps, covers, stoppers, tops, and/or fiberboard boxes, when transported in the same vehicle with glass containers, bottles, or jars, from the plantsite and warehouse facilities of Obea Nestor Glass Co. located at Lincoln, Ill., to points in Indiana, Iowa, Kentucky (except Frankfort, Ky.), and points in Franklin, Shelby, Scott, Anderson, and Woodford Counties, Ky.), Michigan, Missouri, Ohio, and Wisconsin, restricted to traffic originating at and destined to the named points of origin and destination; and glass containers and closures and fiberboard boxes, from Lincoln, Ill., to Frankfort, Ky., and points in Shelby, Franklin, Scott, Anderson, and Woodford Counties, Ky. Robert H. Levy, 29 South La Salle Street, Chicago, IL 60603, attorney for applicants.

No. MC-FC-74148. By order entered February 14, 1973, the Motor Carrier Board approved the transfer to Mt. Vernon Transfer Co., a Delaware corporation, Mt. Vernon, Ill., of the operating right set forth in Certificate No. MC-29843, issued December 16, 1965, to Mt. Vernon Transfer Co., an Illinois corporation, Mt. Vernon, Ill., authorizing the transportation of general commodities, with the usual exceptions, between Mt. Vernon, Ill., and St. Louis, Mo., over specified routes, serving the intermediate and off-route points of Ashley, Nashville, Addieville, and Woodlawn, Ill., and points in the St. Louis, Mo.-East St. Louis, Ill., commercial zone. Delmar O. Koebel, 107 West St. Louis, Lebanon, IL 62254, attorney for applicants.

No. MC-FC-74187. By order of February 8, 1973, the Motor Carrier Board approved the transfer to Thibodeau Express, Inc., Windsor, Ontario, Canada, of Certificates Nos. MC-129573 (Sub-No. 1) and MC-129573 (Sub-No. 2) issued July 19, 1968, and December 3, 1968, respectively, to Thibodeau Express Ltd., Windsor, Ontario, Canada, authorizing the transportation of general commodities between points within 8 miles of Detroit, Mich., including Detroit; between Detroit, Mich., and the plantsite

of Ford Motor Co., on Sheldon Road, Plymouth Township, Wayne County, Mich., restricted to shipments originating at or destined to points in Canada; and between Detroit, Mich., and Willow Run Airport at or near Ypsilanti, Mich., restricted to the transportation of shipments originating at or destined to points in Canada and having an immediately prior or immediately subsequent movement by air. Robert D. Schuler, 1 Woodward Avenue, Suite 1700, Detroit, MI 48226, applicants' attorney.

No. MC-FC-74209. By order of February 8, 1973, the Motor Carrier Board approved the transfer to H. & W. Carriers, Inc., Camargo, Ill., of the operating rights in Certificates Nos. MC-125751, MC-125751 (Sub-No. 1), MC-125751 (Sub-No. 2), and MC-125751 (Sub-No. 3) issued November 10, 1964, October 15, 1968, August 11, 1970, and April 4, 1972, respectively, to Harold D. Smith, doing

business as Harold D. Smith Trucking Service, Camargo, Ill., authorizing the transportation of various commodities from and to specified points and areas in Illinois and Indiana. Robert T. Lawley, 300 Reisch Building, Springfield, Ill. 62701, attorney for applicants.

No. MC-FC-74228. By order entered February 14, 1973, the Motor Carrier Board approved the transfer to Howard Anderson, Plum City, Wis., of the operating rights set forth in Certificate No. MC-35856, issued August 5, 1959, to Erwin Herbison, Maiden Rock, Wis., authorizing the transportation of livestock, from points in the towns of Pepin and Stockholm, Pepin County, Wis., and the town of Maiden Rock, Pierce County, Wis., to Hastings, Minneapolis, St. Paul, and South St. Paul, Minn.; and general commodities, with the usual exceptions from Hastings, Minneapolis, St. Paul and South St. Paul, Minn., to points in the

above-specified Wisconsin towns. F. H. Kroeger, 2288 University Avenue, St. Paul, MN 55114, representative for applicants.

No. MC-FC-74233. By order of February 13, 1973, the Motor Carrier Board approved the transfer to J-Truck Line, Inc., Petersburg, Ill., of the operating rights in Certificate No. MC-118780 issued June 29, 1966, to William F. Juergens, doing business as "J" Truck Line, Petersburg, Ill., authorizing the transportation of various commodities from specified points and areas in Ohio, Iowa, Illinois, Wisconsin, Indiana, and Missouri to specified points and areas in Illinois, Wisconsin, Indiana, and Missouri. Robert T. Lawley, 300 Reisch Building, Springfield, Ill. 62701, attorney for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

# COST ACCOUNTING STANDARDS BOARD

## COST ACCOUNTING STANDARDS Statement of Operating Policies, Procedures, and Objectives

The purpose of this statement is to present the operating policies, procedures and objectives within which the Cost Accounting Standards Board is formulating Cost Accounting Standards and related rules and regulations in carrying out its legislative mandate under Public Law 91-379.

This document does not deal with Board regulations related to written disclosures of cost accounting practices; such regulations are contained in 4 CFR Part 351.

The Board intends that this document improve general understanding of the Board's fundamental objectives and concepts and thus provide the basis for productive dialogue with those concerned with the Board's work. Interested members of the public should, on the basis of this Statement, be better able to focus on the complex and difficult issues which the Board faces in promulgating future Cost Accounting Standards. The Statement is not intended to be final or all-encompassing; the Board may from time to time amplify, supplement or modify its views as it proceeds with consideration of individual issues.

Although not every Board member is in full agreement with every policy, procedure and objective set out in this document, the Board is in agreement that the document provides a useful, overall framework within which it can develop specific Cost Accounting Standards. In the few cases where individual members may have differing views, they may set forth those views and the reasons for them if it becomes appropriate to do so in the context of the Board's consideration of a particular Cost Accounting Standard, rule or regulation.

MARCH 1973.

### CONTENTS OBJECTIVES

Uniformity.  
Consistency.  
Allocability and allowability.  
Fairness.  
Materiality.  
Verifiability.

### OPERATING POLICIES

Relationship to other authoritative bodies.  
Nondefense applications.  
Single Government representative.  
Responsibility for compliance.  
Interpretations.  
Exemptions.

THE PROCESS OF DEVELOPING STANDARDS  
Consideration of existing practices.  
Comparing costs and benefits.

### COST ALLOCATION CONCEPTS

Direct identification of costs.  
Hierarchy for allocating cost pools.

### OBJECTIVES

A Cost Accounting Standard is a statement formally issued by the Cost Accounting Standards Board that (1) enunciates a principle or principles to be followed, (2) establishes practices to be applied, or (3) specifies criteria to be employed in selecting from alternative principles and practices in estimating, accumulating, and reporting costs of contracts subject to the rules of the Board. A Cost Accounting Standard may be stated in terms as general or as specific as the Cost Accounting Standards Board considers necessary to accomplish its purpose.

With respect to Cost Accounting Standards, the Board's primary goal is to issue clearly stated Cost Accounting Standards to achieve (1) an increased degree of uniformity in accounting practices among Government contractors, and (2) consistency in accounting treatment of costs by individual Government contractors.

Increased uniformity and consistency in accounting are desirable to the extent they improve understanding and communication, reduce the incidence of disputes and disagreements, and facilitate equitable contract settlements.

**Uniformity.** Uniformity relates to comparison of two or more accounting entities and the Board's objective in this respect is to achieve likeness under like circumstances. The Board recognizes the impossibility of defining or attaining absolute uniformity, largely because of the problems related to defining like circumstances. The Board will, nonetheless, seek ways to attain a practical degree of uniformity in cost accounting.

Uniformity is achieved when contractors with the same circumstances (with respect to a given subject) follow the practice appropriate for those circumstances. Any increase in uniformity will provide more comparability among contractors whose circumstances are similar.

The Board does not seek to establish a single uniform accounting system or chart of accounts for all the complex and diverse businesses engaged in defense contract work. On the other hand, if the Board were to be satisfied that circumstances among all concerned contractors are substantially the same, the Board would not be precluded from establishing a single accounting treatment for use in such circumstances.

**Consistency.** Consistency pertains primarily to one accounting entity over periods of time. Like uniformity, the attainment of absolute consistency can only be measured when like circumstances can be defined. The Board believes that consistency within an entity, from one time period to another, can be improved, thereby enhancing the usefulness of cost reports from one time period to another where there are like circumstances.

**Allocability and allowability.** Allocability is an accounting concept affecting the ascertainment of contract cost; it results from a relationship between a cost and a cost objective such that the cost objective appropriately bears all or a portion of the cost. To be charged with all or part of a cost, a cost objective should cause or be an intended beneficiary of the cost.

**Allowability** is a procurement concept affecting contract price and in most cases is expressly provided in regulatory or contractual provisions. An agency's policies on allowability of costs may be derived from law and are generally embodied in its procurement regulations. A contracting agency may include in contract terms or in its procurement regulations a provision that it will refuse to allow certain costs, incurred by contractors, that are unreasonable in amount or contrary to public policy. In accounting terms, those same costs may be allocable to the contract in question.

Cost Accounting Standards should result in the determination of costs which are allocable to contracts and other cost objectives. The use of Cost Accounting Standards has no direct bearing on the allowability of individual items of cost which are subject to limitations or exclusions set forth in the contract or are otherwise specified by the Government or its procuring agency.

It should be emphasized that contract costs, with which Cost Accounting Standards are involved, are only one of several important factors which should be involved in negotiating contracts. Therefore, the promulgation of Cost Accounting Standards, and the determination of contract costs thereunder, cannot be considered a substitute for effective contract negotiation. At the same time, it should be emphasized that, where contract costs are required to be determined and Cost Accounting Standards are applicable, the latter are determinative as to the costs allocable to contracts. It is a contracting agency's prerogative to negotiate the allowability of allocated costs, but not the allocation itself.

The Cost Accounting Standards Board will establish Standards to:

- (1) Measure the amount of costs which may be allocated to covered contracts;
- (2) Determine the accounting period to which costs are allocable; and
- (3) Determine the manner in which allocable costs can be allocated to covered contracts. The resulting cost measurements and allocation determinations are binding on both the contractor and the contracting agency, as indicated above.

**Fairness.** The Board considers a Cost Accounting Standard to be fair when, in the Board's best judgment, the Standard provides for allocating costs without bias or prejudice to either party to affected contracts.

The results of contract pricing may ultimately be regarded as fair or unfair by either or both parties to that contract. But if the Cost Accounting Standards utilized in the negotiation, administration, and settlement of the contract provided the contracting parties with accounting data which are representative of the facts, the Standards themselves are "fair" regardless of the outcome of the contract.

**Materiality.** The Board believes that the administration of its rules, regulations, and Cost Accounting Standards should be reasonable and not seek to deal with insignificant amounts of cost. Although this rule of common sense is already practiced by the Government, the Board recognizes that, in particular standards, a specific "materiality" statement may be useful; and, in such cases, it will include one.

The Board expects that, in implementing its promulgations, it is appropriate to consider the following criteria in determining whether a transaction or a decision about an accounting practice is material in the context of any Board issuance:

1. *The absolute dollar amount involved.* The larger the dollar amount, the more likely it is that a decision involving it will be material.
2. *The amount of total contract cost compared with the amount under consideration.* The larger the portion of the total contract cost which is represented by the item or the decision under consideration, the more likely it is to be material.
3. *The relationship between a cost item and a cost objective.* Decisions about direct cost items, especially if the amounts are themselves part of a base for distribution of indirect cost, will normally be more material than like decisions about indirect costs.
4. *The impact on Government funding.* Decisions about accounting treatment will

be more material if they influence the distribution of costs between Government and non-Government cost objectives than if all cost objectives have Government financial support.

5. *The relationship to price.* When contract pricing is based upon estimated cost, decisions about cost accounting treatment in estimates about treatment of actual costs. When contract pricing is based on actual costs, decisions about accounting treatment for actual costs are more material than comparable decisions about estimates.

6. *The cumulative effect of individually immaterial items.* It is appropriate to consider whether individual variances (a) tend to offset one another, or (b) tend to be in the same direction and hence to accumulate into a material amount.

These criteria should be considered together; no one criterion is wholly determinative of immateriality. In particular standards the Board will give consideration to defining materiality in specific dollar amounts and/or specific percentages of impact on operations covered by the entire Standard or any provision thereof whenever it appears feasible and desirable to do so.

**Verifiability.** Verifiability is generally accepted as a goal for information used in cost accounting. Contract cost accounting systems should provide for verifiability. Contract costs should be auditable by examination of appropriate data and documents supporting such costs or by reference to the facts and assumptions used to assign the costs to the contract. Contractor records of contract costs should be reconcilable with the general books of account.

### OPERATING POLICIES

The following descriptions of policies show a number of important considerations which will be relevant to the Board as it seeks the objectives discussed previously.

**Relationship to other authoritative bodies.** A number of authoritative bodies have been established to issue pronouncements affecting accounting and financial reporting. The Cost Accounting Standards Board views its work as relating directly to the preparation, use, and review of accounting data in the negotiation, administration, and settlement of negotiated defense contracts. The Board is the only body established by law with the specific responsibility to promulgate Cost Accounting Standards. Furthermore, its Cost Accounting Standards have the force and effect of law.

There are many accounting areas of interest to the Board which are also of interest to others for financial and tax accounting purposes, such as: the measurement of costs in general; determination of the amount assigned to a resource to be consumed in operations; allocation of the cost of resources consumed to time periods; and allocation of direct labor, direct material, and factory overhead to the goods and services produced in a period.

Promulgations by the Cost Accounting Standards Board may involve the areas of interest of other authoritative bodies. Contract cost accounting often deals with the same expenditures and the same problems of allocation to time periods as are of interest in financial and income tax accounting.

The Cost Accounting Standards Board seeks to avoid conflict or disagreement with other bodies having similar responsibilities and will through continuous liaison make every reasonable effort to do so. The Board will give careful consideration to the pronouncements affecting financial and tax reporting, and in the formulation of cost Accounting Standards it will take those pronouncements into account to the extent it can do so in accomplishing its objectives. The nature of the Board's authority and its mission, however, is such that it must retain and exercise full responsibility for meeting its objectives.

**Nondefense applications.** The Board's jurisdiction extends only to certain national defense procurements, pursuant to the Defense Production Act of 1950 (50 U.S.C. App. 2152), as amended. Industry has long advocated uniformity of contract cost principles among all Government agencies; it has criticized nondefense agencies for following cost principles different from those of the Department of Defense alleging that such differences hindered effective contracting and caused added costs to the Government. The Board is gratified that the Federal Procurement Regulations have, through administrative decision, extended Cost Accounting Standards to contracts of nondefense agencies.

The Board is of the opinion that uniformity among all Government agencies in contract costing is a highly desirable objective. It is, therefore, the Board's view that extension of Board pronouncements to nondefense agencies would be markedly beneficial both to the agencies concerned and to their contractors. Companies with a mixture of defense and nondefense contracts will be benefited substantially by having a single set of cost accounting principles applicable to all their Government contracts.

A contractor could have a portion of his work not required to be costed in accordance with Cost Accounting Standards. Not wishing to maintain two or more cost accounting systems, he may choose to follow Cost Accounting Standards for all costing. The Board, in developing and promulgating Cost Accounting Standards, will bear in mind this potential wider application.

**Single Government representative.** To assure maximum uniformity of interpretation of its promulgations, the Board believes that it is highly desirable to have Federal agencies agree upon a single representative to deal with a given contractor regarding application of the requirements of the Board. Because of its conviction of the merit of such a procedure, the Board recommended that the agencies arrange for a single contracting officer for each contractor, or major component thereof, to be designated to negotiate as needed to achieve consistent practices relating to the standards issued by the Board.

As a result, agencies have established procedures by which a Government contractor may be certain that only one contracting officer will deal with him to resolve issues that may arise under the contractor's Government contracts concerning the application of Cost Accounting Standards, rules, and regulations.

The Board is optimistic about the benefits to be derived by both the Government and contractors from this single-representative system and will continue to encourage and assist Government agencies in assuring that the system matures and functions effectively.

**Responsibilities for compliance.** The basic responsibility for securing compliance by contractors with Board promulgations rests with the relevant Federal contracting agencies. They are responsible for such things as:

1. Incorporating all applicable CASB promulgations into their procurement regulations;
2. Including the contract clause in all covered contracts;
3. Receiving disclosure statements;

4. Reviewing and approving the adequacy of such statements;

5. Reviewing contractors' records to determine whether or not contractors have (a) followed consistently their disclosed cost accounting practices and (b) complied with promulgated Cost Accounting Standards;

6. Making appropriate contract price adjustments because of changed accounting practices, failure to follow existing standards, or the issuance of new standards; and

7. Evaluating the validity of claims by contractors for exemptions, under criteria established by the Board, or exclusions as established by Public Law 91-379.

It should be noted that section 719(j) of the Act gives to any authorized representative of the head of the agency concerned, of the Board, or of the Comptroller General of the United States, the right to examine and make copies of any documents, papers, or records relating to compliance with Board promulgations.

Another element of compliance concerns the manner in which relevant contracting agencies implement the requirements established by the Board. Special and recurring reviews of agencies' compliance with Board promulgations should be performed by the agencies' internal review staffs and by the U.S. General Accounting Office.

The Board must retain responsibility for evaluating the effectiveness of the standards, rules, and regulations that it promulgates. Most of the Board's evaluative needs can be met by reviewing reports from contracting and audit organizations. To this end, the Board and the major contracting agencies have worked cooperatively to establish reporting requirements which have been embodied in the agencies' procurement regulations.

**Interpretations.** The Board notes the existence of contractual and administrative provisions for the resolution or settlement of disputes arising under a contract, and the Board will not intervene in or seek to supersede such provisions. When there are widespread and serious questions of the Board's intention or meaning in its promulgations, the Board may at its discretion respond to requests for authoritative interpretations of its rules, regulations, and Cost Accounting Standards. Such interpretations will be published in the FEDERAL REGISTER and will be considered by the Board as an integral part of the rules, regulations, and standards to which the interpretations relate. This formalized procedure does not preclude unofficial consultation between inquirers and the executive secretary and members of the Board's staff.

**Exemptions.** The Board is authorized by law to grant exemptions to such classes or categories of contractors or contracts as it determines are appropriate and consistent with the purposes sought to be achieved by the Board's basic legislation. The Board has exempted certain classes of contracts and recognizes that individual Cost Accounting Standards may, by their nature, be inapplicable or inappropriate to certain classes or categories of contractors or contracts.

In addition, in recognition of certain unusual circumstances which could require exemptions on a case-by-case basis, the Board has established a mechanism by which exemptions, where justified, can be granted for special classes of contracts and subcontracts.

The Board anticipates that it will grant exemptions only in rare and unusual cases. In reviewing a request for an exemption, the Board would be persuaded that an exemption is justified only if:

1. The administrative burden is grossly disproportionate to the benefits which could be expected; or

2. Failure to grant an exemption will prevent the orderly and economical acquisition on a timely basis of supplies and services essential to the needs of the Government.

The Board notes that the granting of an exemption would reduce the extent to which the primary goals of increased uniformity and consistency are achieved.

#### THE PROCESS OF DEVELOPING STANDARDS

Initial development of Board proposals begins with extensive background research. It includes examining Government procurement regulations and authoritative literature on a particular subject under consideration, reviewing pronouncements of other authoritative accounting and regulatory groups, reviewing pertinent Board of Contract Appeals and court cases, and conferring with representatives of various Government agencies, Government contractors, and industry and professional associations.

On the basis of this research and extensive studies of existing contractor practices, a preliminary version of a Board proposal is developed for discussion purposes and distributed to scores of Government agencies, industry and professional associations, individual contractors, and others knowledgeable in cost accounting. The Board conducts field tests of the application of the proposed standard. It holds meetings or exchanges correspondence with all who express interest in providing views on the subject. The views and comments thus obtained are given careful consideration and drafts of proposed material are modified as appropriate.

To obtain the views of as many concerned persons as possible, a draft is published as a proposed standard in the *Federal Register* for comment. The Board views this initial publication as an integral part of its research program and encourages all interested persons, including members of the general public, to submit comments. The Board, after publication of the proposal, again contacts a number of contractors and Government representatives to further discuss all aspects of the proposed standard, with special emphasis on the anticipated administrative costs of implementation and the probable benefits of adoption of the standard.

Standards, rules, and regulations promulgated by the Board must await the expiration of 60 calendar days of continuous session of the Congress following the date they are sent to the Congress. The Board's promulgations become effective not later than the start of the second fiscal quarter beginning after the expiration of not less than 30 days after a second publication in the *Federal Register*, unless the Congress passes a concurrent resolution stating in substance that it does not favor the proposed standards, rules, or regulations. The Board's promulgations have the full force and effect of law.

**Consideration of existing practices.** To be effective, Cost Accounting Standards must have both theoretical validity and practical applicability. So that practical considerations will not be overlooked, the Board seeks reliable information about current practices in a variety of ways. Disclosure statements, questionnaires, intensive discussions with contractors, responses to *Federal Register* publication of proposed standards, and study of published research results all supply useful information about current practice.

The Board's purpose in this is, first, to establish what practice is; second, to discover the reasons supporting different practices in apparently similar circumstances; and third, to determine the appropriate criteria for the selection of practices in given circumstances. There is no presumption that the most common practice is or is not the most desirable practice.

**Comparing costs and benefits.** The Congress provided, in section 719(g) of the act which establishes the Board, that in promulgating Cost Accounting Standards " . . . The Board shall take into account the probable costs of implementation compared to the probable benefits."

The Board views costs and benefits in a broad sense. All disruptions of contractors' and agencies' practices and procedures are viewed as costs. Diligent research into current practice is helpful in appraising the probable cost impact of proposed standards. Benefits include anticipated reductions in the number of time-consuming controversies stemming from unresolved aspects of cost allocability. The Board also expects that benefits will be achieved through simplified negotiation, administration, audit, and settlement procedures. Finally, and most importantly, the availability of better cost data stemming from the use of Cost Accounting Standards will permit improved comparability of offers and facilitate better negotiation of resulting contracts.

Prior to making a final promulgation decision, the Board makes specific inquiries into the likely costs of implementing proposed standards, both for contractors and for affected agencies of the Government. In this inquiry, an effort is made to distinguish transitional costs from those that may persist on a recurring basis. The Board then weighs the relative benefits and costs in determining the desirability of promulgation.

The Board is interested in data which will enable it to gauge the impact of a proposed standard on the amount of costs that will shift to or from Government contracts as a result of one or more standards. The Board recognizes that a fair Cost Accounting Standard may result in a shift of cost from the Government to contractors or from contractors to the Government. In formulating standards, the Board will not regard such shifts of costs as determinative.

#### COST ALLOCATION CONCEPTS

The Board's primary goal is increased uniformity and consistency in treatment of costs as they are related to negotiated defense contracts. Set forth herein are discussions of a number of important concepts which the Board will use in developing Cost Accounting Standards.

Cost accounting for negotiated Government contracts has long been on the basis of full allocation of costs, including general and administrative expenses and all other indirect costs. The allocation of all period costs to the products and services of the period is not a common practice either for public reporting or for internal management purposes; yet this has long been the established cost principle for costing defense procurement. The Board will adhere to the concept of full costing wherever appropriate.

A cost objective is "a function, organizational subdivision, contract, or other work unit for which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capitalized projects, etc." This definition has been promulgated by the Board.

Cost accounting systems are developed to provide a means for assigning all costs to appropriate cost objectives. Under the full costing concept, all costs initially allocated to intermediate cost objectives are reallocated to final cost objectives. Costs which are identified for special treatment (unreasonable costs, or costs unallowable for other reasons) may be assigned to final cost objectives established for that purpose.

Even with the foregoing concept, there are occasional difficult questions as to whether specified units of an organization or its work should be allocated cost on a full costing

basis. The Board will attempt to identify and dispose of such questions in individual Cost Accounting Standards.

**Direct identification of costs.** As an ideal, each item of cost should be assigned to the cost objective which was intended to benefit from the resource represented by the cost or, alternatively, which caused incurrence of the cost. To approach this goal, the Board believes in the desirability of direct identification of costs with final cost objectives to the extent practical. The Board recognizes the need for care in application of the concept of direct identification of costs with final cost objectives. Therefore, Cost Accounting Standards developed by the Board will reflect the desire for direct identification of cost and at the same time provide safeguards (such as those of 4 CFR Part 402) to assure consistency and objectivity in allocating costs incurred for the same purpose.

**Hierarchy for allocating cost pools.** Costs not directly identified with final cost objectives should be grouped into logical and homogeneous expense pools and should be allocated in accordance with a hierarchy of preferable techniques. The costs of like functions have a direct and definitive relationship to the cost objectives for which the functions are performed and the grouping of such costs in homogeneous pools for allocation to benefiting cost objectives results in better identification of cost with cost objectives.

The Board believes there is a hierarchy of preferable allocation techniques for distributing homogeneous pools of cost. The preferred representation of the relationship between the pooled cost and the benefiting cost objectives is a measure of the activity of the function represented by the pool of cost. Measures of the activities of such functions ordinarily can be expressed in such terms as labor hours, machine hours, or square footage. Accordingly, costs of these functions can be allocated by use of a rate, such as a rate per labor hour, rate per machine hour or cost per square foot, unless such measures are unavailable or impractical to ascertain. In these latter cases, the basis for allocation can be a measurement of the output of the supporting function. Output is measured in terms of units of end product produced by the supporting functions, as for example, number of printed pages for a print shop, number of purchase orders processed by a purchasing department, number of hires by an employment office.

Where neither activity nor output of the supporting function can be measured practically, a surrogate for the beneficial or causal relationship should be selected. Surrogates used to represent the relationship are generally measures of the activity of the cost objectives receiving the service. Any surrogate used should be a reasonable measure of the services received and should vary in proportion to the services received.

Pooled costs which cannot readily be allocated on measures of specific beneficial or causal relationship generally represent the cost of overall management activities. These costs should be grouped in relation to the activities managed and the base selected to measure the allocation of these indirect costs to cost objectives should be a base representative of the entire activity being managed. For example, the total cost of plant activities managed might be a reasonable base for allocation of general plant indirect costs. The use of a portion of a total activity, such as direct labor costs or direct material costs only, as a substitute for a total activity base, is acceptable only if the base is a good representative of the total activity being managed.

#### OTHER CONCEPTS

The Board is interested in all accounting concepts. The Board takes this opportunity to invite interested parties to furnish it with reports of competent research into matters which might be expected to impact contract cost accounting. Three conceptual issues already suggested are described briefly below.

(1) **Going concern and termination.** Most contract costing practices are based on the assumption that the contract is an episode in the continuing business activity of the contractor. When a contract is terminated for the convenience of the Government, there is a need to establish the cost impact of the decision to terminate. Some of the normal cost accounting practices for contractual performance may require modification in the event of termination of a contract.

(2) **Current value accounting.** The accounting profession in the United States has

generally used recorded historical costs as the basis for reports of the financial results of operations for given fiscal periods and the financial status at given times. Similarly, recorded historical costs have served as the basis for measuring the cost of performance in negotiated defense contracts.

Many accountants today support the belief that, in periods of continuing inflation or deflation, the reliance on historical costs in the preparation of conventional financial statements can be misleading. Considerable research has been done on the theory and measurement of "real" business income. The Board is interested in all aspects of measurement of cost of contractual performance including concepts of measurement on the basis of current value or price-level accounting.

(3) **Cost-of-capital.** The Board is aware of the well-established Government policy that interest is not an allowable item of cost

for determination of price under negotiated defense contracts. This position is exemplified by the provision of the Armed Services Procurement Regulation, ASPR 16-205.17, that "Interest on borrowings (however represented), bond discounts, [and] costs of financing and refinancing operation . . . are unallowable . . .". The Board is also aware of the view that effective performance under negotiated defense procurement depends in part on giving explicit consideration to the capital committed to contracts. In this connection, the Board has noted the Defense Department's concern with this issue and in particular that Department's profit-on-capital proposal.

ARTHUR SCHOENHAUT,  
Executive Secretary.

# An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

## HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

NATIONAL BETA CLUB WEEK—Presidential proclamation .....	6133
IN MEMORIAM—Honorable Cleo A. Noel, Junior, and George Curtis Moore—Executive order .....	6135
CONSUMER PROTECTION— FDA classifies certain toys as dangerous; effective 9-4-73 .....	6138
FDA proposes warning statements on aerosolized products; comments by 5-7-73 .....	6191
SCHOOL MEAL PROGRAMS—USDA updates regional office addresses (8 documents) .....	6164-6166
HEAD START PROGRAM—HEW proposes fee schedule for "non-poor" families; comments by 4-6-73 .....	6193
SOCIAL AND REHABILITATION SERVICE GRANT PROGRAMS—HEW proposes format for submission of State plans; comments by 4-6-73 .....	6193
DRUGS— FDA implements 1972 Drug Listing Act; effective 3-7-73 .....	6257
FDA approves mebendazole as an oral drug for horses; effective 3-7-73 .....	6137
FDA policy statement on certain intrauterine devices; effective 3-7-73 .....	6137
FDA withdraws approval of applications (3 documents); effective 3-7-73 .....	6214, 6215
PASSENGER CAR TIRES—DoT proposes uniform grading system; comments by 6-4-73 .....	6194
OFF-ROAD VEHICLES—Proposed regulations for use on DoD lands; comments by 4-6-73 .....	6186
TAXES— IRS gives credit for work incentive programs .....	6148
IRS proposals on stamp taxes; comments by 4-4-73 .....	6181
FLAMMABLE CARPETING—Commerce Dept. proposed sampling plans (2 documents) .....	6207, 6210
ORGANIZED CRIME—GSA rule for reporting suspected involvement of bidders and contractors .....	6179

Research and Technology Advisory Council, 3-14 to 3-16-73.....	6238
Nat'l. Advisory Council on the Education of Disadvantaged Children, 3-16 and 3-17-73.....	6238
EPA: National Air Pollution Manpower Development Advisory Committee, 3-26 and 27-73.....	6226
Technical Advisory Group to the Municipal Waste Water Systems Division, 3-21-73.....	6226

**federal register**

Area Code 202 Phone 962-4626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Commissioner of Internal Revenue; authority delegation regarding implementation of stabilization of certain prices, wages, and salaries

Pig iron from Brazil; determination of sales at not less than fair value

## List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Presidential Documents

Title 3—The President  
PROCLAMATION 4192

National Beta Club Week

By the President of the United States of America

A Proclamation

Nearly 150,000 young Americans in junior and senior high schools throughout the country live by the Beta Club motto: "Let us lead by serving others." By striving for high standards of honesty, accomplishment, leadership, and service to others, Beta Club members are preparing themselves in the finest possible way for the responsibilities of citizenship and leadership which will be theirs in the years ahead.

To call public attention to the commendable activities and positive achievements of the Beta Club, the Congress, by a joint resolution approved October 19, 1972 (86 Stat. 917) has requested the President to designate the week which begins on the first Sunday in March, 1973 as National Beta Club Week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week of March 4 through March 10, 1973, as National Beta Club Week, in recognition of the significant contributions being made by Beta Club members to the well-being of our country.

IN WITNESS WHEREOF, I have hereunto set my hand this fifth day of March, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

*Richard Nixon*

FEDERAL REGISTER, VOL. 38, NO. 44—WEDNESDAY, MARCH 7, 1973

## EXECUTIVE ORDER 11705

The Honorable Cleo A. Noel, Junior  
George Curtis Moore

As a special mark of respect to the memory of the Honorable Cleo A. Noel, Junior, Ambassador of the United States of America to the Democratic Republic of the Sudan, and to George Curtis Moore, Counselor of Embassy of the United States of America in the Democratic Republic of the Sudan, murdered in the performance of their duty, it is hereby ordered, pursuant to the provisions of Section 4 of Proclamation 3044 of March 1, 1954, as amended, that on the day of interment, March 7, 1973, the flag of the United States shall be flown at half-staff on all buildings, grounds, and naval vessels of the Federal Government in the District of Columbia and throughout the United States and its Territories and possessions. I also direct that the flag shall be flown at half-staff on the same day at all United States embassies, consular offices, and other facilities abroad, including all military facilities and naval vessels and stations.

THE WHITE HOUSE,

March 6, 1973.

## Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

### Title 21—Food and Drugs

#### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

##### SUBCHAPTER C—DRUGS

##### PART 130—NEW DRUGS

##### Subpart A—Procedural and Interpretive Regulations

##### STATEMENT OF POLICY CONCERNING NEW DRUG STATUS OF CERTAIN INTRAUTERINE DEVICES

On June 5, 1971, there was published in the FEDERAL REGISTER (36 FR 10983), a proposed policy statement regarding the new drug status of intrauterine devices incorporating heavy metals, drugs, or other substances used for the purpose of contraception.

In response to the proposal, three comments were received. One comment, from two physicians at a medical college, supported the policy statement as it was proposed. Specifically, these physicians were concerned about the long-term systemic effects of heavy metals, particularly copper, when used in devices placed in the uterine cavity.

Two comments, from individual pharmaceutical firms, offered no disagreement with the basic intent of the proposal, but recommended or offered a differently worded statement of policy. One firm recommended revised wording that would exclude from the provisions of this section intrauterine devices with components added for improvement of the physical characteristics of the basic IUD material. The other firm commented that the proposal did not define clearly enough those intrauterine devices that would require a new drug application and those that would not. The Commissioner agrees that the proposal was not sufficiently definitive to provide adequate guidance as to the new drug status of these products. Therefore, the order has been revised to exclude from consideration as new drugs the following: (1) IUD's fabricated solely from inactive materials such as inactive plastics or metals and (2) IUD's with substances added to improve the physical characteristics if such substances do not contribute to contraception through chemical action on or within the body and are not dependent upon being metabolized for the achievement of the contraceptive purpose.

If questions arise that cannot be resolved by applying the provisions of the policy statement, the Food and Drug Administration, upon request, will ex-

press its opinion as to the new drug status of any such intrauterine device.

Having considered the comments received, the Commissioner concludes that the proposed policy statement should be revised for clarification and adopted as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201 (g), (p), 505, 701(a), 52 Stat. 1041-42, as amended, 1052-53, as amended, 1055; 21 U.S.C. 321 (g), (p), 355, 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), Part 130, Subpart A is amended by adding the following new section:

§ 130.50 Certain intrauterine devices for human use for the purpose of contraception.

(a) The Food and Drug Administration has become aware of the increased clinical use for the purpose of contraception of intrauterine devices that incorporate heavy metals, drugs, or other active substances. The amount of local irritation caused by such active materials has been reported as being correlated, in animal studies, to the efficacy of such devices in achieving their contraceptive effect. Several investigators have reported different pregnancy rates which appear to be dependent on the type of metal used and/or the amount of exposed surface of the metal. Drugs have been incorporated with otherwise inert intrauterine devices to increase the contraceptive effect, decrease adverse reactions, or provide increased medical acceptability.

(b) Intrauterine devices used for the purpose of contraception and incorporating heavy metals, drugs, or other active substances to increase the contraceptive effect, to decrease adverse reactions, or to provide increased medical acceptability, are not generally recognized as safe and effective for contraception and are new drugs within the meaning of section 201(p) of the Federal Food, Drug, and Cosmetic Act. A completed and signed "Notice of Claimed Investigational Exemption for a New Drug" (Form FD 1571 set forth in § 130.3(a)(2)) must therefore be submitted to cover clinical investigations to obtain evidence that such preparations are safe and effective for this use. An approved new drug application is required for the marketing of such articles.

(c) Paragraphs (a) and (b) of this section do not apply to the following:

(1) Intrauterine devices fabricated solely from inactive materials (e.g., inactive plastics or metals).

(2) Intrauterine devices with substances added to improve the physical characteristics if such substances do not contribute to contraception through chemical action on or within the body and are not dependent upon being metabolized for the achievement of the contraceptive purpose.

(3) Intrauterine devices that contain a component, such as barium, added exclusively for the purpose of visualization by X-ray.

*Effective date.* This order is effective on March 7, 1973.

(Secs. 201 (g), (p), 505, 701(a), 52 Stat. 1041-42, as amended, 1052-53, as amended, 1055; 21 U.S.C. 321(g), (p), 355, 371(a))

Dated: February 28, 1973.

SHERWIN GARDNER,  
Acting Commissioner of  
Food and Drugs.

[FR Doc. 73-4321 Filed 3-6-73; 8:45 am]

##### PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

##### Mebendazole Oral, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (91-736V) filed by Pitman-Moore, Inc., Washington Crossing, N.J. 08560, proposing the safe and effective use of mebendazole oral, veterinary, as an anthelmintic in horses. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(d), 82 Stat. 347; 21 U.S.C. 360b(d)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended by adding the following new section:

§ 135c.104 Mebendazole oral, veterinary.

(a) *Chemical name of mebendazole.* Methyl 5-benzoylbenzimidazole-2-carbamate.

(b) *Specifications.* The drug is an oral powder in which each gram contains 166.7 milligrams of mebendazole.

(c) *Sponsor.* See code No. 066 in § 135.501(c) of this chapter.

(d) *Conditions of use.* (1) The drug is used in horses in the treatment of infections caused by large roundworms (*Parascaris equorum*), large strongyles (*Strongylus edentatus*, *S. equinus*, *S. vulgaris*), small strongyles (*Cylicocyclus* spp., *Gyalocephalus* spp., *Potieristomum* spp., *Trichonema* spp., *Triodontophorus* spp.), and pinworms (*Oxyuris equi*), including many larval stages.

(2) The drug is administered at 1 gram of mebendazole per 250 pounds of body weight per dose.

(3) The drug is administered in either of the following ways:

(i) Sprinkling directly on the grain portion of the ration; or

(ii) By dissolving in 2-4 pints of water and administering by stomach tube.

(4) The drug is compatible with carbon disulfide, which can be used concurrently for bot control (*Gastrophilus spp.*). Routine cautions regarding the use of carbon disulfide must be observed.

(5) Do not administer to horses intended for use as food.

(6) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Effective date. This order shall be effective on March 7, 1973.

Dated: March 1, 1973.

C. D. VAN HOUWELING,  
Director, Bureau of  
Veterinary Medicine.

[FR Doc. 73-4320 Filed 3-6-73; 8:45 am]

#### SUBCHAPTER E—HAZARDOUS SUBSTANCES PART 191—HAZARDOUS SUBSTANCES: DEFINITIONS AND PROCEDURAL AND INTERPRETATIVE REGULATIONS

##### PART 191b—REQUIREMENTS FOR ELECTRICALLY OPERATED TOYS OR OTHER ELECTRICALLY OPERATED ARTICLES INTENDED FOR USE BY CHILDREN

###### Certain Electrically Operated Toys and Other Electrically Operated Children's Articles; Classification as Banned Hazardous Substances

In the FEDERAL REGISTER of January 21, 1972 (37 FR 1020), the Commissioner of Food and Drugs proposed to classify as banned hazardous substances certain electrically operated toys and other electrically operated children's articles.

In response to the proposal, approximately 40 comments were received from interested parties including the Association of Home Appliance Manufacturers (AHAM), Consumer Electronics Group (CEG), Consumers Union (CU), Model Railroad Industry Association (MRIA), National Electrical Manufacturers Association (NEMA), National Retail Merchants Association (NRMA), Toy Manufacturers of America (TMA), Underwriters' Laboratories (UL), consumers, consumer interest groups, individual manufacturers, an insurance company, and a research and development firm.

Ten of the comments supported the proposal as published. The principal issues raised in the remainder and the Commissioner's conclusions are as follows:

1. **Definitions.** Several comments indicated that the definition of an electrically operated toy or other electrically operated article for use by children (§ 191b.1(a)(1)) is too broad and can be

interpreted to include almost every electrically operated household product. The definition has been clarified to specifically exclude articles designed primarily for use by adults which may be used incidentally by children.

2. **Coverage.** Many of the comments from industry and trade associations stated that § 191b.2 coverage, as proposed, is ambiguous in its application to model trains, race cars, and certain other items operated with or without a transformer. Clarification has been added in this regard by excluding components which are powered by circuits of 30 volts r.m.s. (42.4 volts peak) or less from the definition of an electrically operated toy or other electrically operated article intended for use by children. All articles defined in § 191b.1(a)(1) that are intended to be powered by electrical current from nominal 120 v. (110-125 v.) branch circuits and those components powered by circuits of more than 30 volts r.m.s. (42.4 volts peak). Proposed § 191b.2 has been deleted since the provisions thereof appear elsewhere in the order.

3. **Labeling—*a. Specific items.*** The labeling provisions regarding the name and address of the manufacturer and the catalog number or equivalent (proposed §§ 191b.3(b)(1) (i), (ii) and 191b.3(b)(2) (i), (ii) have been deleted. A regulation in this regard is currently being developed and will be applicable to all children's articles, including electrically operated toys.

UL suggested that the information regarding the factory and date of manufacture appear on the toy itself rather than on the shelf package as proposed by § 191b.3(b)(2) (iii). Placement of information as to the date (month and year) of manufacture on the shelf package will simplify recordkeeping activities for retailers and distributors. Also, in the event that certain production runs of an item are found to be defective, the markings on the shelf package will expedite recalls since the articles can be identified without removal from their package. As revised, labeling with regard to the manufacturer's establishment is required only when toys are produced or assembled at more than one location. Section 191b.3(b)(4) provides for the placement of this information on both the toy and the shelf pack or package. The text of proposed § 191b.3(b)(2) (iii) has been revised and redesignated as § 191b.3(b)(2) (i).

b. **Markings.** CU suggested that it would be desirable for a manufacturer to mark the surface that would require the largest size of lettering if a choice exists. Such an additional requirement is unnecessary since § 191b.3(a) requires the labeling to be prominently and conspicuously displayed under customary conditions of purchase, storage, and use.

In response to several comments, the nature and characteristics of the required markings in § 191b.3 have been clarified.

c. **Precautionary statements.** Several comments questioned the proposed requirement (§ 191b.3(e)(1)) of placing

the statement "CAUTION—Electric Toy" on the toy itself in addition to the shelf package. CEG suggested that the statement "CAUTION—Electrically Operated Product" be accepted in lieu of the above for articles not considered "toys" but intended for use by children.

Placing the precautionary statement "CAUTION—ELECTRIC TOY" on the toy itself is not a burdensome requirement and is necessary for toy safety since it draws attention to the fact that electrically operated toys can present hazards of an electrical or thermal nature during use. Conceivably this could be the only precautionary statement required on a toy and thus would serve the purpose of warning against misuse and potential abuse. The suggestion regarding the use of an alternate warning for electrically operated products not considered "toys" is acceptable and § 191b.3(e)(1) has been changed accordingly.

d. **Shelf package.** CEG suggested deleting § 191b.3(e)(5) which requires precautionary markings on the shelf packages of toys that contain one or more inherent hazards (for example, hot, small, or sharp parts). CEG contended that the information will be assumed and that if too much labeling is present, the information is not likely to be read. UL suggested that a reference be made to regulations that define the hazards from hot, small, and sharp parts. The labeling requirements regarding small and sharp parts have been deleted pending promulgation of regulations defining such hazards. The CEG suggestion regarding precautionary labeling of "hot parts" on the shelf package is acceptable in view of the other precautionary statements on the package. The requirement thus has been deleted.

e. **Flexible plastic packaging material.** The provisions regarding flexible plastic packaging materials (proposed § 191b.3(e)(6)) have been deleted. A regulation in this regard is currently being developed and will be applicable to all children's articles, including electrically operated toys.

f. **Instructions.** Regarding proposed § 191b.3(f), a toy manufacturer commented that it is impossible to write assembly instructions that can be completely understood by young children. A revision is not considered necessary because electrically operated toys requiring assembly should not be intended for use by children too young to comprehend the instructions. Additional language is necessary with regard to advising a parent to periodically examine toys for potentially hazardous defects. Proposed § 191b.3(f) has been revised accordingly and has been redesignated § 191b.3(b)(3).

4. **Manufacturing requirements** (previously designated *Nonelectrical construction*)—*a. General.* A toy firm suggested that since many toy components are imported, compliance with manufacturing requirements such as those prescribed by § 191b.4(a)(2) would be extremely difficult. The manufacturer or importer of a product is responsible for determining

whether it is in compliance with applicable regulations. This responsibility includes inspection of imported components for safety and suitability.

Several comments indicated that the recordkeeping requirements (§ 191b.4(a)(3)) should be clarified. It is not the intention of the Commissioner to require recordkeeping for each individual toy, but rather for the sale and shipment of quantities (lots) of a particular toy. This order does not require that such records be kept for more than 3 years.

A toy company suggested that since no appropriate governmental requirements for components have been established, the provision in that regard (§ 191b.4(a)(4), last sentence) should be deleted. The paragraph has been clarified to properly reflect the purpose of this regulation. Each component of an electrically operated toy shall comply with applicable requirements established herein.

b. **Coatings.** The reference to paints and other surface-coating materials (proposed § 191b.4(b)) has been deleted from the regulation since all toys or other articles intended for use by children are subject to § 191.9(a)(6) (ii), including those that are electrically operated (37 FR 5229 and 16078).

c. **Electrically operated sewing machines.** In response to a recommendation by a retailer, § 191b.4(h)(3) concerning electrically operated sewing machines has been changed to take into account the safety feature presented by the presser foot attachment on these articles.

d. **Overload protection.** Proposed § 191b.4(h)(4) has been deleted since overload protection is adequately dealt with in § 191b.6(e)(5).

5. **Electrical design and construction—*a. Switches.*** Several comments suggested that the double pole requirements in § 191b.5(a) be made applicable only to those toys with replaceable incandescent lamps. This suggestion is consistent with the purpose of these regulations, and § 191b.5(a) has been changed to limit the scope of the double pole requirement to switches that control a replaceable incandescent lamp, electrode, or lamp-holder contact which is at a potential of more than 30 volts r.m.s. (42.2 volts peak).

b. **Lamps.** TMA and a toy firm requested that illuminating devices for microscopes be excluded from the coverage of § 191b.5(b) which prescribes lamp requirements. Any person may apply to the Commissioner for an exemption or other amendment of these regulations by submitting a petition which shall set forth a statement of the grounds upon which the petitioner relies.

Comments from CEG, TMA, and two toy firms suggested that an unnecessary hardship will be placed on manufacturers by the requirement (§ 191b.5(b)(2)) for an interlock to protect lamp sockets. This suggestion is valid and the regulation has been changed to permit use of special fastening devices that cannot be opened manually or with a flat-bladed screwdriver or pliers. This provision is included in § 191b.5(b)(1) of the order.

c. **Power supply connections (cords and plugs).** CU suggested that electrically operated toys designed to be hand held, used with water, or likely to be used out-of-doors, be required to be double insulated or provided with a three-conductor grounding-type power supply cord. Such a requirement would be impracticable because many homes are not equipped with grounding apparatus and the grounding of adaptors would not provide a satisfactory solution. Based on available accident and injury information, there is no justification for double insulation.

A toy firm questioned the distance specification in § 191b.5(f)(3), redesignated § 191b.5(e)(3) in this order, regarding the face of the attachment-plug cap. The firm failed to see why this distance is so much greater than the one-eighth inch presently found on the majority of cord plugs in use. The five-sixteenths of an inch distance specified in the regulation is a precautionary measure intended to minimize the incidence of accidental contact of children's fingers with the metal blades of the plug during insertion.

The same firm contended that no safety is added by the minimum length specification in § 191b.5(f)(5), designated as § 191b.5(e)(5) in this order, for the power cord. This contention is rejected. The minimum length requirement of 5 feet serves as a safety feature in that it affects the potential proximity of a child's play area to a wall outlet.

TMA and two toy firms contended that certain requirements in § 191b.5(f), redesignated § 191b.5(e) in this order, are inappropriate for transformers that have a 110-volt primary plug integrated into the transformer case. This contention is correct and the regulation has been changed to exclude such transformers from the requirements dealing with power supply connections.

d. **Wiring.** CEG commented that the requirements in § 191b.5(h), redesignated § 191b.5(g) in this order, concerning internal wiring of a toy are superfluous and too detailed. The organization suggested that subparagraph (1), plus a recommended revision, would offer sufficient guidance. The commissioner concludes that the detailed nature of paragraph (g) is necessary in order to properly interpret general performance requirements (for example, adequate mechanical strength). Subparagraphs (2) through (5) of § 191b.5(g) establish requirements to preclude the development of certain electrical hazards. These requirements are particularly important safeguards since many electrically operated toys are used and abused for a number of years.

In reply to an inquiry by NEMA, nichrome alloy is an acceptable material for use in current-carrying parts.

e. **Strain relief.** CEG recommended that a performance standard rather than the design standard in § 191b.5(i), redesignated § 191b.5(h) in this order, be adopted regarding strain relief. Such a revision is not warranted because the requirements, although design oriented, are not design restrictive.

UL and NEMA recommended that a knot be an acceptable means of strain relief if the toy is found to comply with the performance requirements in § 191b.6. A knot in itself does not provide a sufficient degree of protection against hazards that may develop as a result of abuse. However, a knot associated with a loop around a fixed structural component does offer sufficient protection if the performance requirements in § 191b.6 are met. Section 191b.5(i)(4) has been changed accordingly and redesignated as § 191b.5(h)(4).

6. **Performance—*a. General.*** Various revisions were suggested regarding the conditions described in § 191b.6(a) under which a toy shall not present a fire or accident hazard. The comments suggested that these requirements present problems of interpretation. To minimize such problems without interfering with the purpose of the regulation, § 191b.6(a) has been changed so that the requirement in question is in terms of "normal use and reasonably foreseeable damage or abuse conditions" instead of "abnormal conditions."

b. **Enclosures.** Regarding § 191b.6(b) on testing enclosures, UL recommended that the breakage of a lamp be considered a test failure with the qualification that this breakage be disregarded if a second test does not result in breakage. This suggestion cannot be adopted because it would be unreasonable to expect a lamp to survive a drop test.

c. **Drop test.** Regarding the drop test in § 191b.6(b)(1), UL suggested that their own drop test procedures are adequate and that any diversion from their standard is unnecessary. After review of the UL toy standard's drop test, it is concluded that the procedures set forth in § 191b.6(b)(1) are more stringent, but also more reasonable in terms of actual use conditions, and more restrictive in terms of performance than the UL test. The test has been redesignated as an impact test in the final order.

CEG recommended that floor-standing toys be excluded from the drop test requirement. The drop test is inappropriate for certain floor-standing toys; therefore, § 191b.6(b)(1) has been changed to exclude toys with a weight of more than 10 pounds from the requirement.

d. **Rod pressure test.** UL and NEMA questioned the increase of the force level in the rod pressure test in § 191b.6(b)(2) to 25 pounds from the 20-pound specification in the UL toy standard. Recently gathered anthropometric data support the conclusions that the 25-pound level is unreasonable, and the specification has been changed to 20 pounds. The test has been redesignated as a compression test in the final order.

e. **Pressure test.** NEMA suggested that the pressure test in § 191b.6(b)(3) be brought into accord with a similar procedure in the UL electrical toy standard. Section 191b.6(b)(3) specifies in part that a toy surface measuring 24 or more square inches shall be subject to the pressure test. This minimum area can be reasonably expected to be subjected

to a pressure or load, such as the weight of a child, and should therefore be capable of supporting such pressure without producing a hazardous condition. Limiting this testing to surface areas in excess of 48 square inches, as in the UL standard, is concluded to be too exclusive for child protection purposes.

f. *Strain-relief test.* UL, NEMA, and two toy firms commented that deformation of the anchoring surface and/or displacement of the strain-relief unit cannot be completely avoided when a power cord is subjected to a direct pull of 35 pounds, but that such a displacement or deformation should not produce a stress resulting in a hazardous condition. The Commission finds these comments to be valid and the final order has been revised accordingly. The 40-pound specification in § 191b.6(c)(4)(i), which in this order appears in § 191b.6(h)(1) because § 191b.6(c)(4) has been redesignated as § 191b.6(h), has been changed to 35 pounds.

CEG commented that the 3-foot drop test (with cord held in place) in § 191b.6(c)(4)(iii) does not relate to any reasonably foreseeable abuse. Another comment, by a toy firm, agreed to the validity of this strain-relief test but suggested that a weight limitation be included, especially for toys to be used on a floor. Although this testing procedure is deemed an appropriate simulation of reasonably foreseeable abuse, the weight limitation suggestion is valid and § 191b.6(c)(4)(iii), redesignated § 191b.6(h)(3) in this order, has been changed to limit applicability to toys weighing 10 pounds or less.

g. *Stability.* With reference to the "no spillage" requirement in § 191b.6(d), UL suggested that a specification be added as to the height to which containers can be filled with molten material or hot liquids. Such a designation is the responsibility of the manufacturer and such specified level should be one element in insuring that spillage does not occur under the conditions described in § 191b.6(d).

7. *Electrical performance—A. Power input.* A toy firm suggested that the amperage limitation in § 191b.6(e)(1) be deleted since no relationship between amperage and danger of a toy would be present if the article complies with the other provisions of the regulations. Despite other safety provisions, the amperage restriction is necessary to limit available power to a relatively safe use level to guard against any unforeseen hazards.

b. *Dielectric strength.* In response to several comments, the procedural requirements for the dielectric strength test in § 191b.6(e)(2) have been revised for clarification.

c. *Leakage current and repeated dielectric withstand tests.* NEMA and a retailer suggested that the relative humidity requirement in § 191b.6(e)(3) be revised to 85 percent. The association submitted that testing under conditions of 90-95 percent relative humidity has resulted in condensation within small motors that prohibits leakage testing be-

cause of the presence of water. The retailer commented that the 90-95 percent requirement is far in excess of what is possible in actual use conditions. In the interest of safety, portions of the proposed regulations are a departure from established industry standards. The requirement in question, however, is identical to that established in the UL electrical toy standard and, in the absence of Federal regulations, has been adhered to by many firms in the toy industry. The requirement is deemed appropriate and the suggested change has not been adopted.

NEMA suggested that the leakage current measurement be taken outside of the humidity compartment within 1 minute after removal of the toy. The association noted that difficulties are encountered when this measurement is taken within the compartment. Although taking this measurement within the compartment may present some degree of difficulty, the derived benefits outweigh this difficulty. When the measurement is performed within the compartment, and thus under controlled conditions, the reliability of the test is not affected. Such is not the case outside the chamber where variations may be expected to occur as a result of changes in the temperature and relative humidity.

d. *Motor operation.* NEMA commented that the requirements in § 191b.6(e)(4) on motor operation are confusing and contradictory. This criticism is valid and the regulation has been revised to establish two testing conditions: One for maximum normal load and one for locked rotor. Maximum acceptable temperatures have been established for both conditions.

e. *Motor overload.* Regarding the requirement in § 191b.6(e)(5)(i) that no pitting of the switch contacts shall occur as a result of the motor overload test, two toy firms stated that pitting of the switch contacts will always be evident after a motor control switch is subjected to this test. This contention is not necessarily true. The manufacturer is responsible for incorporating a motor-control switch with a sufficient horsepower rating to insure that such pitting does not occur.

f. *Switch overload.* In response to an inquiry by UL, visual inspection is an acceptable means of judging the performance of a switch subjected to the overload test specified in § 191b.6(e)(5)(i). The final order has been revised accordingly.

8. *Classification of toy parts or surfaces.* Regarding the classified types, according to use or function, set forth in subdivisions of § 191b.6(g)(2):

a. A toy firm inquired as to whether their small wall-mount transformer qualifies as a type A or type B surface. This particular transformer has surfaces classified as both Types A and B. The product has plastic grips likely to be grasped for the purpose of carrying (Type A) and parts that may be touched but which need not be grasped for carrying (Type B).

b. A toy firm suggested that the specifications regarding Type E surfaces in § 191b.6(g)(2)(vii) are overly stringent and that no body of knowledge indicates that such are necessary. These precautionary measures are necessary to restrict the child's access to high temperatures for toys that must operate at the temperature required to accomplish baking or cooking functions.

c. TMA suggested that a 1/4-inch-diameter rod 2 inches long is a more realistic instrument for determining the accessibility of Types D, D-marked, and E parts of surfaces than the 1/4-inch-diameter rod 3 inches long specified in § 191b.6(g)(2)(vii). A toy firm commented that the use of two probes is more realistic: 1/4-inch-diameter rod 2 inches long to insure exclusion of a child's fingers and 3/8-inch-diameter rod 3 inches long to insure the exclusion of an adult's fingers. The specified probe (1/4-inch-diameter rod 3 inches long) is deemed appropriate since it takes into account the normal width of a child's finger and the extended length of an adult's finger.

9. *Thermal requirements.* CU recommended that toys, other than educational or hobby-type toys, be limited to those surface temperature indicated in § 191b.7 as not requiring a warning marking, and that educational- or hobby-type toys conform to the temperature specifications in § 191b.7. This recommendation is unreasonable in light of the specific safety requirements established for toys as well as educational- and hobby-type products.

The Arkansas Consumer Research Group commented that the size of lettering is unspecified for the age labeling required by § 191b.6(g)(3). The group suggested that this labeling be unmistakably clear and prominent and that the letters be at least one-third the size of the largest letters on the display panel and of different type or color for contrast. The Commission finds that prominence of the label information is essential and the regulation has been changed accordingly. The lettering heights set forth in § 191b.3(d) are considered appropriate and reasonable for child protection.

TMA commented that § 191b.6(g)(3) requires labeling of certain hobby items intended for children over 12 years and that such age is unnecessarily restrictive. The organization recommended that the age be changed to 7. Section 191b.6(g)(3) does not require age labeling per se. It removes temperature restrictions on those hobby-type products properly labeled as being intended for children over 12 years of age; however, the maximum surface temperature of such products may not exceed those reasonably required to accomplish the intended task. A change to age 7 in this context is undesirable in terms of affording adequate child protection.

10. *Temperature measurements.* Regarding the requirements of § 191b.6(g)(5)(i), CEG recommended that thermocouples of wire diameters between

Nos. 24 and 30 AWG (American Wire Gage) be acceptable in the instruments used to measure temperatures. This change is unnecessary in view of the fact that the use of No. 30 AWG wire for temperature measurement is presently an accepted practice.

11. *Maximum acceptable surface temperatures.* A consumer recommended reduction of the temperature limits for toy surfaces specified in § 191b.7, suggesting that such are unacceptably high and present a definite hazard to children. These maximum acceptable surface temperatures are based upon the best available data and a revision is unwarranted. The values in the table are based upon (a) the premise that 149° F. is the temperature above which a 1-second contact will provide the threshold for irreversible tissue damage and (b) the assumption that the reaction time of normal children, as well as normal adults, is significantly less than that which would permit a 1-second period of contact. Acceptable temperatures for the different surface types have been graded in accordance with the 149° F. value with consideration given to the accessibility of the surfaces during normal use.

12. *Maximum acceptable material temperatures.* A toy firm commented that the specifications in § 191b.8 regarding maximum acceptable toy material temperatures are confusing and their understanding is that the temperatures are those historically used under normal, but not abnormal (stalled rotor) conditions. Clarification in this regard is available in § 191b.6(g)(4) which specifies test conditions.

CEG noted that the temperatures in the table in § 191b.8 are the same as those listed in the UL electrical toy standard but are labeled "maximum acceptable material temperatures" and not "maximum acceptable temperature rises." The Commission has concluded that maximum temperature rises are misleading because they are dependent on an established ambient temperature and are not directly relatable to a potential burn hazard.

NEMA suggested that there is a redundancy in § 191b.8 with regard to the construction of a toy insofar as the use of totally enclosed motors are concerned. This redundancy has been eliminated by a revision of the requirements for locked-rotor motor temperatures.

13. *Effective date.* Several comments expressed concern over the effective date of these regulations. Suggestions as to an alternate date vary from early 1973, to December 31, 1973, with a reservation that the requirements be applicable only to those toys and other children's articles leaving the factory after the effective date. The Commission concludes that an effective date of 180 days after publication in the FEDERAL REGISTER is a necessary and reasonable time to allow affected persons to achieve full compliance. Only those articles introduced into interstate commerce after such date are subject to the provisions of these regulations. All electrically operated toys or other electrically operated arti-

cles intended for use by children are subject, not only to the provisions of these regulations, but also to any other applicable provisions of Part 191.

Therefore, having considered the comments received and other relevant material, the Commissioner concludes that the proposal, with changes, should be adopted as set forth below.

Accordingly, pursuant to provisions of the Federal Hazardous Substances Act (secs. 2 (f)(1) (D), (r), (s), (t), 3(e)(1), 74 Stat. 372, 374, 375, as amended 83 Stat. 187-189; 15 U.S.C. 1261, 1262) and under authority delegated to the Commissioner (21 CFR 2.120), Subchapter E of Title 21, Chapter 1, is amended as follows:

1. In Part 191, by adding the following new paragraph (b) to § 191.9a:

§ 191.9a Banned toys and other banned articles intended for use by children.

• • • • •

(b) *Electrically operated toys and other electrically operated children's articles presenting electrical, thermal, and/or certain mechanical hazards.* Under the authority of section 2(f)(1) (D) of the act and pursuant to provisions of section 3(e) of the act, the Commissioner has determined that the following types of electrically operated toys or other electrically operated articles intended for use by children present electrical, thermal, and/or certain mechanical hazards within the meaning of section 2 (r), (s), and/or (t) of the act because in normal use or when subjected to reasonably foreseeable damage or abuse, the design or manufacture may cause personal injury or illness by electric shock and/or presents an unreasonable risk of personal injury or illness because of heat as from heated parts, substances, or surfaces, or because of certain mechanical hazards:

(1) Any electrically operated toy or other electrically operated article intended for use by children (as defined in § 191b.1(a)(1)) that is introduced into interstate commerce and which does not comply with the requirements of Part 191b of this chapter.

2. By adding the following new Part 191b, Requirements for Electrically Operated Toys or Other Electrically Operated Articles Intended for Use by Children, to Subchapter E:

Sec.  
191b.1 Definitions.  
191b.2 [Reserved]  
191b.3 Labeling.  
191b.4 Manufacturing requirements.  
191b.5 Electrical design and construction.  
191b.6 Performance.  
191b.7 Maximum acceptable surface temperatures.  
191b.8 Maximum acceptable material temperatures.

AUTHORITY: Secs. 2 (f)(1) (D), (r), (s), (t), 3(e)(1), 74 Stat. 372, 374, 375 as amended 83 Stat. 187-189; 15 U.S.C. 1261, 1262.

§ 191b.1 Definitions.

(a) The following definitions apply to this Part 191b:

(1) The term "electrically operated toy or other electrically operated article intended for use by children" means any toy, game, or other article designed, labeled, advertised, or otherwise intended for use by children which is intended to be powered by electrical current from nominal 120 volt (110-125 v.) branch circuits. Such articles are referred to in this part in various contexts as "toy" or "electrically operated toy." If the package (including packing materials) of the toy or other article is intended to be used with the product, it is considered to be part of the toy or other article. This definition does not include components which are powered by circuits of 30 volts r.m.s. (42.4 volts peak) or less, or articles designed primarily for use by adults which may be used incidentally by children.

§ 191b.2 [Reserved]

§ 191b.3 Labeling.

(a) *General.* Electrically operated toys, and the instruction sheets and outer packaging thereof, shall be labeled in accordance with the requirements of this section and any other applicable requirements of the Federal Hazardous Substances Act and regulations promulgated thereunder. All labeling shall be prominently and conspicuously displayed under customary conditions of purchase, storage, and use. All required information shall be readily visible, noticeable, clear, and, except where coding is permitted, shall be in legible English (other languages may also be included as appropriate). Such factors governing labeling as location, type size, and contrast against background may be based on necessary considerations to provide a reasonable display.

(b) *Specific items.* (1) The toy shall be marked in accordance with the provisions of paragraph (d) of this section to indicate:

(i) The electrical ratings required by paragraph (c) of this section.

(ii) Any precautionary statements required by paragraph (e) of this section.

(2) The shelf pack or package of the toy shall be labeled in accordance with the provisions of paragraph (d) of this section to indicate:

(i) The date (month and year) of manufacture (or appropriate codes).

(ii) The electrical ratings required by paragraph (c) of this section.

(iii) Any precautionary statements required by paragraph (e) of this section.

(3) Each toy shall be provided with adequate instructions that are easily understood by children of those ages for which the toy is intended. The instructions shall describe the applicable installation, assembly, use, cleaning, maintenance (including lubrication), and other functions as appropriate. Applicable precautions shall be included as well as the information required by paragraphs (b) (1) and (b) (2) of this section. The instructions shall also contain a statement addressed to parents recommending that the toy be periodically examined for potential hazards and that any potentially hazardous parts be repaired or replaced.

## RULES AND REGULATIONS

(4) If a toy is produced or assembled at more than one establishment, the toy and its shelf pack or package shall have a distinctive mark (which may be in code) identifying the toy as the product of a particular establishment.

(c) **Rating.** (1) A toy shall be marked to indicate its rating in volts and also in amperes and/or watts.

(2) If a toy utilizes a single motor as its only electric energy consuming component, the electrical rating may be marked on a motor nameplate and need not be marked elsewhere on the toy if the nameplate is readily visible after the motor has been installed in the toy.

(3) A toy shall be rated for alternating current only, direct current only, or both alternating and direct current.

(4) The alternating current rating shall include the frequency or frequency range requirement, if necessary because of a special component.

(d) **Markings.** (1) The markings required on the toy by paragraph (b) of this section shall be of a permanent nature, such as paint-stenciled, die-stamped, molded, or indelibly stamped. The markings shall not be permanently obliterated by spillage of any material intended for use with the toy and shall not be readily removable by cleaning with ordinary household cleaning substances. All markings on the toy and labeling of the shelf pack or package required by paragraph (b) of this section shall contrast sharply with the background (whether by color, projection, or indentation) and shall be readily visible and legible. Such markings and labeling shall appear in lettering of a height not less than that specified in paragraph (d)(2) of this section, except that those words shown in capital letters in paragraph (e) of this section shall appear in capital lettering of a height not less than twice that specified in paragraph (d)(2) of this section.

(2) Minimum lettering heights shall be as follows:

SURFACE AREA DISPLAYING MARKING, MINIMUM HEIGHT OF LETTERING	
Square inches	Inches
Under 5.....	1/16
5 or more and under 25.....	1/8
25 or more and under 100.....	3/16
100 or more and under 400.....	1/4
400 or more.....	1/2

(e) **Precautionary statements.**—(1) **General.** Electrically operated toys shall bear the statement: "CAUTION—ELECTRIC TOY." The shelf pack or package and the instructions of such toys shall bear the statement in the upper right-hand quarter of the principal display panel: "CAUTION—ELECTRIC TOY: Not recommended for children under \_\_\_\_ years of age. As with all electric products, precautions should be observed during handling and use to prevent electric shock." The blank in the preceding statement shall be filled in by the manufacturer, but in no instance shall the manufacturer indicate that the article is recommended for children under 8 years of age if it contains a heating element. In the case of other elec-

trically operated products which may not be considered to be "toys" but are intended for use by children, the term "ELECTRICALLY OPERATED PRODUCT" may be substituted for the term "ELECTRIC TOY."

(2) **Thermal hazards.** (i) Toys having Type C or Type D surfaces (described in § 191b.6(g)(2)) which reach temperatures greater than those shown in paragraph (e)(2)(ii) of this section shall be defined as hot and shall be marked where readily noticeable when the hot surface is in view with the statement: "HOT—Do Not Touch." When the marking is on other than the hot surface, the word "HOT" shall be followed by appropriate descriptive words such as "Molten Material," "Sole Plate," or "Heating Element," and the statement "Do Not Touch." An alternative statement for a surface intended to be handled as a functional part of the toy shall be "HOT—Handle Carefully," the blank being filled in by the manufacturer with a description of the potential hazard such as "Curler" or "Cooking Surface."

(ii) Surfaces requiring precautionary statements of thermal hazards are those exceeding the following temperatures when measured by the test described in § 191b.6(g)(4):

Surface Type § 191b.6(g)(2)	Thermal inertia type	Temperature	
		Degrees C.	Degrees F.
C.....	1	66	149
C.....	2	75	167
C.....	3	85	185
C.....	4	95	203
D.....	1	50	121
D.....	2	70	158
D.....	3	80	176
D.....	4	90	194

Thermal inertia types are defined in terms of lambda as follows:

Type 1: Greater than 0.0045 (e.g., most metals).  
Type 2: More than 0.0006 but not more than 0.0045 (e.g., glass).  
Type 3: More than 0.0001 but not more than 0.0006 (e.g., most plastics).  
Type 4: 0.0001 or less (e.g., future polymeric materials).  
The thermal inertia of a material can be obtained by multiplying the thermal conductivity (cal./cm./sec./degree C.) by the density (gm./cm.<sup>3</sup>) by the specific heat (cal./gm./degree C.).

(3) **Lamp hazards.**—(i) **Replaceable incandescent lamps.** A toy with one or more replaceable incandescent lamps, having a potential difference of more than 30 volts r.m.s. (42.4 volts peak) between any of its electrodes or lampholder contacts and any other part or ground, shall be marked inside the lamp compartment where readily noticeable during lamp replacement with the statement: "WARNING—Do not use light bulbs larger than \_\_\_\_ watts", the blank being filled in by the manufacturer with a number specifying the wattage rating of the lamp. Such toys shall bear the statement: "WARNING—Shock Hazard. Pull plug before changing light bulb" on the outside of the lamp compartment where it will be readily noticed before gaining access to the lamp compartment.

(ii) **Nonreplaceable incandescent lamps.** A toy which utilizes one or more nonreplaceable incandescent lamps

(other than pilot or indicator lamps) shall be marked where clearly visible with the statement: "SEALED UNIT—Do not attempt to change light bulb" or equivalent.

(4) **Water.** If not suitable for immersion in water, a toy cooking appliance (such as a corn popper, skillet, or candy-maker) or other article which may conceivably be immersed in water shall be marked with the statement: "DANGER—To prevent electric shock, do not immerse in water; wipe clean with damp cloth" or equivalent.

## § 191b.4 Manufacturing requirements.

(a) **General.** (1) Only materials safe and suitable for the particular use for which the electrically operated toy is intended shall be employed.

(2) Toys shall be produced in accordance with detailed material specifications, production specifications, and quality assurance programs. Quality assurance programs shall be established and maintained by each manufacturer to assure compliance with all requirements of this part.

(3) The manufacturer or importer shall keep and maintain for 3 years after production or importation of each lot of toys (i) the material and production specifications and the description of the quality assurance program required by paragraph (a)(2) of this section, (ii) the results of all inspections and tests conducted, and (iii) records of sale and distribution. These records shall be made available upon request at reasonable times to any officer or employee acting on behalf of the Secretary of Health, Education, and Welfare. The manufacturer or importer shall permit such officer or employee to inspect and copy such records, to make such inventories of stock as he deems necessary, and to otherwise verify the accuracy of such records.

(4) Toys shall be constructed and finished with a high degree of uniformity and as fine a grade of workmanship as is practicable in a well-equipped manufacturing establishment. Each component of a toy shall comply with the requirements set forth in this part.

(b) [Reserved]

(c) **Protective coatings.** Iron and steel parts shall be suitably protected against corrosion if the lack of a protective coating would likely produce a hazardous condition in normal use or when the toy is subjected to reasonably foreseeable damage or abuse.

(d) **Mechanical assembly.**—(1) **General.** A toy shall be designed and constructed to have the strength and rigidity necessary to withstand reasonably foreseeable damage and abuse without producing or increasing a shock, fire, or other accident hazard. An increase in hazards may be due to total or partial structural collapse of the toy resulting in a reduction of critical spacings, loosening or displacement of one or more components, or other serious defects.

(2) **Mounting.** Each switch, lampholder, motor, automatic control, transformer, and similar component shall be

securely mounted and shall be prevented from turning, unless the turning of such component is part of the design of the toy and produces no additional hazard such as reduced spacings below acceptable levels or stress on the connection. Friction between tight-fitting surfaces shall not be considered sufficient for preventing the turning of components. The proper use of a suitable lockwasher or a keyed and notched insert plus a suitable lockwasher for single-hole mountings shall be acceptable. Each toy shall be designed and constructed so that vibrations occurring during normal operation and after reasonably foreseeable damage or abuse will not affect it adversely. Brush caps shall be tightly threaded or otherwise designed to prevent loosening.

(3) **Structural integrity.** Heating elements shall be supported in a substantial and reliable manner and shall be structurally prevented from making contacts inside or outside of the toy which may produce shock hazards. The current-carrying component(s) of the heating element shall be enclosed, and the enclosure shall be designed or insulated to prevent the development of a shock or fire hazard that may result from element failure. A toy operating with a gas or liquid under pressure, such as an electrically operated steam engine, shall be tested with respect to its explosion hazard and shall be provided with a pressure relief device that will discharge in the safest possible direction; that is, avoiding direct human contact and avoiding the wetting of electrical contacts.

(e) **Insulating material.** (1) Material to be used for mounting uninsulated live electrical elements shall be generally accepted as suitable for the specific application, particularly with regard to electrical insulation (voltage breakdown) and good aging characteristics (no significant change in insulating characteristics over the expected lifetime of the toy).

(2) Material used to insulate a heating element from neighboring parts shall be suitable for the purpose. If plain asbestos in a glass braid is used to so insulate the heating element, it shall be tightly packed and totally enclosed by the braid, and the overall thickness, including the braid, shall not be less than one-sixteenth inch. Hard fiber may be used for electrically insulating bushings, washers, separators, and barriers, but is not sufficient as the sole support of uninsulated live metal parts.

(f) **Enclosures.**—(1) **General.** Each toy shall have an enclosure constructed of protective material suitable for the particular application, for the express purpose of housing all electrical parts that may present a fire, shock, or other accident hazard under any conditions of normal use or reasonably foreseeable damage or abuse. Enclosures shall meet the performance requirements prescribed by § 191b.6(b).

(2) **Accessibility.** An enclosure containing a wire, splice, brush cap, connection, electrical component, or uninsulated live part or parts at a potential

## RULES AND REGULATIONS

of more than 30 volts r.m.s. (42.4 volts peak) to any other part or to ground:

(1) Shall be sealed by welding, riveting, adhesive bonding, and/or by special screws or other fasteners not removable with a common household tool (screwdriver, pliers, or other similar household tool) used as intended; and

(ii) Shall have no opening permitting entry of a 0.010-inch-diameter music wire that could contact a live part. Cross-notch-head screws, spring clips, bent tabs, and similar fasteners shall not be considered suitable sealing devices for enclosures since they are easy to remove with common household tools. Bent tabs shall be acceptable if, due to metal thickness or other factors, they successfully resist forceful attempts to dislodge them with ordinary tools.

(3) **Nonapplication.** The requirements of this paragraph are not applicable to an insulating husk enclosure or equivalent that covers the electrodes of a replaceable incandescent lamp and its lampholder contacts. The primary function of an enclosure containing a lamp shall be to protect it from breakage during normal use or reasonably foreseeable damage or abuse.

(g) **Spacings.** The distance, through air or across the surface of an insulator, between uninsulated live metal parts and a metallic enclosure and between uninsulated live metal parts and all other metal parts shall be suitable for the specific application as determined by the dielectric strength requirements prescribed by § 191b.6(e)(2). Electrical insulating linings on barriers shall be held securely in place.

(h) **Special safety features.**—(1) **Moving parts.** If the normal use of a toy involves accident hazards, suitable protection shall be provided for the reduction of such hazards to an acceptable minimum. For example, rotors, pulleys, belt- ing, gearing, and other moving parts shall be enclosed or guarded to prevent accidental contact during normal use or when subjected to reasonably foreseeable damage or abuse. Such enclosure or guard shall not contain openings that permit entrance of a 1/4-inch-diameter rod and present a hazardous condition.

(2) **Switch marking.** Any toy having one or more moving parts which perform an inherent function of the toy and which may cause personal injury shall have a switch that can deenergize the toy by a simple movement to a plainly marked "OFF" position. Momentary contact switches which are normally in the "OFF" position need not be so marked.

(3) **Electrically operated sewing machines.** Electrically operated toy sewing machines shall be designed and constructed to eliminate the possibility of a child's finger(s) being pierced by a needle. For the purpose of this subparagraph, a clearance of not more than five thirty-seconds of an inch below the point of the needle when in its uppermost position or below the presser foot, if provided, shall be considered satisfactory.

(4) **Pressure relief valves.** A pressurized enclosure shall have an automatic

pressure relief device and shall be capable of withstanding hydrostatic pressure equal to at least five times the relief pressure.

(5) **Containers for heated materials.** Containers intended for holding molten compounds and hot liquids shall be designed and constructed to minimize accidental spillage. A pot or pan having a lip and one or more properly located pouring spouts and an adequately thermally insulated handle may provide satisfactory protection. Containers intended solely for baking need not be designed and constructed to minimize accidental spillage. Containers shall be of such material and construction that they will not deform or melt when subjected to the maximum operating temperature occurring during normal use or after reasonably foreseeable damage or abuse.

(6) **Water.** Electrically operated toys (such as toy irons) shall not be designed or manufactured to be used with water except for toy steam engines or other devices in which the electrical components are separate from the water reservoir and are completely contained in a sealed chamber. Toys requiring occasional or repeated cleaning with a wet cloth shall be constructed to prevent seepage of water into any electrically active area that may produce a hazardous condition.

## § 191b.5 Electrical design and construction.

(a) **Switches.** (1) Switches and other control devices of electrically operated toys shall be suitable for the application and shall have a rating not less than that of the load they control (see § 191b.6(e)(5)(ii) regarding electrical switch overload). A switch that controls a replaceable incandescent lamp, electrode, or lampholder contact which is at a potential of more than 30 volts r.m.s. (42.4 volts peak) to any other part or to ground shall open both sides of the circuit and shall have a marked "OFF" position. A switch that may reasonably be expected to be subjected to temperatures higher than 50° C. (122° F.) shall be constructed of materials which are suitable for use at such temperatures.

(2) Switches shall be located and protected so that they are not subject to mechanical damage that would produce a hazard in normal use or from reasonably foreseeable damage or abuse (see § 191b.6(b)).

(b) **Lamps.** (1) A replaceable incandescent lamp having a voltage of more than 30 volts r.m.s. (42.4 volts peak) between any of its electrodes or lampholder contacts and any other part or ground shall be in an enclosure that has at least one door or cover permitting access to the lamp. Such door(s) or cover(s) of the enclosure shall be so designed and constructed that they cannot be opened manually or with a flat bladed screwdriver or pliers.

(2) With all access doors and covers closed, the lamp enclosure shall have no opening that will permit entry of a straight rod 6 inches long and one-fourth inch in diameter if such entry would

present an electrical hazard. The lamp shall be located no less than one-half inch from any 1/4-inch-diameter opening in the enclosure.

(3) A toy having one or more lamp-holders shall be designed and constructed so that no live parts other than the contacts of the lampholders are exposed to contact by persons removing or replacing lamps. The shells of all lampholders for incandescent lamps shall be at the same potential.

(4) If the potential between the contacts of a lampholder for a replaceable incandescent lamp and any other part or ground is greater than 30 volts r.m.s. (42.4 volts peak), the contacts shall be located in an insulating husk or equivalent.

(c) *Transformers.* Transformers that are integral parts of toys shall be of the 2-coil insulated type.

(d) *Automatic controls.* Automatic controls for temperature regulation shall have the necessary capacity and reliability for their particular application.

(e) *Power supply connections (cords and plugs).* (1) A toy shall be provided with a suitable means for attachment to the power supply circuit.

(2) A toy requiring a power cord shall have a flexible cord that is permanently attached to the toy.

(3) The perimeter of the face of the attachment-plug cap shall be not less than five-sixteenths of an inch from any point on either blade of the plug.

(4) The body of the attachment-plug cap shall decrease in cross section from the face but shall have an expansion of the body, after a suitable distance from the face, sufficient to provide an effective finger grip.

(5) A flexible electrical power cord provided on a toy shall be type SP-2 (as defined in the "National Electrical Code," Chapter 4, article 400, pages 184-194 (1971), published by the National Fire Protection Association), or its equivalent, or a heavier general-use type, and shall be not less than 5 feet nor more than 10 feet in length when measured as the overall length of the attached cord outside the enclosure of the toy, including fittings, up to the face of the attachment-plug cap.

(6) A flexible cord and plug shall have a current-carrying capacity of not less than the ampere rating of the toy.

(7) Cords on toys which are intended to come in direct contact with water or other liquids during use shall be of a jacketed type. Cords on toys with which water or other liquids are to be indirectly used (such as for cooling a mold) shall be plastic covered.

(8) Transformers in which the primary coil connects directly to the branch circuit outlet shall not be subject to the requirements of paragraph (e) (2), (4), and (5) of this section.

(f) *Bushings.* (1) At the point where a power supply cord passes through an opening in a wall, barrier, or the overall

enclosure of a toy, a suitable and substantial bushing, insulating bushing, or equivalent shall be reliably secured in place and shall have smooth surfaces and well-rounded edges against which the cord may bear.

(2) If a cord hole is in wood, porcelain, phenolic composition, or other suitable insulating material, the surface of the hole is acceptable without a bushing if the edges of the hole are smooth and well-rounded. Where a separate insulating bushing is required, a bushing made of ceramic material or a suitable molded composition is acceptable if its edges are smooth and well-rounded.

(3) In no instance shall a separate bushing of wood, rubber, or any of the hot-molded shellac-and-tar compositions be considered acceptable.

(g) *Wiring.* (1) The internal wiring of a toy shall consist of suitable insulated conductors having adequate mechanical strength, dielectric properties, and electrical capacity for the particular application.

(2) Wireways shall be smooth and entirely free of sharp edges, burrs, fins, and moving parts that may abrade conductor insulation. Each splice and connection shall be mechanically secure, shall provide adequate and reliable electrical contact, and shall be provided with insulation at least equivalent to that of the wire involved unless adequate spacing between the splice and all other metal parts is permanently assured.

(3) A wire connector for making a splice in a toy shall be a type that is applied by a tool and for which the application force of the tool is independent of the force applied by the operator.

(4) Soldered connections shall be made mechanically secure before soldering.

(5) Current-carrying parts shall be made of silver, copper, a copper alloy, or other electrically conductive material suitable for the particular application.

(h) *Strain relief.* (1) A means of strain relief shall be provided to prevent mechanical stress on a flexible cord from being transmitted to terminals, splices, or interior wiring.

(2) If suitable auxiliary insulation is provided under a clamp for mechanical protection, clamps of any material are acceptable for use on Type SP-2 (as defined in the "National Electrical Code," chapter 4, article 400, pages 184-194 (1971), published by the National Fire Protection Association), or equivalent rubber-insulated cord. For heavier types of thermoplastic-insulated cord, clamps may be without auxiliary insulation unless the clamp may damage the cord insulation.

(3) A flexible cord shall be prevented from being pushed into the toy through the cord-entry hole if such displacement would result in a hazardous condition.

(4) A knot in the cord shall not be considered an acceptable means of strain relief, but a knot associated with a loop around a smooth, fixed structural com-

ponent shall be considered acceptable.

(i) *Additional requirements.* Except for the electrodes of a replaceable incandescent lamp and its lampholder contacts, a potential of more than 30 volts r.m.s. (42.4 volts peak) shall not exist between any exposed live part in a toy and any other part or ground.

#### § 191b.6 Performance.

(a) *General.* Electrically operated toys and components thereof shall be tested by the appropriate methods described in this section and shall pass the tests in such a manner as to provide the necessary assurance that normal use and reasonably foreseeable damage or abuse will not produce a hazard or a potentially hazardous condition. The toy shall be capable of passing all applicable tests with any door, cover, handle, operable part, or accessory placed in any normal position. A toy shall not present a fire, casualty, or shock hazard when operated continuously for 6 hours under conditions of normal use and reasonably foreseeable damage or abuse, including the most hazardous position in which the toy can be left.

(b) *Enclosures.* For purposes of this section, the term "enclosure" means any surface or surrounding structure which prevents access to a real or potential hazard. An enclosure shall withstand impact, compression, and pressure tests (see paragraph (b) (1), (2), and (3) of this section) without developing any openings above those specified, reduction of electrical spacings below those specified, or other fire, casualty, or shock hazards, including the loosening or displacement of components but excluding breakage of a lamp. After completion of each test, the toy shall comply with the requirements of the dielectric strength test described in paragraph (e) (2) of this section and, upon visual examination, shall not evidence the development of any hazards. Rupture of a fuse shall be considered a test failure.

(1) *Impact test.* A toy weighing 10 pounds or less shall be dropped four times from a height of 3 feet onto a 2 1/2 inch thick concrete slab covered with 0.125 inch nominal thickness vinyl tile. The impact area shall be at least 3 square feet. The test shall be conducted while the toy is energized and operating and with all dead metal of the toy that may be energized connected together electrically and grounded through a 3-ampere plug fuse. The toy shall be dropped in random orientation. After each drop the test sample shall be allowed to come to rest and examined and evaluated before continuing.

(2) *Compression test.* Any area on the surface of the enclosure that is accessible to a child and inaccessible to flat-surface contact during the impact test shall be subjected to a direct force of 20 pounds for 1 minute. The force shall be applied over a period of 5 seconds through the axis of a 1/2-inch-diameter metal rod having a flat end with the edge rounded to a radius of one thirty-second of an inch to eliminate sharp edges. The axis of the rod shall be perpendicular to the

surface being tested. During the test the toy shall rest on a flat, hard surface in any test-convenient position.

(3) *Pressure test.* If any portion of the top of a toy has a flat surface measuring 24 square inches or more and a minor dimension of at least 3 inches, that surface shall be subjected to a direct vertical pressure increasing to 50 pounds over a period of 5 seconds and maintained for 1 minute. The force shall be applied through a steel ball 2 inches in diameter. During the test the toy shall be in an upright position on a flat, horizontal solid surface.

(c) *Handles and knobs.* (1) *General.* For the purposes of tests in this paragraph, the parts of a lifting handle on a toy that are within seven-sixteenths of an inch of the surface to which the handle is attached, or the parts of a lifting knob that are within one-fourth inch of the surface to which the knob is attached, are considered to be for support purposes, and the remainder of the handle or knob is considered to be generally functional in nature. A handle or knob shall withstand crushing and lifting tests (see paragraph (c) (2) and (3) of this section) without fracture of the handle or knob, development of an opening that may pinch the hand, or breakage of the means used to fasten the handle or knob in place.

(2) *Crushing test.* The functional portion of a handle or knob shall be subjected to a crushing force increasing to 20 pounds over a period of 5 seconds and maintained for 1 minute. The force shall be applied through two flat and parallel hardwood blocks, each at least 2 1/2 inches thick and each having dimensions slightly exceeding those of the handle or knob being tested. The crushing force between the blocks shall be exerted in any direction perpendicular to the major axis of the handle or knob.

(3) *Lifting test.* The support portion of a handle or knob shall be subjected to a force equal to four times the weight of the object it is intended to support. The direction of the lifting force shall be as intended by the design of the toy and shall be applied through a 1/2-inch-wide strap through or around a handle or by fingers or the equivalent on a knob. The force shall be applied over a period of 5 seconds through the center of gravity of the toy and maintained for 1 minute.

(d) *Stability.* A toy shall not overturn while resting in an upright position on a flat surface inclined 15° from horizontal. No spillage of molten material or hot liquids from containers shall occur while the toy is operating in this position under normal conditions of use. During this test, casters, if any, shall be in the position most likely to result in tipping, but shall not be artificially held in one position to prevent a natural rotation to another position.

(e) *Electrical.* (1) *Power input.* The actual current flow in a toy without a heating element shall not exceed 110 percent of the rated value, and shall not exceed 5.5 amperes, at rated voltage. The power input to a toy with a heating element shall not exceed 105 percent of the

rated value at rated voltage. The power input rating of a toy employing one or more incandescent lamps as the only power-consuming components shall be considered to be the total rated wattage of such lamps. The rated voltage shall be considered to be the mean value of a marked voltage range.

(2) *Dielectric strength.* (i) A toy shall be capable of withstanding without breakdown for 1 minute a 60-cycle-per-second (60 Hertz) essentially sinusoidal potential of 1,000 volts applied between live parts and any dead metal parts.

(ii) If a toy employs a low-voltage secondary winding (either in the form of a conventional transformer or as an insulated coil of a motor), the toy shall also be capable of withstanding without breakdown for 1 minute a sinusoidal test potential applied between the high-voltage and low-voltage windings. The test potential shall be applied at the rated frequency of the toy and shall have a value of 1,000 volts plus twice the rated voltage of the high-voltage winding. The test potential shall be supplied from a suitable capacity-testing transformer, the output voltage of which can be regulated. The waveform of the test voltage shall approximate a sine wave as closely as possible.

(iii) The applied test potential shall be increased rapidly and uniformly from zero until the required test value is reached and shall be held at that value for 1 minute. Unless otherwise specified, the toy shall be at the maximum operating temperature reached in normal use prior to conducting the tests.

(iv) The dielectric strength requirements of this subparagraph may also be determined by subjecting the toy to a 60-cycle-per-second (60 Hertz) essentially sinusoidal potential of 1,200 volts for 1 second. If the dielectric strength is determined by this method, the toy need not be in a heated condition.

(3) *Leakage current and repeated dielectric withstand tests.* (i) Both before and after being conditioned, a toy intended to operate from a source exceeding 42.4 volts peak shall:

(a) Not have a leakage current exceeding 0.5 milliamperes, except that during the interval beginning 5 seconds and terminating 10 minutes after the toy is first energized, the leakage current of toys with heating elements other than lamps shall not exceed 2.5 milliamperes; and

(b) Comply with the requirements of a repeated dielectric withstand test both with and without preheating.

(ii) All accessible parts of a toy shall be tested for leakage current. If an insulating material is used for the enclosure or part of the enclosure, the leakage current shall be measured using a metal foil with an area not exceeding 10 by 20 centimeters in contact with accessible surfaces of such insulating material. Where the accessible surface of insulating material is less than 10 by 20 centimeters, the metal foil shall be the same size as the surface. The metal foil

shall be so applied that it will not affect the temperature of the toy. The accessible parts shall be tested individually, collectively, and from one part to another.

(iii) Following the initial leakage current test, the toy shall be cooled down or heated up to 32° C. (90° F.). The toy shall then be conditioned for 48 hours in air at a temperature of 32°±2° C. (89.6°±3.6° F.) and with a relative humidity of 90-95 percent. The specified relative humidity shall be maintained inside a closed compartment in which a saturated solution of potassium sulphate is kept in a suitable container. Leakage current measurements shall be made, as specified in paragraph (e) (3) (ii) of this section and before the toy is energized, while the toy is in the humidity compartment.

(iv) With the connections intended for the source of supply connected thereto and then connected to the ungrounded side of a power supply circuit having a voltage equal to 110 percent of the rated voltage of the toy, the leakage current through a noninductive 1,500-ohm resistor connected between the grounded side of the supply circuit and each dead metal part (accessible and inaccessible) shall, when stable, be measured in accordance with the test provisions established in ANSI Standard C 101.1-1971, "American National Standard for Leakage Current for Appliances," approved November 17, 1970, published by American National Standards Institute. The toy shall then be removed from the humidity chamber, energized, and tested again after attaining its normal operating temperature. From these measurements, a leakage current with no resistance shall be calculated and used to determine compliance.

(v) For a toy whose outer enclosure consists wholly or partly of insulating material, the term "dead metal part" means metal foil tightly wrapped around the exterior of the enclosure in a manner that covers, but does not enter into, any enclosure openings.

(4) *Motor operation.* (i) A motor provided as part of a toy shall be capable of driving its maximum normal load in the toy without introducing any potentially hazardous condition. The performance of the toy shall be considered unacceptable if, during the test, temperatures in excess of those specified in § 191b.7 for Type D surfaces are attained on any accessible surface. The performance of the toy shall also be considered unacceptable if the rise in temperature during the test causes melting, scorching, embrittlement, or other evidence of thermal damage to the insulating material used to prevent exposure of live metal parts.

(ii) A motor-operated toy shall be tested with the motor stalled if the construction of the toy is such that any person can touch moving parts associated with the motor from outside the toy. The

\* Copies may be obtained from: National Fire Protection Association, 60 Batterymarch Street, Boston, MA 02110.

\* Copies may be obtained from: National Fire Protection Association, 60 Batterymarch Street, Boston, MA 02110.

performance of the toy shall be considered unacceptable if, during the test, temperatures higher than those specified in § 191b.8 are attained or if temperatures higher than those specified for Type C surfaces in § 191b.7 are attained on any accessible surface of the motor.

(5) **Overload.**—(i) **Motor.** A motor-control switch that is a part of a toy shall be horsepower-rated to cover the load or shall be capable of performing acceptably when subjected to an overload test consisting of 50 cycles of operation by making and breaking the stalled-rotor current of the toy at maximum rated voltage. There shall be no electrical or mechanical failure nor any visible burning or pitting of the switch contacts as a result of this test.

(ii) **Switch.** To determine if a motor-control switch is capable of performing acceptably when subjected to overload conditions, the toy shall be connected to a grounded supply circuit of rated frequency and maximum rated voltage with the rotor of the motor locked into position. During the test, exposed dead metal parts of the toy shall be connected to ground through a 3-ampere plug fuse such that any single pole, current-rupturing device will be located in the ungrounded conductor of the supply circuit. If the toy is intended for use on direct current, or on direct current as well as alternating current, the exposed dead metal parts of the toy shall be so connected as to be positive with respect to a single pole, current-rupturing device. The switch shall be operated at a rate of not more than 10 cycles per minute. The performance of the toy shall be considered unacceptable if the fuse in the grounding connection is blown during the test.

(f) **Hydrokinetic.**—(1) **General.** Electrically operated toy steam engines shall be capable of performing acceptably when subjected to the tests described in this paragraph.

(2) **Preliminary test.** The ultimate strength of the boiler assembly shall first be determined by applying a hydrostatic pressure to the boiler with all openings blocked (the pressure-relief valve, steam exhausts, and any whistle or other accessory shall be removed and the resulting openings sealed); however, a water or other type of gage shall be left in place. The hydrostatic pressure shall be applied slowly and the ultimate value which is attained shall be recorded.

(3) **Pressure-relief test.** A pressure gage shall be connected to the boiler assembly which shall then be operated normally. The pressure at which the pressure-relief valve functions shall be noted while the engine is shut off (if a shutoff valve is provided) and with the whistle, if any, turned off. The test shall be discontinued and shall be considered a failure if the observed pressure exceeds one-fifth the value attained in the preliminary test described in paragraph (f) (2) of this section.

(4) **Operating pressure test.** If the boiler is still intact and no failure has occurred, the pressure-relief valve shall then be rendered inoperable and all other

valves (such as a whistle and exhaust from the assembly) shall be tightly closed. Operation shall be continued until the pressure becomes constant. This test shall be discontinued and shall be considered a failure if the observed pressure exceeds one-third the value attained in the preliminary test described in paragraph (f) (2) of this section. During this test, all valves, gaskets, joints, and similar components shall be sufficiently tightened to prevent leakage. Rupture of the boiler or of any other fittings supplied with the engine shall be considered a failure.

(5) **Hydrostatic test.** If there has been no failure, two previous untested toys shall withstand for 1 minute a hydrostatic pressure of 5 times the pressure at which the safety valve operated or 3 times the constant pressure observed with the pressure-relief valve inoperable, whichever is greater. During this test, all openings shall be blocked (the pressure-relief valve, steam exhaust from the assembly, and any whistle or other outlet); however, a water or other type of gage shall remain in place. Rupture of the boiler or of a gage shall be considered a failure.

(g) **Thermal.**—(1) **General.** The normal operation of a toy includes performance in normal use and after being subjected to reasonably foreseeable damage or abuse likely to produce the highest temperatures or, in the case of motor-operated toys, the load that most closely approximates the severest conditions of normal use or reasonably foreseeable damage or abuse.

(2) **Classification.** Parts or surfaces of a toy are classified according to their use or function as follows (for the purposes of paragraph (g) (2) (v), (vi), and (vii) of this section, accessibility shall be defined as the ability to reach a heated surface with a 1/4-inch-diameter rod 3 inches long):

(i) **Type A.** A part or surface of a toy (such as a handle) likely to be grasped by the hand or fingers for the purpose of carrying the toy or lifting a separable lid.

(ii) **Type B.** A part or surface of a toy that is (a) part of a handle, knob, or similar component, as in Type A (described in subdivision (i) of this subparagraph), but which is not normally grasped or contacted by the hand or fingers for carrying (including parts of a handle within seven-sixteenths of an inch of the surface to which the handle is attached and parts of a finger knob within 1/4 inch of the surface to which the knob is attached, if the remainder of the knob is large enough to be grasped), or (b) a handle, knob, or part that may be touched but which need not be grasped for carrying the toy or lifting a lid, door, or cover (e.g., support part of a handle or knob).

(iii) **Type C.** A part or surface of a toy that can be touched by casual contact or that can be touched without employing the aid of a common household tool (screwdriver, pliers, or other similar household tool) and that is either

(a) a surface that performs an intended

heating function (e.g., the soleplate of a flatiron, a cooking surface, or a heating element surface), or (b) a material heated by the element and intended to be used as the product of the toy, excluding pans, dishes, or other containers used to hold the material to be cooked or baked if a common utensil or other device is supplied with the toy and specific instructions are established for using such a device to remove the container from the heated area.

(iv) **Type C marked.** A Type C surface which has been marked with a precautionary statement of thermal hazards in accordance with § 191b.3(e) (2).

(v) **Type D.** An accessible part or surface of a toy other than Types A, B, C, or E (see subdivisions (i), (ii), (iii), and (vii) of this subparagraph).

(vi) **Type D marked.** A Type D surface which has been marked with a precautionary statement of thermal hazards in accordance with § 191b.3(e) (2).

(vii) **Type E.** A heated surface in an oven or other article that is inaccessible or protected by an electrical-thermal safety interlock. Such interlocks shall prohibit the operation of a heating device whenever such surfaces are accessible and shall not allow accessibility to such surfaces until the temperatures of those surfaces have been reduced to levels below those established for Type D surfaces (paragraph (g) (2) (v) of this section).

(3) **Requirements.** When tested under the conditions described in paragraph (g) (4) of this section, a toy shall not attain a temperature at any point sufficiently high to constitute a fire hazard or to adversely affect any materials employed and shall not show a maximum temperature higher than those established by §§ 191b.7 and 191b.8. These maximum surface temperature requirements are not applicable to educational or hobby-type products such as lead-casting sets and wood-burning tools which are appropriately labeled on the shelf pack or package as being intended only for children over 12 years of age provided that the maximum surface temperature of any such toy does not exceed that reasonably required to accomplish the intended technical effect. Such toys shall be provided with specific instructions and the warning statements required by and in accordance with § 191b.3 (d) and (e), and shall be appropriately identified as educational or hobby-type products.

(4) **Test conditions.**—(i) **General.** Tests shall be conducted while the toy is connected to a circuit of 60-cycle-per-second (60 Hertz) current using the materials supplied with the toy or using materials otherwise intended to be used with the toy. Following such tests, the toy shall be energized for a 6-hour period to determine that no hazardous conditions would result from unattended use of the toy.

(ii) **Temperature.** Normally, tests shall be performed at an ambient (room) temperature of 25° C. (77° F.); however, a test may be conducted at any

ambient temperature within the range of 21° to 30° C. (69.8° to 86° F.).

(iii) **Voltage.** The toy shall be tested at the voltage indicated in the manufacturer's rating or at 120 volts, whichever is greater.

(5) **Temperature measurements.**—(i) **General.** Temperatures shall be measured by means of instruments utilizing thermocouples of No. 30 AWG (American Wire Gage) wire (either copper and constantan or iron and constantan) and potentiometer-type instruments that are accurate and are calibrated in accordance with current good laboratory practices. The thermocouple wire shall conform with the requirements for "special" thermocouples as listed in the table of limits of error of thermocouples (Table VIII) in "American Standard for Temperature Measurement Thermocouples, C96.1-1964," approved June 9, 1964, by American National Standards Institute, Inc. The Standard was sponsored and published by the Instrument Society of America.

(ii) **Test procedures.** The thermocouple junction and adjacent thermocouple lead wire shall be securely held in good thermal contact with the surface of the material whose temperature is being measured. In most cases, good thermal contact will result from securely taping or cementing the thermocouple in place. If a metal surface is involved, brazing or soldering the thermocouple to the metal may be necessary. The surface temperatures of a toy shall be measured with the toy operating in any unattended condition (e.g., with and without opening and closing doors or covers) for a sufficient period of time to allow temperatures to become constant, or, in the case of a toy with a thermostatically controlled heating element, for a sufficient period of time to determine the maximum surface temperature attained. A temperature shall be considered to be constant when three successive readings taken at 15-minute intervals indicate no change.

(iii) **Heating devices.** Toy ovens, casting toys, popcorn and candymakers, and other toys requiring the insertion of any materials or substances shall be additionally tested by feeding crumpled strips of newspaper and tissue paper into or onto the toy in place of the intended materials or substances. The test strips shall be conditioned for at least 48 hours in air at a temperature of 25±4° C. (77±7° F.) and a relative humidity of 50 percent ±5 percent. The test strips shall be 2 inches wide by 8 inches long before crumpling. The crumpled paper shall occupy not more than 25 percent of the accessible volume. The performance of the toy shall be considered unacceptable if flaming occurs within a 60-minute period following the attainment of normal operating temperatures. If a light bulb is used for heating purposes, the test shall be conducted using the largest wattage bulb

\* Copies may be obtained from: Instrument Society of America, 530 William Penn Place, Pittsburgh, PA 15219.

that can be easily inserted into the socket.

(h) **Strain-relief test.** (1) The strain-relief means provided on the flexible power cord of a toy shall be capable of withstanding a direct pull of 35 pounds applied to the cord for 2 minutes without displacement of the strain-relief unit or a deformation of the anchoring surface that would produce a stress which would result in a potentially hazardous condition. A 35-pound weight shall be attached to the cord and supported by the toy in such a manner that the strain-relief means is stressed from any angle that the construction of the toy permits. The test shall be conducted with the electrical connection within the toy disconnected.

(2) The initial 2-minute test shall be conducted with the force vector parallel to the longitudinal axis of the cord and perpendicular to the anchoring surface of the strain-relief unit. Each test at other angles of stress shall be conducted for periods of 1 minute. The strain-relief means is not acceptable if, at the point of disconnection of the cord, there is any movement of the cord to indicate that stress would have resulted on the connections.

(3) Except for toys weighing more than 10 pounds, the strain-relief unit and its support base shall be designed and constructed in such a manner that no indication of stress would result which would produce a hazard when the cord is held firmly in place 3 feet from the strain-relief unit and the toy is dropped the 3 feet at any angle.

§ 191b.7 Maximum acceptable surface temperatures.

The maximum acceptable surface temperatures for electrically operated toys shall be as follows:

Material	Degrees C.	Degrees F.
Capacitors.....	(1)	(1)
Class 105 insulation on windings or relays, solenoids, etc.: Thermocouple method.....	90	194
Resistance method.....	110	230
Class 130 insulation system.....	110	230
Insulation: Varnished-cloth insulation.....	85	185
Fiber used as electrical insulation.....	90	194
Class A Class B Class A Class B		
Insulation on coil windings of a.c. motors (not including universal motors) and on vibrator coils: In open motors and on vibrator coils—thermocouple or resistance method.....	100	212
In totally enclosed motors—thermocouple or resistance method.....	105	221
Insulation on coil windings of d.c. motors and of universal motors: In open motors: Thermocouple method.....	90	194
Resistance method.....	100	212
In totally enclosed motors: Thermocouple method.....	95	203
Resistance method.....	105	221
Phenolic composition.....	125	257
Rubber- or thermoplastic-insulated wires and cords.....	150	302
Sealing compound.....	60	140
Supporting surface while the toy is operating normally.....	(1)	(1)
Wood and other similar combustible material.....	90	194

<sup>1</sup> If the capacitor has no marked temperature limit, the maximum acceptable temperature will be assumed to be 65° C. (149° F.) for an electrolytic type and 90° C. (194° F.) for other than an electrolytic type.

<sup>2</sup> The temperature indicated refers to the hottest spot on the outside surface of the coil measured by the thermocouple method.

<sup>3</sup> The limitations on rubber- and thermoplastic-insulated wires and cords and on phenolic composition do not apply if the insulation or the phenolic has been investigated and found to have special heat-resistant properties, or if the insulation meets the thermal requirements.

<sup>4</sup> 40 less than melting point.

<sup>5</sup> 104 less than melting point.

<sup>1</sup> Thermal inertia types are defined in terms of lambda

as follows:

Type 1: Greater than 0.0045 (e.g., most metals).

Type 2: More than 0.0005 but not more than 0.0045

(e.g., glass).

Type 3: More than 0.0001 but not more than 0.0005

(e.g., most plastics).

Type 4: 0.0001 or less (e.g., future polymeric materials).

The thermal inertia of a material can be obtained by

multiplying the thermal conductivity (cal./cm./sec./

degree C.) by the density (gm./cm.<sup>3</sup>) by the specific

heat (cal./gm./degree C.).

<sup>2</sup> All types.

<sup>3</sup> No limit.

§ 191b.8 Maximum acceptable material

temperatures.

The maximum acceptable material temperatures for electrically operated toys shall be as follows (Classes 105, 130, A, and B are from "Motors and Generators," Standard MG-1-1967 published by the National Electrical Manufacturers Association):

\* Copies may be obtained from: National Electrical Manufacturers Association, 155 East 44th Street, New York, NY 10017.

**Effective date.** This order shall become effective on September 3, 1973.

(Secs. 2(f) (1) (D), (r), (s), (t), 3(e) (1), 74 Stat. 372, 374, 375, as amended 83 Stat. 187-189; 15 U.S.C. 1261, 1262)

Dated: March 2, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

NOTE: Incorporation by reference provisions approved by the Director of the Federal Register March 1, 1973.

[FR Doc. 73-4322 Filed 3-6-73; 8:45 am]

**Title 26—Internal Revenue**  
**CHAPTER 1—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY**  
**SUBCHAPTER A—INCOME TAX**

[T.D. 7283]

**PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953**

**SUBCHAPTER F—PROCEDURE AND ADMINISTRATION**

**PART 301—PROCEDURE AND ADMINISTRATION**

**Expenses of Work Incentive Programs**

By a notice of proposed rule making appearing in the FEDERAL REGISTER on October 3 and October 19, 1972 (37 FR 20700, 22387), amendments to the Income Tax Regulations (26 CFR Part 1) and the regulations on procedure and administration (26 CFR Part 301) were proposed in order to conform such regulations to the provisions of section 601 of the Revenue Act of 1971 (85 Stat. 553), relating to the Work Incentive (WIN) program tax credit. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, certain changes were made, and the proposed amendments of the Income Tax Regulations (26 CFR Part 1) which are contained in paragraphs 1 and 2 of the appendix to the notice of proposed rule making, subject to the changes indicated below, are adopted by this document. The proposed amendments to the Income Tax Regulations (26 CFR Part 1) and the regulations on procedure and administration (26 CFR Part 301) which are contained in paragraphs 3 through 16 of the appendix to the notice of proposed rule making will be the subject of a subsequent document.

The WIN tax credit, enacted as title VI of the Revenue Act of 1971, is effective for taxable years beginning after 1971. The new tax credit is designed to encourage private business to hire persons participating in the Federal Work Incentive Program. The Labor Department has estimated that as many as 1.5 million welfare recipients are eligible for jobs which would give rise to a WIN tax credit.

The new tax provisions permit employers to claim a dollar-for-dollar business income tax credit of 20 percent of the wages paid to a WIN program employee for services performed in their trade or business during the first 12 months of

employment, whether these months are consecutive or not, provided the 12 months of employment are completed within a 2-year period and the employee is paid wages comparable to those paid other employees doing similar work.

The credit for a taxable year may not exceed \$25,000, plus 50 percent of the taxpayer's income tax liability in excess of \$25,000. In the case of a married individual who files a separate return, the credit may not exceed \$12,500 plus 50 percent of the taxpayer's income tax liability in excess of \$12,500. The latter limitation does not apply if the spouse of the taxpayer has no Work Incentive Program expenses for, and no unused credit carryback or carryover to, the taxable year of such spouse which ends within or with the taxpayer's taxable year.

An eligible WIN program employee must be certified under procedures previously announced by the Labor Department on May 14, 1972.

Guidelines are provided in the new regulations for determining what constitutes the first 12 months of employment during which wages are eligible for the tax credit, and what constitutes a termination of employment, or a failure to pay comparable wages, thereby giving rise to a recapture of previously allowed WIN tax credit. Rules are set forth for the carrybacks and carryforwards, and for credit, for recomputing the allowable credit in the case of net operating loss carrybacks and carryforwards, and for the operation of the credit and credit-recapture provisions in cases concerning small business (subchapter S) corporations, trusts and estates, and partnerships.

Section 1.50A-3(c) (2) of the new regulations provides the rules for determining the first 12 months of employment (whether or not consecutive), the wages for which are eligible for the WIN credit. Under these rules, the first month begins with the date the employee reports for work, the second month begins with the corresponding date of the following calendar month, and so forth. If the employee performs any services whatsoever in any of these monthly periods, that monthly period counts in determining the employee's first 12 months of employment (whether or not consecutive). These rules were selected from among several possibilities because they are easy for both taxpayers and the Internal Revenue Service to apply.

Section 1.50A-4(b) of the new regulations provides that, for certain purposes, an employee will not be deemed to terminate his employment voluntarily if he quits because his employer makes his working conditions so untenable that he is, in effect, compelled by the employer to quit. This rule is included in the regulations to prevent an employer from avoiding certain adverse treatment of a previously allowed WIN credit by, in effect, compelling the employee to quit. Such a termination cannot be said to be voluntary on the part of the employee.

Several changes have been made in these final regulations from the proposed version. One of these changes deals with section 50A(c) (2) (A) (ii) of the Internal Revenue Code and § 1.50A-4(c) of the new regulations which provide that a previously allowed work incentive program credit is not subject to recapture on account of the early termination of the employment of a WIN employee where the employee becomes disabled to perform the services required by such employment. This exception to the recapture provisions of section 50A(c) (1) does not apply if before the end of the first 12 months of employment (whether or not consecutive) and the following 12 calendar months, the disability of a terminated WIN employee is removed, but the employer fails to offer reemployment to such employee. It may be difficult in many cases for the employer to know whether such employee's disability has been removed, and therefore to know whether to offer reemployment to such employee in order to avoid having his credit for the expenses incurred with respect to that employee recaptured. Therefore, the final regulations have been changed from the proposed version to make it clear that before the recapture tax can be imposed because of a termination of employment due to disability, the disability must be removed, the employer must know of the removal of such disability, and the employer must fail to offer reemployment to the employee, all within the above-described period of time.

Section 1.50A-3(a) (1) (ii) of the proposed regulations contains a rule that a temporary suspension of employment (such as for a model change in the automobile industry) is not considered to be a termination of employment if the suspension is for less than 60 days and is required by the circumstances in the particular industry. It was felt this rule would be too harsh for small employers who may need to temporarily suspend their employees while they retool or reequip their plants. Such a temporary suspension of employment could be dictated by considerations facing a particular employer rather than by circumstances within his industry as a whole. Thus, under the rule contained in the proposed regulations such an employer might be considered to have terminated a WIN employee's employment. Paragraph (a) (1) (ii) of § 1.50A-3 of the proposed regulations has been revised by deleting the requirement that a temporary suspension of employment must be required by the circumstances in a particular industry. Language has been added to make it clear that only the installation of new equipment or the retooling of existing equipment by the taxpayer which results in a suspension of employment which is not longer than 60 days will not be deemed a termination of employment.

Another change in the final regulations deals with the agreement to be signed by the shareholders of an electing small business (subchapter S) corporation (a corporation which elects under subchapter S of the Internal Revenue Code to be taxed, in general, as a

partnership). Generally, § 1.50A-5(b) of the new regulations provides that if a corporation makes a valid election under section 1372 of the Code to be a subchapter S corporation, the employment of any WIN employee whose initial date of employment occurred prior to this election shall be considered as terminated, and the credit claimed with respect to the expenses incurred for such employee may be recaptured. However, if the shareholders and the corporation execute the agreement provided for in the regulations, the credit will not be recaptured.

This agreement, which is provided for in paragraph (b) (2), of § 1.50A-5, has been revised to cover two situations in which the shareholders and the electing corporation agree to be jointly and severally liable to pay a recapture tax. The first situation, which was also covered in the proposed regulations, occurs if a WIN employee is terminated before the close of the first 12 months of employment (whether or not consecutive) or before the close of the following 12 calendar months. The second situation, which has been added by the final regulations, specifies that the shareholders and the corporation must pay the recapture tax if during the above period the corporation pays a WIN employee wages which are less than wages paid other employees who are performing comparable services. This agreement applies only to the credit which was allowed the corporation before the election under Subchapter S.

Form 4878, Credit for Wages Paid or Incurred in Work Incentive (WIN) Programs, is to be used to compute and claim the WIN credit. This form is available at local IRS offices.

**Adoption of amendments to the regulations.** On October 3 and October 19, 1972, notice of proposed rule making with respect to the Income Tax Regulations (26 CFR Part 1) and the regulations on procedure and administration (26 CFR Part 301) under sections 39, 40, 42, 50A, 50B, 6411, 6501, 6511, 6601, and 6611 of the Internal Revenue Code of 1954 to conform such regulations to section 601 of the Revenue Act of 1971 (85 Stat. 553), relating to credit for certain expenses incurred in work incentive programs, was published in the FEDERAL REGISTER (37 FR 20700, 22387). After consideration of all relevant matter presented by interested persons regarding the proposed rules, the amendment of the Income Tax Regulations (26 CFR Part 1) under sections 39, 40, 42, 50A, and 50B is hereby adopted, subject to the following changes.

**PARAGRAPH 1.** Section 1.50A-1, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising paragraph (a) and so much of paragraph (b) as follows subparagraph (2) to read as set forth below.

**PAR. 2.** Section 1.50A-2, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by

**RULES AND REGULATIONS**

revising paragraphs (a) (2), (b), and (c) thereof to read as set forth below.

**PAR. 3.** Section 1.50A-3, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising subdivision (ii) of paragraph (a) (1) and (c) of the example contained in subdivision (ii) of paragraph (b) (3) thereof to read as set forth below.

**PAR. 4.** Section 1.50A-4, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising paragraphs (c) and (d), by revising subparagraph (1) of paragraph (f), by revising subdivision (i) of example (1) of paragraph (f) (2), by revising subdivision (ii) (a) of paragraph (g) (1) to correct a typographical error, by revising subdivision (iii) of paragraph (g) (3), and by revising subdivision (i) of example (4) of paragraph (g) (5). These revised provisions read as set forth below.

**PAR. 5.** Section 1.50A-5, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising subparagraph (2) of paragraph (b) to read as set forth below.

**PAR. 6.** Section 1.50A-6, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising paragraph (b) thereof to read as set forth below.

**PAR. 7.** Section 1.50A-7, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising subdivisions (ii) and (iii) of paragraph (a) (2), by revising subparagraph (3) of paragraph (a), and by revising subdivision (i) of example (1) of paragraph (b). These revised provisions read as set forth below.

**PAR. 8.** Section 1.50B-1, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising subparagraph (1) of paragraph (a), by revising example (2) of subparagraph (2) of paragraph (a), and by revising paragraph (h). These revised provisions read as set forth below.

**PAR. 9.** Section 1.50B-2, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising subparagraphs (2) and (3) of paragraph (a) and by revising subdivision (iii) of example (1) of paragraph (c). These revised provisions read as set forth below.

**PAR. 10.** Section 1.50B-3, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising subparagraphs (2), (3), and (4) of paragraph (a), by revising paragraph (d), and by revising example (2) of paragraph (f). These revised provisions read as set forth below.

**PAR. 11.** Section 1.50B-4, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by revising subparagraph (2) of paragraph (a) and by revising subdivision (i) of example (4) of paragraph (c) to correct a typographical error. These revised provisions read as set forth below.

**PAR. 12.** Section 1.50B-5, as set forth in paragraph 2 of the appendix to the notice of proposed rule making, is amended by

revising so much of subparagraph (2) of paragraph (b) thereof as follows subdivision (ii) to read as set forth below.

(Secs. 40(b) and 7806 Internal Revenue Code of 1954 (85 Stat. 553; 88A Stat. 917; 26 U.S.C. 40(b), 7805))

[SEAL] JOHNNIE M. WALTERS,  
Commissioner of Internal Revenue.

Approved: March 2, 1973.

FREDERIC W. HICKMAN,  
Assistant Secretary of the  
Treasury.

In order to conform the Income Tax Regulations (36 CFR Part 1) and the regulations on procedure and administration (36 CFR Part 301) to the provisions of section 601 of the Revenue Act of 1971 (85 Stat. 553), relating to credit for certain expenses incurred in work incentive programs, such regulations are amended as follows:

Sec.	Statutory provisions; certain uses of gasoline, special fuels, and lubricating oil.
1.39	
1.40	Statutory provisions; expenses of work incentive programs.
1.40-1	Expenses of work incentive program.
1.42	Statutory provisions; overpayments of tax.
1.50A	Statutory provisions; amount of credit.
1.50A-1	Determination of amount.
1.50A-2	Carryback and carryover of unused credit.
1.50A-3	Recomputation of credit allowed by section 40.
1.50A-4	Exceptions to the application of § 1.50A-3.
1.50A-5	Electing small business corporation.
1.50A-6	Estates and trusts.
1.50A-7	Partnerships.
1.50B	Statutory provisions; definitions, special rules.
1.50B-1	Definitions of WIN expenses and WIN employees.
1.50B-2	Electing small business corporations.
1.50B-3	Estates and trusts.
1.50B-4	Partnerships.
1.50B-5	Limitations with respect to certain persons.
1.6411	Statutory provisions; tentative carryback adjustments.
1.6411-1	Tentative carryback adjustments.
1.6411-2	Computation of tentative carryback adjustment.
1.6411-3	Allowance of adjustments.
301.6411	Statutory provisions; tentative carryback adjustments.
301.6501(m)	Statutory provisions; limitations on assessment and collections; tentative carryback adjustment period.
301.6501(m)-1	Tentative carryback adjustment assessment period.
301.6501(o)	Statutory provisions; limitation on assessment and collection; work incentive program credit carrybacks.
301.6501(o)-1	Work incentive program credit carrybacks, taxable years beginning after December 31, 1971.

Sec. 301.6511	Statutory provisions; limitations on credit or refund; special rules applicable to income taxes.
301.6511(d)-7	Overpayment of income tax on account of work incentive program credit carryback.
301.6601	Statutory provisions; interest on underpayment, nonpayment, or extensions of time for payment, of tax.
301.6601-1	Interest on underpayments.
301.6611	Statutory provisions; interest on overpayments.
301.6611-1	Interest on overpayments.

PARAGRAPH 1. Section 1.39 is redesignated as § 1.42 and the historical note thereto is revised. There is inserted immediately after § 1.38-1 new §§ 1.39, 1.40 and 1.40-1. These redesignated, revised, and new provisions read as follows:

§ 1.39 Statutory provisions; certain uses of gasoline, special fuels, and lubricating oil.

Sec. 39. Certain uses of gasoline, special fuels, and lubricating oil.—(a) General rule. There shall be allowed as a credit against the tax imposed by this subtitle for the taxable year an amount equal to the sum of the amounts payable to the taxpayer—

(1) Under section 6420 with respect to gasoline used during the taxable year on a farm for farming purposes (determined without regard to section 6420(h)),

(2) Under section 6421 with respect to gasoline used during the taxable year (A) otherwise than as a fuel in a highway vehicle or (B) in vehicles while engaged in furnishing certain public passenger land transportation service (determined without regard to section 6421(i)),

(3) Under section 6424 with respect to lubricating oil used during the taxable year otherwise than in a highway motor vehicle (determined without regard to section 6424(g)), and

(4) Under section 6427 with respect to fuels used for nontaxable purposes or resold during the taxable year (determined without regard to section 6427(f)).

(b) Transitional rules. For purposes of paragraphs (1) and (2) of subsection (a), a taxpayer's first taxable year beginning after June 30, 1965, shall include the period after June 30, 1965, and before the beginning of such first taxable year. For purposes of paragraph (3) of subsection (a), a taxpayer's first taxable year beginning after December 31, 1965, shall include the period after December 31, 1965, and before the beginning of such first taxable year.

(c) Exception. Credit shall not be allowed under subsection (a) for any amount payable under section 6421, 6424, or 6427, if a claim for such amount is timely filed, and under section 6421(i), 6424(g), or 6427(f) is payable, under such section.

[Sec. 39 as added by sec. 809(c), Excise Tax Reduction Act 1965 (79 Stat. 167) and as amended by sec. 207(c) Airport and Airway Development Act 1970 (84 Stat. 248)]

§ 1.40 Statutory provisions; expenses of work incentive programs.

Sec. 40. Expenses of work incentive programs.—(a) General rule. There shall be allowed, as a credit against the tax imposed by this chapter, the amount determined under Subpart C of this part.

(b) Regulations. The Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the purposes of this section and Subpart C.

## RULES AND REGULATIONS

[Sec. 40 as added by sec. 801(a), Rev. Act 1971 (85 Stat. 553)]

§ 1.40-1 Expenses of work incentive program.

Section 1.50A-1 through 1.50B-6, inclusive, are prescribed under the authority granted the Secretary or his delegate by section 40(b) of the Code to prescribe such regulations as may be necessary to carry out the purposes of section 40 and Subpart C, Part IV, Subchapter A, Chapter 1 of the Code.

§ 1.42 Statutory provisions; overpayments of tax.

Sec. 42. Overpayments of tax. For credit against the tax imposed by this subtitle for overpayments of tax, see section 6401.

[Sec. 42 as renumbered by sec. 601(a), Rev. Act 1971 (85 Stat. 553); as previously renumbered as sec. 39 by sec. 2(a), Rev. Act 1962 (76 Stat. 982); and as previously renumbered as sec. 40 by sec. 809(c), Excise Tax Reduction Act 1965 (79 Stat. 167)]

PAR. 2. There are inserted immediately after § 1.50-1 the following new sections:

RULES FOR COMPUTING CREDIT FOR EXPENSES OF WORK INCENTIVE PROGRAMS

§ 1.50A Statutory provisions; amount of credit.

Sec. 50A. Amount of credit.—(a) Determination of amount.—(1) General rule. The amount of the credit allowed by section 40 for the taxable year shall be equal to 20 percent of the work incentive program expenses (as defined in section 50B(a)).

(2) Limitation based on amount of tax. Notwithstanding paragraph (1), the credit allowed by section 40 for the taxable year shall not exceed—

(A) So much of the liability for tax for the taxable year as does not exceed \$25,000, plus

(B) 50 percent of so much of the liability for tax for the taxable year as exceeds \$25,000.

(3) Liability for tax. For purposes of paragraph (2), the liability for tax for the taxable year shall be the tax imposed by this chapter for such year, reduced by the sum of the credits allowable under—

(A) Section 33 (relating to foreign tax credit),

(B) Section 35 (relating to partially tax exempt interest),

(C) Section 37 (relating to retirement income),

(D) Section 38 (relating to investment in certain depreciable property), and

(E) Section 41 (relating to contributions to candidates for public office).

For purposes of this paragraph, any tax imposed for the taxable year by section 56 (relating to minimum tax for tax preferences), section 531 (relating to accumulated earnings tax), section 541 (relating to personal holding company tax), or section 1378 (relating to tax on certain capital gains of Subchapter S corporations), and any additional tax imposed for the taxable year by section 1351(d)(1) (relating to recoveries of foreign expropriation losses), shall not be considered tax imposed by this chapter for such year.

(4) Married individuals. In the case of a husband or wife who files a separate return, the amount specified under subparagraph (A) and (B) of paragraph (2) shall be \$12,500 in lieu of \$25,000. This paragraph shall not apply if the spouse of the taxpayer has no work incentive program expenses for, and no unused credit carryback or carryover to, the taxable year of such spouse which ends within or with the taxpayer's taxable year.

(5) Controlled groups. In the case of a controlled group, the \$25,000 amount specified under paragraph (2) shall be reduced for each component member of such group by apportioning \$25,000 among the component members of such group in such manner as the Secretary or his delegate shall by regulations prescribe. For purposes of the preceding sentence, the term "controlled group" has the meaning assigned to such term by section 1563(a).

(b) Carryback and carryover of unused credit.—(1) Allowance of credit. If the amount of the credit determined under subsection (a) (1) for any taxable year exceeds the limitation provided by subsection (a) (2) for such taxable year (hereinafter in this subsection referred to as "unused credit year"), such excess shall be—

(A) A work incentive program credit carryback to each of the 3 taxable years preceding the unused credit year, and

(B) A work incentive program credit carryover to each of the 7 taxable years following the unused credit year, and shall be added to the amount allowable as a credit by section 40 for such year, except that such excess may be a carryback only to a taxable year beginning after December 31, 1971. The entire amount of the unused credit for an unused credit year shall be carried to the earliest of the 10 taxable years to which (by reason of subparagraphs (A) and (B)) such credit may be carried, and then to each of the other 9 taxable years to the extent that, because of the limitation contained in paragraph (2), such unused credit may not be added for a prior taxable year to which such unused credit may be carried.

(2) Limitation. The amount of the unused credit which may be added under paragraph (1) for any preceding or succeeding taxable year shall not exceed the amount by which the limitation provided by subsection (a) (2) for such taxable year exceeds the sum of—

(A) The credit allowable under subsection (a) (1) for such taxable year, and

(B) The amounts which, by reason of this subsection, are added to the amount allowable for such taxable year and attributable to taxable years preceding the unused credit year.

(c) Early termination of employment by employer, etc.—(1) General rule. Under regulations prescribed by the Secretary or his delegate—

(A) Work incentive program expenses. If the employment of any employee with respect to whom work incentive program expenses are taken into account under subsection (a) is terminated by the taxpayer at any time during the first 12 months of such employment (whether or not consecutive) or before the close of the 12th calendar month after the calendar month in which such employee completes 12 months of employment with the taxpayer, the tax under this chapter for the taxable year in which such employment is terminated shall be increased by an amount (determined under such regulations) equal to the credits allowed under section 40 for such taxable year and all prior taxable years attributable to work incentive program expenses paid or incurred with respect to such employee.

(B) Carrybacks and carryovers adjusted. In the case of any termination of employment to which subparagraph (A) applies, the carrybacks and carryovers under subsection (b) shall be properly adjusted.

(2) Subsection not to apply in certain cases.—(A) In general. Paragraph (1) shall not apply to—

(i) A termination of employment of an employee who voluntarily leaves the employment of the taxpayer,

(ii) A termination of employment of an individual who, before the close of the period

referred to in paragraph (1)(A), becomes disabled to perform the services of such employment, unless such disability is removed before the close of such period and the taxpayer fails to offer reemployment to such individual, or

(iii) A termination of employment of an individual, if it is determined under the applicable State unemployment compensation law that the termination was due to the misconduct of such individual.

(B) Change in form of business, etc. For purposes of paragraph (1), the employment relationship between the taxpayer and an employee shall not be treated as terminated—

(i) By a transaction to which section 381 (a) applies, if the employee continues to be employed by the acquiring corporation, or

(ii) By reason of a mere change in the form of conducting the trade or business of the taxpayer, if the employee continues to be employed in such trade or business and the taxpayer retains a substantial interest in such trade or business.

(3) Special rule. Any increase in tax under paragraph (1) shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit allowable under subpart A.

(d) Failure to pay comparable wages.—(1) General rule. Under regulations prescribed by the Secretary or his delegate, if during the period described in subsection (c) (1)(A), the taxpayer pays wages (as defined in section 50B(b)) to an employee with respect to whom work incentive program expenses are taken into account under subsection (a) which are less than the wages paid to other employees who perform comparable services, the tax under this chapter for the taxable year in which such wages are so paid shall be increased by an amount (determined under such regulations) equal to the credits allowed under section 40 for such taxable year and all prior taxable years attributable to work incentive program expenses paid or incurred with respect to such employee, and the carrybacks and carryovers under subsection (b) shall be properly adjusted.

(2) Special rule. Any increase in tax under paragraph (1) shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit allowable under Subpart A.

[Sec. 50A as added by sec. 601(b), Rev. Act 1971 (85 Stat. 554)]

§ 1.50A-1 Determination of amount.

(a) In general. Except as otherwise provided in this section and in § 1.50A-2, the amount of the work incentive program (WIN) credit allowed by section 40 for the taxable year is equal to 20 percent of the taxpayer's WIN expenses (as determined under paragraph (a) of § 1.50B-1). The amount equal to 20 percent of the WIN expenses shall be referred to in this section and §§ 1.50A-2 through 1.50B-5 as the "credit earned."

(b) Limitation based on amount of tax. Notwithstanding the amount of the credit earned for the taxable year, under section 50A(a) (2) the credit allowed by section 40 for the taxable year is limited to—

(1) If the liability for tax (as defined in paragraph (c) of this section) is \$25,000 or less, the liability for tax; or

(2) If the liability for tax is more than \$25,000, then, the first \$25,000 of the liability for tax plus 50 percent of the liability for tax in excess of \$25,000.

## RULES AND REGULATIONS

However, such \$25,000 amount may be reduced in the case of certain married individuals filing separate returns (see paragraph (e) of this section); corporations which are members of a controlled group (see paragraph (f) of this section); estates and trusts (see paragraph (c) of § 1.50B-3); and organizations to which section 593 applies, regulated investment companies or real estate investment trusts subject to taxation under Subchapter M, Chapter 1 of the Code, and cooperative organizations described in section 1381(a) (see § 1.50B-5). The excess of the credit earned for the taxable year over the limitations described in this paragraph for such taxable year is an unused credit which may be carried back or forward to other taxable years in accordance with § 1.50A-2.

(c) Liability for tax. For the purpose of computing the limitation based on amount of tax, section 50A(a) (3) defines the liability for tax as the income tax imposed for the taxable year by Chapter 1 of the Code (including the 6 percent additional tax imposed by section 1562(b)), reduced by the sum of the credits allowable under—

(1) Section 33 (relating to taxes of foreign countries and possessions of the United States),

(2) Section 35 (relating to partially tax-exempt interest received by individuals),

(3) Section 37 (relating to retirement income),

(4) Section 38 (relating to investment in certain depreciable property), and

(5) Section 41 (relating to contributions to candidates for public office).

For purposes of this paragraph, the tax imposed for the taxable year by section 56 (relating to imposition of minimum tax for tax preferences), section 531 (relating to imposition of accumulated earnings tax), section 541 (relating to imposition of personal holding company tax), or section 1378 (relating to tax on certain capital gains of Subchapter S corporations), and any additional tax imposed for the taxable year by section 1351(d)(1) (relating to recoveries of foreign expropriation losses), shall not be considered tax imposed by Chapter 1 of the Code for such year. Thus, the liability for tax for purposes of computing the limitation based on amount of tax for the taxable year is determined without regard to any tax imposed by section 56, 531, 541, 1351(d)(1) or 1378 of the Code. In addition, any increase in tax resulting from the application of section 50A (c) and (d) and § 1.50A-3 (relating to recomputation of credit allowed due to early termination of employment by employer, or failure to pay comparable wages) shall not be treated as tax imposed by Chapter 1 of the Code for purposes of computing the liability for tax. See section 50A (c) (3) and (d) (2).

(d) Example. The application of paragraphs (a), (b), and (c) of this section may be illustrated by the following example:

Example. X Corporation's WIN expenses for its taxable year ending December 31, 1973, are \$50,000. X's credit earned for its taxable

year is \$100,000 (20 percent of \$500,000). X's income tax for such year, computed without regard to credits against tax and without regard to any tax imposed by section 56, 531, 541, 1351(d)(1) or 1378, is \$190,000. That amount includes \$5,000 resulting from the application of section 50A(c)(3) and § 1.50A-3. X is allowed under section 33 a foreign tax credit of \$50,000. X's liability for tax is computed as follows:

Income tax (including increase in tax under section 50A(c)(3), but before any credits and without regard to any tax imposed by section 56, 531, 541, 1351(d)(1) or 1378)	\$190,000
--	-----------

Less:	
Increase in tax resulting from application of section 50A(c)(3)	\$5,000
Foreign tax credit	50,000

	55,000
Liability for tax	135,000

Under section 50A(a) (2) and paragraph (b) of this section, X's limitation based on amount of tax for the taxable year is \$80,000 (\$25,000 plus 50 percent of \$110,000). X Corporation's credit allowed by section 40 for the taxable year therefore is \$80,000. X has an unused credit for the year of \$20,000 (\$100,000 less \$80,000) which it may carry back or forward to other taxable years in accordance with § 1.50A-2.

(e) Married individuals. If a separate return is filed by a husband or wife, the limitation based on amount of tax under paragraph (b) of this section shall be computed by substituting a \$12,500 amount for the \$25,000 amount in applying such paragraph (b). However, this reduction of the \$25,000 amount to \$12,500 applies only if the taxpayer's spouse is entitled to a credit under section 40 for the taxable year of such spouse which ends with, or within, the taxpayer's taxable year. The taxpayer's spouse is entitled to a credit under section 40 either because of incurring WIN expenses for such taxable year of the spouse (whether directly incurred by such spouse or whether apportioned to such spouse, for example, from an electing small business corporation, as defined in section 1371(b)), or because of a credit carryback or carryover to such taxable year under § 1.50A-2. The determination of whether an individual is married shall be made under the principles of section 143 and the regulations thereunder.

(f) Apportionment of \$25,000 amount among component members of a controlled group.—(1) In general. In determining the limitation based on amount of tax under section 50A(a) (2) in the case of corporations which are component members of a controlled group of corporations on a December 31, only one \$25,000 amount is available to such component members for their taxable years that include such December 31. See subparagraph (2) of this paragraph for apportionment of such amount among such component members. See subparagraph (3) of this paragraph for the definition of "component member."

(2) Manner of apportionment. (i) In the case of corporations which are com-

ponent members of a controlled group on a particular December 31, the \$25,000 amount may be apportioned among such members for their taxable years that include such December 31 in any manner the component members may select, provided that each such member less than 100 percent of whose stock is owned, in the aggregate, by the other component members of the group on such December 31 consents to an apportionment plan. The consent of a component member to an apportionment plan with respect to a particular December 31 shall be made by means of a statement signed by a person duly authorized to act on behalf of the consenting member, stating that such member consents to the apportionment plan with respect to such December 31. The statement shall set forth the name, address, employer identification number, and taxable year of each component member of the group on such December 31, the amount apportioned to each such member under the plan, and the location of the Internal Revenue Service center where the statement is to be filed. The consent of more than one component member may be incorporated in a single statement. The statement shall be timely filed with the Internal Revenue Service center where the component member having the taxable year first ending on or after such December 31 files its return for such taxable year and shall be irrevocable after such filing. If two or more component members have the same such taxable year, a statement of consent may be filed by any one of such members. Such statement shall be considered as timely filed if filed on or before the due date (including any extensions of time) of such member's income tax return which includes such December 31. However, if the due date (including any extensions of time) of the return of such member is on or before December 15, 1972, the required statement shall be considered as timely filed if filed on or before March 15, 1973. Each component member of the group on such December 31 shall keep as a part of its records a copy of the statement containing all the required consents.

(ii) An apportionment plan adopted by a controlled group with respect to a particular December 31 shall be valid only for the taxable year of each member of the group which includes such December 31. Thus, a controlled group must file a separate consent to an apportionment plan with respect to each taxable year which includes a December 31 as to which an apportionment plan is desired.

(iii) If an apportionment plan is not timely filed, the \$25,000 amount specified in section 50A(a)(2) shall be reduced for each component member of the controlled group, for its taxable year which includes a December 31, to an amount equal to \$25,000 divided by the number of component members of each group on such December 31.

(iv) If a component member of the controlled group makes its income tax return on the basis of a 52-53 week taxable year, the principles of section 441(f)(2)(A)(ii) and paragraph (b)(1) of

§ 1.441-2 apply in determining the last day of such taxable year.

(3) *Definitions of controlled group of corporations and component member of controlled group.* For the purpose of this paragraph, the terms "controlled group of corporations" and "component member" of a controlled group of corporations shall have the same meaning assigned to those terms in section 1563 (a) and (b) and the regulations thereunder. For purposes of applying § 1.1563-1(b)(2)(ii)(c), an electing small business corporation shall be treated as an excluded member whether or not it is subject to the tax imposed by section 1378.

(4) *Members of a controlled group filing a consolidated return.* If some component members of a controlled group join in filing a consolidated return pursuant to § 1.1502-3(a)(3), and other component members do not join, then, unless a consent is timely filed apportioning the \$25,000 amount among the group filing the consolidated return and the other component members of the controlled group, each component member of the controlled group (including each component member which joins in filing the consolidated return) shall be treated as a separate corporation for purposes of equally apportioning the \$25,000 amount under subparagraph (2)(iii) of this paragraph. In such case, the limitation based on the amount of tax for the group filing the consolidated return shall be computed by substituting for the \$25,000 amount the total of the amount apportioned to each component member which joins in filing the consolidated return. If the affiliated group, filing the consolidated return and the other component members of the controlled group adopt an apportionment plan, the affiliated group shall be treated as a single member for the purpose of applying subparagraph (2)(i) of this paragraph. Thus, for example, only one consent executed by the common parent to the apportionment plan is required for the group filing the consolidated return. If any component member of the controlled group which joins in the filing of the consolidated return is an organization to which section 593 applies or a cooperative organization described in section 1381(a), rules similar to the rules contained in paragraph (a)(3)(ii) of § 1.1502-3 are applicable.

(5) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

*Example (1).* At all times during 1972 Smith, an individual, owns all the stock of corporations X, Y, and Z. Corporation X files an income tax return on a calendar year basis. Corporation Y files an income tax return on the basis of a fiscal year ending June 30. Corporation Z files an income tax return on the basis of a fiscal year ending September 30. On December 31, 1972, X, Y, and Z are component members of the same controlled group. X, Y, and Z all consent to an apportionment plan in which the \$25,000 amount is apportioned entirely to Y for its taxable year ending December 31, 1972.

Such consent is timely filed. For purposes of computing the credit under section 40, Y's limitation based on amount of tax for its taxable year ending June 30, 1973, is so much of Y's liability for tax as does not

exceed \$25,000, plus 50 percent of Y's liability for tax in excess of \$25,000. X's and Z's limitations for their taxable years ending December 31, 1972, and September 30, 1973, respectively, are equal to 50 percent of X's liability for tax and 50 percent of Z's liability for tax. On the other hand, if an apportionment plan is not timely filed, X's limitation would be so much of X's liability for tax as does not exceed \$8,333.33, plus 50 percent of X's liability in excess of \$8,333.33, and Y's and Z's limitations would be computed similarly.

*Example (2).* At all times during 1972, Jones, an individual, owns all the outstanding stock of corporations P, Q, and R. Corporations Q and R both file returns for taxable years ending December 31, 1972. P files a consolidated return as a common parent for its fiscal year ending June 30, 1973, with its wholly owned subsidiaries N and O. On December 31, 1972, N, O, P, Q, and R are component members of the same controlled group. No consent to an apportionment plan is filed. Therefore, each member is apportioned \$5,000 of the \$25,000 amount (\$25,000 divided equally among the five members). The limitation based on the amount of tax for the group filing the consolidated return (P, N, and O) for the year ending June 30, 1973 (the consolidated taxable year within which December 31, 1972, falls), is computed by using \$15,000 instead of the \$25,000 amount. The \$15,000 is arrived at by adding together the \$5,000 amounts apportioned to P, N, and O.

#### § 1.50A-2 Carryback and carryover of unused credit.

(a) *Allowance of unused credit as carryback or carryover.*—(1) *In general.* Section 50A(b)(1) provides for carrybacks and carryovers of any unused credit. An unused credit is the excess of the credit earned for the taxable year (as determined under paragraph (a) of § 1.50A-1) over the limitation based on amount of tax for such taxable year (as determined under paragraph (b) of § 1.50A-1). Subject to the limitation contained in paragraph (b) of this section, an unused credit shall be added to the amount allowable as a credit under section 40 for the years to which the unused credit can be carried. The year with respect to which an unused credit arises shall be referred to in this section as the "unused credit year."

(2) *Taxable years to which unused credit may be carried.* An unused credit shall be a work incentive program (WIN) credit carryback to each of the 3 taxable years preceding the unused credit year and a WIN credit carryover to each of the 7 taxable years succeeding the unused credit year, except that an unused credit shall be a carryback only to taxable years beginning after December 31, 1971. An unused credit must be carried first to the earliest of the taxable years to which it may be carried, and then to each of the other taxable years (in order of time) to the extent that the unused credit may not be added (because of the limitation contained in paragraph (b) of this section) to the amount allowable as a credit under section 40 for a prior taxable year.

(b) *Limitation on allowance of unused credit.* The amount of the unused credit from any particular unused credit year which may be added to the amount allowable as a credit under section 40 for any of the preceding or suc-

ceeding taxable years to which such credit may be carried shall not exceed the amount by which the limitation based on amount of tax for such preceding or succeeding taxable year exceeds the sum of (1) the credit earned for such preceding or succeeding year, and (2) other unused credits carried to such preceding or succeeding year which are attributable to unused credit years prior to the particular unused credit year.

(c) *Corporate acquisitions.* For the carryover of unused credits in the case of certain corporate acquisitions, see section 381(c)(24) and the regulations thereunder. [§ 1.381(c)(24)-1]

(d) *Periods of less than 12 months.* A fractional part of a year which is considered as a taxable year under sections 441(b) and 7701(a)(23) shall be treated as a preceding or a succeeding taxable year for the purpose of determining under section 50A(b) and this section the taxable years to which an unused credit may be carried.

(e) *Example.* The provisions of paragraphs (a) through (d) of this section may be illustrated by the following example:

*Example.* Corporation X files its income tax return on the basis of the calendar year. X's credit earned and its limitation based on amount of tax for each of its taxable years 1972 through 1978 are as follows:

	Credit earned	Limitation based on amount of tax
1972	\$175,000	\$300,000
1973	250,000	180,000
1974	200,000	210,000
1975	210,000	230,000
1976	220,000	250,000
1977	230,000	280,000
1978	270,000	280,000

(1) Corporation X's credit earned for 1972, \$175,000, is allowable in full as a credit under section 40 for 1972 since such amount is less than the limitation based on amount of tax for such year, \$300,000. Since the limitation based on amount of tax for 1973 is \$180,000, only \$180,000 of the \$250,000 credit earned for such year is allowable under section 40 as a credit for 1973. The unused credit for 1973 of \$70,000 (\$250,000 less \$180,000) is a WIN credit carryback to 1972 and a WIN credit carryover to 1974 and subsequent years up to and including 1980. The portion of the \$70,000 unused credit which shall be added to the amount allowable as a credit under section 40 for 1972 and 1974 and subsequent years is computed as follows:

Carryback to 1972	\$90,000
1972 limitation based on tax	\$300,000
Less: Credit earned for 1972	\$175,000
Unused credits attributable to years preceding 1973	0
Limit on amount of 1973 unused credit which may be added as a credit for 1972	25,000
Balance of 1973 unused credit to be carried to 1974	65,000

(2) 1974. The portion of the balance of the unused credit for 1973 (\$65,000) allowable as a credit for 1974 is \$10,000. This amount shall be added to the amount allowable as a credit for 1974. The balance of the unused credit for 1973 to be carried to 1975 is \$55,000. These amounts are computed as follows:

Carryover to 1974	\$65,000
1974 limitation based on tax	\$210,000
Less: Credit earned for 1974	\$200,000
Unused credits attributable to years preceding 1975	0
Limit on amount of 1975 unused credit which may be added as a credit for 1974	10,000
Balance of 1975 unused credit to be carried to 1975	55,000

(3) 1975. The portion of the balance of the unused credit for 1973 (\$55,000) allowable as a credit for 1975 is \$35,000. This amount shall be added to the amount allowable as a credit for 1975. The balance of the unused credit for 1973 to be carried to 1976 is \$20,000. These amounts are computed as follows:

Carryover to 1975	\$55,000
1975 limitation based on tax	\$230,000
Less: Credit earned for 1975	\$210,000
Unused credits attributable to years preceding 1976	0
Limit on amount of 1976 unused credit which may be added as a credit for 1975	0
Balance of 1976 unused credit to be carried to 1976	40,000

(4) 1976. The portion of the balance of the unused credit for 1973 (\$40,000) allowable as a credit for 1976 is \$20,000. This amount shall be added to the amount allowable as a credit for 1976. The balance of the unused credit for 1973 to be carried to 1978 is \$20,000. These amounts are computed as follows:

Carryover to 1976	\$40,000
1976 limitation based on tax	\$230,000
Less: Credit earned for 1976	\$210,000
Unused credits attributable to years preceding 1977	0
Limit on amount of 1977 unused credit which may be added as a credit for 1976	20,000
Balance of 1977 unused credit to be carried to 1978	20,000

(5) 1977. The entire balance of the unused credit for 1973 (\$20,000) is allowable as a credit for 1977, since the limitation based on amount of tax for 1977 exceeds the sum of the credit earned for 1977 and unused credits attributable to years prior to 1977 by an amount in excess of \$20,000. Since the balance of the unused credit for 1973 has been fully allowed, no portion thereof remains to be carried to subsequent taxable years. This is illustrated as follows:

Carryover to 1977	\$20,000
1977 limitation based on tax	\$280,000
Less: Credit earned for 1977	\$260,000
Unused credits attributable to years preceding 1978	0
Limit on amount of 1978 unused credit which may be added as a credit for 1977	40,000
Balance of 1978 unused credit to be carried to 1977	0

(6) Since the limitation based on amount of tax for 1977 is \$280,000, only \$280,000 of the \$280,000 credit earned for such year is allowable as a credit for 1977. The unused credit for 1977 of \$40,000 (\$280,000 less \$280,000) is a WIN credit carryback to 1974, 1975, and 1976 and a WIN credit carryover to 1978 and subsequent years. The portions of the \$40,000 unused credit which shall be added to the amount allowable as a credit for such years are computed as follows:

Carryback to 1974	\$40,000
1974 limitation based on tax	\$210,000
Less: Credit earned for 1974	\$200,000
Unused credits attributable to years preceding 1975	10,000
Limit on amount of 1975 unused credit which may be added as a credit for 1974	0
Balance of 1975 unused credit to be carried to 1975	40,000

(7) 1975. The portion of the unused credit for 1977 (\$40,000) allowable as a credit for 1975 is zero. The balance of the unused credit for 1977 to be carried to 1976 is \$40,000. These amounts are computed as follows:

Carryback to 1975	\$40,000
1975 limitation based on tax	\$230,000
Less: Credit earned for 1975	\$210,000
Unused credits attributable to years preceding 1976	20,000
Limit on amount of 1976 unused credit which may be added as a credit for 1975	0
Balance of 1976 unused credit to be carried to 1976	40,000

(8) 1976. The portion of the unused credit for 1977 (\$40,000) allowable as a credit for 1976 is \$4,000. This amount shall be added to the amount allowable as a credit for 1976. The balance of the unused credit for 1977 to be carried to 1978 is \$36,000. These amounts are computed as follows:

Carryover to 1976	\$40,000
1976 limitation based on tax	\$230,000
Less: Credit earned for 1976	\$226,000
Unused credits attributable to years preceding 1977	4,000
Limit on amount of 1977 unused credit which may be added as a credit for 1976	0
Balance of 1977 unused credit to be carried to 1978	36,000

Carryback to 1976

1976 limitation based on tax	\$230,000
Less: Credit earned for 1976	\$226,000
Unused credits attributable to years preceding 1977	4,000
Limit on amount of 1977 unused credit which may be added as a credit for 1976	0
Balance of 1977 unused credit to be carried to 1978	36,000

(9) 1978. The portion of the balance of the unused credit for 1977 (\$36,000) allowable as a credit for 1978 is \$10,000. This amount shall be added to the amount allowable as a credit for 1978. The balance of the unused credit for 1977 to be carried to 1979 and subsequent years is \$26,000. These amounts are computed as follows:

Carryover to 1978	\$36,000
1978 limitation based on tax	\$280,000
Less: Credit earned for 1978	\$270,000
Unused credits attributable to years preceding 1979	0
Limit on amount of 1979 unused credit which may be added as a credit for 1978	10,000
Balance of 1979 unused credit to be carried to 1979	26,000

(10) 1979. The portion of the balance of the unused credit for 1977 (\$26,000) allowable as a credit for 1979 is \$26,000. This amount shall be added to the amount allowable as a credit for 1979. The balance of the unused credit for 1977 to be carried to 1979 and subsequent years is \$0. These amounts are computed as follows:

Carryover to 1979	\$26,000
1979 limitation based on tax	\$280,000
Less: Credit earned for 1979	\$254,000
Unused credits attributable to years preceding 1980	0
Limit on amount of 1980 unused credit which may be added as a credit for 1979	0
Balance of 1980 unused credit to be carried to 1980	0

(11) *Electing small business corporation.* An unused credit of a corporation which arises in an unused credit year for which the corporation is not an electing small business corporation (as defined in section 1371(b)) and which is a carryback or carryover to a taxable year for which the corporation is an electing small business corporation shall not be added to the amount allowable as a credit under section 40 to the shareholders of such corporation for any taxable year. However, a taxable year for which the corporation is an electing small business corporation shall be counted as a taxable year for purposes of determining the taxable years to which such unused credit may be carried.

#### § 1.50A-3 Recomputation of credit allowed by section 40.

(a) *General rule.*—(1) *Early termination of employment by employer.*—(i) *In general.* If the employment of any employee, with respect to whom work incentive program (WIN) expenses (as defined in paragraph (a) of § 1.50B-1) are taken into account under paragraph (a) of § 1.50A-1, is terminated by the taxpayer at any time during the first 12 months of such employment (whether or not consecutive) or before the close of the 12th calendar month after the calendar month in which such employee completes the first 12 months of employment (whether or not consecutive) with the taxpayer, then subparagraph (3) of this paragraph shall apply. See paragraph (c) of this section for rules relating to the determination of the first 12 months of employment (whether or not consecutive). See § 1.50A-4 for rules relating to other circumstances under which a termination of employment will not be treated as a termination of employment to which the provisions of subparagraph (3) of this paragraph are applicable.

(ii) *Rules for determining whether a termination of employment has occurred.*

For purposes of this section, the taxpayer is deemed to have terminated the employment of any WIN employee (as defined in paragraph (h) of § 1.50B-1) if the employment relationship (as determined under common law principles) has terminated. A layoff for any reason is considered a termination of employment for purposes of the preceding sentence. However, a temporary suspension of employment of any WIN employee necessitated by the installation of new equipment or by the retooling of existing equipment (such as for a model change-over in the automobile industry) shall not be deemed to be a termination of employment if such suspension is for a period of time no longer than 60 days. For purposes of this section, the death of the taxpayer is considered a termination of the employment relationship between the taxpayer and any WIN employee.

(2) *Failure to pay comparable wages.*—(i) *In general.* If, at any time during the period described in subparagraph (1) (i) of this paragraph, the taxpayer pays wages (as defined in section 50B(b) and paragraph (b) of § 1.50B-1) to an employee, with respect to whom WIN expenses are taken into account under paragraph (a) of § 1.50A-1, which are less than the wages paid to other employees of the taxpayer who perform comparable services, then subparagraph (3) of this paragraph shall apply.

(ii) *Comparable services.* (a) For purposes of subdivision (1) of this subparagraph, the term "comparable services" refers to services performed in work positions which require similar education, training, and skills. Comparable services are those associated with other work positions which require similar levels of judgment and responsibility, which make similar physical and mental demands of an employee, and which could easily be performed by the employee without substantial additional training or experience.

(b) If substantial training, skill, or experience are material to the performance of a particular job, a taxpayer may pay wages to a WIN employee which are less than those paid to other employees of the taxpayer who possess such training, skill, or experience. However, there must be a reasonable relationship between the lower wages or salary of such WIN employee and his relative lack of training, skill, or experience.

(3) *Recomputation of credit earned.* (i) If, by reason of subparagraph (1) or (2) of this paragraph, this subparagraph (3) is applicable, then the credit earned for all credit years (as defined in subdivision (ii) (a) of this subparagraph) shall be recomputed under the principles of paragraph (a) of § 1.50A-1 by not taking into account WIN expenses with respect to the employee (or employees) described in subparagraph (1) or (2) of this paragraph. There shall be recomputed under the principles of §§ 1.50A-1 and 1.50A-2 the credit allowed for all credit years and for any other taxable year affected by reason of the reduction in credit earned for such credit year or years, giving effect to such reduction in

the computation of carrybacks or carryovers of unused credit from any taxable year. If the recomputation described in the preceding sentence results, in the aggregate, in a decrease (taking into account any recomputation under this paragraph in respect of prior recapture years, as defined in subdivision (ii) (b) of this subparagraph) in the credits allowed for any credit year and for any other taxable year affected by the reduction in credit earned for any credit year, then the income tax for the recapture year shall be increased by the amount of such decrease in credits allowed. For treatment of such increase in tax, see paragraph (b) of this section. For special rules in the case of an electing small business corporation (as defined in section 1371(b)), an estate or trust, or a partnership, see respectively, § 1.50A-5, § 1.50A-6 or § 1.50A-7.

(ii) For purposes of this section and §§ 1.50A-4 through 1.50B-6—(a) The term "credit year" means a taxable year in which WIN expenses with respect to the employee described in subparagraph (1) or (2) of this paragraph are taken into account under paragraph (a) of § 1.50A-1.

(b) The term "recapture year" means a taxable year in which a termination of employment (within the meaning of subparagraph (1) of this paragraph) or a failure to pay comparable wages (within the meaning of subparagraph (2) of this paragraph) occurs by reason of which the rule of subparagraph (3) of this paragraph becomes applicable.

(c) The term "recapture determination" means a recomputation made under this paragraph.

(b) *Increase in income tax and reduction of WIN credit carryback and carryover.*—(1) *Increase in tax.* Except as provided in subparagraph (2) of this paragraph, any increase in income tax under this section shall be treated as income tax imposed on the taxpayer by Chapter 1 of the Code for the recapture year notwithstanding that without regard to such increase the taxpayer has no income tax liability, has a net operating loss for such taxable year, or no income tax return was otherwise required for such taxable year.

(2) *Special rule.* Any increase in income tax under this section shall not be treated as income tax imposed on the taxpayer by Chapter 1 of the Code for purposes of determining the amount of the credits allowable to such taxpayer under—

(i) Section 33 (relating to taxes of foreign countries and possessions of the United States),

(ii) Section 35 (relating to partially tax-exempt interest received by individuals),

(iii) Section 37 (relating to retirement income),

(iv) Section 38 (relating to investment in certain depreciable property),

(v) Section 39 (relating to certain uses of gasoline, special fuels, and lubricating oil),

(vi) Section 40 (relating to expenses of work incentive programs), and

(vii) Section 41 (relating to contributions to candidates for public office).

(3) *Reduction in credit allowed as a result of a net operating loss carryback.*

(i) If a net operating loss carryback from the recapture year or from any taxable year subsequent to the recapture year reduces the amount allowed as a credit under section 40 for any taxable year up to and including the recapture year, then there shall be a new recapture determination under paragraph (a) of this section for each recapture year affected, taking into account the reduced amount of credit allowed after application of the net operating loss carryback.

(ii) Subdivision (1) of this subparagraph may be illustrated by the following example:

*Example.* (a) X Corporation, which makes its returns on the basis of a calendar year, hired WIN employees on March 1, 1972, and incurred \$10,000 in WIN expenses with respect to these employees for the year. For the taxable year 1972, X Corporation's credit earned of \$2,000 (20 percent of \$10,000) was allowed under section 40 as a credit against its liability for tax of \$2,000. In 1973 and 1974 X Corporation had no liability for tax and had no WIN expenses. In January 1974, X Corporation terminated the employees for whom the WIN expenses had been incurred. Since these terminations were not subject to the exceptions provided by § 1.50A-4, there was a recapture determination under paragraph (a) of this section. The income tax imposed by chapter 1 of the Code on X Corporation for the taxable year 1974 was increased by the \$2,000 decrease in its credit earned for the taxable year 1972 (that is, the \$2,000 original credit earned minus zero recomputed credit earned).

(b) For the taxable year 1975, X Corporation has a net operating loss which is carried back to the taxable year 1972 and reduces its liability for tax, as defined in paragraph (c) of § 1.50A-1, for such taxable year to \$800. As a result of such net operating loss carryback, X Corporation's credit allowed under section 40 for the taxable year 1972 is limited to \$800 and the excess of \$1,200 (\$2,000 credit earned minus the \$800 limitation based on amount of tax) is a WIN credit carryover to the taxable year 1973.

(c) For 1975 there is a recapture determination under subdivision (1) of this subparagraph for the 1974 recapture year. The \$2,000 increase in the income tax imposed on X Corporation for the taxable year 1974 is redetermined to be \$800 (that is, the \$800 credit allowed after taking into account the 1975 net operating loss minus zero credit which would have been allowed taking into account the 1974 recapture determination). In addition, X Corporation's \$1,200 WIN credit carryover to the taxable year 1973 is reduced by \$1,200 (\$2,000 minus \$800) to zero and X Corporation is entitled to a \$1,200 refund of the \$2,000 tax paid as a result of the 1974 recapture determination.

(4) *Statement of recomputation.* The taxpayer shall attach to his income tax return for the recapture year a separate statement showing in detail the computation of the increase in income tax imposed on such taxpayer by Chapter 1 of the Code and the reduction in any WIN credit carryovers.

(c) *Period of employment.*—(1) *Initial date of employment.* For purposes of this section and §§ 1.50A-4 through 1.50B-6, the initial date of employment (for purposes of applying paragraph (a) (1) and (2) of this section and paragraphs (a) (1)

and (i) of § 1.50B-1) is the date the WIN employee reports to the taxpayer (or in the case where the taxpayer is a partner of a partnership, a beneficiary of an estate or trust, or a shareholder of an electing small business corporation, to such partnership, estate, trust, or electing small business corporation) for work.

(2) *Computation of the first 12 months of employment (whether or not consecutive).* For purposes of computing the first 12 months of employment (whether or not consecutive), the first month of employment shall begin with the initial date of employment (as defined in subparagraph (1) of this paragraph) of the WIN employee, the second month of employment shall begin with the corresponding date in the following month, the third month of employment shall begin with the corresponding date in the next following month, and so forth. If the WIN employee performs any services during any such month (as determined under the preceding sentence), that month shall be counted in computing the WIN employee's "first 12 months of employment (whether or not consecutive)". If the WIN employee performs no services during any such month, that month shall not be counted in computing the WIN employee's "first 12 months of employment (whether or not consecutive)". Thus, if the initial date of employment of a WIN employee is June 15, the first month of employment of such employee shall be the period beginning June 15, and ending July 14. The second month of employment is the period beginning July 15 and ending August 14. If during such second month of employment the employee performs no services for the taxpayer, that month is not counted in determining the employee's first 12 months of employment (whether or not consecutive).

(3) *Termination of employment due to death or disability.* A termination of employment shall not be deemed to occur for purposes of paragraph (a) of § 1.50A-3 if, after the initial date of employment (as defined in paragraph (c) (1) of § 1.50A-3) and before the close of the period referred to in paragraph (a) (1) of § 1.50A-3, the employee becomes disabled, by reason of illness or injury (including a disability relating to the employment), to perform the services required by such employment, unless, before the close of such period:

(1) Such disability is removed,

(2) The employer knows of the removal of the disability, and

(3) The employer fails to offer reemployment to such employee.

The death of an employee shall not be deemed a termination of employment for purposes of paragraph (a) of § 1.50A-3.

(d) *Termination of employment due to misconduct.* A termination of employment shall not be deemed to occur for purposes of paragraph (a) of § 1.50A-3 if it is determined by the appropriate State administrative agency or State court that under the applicable State unemployment compensation law such termination was due to the misconduct of the WIN employee. If the WIN employee is not covered by the applicable State unemployment compensation law (or if the employee did not work for the minimum period required to qualify for unemployment compensation or if the employee did not apply for unemployment compensation), a termination of employment shall not be deemed to occur for purposes of paragraph (a) of § 1.50A-3 if the taxpayer demonstrates by convincing evidence that, were such employee covered by the applicable State unemployment compensation law (or if the employee had worked for such minimum period or if the employee had applied for unemployment compensation), he could reasonably have been found by such administrative agency or court to have been terminated for misconduct.

(e) *Recordkeeping requirement.* A taxpayer who is claiming that a termination of employment falls within the provisions of paragraph (b), (c), or (d) of this section shall maintain sufficient records to support his claim until the expiration of the pertinent period of limitations.

(f) *Transactions to which section 381 (a) applies.*—(1) *General rule.* The employment relationship between the taxpayer and a WIN employee (as defined in paragraph (h) of § 1.50B-1) shall not be deemed terminated for purposes of paragraph (a) of § 1.50A-3 in the case of a transaction to which section 381(a) (relating to carryovers in certain corporate acquisitions) applies. If there is a termination of employment (within the meaning of paragraph (a) of § 1.50A-3 and this section) by the acquiring corporation with respect to the WIN employee described in the preceding sentence, or if the acquiring corporation fails to pay comparable wages to such employee (within the meaning of paragraph (a) (2) of § 1.50A-3), then paragraph (a) (3) of § 1.50A-3 shall apply to the acquiring corporation with respect to the credit allowed the acquired corporation as well as the credit allowed the acquiring corporation with respect to such employee. For purposes of the preceding sentence, the initial date of employment (as defined in paragraph (c) (1) of § 1.50A-3) of such employee with respect to the acquired corporation shall be deemed to be the initial date of employment of such employee with respect to the acquiring corporation and employment by the acquired corporation shall be deemed employment by the acquiring corporation.

(2) *Examples.* This paragraph may be illustrated by the following examples:

*Example (1).* (i) X Corporation, a wholly owned subsidiary of Y Corporation, incurred WIN expenses of \$12,000 for its taxable year ending December 31, 1972, with respect to WIN employees hired on March 1, 1972. Both X and Y made their returns on the basis of a calendar year. For the taxable year 1972 X Corporation's credit earned of \$2,400 (20 percent of \$12,000) was allowed under section 40 as a credit against its liability for tax. On December 15, 1973, X Corporation is liquidated under section 332 and all of its assets and liabilities are transferred to Y Corporation in a transaction to which section 334(b) (2) is not applicable. In addition, Y Corporation continues the employment of the WIN employees which were employed by X Corporation and with respect to which X Corporation was allowed the credit for its taxable year 1972.

(ii) Under subparagraph (1) of this paragraph, a termination of employment of the WIN employees shall not be deemed to occur for purposes of paragraph (a) (1) of § 1.50A-3 due to the liquidation of X Corporation on December 15, 1973. Thus, no recapture determination under paragraph (a) (3) of § 1.50A-3 shall be made with respect to X Corporation.

*Example (2).* (i) The facts are the same as in Example (1) and, in addition, on February 2, 1974, Y Corporation terminates the employment of the employees with respect to whom X Corporation had incurred WIN expenses. The termination is a termination for purposes of paragraph (a) (1) of § 1.50A-3. For purposes of applying the period described in paragraph (a) (1) of § 1.50A-3, the date the employees reported for work at X Corporation is deemed to be the initial date of employment of the employees with respect to Y Corporation.

(ii) Under subparagraph (1) of this paragraph, a termination of employment of the WIN employees shall not be deemed to occur for purposes of paragraph (a) (1) of § 1.50A-3 due to the liquidation of X Corporation on December 15, 1973. However, a termination of employment of the WIN employees is deemed to occur for purposes of paragraph (a) (1) of § 1.50A-3 on February 2, 1974. Thus, Y Corporation shall make a recapture determination under paragraph (a) of § 1.50A-3.

crease in the hours of the employee's working week) shall constitute untenable working conditions. An employee has voluntarily left the employment of the taxpayer if he leaves for any reason external to his employment, such as sickness or death in the employee's family which the employee feels necessitates his quitting work with the taxpayer to remain at home. Any employee who participates in an authorized strike (as finally determined by a court, labor relations administrative body, or arbiter) will not be deemed to have voluntarily left the employment of the taxpayer.

(c) *Termination of employment due to death or disability.* A termination of employment shall not be deemed to occur for purposes of paragraph (a) of § 1.50A-3 if, after the initial date of employment (as defined in paragraph (c) (1) of § 1.50A-3) and before the close of the period referred to in paragraph (a) (1) of § 1.50A-3, the employee becomes disabled, by reason of illness or injury (including a disability relating to the employment), to perform the services required by such employment, unless, before the close of such period:

(1) Such disability is removed,

(2) The employer knows of the removal of the disability, and

(3) The employer fails to offer reemployment to such employee.

The death of an employee shall not be deemed a termination of employment for purposes of paragraph (a) of § 1.50A-3.

(d) *Termination of employment due to misconduct.* A termination of employment shall not be deemed to occur for purposes of paragraph (a) of § 1.50A-3 if it is determined by the appropriate State administrative agency or State court that under the applicable State unemployment compensation law such termination was due to the misconduct of the WIN employee. If the WIN employee is not covered by the applicable State unemployment compensation law (or if the employee did not work for the minimum period required to qualify for unemployment compensation or if the employee did not apply for unemployment compensation), a termination of employment shall not be deemed to occur for purposes of paragraph (a) of § 1.50A-3 if the taxpayer demonstrates by convincing evidence that, were such employee covered by the applicable State unemployment compensation law (or if the employee had worked for such minimum period or if the employee had applied for unemployment compensation), he could reasonably have been found by such administrative agency or court to have been terminated for misconduct.

(e) *Recordkeeping requirement.* A taxpayer who is claiming that a termination of employment falls within the provisions of paragraph (b), (c), or (d) of this section shall maintain sufficient records to support his claim until the expiration of the pertinent period of limitations.

(f) *Transactions to which section 381 (a) applies.*—(1) *General rule.* The employment relationship between the taxpayer and a WIN employee (as defined in paragraph (h) of § 1.50B-1) shall not

be deemed terminated for purposes of paragraph (a) of § 1.50A-3 in the case of a transaction to which section 381(a) (relating to carryovers in certain corporate acquisitions) applies. If there is a termination of employment (within the meaning of paragraph (a) of § 1.50A-3 and this section) by the acquiring corporation with respect to the WIN employee described in the preceding sentence, or if the acquiring corporation fails to pay comparable wages to such employee (within the meaning of paragraph (a) (2) of § 1.50A-3), then paragraph (a) (3) of § 1.50A-3 shall apply to the acquiring corporation with respect to the credit allowed the acquired corporation as well as the credit allowed the acquiring corporation with respect to such employee. For purposes of the preceding sentence, the initial date of employment (as defined in paragraph (c) (1) of § 1.50A-3) of such employee with respect to the acquired corporation shall be deemed to be the initial date of employment of such employee with respect to the acquiring corporation and employment by the acquired corporation shall be deemed employment by the acquiring corporation.

(2) *Examples.* This paragraph may be illustrated by the following examples:

*Example (1).* (i) X Corporation, a wholly owned subsidiary of Y Corporation, incurred WIN expenses of \$12,000 for its taxable year ending December 31, 1972, with respect to WIN employees hired on March 1, 1972. Both X and Y made their returns on the basis of a calendar year. For the taxable year 1972 X Corporation's credit earned of \$2,400 (20 percent of \$12,000) was allowed under section 40 as a credit against its liability for tax. On December 15, 1973, X Corporation is liquidated under section 332 and all of its assets and liabilities are transferred to Y Corporation in a transaction to which section 334(b) (2) is not applicable. In addition, Y Corporation continues the employment of the WIN employees which were employed by X Corporation and with respect to which X Corporation was allowed the credit for its taxable year 1972.

(ii) Under subparagraph (1) of this paragraph, a termination of employment of the WIN employees shall not be deemed to occur for purposes of paragraph (a) (1) of § 1.50A-3 due to the liquidation of X Corporation on December 15, 1973. However, a termination of employment of the WIN employees is deemed to occur for purposes of paragraph (a) (1) of § 1.50A-3 on February 2, 1974. Thus, Y Corporation shall make a recapture determination under paragraph (a) of § 1.50A-3.

Corporation with respect to the WIN employees.

(g) *Mere change in form of conducting a trade or business.*—(1) *General rule.* (i) The employment relationship between the taxpayer and a WIN employee (as defined in paragraph (h) of § 1.50B-1) shall not be deemed terminated for purposes of paragraph (a) of § 1.50A-3 in the case of a mere change in the form of conducting the trade or business in which such employment occurs, provided that the conditions set forth in subdivision (ii) of this subparagraph are satisfied.

(ii) The conditions referred to in subdivision (i) of this subparagraph are as follows:

(a) The WIN employee described in subdivision (i) of this subparagraph is retained in the same trade or business.

(b) The taxpayer retains a substantial ownership interest in such trade or business.

(c) Substantially all the assets necessary to operate such trade or business are transferred to the transferee who continues the employment of the WIN employee described in subdivision (i) of this subparagraph, and

(d) The basis of the assets described in (c) of this subdivision in the hands of the transferee is determined in whole or in part by reference to the basis of such assets in the hands of the transferor.

This subparagraph shall not apply if paragraph (e) of this section (relating to transactions to which section 381(a) applies) is applicable with respect to such transfer.

(2) *Substantial interest.* For purposes of this paragraph, the taxpayer shall be considered as having retained a substantial ownership interest in the trade or business only if, after the change in form, the ownership interest in such trade or business by such taxpayer—

(i) Is substantial in relation to the total ownership interests of all persons, or

(ii) Is equal to or greater than the ownership interest prior to the change in form.

Thus, where a taxpayer owns a 5-percent interest in a partnership, and, after the incorporation of that partnership, the taxpayer retains at least a 5-percent interest in the corporation, the taxpayer will be considered as having retained a substantial interest in the trade or business as of the date of the change in form because of the application of the rule contained in subdivision (ii) of this subparagraph.

(3) *Termination of employment.* (i) If employment of a WIN employee described in subparagraph (1)(i) of this paragraph is terminated by the transferee, the employment of such employee shall be deemed terminated by the taxpayer for purposes of paragraph (a) of § 1.50A-3. For purposes of determining the period described in paragraph (a) (1) of § 1.50A-3 with respect to such taxpayer employment by the transferee shall be deemed employment by the transferor.

(ii) If in any taxable year the taxpayer does not retain a substantial ownership interest in the trade or business directly or indirectly (through ownership in other entities provided that such other entities' bases in such interest are determined in whole or in part by reference to the basis of such interest in the hands of the taxpayer) then, for purposes of paragraph (a) (1) of § 1.50A-3, there shall be deemed to be a termination of employment of the WIN employees described in subparagraph (1)(i) of this paragraph on the first date on which such taxpayer does not retain a substantial interest in the trade or business. For purposes of determining the period described in paragraph (a) (1) of § 1.50A-3, employment by the transferee shall be deemed employment by the transferor. Any taxpayer who seeks to establish his interest in a trade or business under the rule of this subdivision shall maintain adequate records to demonstrate his indirect interest in such trade or business after any such transfer or transfers.

(iii) Notwithstanding subparagraph (1) of this paragraph and subdivision (ii) of this paragraph in the case of a mere change in the form of a trade or business, if the interest of a taxpayer in the trade or business is reduced but such taxpayer has retained a substantial interest in such trade or business, paragraph (a) (2) of § 1.50A-5 (relating to electing small business corporations), paragraph (a) (2) of § 1.50A-6 (relating to estates or trusts), or paragraph (a) (2) (ii) of § 1.50A-7 (relating to partnerships) shall apply, as the case may be.

(4) *Failure to pay comparable wages.* If the transferee fails to pay comparable wages (within the meaning of paragraph (a) (2) of § 1.50A-3) to the WIN employee within the period described in paragraph (a) (1) of § 1.50A-3, then such failure shall be deemed to be a failure of the transferor (or in a case where the transferor is a partnership, estate, trust, or electing small business corporation, the partners, beneficiaries, or shareholders), and a recapture determination shall be made with respect to such WIN employee as provided in § 1.50A-3. For purposes of determining the period described in paragraph (a) (1) of § 1.50A-3 with respect to such transferor (or such partners, beneficiaries, or shareholders), employment by the transferee shall be deemed employment by such transferor. For special rules in the case of an electing small business corporation (as defined in section 1371(b)), an estate or trust, or a partnership, see respectively, § 1.50A-5, § 1.50A-6, or § 1.50A-7.

(5) *Examples.* This paragraph may be illustrated by the following examples in each of which it is assumed that the transfer satisfies the conditions of subparagraph (1)(i) (a), (c) and (d) of this paragraph.

*Example (1).* (i) On January 1, 1972, A, an individual, employed WIN employees in his sole proprietorship. A incurred WIN expenses with respect to these employees of \$12,000 for the taxable year ending December 31, 1972. For the taxable year 1972 A's credit earned of \$2,400 (20 percent of \$12,000) was

allowed under section 40 as a credit against his liability for tax. On March 15, 1973, A transferred all of the assets used in his sole proprietorship to X Corporation, a newly formed corporation, in exchange for 45 percent of the stock of X Corporation.

(i) Under subparagraph (1)(i) of this paragraph, paragraph (a) of § 1.50A-3 does not apply to the March 15, 1973, transfer to X Corporation.

*Example (2).* (i) The facts are the same as in Example (1) and in addition on June 1, 1973, X Corporation terminates the employment of WIN employees with respect to whom 50 percent of the WIN expenses were incurred during A's 1972 taxable year.

(ii) Under subparagraph (1)(i) of this paragraph, paragraph (a) of § 1.50A-3 does not apply to the March 15, 1973, transfer to X Corporation. However, under subparagraph (3)(i) of this paragraph, paragraph (a) of § 1.50A-3 applies to the June 1, 1973, termination of WIN employees by X Corporation. The actual period of employment of such WIN employees is 1 year and 5 months (that is, the period beginning on January 1, 1972, and ending on June 1, 1973). For taxable year 1972, A's recomputed credit earned is \$1,200 (20 percent of \$6,000). The income tax imposed by Chapter 1 of the Code on A for the taxable year 1972 is increased by the \$1,200 decrease in his credit earned for the taxable year 1972 (that is, \$2,400 original credit earned minus \$1,200 recomputed credit earned).

*Example (3).* (i) The facts are the same as in Example (1) and in addition on April 1, 1973, X Corporation begins paying wages to the employees referred to in Example (1) which are less than the wages paid to its other employees who perform comparable services.

(ii) Under subparagraph (1)(i) of this paragraph, paragraph (a) (1) of § 1.50A-3 does not apply to the March 15, 1973, transfer to X Corporation. However, under subparagraph (4) of this paragraph, paragraph (a) of § 1.50A-3 applies to the failure of X Corporation to pay wages to the WIN employees which are equal to the wages paid to its other employees who perform comparable services. For taxable year 1972, A's recomputed credit earned is zero. The income tax imposed by Chapter 1 of the Code on A for the taxable year 1973 is increased by the \$2,400 decrease in his credit earned for the taxable year 1972.

*Example (4).* (i) On January 1, 1972, partnership ABC, which makes its returns on the basis of a calendar year, employed WIN employees. Partnership ABC incurred WIN expenses with respect to these employees of \$20,000 for the taxable year. Partnership ABC has 10 partners who make their returns on the basis of a calendar year and share partnership profits equally. Each partner's share of the WIN expenses is 10 percent, that is, \$2,000. On March 15, 1973, partnership ABC transfers all of the assets used in its trade or business to the X Corporation, a newly formed corporation, in exchange for its stock and immediately thereafter transfers 10 percent of the stock to each of the 10 partners.

(ii) Under subparagraph (1)(i) of this paragraph, paragraph (a) (1) of § 1.50A-1 does not apply to the March 15, 1973, transfer by the ABC Partnership to X Corporation.

*Example (5).* (i) The facts are the same as in Example (4) except that partnership ABC transfers 10 percent of the stock in X Corporation to each of eight partners, 20 percent to partner A, and cash to partner B.

(ii) Under subparagraph (1)(i) of this paragraph, with respect to all of the partners (including partner A) except partner B, paragraph (a) (1) of § 1.50A-3 does not apply to the March 15, 1973, transfer by the

ABC Partnership. Paragraph (a) (1) of § 1.50A-3 applies with respect to partner B's \$2,000 share of the WIN expenses. See paragraph (a) (2) of § 1.50A-7.

*Example (6).* (i) X Corporation operates a manufacturing business and a separate retail sales business. During the month of January 1973, X incurred WIN expenses in its manufacturing business. On February 10, 1973, X transfers all the assets used in its manufacturing business to Partnership XY in exchange for a 50 percent interest in such partnership.

(ii) Under subparagraph (1)(i) of this paragraph, paragraph (a) (1) of § 1.50A-3 does not apply to the February 10, 1973, transfer to Partnership XY.

§ 1.50A-5 Electing small business corporations.

(a) *In general.*—(1) *Termination of employment by a corporation.* If an electing small business corporation (as defined in section 1371(b)) or a former electing small business corporation terminates (in a termination subject to the provisions of paragraph (a) of § 1.50A-3) the employment of any WIN employee with respect to whom WIN expenses have been paid or incurred, a recapture determination shall be made under § 1.50A-3 with respect to each shareholder who is treated, under paragraph (a) of § 1.50B-2 as a taxpayer who paid or incurred such expenses. Each such recapture determination shall be made with respect to the pro rata share of the WIN expenses of such employee which were taken into account by such shareholder under paragraph (a) of § 1.50B-2. For purposes of each such recapture determination the period of employment of such employee or employees shall be the period beginning with the initial date of employment (as defined in paragraph (c) (1) of § 1.50A-3) with respect to the electing small business corporation and ending with the date of such employee's termination (as defined in paragraph (a) (1) (ii) of § 1.50A-3). For the definition of the term "recapture determination" see paragraph (a) (3) of § 1.50A-3.

(2) *Disposition of shareholder's interest.* (i) If—

(a) WIN expenses are apportioned to a shareholder of an electing small business corporation who takes such expenses into account in computing his WIN expenses, and

(b) After the end of the shareholder's taxable year in which such apportionment was taken into account and before the close of the period to which paragraph (a) (1) of § 1.50A-3 applies with respect to the employee to which such WIN expenses relate, such shareholder's proportionate stock interest in such corporation is reduced (for example, by a sale or redemption, or by the issuance of additional shares) below the percentage specified in subdivision (ii) of this subparagraph,

then, on the date of such reduction the employment of such employee shall be deemed terminated with respect to such shareholder to the extent of the actual reduction in such shareholder's proportionate stock interest. (For example, if \$100 of WIN expenses were apportioned to a shareholder and if his proportion-

ate stock interest is reduced from 60 percent to 30 percent (that is, 50 percent of his original interest), then the employment of the employee to which such WIN expenses relate shall be deemed terminated as to that shareholder to the extent of \$50.) Accordingly, a recapture determination shall be made with respect to such shareholder. For purposes of such recapture determination the period of employment of any employee or employees with respect to whom WIN expenses were paid or incurred shall be the period beginning with the initial date of employment (as defined in paragraph (c) (1) of § 1.50A-3) with respect to the electing small business corporation and ending with the date on which such reduction occurs.

(ii) The percentage referred to in subdivision (i) (b) of this subparagraph is 66⅔ percent of the shareholder's proportionate stock interest in the corporation on the date of the apportionment under paragraph (a) of § 1.50B-2. However, once employment of an employee has been terminated under this subparagraph as having terminated with respect to the shareholder to any extent, the percentage referred to shall be 33⅓ percent of the shareholder's proportionate stock interest in the corporation on the date of apportionment under paragraph (a) of § 1.50B-2.

(iii) In determining a shareholder's proportionate stock interest in a former electing small business corporation for purposes of this subparagraph, the shareholder shall be considered to own stock in such corporation which he owns directly or indirectly (through ownership in other entities provided such other entities' bases in such stock are determined in whole or in part by reference to the basis of such stock in the hands of the shareholder). For example, if A, who owns all of the 100 shares of the outstanding stock of corporation X, a corporation which was formerly an electing small business corporation, transfers on November 1, 1973, 70 shares of X stock to corporation Y in exchange for 90 percent of the stock of Y in a transaction to which section 351 applies, then, for purposes of subdivision (i) of this subparagraph, A shall be considered to own 93 percent of the stock of X, 30 percent directly and 63 percent indirectly (i.e., 90 percent of 70). Any taxpayer who seeks to establish his interest in the stock of a former electing small business corporation under the rule of this subdivision shall maintain adequate records to demonstrate his indirect interest in the corporation after any such transfer or transfers.

(3) *Computation of the first 12 months of employment.* The period described in paragraph (a) (1) of § 1.50A-3 shall not be affected by a change in the shareholders in such corporation and shall not be affected by a reduction in any shareholder's proportionate stock interest in such corporation (for example, by a sale or redemption or by the issuance of additional shares). Thus, the first 12 months of employment (whether or not consecutive) of any WIN employee shall

be the same with respect to any shareholder who is allowed a credit under section 40 for salaries and wages paid or incurred for services rendered by such employee. Also, such first 12 months of employment and the period described in section 50B(c)(4) with respect to any WIN employee shall not be deemed to begin again in the case of a corporation making a valid election under section 1372.

(b) *Election of a small business corporation under section 1372.*—(1) *General rule.* If a corporation makes a valid election under section 1372 to be an electing small business corporation (as defined in section 1371(b)), then on the last day of the first taxable year immediately preceding the taxable year for which such election is effective, the employment of any WIN employees whose initial date of employment (as defined in paragraph (c) (1) of § 1.50A-3) occurred in taxable years prior to the first taxable year for which the election is effective (and whose employment has not been terminated prior to such last day) shall be considered as having been terminated on such last day with respect to the WIN expenses paid or incurred by such corporation and § 1.50A-3 shall apply to such corporation. However, if the corporation and each of the persons who are shareholders of the corporation on the first day of the first taxable year for which the election under section 1372 is to be effective, or on the date of such election, whichever is later, execute the agreement specified in subparagraph (2) of this paragraph, § 1.50A-3 shall not apply with respect to any such WIN expenses by reason of the election by the corporation under section 1372.

(2) *Agreement of shareholders and corporation.* (i) The agreement referred to in subparagraph (1) of this paragraph shall be signed by the shareholders and by the corporation. The agreement shall recite that:

(a) In the event the employment of any WIN employee described in subparagraph (1) of this paragraph is later terminated (in a termination subject to the rules contained in paragraph (a) of § 1.50A-3) during a taxable year of the corporation for which the election under section 1372 is effective, each signer agrees to notify the district director or the director of the Internal Revenue service center of such termination, and agrees to be jointly and severally liable to pay to the district director or the director of the Internal Revenue service center an amount equal to the increase in tax which would have been imposed by § 1.50A-3 on the corporation but for the agreement under this paragraph.

(b) In the event any WIN employee described in subparagraph (1) of this paragraph is paid wages (as defined in section 50B(b) and paragraph (b) of § 1.50B-1) by such electing corporation, which are less than the wages paid to other employees of such electing corporation who perform comparable services (as defined in paragraph (a) (2) (ii) of § 1.50A-3), during a taxable year of the corporation for which the election under

section 1372 is effective, each signer agrees to notify the district director or the director of the Internal Revenue service center of such failure to pay equal wages for comparable services, and agrees to be jointly and severally liable to pay to the district director or the director of the Internal Revenue service center an amount equal to the increase in tax which would have been imposed by § 1.50A-3 on the corporation as a result of such failure but for the election under section 1372.

For purposes of computing the period described in paragraph (a)(1) of § 1.50A-3, the period of employment by the corporation before the election under section 1372 shall be added to the period of employment by the electing small business corporation after such election.

(ii) The agreement shall set forth the name, address, and taxpayer account number of each party and the internal revenue district or service center in which each such party files his or its income tax return for the taxable year which includes the last day of the corporation's taxable year immediately preceding the first taxable year for which the election under section 1372 is effective. The agreement may be signed on behalf of the corporation by any person who is duly authorized. The agreement shall be filed with the district director or the director of the Internal Revenue service center with whom the corporation files its income tax return for its taxable year immediately preceding the first taxable year for which the election under section 1372 is effective and shall be filed on or before the due date (including extensions of time) of such return. For purposes of the preceding sentence, the district director or the director of the Internal Revenue service center may, if good cause is shown, permit the agreement to be filed on a later date.

(c) *Examples.* This section may be illustrated by the following examples:

*Example (1).* (i) X Corporation, an electing small business corporation which makes its returns on the basis of the calendar year, hired employees under a WIN program on July 1, 1972, and incurred expenses for such employees during the following 12 months at an initial rate of \$10,000 per month. For taxable year 1972, X Corporation had 20 shares of stock outstanding which were owned equally by A and B who make their returns on the basis of a calendar year. Under paragraph (a) of this section, the WIN expenses were apportioned to the shareholders of X Corporation as follows:

Period Ending December 31, 1973	
Total WIN expenses for the taxable year.....	\$60,000
Shareholder A (10/20).....	30,000
Shareholder B (10/20).....	30,000

Assuming that during 1973 shareholders A and B did not directly incur any WIN expenses and that they did not own any interest in other electing small business corporations, partnerships, estates, or trusts incurring WIN expenses, the WIN expenses attributable to each shareholder is \$30,000. For the taxable year 1973, each shareholder's credit earned of \$6,000 (20 percent of \$30,000) was allowed under section 40 as a credit against his liability for tax.

(ii) On January 1, 1973, X Corporation terminates the employment of the employees accounting for 50 percent of its WIN expenses incurred to that date, or \$30,000 in salaries and wages. The actual period of employment for these WIN employees was 6 months. For taxable year 1972, each shareholder's recomputed credit is \$3,000 (20 percent of \$15,000). The income tax imposed by chapter 1 of the Code on each of the shareholders for the taxable year 1973 is increased by the \$3,000 decrease in his credit earned for the taxable year 1972 (that is, \$6,000 original credit earned minus \$3,000 recomputed credit earned).

*Example (2).* (i) The facts are the same as in subdivision (i) of example (1), except that on January 1, 1973, shareholder A sells five of his 10 shares of stock in X Corporation to C. No other changes in stock ownership occurred during 1973. Under paragraph (a)(2) of this section, the WIN expenses of X Corporation were apportioned on December 31, 1973, to the shareholders of X Corporation as follows:

Period Ending December 31, 1973	
Total WIN expenses for the taxable year.....	\$60,000
Shareholder A (5/20).....	15,000
Shareholder B (10/20).....	30,000
Shareholder C (5/20).....	15,000

(ii) Under paragraph (a)(2) of this section, on January 1, 1973, the employment of these WIN employees shall be deemed terminated by shareholder A with respect to 50 percent of the WIN expenses allocated to him since immediately after the January 1, 1973, sale A's proportionate stock interest in X Corporation is reduced to 50 percent of the proportionate stock interest in X Corporation which he held for taxable year 1972. The actual period of employment of the WIN employees accounting for the 50 percent of the WIN expenses originally allocated to A is 6 months (that is, the period beginning with July 1, 1972, and ending with January 1, 1973). The income tax imposed by chapter 1 of the Code on shareholder A for the taxable year 1973 is increased by the \$3,000 decrease in his credit earned for the taxable year 1972 (that is, \$6,000 original credit earned minus \$3,000 recomputed credit earned).

(d) *Termination or revocation of an election under section 1372.* The employment of employees with respect to whom WIN expenses were paid or incurred shall not be considered to have been terminated solely by reason of a termination or revocation of a corporation's election under section 1372.

#### § 1.50A-6 Estates and trusts.

(a) *In general.*—(1) *Termination of employment by an estate or trust.* If an estate or trust terminates (in a termination subject to the provisions of paragraph (a) of § 1.50A-3) the employment of any employee with respect to whom WIN expenses have been paid or incurred, a recapture determination shall be made under § 1.50A-3 with respect to the estate or trust, and each beneficiary who is treated, under paragraph (a) of § 1.50B-3 as a taxpayer who paid or incurred such expenses. For purposes of each such recapture determination the period of employment of such employee shall be the period beginning with the initial date of employment (as defined in paragraph (c)(1) of § 1.50A-3) with respect to the estate or trust and ending with the date of such employee or em-

ployees' termination (as defined in paragraph (a)(1)(ii) of § 1.50A-3). For definition of "recapture determination" see paragraph (a)(3) of § 1.50A-3.

(2) *Disposition of interest.* (i) If—

(a) WIN expenses are apportioned to an estate or trust, or to a beneficiary of an estate or trust who takes such expenses into account in computing his WIN expenses, and

(b) After the end of the estate's, trust's, or beneficiary's taxable year in which such apportionment was taken into account and before the close of the period to which paragraph (a)(1) of § 1.50A-3 applies with respect to the employees to which such WIN expenses relate, such estate's, trust's, or such beneficiary's proportionate interest in the income of the estate or trust is reduced (for example, by a sale, or by the terms of the estate or trust instrument) below the percentage specified in subdivision (ii) of this subparagraph,

then, on the date of such reduction, the employment of such employee shall be deemed terminated with respect to such estate, trust, or beneficiary to the extent of the actual reduction in such estate's, trust's, or beneficiary's proportionate interest in the income of the estate or trust. (For example, if \$100 of WIN expenses were apportioned to a beneficiary and if his proportionate interest in the income of the estate or trust is reduced from 60 percent to 30 percent (that is, 50 percent of his original interest), then the employment of the employee to which such WIN expenses relate shall be deemed terminated as to that beneficiary to the extent of \$50.) Accordingly, a recapture determination shall be made with respect to such estate, trust, or beneficiary. For purposes of such recapture determination the period of employment of any employee or employees with respect to whom WIN expenses were paid or incurred shall be the period beginning with the initial date of employment (as defined in paragraph (c)(1) of § 1.50A-3) with respect to the estate or trust and ending with the date on which such reduction occurs.

(ii) The percentage referred to in subdivision (i)(b) of this subparagraph is 66⅔ percent of the estate's, trust's, or beneficiary's proportionate interest in the income of the estate or trust for the taxable year of the apportionment under paragraph (a) of § 1.50B-3. However, once employment of an employee has been treated under this subparagraph as having terminated with respect to the estate, trust, or beneficiary to any extent, the percentage referred to shall be 33⅓ percent of the estate's, trust's, or beneficiary's proportionate interest in the income of the estate or trust for the taxable year of the apportionment under paragraph (a) of § 1.50B-3.

(iii) In determining a beneficiary's proportionate interest in the income of an estate or trust for purposes of this subparagraph, the beneficiary shall be considered to own any interest in such an estate or trust which he owns directly or indirectly (through ownership in other entities provided such other enti-

ties' bases in such interests are determined in whole or in part by reference to the basis of such interest in the hands of the beneficiary). For example, if A, whose proportionate interest in the income of trust X is 30 percent, transfers all of such interest to corporation Y in exchange for all of the stock of Y in a transaction to which section 351 applies, then, for purposes of subdivision (i) of this subparagraph, A shall be considered to own a 30-percent interest in trust X. Any taxpayer who seeks to establish his interest in an estate or trust under the rule of this subdivision shall maintain adequate records to demonstrate his indirect interest in the estate or trust after any such transfer or transfers.

(b) *Computation of the first 12 months of employment.* The period described in paragraph (a)(1) of § 1.50A-3 shall not be affected by a change in the beneficiaries of an estate or trust and shall not be affected by a reduction or a termination of a beneficiary's interest in the income of such estate or trust. Thus, the period described in paragraph (a)(1) of § 1.50A-3 for any WIN employee shall be the same with respect to a trust or estate and any beneficiary of such trust or estate which is allowed a credit under section 40 for salaries and wages paid or incurred for services rendered by such employee. Also, such period with respect to any WIN employee shall not be deemed to begin again as the result of the acquisition of the interest by another.

(c) *Examples.* Paragraph (a) of this section may be illustrated by the following examples:

*Example (1).* (i) XYZ Trust, which makes its returns on the basis of the calendar year, hired employees under the WIN program on July 1, 1972, and incurred expenses for such employees during the following 12 months at an initial rate of \$10,000 per month. For the taxable year 1972 the income of XYZ Trust is \$60,000, which is allocated equally to XYZ Trust and beneficiary A. Beneficiary A makes his returns on the basis of a calendar year. Under paragraph (a) of this section, the WIN expenses were apportioned to XYZ Trust and to beneficiary A as follows:

Period ending December 31, 1972	
Total WIN expenses for the taxable year.....	\$60,000
XYZ Trust (\$30,000/\$60,000).....	30,000
Beneficiary A (\$30,000/\$60,000).....	30,000

Assuming that during 1972 beneficiary A did not directly incur any WIN expenses and that he did not own any interest in other estates, trusts, electing small business corporations, or partnerships incurring WIN expenses, the WIN expenses incurred by XYZ Trust and by beneficiary A are \$30,000 each. For the taxable year 1972, XYZ Trust and beneficiary A each had a credit earned of \$6,000. Each credit earned was allowed under section 40 as a credit against the liability for tax.

(ii) On January 1, 1973, XYZ Trust terminates the employment of its employees accounting for 50 percent of its WIN expenses incurred to that date, or \$30,000 in salaries and wages. The actual period of employment for these WIN employees was 6 months. For the taxable year 1972, XYZ Trust's and beneficiary A's recomputed credit is \$3,000 (20 percent of \$15,000). The income tax imposed by chapter 1 of the Code on XYZ Trust and on beneficiary A for the taxable year 1973 is increased by the \$3,000

decrease in his credit earned for the taxable year 1972 (that is, \$6,000 original credit earned minus \$3,000 recomputed credit earned).

*Example (2).* (i) The facts are the same as in subdivision (i) of example (1), except that on January 1, 1973, beneficiary A sells 50 percent of his interest in the income of XYZ Trust to B. No other changes in income interest occurred during 1973. Under paragraph (a)(2) of § 1.50B-4, each beneficiary's share and the trust's share of the WIN expenses are apportioned as follows:

Period ending De- cember 31, 1973	
Total WIN expenses for the taxable year.....	\$60,000
XYZ Trust (\$30,000/\$60,000).....	30,000
Beneficiary A (\$15,000/\$60,000).....	15,000
Beneficiary B (\$15,000/\$60,000).....	15,000

(ii) Under paragraph (a)(2) of this section, on January 1, 1973, the employment of these WIN employees shall be deemed terminated by beneficiary A with respect to 50 percent of the WIN expenses allocated to him since immediately after the January 1, 1973, sale A's proportionate interest in the income of XYZ Trust is reduced to 50 percent of his proportionate interest in the income of XYZ Trust for the taxable year 1972. The period of employment of the WIN employees accounting for the 50 percent of the WIN expense originally allocated to A is 6 months (that is, the period beginning with July 1, 1972, and ending with December 31, 1972). For the taxable year 1973, beneficiary A's recomputed credit earned is \$3,000 (20 percent of \$15,000). The income tax imposed by chapter 1 of the Code on beneficiary A for the taxable year 1973 is increased by the \$3,000 decrease in his credit earned for the taxable year 1972 (that is, \$6,000 original credit earned minus \$3,000 recomputed credit earned).

#### § 1.50A-7 Partnerships.

(a) *In general.*—(1) *Termination of employment by a partnership.* If a partnership terminates (in a termination subject to the provisions of paragraph (a) of § 1.50A-3) the employment of any WIN employee with respect to whom WIN expenses have been paid or incurred, a recapture determination shall be made under § 1.50A-3 with respect to each partner who is treated, under paragraph (a) of § 1.50B-4, as a taxpayer with respect to such expenses. Each such recapture determination shall be made with respect to the share of the WIN expenses with respect to such employee which were taken into account by such partner under paragraph (a) of § 1.50B-4. For purposes of each such recapture determination the period of employment of any such employee shall be the period beginning with the initial date of employment (as defined in paragraph (c)(1) of § 1.50A-3) with respect to the partnership and ending with the date of such employee's termination (as defined in paragraph (a)(1)(ii) of § 1.50A-3). For the definition of "recapture determination" see paragraph (a)(3) of § 1.50A-3.

(2) *Disposition of partner's interest.* (i) If—

(a) WIN expenses are allocated to a partner of a partnership who takes such expenses into account in computing his WIN expenses, and

(b) After the end of the partner's taxable year in which such allocation was taken into account and before the close of the period to which paragraph (a)(1) of § 1.50A-3 applies with respect to the employee to which such WIN expenses relate, such partner's proportionate interest in the general profits of the partnership (or in the particular expenses) is reduced (for example, by a sale, by a change in the partnership agreement, or by the admission of a new partner) below the percentage specified in subdivision (ii) of this subparagraph,

then, on the date of such reduction the employment of such employee shall be deemed terminated with respect to such partner to the extent of the actual reduction in such partner's proportionate interest in the general profits (or in the particular expenses) of the partnership. (For example, if \$100 of WIN expenses were taken into account by a partner and if his proportionate interest in the general profits of the partnership is reduced from 60 percent to 30 percent (that is, 50 percent of his original interest), then the employment of the employee to which such WIN expenses relate shall be deemed terminated as to that partner to the extent of \$50.) Accordingly, a recapture determination shall be made with respect to such partner. For purposes of such recapture determination the period of employment of any employee or employees with respect to whom WIN expenses were paid or incurred shall be the period beginning with the initial date of employment (as defined in paragraph (c)(1) of § 1.50A-3) with respect to the partnership and ending with the date on which such reduction occurs.

(ii) The percentage referred to in subdivision (i)(b) of this subparagraph is 66⅔ percent of the partner's proportionate interest in the general profits (or in the WIN expenses) of the partnership for the year of the apportionment under § 1.50B-4(a). However, once employment of an employee has been treated under this subparagraph as having terminated with respect to the partner to any extent, the percentage referred to shall be 33⅓ percent of the partner's proportionate interest in the general profits (or in the WIN expenses) of the partnership for the taxable year of the apportionment under paragraph (a) of § 1.50B-4.

(iii) In determining a partner's proportionate interest in the general profits (or in the WIN expenses) of a partnership for purposes of this subparagraph, the partner shall be considered to own any interest in such a partnership which he owns directly or indirectly (through ownership in other entities provided the other entities' bases in such interests are determined in whole or in part by reference to the basis of such interest in the hands of the partner). For example, if A, whose proportionate interest in the general profits of partnership X is 20 percent, transfers all of such interest to Corporation Y in exchange for all of the stock of Y in a transaction to which section 351 applies, then, for purposes of subdivision (i) of

this subparagraph, A shall be considered to own a 20 percent interest in partnership X. Any taxpayer who seeks to establish his interest in a partnership under the rule of this subdivision shall maintain adequate records to demonstrate his indirect interest in the partnership after any such transfer or transfers.

(3) *Computation of the first 12 months of employment.* The period described in paragraph (a) (1) of § 1.50A-3 shall not be affected by a change in the partners of such partnership and shall not be affected by a change in the ratio in which the partners divide the general profits (or the WIN expenses) of the partnership. Thus, such period for any WIN employee shall be the same with respect to any partner claiming a credit under section 40 for salaries and wages paid or incurred for services rendered by such employee.

(b) *Examples.* Paragraph (a) of this section may be illustrated by the following examples:

*Example (1).* (i) AB partnership, which makes its returns on the basis of the calendar year, hired employees under the WIN program on July 1, 1972, and incurred expenses for such employees during the following 12 months at an initial rate of \$10,000 per month. Partners A and B, who make their returns on the basis of a calendar year, share the profits and losses of AB partnership equally. Under paragraph (a) (2) of this section, each partner's share of the WIN expenses was apportioned as follows:

Period ending December 31, 1972	
Total WIN expenses for the taxable year	\$80,000
Partner A's share (50 percent)	30,000
Partner B's share (50 percent)	30,000

Assuming that during 1972 A and B did not directly incur any WIN expenses and that they did not own any interest in other partnerships, electing small business corporations, estates, or trusts incurring WIN expenses, each partner's share of the WIN expenses is \$30,000. For the taxable year 1972, each partner's credit earned of \$6,000 (20 percent of \$30,000) was allowed under section 40 as a credit against his liability for tax.

(ii) On January 1, 1973, AB partnership terminates the employment of its employees accounting for 50 percent of its WIN expenses incurred to that date, or \$30,000 in salaries and wages. The actual period of employment for these WIN employees was 6 months. For the taxable year 1972, each partner's recomputed credit earned is \$3,000 (20 percent of \$15,000). The income tax imposed by chapter 1 of the Code on each of the partners for the taxable year 1973 is increased by the \$3,000 decrease in his credit earned for the taxable year 1972 (that is, \$6,000 original credit earned minus \$3,000 recomputed credit earned).

*Example (2).* (i) The facts are the same as in subdivision (i) of example (1), except that on January 1, 1973, partner A sells one-half of his 50 percent interest in AB partnership to C, to form the ABC partnership. No other changes in the partners' proportionate interest in the general profits of the partnership occurred during 1973. Under paragraph (a) (2) of this section, each partner's share of the WIN expenses was apportioned on December 31, 1973, as follows:

Period ending December 31, 1973	
Total WIN expenses for the taxable year	\$60,000
Partner A's share (25 percent)	15,000
Partner B's share (50 percent)	30,000
Partner C's share (25 percent)	15,000

(ii) Under paragraph (a) (2) of this section, on January 1, 1973, the employment of these WIN employees shall be deemed terminated by partner A with respect to 50 percent of the WIN expenses allocated to him since immediately after the January 1, 1973, sale. A's proportionate interest in the general profits of ABC partnership is reduced to 50 percent of the AB partnership for the period of employment of the WIN employees accounting for the 50 percent of the WIN expenses originally allocated to A is 6 months (that is, the period beginning with July 1, 1972, and ending with December 31, 1972). For the taxable year 1972 partner A's recomputed credit earned is \$3,000 (20 percent of \$15,000). The income tax imposed by chapter 1 of the Code on partner A for the taxable year 1973 is increased by the \$3,000 decrease in his credit earned for the taxable year 1972 (that is, \$6,000 original credit earned minus \$3,000 recomputed credit earned).

#### § 1.50B Statutory provisions; definitions; special rules.

**Sec. 50B. Definitions; special rules.—**(a) *Work incentive program expenses.* For purposes of this subpart, the term "work incentive program expenses" means the wages paid or incurred by the taxpayer for services rendered during the first 12 months of employment (whether or not consecutive) of employees who are certified by the Secretary of Labor as—

(1) Having been placed in employment under a work incentive program established under section 432(b) (1) of the Social Security Act, and

(2) Not having displaced any individual from employment.

(b) *Wages.* For purposes of subsection (a), the term "wages" means only cash remuneration (including amounts deducted and withheld).

(c) *Limitations.—*(1) *Trade or business expenses.* No item shall be taken into account under subsection (a) unless such item is incurred in a trade or business of the taxpayer.

(2) *Reimbursed expenses.* No item shall be taken into account under subsection (a) to the extent that the taxpayer is reimbursed for such item.

(3) *Geographical limitation.* No item shall be taken into account under subsection (a) with respect to any expense paid or incurred by the taxpayer with respect to employment outside the United States.

(4) *Maximum period of training or instruction.* No item with respect to any employee shall be taken into account under subsection (a) after the end of the 24-month period beginning with the date of initial employment of such employee by the taxpayer.

(5) *Ineligible individuals.* No item shall be taken into account under subsection (a) with respect to an individual who—

(A) Bears any of the relationships described in paragraphs (1) through (8) of section 152(a) to the taxpayer, or, if the taxpayer is a corporation, to an individual who owns, directly or indirectly, more than 50 percent in value of the outstanding stock of the corporation (determined with the application of section 267(c)),

(B) If the taxpayer is an estate or trust, is a grantor, beneficiary, or fiduciary of the

estate or trust, or is an individual who bears any of the relationships described in paragraphs (1) through (8) of section 152(a) to a grantor, beneficiary, or fiduciary of the estate or trust, or

(C) Is a dependent (described in section 152(a) (9)) of the taxpayer, or, if the taxpayer is a corporation, of an individual described in subparagraph (A), or, if the taxpayer is an estate or trust, of a grantor, beneficiary, or fiduciary of the estate or trust.

(d) *Subchapter S corporations.* In case of an electing small business corporation (as defined in section 1371)—

(1) The work incentive program expenses for each taxable year shall be apportioned pro rata among the persons who are shareholders of such corporation on the last day of such taxable year, and

(2) Any person to whom any expenses have been apportioned under paragraph (1) shall be treated (for purposes of this subpart) as the taxpayer with respect to such expenses.

(e) *Estates and trusts.* In the case of an estate or trust—

(1) The work incentive program expenses for any taxable year shall be apportioned between the estate or trust and the beneficiaries on the basis of the income of the estate or trust allocable to each,

(2) Any beneficiary to whom any expenses have been apportioned under paragraph (1) shall be treated (for purposes of this subpart) as the taxpayer with respect to such expenses, and

(3) The \$25,000 amount specified under subparagraphs (A) and (B) of section 50A (a) (2) applicable to such estate or trust shall be reduced to an amount which bears the same ratio to \$25,000 as the amount of the expenses allocated to the trust under paragraph (1) bears to the entire amount of such expenses.

(f) *Limitations with respect to certain persons.* In the case of—

(1) An organization to which section 593 applies,

(2) A regulated investment company or a real estate investment trust subject to taxation under subchapter M (section 851 and following), and

(3) A cooperative organization described in section 1381(a),

rules similar to the rules provided in section 46(d) shall apply under regulations prescribed by the Secretary or his delegate.

(g) *Cross reference.* For application of this subpart to certain acquiring corporations, see section 381(c) (24).

[Sec. 50B as added by sec. 601(b), Rev. Act 1971 (85 Stat. 558)]

#### § 1.50B-1 Definitions of WIN expenses and WIN employees.

(a) *WIN expenses.—*(1) *In general.* Except as otherwise provided in paragraphs (b)–(g) of this section, for purposes of §§ 1.50A-1 through 1.50B-5, the term "work incentive program expenses" (referred to in §§ 1.50A-1 through 1.50B-5 as "WIN expenses") means the salaries and wages paid or incurred by the taxpayer for services rendered during the first 12 months of employment (whether or not consecutive) by an employee who is certified by the Secretary of Labor as—

(1) Having been placed in employment by the taxpayer (or if the taxpayer is a partner of a partnership, beneficiary of an estate or trust, or a shareholder of an electing small business corporation, by such partnership, estate, trust, or elect-

ing small business corporation) under a work incentive (WIN) program established under section 432(b) (1) of the Social Security Act (42 U.S.C. 632(b) (1)), and

(ii) Not having displaced any individual from employment.

The term "WIN expenses" includes only salaries and wages paid or incurred in taxable years beginning after December 31, 1971. See paragraph (c) of § 1.50A-3 for rules relating to the determination of the first 12 months of employment (whether or not consecutive).

(2) *Examples.* The provisions of subparagraph (1) of this paragraph may be illustrated by the following examples:

*Example (1).* X Corporation, an accrual basis taxpayer which files its return on the basis of the calendar year, hired an employee on July 1, 1971, who was certified by the Secretary of Labor under this paragraph. The first 12 months of employment were continuous. X is entitled to the credit provided by section 40 with respect to the salaries or wages incurred during its taxable year beginning January 1, 1972, for services rendered by that employee during the period beginning July 1, 1971, and ending June 30, 1972.

*Example (2).* Y, a cash basis taxpayer who files his return on the basis of the calendar year, employed A, an employee certified by the Secretary of Labor under this paragraph, on July 1, 1971. At first, 12 months of employment were continuous. Y paid A on the basis of a semimonthly payroll period, but paid his payroll 2 days after the close of the payroll period during which the wages were earned. Thus, Y paid A on January 2, 1972, for services rendered between December 16, 1971, and December 31, 1971. Y is entitled to the credit provided by section 40 with respect to the wages paid for services rendered by A during the period beginning December 16, 1971, and ending June 30, 1972, because those wages were paid by Y in a taxable year beginning after December 31, 1971.

(b) *Salaries and wages.* For purposes of this section, the term "salaries and wages" means only cash remuneration including a check. Amounts deducted and withheld from the employee's pay (for example, taxes and contributions to health and retirement plans) shall be deemed to be cash remuneration even though not actually paid directly to the employee.

(c) *Trade or business expenses.* The term "WIN expenses" includes only salaries and wages which are paid or incurred in a trade or business of the taxpayer and which are deductible in computing taxable income. Thus, salaries and wages paid to domestic employees in a private home are not "WIN expenses".

(d) *Reimbursed expenses.—*(1) *In general.* The term "WIN expenses" does not include salaries and wages to the extent that the taxpayer is reimbursed for such salaries or wages from any source.

(2) *Example.* Subparagraph (1) of this paragraph may be illustrated by the following example:

*Example.* X Company, which makes its return on the basis of the calendar year, hired WIN employees on January 1, 1972. X Company has a cost-plus construction contract with the Federal Government. The fact that X has a construction contract with the Fed-

eral Government or anyone else does not change its character from a normal business transaction in which there has been a sale of materials and services. Thus, the salaries or wages paid or incurred for services rendered by these WIN employees would not be reimbursed expenses, and X would be entitled to the credit provided by section 40.

(e) *Geographical limitation.—*(1) *In general.* The term "WIN expenses" does not include salaries and wages paid or incurred for services rendered outside the United States (as defined in sections 638 (relating to Continental Shelf areas) and 7701(a) (9)). However, services rendered by any WIN employee outside the United States (as defined in sections 638 (relating to Continental Shelf areas) and 7701(a) (9)) shall contribute to such employee's first 12 months of employment (whether or not consecutive) for purposes of paragraph (a) of § 1.50A-3 and paragraph (a) of this section.

(2) *Example.* Subparagraph (1) of this paragraph may be illustrated by the following example:

*Example.* X Corporation, which files its return on the basis of the calendar year, hired A, a WIN employee, on January 1, 1972, and continuously employed him for the following 24-month period. During January and February of 1972, X paid A's wages while he received training conducted in Puerto Rico. For the remainder of the calendar year A performed services for X within the United States. For purposes of paragraph (a) of § 1.50A-3 and paragraph (a) of this section, A's first 12 months of employment are January 1, 1972, to December 31, 1972. Under subparagraph (1) of this paragraph no wages paid to A for services rendered during the months of January and February of 1972 may be taken into account by X under paragraph (a) of this section as WIN expenses because the services were rendered outside the United States. However, X may take into account wages he has incurred with respect to A for the period March 1, 1972, to December 31, 1972.

(f) *Maximum period of training or instruction.* The term "WIN expenses" does not include salaries and wages paid or incurred for services rendered by a WIN employee after the end of the 24-month period beginning with the date of initial employment (as defined in paragraph (c) (1) of § 1.50A-3) of the WIN employee.

(g) *Ineligible individuals.* The term "WIN expenses" does not include salaries and wages paid or incurred for services rendered by a WIN employee who—

(1) Bears any of the relationships described in paragraphs (1) through (8) of section 152(a) of the Code to the taxpayer, or, if the taxpayer is a corporation, to an individual who owns, directly or indirectly, more than 50 percent in value of the outstanding stock of the corporation (determined with the application of section 267(c) of the Code),

(2) If the taxpayer is an estate or trust, is a grantor, beneficiary, or fiduciary of the estate or trust, or is an individual who bears any of the relationships described in paragraphs (1) through (8) of section 152(a) of the Code to a grantor, beneficiary, or fiduciary of the estate or trust, or

(3) Is a dependent (described in section 152(a) (9) of the Code) of the tax-

payer, or, if the taxpayer is a corporation, of an individual described in subparagraph (1), or, if the taxpayer is an estate or trust, of a grantor, beneficiary, or fiduciary of the estate or trust.

(h) *WIN employee.* For purposes of §§ 1.50A-1–1.50B-5 the term "WIN employee" means an employee who is certified by the Secretary of Labor as meeting the requirements of paragraph (a) (1) (i) and (ii) of this section.

(i) *Special rule applicable to transactions to which section 381(a) applies and transactions involving a mere change in form of conducting a trade or business.* The first 12 months of employment (whether or not consecutive) and the period described in section 50B (c) (4) of any WIN employee, for purposes of determining the amount of WIN expenses (as defined in paragraph (a) of § 1.50B-1), shall not be affected by transactions to which the rule contained in paragraph (f) (relating to transaction to which section 381(a) (relating to certain corporate acquisitions) applies), or paragraph (g) (relating to a mere change in form of conducting a trade or business) of § 1.50A-4 applies.

#### § 1.50B-2 Electing small business corporations.

(a) *General rule.—*(1) *In general.* In the case of an electing small business corporation (as defined in section 1371 (b)), WIN expenses (as defined in paragraph (a) of § 1.50B-1) shall be apportioned pro rata among the persons who are shareholders of such corporation on the last day of such corporation's taxable year, and shall be taken into account for the taxable years of such shareholders within which or with which the taxable year of such corporation ends. The WIN expenses for each employee shall be apportioned separately. In determining who are shareholders of an electing small business corporation on the last day of its taxable year, the rules of paragraph (d) (1) of § 1.1371-1 and of paragraph (a) (2) of § 1.1373-1 shall apply.

(2) *Shareholder as taxpayer.* A shareholder to whom WIN expenses are apportioned shall, for purposes of the credit allowed by section 40, be treated as the taxpayer who paid or incurred the expenses allocated to him. If a shareholder takes into account in determining his WIN expenses any WIN expenses with respect to an employee of an electing small business corporation, and if the employment of such employee is terminated in a termination subject to the rules contained in paragraph (a) of § 1.50A-3, or if the electing small business corporation fails to pay comparable wages and such failure is subject to the rules contained in paragraph (a) (2) and (3) of § 1.50A-3, then such shareholder shall make a recapture determination under the provisions of section 50A (c) and (d) of the Code and § 1.50A-3. See § 1.50A-5.

(3) *Computation of the first 12 months of employment.* The first 12 months of employment (whether or not consecutive) and the period described in

section 50B(c)(4) of any WIN employee for purposes of determining the amount of WIN expenses (as defined in paragraph (a) of § 1.50B-1) shall not be affected by a change in the shareholders in such corporation and shall not be affected by a reduction in any shareholder's proportionate stock interest in such corporation (for example, by a sale or redemption or by the issuance of additional shares). Thus, the first 12 months of employment (whether or not consecutive) of any WIN employee shall be the same with respect to any shareholder claiming a credit under section 40 for salaries and wages paid or incurred for services rendered by such employee. Also, such first 12 months of employment and the period described in section 50B(c)(4), with respect to any WIN employee, shall not be deemed to begin again because of the making of a valid election under section 1372.

(b) *Summary statement.* An electing small business corporation shall attach to its return a statement showing the apportionment to each shareholder of its WIN expenses with respect to each WIN employee.

(c) *Examples.* Paragraph (a) of this section may be illustrated by the following examples:

*Example (1).* (i) X Corporation, an electing small business corporation which files its returns on the basis of the calendar year, hired WIN employees on July 1, 1972, whose employment was continuous for the next 24 months. A, a shareholder, has a 10 percent interest in X Corporation. X Corporation incurred \$24,000 in wages with respect to these WIN employees in calendar year 1972, and \$48,000 in calendar year 1973. Assuming that during 1972 shareholder A did not directly incur any other WIN expenses and did not own any other interest in other electing small business corporations, partnerships, estates, or trusts that incurred WIN expenses, for taxable year 1972 shareholder A's credit earned of \$480 (10 percent (A's ownership interest) multiplied by \$24,000 of WIN expenses multiplied by 20 percent) was allowed under section 40 as a credit against his liability for tax.

(ii) On March 1, 1973, shareholder A sold all of his interest to B, a new shareholder. Therefore, the employment of the WIN employees is deemed terminated for purposes of paragraph (a) of § 1.50A-3 with respect to shareholder A. For taxable year 1972, A's recomputed credit is zero because the termination occurred before the end of the period described in paragraph (a)(1) of § 1.50A-3. The income tax imposed by chapter 1 of the Code on A for the taxable year 1973 is increased by the \$480 decrease in his credit earned for the taxable year 1972 (that is, \$480 original credit earned minus zero recomputed credit earned). Under paragraph (a) of this section A has no credit earned for 1973.

(iii) Under paragraph (a)(1) of this section, assuming that during 1973 shareholder B did not directly incur any other WIN expenses and that he did not own any interest in other electing small business corporations, partnerships, estates, or trusts that incurred WIN expenses, shareholder B's credit earned is \$480 (10 percent (B's ownership interest) multiplied by \$24,000 of WIN expenses multiplied by 20 percent) and is

allowable under section 40 as a credit against his liability for tax. Under paragraph (a)(3) for purposes of determining the period of employment that may be taken into account by B the initial date of employment of these WIN employees relates back to the date they were first employed, i.e., July 1, 1972. Thus, the first 12 months of employment ends on June 30, 1973.

*Example (2).* (i) Y Corporation, an electing small business corporation which files its return on the basis of the calendar year, hires five WIN employees in 1972. The WIN expenses incurred with respect to each employee are as follows:

WIN employees	1	2	3	4	5	Total
Total WIN expenses	\$6,000	\$5,000	\$4,000	\$4,000	\$3,000	
Shareholder A (3/10)	1,800	1,500	1,200	1,200	900	6,600
Shareholder B (2/10)	1,200	1,000	800	800	600	4,400
Shareholder C (5/10)	3,000	2,500	2,000	2,000	1,500	11,000

Assume that shareholders A, B, and C did not directly incur any other WIN expenses during their taxable year in which falls December 31, 1972 (the last day of Y Corporation's taxable year), and that such shareholders did not own any interest in other electing small business corporations, partnerships, estates or trust that incurred WIN expenses. The total WIN expenses of shareholder A are \$6,600, of shareholder B are \$4,400, and of shareholder C are \$11,000.

#### § 1.50B-3 Estates and trusts.

(a) *General rule.*—(1) *In general.* In the case of an estate or trust, WIN expenses (as defined in paragraph (a) of § 1.50B-1) shall be apportioned among the estate or trust and its beneficiaries on the basis of the income of such estate or trust allocable to each. There shall be apportioned to the estate or trust for its taxable year, and to each beneficiary of such estate or trust for his taxable year in which or with which the taxable year of such estate or trust ends, his share (as determined under paragraph (b) of this section) of the total WIN expenses. The WIN expenses for each employee shall be apportioned separately.

(2) *Beneficiary as taxpayer.* A beneficiary to whom WIN expenses are apportioned shall, for purposes of the credit allowed by section 40, be treated as the taxpayer who paid or incurred such WIN expenses allocated to him. If a beneficiary takes into account in determining his WIN expenses any portion of the WIN expenses paid or incurred by an estate or trust and if the employee with respect to which the WIN expenses were paid or incurred is terminated in a termination subject to the rules in paragraph (a) of § 1.50A-3, or if there is a failure (which is subject to the rules in paragraph (a)(2) and (3) of § 1.50A-3) to pay such employee comparable wages then such beneficiary shall make a recapture determination under the provisions of section 50A (c) and (d) of the Code and § 1.50A-3. See § 1.50A-6.

(3) *Beneficiary.* For purposes of this section, the term "beneficiary" includes heir, legatee, and devisee.

WIN employee number	WIN expenses
1	\$6,000
2	5,000
3	4,000
4	4,000
5	3,000
Total	22,000

On December 31, 1972, Y Corporation has 10 shares of stock outstanding which are owned as follows: A owns 3 shares, B owns 2 shares, and C owns 5 shares.

(ii) Under this section, the WIN expenses are apportioned to the shareholders of Y Corporation as follows:

WIN employees	1	2	3	4	5	Total
Total WIN expenses	\$6,000	\$5,000	\$4,000	\$4,000	\$3,000	
Shareholder A (3/10)	1,800	1,500	1,200	1,200	900	6,600
Shareholder B (2/10)	1,200	1,000	800	800	600	4,400
Shareholder C (5/10)	3,000	2,500	2,000	2,000	1,500	11,000

(4) *Special rule for termination of interest.* If during the taxable year of an estate or trust a beneficiary's interest in the income of such estate or trust terminates, WIN expenses paid or incurred by such estate or trust after such termination shall not be apportioned to such beneficiary.

(b) *Share.* A trust's, estate's, or beneficiary's share of the WIN expenses with respect to each employee shall be:

(1) The total WIN expenses incurred in the taxable year of the estate or trust with respect to such employee, multiplied by

(2) The amount of income allocable to such estate or trust or to such beneficiary for such taxable year, divided by

(3) The sum of the amounts of income allocable to such estate or trust and all its beneficiaries taken into account under subparagraph (2) of this paragraph.

(c) *Limitation based on amount of tax.* In the case of an estate or trust, the \$25,000 amount specified in section 50A(a)(2), relating to limitation based on amount of tax, shall be reduced for the taxable year to—

(1) \$25,000, multiplied by

(2) The WIN expenses apportioned to such estate or trust under paragraph (a) of this section, divided by

(3) The WIN expenses apportioned among such estate or trust and its beneficiaries.

(d) *Computation of the first 12 months of employment.* The first 12 months of employment (whether or not consecutive) and the period described in section 50B(c)(4) of any WIN employee for purposes of determining the amount of WIN expenses (as defined in paragraph (a) of § 1.50B-1) shall not be affected by a change in the beneficiaries of an estate or trust and shall not be affected by a reduction or a termination of a beneficiary's interest in the income of such estate or trust. Thus, the first 12 months of employment (whether or not consecutive) of any WIN employee shall be the

same with respect to trust or estate, and any beneficiary of such trust or estate claiming a credit under section 40 for salaries and wages paid or incurred for services rendered by such employee.

(e) *Summary statement.* An estate or trust shall attach to its return a statement showing the apportionment of WIN expenses with respect to each employee to such estate or trust and to each beneficiary.

(f) *Examples.* This section may be illustrated by the following examples:

*Example (1).* (i) XYZ trust, which makes its return on the basis of the calendar year, hires five WIN employees in 1972. The WIN expenses incurred with respect to each employee are as follows:

WIN employees	1	2	3	4	5	Total
Total WIN expenses	\$4,000	\$5,000	\$4,000	\$4,000	\$3,000	
XYZ Trust: \$6,000/10,000	3,000	2,500	2,000	2,000	1,500	\$11,000
Beneficiary A: \$2,000/10,000	1,200	1,000	800	800	600	4,400
Beneficiary B: \$4,000/10,000	1,800	1,500	1,200	1,200	900	6,600

Assume that beneficiary A hired a WIN employee during his taxable year 1972 and incurred \$6,000 in wages. Also, assume that beneficiary B did not hire WIN employees during his taxable year 1972 and that beneficiary A and B did not own any interests in other trusts, estates, partnerships, or electing small business corporations that hired WIN employees. The WIN expenses of XYZ trust are \$11,000, of beneficiary A are \$4,400, and of beneficiary B are \$6,600.

(3) In the case of XYZ trust, the \$25,000 amount specified in section 50A(a)(2) is reduced to \$12,500, computed as follows: (i) \$25,000 multiplied by (ii) \$11,000 (WIN expense apportioned to the trust), divided by (iii) \$22,000 (total WIN expenses apportioned among such trust (\$11,000), beneficiary A (\$4,400), and beneficiary B (\$6,600)).

*Example (2).* The facts are the same as in example (1) except that beneficiary A's interest is reduced to zero. Under paragraph (a)(2) for purposes of determining the period of employment that may be taken into account by XYZ trust and by beneficiary B, the initial date of employment of the WIN employees relates back to the date they were first employed.

#### § 1.50B-4 Partnerships.

(a) *General rule.*—(1) *In general.* In the case of a partnership, each partner shall take into account separately, for his taxable year with or within which the partnership taxable year ends, his share (as determined under subparagraph (3) of this paragraph) of the WIN expenses (as defined in paragraph (a) of § 1.50B-1) of employees employed by the partnership during such partnership's taxable year. The WIN expenses for each employee shall be allocated separately.

(2) *Partner as taxpayer.* Each partner shall be treated as the taxpayer who paid or incurred the share of the WIN expenses allocated to him. If a partner takes into account in determining his WIN expenses the WIN expenses of an employee of a partnership, and if the employment of such employee is terminated in a termination subject to the rules contained in paragraph (a) of § 1.50A-3, or if the partnership fails to pay comparable

WIN employee number	WIN expenses
1	\$6,000
2	5,000
3	4,000
4	4,000
5	3,000
Total	22,000

For the taxable year 1972 the income of XYZ trust is \$10,000 which is allocable as follows: \$5,000 to XYZ trust, \$2,000 to beneficiary A, and \$3,000 to beneficiary B. Beneficiaries A and B make their returns on the basis of a calendar year.

(2) Under this section, the WIN expenses are apportioned to XYZ trust and to its beneficiaries as follows:

WIN employees	1	2	3	4	5	Total
Total WIN expenses	\$4,000	\$5,000	\$4,000	\$4,000	\$3,000	
XYZ Trust: \$6,000/10,000	3,000	2,500	2,000	2,000	1,500	\$11,000
Beneficiary A: \$2,000/10,000	1,200	1,000	800	800	600	4,400
Beneficiary B: \$4,000/10,000	1,800	1,500	1,200	1,200	900	6,600

wages and such failure is subject to the rules contained in paragraph (a)(2) and (3) of § 1.50A-3, then such partner shall make a recapture determination under the provisions of section 50A (c) and (d) of the Code and § 1.50A-3. See § 1.50A-7.

(3) *Determination of partner's share.* (i) Each partner's share of the WIN expenses shall be determined in accordance with the ratio in which the partners divide the general profits of the partnership (that is, the taxable income of the partnership as described in section 702 (a)(9)) regardless of whether the partnership has a profit or a loss for the taxable year during which the WIN expenses are paid or incurred. However, if the ratio in which the partners divide the general profits of the partnership changes during the taxable year of the partnership, the ratio effective for the date on which the WIN expenses are paid or incurred shall apply.

(ii) Notwithstanding subdivision (i) of this subparagraph, if the deduction with respect to any WIN expenses is specially allocated and if such special allocation is recognized under section 704 (a) and (b) and paragraph (b) of § 1.704-1, then each partner's share of the WIN expenses shall be determined by reference to such special allocation effective for the date on which the WIN expenses are paid or incurred.

(4) *Computation of the first 12 months of employment.* The first 12 months of employment (whether or not consecutive) and the period described in section 50B(c)(4) with respect to any WIN employee for purposes of determining the amount of WIN expenses (as defined in paragraph (a) of § 1.50B-1) shall not be affected by a change in the partners of such partnership and shall not be affected by a change in the ratio in which the partners divide the general profits of the partnership. Thus, the first 12 months of employment (whether or not consecutive) and the 24-month period described in section 50B(c)(4) of any WIN employee shall be the same with

respect to any partner claiming a credit under section 40 for salaries and wages paid or incurred for services rendered by such employee.

(b) *Summary statement.* A partnership shall attach to its return a statement showing the allocation to each partner of its WIN expenses with respect to each WIN employee.

(c) *Examples.* Paragraph (a) of this section may be illustrated by the following examples:

*Example (1).* Partnership ABCD hires a WIN employee on January 1, 1972, and hires a second WIN employee on September 1, 1972. The ABCD partnership and each of its partners reports income on the basis of the calendar year. Partners A, B, C, and D share partnership profits equally. Each partner's share of the WIN expenses incurred with respect to these employees is 25 percent.

*Example (2).* Assume the same facts as in example (1) and the following additional facts: A dies on June 30, 1972, and B purchases A's interest as of such date. Each partner's share of the profits from January 1 to June 30 is 25 percent. From July 1 to December 31, B's share of the profits is 50 percent, and C and D's share of the profits is 25 percent each. B shall take into account 25 percent of the WIN expenses incurred during the period beginning January 1 and ending June 30 and 50 percent of the WIN expenses incurred during the remainder of the year with respect to the employee hired on January 1, 1972. Also, B shall take into account 50 percent of the WIN expenses incurred with respect to the employee hired on September 1. C and D shall each take into account 25 percent of the WIN expenses incurred with respect to the employees employed by the partnership in 1972. Under paragraph (a)(3), for purposes of determining the period of employment that may be taken into account by B, the initial date of employment of the WIN employee hired on January 1 relates back to the date he was first employed, i.e., January 1, 1972.

*Example (3).* Partnership SH is engaged in manufacturing. Under the terms of the partnership agreements deductions attributable to the employment of WIN employees are specially allocated 70 percent to partner S and 30 percent to partner H. In all other respects S and H share profits and losses equally. If the special allocation with respect to the WIN expenses is recognized under section 704 (a) and (b) and paragraph (b) of § 1.704-1, the WIN expenses shall be taken into account, 70 percent by S and 30 percent by H.

*Example (4).* (i) LMN partnership, which files its return on the basis of the calendar year, hires five WIN employees in 1973. The WIN expenses incurred with respect to each employee are as follows:

WIN employee number	WIN expenses
1	\$6,000
2	5,000
3	4,000
4	4,000
5	3,000
Total	22,000

On December 31, 1973, the ratio in which the partners divide the general profits of the LMN partnership is as follows: L receives three-tenths of the general profits, M receives two-tenths of the general profits, and N receives five-tenths of the general profits.

(ii) Under this section the WIN expenses are apportioned to the partners of LMN partnership as follows:

WIN employees	1	2	3	4	5	Total
Total WIN expenses.....	\$6,000	\$6,000	\$4,000	\$4,000	\$3,000	\$22,000
Partner L (30%).....	1,800	1,800	1,200	1,200	900	6,600
Partner M (20%).....	1,200	1,000	800	800	600	4,400
Partner N (50%).....	3,000	2,500	2,000	2,000	1,500	11,000

Assume that partners L, M, and N did not directly incur any other WIN expenses during their taxable year in which falls December 31, 1973 (the last day of LMN partnership's taxable year) and that such partners did not own any interest in other partnerships, electing small business corporations, estates, or trusts that incurred WIN expenses. The total WIN expenses of partner L are \$6,600, of partner M are \$4,400, and of partner N are \$11,000.

#### § 1.50B-5 Limitations with respect to certain persons.

(a) *Mutual savings institutions.* In the case of an organization to which section 593 applies (that is, a mutual savings bank, a cooperative bank, or a domestic building and loan association)—

(1) WIN expenses shall be 50 percent of the amount otherwise determined under paragraph (a) of § 1.50B-1, and

(2) The \$25,000 amount specified in section 50A(a)(2), relating to limitation based on amount of tax, shall be reduced by 50 percent of such amount.

For example, a domestic building and loan association incurs \$30,000 in WIN expenses (as determined under paragraph (a) of § 1.50B-1) during its taxable year. However, under this paragraph such amount is reduced to \$15,000 (50 percent of \$30,000). If an organization to which section 593 applies is a member of a controlled group (as defined in section 50A(a)(5)), the \$25,000 amount specified in section 50A(a)(2) shall be reduced in accordance with the provisions of paragraph (f) of § 1.50A-1 before such amount is further reduced under this paragraph.

(b) *Regulated investment companies and real estate investment trusts.* (1) In the case of a regulated investment company or a real estate investment trust subject to taxation under subchapter M, chapter 1 of the Code—

(i) The WIN expenses determined under paragraph (a) of § 1.50B-1, and

(ii) The \$25,000 amount specified in section 50A(a)(2), relating to limitation based on amount of tax,

shall be reduced to such person's ratable share of each such amount. If a regulated investment company or a real estate investment trust is a member of a controlled group (as defined in section 50A(a)(5)), the \$25,000 amount specified in section 50A(a)(2) shall be reduced in accordance with the provisions of paragraph (f) of § 1.50A-1 before such amount is further reduced under this paragraph.

(2) A person's ratable share of the amount described in subparagraph (1) (i) and the amount described in subparagraph (1) (ii) of this paragraph shall be the ratio which—

(i) Taxable income for the taxable year, bears to,

(ii) Taxable income for the taxable year plus the amount of the deduction for dividends paid taken into account under section 852(b)(2)(D) in computing investment company taxable income, or under section 857(b)(2)(C) in computing real estate investment trust taxable income, as the case may be.

For purposes of the preceding sentence, the term "taxable income" means, in the case of a regulated investment company, its investment company taxable income (within the meaning of section 852(b)(2)) and, in the case of a real estate investment trust, its real estate investment trust, taxable income (within the meaning of section 857(b)(2)).

(3) This paragraph may be illustrated by the following example:

*Example.* (1) Corporation X, a regulated investment company subject to taxation under section 852 of the Code, which makes its return on the basis of the calendar year, incurs WIN expenses of \$30,000 during the year 1974. Corporation X's investment company taxable income under section 852(b)(2) is \$10,000 after taking into account a deduction for dividends paid of \$90,000.

(2) Under this paragraph, Corporation X's WIN expenses for the taxable year 1974 is \$3,000, computed as follows: (a) \$30,000 (WIN expenses), multiplied by (b) \$10,000 (taxable income), divided by (c) \$100,000 (taxable income plus the deduction for dividends paid). For 1974, the \$25,000 amount specified in section 50A(a)(2) is reduced to \$2,500.

(c) *Cooperatives.* (1) In the case of a cooperative organization described in section 1381(a)—

(i) The WIN expenses determined under paragraph (a) of § 1.50B-1, and

(ii) The \$25,000 amount specified in section 50A(a)(2), relating to limitation based on amount of tax,

shall be reduced to such cooperative's ratable share of each such amount (as determined under subparagraph (2) of this paragraph). If a cooperative organization described in section 1381(a) is a member of a controlled group (as defined in section 50A(a)(5)), the \$25,000 amount specified in section 50A(a)(2) shall be reduced in accordance with the provisions of paragraph (f) of § 1.50A-1 before such amount is further reduced under this paragraph.

(2) A cooperative's ratable share of the amount described in subparagraph (1) (i) and the amount described in subparagraph (1) (ii) of this paragraph shall be the ratio which—

(i) Taxable income for the taxable year, bears to

(ii) Taxable income for the taxable year plus the sum of (a) the amount of the deductions allowed under section 1382(b), and (b) the amount of the deductions allowed under section 1382(c), and (c) amounts similar to the amounts

described in (a) and (b) of this subdivision the tax treatment of which is determined without regard to subchapter T, chapter 1 of the Code and the regulations thereunder.

(3) This paragraph may be illustrated by the following example:

*Example.* (1) Cooperative X, an organization described in section 1381(a) which makes its return on the basis of the calendar year, incurs WIN expenses of \$30,000 for the taxable year 1972. Cooperative X's taxable income is \$10,000 after taking into account deductions of \$30,000 allowed under section 1382(b), and deductions of \$60,000 allowed under section 1382(c).

(2) Under this paragraph, Cooperative X's WIN expenses for the taxable year 1972 are \$3,000, computed as follows: (a) \$30,000 (WIN expenses), multiplied by (b) \$10,000 (taxable income), divided by (c) \$100,000 (taxable income plus the sum of deductions allowed under sections 1382(b) and 1382(c)). For 1972, the \$25,000 amount specified in section 50A(a)(2) is reduced to \$2,500.

#### Title 7—Agriculture

#### CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

[Amdt. 9]

#### PART 210—NATIONAL SCHOOL LUNCH PROGRAM

##### Regional Offices

The purpose of this amendment to the regulations governing the National School Lunch Program is to update the addresses of the Food and Nutrition Service Regional Offices.

It is impracticable and unnecessary to follow the proposed rule making and public participation procedure because this is a technical amendment that is nonsubstantive in nature. Accordingly, the National School Lunch Program regulations are amended as follows:

In § 210.20, paragraphs (a) through (e) are revised to read as follows:

#### § 210.20 Program information.

(a) In the States of Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia: Northeast Regional Office, FNS, U.S. Department of Agriculture, 707 Alexander Road, Princeton, NJ 08540.

(b) In the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virginia, and the Virgin Islands: Southeast Regional Office, FNS, U.S. Department of Agriculture, 1100 Spring Street NW., Atlanta, GA 30309.

(c) In the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin: Midwest Regional Office, FNS, U.S. Department of Agriculture, 536 South Clark Street, Chicago, IL 60605.

(d) In the States of Arkansas, Colorado, Kansas, Louisiana, New Mexico, Oklahoma, and Texas: Southwest Regional Office, FNS, U.S. Department of Agriculture, 1100 Commerce Street, Room 5-D-22, Dallas, TX 75202.

Agriculture, 1100 Commerce Street, Room 5-D-22, Dallas, TX 75202.

(e) In the States of Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming: Western Regional Office, FNS, U.S. Department of Agriculture, 550 Kearny Street, Room 400, San Francisco, CA 94108.

*Effective date.* This amendment shall become effective March 5, 1973.

Dated: March 1, 1973.

PHILIP C. OLSSON,  
Acting Assistant Secretary.

[Amdt. 6]

#### PART 215—SPECIAL MILK PROGRAM FOR CHILDREN

##### Regional Offices

The purpose of this amendment to the regulations governing the Special Milk Program for Children is to update the addresses of the Food and Nutrition Service Regional Offices.

It is impracticable and unnecessary to follow the proposed rule making and public participation procedure because this is a technical amendment that is nonsubstantive in nature. Accordingly, the Special Milk Program for Children regulations are amended as follows:

In § 215.16, paragraphs (a) through (e) are revised to read as follows:

#### § 215.16 Program information.

(a) In the States of Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia: Northeast Regional Office, FNS, U.S. Department of Agriculture, 707 Alexander Road, Princeton, NJ 08540.

(b) In the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virginia, and the Virgin Islands: Southeast Regional Office, FNS, U.S. Department of Agriculture, 1100 Spring Street NW., Atlanta, GA 30309.

(c) In the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin: Midwest Regional Office, FNS, U.S. Department of Agriculture, 536 South Clark Street, Chicago, IL 60605.

(d) In the States of Arkansas, Colorado, Kansas, Louisiana, New Mexico, Oklahoma, and Texas: Southwest Regional Office, FNS, U.S. Department of Agriculture, 1100 Commerce Street, Room 5-D-22, Dallas, TX 75202.

(e) In the States of Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming: Western Regional Office, FNS, U.S. Department of Agriculture, 550 Kearny Street, Room 400, San Francisco, CA 94108.

*Effective date.* This amendment shall become effective March 5, 1973.

Dated: March 1, 1973.

#### PART 220—SCHOOL BREAKFAST AND NONFOOD ASSISTANCE PROGRAMS AND STATE ADMINISTRATIVE EXPENSES

##### Regional Offices

The purpose of this amendment to the regulations governing the School Breakfast and Nonfood Assistance Programs and State Administrative Expenses is to update the addresses of the Food and Nutrition Service Regional Offices.

It is impracticable and unnecessary to follow the proposed rule making and public participation procedure because this is a technical amendment that is nonsubstantive in nature. Accordingly, the School Breakfast and Nonfood Assistance Programs and State Administrative Expenses regulations are amended as follows:

In § 220.29, paragraphs (a) through (e) are revised to read as follows:

#### § 220.29 Program information.

(a) In the States of Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia: Northeast Regional Office, FNS, U.S. Department of Agriculture, 707 Alexander Road, Princeton, NJ 08540.

(b) In the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virginia, and the Virgin Islands: Southeast Regional Office, FNS, U.S. Department of Agriculture, 1100 Spring Street NW., Atlanta, GA 30309.

(c) In the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin: Midwest Regional Office, FNS, U.S. Department of Agriculture, 536 South Clark Street, Chicago, IL 60605.

(d) In the States of Arkansas, Colorado, Kansas, Louisiana, New Mexico, Oklahoma, and Texas: Southwest Regional Office, FNS, U.S. Department of Agriculture, 1100 Commerce Street, Room 5-D-22, Dallas, TX 75202.

(e) In the States of Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming: Western Regional Office, FNS, U.S. Department of Agriculture, 550 Kearny Street, Room 400, San Francisco, CA 94108.

*Effective date.* This amendment shall become effective March 5, 1973.

Dated: March 1, 1973.

Acting Assistant Secretary.  
[FR Doc. 73-4343 Filed 3-6-73; 8:45 am]

[Amdt. 4]

#### PART 225—SPECIAL FOOD SERVICE PROGRAM FOR CHILDREN

##### Regional Offices

The purpose of this amendment to the regulations governing the Special Food Service Program for Children is to update the addresses of the Food and Nutrition Service Regional Offices.

It is impracticable and unnecessary to follow the proposed rule making and public participation procedure because this is a technical amendment that is nonsubstantive in nature. Accordingly, the Special Food Service Program for Children regulations are amended as follows:

In § 225.23, paragraphs (a) through (e) are revised to read as follows:

#### § 225.23 Program information.

(a) In the States of Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia: Northeast Regional Office, FNS, U.S. Department of Agriculture, 707 Alexander Road, Princeton, NJ 08540.

(b) In the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virginia, and the Virgin Islands: Southeast Regional Office, FNS, U.S. Department of Agriculture, 1100 Spring Street NW., Atlanta, GA 30309.

(c) In the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin: Midwest Regional Office, FNS, U.S. Department of Agriculture, 536 South Clark Street, Chicago, IL 60605.

(d) In the States of Arkansas, Colorado, Kansas, Louisiana, New Mexico, Oklahoma, and Texas: Southwest Regional Office, FNS, U.S. Department of Agriculture, 1100 Commerce Street, Room 5-D-22, Dallas, TX 75202.

(e) In the States of Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Montana, Nevada, Oregon, Trust Territory of the Pacific Islands, Utah, Washington, and Wyoming: Western Regional Office, FNS, U.S. Department of Agriculture, 550 Kearny Street, Room 400, San Francisco, CA 94108.

*Effective date.* This amendment shall become effective March 5, 1973.

Dated: March 1, 1973.

CLAYTON YEUTTER,  
Assistant Secretary.

[Amdt. 15]

#### PART 250—DONATION OF FOODS FOR USE IN UNITED STATES, ITS TERRITORIES AND POSSESSIONS, AND AREAS UNDER ITS JURISDICTION

##### Regional Offices

Section 250.11, Where to obtain information, of Part 250 gives the addresses of

FNS Regional Offices. Some of the addresses shown in § 250.11 are no longer applicable. Therefore, § 250.11 is amended to show the current addresses as set out below.

#### § 250.11 Where to obtain information.

Interested persons desiring information concerning the program may make written request to the following Regional Offices:

Northeast Region, Food and Nutrition Service, USDA, 707 Alexander Road, Princeton, NJ 08540, for the following States and the District of Columbia: Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, West Virginia; Food and Nutrition Service, U.S. Department of Agriculture, Northeast Region, 707 Alexander Road, Princeton, NJ 08540;

Southwest Region, Food and Nutrition Service, USDA, 1100 Spring Street NW, Atlanta, GA 30309, for the following States: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, Puerto Rico, and the Virgin Islands.

Midwest Region, Food and Nutrition Service, USDA, 536 South Clark Street, Chicago, IL 60605, for the following States: Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin.

Southwest Region, Food and Nutrition Service, USDA, 1100 Commerce Street, Room 5-D-22, Dallas, TX 75202, for the following States: Arkansas, Colorado, Kansas, Louisiana, New Mexico, Oklahoma, and Texas.

Western Region, Food and Nutrition Service, USDA, 550 Kearny Street, Room 400, San Francisco, CA 94108, for the following States: Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, Wyoming, American Samoa, Guam, and the Trust Territories of the Pacific.

The foregoing amendment shall become effective on March 5, 1973. This amendment is of an organizational nature and does not substantially affect the rights or obligations of any member of the public. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found that notice and public procedure concerning this amendment are impractical and unnecessary, and the amendment is made effective in less than 30 days after publication in the FEDERAL REGISTER.

CLAYTON YEUTTER,  
Assistant Secretary.

MARCH 1, 1973.

[Amdt. 1]

#### PART 265—PILOT FOOD CERTIFICATE PROGRAM REGULATIONS

Paragraph (g) of § 265.12, *Miscellaneous provisions*, provides for forwarding plans, applications, notices, and documents to FNS Regional or Field Offices. Some of the addresses shown in subparagraphs (1) through (5) are no longer applicable. Therefore, paragraph (g) of § 265.12 is amended to show the current addresses as set out below.

#### § 265.12 Miscellaneous provisions.

(g) All plans, applications, notices, and other documents required by this part to

be forwarded to FNS, shall be sent to the local FNS Field Office or to the appropriate FNS Regional Office for the pilot area, as indicated below:

(1) For pilot areas in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, West Virginia; Food and Nutrition Service, U.S. Department of Agriculture, Northeast Region, 707 Alexander Road, Princeton, NJ 08540;

(2) For pilot areas in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia; Food and Nutrition Service, U.S. Department of Agriculture, Southwest Region, 536 South Clark Street, Chicago, IL 60605;

(3) For pilot areas in Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin; Food and Nutrition Service, U.S. Department of Agriculture, Midwest Region, 536 South Clark Street, Chicago, IL 60605;

(4) For pilot areas in Arkansas, Colorado, Kansas, Louisiana, New Mexico, Oklahoma, Texas; Food and Nutrition Service, U.S. Department of Agriculture, Southwest Region, 1100 Commerce Street, Room 5-D-22, Dallas, TX 75202;

(5) For pilot areas in Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, Wyoming, American Samoa, Guam, and the Trust Territories of the Pacific.

The foregoing amendment shall become effective on March 5, 1973. This amendment is of an organizational nature and does not substantially affect the rights or obligations of any member of the public. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found that notice and public procedure concerning this amendment are impractical and unnecessary, and the amendment is made effective in less than 30 days after publication in the FEDERAL REGISTER.

CLAYTON YEUTTER,  
Assistant Secretary.

MARCH 1, 1973.

[FR Doc. 73-4346 Filed 3-6-73; 8:45 am]

#### SUBCHAPTER C—FOOD STAMP PROGRAM PART 270—GENERAL INFORMATION AND DEFINITIONS

##### Changes of Address, Regional Offices

Pursuant to the authority contained in the Food Stamp Act of 1964, as amended (78 Stat. 703, as amended; 7 U.S.C. 2011-2025), Part 270 of the regulations governing the operation of the Food Stamp Program is hereby amended.

The addresses of the Food and Nutrition Service Regional Offices for the Northeast and Western Regions have changed. Therefore, to reflect the current addresses of these offices, it is necessary to revise subparagraphs (1) and (5) of § 270.5(b).

Because this amendment is nonsubstantive in nature, it is hereby determined to be impracticable and unnecessary to follow the proposed rule making procedure.

Subparagraphs (1) and (5) of § 270.5(b) are amended to read as follows:

#### § 270.5 Miscellaneous provisions.

(b) . . . . .

(1) For project areas in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia; U.S. Department of Agriculture, Food and Nutrition Service, Northeast Region, 707 Alexander Road, Princeton, NJ 08540.

(5) For project areas in Alaska, Arizona, California, Guam, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming; U.S. Department of Agriculture, Food and Nutrition Service, Western Region, 550 Kearny Street, San Francisco, CA 94108.

Effective date. This amendment shall become effective March 5, 1973.

(78 Stat. 703, as amended; 7 U.S.C. 2011-2025)

CLAYTON YEUTTER,  
Assistant Secretary.

MARCH 1, 1973.

[FR Doc. 73-4347 Filed 3-6-73; 8:45 am]

#### PART 295—AVAILABILITY OF INFORMATION TO THE PUBLIC Addresses of Offices

These amendments to the regulations issued pursuant to title 5, United States Code, sections 552(a)(2), 552(a)(3), and 552(b) are promulgated in order

(1) To give the current title of Regional Administrators.

(2) To update the addresses of the five Regional Offices of the Food and Nutrition Service.

1. References to the Regional Director are hereby deleted, and Regional Administrator is hereby substituted therefor.

2. Section 295.10 is revised to read as follows:

#### § 295.10 Addresses of offices.

(a) Requests made to FNS in Washington shall be addressed to the Director of the appropriate Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250.

(b) Requests made to Regional Offices should be addressed to the Regional Administrator of the appropriate Office, as follows:

Northeast Region, Food and Nutrition Service, USDA, 707 Alexander Road, Princeton, NJ 08540, for the following States and the District of Columbia: Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia.

Southeast Region, Food and Nutrition Service, USDA, 1100 Spring Street NW, Room 200, Atlanta, GA 30309, for the following States: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, Puerto Rico, and the Virgin Islands.

Midwest Region, Food and Nutrition Service, USDA, 536 South Clark Street, Chicago, IL 60605, for the following States: Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin.

Southwest Region, Food and Nutrition Service, USDA, 1100 Commerce Street, Room 5-D-22, Dallas, TX 75202, for the following States: Arkansas, Colorado, Kansas, Louisiana, New Mexico, Oklahoma, and Texas.

Western Region, Food and Nutrition Service, USDA, 550 Kearny Street, Room 400, San Francisco, CA 94108, for the following States: Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, Wyoming, American Samoa, Guam, and the Trust Territories of the Pacific.

Effective date. This revision shall become effective March 5, 1973.

It is impracticable and unnecessary to follow the proposed rule making and public participation procedure because this is a technical amendment that is nonsubstantive in nature.

Dated: February 26, 1973.

EDWARD J. HEKMAN,  
Administrator.

[FR Doc. 73-4348 Filed 3-6-73; 8:45 am]

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 574, Amdt. 1]

#### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA Limitation of Handling

This regulation increases the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period February 25-March 3, 1973. The quantity that may be shipped is increased due to improved market conditions for California-Arizona lemons. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910.

(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of lemons available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Lemon Regulation 574 (38 FR 4941). The marketing picture now indicates that there is a greater demand for lemons than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of lemons to fill the current market demand thereby making a greater quantity of lemons available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) Order, as amended. The provision in paragraph (b) (1) of § 910.874 (Lemon Regulation 574 (38 FR 4941)) is hereby amended to read as follows:

#### § 910.874 Lemon Regulation 574.

(b) Order. (1) . . . 225,000 cartons.

(Secs. 1-10, 46 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: March 1, 1973.

PAUL A. NICHOLSON,  
Acting Director, Fruit and  
Vegetable Division, Agricultural  
Marketing Service.

[FR Doc. 73-4338 Filed 3-6-73; 8:45 am]

#### Title 9—Animals and Animal Products CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

#### SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

[Docket No. 73-515]

#### PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

##### Release of Areas Quarantined

These amendments exclude a portion of Tippecanoe County in Indiana and a portion of Berks County in Pennsylvania from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas contained in 9 CFR Part 76, as amended, do not

apply to the excluded areas, but will continue to apply to the quarantined areas described in § 76.2(e). Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 apply to the excluded areas. No areas in Indiana and Pennsylvania remain under quarantine.

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, paragraphs (e) (1) relating to Indiana and (e) (4) relating to Pennsylvania are deleted.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f; 37 FR 28464, 28477.)

Effective date. The foregoing amendments shall become effective March 2, 1973.

The amendments relieve restrictions presently imposed but no longer deemed necessary to prevent the spread of hog cholera and must be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2d day of March 1973.

G. H. WISE,  
Acting Administrator, Animal  
and Plant Health Inspection  
Service.

[FR Doc. 73-4393 Filed 3-6-73; 8:45 am]

#### PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

##### Areas Released From Quarantine

The amendments exclude portions of Ventura and San Bernardino Counties in California from the areas quarantined

because of exotic Newcastle disease. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah, and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR Part 82, as amended, will not apply to the excluded areas.

Pursuant to the provisions of sections 1, 2, 3, and 4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, sections 4, 5, 6, and 7 of the Act of May 29, 1884, as amended, and sections 3 and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 112, 113, 115, 117, 120, 123, 124, 125, 126, 134b, 134f), Part 82, Title 9, Code of Federal Regulations, is hereby amended in the following respects:

In § 82.3, in paragraph (a) (1) relating to the State of California, subdivisions (i) relating to Ventura County and (vii) relating to San Bernardino County are deleted.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 115, 117, 120, 123-126, 134b, 134f; 37 FR 28464, 28477)

**Effective date.** The foregoing amendments shall become effective March 1, 1973.

The amendments relieve certain restrictions presently imposed but no longer deemed necessary to prevent the spread of exotic Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Department. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making them effective less than 30 days after publication in the *FEDERAL REGISTER*.

Done at Washington, D.C., this 1st day of March 1973.

G. H. WISE,  
Acting Administrator, Animal  
and Plant Health Inspection  
Service.

#### Title 14—Aeronautics and Space CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 73-NW-3-AD; Amdt. 39-1603]

#### PART 39—AIRWORTHINESS DIRECTIVES Boeing Model 727 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring certain leading edge slat actuators be modified in accordance with Boeing Service

Bulletin 27-129, or replaced with actuators of improved design, on all Boeing Model 727 airplanes listed in Boeing Service Bulletin 27-129 was published in 37 FR 25529.

Interested persons have been afforded an opportunity to participate in the making of the amendment. One operator requested an extension for compliance to 4,500 landings from the effective date of the airworthiness directive. Since three airplanes have experienced slat separation after publication of the notice of proposed rule making, the Agency does not feel an extension to 4,500 landings for compliance is justified. The manufacturer of the slat actuator pointed out an error in the part numbers published in the N.P.R.M. The part numbers have been corrected.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

**BOEING Applies to all Model 727 series airplanes listed in Boeing Service Bulletin 27-129 dated October 3, 1969, or later FAA approved revisions.**

Compliance required as indicated. To prevent failures of the leading edge slat actuators, accomplish the following:

(a) Within 3,000 landings from the effective date of this AD,

(1) Rework actuators (Ronson Part No. 1U1095) on leading edge slats numbered 1, 2, 7, and 8 in accordance with rework instructions in Boeing Service Bulletin 27-129, dated October 3, 1969, or later FAA approved revisions, or rework in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, or

(2) Replace actuators (Ronson Part No. 1U1095) on slats numbered 1, 2, 7, and 8 with redesigned actuators, Ronson Parts Nos. 1U1095-5 or 1U1095-9-2, or replace with actuators, Decoto Parts Nos. 2-690029-1, 2-690029-2, or 2-690029-3.

(b) Rework of the actuators, Ronson Part No. 1U1095, in accordance with (a) (1) above or replacement of the actuators in accordance with (a) (2) above constitutes terminating action under the provisions of this AD.

This amendment becomes effective March 13, 1973.

(Secs. 313(a) 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 135(a), 1421, 1423)

Issued in Seattle, Wash., on February 27, 1973.

C. B. WALK, JR.,  
Director, FAA Northwest Region.

[FR Doc. 73-4302 Filed 3-6-73; 8:45 am]

[Airspace Docket No. 73-80-10]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Redesignation of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to redesignate the Eglin AF Aux No. 3 (Duke Field), Fla., control zone.

The Eglin AF Aux No. 3 (Duke Field) control zone is described in § 71.171 (38

FR 351). In the description, the effective time of the control zone on Mondays is cited as "from 0730 to 1530 hours, local time." Since the hours of operation on Mondays are being changed to "from 0930 to 1730 hours, local time," it is necessary to amend the description to reflect this change. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 5, 1973, as hereinafter set forth.

In § 71.171 (38 FR 351), the Eglin AF Aux 3 (Duke Field), Fla., control zone is amended as follows:

"\* \* \* 0730 to 1530 hours, local time, Monday \* \* \*" is deleted and "\* \* \* 0930 to 1730 hours, local time, Monday \* \* \*" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on February 23, 1973.

PHILLIP M. SWATEK,  
Director, Southern Region.

[FR Doc. 73-4306 Filed 3-6-73; 8:45 am]

[Airspace Docket No. 72-EA-116]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Control Zone and Transition Area

On page 26533 of the *FEDERAL REGISTER* for December 13, 1972, the Federal Aviation Administration published a proposed rule so as to alter the Reading, Pa., control zone (38 FR 414) and transition area (38 FR 564).

Interested parties were given 30 days after publication in which to submit written data or views. Mr. Alexis I. du Pont, an operator and pilot from Toughkenamon, Pa., objected to the extension of the control zone and transition area beyond the centerline of V143. However, a review of this extension indicates that it cannot be shortened since to do so would derogate the ILS instrument approach procedure to Reading Municipal Airport.

In view of the foregoing the proposed regulations are hereby adopted, effective 0901 G.m.t. April 26, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on February 15, 1973.

ROBERT H. STANTON,  
Acting Director, Eastern Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Reading, Pa., control zone and insert the following in lieu thereof:

Within a 5-mile radius of the center, 40°22'39" N., 75°57'57" W., of Reading Municipal-General Carl A. Spaatz Field, Reading,

Pa., extending clockwise from a 160° bearing to a 030° bearing from the airport; within a 5.5-mile radius of the center of the airport, extending clockwise from a 030° bearing to a 160° bearing from the airport; within 4.5 miles each side of the Reading Municipal-General Carl A. Spaatz Field ILS localizer south course, extending from the 5-mile-radius zone and 5.5-mile-radius zone to 8.5 miles south of the OM; within 4 miles each side of a 161° bearing from a point 40°22'32" N., 75°57'57" W., extending from said point to 8.5 miles south.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Reading, Pa., 700-foot floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 11-mile radius of the center, 40°22'39" N., 75°57'57" W., of Reading Municipal-General Carl A. Spaatz Field, Reading Pa., extending clockwise from a 050° bearing to a 100° bearing from the airport; within an 8-mile radius of the center of the airport, extending clockwise from a 280° bearing to a 050° bearing from the airport; within 5 miles each side of the Reading Municipal-General Carl A. Spaatz Field ILS localizer south course, extending from the OM to 18.5 miles south of the OM; within 6.5 miles north and 4.5 miles south of the East Texas, Pa. VORTAC 252° radial, extending from 12 miles west of the VORTAC to 28 miles west of the VORTAC.

[FR Doc. 73-4304 Filed 3-6-73; 8:45 am]

[Airspace Docket No. 73-EA-7]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Transition Area

The Federal Aviation Administration is amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Gaithersburg, Md., transition area (38 FR 490).

With the development of a new NDB instrument approach procedure for Montgomery County Airport, Gaithersburg, Md., an alteration of the transition area will be required to add a nominal amount of controlled airspace. Since the alteration is minor in nature, notice and public procedure hereon are unnecessary.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t. April 26, 1973, as follows:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by deleting the description of the Gaithersburg, Md., transition area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 8.5-mile

#### CHAPTER III—NATIONAL TRANSPORTATION SAFETY BOARD

[NTSB Reg. OR-2, Amdt. 4]

#### PART 400—STATEMENT OF ORGANIZATION AND FUNCTIONS OF THE BOARD AND DELEGATIONS OF AUTHORITY

##### Miscellaneous Amendments

The purpose of this amendment is to change the title of Hearing Examiner to Administrative Law Judge, pursuant to Part 930 of Title 5 of the Code of Federal Regulations (Subpart B) issued by the Civil Service Commission, and to conform the title of Office of Hearing Examiners in accordance therewith; to change the title of Executive Director to General Manager to conform to changes already effectuated, and to conform the title of the Office of Executive Director in accordance therewith; to correct the principal and mailing address of the Board; and to change various citations of the United States Code and parts of the Code of Federal Regulations to reflect correct current references.

This amendment relates to minor corrective matters and editorial changes. Consequently, the National Transportation Safety Board has found that notice of proposed rule making and public procedure thereon are unnecessary, and good cause exists for making the amendments effective on March 7, 1973.

Accordingly, the National Transportation Safety Board hereby amends the following provisions of Part 400, Statement of Organization and Functions of the Board and Delegations of Authority, as follows:

1. Part 400 is amended to provide that wherever the terms "Hearing Examiner" and "Office of Hearing Examiners" appear, they shall be changed to read "Administrative Law Judge" and "Office of Administrative Law Judges" respectively, to wit, in the following sections: Subpart B, Table of Contents, § 400.23, and § 400.2(d).

2. Part 400 is amended to provide that wherever the terms "Executive Director" and "Office of Executive Director" appear, they shall be changed to read "General Manager" and "Office of General Manager" respectively, to wit, in the following sections: Subpart B, Table of Contents, § 400.22; § 400.2(a) (appears twice), 400.6(b), 400.8(d) (appears three times) and (e), and 400.22 (appears twice).

3. Section 400.3 is amended to read:

§ 400.3 Functions.

(c) Upon the request of the aggrieved parties, the Board reviews in quasi-judicial proceedings, conducted pursuant to the provisions concerning Administrative Procedure, 5 U.S.C. 551 et seq., denials by the Administrator of the Federal Aviation Administration of applications for airman certificates and orders of the Administrator modifying, amending, suspending, or revoking any airman certificates. The Board also reviews, upon request, decisions of the Commandant,

radius of the center (39°09'54" N., 77°10'00" W.) of Montgomery County Airport, Gaithersburg, Md., within 3 miles each side of the 007° bearing from the Gaithersburg, Md., RBN (39°10'06" N., 77°09'42" W.), extending from the 8.5-mile-radius area to 8.5 miles north of the RBN; within 3 miles each side of the 282° bearing from the Gaithersburg, Md., RBN, extending from the 8.5-mile-radius area to 8.5 miles west of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on February 15, 1973.

ROBERT H. STANTON,  
Acting Director, Eastern Region.

[FR Doc. 73-4303 Filed 3-6-73; 8:45 am]

[Airspace Docket No. 72-NW-23]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Transition Area

On December 9, 1972, a notice of proposed rule making was published in the *FEDERAL REGISTER* (37 FR 2634) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Mountain Home, Idaho, transition area.

Interested persons were given 30 days in which to submit written comments. No objections to the proposed amendment were received.

In consideration of the foregoing, the proposed amendment is hereby adopted without change.

**Effective date.** This amendment shall be effective 0901 G.m.t. May 24, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Washington, on February 26, 1973.

C. B. WALK, JR.,  
Director, Northwest Region.

MOUNTAIN HOME, IDAHO

That airspace extending upward from 700 feet above the surface within 10 miles northeast and 9 miles southwest of the Mountain Home AFB TACAN (latitude 43°02'26" N., longitude 115°52'22" W.) 135° and 315° radials, extending from 18 miles southeast to 18 miles northwest of the TACAN; that airspace extending upward from 1,200 feet above the surface bounded on the north and northeast by the southwest edge of V-253 on southeast, south, and west by the arc of a 46-mile-radius circle centered on Mountain Home AFB (latitude 43°02'35" N., longitude 115°52'05" W.), on the northwest by the southeast edge of V-113; that airspace southeast of Mountain Home AFB extending upward from 6,500 feet MSL, bounded on the northwest by the 46-mile arc, on the northeast by the southwest edge of V-253, on the south by latitude 42°24'00" N. to the 46-mile arc.

[FR Doc. 73-4305 Filed 3-6-73; 8:45 am]

U.S. Coast Guard, on appeals from orders of Administrative Law Judges revoking licenses, certificates, or documents under 46 U.S.C. 239 and 216b.

4. Section 400.6 is amended to read:  
§ 400.6 Formal and informal submissions.

(a) All formal submissions required or permitted to be made in air safety proceedings should be addressed to the Office of the General Manager, National Transportation Safety Board, 800 Independence Avenue SW., Washington, DC 20591, unless specifically provided otherwise in the provision requiring or permitting such submission. Requirements as to the form and content of such submissions are set forth in the Board's Procedural Regulations.

5. Section 400.7 is amended to read:  
§ 400.7 Offices.

The principal offices of the National Transportation Safety Board are located at 800 Independence Avenue SW., Washington, DC. Its mailing address is National Transportation Safety Board, 800 Independence Avenue SW., Washington, DC 20591. The Board's Bureau of Aviation Safety maintains field offices in selected cities throughout the United States, including Alaska. The cities are listed in the Board's Procedural Regulations.

6. Section 400.23 is amended to read:  
§ 400.23 Delegation to the Administrative Law Judges, Office of Administrative Law Judges.

The Board has delegated to the Administrative Law Judges the authority generally detailed in Procedural Regulation, Part 421, of this title.

7. Section 400.24 is amended to read:  
§ 400.24 Delegation to the General Counsel.

(a) In accordance with the provisions of Procedural Regulation, Part 435, of this title, approve, disapprove, or request further information concerning requests for testimony of Board employees with respect to their participation in the investigation of aircraft accidents, and upon receipt of notice that an employee has been subpoenaed, to make arrangements with the court to have the employee excused from testifying or give the employee permission to testify.

(b) In safety enforcement proceedings: Approve or disapprove for good cause shown requests for changes in procedural requirements subsequent to the initial decision; grant or deny requests to file additional briefs pursuant to § 421.46 of this title of the Procedural Regulations, raise on appeal any issue, the resolution of which he deems important to the proper disposition of proceedings under § 421.46 of this chapter of the Procedural Regulations.

8. Section 400.25 is amended to read:  
§ 400.25 Delegation to the Director, Bureau of Aviation Safety.

(d) Disclose factual information pertinent to an aircraft accident or incident as provided for in Part 435 of this chapter of the Procedural Regulations.

Issued under delegated authority (14 CFR 400.24) by the National Transportation Safety Board.

Dated: March 1, 1973.

[SEAL] FRITZ L. PULS,  
General Counsel.

[FR Doc. 73-4316 Filed 3-6-73; 8:45 am]

[NTSB Reg. OR-1, Amdt. 3 and NTSB Reg. PR-5, Amdt. 2]

PART 401—PUBLIC AVAILABILITY OF INFORMATION

PART 435—DISCLOSURE OF AIRCRAFT ACCIDENT INVESTIGATION INFORMATION

#### Change in Titles

The purpose of these amendments is to change the title of Executive Director to General Manager to conform to a change in title already effectuated, and to change the title of Examiner to Administrative Law Judge, pursuant to Part 930 of Title 5 of the Code of Federal Regulations (Subpart B) issued by the Civil Service Commission.

Since these amendments pertain to such corrective matters only, the National Transportation Safety Board has found that notice of proposed rule making and public procedure thereon are unnecessary, and good cause exists for making the amendments effective on March 7, 1973.

Accordingly, the National Transportation Safety Board hereby amends Part 401, Public Availability of Information, as follows:

1. Part 401 is amended to provide that wherever the term "Executive Director" appears, it shall be changed to read "General Manager," to wit, in the following sections: §§ 401.3 (appears three times), 401.5(a), 401.6(a), 401.14, amendatory text and paragraph (a), 401.15(a) and (b) (5), 401.25(a) (appears twice) and (b), and 401.25(d).

2. Part 401 is amended to provide that wherever the term "Examiner" appears, it shall be changed to read "Administrative Law Judge," to wit, in § 401.16 Appendix—Schedule of subscription rates for publications.

3. Part 435 is amended to provide that wherever the term "Executive Director" appears, it shall be changed to read "General Manager," to wit, in the following sections: §§ 435.2, 435.3(a) and (b).

Issued under delegated authority (14 CFR 400.24) by the National Transportation Safety Board.

Dated: March 1, 1973.

[SEAL] FRITZ L. PULS,  
General Counsel.

[NTSB Reg. PR-4, Amdt. 1]

PART 425—RULES OF PROCEDURE FOR MERCHANT MARINE APPEALS FROM DECISIONS OF THE COMMANDANT, U.S. COAST GUARD

#### Miscellaneous Amendments

The purpose of this amendment is to simplify the title of this part; to change the title of Hearing Examiner to Administrative Law Judge, pursuant to Part 930 of Title 5 of the Code of Federal Regulations (Subpart B) issued by the U.S. Civil Service Commission; to correct the Commandant's mailing address for receipt of copies of notices of appeal; and to clarify reference to the record on appeal in briefs and memoranda in support of appeals to conform to custom and practice.

Since this amendment relates to minor corrective matters, the National Transportation Safety Board has found that notice of proposed rule making and public procedure thereon are unnecessary, and good cause exists for making the amendment effective on March 7, 1973.

Accordingly, the National Transportation Safety Board hereby amends the following provisions of Part 425, as follows:

1. The title of Part 425 is changed to read "Part 425—Rules of Procedure for Merchant Marine Appeals from Decisions of the Commandant, U.S. Coast Guard", as set forth in the headings.

2. Section 425.5 is amended to read:  
§ 425.5 Notice of appeal.

(b) Notice of appeal shall be addressed to the Docket Clerk, National Transportation Safety Board, Washington, D.C. 20591. At the same time, a copy shall be served on the Commandant (GL), U.S. Coast Guard, Washington, D.C. 20590.

3. Section 425.20 is amended to read:  
§ 425.20 Briefs or memoranda in support of appeal.

(c) Objection based upon evidence of record need not be considered unless the appeal contains specific record citation to the pertinent evidence.

4. Section 425.30 is amended to read:  
§ 425.30 Action by the Board.

(d) When a matter has been remanded to the Commandant under paragraph (c) of this section, he himself may act in accordance with the terms of the order of remand, or he may, as appropriate, further remand the matter to the Administrative Law Judge of the Coast Guard who heard the case, or to another Administrative Law Judge of the Coast Guard, with appropriate directions.

Issued under delegated authority (14 CFR 400.24) by the National Transportation Safety Board.

Dated: March 1, 1973.

[SEAL] FRITZ L. PULS,  
General Counsel.

[FR Doc. 73-4317 Filed 3-6-73; 8:45 am]

Title 20—Employees' Benefits  
CHAPTER II—RAILROAD RETIREMENT BOARD

PART 238—RESIDUAL LUMP-SUM PAYMENTS

Miscellaneous Amendments  
Correction

In FR Doc. 73-2419 appearing on page 3596 of the issue for Thursday, February 8, 1973, in the second line of § 238.2 (a) (2) (ii), "§ 38.8" should read "§ 238.8".

CHAPTER VII—BENEFITS REVIEW BOARD, DEPARTMENT OF LABOR

PART 801—ESTABLISHMENT AND OPERATION OF THE BOARD

PART 802—RULES OF PRACTICE AND PROCEDURE

By Public Law 92-576, 86 Stat. 1251, in an amendment made to section 21 of the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 921), there was established the Benefits Review Board, an administrative review authority in the Department of Labor. The function of this Board is to hear and determine appeals raising a substantial question of law or fact taken by any party in interest from decisions with respect to claims for compensation or benefits under that Act and its extensions, including pneumoconiosis disability and death claims under the provisions of title IV of the Federal Coal Mine Health and Safety Act of 1969, 83 Stat. 795, as amended, 86 Stat. 150, which are administered by the Secretary of Labor. Prior to amendment by Public Law 92-576, section 21 of the Longshoremen's and Harbor Workers' Compensation Act provided for such appeals to be taken to the U.S. district courts.

By Secretary of Labor's Order No. 38-72, 38 FR 90, the amendment was implemented by placing the Benefits Review Board, for organizational purposes, in the Office of the Under Secretary. This was deemed necessary because the Board's functions are quasi-judicial in character and involve review of decisions made in the course of the administration of the several Acts by the Employment Standards Administration which is headed by an Assistant Secretary. For the same reason, it is inappropriate to place regulations governing the operation of the Board or rules of procedure of the Board within Chapter VI of Title 20, Code of Federal Regulations. That chapter contains the administrative regulations of the Employment Standards Administration governing the processing and determination of claims filed under the several Acts, from decisions on which appeals may be taken to the Board. Accordingly, a separate chapter is required for the placement of the regulations governing the operation of the Board, and of the rules of procedure of the Board, and Chapter VII of Title 20, CFR, designated Benefits Review Board, Department of Labor, is hereby reserved for such purpose, and for such other pur-

poses as the Secretary of Labor may deem appropriate.

Such amendment and Secretary's Order No. 38-72 are hereby further implemented by the adoption and publication herein of a new Part 801 of such Chapter VII, containing general regulations governing the establishment and operation of the Board, and of a new Part 802 of such chapter, setting forth the Board's rules of practice and procedure. The Board has adopted as its rules of practice and procedure the provisions of Part 802 and I hereby approve them.

The provisions of 5 U.S.C. 553 for notice, public participation, and delayed effective date are not applicable to rules of agency organization, procedure, and practice set forth below in the new Parts 801 and 802 of Title 20, CFR. Further, in view of the November 26, 1972, effective date of the amendments made by Public Law 92-576, of which this is only one aspect (see 38 FR 2650), it is essential that these regulations and rules of procedure become effective as expeditiously as possible so that the Board may act upon the several appeals that have already been filed. Accordingly, I find that notice of proposed rule making and opportunity for public comments thereon would be impracticable and contrary to the public interest. I further find that delay in the effective date, for those same reasons, is impracticable and contrary to the public interest. Accordingly, these regulations and rules of procedures shall become effective March 1, 1973.

Title 20, CFR, is hereby revised by the addition of a new Chapter VII, entitled Benefits Review Board, Department of Labor, and the addition thereto of a new Part 801, entitled Establishment and Operation of the Board and a new Part 802, entitled rules of practice and procedure, as set forth below.

The new Part 801 of Chapter VII of Title 20, CFR, reads as follows:

INTRODUCTORY	
Sec.	
801.1	Purpose and scope of this part.
801.2	Definitions and use of terms.
801.3	Applicability of this part to 20 CFR Part 802.
ESTABLISHMENT AND AUTHORITY OF THE BOARD	
801.101	Establishment.
801.102	Review authority.
801.103	Organizational placement.
801.104	Operational rules.
MEMBERS OF THE BOARD	
801.201	Composition of the Board.
801.202	Interim appointments.
801.203	Disqualification of Board members.
ACTION BY THE BOARD	
801.301	Quorum; votes.
801.302	Procedural rules.
801.303	Location of Board's proceedings.
REPRESENTATION	
801.401	Representation before the Board.
801.402	Representation of Board in court proceedings.

AUTHORITY: The provisions of this Part 801 issued under sec. 15, 86 Stat. 1261 (33 U.S.C. 921(b)); 5 U.S.C. 301; sec. 39, 44 Stat. 1442, as amended (33 U.S.C. 939); title IV, Federal

Coal Mine Health and Safety Act of 1969, 83 Stat. 742, 30 U.S.C. 901 et seq., as amended by Public Law 92-303, 86 Stat. 166; Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1268, 5 U.S.C. App.; Secretary of Labor's Order No. 38-72, 38 FR 90; unless otherwise noted.

#### INTRODUCTORY

§ 801.1 Purpose and scope of this part.

This Part 801 describes the establishment and the organizational structure of the Benefits Review Board of the Department of Labor, sets forth the general rules applicable to operation of the Board, and defines terms used in this chapter.

§ 801.2 Definitions and use of terms.

(a) For purposes of this chapter, except where the content clearly indicates otherwise, the following definitions apply:

(1) "Acts" means the several Acts listed in §§ 801.102 and 802.101 of this chapter, as amended and extended, unless otherwise specified.

(2) "Board" means the Benefits Review Board established by section 21 of the LHWCA (33 U.S.C. 921) as described in § 801.101, and as provided in this part and Secretary of Labor's Order No. 38-72 (38 FR 90).

(3) "Chairman" or "Chairman of the Board" means Chairman of the Benefits Review Board.

(4) "Secretary" means the Secretary of Labor.

(5) "Department" means the Department of Labor.

(6) "Judge" means an administrative law judge appointed as provided in 5 U.S.C. 3105 and Subpart B of 5 CFR Part 930 (see 37 FR 16787), who is qualified to preside at hearings under 5 U.S.C. 557 and is empowered by the Secretary to conduct formal hearings whenever necessary in respect of any claim for benefits or compensation arising under the Acts.

(7) "Chief Administrative Law Judge" means the Chief Administrative Law Judge of the Department of Labor.

(8) "Director" means the Director of the Office of Workmen's Compensation Programs of the Department of Labor (hereinafter OWCP).

(9) "Deputy commissioner" means a person appointed as provided in sections 39 and 40 of the LHWCA or his designee, authorized by the Director to make decisions and orders in respect to claims arising under the Acts.

(10) "Party" or "Party in interest" means the Secretary or his designee and any person or business entity aggrieved or directly affected by the decision or order from which an appeal to the Board is taken.

(11) "Day" means calendar day.

(b) Masculine gender includes the feminine, and the singular includes the plural.

(c) The definitions contained in this part shall not be considered to derogate from the definitions of terms in the respective Acts.

(d) The definitions pertaining to the Acts contained in the several parts of

Chapter VI of this Title 20 shall be applicable to this chapter as is appropriate.

**§ 801.3 Applicability of this part to 20 CFR Part 802.**

Part 802 of Title 20, Code of Federal Regulations, contains the rules of practice and procedure of the Board. This Part 801, including the definitions and usages contained in § 801.2, is applicable to Part 802 of this chapter as appropriate.

#### ESTABLISHMENT AND AUTHORITY OF THE BOARD

##### § 801.101 Establishment.

By Public Law 92-576, 86 Stat. 1251, in an amendment made to section 21 of the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 921), there was established effective November 26, 1972, a Benefits Review Board, which is composed of members appointed by the Secretary of Labor.

##### § 801.102 Review authority.

The Board is authorized, as provided in 33 U.S.C. 921(b), as amended, to hear and determine appeals raising a substantial question of law or fact taken by any party in interest from decisions or orders with respect to claims for compensation or benefits arising under the following Acts, as amended and extended:

(1) The Longshoremen's and Harbor Workers' Compensation Act (LHWCA), 33 U.S.C. 901 et seq.;

(2) The Defense Base Act (DBA), 42 U.S.C. 1651 et seq.;

(3) The District of Columbia Workmen's Compensation Act (DCWCA), 36 D.C. Code 501 et seq.;

(4) The Outer Continental Shelf Lands Act (OCSLA), 43 U.S.C. 1331;

(5) The Nonappropriated Fund Instrumentalities Act (NFIA), 5 U.S.C. 8171 et seq.;

(6) Title IV, section 415 and Part C, of the Federal Coal Mine Health and Safety Act (FCMHSA), 83 Stat. 742, as amended by the Black Lung Benefits Act of 1972, 86 Stat. 150 (30 U.S.C. 901 et seq.).

##### § 801.103 Organizational placement.

As prescribed by the statute, the functions of the Benefits Review Board are quasi-judicial in nature and involve review of decisions made in the course of the administration of the above statutes by the Employment Standards Administration in the Department of Labor. It is accordingly found appropriate for organizational purposes to place the Board in the Office of the Under Secretary and it is hereby established in that Office, which shall be responsible for providing necessary funds, personnel, supplies, equipment, and records services for the Board.

##### § 801.104 Operational rules.

The Under Secretary may promulgate such rules and regulations as may be necessary or appropriate for effective operation of the Benefits Review Board as an independent quasi-judicial

body in accordance with the provisions of the statute.

#### MEMBERS OF THE BOARD

##### § 801.201 Composition of the Board.

(a) The Board is composed of three members appointed by the Secretary from among individuals who are especially qualified to serve thereon.

(b) The member designated by the Secretary as Chairman of the Board shall serve as chief administrative officer of the Board.

(c) The two remaining members shall be the associate members of the Board.

(d) All members of the Board shall serve indefinite terms to be determined in the discretion of the Secretary.

##### § 801.202 Interim appointments.

(a) *Acting Chairman.* In the event that the Chairman of the Board is temporarily unavailable to perform his duties as prescribed in this Chapter VII, he or the Board shall designate one associate member to serve as Acting Chairman for the duration of the Chairman's absence.

(b) *Temporary members.* In the event that a member of the Board is temporarily unable to carry out his responsibilities because of disqualification, illness, or for any other reason, the Under Secretary of Labor may, in his discretion, appoint a qualified individual to serve in the place of such member for the duration of that member's inability to serve.

##### § 801.203 Disqualification of Board members.

(a) During the period in which the Chairman or the other members serve on the Board, they shall not consider any matter in which they were involved prior to such period nor shall they be involved, other than as Board members, in any matter being considered by the Board. After completion of their service on the Board, they shall not become involved in any matter which had been considered by them as Board members.

(b) No Board member shall conduct or participate in any proceeding in a case in which he is prejudiced or partial with respect to any party, or where he has any interest in the matter pending for decision before him. Notice of any objection which a party may have to any Board member who will participate in the proceeding, shall be made by such party at his earliest opportunity. The Board member shall consider such objection and shall, in his discretion, either proceed with the case or withdraw.

#### ACTION BY THE BOARD

##### § 801.301 Quorum; votes.

For the purpose of carrying out its functions under the Acts, two members of the Board shall constitute a quorum, and official action can be taken only on the concurring vote of at least two members.

##### § 801.302 Procedural rules.

Procedural rules for performance by the Board of its review functions and for

insuring an adequate record for any judicial review of its orders, and such amendments to the rules as may be necessary from time to time, shall be promulgated by the Benefits Review Board with the approval of the Under Secretary. Such rules shall incorporate and implement the procedural requirements of section 21(b) of the Longshoremen's and Harbor Workers' Compensation Act, as amended by section 15 of Public Law 92-576.

##### § 801.303 Location of Board's proceedings.

The Board shall hold its proceedings in Washington, D.C., unless for good cause the Board orders that proceedings in a particular matter be held in another location.

#### REPRESENTATION

##### § 801.401 Representation before the Board.

On any issues requiring representation of the Secretary, the Director, Office of Workmen's Compensation Programs, a deputy commissioner, or an administrative law judge before the Board, such representation shall be provided by attorneys designated by the Solicitor of Labor. Representation of all other persons before the Board shall be as provided for by statute or by the rules of practice and procedure promulgated under § 801.302 (see Part 802 of this chapter).

##### § 801.402 Representation of Board in court proceedings.

Except in proceedings in the Supreme Court of the United States, any representation of the Benefits Review Board in court proceedings shall be by attorneys provided by the Solicitor of Labor.

The new Part 802 of Chapter VII of Title 20, CFR, reads as follows:

#### Subpart A—General Provisions

##### INTRODUCTORY

- 802.101 Purpose and scope of this part.
- 802.102 Applicability of Part 801 of this chapter.
- 802.103 Powers of the Board.
- 802.104 Consolidation; severance.
- 802.105 Stay of payment pending appeal.

##### Subpart B—Prereview Procedures

##### COMMENCING APPEAL: PARTIES

- 802.201 Who may file an appeal.
- 802.202 Appearances, attorneys; legal counsel.
- 802.203 Fees for services.

##### NOTICE OF APPEAL

- 802.204 Place for filing notice of appeal.
- 802.205 Time for filing.
- 802.206 When a notice of appeal is considered to have been filed in the office of the deputy commissioner.
- 802.207 Contents of notice of appeal.
- 802.208 Transmittal to the Board.

##### INITIAL PROCESSING

- 802.209 Acknowledgment of notice of appeal.
- 802.210 Petition for review.
- 802.211 Response to petition for review.
- 802.212 Reply briefs.
- 802.213 Intervention.
- 802.214 Additional briefs.

- 802.215 Service and form of papers, notices, and briefs.
- 802.216 Waiver of time limitations for filing.
- 802.217 Failure to file papers or documents.

##### Subpart C—Procedure for Review

##### ACTION BY THE BOARD

- 802.301 Scope of review.
- 802.302 Docketing of appeals.
- 802.303 Decision; no oral argument.

##### ORAL ARGUMENT BEFORE THE BOARD

- 802.304 Purpose of oral argument.
- 802.305 Request for oral argument.
- 802.306 Action on request for oral argument.
- 802.307 Notice of oral argument.
- 802.308 Conduct of oral argument.
- 802.309 Absence of parties.

##### Subpart D—Completion of Board Review

##### DISMISSALS

- 802.401 Dismissal by application of party.
- 802.402 Dismissal by abandonment.

##### DECISION OF THE BOARD

- 802.403 Issuance of decisions; service.
- 802.404 Scope and content of Board decisions.
- 802.405 Remand.
- 802.406 Finality of Board decisions.

##### RECONSIDERATION

- 802.407 Reconsideration of Board decisions—generally.
- 802.408 Notice of request for reconsideration.
- 802.409 Grant or denial of request.

##### JUDICIAL REVIEW

- 802.410 Judicial review of Board decisions.
- 802.411 Certification of record for judicial review.

**AUTHORITY:** The provisions of this Part 801 issued under sec. 16, 86 Stat. 1261 (33 U.S.C. 921); 5 U.S.C. 301; sec. 39, 44 Stat. 1442, as amended (33 U.S.C. 939); title IV, Federal Coal Mine Health and Safety Act of 1969, 83 Stat. 742, 30 U.S.C. 901 et seq., as amended by Public Law 92-503, 86 Stat. 158; Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1268, 5 U.S.C. App.; Secretary of Labor's Order No. 38-72, 38 FR 90; unless otherwise noted.

#### Subpart A—General Provisions

##### INTRODUCTORY

##### § 802.101 Purpose and scope of this part.

(a) The purpose of this Part 802 is to establish the rules of practice and procedure governing the operation of the Benefits Review Board.

(b) The rules promulgated in this part apply to all appeals taken by any party in interest from decisions or orders with respect to claims for compensation or benefits under the following Acts:

- (1) The Longshoremen's and Harbor Workers' Compensation Act (LHWCA), 33 U.S.C. 901 et seq.;
- (2) The Defense Base Act (DBA), 42 U.S.C. 1651 et seq.;
- (3) The District of Columbia Workmen's Compensation Act (DCCA), 36 D.C. Code 501 et seq.;
- (4) The Outer Continental Shelf Lands Act (OCSLA), 43 U.S.C. 1331;
- (5) The Nonappropriated Fund Instrumentalities Act (NFIA), 5 U.S.C. 8171 et seq.; and

(6) Title IV, section 415 and Part C, of the Federal Coal Mine Health and Safety Act (FCMHSA), 83 Stat. 742, as amended by the Black Lung Benefits Act of 1972, 86 Stat. 150.

##### § 802.102 Applicability of Part 801 of this chapter.

Part 801 of this Chapter VII sets forth rules of general applicability covering the composition, authority, and operation of the Benefits Review Board and definitions applicable to this chapter. The provisions of Part 801 of this chapter are fully applicable to this Part 802.

##### § 802.103 Powers of the Board.

(a) *Conduct of proceedings.* Pursuant to section 27(a) of the LHWCA, the Board shall have power to preserve and enforce order during any proceedings for determination or adjudication of entitlement to compensation or benefits or liability for payments thereof, and to do all things conformable to law which may be necessary to enable the Board to effectively discharge its duties.

(b) *Contumacy.* Pursuant to section 27(b) of the LHWCA, if any person in proceedings before the Board disobeys or resists any lawful order or process, or misbehaves during a hearing or so near the place thereof as to obstruct the same, the Board shall certify the facts to the Federal district court having jurisdiction in the place in which it is sitting (or to the U.S. District Court for the District of Columbia if it is sitting in the District) which shall thereupon in a summary manner hear the evidence as to the acts complained of, and, if the evidence so warrants, punish such person in the same manner and to the same extent as for a contempt committed before the court, or commit such person upon the same conditions as if the doing of the forbidden act had occurred with reference to the process or in the presence of the court.

(Sec. 27, 44 Stat. 1438, as amended (33 U.S.C. 927))

##### § 802.104 Consolidation; severance.

(a) Cases may be consolidated for purposes of an appeal upon the motion of any proper party or upon the Board's own motion where there exist common parties, common questions of law or fact or both, or in such other circumstances as justice and the administration of the Acts require.

(b) Upon its own motion, or upon motion of any proper party, the Board may, for good cause, order any proceeding severed with respect to some or all issues or parties.

##### § 802.105 Stay of payment pending appeal.

As provided in section 14(f) of the LHWCA and sections 415 and 422 of the FCMHSA, the payment of the amounts required by an award of compensation or benefits shall not be stayed or in any way delayed pending final decision in any proceeding before the Board unless so ordered by the Board. No stay shall be issued unless irreparable injury would

otherwise ensue to the employer, coal mine operator, or insurance carrier as the case may be. Any order of the Board permitting any stay shall contain a specific finding, based upon evidence submitted to the Board and identified by reference thereto, that irreparable injury would result to such employer, operator, or carrier and specifying the nature and extent of the injury.

(Sec. 14, 44 Stat. 1432, as amended (33 U.S.C. 914); sec. 15, 86 Stat. 1261 (33 U.S.C. 921 (b) (3)))

#### Subpart B—Prereview Procedures

##### COMMENCING APPEAL: PARTIES

##### § 802.201 Who may file an appeal.

(a) *Party in interest.* Any party in interest adversely affected or aggrieved by a decision or order issued pursuant to one of the Acts may appeal such decision or order to the Board by filing a notice of appeal pursuant to this subpart. Such party shall be deemed the petitioner. The Board shall not adjudicate appeals in respect of claims filed prior to July 1, 1973, under the FCMHSA.

(b) *Representative parties.* In the event that a party in interest has not attained the age of 18, is not mentally competent, or is physically unable to file and pursue or defend an appeal, the Board may permit any legally appointed guardian, committee, or other appropriate representative to file and pursue or defend the appeal, or it may in its discretion appoint such representative for purposes of the appeal. The Board may require any legally appointed representative to submit evidence of such appointment, or other evidence of a person's authority to represent the party in interest.

##### § 802.202 Appearances, attorneys; legal counsel.

(a) Any party or intervenor or duly authorized representative pursuant to § 802.201(b) may appear before and/or submit written argument to the Board by attorney or any other duly authorized person, including any representative of an employee organization. For each instance in which appearance before the Board is made by some person other than the party or his legal guardian, committee, or representative, there shall be filed with the Chairman of the Board a statement in writing, signed by the party to be represented, authorizing such assistance or representation.

(b) Any individual petitioner or respondent or his duly authorized representative pursuant to § 802.201(b) or an officer of any corporate party or a member of any partnership or joint venture which is a party may participate in the appeal on his own behalf, or on behalf of such business entity.

##### § 802.203 Fees for services.

(a) No fee for services rendered on behalf of a claimant in the pursuit of an appeal shall be valid unless approved pursuant to 33 U.S.C. 928 as amended and the regulations promulgated pursuant to the respective Acts (see §§ 702.132-702.135 and 725.404 of this title).

(b) All fees for services rendered in the pursuit of an appeal shall be subject to the provisions and prohibitions contained in section 28 of the LHWCA as amended (33 U.S.C. 928).

(Sec. 13, 86 Stat. 1259 (33 U.S.C. 928))

#### NOTICE OF APPEAL

#### § 802.204 Place for filing notice of appeal.

Any notice of appeal shall be mailed to, or otherwise presented at the office of the deputy commissioner for the compensation district in which the decision or order appealed from was filed.

#### § 802.205 Time for filing.

(a) Any notice of appeal must be filed within 30 days from the date upon which a decision or order has been filed in the office of the deputy commissioner pursuant to section 19(e) of the LHWCA.

(b) Failure to file within the period specified in paragraph (a) of this section shall constitute a waiver of all rights to review by the Board with respect to the case or matter in question.

#### § 802.206 When a notice of appeal is considered to have been filed in the office of the deputy commissioner.

(a) *Date of receipt.* (1) Except as otherwise provided in this section, a notice of appeal is considered to have been filed only as of the date it is received in the office of the appropriate deputy commissioner or by an employee of such office who is authorized to receive notices of appeal.

(2) Notices of appeal submitted to any other agency or subdivision of the Department of Labor or of the U.S. Government or any State government shall be promptly forwarded to any office of the Office of Workmen's Compensation Programs of the Department of Labor for appropriate routing to a deputy commissioner. Such notice shall be deemed filed with the deputy commissioner as of the date it was received by the other governmental unit if the Board finds that such determination is in the interest of justice.

(b) *Date of mailing.* If the notice is deposited in and transmitted by mail and the fixing of the date of delivery as the date of filing would result in a loss or impairment of appeal rights, it will be considered to have been filed as of the date of mailing. The date appearing on the postmark (when available and legible) shall be prima facie evidence of the date of mailing. If there is no postmark or it is not legible, other evidence may be used to establish the mailing date.

#### § 802.207 Contents of notice of appeal.

(a) A notice of appeal should contain the following information:

(1) The full name and address of the petitioner;

(2) The full name of the injured, disabled, or deceased employee;

(3) The full names and addresses of all other parties in interest including, among others, beneficiaries, employers,

coal mine operators, and insurance carriers where appropriate;

(4) The case file number;

(5) The date of filing the decision or order being appealed; and

(6) If the petitioner is being represented by another person in the proceeding, the name and address of such representative should be stated.

(b) Paragraph (a) of this section notwithstanding, any written communication which reasonably permits identification of the decision from which an appeal is sought and the parties affected or aggrieved thereby, shall be sufficient notice for purposes of § 802.205.

(c) In the event that identification of the case is not possible from the information submitted, the deputy commissioner shall so notify the petitioner and shall give such person a reasonable time to produce sufficient information to permit identification of the case. For purposes of § 802.205, the notice shall be deemed to have been filed as of the date the insufficient information was received.

#### § 802.208 Transmittal to the Board.

Upon receipt of a notice of appeal, the deputy commissioner shall, within no more than 5 days, forward the notice together with the official record of the case, including the transcript or transcripts of all prior formal proceedings in the case, all decisions and orders rendered in respect of the case, all stipulations made by any party or parties, and any other pertinent records or documents to the Clerk of the Board, U.S. Department of Labor in Washington, D.C.

#### INITIAL PROCESSING

#### § 802.209 Acknowledgment of notice of appeal.

Upon receipt by the Board of a notice of appeal and accompanying documents pursuant to § 802.208, the Board shall as expeditiously as possible notify the petitioner and the Office of the Solicitor of Labor in writing that such notice has been filed.

#### § 802.210 Petition for review.

(a) Within 30 days after the receipt of an acknowledgment of a notice of appeal issued pursuant to § 802.209, the petitioner shall submit a petition for review to the Board and shall serve copies of such petition together with accompanying documents by certified mail on all parties in interest and the Solicitor of Labor. A petition for review shall contain a statement indicating the specific contentions of the petitioner and describing with particularity the substantial questions of law or fact to be raised by the appeal. Failure to submit a petition for review within the 30-day period described in this section may in the discretion of the Board cause the appeal to be deemed abandoned (see § 802.402).

(b) Each petition for review shall be accompanied by a brief, memorandum of law, or other statement in support thereof.

(c) The time periods specified for submitting papers or documents described in this subpart, except that for submitting notice of appeal, may be extended for a reasonable period when, in the judgment of the Chairman, such extension is warranted.

(d) Any request for an extension of time pursuant to this section shall be directed to the Chairman and must be received by him on or prior to the date on which the pleading is due.

#### § 802.211 Response to petition for review.

Within 30 days after the receipt of a petition for review, each party upon whom such petition has been served shall submit to the Board a brief, memorandum, or other statement in response thereto.

#### § 802.212 Reply briefs.

Within 20 days after the receipt of a brief, memorandum, or statement submitted in response to the petition for review pursuant to § 802.211, any party upon whom such brief, memorandum, or statement has been served may file a reply brief, memorandum, or statement in reply thereto.

#### § 802.213 Intervention.

The Board may permit any person or legal entity whose rights may be affected by any proceeding before the Board to intervene therein whenever such person shows in a written petition to intervene that such rights are so affected. The petition should state with precision and particularity (a) the rights, affected; and (b) the nature of any argument he intends to make. The extent to which any such person or legal entity may participate in proceedings before the Board shall be determined by the Board in its discretion.

#### § 802.214 Additional briefs.

Additional cross pleadings and reply briefs may be filed or ordered in the discretion of the Board and must be submitted within time limits specified by the Board.

#### § 802.215 Service and form of papers, notices, and briefs.

(a) Copies of all briefs or other statements submitted to the Board shall be served on each party in interest and the Solicitor of Labor by the party submitting such brief or other statement.

(b) Any notice, order, brief, or pleading required to be given or served to or by the Board or to or by any party shall be prepared in a form acceptable to the Board and shall be given or served by certified or registered mail or by personal service. Proof of service shall be submitted to the Board and filed as part of the appeal record.

(c) Whenever a paper or document is served on the Board or on any party by mail, 3 days shall be added to the specified period within which the reply to such paper or document is required to be submitted.

#### § 802.216 Waiver of time limitations for filing.

(a) The time periods specified for submitting papers or documents described in this subpart, except that for submitting notice of appeal, may be extended for a reasonable period when, in the judgment of the Chairman, such extension is warranted.

(b) Any request for an extension of time pursuant to this section shall be directed to the Chairman and must be received by him on or prior to the date on which the pleading is due.

#### § 802.217 Failure to file papers or documents.

Failure to file any paper or document when due pursuant to this subpart, may, in the discretion of the Board, constitute a waiver of the right to further participation in the proceedings.

#### Subpart C—Procedure for Review

##### ACTION BY THE BOARD

#### § 802.301 Scope of review.

The Benefits Review Board is not empowered to engage in a de novo proceeding or unrestricted review of a case brought before it. The Board is authorized to review the findings of fact and conclusions of law upon which the decision or order appealed from was based. Such findings of fact and conclusions of law may be set aside only if they are not, in the judgment of the Board, supported by substantial evidence contained in the record considered as a whole.

#### § 802.302 Docketing of appeals.

(a) *Maintenance of dockets.* A docket of all proceedings shall be maintained by the Board. Each proceeding shall be assigned a number in chronological order upon the date on which a notice of appeal is received. Each proceeding shall be generally considered in the order in which it is docketed, although for good cause shown the Board may advance the order in which a particular case is to be considered. Correspondence or further applications in connection with any pending case shall refer to the docket number of that case.

(b) *Inspection of docket; publication of decision.* The docket of the Board shall be open to public inspection. The Board shall publish its decisions in such form as to be readily available for inspection, and shall allow the public inspection thereof at the permanent location of the Board.

#### § 802.303 Decision; no oral argument.

In the event that no oral argument is ordered pursuant to § 802.305, the Board shall proceed to review the record of the case as expeditiously as possible after all briefs, stipulations, supporting statements, and other pertinent documents have been received. Thereafter, the Board shall render a decision in respect of the case pursuant to Subpart D of this part.

##### ORAL ARGUMENT BEFORE THE BOARD

#### § 802.304 Purpose of oral argument.

Oral argument may be held by the Board in any case in which such argument might serve:

(a) To clarify the issue or issues on appeal; or

(b) To narrow questions of law or fact upon which the Board must render a decision; or

(c) To expedite the final resolution of the case; or

(d) When in the interest of justice such an argument will serve to assist the Board in carrying out the intent of any of the Acts.

#### § 802.305 Request for oral argument.

At any time prior to the issuance of a decision by the Board, any party or intervenor or the Secretary may request an oral argument, or the Board, on its own motion, order an oral argument. Requests shall be directed to the Chairman of the Board in Washington, D.C.

#### § 802.306 Action on request for oral argument.

Within 10 days from the date upon which a request for oral argument is received by the Chairman, the Board shall determine whether the request shall be approved or denied.

#### § 802.307 Notice of oral argument.

In cases where a request for an oral argument has been approved or where an oral hearing has been ordered by the Board, all parties and intervenors shall be given a minimum of 10 days' notice, in writing, by certified mail, of the time and place of the argument.

#### § 802.308 Conduct of oral argument.

(a) Oral argument shall be held in Washington, D.C., unless the Board orders otherwise, and shall be conducted at a time reasonably convenient to the parties. For good cause shown, the Chairman or Acting Chairman may, in his discretion, postpone an oral argument to a more convenient time.

(b) The proceedings shall be conducted under the supervision of the Chairman or Acting Chairman, who shall regulate all procedural matters arising during the course of the argument.

(c) Within the discretion of the Board, oral argument may be presented by any party, intervenor, representative, or duly authorized attorney, and shall be open to the public.

(d) The Board shall determine the scope of any oral argument presented.

#### § 802.309 Absence of parties.

The unexcused absence of a party or his authorized representative at the time and place set for argument shall not be the occasion for delay of the proceeding. In such event, argument on behalf of other parties may be heard and the case shall be regarded as submitted on the record by the absent party. The Chairman or Acting Chairman may, with the consent of the party present, cancel the oral argument and treat the appeal as submitted on the written record.

#### Subpart D—Completion of Board Review

##### DISMISSALS

#### § 802.401 Dismissal by application of party.

(a) At any time prior to the issuance of a decision by the Board, the petitioner may move that the appeal be dismissed. Such motion for dismissal shall be granted with prejudice to the petitioner.

(b) At any time prior to the issuance of a decision by the Board, any party may move that the appeal be dismissed for cause.

#### § 802.402 Dismissal by abandonment.

(a) Upon motion by any party or representative or upon the Board's own motion, an appeal may be dismissed upon its abandonment by the party or parties who filed such appeal. Within the discretion of the Board, a party shall be deemed to have abandoned an appeal if neither the party nor his representative participates significantly in the review proceedings.

(b) Review proceedings may be dismissed upon the death of a party only if the record affirmatively shows that there is no individual who wishes to continue the action whose rights may be prejudiced by such dismissal.

##### DECISION OF THE BOARD

#### § 802.403 Issuance of decisions; service.

(a) The Board shall issue written decisions as expeditiously as possible after the completion of review proceedings before the Board. The transmittal of the decision of the Board shall indicate the availability of judicial review of such decisions under section 21(c) of the LHWCA.

(b) The original of the decision shall be filed with the Clerk of the Board. A copy of the Board's decision shall be sent by certified mail or served personally on all parties to the appeal and the Director. The record on appeal, together with a transcript of any oral proceedings, any briefs or documents filed with the Board, and a copy of the decision shall be returned to the appropriate deputy commissioner for filing.

(c) Proof of service of Board decisions shall be certified by the Clerk of the Board.

#### § 802.404 Scope and content of Board decisions.

In its decision the Board shall affirm, modify, or set aside the decision or order appealed from, and may remand the case for action or proceedings not inconsistent with the decision of the Board. The consent of the parties shall not be a prerequisite to a remand ordered by the Board.

#### § 802.405 Remand.

(a) *By the Board.* Where a case is remanded such additional proceedings shall be initiated and such other action shall be taken as is directed by the Board. Upon completion of all action deemed appropriate, a decision in writing shall be issued by the deputy commissioner or judge to whom the case was remanded as expeditiously as possible which contains findings of fact and conclusions of law, or when so directed by the Board, the case shall be returned to the Board by such deputy commissioner or judge with a recommended decision. A copy of the recommended decision shall be mailed to each party at his last known address. When a recommended decision is issued, each party shall be notified of his right to file with the Board within 20 days from the date of mailing of the recommended decision, briefs, or other

## RULES AND REGULATIONS

written statements of exceptions and allegations as to applicable fact and law. Upon request of any party made within such 20-day period, a reasonable extension of time for filing such briefs or statements may be granted and upon a showing of good cause such period may be extended, as appropriate.

(b) *By a court.* Where a case has been remanded by a court, the Board may proceed in accordance with the court's mandate to issue a decision or it may in turn remand the case to a deputy commissioner or judge with instructions to take such action as is ordered by the court and any additional necessary action and upon completion thereof to return the case with a recommended decision to the Board for its action.

## § 802.406 Finality of Board decisions.

A decision rendered by the Board pursuant to this subpart shall become final 60 days after the issuance of such decision unless an appeal pursuant to section 21(c) of the LHWCA is filed prior to the expiration of the 60-day period herein described, or unless a timely request for reconsideration by the Board has been filed as provided in § 802.407.

## RECONSIDERATION

## § 802.407 Reconsideration of Board decisions—generally.

(a) Any party in interest may, within no more than 10 days from the filing of a decision pursuant to § 802.403(b) request a reconsideration of such decision.

(b) Failure to file a request for reconsideration shall not be deemed a failure to exhaust administrative remedies.

## § 802.408 Notice of request for reconsideration.

(a) In the event that a party in interest requests reconsideration of a final decision and order, he shall do so in writing, stating the supporting rationale for the request and include any material pertinent to the request.

(b) The request shall be sent or delivered in person to the Clerk of the Board, and copies shall be served upon the parties.

## § 802.409 Grant or denial of request.

All requests for reconsideration shall be reviewed by the Board and shall be granted or denied in the discretion of the Board.

## JUDICIAL REVIEW

## § 802.410 Judicial review of Board decisions.

Within 60 days after a decision by the Board has been filed pursuant to § 802.403(b), any party adversely affected or aggrieved by such decision may take an appeal to the U.S. Court of Appeals pursuant to section 21(c) of the LHWCA.

## § 802.411 Certification of record for judicial review.

The record of a case including the record of proceedings before the Board shall be transmitted to the appropriate

court pursuant to the rules of such court.

Signed at Washington, D.C., this 1st day of March 1973.

PETER J. BRENNAN,  
Secretary of Labor.

Title 29—Labor  
CHAPTER I—NATIONAL LABOR  
RELATIONS BOARD  
PART 103—OTHER RULES  
Jurisdictional Standards Applicable to  
Symphony Orchestras

By virtue of the authority vested in it by the National Labor Relations Act, approved July 5, 1935,<sup>1</sup> the National Labor Relations Board hereby issues the following rule which it finds necessary to carry out the provisions of said Act.

This rule is issued following proceedings conforming to the requirements of 5 U.S.C. 553 in which notice was given that any rule adopted would be immediately applicable. On August 19, 1972, the Board published notice of proposed rule making requesting responses from interested parties with respect to the assertion of jurisdiction over symphony orchestras and the establishment of jurisdictional standards therefor. The Board having considered the responses and its discretion under sections 9 and 10 of the Act has decided to adopt a rule asserting jurisdiction over any symphony orchestra having a gross annual revenue of not less than \$1 million. The National Labor Relations Board finds for good cause that this rule shall be effective on March 7, 1973, and shall apply to all proceedings affected thereby which are pending at the time of such publication or which may arise thereafter.

Dated at Washington, D.C., March 2, 1973.

By direction of the Board.

[SEAL] JOHN C. TRUESDALE,  
Executive Secretary.

On August 19, 1972, the Board published in the FEDERAL REGISTER, a notice of proposed rule making which invited interested parties to submit to it (1) data relevant to defining the extent to which symphony orchestras are in commerce, as defined in section 2(6) of the National Labor Relations Act, and to assessing the effect upon commerce of a labor dispute in those enterprises, (2) statements of views or arguments as to the desirability of the Board exercising jurisdiction, and (3) data and views concerning the appropriate jurisdictional standards which should be established in the event the Board decides to promulgate a rule exercising jurisdiction over those enterprises. The Board received 26 responses to the notice. After careful

<sup>1</sup> 49 Stat. 449; 29 U.S.C. 151-166, as amended by act of June 23, 1947 (61 Stat. 136); 29 U.S.C. Supp. 151-167, act of Oct. 22, 1951 (65 Stat. 601); 29 U.S.C. 158, 160, 168, and act of Sept. 14, 1959 (73 Stat. 519); 29 U.S.C. 141-168).

consideration of all the responses, the Board has concluded that it will best effectuate the purposes of the Act to assert jurisdiction over symphony orchestras and apply a \$1 million annual gross revenue standard, in addition to statutory jurisdiction. A rule establishing that standard has been issued concurrently with the publication of this notice.

It is well settled that the National Labor Relations Act gives to the Board a jurisdictional authority coextensive with the full reach of the commerce clause.<sup>2</sup> It is equally well settled that the Board in its discretion may set boundaries on the exercise of that authority.<sup>3</sup> In exercising that discretion, the Board has consistently taken the position that it would better effectuate the purposes of the Act, and promote the prompt handling of major cases, not to exercise its jurisdiction to the fullest extent possible under the authority delegated to it by Congress, but to limit that exercise to enterprises whose operations have, or at which labor disputes would have, a pronounced impact upon the flow of interstate commerce.<sup>4</sup> The standard announced above, in our opinion, accommodates this position.

The Board, in arriving at a \$1 million gross figure,<sup>5</sup> has considered, inter alia, the impact of symphony orchestras on commerce and the aspects of orchestra operations as criteria for the exercise of jurisdiction. Symphony orchestras in the United States are classified in four categories: college, community, metropolitan, and major.<sup>6</sup> Community orchestras constitute the largest group with over 1,000 in number and, for the most part, are composed of amateur players. The metropolitan orchestras are almost exclusively professional and it is estimated that there are between 75 and 80 orchestras classified as metropolitan. The annual budget for this category ranges approximately from \$250,000 to \$1 million. The major orchestras are the largest and usually the oldest established musical organizations. All of them are completely professional, and a substantial number

<sup>2</sup> See N.L.R.B. v. Fainblatt, 306 U.S. 601.

<sup>3</sup> Office Employees International Union, Local No. 11 (Oregon Teamsters) v. N.L.R.B., 353 U.S. 313; sec. 14(c) (1) of the Act.

<sup>4</sup> Siemens Mailing Service, 122 NLRB 81; Hollow Tree Lumber Company, 91 NLRB 635, 636. See also, e.g., Floridan Hotel of Tampa, Inc., 124 NLRB 261, 264; Butte Medical Properties, d.b.a. Medical Center Hospital, 168 NLRB 268, 268.

<sup>5</sup> As reflected in the rule, this figure includes revenues from all sources, excepting only contributions which, because of limitations placed thereon by the grantor, are not available for operating expenses. These contributions encompassing, for example, contributions to an endowment fund or building fund, are excluded because of their generally nonrecurring nature. (Cf. Magic Mountain, Inc., 123 NLRB 1170.) Income derived from investment of such funds will, however, be counted in determining whether the standard has been satisfied.

<sup>6</sup> The latter three categories are defined by the American Symphony Orchestra League principally on the basis of their annual budgets.

operates on a year-round basis. For this category the minimum annual budget is approximately \$1 million. Presently, there are approximately 28 major symphony orchestras in the United States. Thus, statistical projections based on data submitted by responding parties, as well as data compiled by the Board, disclose that adoption of such a standard would bring approximately 2 percent of all symphony orchestras, except college, or approximately 28 percent of the professional metropolitan and major orchestras, within reach of the Act. The Board is satisfied that symphony orchestras with gross revenues of \$1 million have a substantial impact on commerce and that the figure selected will not result in an unmanageable increase on the Board's workload. The adoption of a \$1 million standard, however, does not foreclose the Board from reevaluating and revising that standard should future circumstances deem it appropriate.

In view of the foregoing, the Board is satisfied that the \$1 million annual gross revenue standard announced today will result in attaining uniform and effective regulation of labor disputes involving employees in the symphony orchestra industry whose operations have a substantial impact on interstate commerce.

## § 103.2 Symphony Orchestras.

The Board will assert its jurisdiction in any proceeding arising under sections 8, 9, and 10 of the Act involving any symphony orchestra which has a gross annual revenue from all sources (excluding only contributions which are because of limitation by the grantor not available for use for operating expenses) of not less than \$1 million.

CHAPTER XVII—OCCUPATIONAL SAFETY  
AND HEALTH ADMINISTRATION, DE-  
PARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS  
FOR ENFORCEMENT OF STATE STAND-  
ARDS

New Jersey Plan; Plan Description;  
Amendment

In a document issued by this office on January 22, 1973, and published in the FEDERAL REGISTER on January 26, 1973 (37 FR 2426), the New Jersey developmental plan to assume responsibility for the development and enforcement of State occupational safety and health standards in accordance with Part 1902 of Title 29 of the Code of Federal Regulations and section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) was approved.

Provisions of that plan require that owners of any structures to be erected and used as places of employment submit plans for approval and comply with specific provisions of special State building codes. However, the decision did not indicate that the pertinent safety and health codes (N.J.A.C. 12:115—Building Code and N.J.A.C. 12:116—Plan Filing) have as their stated and clear purpose

the protection of employees even though the codes may afford some incidental protection to others. Codes that more directly concern other matters such as the protection of the environment and the public at large are properly not incorporated in the plan, and are dealt with elsewhere by the State of New Jersey and its political subdivisions.

The description of the plan in § 1952.140(b) is accordingly amended to indicate these features of the codes involved by adding a new subparagraph (3) to read as follows:

## § 1952.140 Description of the plan.

(b) . . . . .  
(3) Safety and health codes which are established by the State of New Jersey to protect employees and which incidentally protect others are considered occupational safety and health standards for the purposes of this subpart.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Washington, D.C., this 1st day of March 1973.

CHAM ROBBINS,  
Acting Assistant Secretary of Labor.

Title 41—Public Contracts and Property  
Management

CHAPTER 3—DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE

PART 3-16—PROCUREMENT FORMS

Subpart 3-16.8—Miscellaneous Forms

Chapter 3, Title 41, Code of Federal Regulations is amended as set forth below. The purpose of this amendment is to inform the public of HEW's use of miscellaneous procurement forms.

It is the general policy of the Department of Health, Education, and Welfare to allow time for interested parties to take part in the rule making process. However, since the amendment herein involves minor technical matters, the public rule making process is deemed unnecessary in this instance.

1. The table of contents of Part 3-16 is amended to add Subpart 3-16.8 as follows:

Subpart 3-16.8—Miscellaneous Forms  
3-16.804 Report on procurement.  
3-16.804-2 Agencies required to report.  
3-16.804-3 Standard Form 37, Report on Procurement by Civilian Executive Agencies.  
3-16.852 Equal Opportunity Clause (HEW-386).  
3-16.853 Request for Equal Opportunity Clearance of Contract Award (HEW-511).  
3-16.854 Notice to Prospective Bidders (HEW-512).  
3-16.855 Transmittal Letter (HEW-513).  
3-16.856 Procurement Activity Report.

AUTHORITY: 5 U.S.C. 301; 40 U.S.C. 486(c).

## Subpart 3-16.8—Miscellaneous Forms

2. Subpart 3-16.8 is added to read as follows:

§ 3-16.804 Report on procurement.  
§ 3-16.804-2 Agencies required to report.

Each operating agency, the Office of Regional and Community Development, and the Office of Administrative Services, OS-OASAM, shall report its procurement to the Office of Procurement and Materiel Management, OS-OASAM, for the organization as a whole.

§ 3-16.804-3 Standard Form 37, Report on Procurement by Civilian Agencies.

(a)-(e) [Reserved]  
(f) Frequency and due date for submission of Standard Form 37. Each report shall be submitted in the original and three copies to arrive at OPMM not later than 30 calendar days after the close of each reporting period.

§ 3-16.852 Equal Opportunity Clause (HEW-386).

Use Form HEW-386, Equal Opportunity Clause, if it is prescribed.

§ 3-16.853 Request for Equal Opportunity Clearance of Contract Award.

Form HEW-511, Request for Equal Opportunity Clearance of Contract Award, is prescribed for use in communicating and transmitting information between the contracting officer and the Office of Civil Rights.

§ 3-16.854 Notice to Prospective Bidders (HEW-512).

Form HEW-512, Notice to Prospective Bidders, is prescribed for use with invitation for bids when bids are estimated to exceed \$10,000.

§ 3-16.855 Transmittal Letter (HEW-513).

Form HEW-513, Transmittal Letter, is prescribed for transmitting awards which are subject to the Equal Opportunity clause.

§ 3-16.856 Procurement Activity Report.

(a) General. The Procurement Activity Report is designed to provide the Department with essential procurement records and statistics necessary for procurement management purposes and to

## RULES AND REGULATIONS

serve as a basis for special reports required by the Congress, the General Accounting Office, the Small Business Administration, and other Federal Agencies.

(b) *Activities required to report.* Each operating agency, the Office of Regional and Community Development, and the Office of Administrative Services, OS-OASAM, shall report procurements for their organization as a whole.

(c) *Form prescribed.* Form HEW-522, Procurement Activity Report, is prescribed for use when reporting procurement in accordance with this section.

(d) *Frequency and due date.* Reports shall be submitted on a fiscal year basis (original and three copies) within 30 calendar days after the close of each reporting period to the Office of Procurement and Materiel Management, OS-OASAM, Room 3340, HEW North Building, Washington, D.C.

*Effective date.* This amendment shall be effective on March 7, 1973.

Dated: March 1, 1973.

N. B. HOUSTON,  
Deputy Assistant Secretary  
for Administration.

[FR Doc. 73-4377 Filed 3-6-73; 8:45 am]

## PART 3-50—ADMINISTRATIVE MATTERS

## Subpart 3-50.5—Closing Completed Contracts

On December 23, 1972, a notice of proposed rule making was published in the *FEDERAL REGISTER* (37 FR 28428) stating that the Department of Health, Education, and Welfare was considering an amendment to 41 CFR Chapter 3, by adding a new Subpart 3-50.5, Closing Completed Contracts. The purpose of the amendment is to prescribe policy relative to closing completed contract files.

Interested persons were invited to submit written data, views, or comments, within 30 days after publication. Written comments were received, and after due consideration of the views presented, the regulation is revised and adopted subject to minor changes as set forth below:

1. Paragraph (a) of § 3-50.502-1, is changed by inserting after the word "determine" the words "as applicable";
2. Subparagraph (6) of § 3-50.502-4 (a), is changed by deleting after the word "property" the word "and";
3. Subparagraph (7) of § 3-50.502-4 (a), is changed by adding after the word "appropriate" the word "and";
4. Paragraph (a) of § 3-50.502-4, is changed by adding subparagraph (8). A copy of the letter requesting an audit when required by § 1-8.207.

*Effective date.* These regulations shall be effective on March 7, 1973.

Dated: February 27, 1973.

N. B. HOUSTON,  
Deputy Assistant Secretary  
for Administration.

## Subpart 3-50.5—Closing Completed Contracts

Sec.	
3-50.500	Scope of subpart.
3-50.501	Definition.
3-50.502	Policy.

Sec.	
3-50.502-1	Closing review.
3-50.502-2	Contract closing memorandum.
3-50.502-3	Audit.
3-50.502-4	Termination.

AUTHORITY: 5 U.S.C. 301; 40 U.S.C. 486(c).

## Subpart 3-50.5—Closing Completed Contracts

## § 3-50.500—Scope of subpart.

This subpart establishes policy for closing HEW contract files when all contract performance is completed or terminated.

## § 3-50.501—Definition.

A completed contract is one which is both physically and administratively complete and in which all aspects of contractual performance have been accomplished or formally waived. A contract is physically completed when all services called for under the contract have been rendered and all articles, material, reports, data, exhibits, etc., have been delivered and accepted by the Government. A contract is administratively complete when all administrative actions have been accomplished, all releases executed, and final payment made. Contract performance is terminated when a notice of termination is issued under the "Termination Article" incorporated into the contract.

## § 3-50.502—Policy.

## § 3-50.502-1—Closing review.

(a) Upon physical completion, the contract and contract file shall be reviewed to determine, as applicable, that:

- (1) All services (i.e., tasks, work effort, etc.) have been rendered;
- (2) All articles (i.e., contract and items, reports, data, exhibits, etc.) have been delivered and accepted;
- (3) All payments and collections have been accomplished;
- (4) Release from liabilities, obligations, and claims have been obtained from the contractor;
- (5) Assignment of refunds, rebates, credits, etc., have been executed by the contractor;
- (6) All administrative actions have been accomplished, including the settlement of disputes, protests, litigation; determination of final overhead rates; release of funds; disposal of property, etc.; and
- (7) The file is documented as prescribed in § 1-3.131.

(b) As a minimum, the closing review will insure that the contract file contains, or that action is initiated to obtain copies of:

- (1) *Inspection and acceptance documents.* Inspection and acceptance documents or a statement from program personnel that all services and deliveries required by the contract have been performed or delivered in accordance with the terms of the contract and are acceptable to the Government. All discrepancies in actual performance or delivery with contract requirements must be reconciled before the contract file is closed.

(2) *Public vouchers and contractor invoices which support advance, partial, progress, and final payments.* No contract file may be closed or final payment made until (i) all questions of disallowed

or suspended costs are settled; (ii) the "completion voucher" and the cumulative claim and reconciliation statement is verified; (iii) all discrepancies are resolved between payments and deliveries or performance, and between billings and payments; (iv) final overhead rates are established and set forth in a contract modification; (v) assignments of refunds, rebates, credits, and other amounts are executed; (vi) final release of claims is received from the contractor; and (vii) partial or complete termination settlements are set forth in a supplemental agreement and payment or collection made.

(3) *Subcontract approvals.* A copy of each subcontract approved or ratified by the contracting officer, together with the letter or document of approval and the subcontract review memorandum, must be retained in the contract file. If approval of individual subcontracts is waived by approval of the contractor's purchasing system, a copy of or a specific reference to the purchasing system approval must be included in the contract file. Unresolved disputes between prime and subcontractors must be resolved before the prime contract file can be closed; unless the prime contractor releases the Government from any obligation relating to the subcontractor claim.

(4) *Contract modifications.* Before a contract can be closed, all additions or changes to the terms, conditions, or administrative recitals must be formalized by an appropriate supplemental agreement or unilateral change order. Timely action must be taken to formalize adjustment of price, estimated cost, or fee when required by special contract provisions, e.g., price determination, incentive clauses, escalation, partial, or complete termination settlements, etc. Contracting officers must be aware that they have no authority and shall not give, make, or execute any kind of release of claim or obligation to the contractor except by formal modification of the contract.

(5) *Inventory and disposition of Government-owned property.* All Government-owned property, real or personal, either furnished by the Government or acquired by the contractor for the account of the Government, must be accounted for and disposed of at physical completion of the contract. The contract file shall not be closed until the inventory of all such Government-owned property is verified and a complete record of the disposition of all property is placed in the file.

(6) *Approval of contractor systems (policies and procedures) and agreements.* Individual copies of the following must be placed in the contract file prior to closing: (i) System approvals (i.e., accounting, estimating, purchasing, property management, quality assurance, maintenance, etc.); (ii) advance understanding on particular items of cost identified in § 1-15.107 (i.e., IR&D, employee compensation, travel, insurance plans, precontract costs, etc.); and (iii) other agreements relating to contract performance.

(7) *Clearance and reports.* Copies of appropriate clearances and reports relating to inventories, patents, royalties,

copyright, publications, tax exemptions, etc., must be included in the official contract file. Also the file must contain copies of inquiries and answers and reports to and from sources such as the Congress, the General Accounting Office, audit activities, etc.

(8) *Delegations of authority.* Copies of letters delegating contract administration (i.e., technical directions, quality control, inspection and acceptance, property management, subcontract approval, etc.) must be included in the official contract file together with the delegation file or a statement that all delegated actions were completed satisfactorily.

## § 3-50.502-2—Contract closing memorandum.

Verification that all contract performance is completed and that all contract actions have been fully documented shall be set forth in a closing memorandum. The memorandum may take the form of a checklist of contract actions applicable to the type of contract involved (see §§ 3-1.313 and 3-50.502-1). Operating agencies will design and prescribe the form and contents of such closing checklists. Sample copies of closing checklists and any agency implementing instructions (and subsequent changes thereto) shall be furnished to the Director, Office of Procurement and Materiel Management, OSAM.

## § 3-50.502-3—Audit.

Before final payment is made under a cost-reimbursable type contract, there must be assurance as to the allowability of all costs incurred under the contract.

(a) *Contracts under \$50,000.*  
(1) Prior to final payment of each cost-type contract under \$50,000 the contracting officer shall determine or cause to be determined the allowability of costs claimed through the conduct of a desk audit (but see § 3-50.502-3(c)). The file will be documented to show that a desk audit has been performed. Unless there are cost questions which cannot be resolved by the contracting officer, final payment will be made subject to audit provided all other actions necessary to complete the contract have been accomplished and fully documented (see § 3-50.502-2). The release to be executed by the contractor should provide as follows:

The contractor agrees, pursuant to the clause in this contract entitled Allowable Cost (for cost reimbursement contracts) or Allowable Cost and Fixed Fee (for CPFF contracts), that the amount of any sustained audit exceptions resulting from any subsequent audit made after final payment will be refunded to the Government.

(2) The "desk audit" may include but need not be limited to:

(i) A review of the contract provisions, e.g., negotiated overhead rates clause, advance understandings on particular items of cost identified in § 1-15.107.

(ii) A review of vouchers to determine, if possible, that some types of labor claimed may not be necessary in the performance of the contract and the reasonableness of material, travel and per diem costs.

(iii) A determination that overtime was approved.

## RULES AND REGULATIONS

(iv) A review of previous available audit reports to determine what adjustments, if any, were made and may be applicable to the contract under review and discussions with the cognizant government auditor when considered appropriate.

(3) The above procedure shall be followed unless the contracting officer determines that a desk audit is not appropriate and states in writing his decision as to the need for an audit of the contractor's books and records.

(b) Contracts of \$50,000 and above: Prior to final payment of each cost type contract of \$50,000 and above, the Audit Agency will notify the contracting officer that an audit has been completed. Notification may take one of the following forms:

(1) In the case of universities and other entities awarded numerous grants and contracts, a single audit report will usually be issued on grantee/contractor operations for the specified fiscal period(s) covered by the audit. All grant and contract activity, including contracts completed during this period, will be covered by the single audit report. The audit report contains statements describing the purpose of the audit, audit scope, period covered, and problems disclosed by the audit, including recommended adjustments to costs claimed for individual contracts or grants. Often there will be contracts completed during the period covered by the audit which are not singled out in the audit report for financial adjustment. In such cases, the audit report represents a basis for closing those contracts physically completed during the period, provided all other actions necessary to complete the contract have been accomplished and fully documented (see § 3-50.502-2).

(2) In the case of other entities holding few contracts or grants (and in some cases because of special problems with an individual contract or grant) the audit report(s) will usually cover the period of individual grants and contracts, based on an audit of these contracts and grants. These audit reports represent a basis, after decisions on any financial adjustments recommended by the audit, for closing the contracts physically completed during the period covered by the report, provided all other actions necessary to complete the contract have been accomplished and fully documented (see § 3-50.502-2).

(c) Verification of actual costs must be made by the Audit Agency for cost type contracts with incentive provisions and fixed price contracts when cost incentive or price redetermination is involved. Termination settlement proposals shall be submitted for review by the cognizant Audit Agency as prescribed in § 1-8.207.

## § 3-50.502-4—Termination.

(a) All material relating to the terminated portion of a contract shall be maintained in a "termination file," separate from the contract file. After final settlement and payment or collection of all termination claims, the "termination file" shall be reviewed to ensure that the file contains documentation to support all actions relating to the settlement and

to the disposition of Government-owned property. Documentation of the file shall include:

- (1) Request for termination action or a statement of reasons for the termination;
  - (2) Notice of termination and instructions to contractor, and notice to General Accounting Office as prescribed by § 1-8.403;
  - (3) Correspondence with contractor and records of all discussions, meetings, and negotiations;
  - (4) Copies of all settlement proposals and accounting reviews and analysis thereof;
  - (5) Records and approvals of subcontractor settlements;
  - (6) Inventory schedules and records of disposal of Government-owned property;
  - (7) Settlement agreements, records of exceptions, and contracting officer determinations, as appropriate; and
  - (8) A copy of the letter requesting an audit when required by § 1-8.207.
- (b) After all termination actions are completed and the "termination file" is closed, it shall be filed as a component of the contract file.

[FR Doc. 73-4375 Filed 3-6-73; 8:45 am]

## CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

## PART 5A-1—GENERAL

## Subpart 5A-1.12—Responsible Prospective Contractors

## INFORMATION REGARDING RESPONSIBILITY OF BIDDERS AND CONTRACTORS

This change outlines procedures for requesting or reporting information on bidders and contractors suspected or known to be affiliated or involved with organized crime.

Section 5A-1.1205-3(c) is revised to read as follows:

## § 5A-1.1205-3—Information regarding responsibility.

(c) The following procedures shall be used for requesting or reporting information on bidders or contractors suspected or known to be affiliated or involved with organized crime:

- (1) Where there is a doubt in the mind of the contracting officer as to whether a firm is involved with organized crime, additional information shall be requested from the Office of Investigations (BI). Requests for such information shall be processed on GSA Form 2713, Records Check and Inquiry on Bidders and Contractors, in accordance with the instructions on the form. (See § 5A-16.950-2713.) Concurrently, a copy of the GSA Form 2713 shall be furnished to the Assistant Commissioner for Procurement (PP). Buying activities shall insure compliance with instructions regarding disclosure or reproduction of the information furnished. Requests initiated in the Central Office, FSS, shall be submitted to the Director of Investigations (BI), Office of Administration. Requests initiated in the regions shall be submitted to the cognizant Director, Field Investigations Office. Where appropriate, the Office of Investigations will consult with the Department of Justice.

ment of Justice incidental to providing the contracting officer with information to be used as a basis for determining a suspected firm's responsibility.

(2) Incidental to determining bidder or offeror responsibility prior to award, contracting officers shall:

(i) Determine a suspected firm to be nonresponsible if the information received from BI indicates the firm or members of the firm have been indicted or convicted under the Organized Crime Control Act of 1970 or indicted or convicted of embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property, or any other offense indicating a lack of business integrity or business honesty which seriously and directly affects the question of present responsibility as a Government contractor. In the event that an appeal taken from any conviction results in a reversal of the conviction, contracting officers may not consider the conviction in determining responsibility. (See also § 1-1.6.)

(ii) Submit to the Assistant Commissioner for Procurement (FP) all cases where information provided by BI does not contain evidence of convictions or indictments of offenses mentioned in (i), above, but does contain other convincing evidence which seriously impugns the integrity and business ethics of a firm otherwise eligible for contract award. FP will review such information and provide guidance with respect to determination of contractor responsibility.

(Sec. 206(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1.101(c))

**Effective date.** This regulation is effective on February 26, 1973.

Dated: February 26, 1973.

M. S. MEEKER,  
Commissioner,  
Federal Supply Service.

#### Title 45—Public Welfare CHAPTER VII—COMMISSION ON CIVIL RIGHTS

##### PART 704—INFORMATION DISCLOSURE AND COMMUNICATIONS

###### Administrative Appeal From Denial of Requests

Part 704 is amended by revising § 704.1(g) to read as set forth below. These amendments require the General Counsel to specify the exemption or exemptions which constitute the basis for withholding information requested under the Freedom of Information Act.

§ 704.1 Material available pursuant to 5 U.S.C. 552.

(g) **Administrative appeal from denial of requests.** If a request conforming with the requirements of paragraph (d) (1) of this section is denied by the General Counsel, the General Counsel's response to the requesting party shall cite the specific exemption or exemptions under paragraph (f) of this section which is the basis for the denial, and inform the requesting party that the denial is subject to review by the Staff Director of

the Commission, provided such review is requested by the person submitting a request for information in accordance with this paragraph (g) within 30 days after the date of the General Counsel's decision. The filing of such a request for review may be accomplished by mailing to the Staff Director, U.S. Commission on Civil Rights, Washington, D.C. 20425, by certified mail, a copy of the written denial issued under this paragraph, and a statement of the circumstances, reasons or arguments advanced in support of disclosure. Review will be made by the Staff Director on the basis of the written record described above. The decision on review will be in writing, will be promptly communicated to the person requesting review, and will constitute the final action of the Commission subject to judicial review, as provided in 5 U.S.C. 552(a) (3).

**Effective date.** This amendment shall become effective on March 7, 1973.

STEPHEN HORN,  
Vice Chairman.

[FR Doc. 73-4356 Filed 3-6-73; 8:45 am]

#### Title 49—Transportation CHAPTER I—DEPARTMENT OF TRANSPORTATION SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM-8; Amdts. 172-19, 173-70, 174-17, 175-10, 176-177-24]

##### PART 173—SHIPERS Labeling of Hazardous Materials Correction

In FR Doc. 73-3317 appearing at page 5292 of the issue for Tuesday, February 27, 1973, the following changes should be made:

1. In the amendatory language to § 173.94 the reference to "paragraph (b)" should read "paragraph (d)"; and in § 173.94 the material now designated as "(b)" should be designated as "(d)".
2. In § 173.402(a) (4), the word "solid" in the second line should read "liquid".
3. In § 173.417(a) the accompanying figure should appear as shown below:

SUBCHAPTER A—HAZARDOUS MATERIALS  
REGULATIONS BOARD

[Docket No. HM-8; Amdt. No. 173-70]

##### PART 173—SHIPERS Labeling of Hazardous Materials; Correction

On February 27, 1973, the Hazardous Materials Regulations Board published

Docket No. HM-8; Amendment No. 173-70 (38 FR 5292), which amended the Hazardous Materials Regulations to prescribe new labels to conform to the United Nations recommendations. The Board inadvertently published an incorrect label for flammable solids in § 173.410(a). It contained nine vertical red stripes when there should have been seven. Therefore, the Board has corrected Amendment No. 173-70 to show the correct label for flammable solids and § 173.410 of that amendment, in its entirety, is as follows:

Section 173.410 is amended to read as follows:

§ 173.410 Flammable solid label.

(a) Each "Flammable solid" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, each label must be white with vertical red stripes as depicted by the shaded area, with the inscription, border, and symbol black. The words "Flammable solid" must not contact any red stripe.

Secs. 831-835 of Title 18, United States Code; sec. 9, Department of Transportation Act, 49 U.S.C. 1657; Title VI sec. 902(h), Federal Aviation Act of 1958, U.S.C. 1421-1430, 1472, and 1655(c)

Issued in Washington, D.C., on February 27, 1973.

ALAN I. ROBERTS,  
Secretary.

[FR Doc. 73-4049 Filed 3-6-73; 8:45 am]

#### Title 47—Telecommunications CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION [FCC 73-140]

##### PART 0—COMMISSION ORGANIZATION PART 97—AMATEUR RADIO SERVICE Radio Operator Examination Points Correction

In FR Doc. 73-3106 appearing at page 4577 in the issue for Friday, February 16, 1973, the following should be inserted immediately after the 7th line of the amendatory language for § 0.485: "Appendix 1, Examination Points, to Part 97 is amended as follows."

## Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF THE TREASURY

#### Bureau of Customs

##### [19 CFR Part 134]

##### CAST IRON PIPE AND FITTINGS

##### Proposed Revocation of Exception from Country of Origin Marking Requirements

Notice is hereby given that the Department of the Treasury and the Bureau of Customs have received a request from the American Pipe Fittings Association to revoke the exception from country of origin marking for malleable and non-malleable cast iron pipe fittings presently authorized pursuant to 19 U.S.C. 1304(a) (3) (J). These articles are encompassed within the description, "Pipes, iron or steel, and pipe fittings of cast or malleable iron (except cast iron soil pipe and fittings)" listed in T.D. 49896 (1939) (4 FR 2509), as modified by T.D. 71-89 (1971) (36 FR 5465). Articles of that description were among the articles found to have been imported in substantial quantities during the 5-year period immediately preceding January 1, 1937, and not required during such period to be marked to indicate the country of origin. Those articles are now excepted from the marking requirements pursuant to § 134.33 of the Customs Regulations (19 CFR 134.33). The articles are classified under item 610.62-610.74, Tariff Schedules of the United States.

The American Pipe Fittings Association has submitted information and affidavits indicating that malleable and non-malleable cast iron pipe fittings were not imported in substantial quantities in the 5-year period preceding January 1, 1937, and, accordingly, should not have been included in the list of articles excepted from marking under 19 U.S.C. 1304(a) (3) (J). The association also contends that cast and malleable iron pipe fittings are commonly maintained in wholesalers' bins, which results in the commingling of domestic and imported fittings, leading to the possibility of deception to ultimate purchasers with respect to the country of origin of the pipe fittings.

With regard to the cost of marking the pipe fittings in question, the association states that Stockholm Valves & Fittings, Birmingham, Ala., in 1960, marked its complete line of some 7,000 items with 1/8-inch raised letters reading "USA", at a nominal cost. The Bureau of Customs has received a letter from Stockholm Valves & Fittings stating that it would cost foreign producers very little initially to mark their fittings by raised letters, and the raised letters would con-

sume an almost unmeasurable amount of additional metal per fitting. The Bureau has tentatively concluded from the information available that malleable and nonmalleable cast iron pipe fittings are not entitled to continued exemption from the country of origin marking requirements under 19 U.S.C. 1304(a) (3) (J).

Consideration will be given to all data, views, or arguments respecting this matter which are submitted in writing to the Commissioner of Customs, Washington, D.C. 20226, on or before April 6, 1973.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.3(b) of the Customs Regulations (19 CFR 103.3(b)), at the Bureau of Customs, Washington, D.C., during regular business hours.

[SEAL] EDWIN F. RAINS,  
Acting Commissioner of Customs.  
Approved: February 28, 1973.

EDWARD L. MORGAN,  
Assistant Secretary  
of the Treasury.

[FR Doc. 73-4314 Filed 3-6-73; 8:45 am]

#### Internal Revenue Service

##### [26 CFR Part 45]

##### MISCELLANEOUS STAMP TAXES

##### Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: OC:LR:T, Washington, D.C. 20224, by April 4, 1973. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by April 4, 1973. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register.

The proposed regulations are to be issued under the authority contained in sections 4464(c) and 7805 of the Internal Revenue Code of 1954 (85 Stat. 535 and 68A Stat. 917; 26 U.S.C. 4464(c) and 7805).

[SEAL] JOHNNIE M. WALTERS,  
Commissioner of Internal Revenue.

This document contains proposed amendments to the Miscellaneous Stamp Tax Regulations (26 CFR Part 45) in order to conform such regulations to the provisions of title II of Public Law 88-36 (77 Stat. 54) (repealing the tax on transfers of silver bullion); sections 402 through 405 of the Excise Tax Reduction Act of 1965 (79 Stat. 148) (repealing the excise tax on playing cards, coin-operated amusement devices, certain vending machines dispensing prizes, bowling alleys, and billiard and pool tables); and section 402 of the Revenue Act of 1971 (85 Stat. 534) (allowing a credit against the Federal tax on coin-operated gaming devices for State taxes imposed on such devices).

The excise tax on silver bullion, which imposed a 50-percent tax on profits on transfers of silver bullion, was enacted as a part of the Government's silver purchase program to prevent speculative sales of silver in connection with such program. The tax was repealed effective June 4, 1963, by the Act terminating the silver purchase program.

The excise taxes on playing cards, coin-operated amusement devices, certain vending machines dispensing prizes, bowling alleys, and billiard and pool tables were repealed, effective June 22, 1965, for playing cards and July 1, 1965, for the others, to simplify administration of the tax laws, remove discriminatory tax burdens on consumers and producers, and eliminate arbitrary and undesirable distortions in the allocation of resources in competitive markets.

The credit for State taxes against the Federal tax on coin-operated gaming devices is effective on and after July 1, 1972. It allows persons maintaining or allowing the operation of coin-operated gaming devices on premises they occupy a credit against the Federal tax on the devices. No credit is allowed unless the State tax is similar to the Federal tax and maintenance or operation of the devices is legal under State law. No credit is allowed for State personal property tax. The maximum credit allowed in any year is 80 percent of the Federal tax for that year. The amendment is designed to make the Federal tax treatment of

coin-operated gaming devices more uniform with the Federal tax treatment of parimutuel wagering licensed under State law and State conducted sweepstakes. The Federal tax on wagering is not applied to parimutuel wagering licensed under the State law or State controlled sweepstakes.

#### PROPOSED AMENDMENTS TO THE REGULATIONS

In order to conform the Miscellaneous Stamp Tax Regulations (26 CFR Part 45) to the provisions of title II of Public Law 88-36 (77 Stat. 54), and to sections 402 through 405 of the Excise Tax Reduction Act of 1965 (79 Stat. 148), and to reflect the addition of section 4464 to the Internal Revenue Code of 1954 by section 402 of the Revenue Act of 1971 (85 Stat. 534), such regulations are amended as follows:

PARAGRAPH 1. Section 45.0-1 is amended by revising the second sentence of paragraph (a), by revising paragraph (b), and by revising the first sentence of paragraph (c). The revised provisions read as follows:

#### § 45.0-1 Introduction.

(a) *In general.* . . . The regulations relate to the taxes imposed by Subchapter B of Chapter 36, Subchapter F of Chapter 38, Subchapters B, C, and D of Chapter 39 of the Internal Revenue Code of 1954, as amended, and to certain general provisions relating to occupational taxes contained in Chapter 40 of such Code and to certain related administrative provisions of Subtitle F of the Code.

(b) *Division of regulations.* The regulations in this part are divided into 12 subparts. Subpart A contains provisions relating to the arrangement and numbering of the sections of the regulations in this part, general definitions and use of terms, scope of regulations, and extent to which the regulations in this part supersede prior regulations relating to the taxes imposed by Subchapter B of Chapter 36, Subchapter F of Chapter 38, and Subchapters B, C, and D of Chapter 39 of the Internal Revenue Code. The other subparts of the regulations in this part and the subject matter to which they relate are as follows:

Subpart B—[Deleted]  
Subpart C—Occupational tax on coin-operated devices.  
Subpart D—[Deleted]  
Subpart E—Oleomargarine.  
Subpart F—White phosphorus matches.  
Subpart G—Adulterated and process or renovated butter.  
Subpart H—Filled cheese.  
Subpart I—Cotton futures.  
Subpart J—[Deleted]  
Subpart K—General provisions relating to occupational taxes.  
Subpart L—Administrative provisions.

(c) *Arrangement and numbering.* In general, each section of the regulations in Subparts C through L is preceded by the section, subsection, or paragraph of the Internal Revenue Code which it interprets. . . .

PAR. 2. The introductory paragraph and paragraphs (a), (b), (c), and (d) of

§ 45.0-3 are amended to read as set forth below:

#### § 45.0-3 Scope of regulations.

The regulations in this part relate to the taxes imposed by Subchapter B of Chapter 36, Subchapter F of Chapter 38, and Subchapters B, C, and D of Chapter 39 of the Code and, except where otherwise specifically provided, have application as provided in the following paragraphs:

(a) *Subpart B.* [Deleted]  
(b) *Subpart C.* The regulations in Subpart C of this part relate to coin-operated gaming devices maintained for use by any person on or after July 1, 1965.

(c) *Subpart D.* [Deleted]

(i) *Subpart J.* [Deleted]

(j) *Subpart L.* [Deleted]

PAR. 3. Section 45.0-4 is amended to read as follows:

§ 45.0-4 Extent to which the regulations in this part supersede prior regulations.

The regulations in this part, with respect to the subject matter within the scope thereof, supersede the following regulations and such regulations as prescribed and made applicable to the Internal Revenue Code by Treasury Decision 6091, signed August 16, 1954 (19 FR 5167, August 17, 1954):

Special taxes with respect to coin-operated gaming devices.

Tax on white phosphorus matches.

Taxes on oleomargarine, adulterated butter, and process or renovated butter.

Tax on filled cheese.

Tax on contracts of sale of cotton for future delivery.

Withdrawal of filled cheese from factories, free of tax, for use of the United States.

Exportation without payment of tax on tobacco manufacturers, oleomargarine, and adulterated butter; shipments to possessions of the United States, and drawback on tobacco manufacturers and stills exported, or shipped to Puerto Rico or Philippine Islands.

Removals of alcoholic liquors, tobacco products, and other articles of domestic manufacturer to foreign-trade zones.

Regulations 59 (1941 edition), 26 CFR (1939), Part 323.

Regulations 32, 26 CFR (1939), Part 300.

Regulations 9, (Revised April 1936), 26 CFR (1939), Part 310.

Regulations 22, (Revised August 1928), 26 CFR (1939), Part 301.

Regulations 36 (1916 edition), 26 CFR (1939), Part 110.

Regulations 34, 26 CFR (1939), Part 450.

Regulations 73, 26 CFR (1939), Part 451.

Regulations 31, 26 CFR (1939), Part 199.

§ 199.428 to 199.436, incl.

Subpart B [Deleted]

PAR. 4. Subpart B is deleted.

PAR. 5. Section 45.4461 is amended by revising section 4461 and the historical note to read as follows:

§ 45.4461 Statutory provisions; imposition of tax.

Sec. 4461. Imposition of tax.—(a) *In general.* There shall be imposed a special tax to be paid by every person who maintains for use or permits the use of, on any place or premises occupied by him, a coin-operated gaming device (as defined in section 4462) at the following rates:

(1) \$250 a year; and  
(2) \$250 a year for each additional device so maintained or the use of which is so permitted. If one such device is replaced by another, such other device shall not be considered an additional device.

(b) *Exception.* No tax shall be imposed on a device which is commonly known as a claw, crane, or digger machine if—

(1) The charge for each operation of such device is not more than 10 cents;

(2) Such device never dispenses a prize other than merchandise of a maximum retail value of \$1, and with respect to such device there is never a display or offer of any prize or merchandise other than merchandise dispensed by such machine;

(3) Such device is actuated by a crank and operates solely by means of a nonelectrical mechanism; and

(4) Such device is not operated other than in connection with and as part of carnivals or county or State fairs.

[Sec. 4461 as amended and in effect, July 1, 1965]

PAR. 6. Section 45.4461-1 is amended as follows:

1. Paragraph (a) is amended by deleting "amusement or" from the first and third sentences, and by deleting "liable to" and inserting in lieu thereof "liable for" in the second sentence.

2. Paragraph (b) is amended by deleting "amusement" and inserting in lieu thereof "gaming" in each of the two places it appears in the second sentence, and by deleting the last sentence.

3. A new paragraph (c) is added, to read as set forth below:

§ 45.4461-1 Imposition of tax.

(c) *Exception.* No tax is imposed on a device commonly known as a claw, crane, or digger machine if (1) the charge for each operation of such device is not more than 10 cents, (2) such device never dispenses a prize other than merchandise of a maximum retail value of \$1, and with respect to such device there is never a display or offer of any prize or merchandise other than the merchandise dispensed by such machine, (3) such device is actuated by a crank and operates solely by means of a nonelectrical mechanism, and (4) such device is not operated other than in connection with and as part of carnivals or county or State fairs.

PAR. 7. Section 45.4461-2 is amended to read as follows:

§ 45.4461-2 Rate of tax.

The special tax under section 4461 is imposed at the rate of \$250 per year per coin-operated gaming device.

PAR. 8. Section 45.4462 is amended by revising section 4462 and the historical note to read as follows:

§ 45.4462 Statutory provisions; definition of coin-operated gaming device.

Sec. 4462. Definition of coin-operated gaming device.—(a) *In general.* For purposes of this subchapter, the term "coin-operated gaming device" means any machine which is—

(1) A so-called "slot" machine which operates by means of the insertion of a coin, token, or similar object and which, by application of the element of chance, may deliver, or entitle the person playing or operating the machine to receive cash, premiums, merchandise, or tokens; or

(2) A machine which is similar to machines described in paragraph (1) and is operated without the insertion of a coin, token, or similar object.

(b) *Exclusions.* The term "coin-operated gaming device" does not include—

(1) A bona fide vending or amusement machine in which gaming features are not incorporated; or

(2) A vending machine operated by means of the insertion of a 1-cent coin, which, when it dispenses a prize, never dispenses a prize of a retail value of, or entitles a person to receive a prize of a retail value of, more than 5 cents, and if the only prize dispensed is merchandise and not cash or tokens.

[Sec. 4462 as amended and in effect July 1, 1965]

PAR. 9. Section 45.4462-1 is amended to read as follows:

§ 45.4462-1 Definition of coin-operated gaming device.

(a) *Devices within scope of section 4462(a).*—(1) *In general.* Section 4462(a) includes within its scope any machine which is—

(i) A so-called "slot" machine which operates by means of the insertion of a coin, token, or similar object and which, by application of the element of chance, may deliver, or entitle the person playing or operating the machine to receive cash, premiums, merchandise, or tokens; or

(ii) A machine which is similar to machines described in subdivision (1) of this subparagraph and is operated without the insertion of a coin, token, or similar object.

(2) *Examples.* The following devices and machines illustrate the type of machines or devices within the scope of section 4462(a):

(i) A machine which is operated by means of the insertion of a coin, token, or similar object and which, even though it does not dispense cash or tokens, has the features and characteristics of a gaming device whether or not evidence exists as to actual payoffs.

(ii) A so-called crane machine, claw, digger, or rotary merchandising type device which is operated by the insertion of a coin and adjustment of a control lever for the purpose of removing from the machine, by gripping, pushing, or other manipulation articles such as figurines, lighters, etc., in the machine. See, however, § 45.4461-1(c) for exemption of certain devices from the tax imposed by section 4461(a).

(iii) A pinball machine equipped with a pushbutton for releasing free plays and a meter for recording the plays so released, or equipped with provisions for

multiple coin insertion for increasing the odds.

(iv) Pinball machines in connection with which free plays are redeemed in cash, tokens, or merchandise, or prizes are offered to any person for the attainment of designated scores.

(v) A coin-operated machine that displays a poker hand or delivers a ticket with a poker hand symbolized on it that entitles the player to a prize if the poker hand displayed by the machine or symbolized on the ticket constitutes a winning hand.

(b) *Exclusions.*—(1) *Bona fide vending or amusement machines.* Section 4462(b) (1) specifically excludes from the term "coin-operated gaming device" a bona fide vending or amusement machine in which gaming features are not incorporated.

An example of a device in which gaming features are not incorporated is a recording machine which, upon insertion of a coin, records a person's voice, plays the record back, and then delivers the record to the purchaser.

(2) *Certain vending machines.* Section 4462(b) (2) specifically excludes from the term "coin-operated gaming device" a vending machine operated by means of the insertion of a 1-cent coin, which, when it dispenses a prize, never dispenses a prize of a retail value of, or entitles a person to receive a prize of a retail value of, more than 5 cents, and if the only prize dispensed is merchandise and not cash or tokens.

PAR. 10. Immediately after § 45.4463-1, §§ 45.4464 and 45.4464-1 are added, to read as follows:

§ 45.4464 Statutory provisions; credit for State-imposed taxes.

Sec. 4464. Credit for State-imposed taxes.—(a) *In general.* There shall be allowed as a credit against the tax imposed by section 4461 with respect to any coin-operated gaming device for any year an amount equal to the amount of State tax paid for such year with respect to such device by the person liable for the tax imposed by section 4461, if such State tax (1) is paid under a law of the State in which the place or premises on which such device is maintained or used is located, and (2) is similar to the tax imposed by section 4461 (including a tax, other than a general personal property tax, imposed on such device).

(b) *Limitations.*—(1) *Devices must be legal under State law.* Credit shall be allowed under subsection (a) for a tax imposed by a State only if the maintenance of the coin-operated gaming device by the person liable for the tax imposed by section 4461 on the place or premises occupied by him does not violate any law of such State.

(2) *Credit not to exceed 80 percent of tax.* The credit under subsection (a) with respect to any coin-operated gaming device shall not exceed 80 percent of the tax imposed by section 4461 with respect to such device.

(c) *Special provisions for payment of tax.* Under regulations prescribed by the Secretary or his delegate, a person who believes he will be entitled to a credit under subsection (a) with respect to any coin-operated gaming device for any year shall, for purposes of this subtitle and Subtitle F, satisfy his liability for the tax imposed

by section 4461 with respect to such device for such year if—

(1) On or before the date prescribed by law for payment of the tax imposed by section 4461 with respect to such device for such year, he has paid the amount of such tax reduced by the amount of the credit which he estimates will be allowable under subsection (a) with respect to such device for such year; and

(2) On or before the last day of such year, pays the amount (if any) by which the credit for such year is less than the credit estimated under paragraph (1).

[Sec. 4464 as originally enacted and in effect July 1, 1972]

§ 45.4464-1 Credit for State-imposed taxes.

(a) *In general.* A person liable for the tax imposed by section 4461 with respect to any coin-operated gaming device for any year is allowed as a credit against such tax an amount equal to the State tax he has paid for such year with respect to such device, if such State tax (1) is paid under a law of the State in which the place or premises on which such device is maintained or used is located, and (2) is similar to the tax imposed by section 4461 (including a tax, other than a general personal property tax, imposed on such device).

(b) *Limitations.*—(1) *Device must be legal under State law.* A credit is allowed under paragraph (a) of this section for a tax imposed by a State only if the maintenance of the coin-operated gaming device by the person liable for the tax imposed by section 4461 does not violate any law of such State.

(2) *Credit not to exceed 80 percent of tax.* The credit allowed under paragraph (a) of this section with respect to any coin-operated gaming device may not exceed 80 percent of the tax imposed by section 4461 with respect to such device.

(c) *Special provisions for payment.* A person who believes he will be entitled to the credit described in paragraph (a) of this section with respect to any gaming device for any year may satisfy his liability for the tax imposed by section 4461 upon such device for such year by paying, on or before the date prescribed for payment of such tax, the amount of such tax reduced by the amount of the credit which he estimates in good faith and on the basis of reasonable cause will be allowable under paragraph (a) of this section, and by paying, on or before the last day of such year, the amount (if any) by which the credit based on the estimated State tax for such year exceeds the credit based on the State tax actually paid for such year. Any such excess shall be paid to the Director of the Internal Revenue Service Center where the original Form 11-B was filed. This payment shall be accompanied by a corrected Form 11-B (with the words "Amended Return" written clearly across the top of the return). No interest shall be due on such amount if paid before the end of such taxable year provided that the estimate was made in good faith and on the basis of reasonable cause. However, if not paid before the end of such

year, such amount shall be accompanied by interest, as determined under section 6601, computed from the date prescribed for payment of the tax imposed by section 4461.

(d) *Proof of payment of State tax.* Persons claiming the credit allowed under paragraph (a) of this section shall retain documentary evidence of payment of the State tax upon which the credit is based for at least 3 years after the due date of the tax imposed by section 4461 (with respect to which the credit is claimed) or the date the tax imposed by section 4461 is paid (with respect to which the credit is claimed), whichever is later.

(e) *Examples.* The application of this section may be illustrated by the following examples:

*Example (1).* On July 1, 1972, X placed in operation one coin-operated gaming device on premises that he occupied in a State where operation of such a device is legal. X is liable for a tax of \$250 under section 4461 for the fiscal year beginning July 1, 1972, and ending June 30, 1973. Under the law of the State X is also liable for a tax on such device of \$125 for the last 6 months of 1972. In addition, X estimates that he will be liable for State tax of \$250 for calendar 1973, of which \$125 will be attributable to the first 6 months of 1973. X may reduce his payment for the tax imposed by section 4461, due on or before July 1, 1972, from \$250 to \$50 by claiming under section 4461 an estimated State tax credit of \$200 (i.e., State tax liability of \$125 for the last 6 months of 1972 plus \$125 for the first 6 months of 1973, but not to exceed 80 percent of the tax imposed by section 4461 for such period).

*Example (2).* Assume the same facts as in example (1) except that X removed the coin-operated gaming device from his premises on December 31, 1972. Removal of the device eliminates X's liability under State law for 1973. Thus, X is entitled to a credit of only \$125 (the amount attributable to the last 6 months of 1972) with respect to such device for the period beginning July 1, 1972, and ending June 30, 1973. X must file, on or before June 30, 1973, an amended Form 11-B accompanied by a payment of \$75 (i.e., liability under section 4461 of \$250 reduced by the sum of the credit of \$125 allowable under section 4461 plus the payment of \$50 made on or before July 1, 1972). If X fails to pay this \$75 on or before June 30, 1973, he will become liable for interest on such amount, computed under section 6601 for the period running from July 1, 1972, until the date of payment.

#### Subpart D [Deleted]

PAR. 11. Subpart D is deleted.

PAR. 12. Section 45.4816-1 is amended by deleting paragraph (d), by redesignating paragraph (e) as paragraph (d), and by adding the following new paragraphs (e) through (l):

§ 45.4816-1 Exemption in case of exportation of adulterated butter.

(e) *Definition of exportation.* Exportation to a foreign country means the severance of an article from the mass of things belonging within the United States with the intention of uniting it with the mass of things belonging within some foreign country.

(f) *Responsibility for exportation of adulterated butter.* Responsibility for compliance with the provisions of this section with respect to the removal of adulterated butter, without payment of tax, for export to a foreign country, and for the proper exportation of such adulterated butter shall rest upon the manufacturer thereof.

(g) *Liability for tax on adulterated butter.* The manufacturer of adulterated butter shall be liable for the tax imposed thereon by section 4811 if the provisions of this section are not complied with.

(h) *Removal for export.* (1) To exempt from tax a removal of adulterated butter from the place of manufacture for export to a foreign country both of the following conditions must be met:

(i) The adulterated butter so removed must be identified as having been removed from the place of manufacture by the manufacturer for export to a foreign country, and (ii) the adulterated butter so removed must be exported to a foreign country in due course.

(2) Adulterated butter will be regarded as having been removed from the place of manufacture by the manufacturer for export to a foreign country if the manufacturer has in his possession at the time of removal from the place of manufacture a written order or contract of sale showing that the manufacturer is to ship the adulterated butter to a foreign destination.

(3) The written order or contract of sale referred to in subparagraph (2) of this paragraph suspends liability for payment of the tax by the manufacturer for such removal from the place of manufacture for export to a foreign country for a period of 6 months from the date of removal of such adulterated butter.

(i) *Proof of exportation to a foreign country—(1) Other than by parcel post.* Exportation to a foreign country may be evidenced by (i) a copy of the export bill of lading issued by the delivering carrier, or (ii) a certificate by the agent or representative of the export carrier showing actual exportation of the adulterated butter, or (iii) a certificate of landing signed by a customs officer of a foreign country to which the adulterated butter is exported, or (iv) where such foreign country has no customs administration, a statement of the foreign consignee showing receipt of the adulterated butter. If, within a period of 6 months from the date of removal of such adulterated butter, the manufacturer has not received and attached to the order or contract proper "proof of exportation," then the temporary suspension of the liability for the payment of the tax ceases and such liability shall become immediately due and payable. Such tax shall be paid to the district director for the district in which is located the place of manufacture from which the shipment is made, with sufficient information to identify the taxpayer and the nature and purpose of the payment. However, if proof of exportation later becomes available, a

claim for refund of any tax paid may be filed on Form 843, but such action must be taken within the 3-year period prescribed by section 6511.

(2) *Exportation by parcel post.* If adulterated butter is exported to a foreign country by parcel post, the manufacturer thereof shall have a statement prepared for use with each package so exported on which shall be shown such information as the destination, order or invoice number, the contents of the package, the name of the vendee, etc. Upon mailing the package described in the statement, the manufacturer shall have the statement stamped by the local postmaster as evidence of said package having been received by him for exportation by parcel post. A waiver of the manufacturer's right to withdraw such package from the mails shall be stamped or written on each package and such waiver shall be signed by the manufacturer making the shipment.

(j) *Bond.* If the district director deems it necessary in order to protect the revenue, a bond may be required of any manufacturer removing adulterated butter from the place of manufacture for export to a foreign country. The penal sum of such bond shall be in an amount specified by the district director in a notice mailed to the manufacturer. For other provisions relating to bonds, see §§ 301.7101 and 301.7101-1 of this chapter (Regulations on Procedure and Administration).

(k) *Miscellaneous—(1) Diversion of shipment to another export consignee.* After removal of a shipment of adulterated butter from the place of manufacture for export to a foreign country in accordance with the provisions of paragraph (h) (2) of this section, the manufacturer of such adulterated butter may divert the shipment to another consignee for export to a foreign country provided he has in his possession a written order or contract of sale as provided in paragraph (h) (2) of this section from such other consignee.

(2) *Return of shipment to factory.* In case a consignee, for whom a manufacturer removes adulterated butter from his place of manufacture in accordance with a written order or contract of sale for export to a foreign country, modifies or cancels his written order or contract of sale for export, the manufacturer may return the shipment of such adulterated butter to his place of manufacture provided he maintains adequate records relating to such return.

(l) *Removal to foreign-trade zones—(1) In general.* Adulterated butter may be removed from the place of manufacture without having stamps affixed thereto for delivery to a foreign-trade zone for exportation. Such removal and delivery thereof to a foreign-trade zone is considered an exportation.

(2) *Definition of foreign-trade zone.* "Foreign-trade zone" or "zone," as used in this section, means a foreign-trade zone established and operated pursuant to section 81 of title 19 of the United States Code.

(3) *Proof of delivery to a foreign-trade zone.* A manufacturer of adulterated butter who removes such adulterated butter from the place of manufacture for delivery to a foreign-trade zone without affixing stamps thereto shall maintain adequate records of all such removals and shall keep sufficient written proof of such removals and deliveries as may be necessary to substantiate actual delivery of the adulterated butter to the foreign-trade zone. The records referred to in the preceding sentence shall be retained by the manufacturer and made available for inspection by any revenue officer upon his request.

#### Subpart J [Deleted]

PAR. 13. Subpart J is deleted.

#### § 45.4901 [Amended]

PAR. 14. Section 45.4901 is amended by deleting "4461(2) [4461(a)(2)] (coin-operated gaming devices), . . ." in section 4901(a) and inserting in lieu thereof "4461(a)(1) (coin-operated gaming devices)" and by amending the historical note to read "[Sec. 4901 as amended and in effect May 1, 1971]".

PAR. 15. Section 45.4901-1 is amended as follows:

1. Paragraph (a) is amended by revising the first and last sentences to read as set forth below.

2. Paragraph (b) is amended by deleting "amusement and" from the second sentence.

3. Paragraph (c)(1) is amended by deleting "district director" and inserting in lieu thereof "director of the service center".

4. Paragraph (c)(2) and (3) is amended by deleting "District directors" and inserting in lieu thereof "Directors of service centers".

#### § 45.4901-1 Payment of special tax.

(a) *Conditions precedent to carrying on certain business.* No person shall maintain for use or permit the use of, on any place or premises occupied by him, a coin-operated gaming device defined in section 4462(a) (see paragraphs (a) and (b) of § 45.4462-1) until he has filed a return on Form 11-B and paid the special tax imposed by section 4461 (a)(1). . . . For registration requirements relating to special taxes imposed by sections 4461, 4821, and 4841, see §§ 45.7011 and 45.7011-1.

PAR. 16. Section 45.4905 is amended by revising section 4905(b)(1) and the historical note to read as follows:

§ 45.4905 Statutory provisions; liability in case of death or change of location.

Sec. 4905. Liability in case of death or change of location. . . .

(b) *Registration.* (1) For registration in case of . . . white phosphorus matches, see sections . . . 4804(d) . . .

[Sec. 4905 as amended and in effect May 1, 1971]

#### § 45.4905-1 [Amended]

PAR. 17. Section 45.4905-1 is amended as follows:

1. Paragraph (a) is amended by deleting "4471," in the first sentence and by deleting "district director" and inserting in lieu thereof "director of the service center" in the last sentence.

2. Paragraph (b) is amended by deleting "district director" and inserting in lieu thereof "director of the service center" in the last sentence.

3. Paragraph (c) is amended by deleting "4471," in the fourth sentence.

4. Paragraph (d) is amended by deleting "district director" and inserting in lieu thereof "director of the service center" in the first sentence.

PAR. 18. Section 45.4905-2 is amended as follows:

1. Paragraph (a) is amended by deleting "district director" and inserting in lieu thereof "director of the service center" in the first and second sentences.

2. Paragraph (b) is amended to read as follows:

§ 45.4905-2 Change of address.

(b) *Procedure by director of service center—(1) Removal within area served by service center.* When registration of a change of address within the same area served by the service center is made by a taxpayer in the manner specified in paragraph (a) of this section, the director of the service center will enter on his records the new address and the date of change. If the information disclosed on the supplemental return is such as to require a change on the face of the special tax stamp, the director of the service center will make the necessary change and return the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

(2) *Removal to an area served by another service center.* In case of removal of the taxpayer's place of business to an area served by another service center, the director of the service center after noting the transfer on his records, shall transmit the special tax stamp to the director of the service center for the area to which such business was removed.

The latter will make proper entry on his records, as in the case of an original registration in his area, correct the address on the stamp, and also note thereon his name, title, date, and area, and then forward the stamp to the taxpayer for posting as provided in § 45.6806.

PAR. 31. Section 45.7011-3 is amended to read as follows:

§ 45.7011-3 Registration; other requirements.

For requirements for registration by manufacturers of white phosphorus matches, see § 45.4804-8.

§ 45.7272 [Amended]

PAR. 32. Section 45.7272 is amended by deleting "4455, \* \* \*" in section 7272(b) and by revising the historical note to read "[Sec. 7272 as amended and in effect June 22, 1965]".

§ 45.7326 [Amended]

PAR. 33. Section 45.7326(a) is amended by deleting "disposals" in the heading and inserting in lieu thereof "disposal," by deleting "4462(a)(2)" and inserting in lieu thereof "4462" in section 7326(a), and by revising the historical note to read "[Sec. 7326(a) as amended and in effect May 1, 1971]".

§ 45.7510-1 [Amended]

PAR. 34. Section 45.7510-1 is amended by deleting "and playing cards" from the section heading and the first sentence.

§ 45.7510-2 [Amended]

PAR. 35. Section 45.7510-2 is amended as follows:

1. Paragraph (a) is amended by deleting "or playing cards".

2. Paragraph (c) is amended by deleting "or playing cards" from the sentence enclosed by parentheses at the beginning of the exemption certificate form.

§ 45.7510-3 [Amended]

PAR. 36. Paragraph (a) of § 45.7510-3 is deleted.

§ 45.7641 [Amended]

PAR. 37. Section 45.7641 is amended by deleting " \* \* \*" from section 7641 and by revising the historical note to read "[Sec. 7641 as amended and in effect May 1, 1971]".

PAR. 38. Section 45.7701 is amended by revising section 7701(a)(12) and the historical note to read as follows:

§ 45.7701 Statutory provisions; definitions.

Sec. 7701. Definitions. (a) \* \* \*

(12) *Delegate*—(A) In general. The term "Secretary or his delegate" means the Secretary of the Treasury, or any officer, employee, or agency of the Treasury Department duly authorized by the Secretary (directly, or indirectly by one or more redelegations of authority) to perform the function mentioned or described in the context, and the term "or his delegate" when used in connection with any other official of the United States shall be similarly construed.

(B) \* \* \*

(Sec. 7701 as amended and in effect Sept. 13, 1969)

[FR Doc.73-4403 Filed 3-6-73; 8:45 am]

## PROPOSED RULE MAKING

### DEPARTMENT OF DEFENSE

Office of the Secretary

[32 CFR Part 216]

#### USE OF OFF-ROAD VEHICLES

##### Notice of Proposed Rule Making

Executive Order 11644, "Use of Off-Road Vehicles on the Public Lands," (37 FR 2877, February 9, 1972) requires that the Secretary of Defense shall develop and issue regulations and administrative instructions to: (a) Provide for administrative designation of the specific areas and trails on which use of off-road vehicles may be permitted, and areas on which the use of off-road vehicles may not be permitted, and set a date by which such designation of all defense lands shall be completed; and (b) develop and publish regulations prescribing operating conditions for off-road vehicles on defense lands. The following proposed Department of Defense regulation complies with the requirements of the Executive Order.

Interested persons are invited to submit such written comments and suggestions concerning the proposed regulation as they may desire. Communications should identify the subject matter by the above title and should be submitted to the Assistant Secretary of Defense (Health and Environment), Room 3D-171, Pentagon, Washington, D.C. 20301. All communications received on or before April 6, 1973, will be considered before issuing the regulation. The proposed Department of Defense regulation contained in this notice may be changed in light of the comments received. A copy of each submittal will be available for public inspection during business hours, both before and after the closing date set forth above, at the above address.

#### PART 216—USE OF OFF-ROAD VEHICLES

Sec. 216.1 Purpose and scope.  
216.2 Applicability.  
216.3 Policy.  
216.4 Definitions.  
216.5 Responsibilities.  
216.6 Enforcement.  
216.7 Guidelines and criteria for evaluation of DoD lands for off-road vehicle use.  
216.8 References.

AUTHORITY: Executive Order 11644 (37 FR 2877, Feb. 9, 1972) and the general authority of 5 U.S.C. sec. 301.

##### § 216.1 Purpose and scope.

(a) This part establishes uniform policies, procedures and criteria for (1) the designation of Department of Defense lands where use of off-road vehicles will and will not be permitted and (2) appropriate operating conditions for such vehicles.

(b) Its objective is to establish conditions for control of off-road vehicles,

including possible access for use of such vehicles by the public to ensure that (1) the national security requirements related to the Department of Defense lands are not impaired, (2) the natural resources and environmental values are protected, (3) safety and accident prevention is given a paramount consideration, and (4) conflicts of use are minimized.

##### § 216.2 Applicability.

The provisions of this part apply to the Department of Defense components with land management responsibilities.

##### § 216.3 Policy.

The Department of Defense has a primary mission of national defense and security and must utilize its total resources toward achieving this mission. The Department of Defense is an important occupier of Federal lands and has an obligation to the American people to act responsibly and effectively in the management of lands and waters under military control. While this management includes programs for conservation of the renewable natural resources, protection and enhancement of environmental quality, protection from accidental injury, loss or damage to resources, and opportunities for outdoor recreation, it must be recognized that national defense and security requirements will be fully considered in developing comprehensive management plans for Department of Defense lands and waters. All Department of Defense lands and waters will be closed to off-road vehicle use, except those areas and trails specifically designated for such use in accordance with this part. The environmental impacts of off-road vehicle use will be assessed and when such use will create significant environmental impacts, an environmental statement will be prepared and processed in accordance with Part 214 of this chapter and agency regulations.

##### § 216.4 Definitions.

(a) For the purpose of this part, the following terms, respectively, shall mean:

(1) *Off-road vehicle*. Any motorized vehicle designed for or capable of cross-country travel on or immediately over land, water, sand, snow, ice, marsh, swampland, or other natural terrain; except that such term excludes (i) any registered motorboat, (ii) any military, fire, ambulance, or law enforcement vehicle when used for emergency purposes and (iii) any vehicle whose use is authorized by the Secretary of Defense, or his properly designated representative, under a permit, lease, license, or contract.

(2) *Official use*. Use by an employee, agent, or designated representative of the Federal Government or one of its

contractors in the course of his employment, agency, or representation.

##### § 216.5 Responsibilities.

(a) The Secretaries of the Military Departments shall:

(1) Establish procedures for evaluating, assessing, and designating areas and trails where off-road use will and will not be permitted, utilizing but not limited to the guidelines and criteria contained in § 216.7.

(i) Such designations shall be a part of the natural resources management planning and incorporated in the final installation management plan. Where appropriate, these designations may be included as part of the installation master development plan.

(ii) All lands where off-road vehicle use will and will not be permitted will be designated prior to June 30, 1974.

(iii) Where Department of Defense lands will accommodate off-road vehicle use by the public, installation commanders shall insure that adequate opportunity for participation by the general public, user groups, and conservation organizations is afforded in the process of selection and designation of the specific areas and trails and uses to be permitted on those areas and trails.

(iv) The limitations of off-road vehicle use imposed under this part shall not apply to official use.

(2) Establish regulations, prior to August 31, 1973, prescribing the operating conditions for off-road vehicles.

These regulations shall be directed at protecting resource values, preserving public health, safety, and welfare, accident prevention, and minimizing use conflicts and will include provisions for registration, permits, fees for use of properties, and liability insurance requirements for users.

(3) Insure adequate notification to potential users, including distribution of information maps, indicating areas and trails where off-road vehicle use is and is not permitted. Appropriate signs designating areas and operating conditions off-road vehicle use is prohibited will trails designating such use. Areas where off-road vehicle use is prohibited will also be adequately posted.

(4) Provide proper administration, enforcement, and policing of trails and areas to insure that conditions of use are met on a continuing basis.

(5) Establish appropriate procedures to monitor the effects of the use of off-road vehicles. This monitoring may be the basis for changes to agency regulations to ensure adequate control of off-road vehicle use and amendment of area and trail designations to protect the environment, ensure the public safety, and minimize conflicts among users.

##### § 216.6 Enforcement.

Persons abusing the privilege of using designated areas and trails under these regulations shall, with their vehicles, be barred from further access to the installation for this purpose. Such further action in a particular case as the circumstances may require will be taken (see,

## PROPOSED RULE MAKING

e.g., 18 U.S.C. Sec. 1382). Cooperative agreements with State or local governments for the enforcement of laws and regulations relating to off-road vehicle use will be entered into where appropriate.

##### § 216.7 Guidelines and criteria for evaluation of Department of Defense lands for off-road vehicle use.

(a) *Designation*. (1) Department of Defense lands which satisfy the following characteristics may be designated for off-road vehicle use providing there exists a clear and demonstrated need and that other lands more suitable are not available.

(i) Areas which are not restricted for security, safety or accident prevention purposes.

(ii) Areas which do not contain soil conditions, flora or fauna or other natural characteristics of a fragile or unique nature which would be subject to excessive damage by use of off-road vehicles.

(iii) Areas which are not managed for wildlife habitat purposes.

(iv) Areas which do not contain archeological, historical, or paleontological resources; or which constitute de facto wilderness or scenic areas; or in which noise would adversely affect other users and wildlife resources.

(2) Lands which are found to satisfy the requirements for off-road vehicle use will be zoned for areas and trails.

(i) *Areas*. The very nature of off-road vehicles dictates that the majority of use will occur over areas which have not been developed for specific vehicular use. Off-road vehicles are manufactured, advertised, sold, and purchased within the concept that the purpose and sport of operating these vehicles lies in operation over rugged, undeveloped terrain. To invite users of off-road vehicles to areas which are designated for that purpose rather than areas restricted from such use, the designated area must contain topography suitable to the vehicles that will be used and have ready access by the public.

(ii) *Trails*. Where it is practicable to designate existing or proposed trails for use by off-road vehicles without conflict with other public uses or without loss of natural characteristics of the areas resulting in environmental despoilment, degrading local safety or accident prevention programs, such designation should be accomplished.

(iii) *Areas for off-road vehicles use* shall be categorized as follows: (a) Generally open with controlled public access within manageable quotas; (b) installation personnel and guests; (c) installation personnel; (d) closed.

(b) *Zones of use*. The designation of such areas will be in accordance with the following:

(1) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, or other resources of the public lands.

(2) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats.

(3) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to insure the compatibility of such uses with existing conditions in populated areas, taking into account noise, safety, accident prevention, and other factors.

(c) *Environmental considerations*. Prior to designation of areas or trails for use by off-road vehicles, consideration will be given by competent, responsible individuals to possible traumatic effects on the environment of the area. Such considerations shall not be limited to the proposed designated area or trail, but shall also encompass adjacent areas which may be affected.

(1) *Air*. Air quality which could be affected by dust from the use of off-road vehicles and internal combustion engines will be considered.

(2) *Water*. Siltation and water quality of streams or other bodies of water due to soil erosion created by off-road vehicles will be considered.

(3) *Soils*. Soil erodability and compaction as well as desirability for proposed use by off-road vehicles will be considered.

(4) *Vegetation*. The protection of native and desirable species of plants and grasses will be considered.

(5) *Wildlife*. Breeding grounds, drumming grounds, winter feeding, and yarding grounds, migration routes, and nesting areas will be considered. Spawning, migration, and feeding habits of fish and other aquatic organisms will be considered where off-road vehicles will be used in streams or other bodies of water. Particular attention will be given to off-road vehicle use which could have adverse effects on rare or endangered species of plants and animals in the immediate area or in adjacent areas.

(6) *Noise, Safety, and Accident Prevention*. Excessive noise as it affects humans and wildlife (and accidental injury, damage, or loss to DoD resources) will be considered.

(7) *Esthetics*. Potential despoilment of visual characteristics will be considered.

(d) *Operating criteria*. (1) Off-road vehicles shall not be operated in a reckless, careless, or negligent manner; in excess of established speed limits; and in a manner likely to cause excessive damage or disturbance of the land, wildlife, or vegetative resources.

(2) All off-road vehicles must conform to applicable State laws and registration requirements established for such vehicles; shall be equipped with proper muffler and spark arrestor and proper brakes, and utilize working headlights and taillights between dusk and dawn; and off-road vehicles which produce unusual or excessive noise shall not be permitted.

[43 CFR Part 3110]

##### SIMULTANEOUS OFFERS

##### Noncompetitive Leases; Oil and Gas Leasing; Time Extension for Comments

The time within which written comments on the proposed rule making to (a) clarify the regulations by specifying that an applicant may file only one lease application on any parcel offered under the simultaneous oil and gas leasing procedures and (b) eliminate the requirement that advance rental must be submitted with simultaneous lease offers, which was published in the *FEDERAL REGISTER*, Vol. 38, No. 7, January 11, 1973 (38 FR 1281), as modified January 18, 1973 (38 FR 1746), is hereby extended from February 9, 1973, to May 1, 1973.

At the request of interested parties, the time period for submission of comments on these proposed regulations has been extended to give the general public an extended opportunity for review. Accordingly, interested parties may submit written comments, suggestions, or objections with respect to the proposed regulations to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until May 15, 1973.

JOHN C. WHITAKER,  
Acting Secretary of the Interior.

#### DEPARTMENT OF AGRICULTURE

##### Agricultural Marketing Service

[7 CFR Part 52]

##### APPLE BUTTER<sup>1</sup>

##### Proposed Standards for Grades

Notice is hereby given that the United States Department of Agriculture is considering the revision of the United States Standards for Grades of Apple Butter pursuant to the authority contained in

<sup>1</sup> Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

the Agricultural Marketing Act of 1946 (Sec. 205, 60 Stat. 1090; as amended; 7 U.S.C. 1624). This revision, if made effective, will be the third issue by the Department of grade standards for this product. The cited section of the Agricultural Marketing Act of 1946 provides for the issuance of official United States grades to designate different quality levels for the voluntary use of producers, buyers, and consumers. Official grading services are also provided for under this Act upon request and upon payment of the fee to cover the cost of such services.

Interested persons desiring to submit written data, views, or arguments for consideration in connection with the proposal should file the same, in duplicate, not later than April 15, 1973, with the Hearing Clerk, U.S. Department of Agriculture, Room 112 Administration Building, Washington, D.C. 20250. All written submissions made pursuant to this notice will be made available for public review at the office of the Hearing Clerk during regular business hours (7 CFR, 1.27(b)).

##### STATEMENT OF CONSIDERATION LEADING TO THE PROPOSED REVISION

The currently effective USDA Color Standards for Apple Butter no longer depict the color product most in demand by consumers. A recent study of market samples from some 30 locations across the United States showed colors ranging from a very light brown product to a very dark brown product.

The proposed revisions to the standard would establish new color standards for fancy color falling within the three general classifications—light, medium, and dark.

In accord with established Department policy the proposed revision also would change the nomenclature of the present U.S. Grade C to U.S. Grade B.

The point spread in each grade would be 10 points instead of 15 points and the points allowed for each scoring factor would be adjusted accordingly.

Interested persons are invited to view the proposed USDA Color Standards (L.1, L.2, 12328, M.1, M.2, 12329, D.1, and D.2) mentioned in § 52.2806 by phone appointment at the following Processed Products Inspection Offices between 10 a.m. and 4 p.m. during the periods listed:

Office	Dates
Washington, D.C.: 14th and Independence Avenue, South Agriculture Building, room 0713 or 0718 (202) 447-6193 or (202) 447-3825.	Feb. 1, 1973, to Apr. 1, 1973.
Baltimore, Md.: 108 South Gay Street, room 534 Appraisers Stores Building, (301) 962-2474.	Feb. 1, 1973, to Apr. 1, 1973.
Richmond, Va.: Division of Markets, 1 North 14th Street, room 332 (703) 770-2422.	Feb. 1, 1973, to Apr. 1, 1973.
Albert Lea, Minn.: Post Office Building, room 3 (507) 373-2188.	Feb. 1, 1973, to Apr. 1, 1973.
Fayetteville, Ark.: 440 Mission Boulevard (501) 443-2301, ext. 673.	Feb. 1, 1973, to Apr. 1, 1973.

Office	Dates
Van Wert, Ohio: 106 Fisher Avenue (419) 238-4106.	Feb. 1, 1973, to Apr. 1, 1973.
San Jose, Calif.: 1438 South First Street (408) 276-7466.	Feb. 1, 1973, to Apr. 1, 1973.
Seattle, Wash.: 1917 First Avenue, room 207 (206) 442-7525.	Feb. 1, 1973, to Apr. 1, 1973.

The proposed revision is as follows:

Section	Identity and Grades
52.2801	Identity.
52.2802	Grades of apple butter.
	FILL OF CONTAINER
52.2803	Recommended fill of container.
	FACTORS OF QUALITY
52.2804	Determining the grade of a sample unit.
52.2805	Determining the rating for the factors which are scored.
52.2806	Color.
52.2807	Consistency.
52.2808	Finish.
52.2809	Defects.
52.2810	Flavor.

Section	Lot Compliance
52.2811	Determining the grade of a lot.
	SCORE SHEET
52.2812	Score sheet for apple butter.

AUTHORITY: Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624.

##### IDENTITY AND GRADES

§ 52.2801 Identity. Apple butter is a fruit butter prepared from clean, sound, wholesome, mature apples (either fresh, frozen, canned and/or dried), and other ingredients as defined in the amended Standards of Identity for Fruit Butter (21 CFR 29.1) issued pursuant to the Federal Food, Drug, and Cosmetic Act. The apples are prepared by cooking, with or without added water, and the skins, seeds, and cores are screened out. The soluble solids are not less than 43 percent.

##### § 52.2802 Grades of apple butter.

(a) U.S. Grade A (or U.S. Fancy) is the quality of apple butter that has a good color; that has a good consistency; that has a good finish; that is practically free from defects; that has a good flavor, and that scores not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) U.S. Grade B (or U.S. Choice) is the quality of apple butter that has a reasonably good color; that has a reasonably good consistency; that has a reasonably good finish; that is reasonably free from defects; that has a reasonably good flavor, and that scores not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) Substandard is the quality of apple butter that fails to meet the requirements of U.S. Grade B.

##### FILL OF CONTAINER

##### § 52.2803 Recommended fill of container.

The recommended fill of container is not incorporated in the grades of the finished product since fill of container,

as such, is not a factor of quality for the purposes of these grades. It is recommended that each container of apple butter be filled as full as practicable without impairment of quality and that the product occupy not less than 90 percent of the capacity of the container.

##### FACTORS OF QUALITY

##### § 52.2804 Determining the grade of a sample unit.

(a) The grade of a sample unit of apple butter is determined by considering the factors of quality which are scored. The relative importance of each such factor is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors	Points
Color	20
Consistency	20
Finish	20
Defects	20
Flavor	20
Total score	100

##### § 52.2805 Determining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be determined for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive. (For example, "18 to 20 points" means 18, 19, or 20 points.)

##### § 52.2806 Color.

(a) General. The color of apple butter refers to the color hue and color intensity of the overall mass regardless of the texture of the product.

(b) The proposed revised U.S. Department of Agriculture Color Standards for Apple Butter (hereinafter referred to as "USDA Colors") shall be viewed under standard lighting conditions as follows: Compare the color of the color standard with a representative sample of apple butter having an area and depth approximately equal to the color standard. A suitable light source of approximately 250-foot candle intensity and having a spectral quality approximating that of daylight under a moderately overcast sky and a color temperature of 7,500° Kelvin  $\pm 200^\circ$  is preferable. With the light source directly over the color standard and product, observation is made at an angle of 45° and at a distance of about 24 inches from the product.

(c) The USDA Color Standards will be available only from the licensed supplier: (Name to be supplied at a later date.)

(d) (A) classification. Apple butter that has a good color may be given a score of 18 to 20 points. "Good color" means that the color of the finished product is bright, lustrous, and is characteristic of properly prepared and processed apple butter. In addition, "good color" has the following meanings with respect to the following color types:

(1) Light. The color shall be no lighter than USDA Color L.1, nor darker than USDA Color M.1. The color need not match, but must be equal to or better than, the referenced USDA colors. The

color may be more red, brighter, or somewhat more translucent. USDA Color L.2 is an intermediate reference in the light range.

(2) Medium. The color shall be no lighter than USDA Color M.1, nor darker than USDA Color D.1. The color need not match, but must be equal to, or better than, the referenced USDA colors. The color may be more red, brighter, or somewhat more translucent. USDA Colors M.2 and 12328 are intermediate references in the medium range.

(3) Dark. The color shall be no lighter than USDA Color D.1, nor darker than USDA Color D.2. The color need not match, but must be equal to, or better than, the referenced USDA colors. The color may be more red, brighter, or somewhat more translucent. USDA Color 12329 is an intermediate reference in the dark range.

(e) (B) Classification. Apple butter that has a reasonably good color may be given a score of 16 or 17 points. Apple butter that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the color of the finished product may be dull, is reasonably uniform, and in addition has the following meanings with respect to the following color types:

(1) Light. The color may be lighter than USDA Color L.1 or may be less red than these USDA colors, but is not off-color.

(2) Medium. The color may be less red than USDA Colors M.1 or D.1, but is not off-color.

(3) Dark. The color may be darker or may be less red than USDA Color D.2, but is not off-color.

(f) (SStd) classification. Apple butter that fails to meet the requirements for U.S. Grade B may be given a score of 0 to 15 points. Apple butter that falls into this classification shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

##### § 52.2807 Consistency.

"Consistency" refers to the firmness of the apple butter and the tendency to resist flow characteristics and separation of free liquor.

Consistency is evaluated by first stirring, then emptying the contents of the container onto a flat dry surface.

(a) (A) classification. Apple butter that has a good consistency may be given a score of 18 to 20 points. "Good consistency" means that the apple butter forms a moderately mounded mass and that at the end of 2 minutes there is practically no separation of free liquor.

(b) (B) classification. Apple butter that has a reasonably good consistency may be given a score of 16 or 17 points. Apple butter that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good consistency" means that the apple butter may be thick so that it does not pour readily from the container; or, after emptying from the container to a dry flat surface, may form

only a slightly mounded mass and at the end of 2 minutes there is no more than a slight separation of free liquor.

(d) (SStd) classification. Apple butter that fails to meet the requirements for U.S. Grade B may be given a score of 0 to 15 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

##### § 52.2808 Finish.

(a) General. The factor of finish refers to the size and texture of the apple particles.

(b) (A) classification. Apple butter that has a good finish may be given a score of 18 to 20 points. "Good finish" means that the product is fine grained, smooth, and practically free from gummy pectinous granules.

(c) (B) classification. Apple butter that has a reasonably good finish may be given a score of 16 or 17 points. Apple butter that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good finish" means that the product may be slightly coarse; the apple particles are neither hard nor excessively grainy; and is reasonably free from gummy pectinous granules.

(d) (SStd) classification. Apple butter that fails to meet the requirements for U.S. Grade B may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

##### § 52.2809 Defects.

(a) General. The factor of defects refers to the degree of freedom from such defects as black specks (except those attributable to ground spices) dark scale-like particles, particles of carpel tissue, peel, stem, seed-coat, and blossom-end material. This factor is evaluated by observing a layer of the product on a smooth white surface. Such a layer is prepared by drawing a scraper, with an indentation 3/32-inch high by 7 inches long for clearance, rapidly through the product in two horizontal planes so as to form an approximate square.

(b) (A) classification. Apple butter that is practically free from defects may be given a score of 18 to 20 points. "Practically free from defects" means that any defects present do not more than slightly affect the appearance or edibility of the product.

(c) (B) classification. Apple butter that is reasonably free from defects may be given a score of 16 or 17 points. Apple butter that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that any defects present may be noticeable but are not so large, so numerous, or of such contrasting color as to seriously affect the appearance or edibility of the product.

(d) (SStd) classification. Apple butter that fails to meet the requirements for U.S. Grade B may be given a score of 0 to 15 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

## § 52.2810 Flavor.

(a) *General.* The score for the factor of flavor of apple butter is determined by considering the flavor and aroma of the apple butter with particular consideration given to the flavor balance of the ingredients.

(b) (A) *classification.* Apple butter that has a good flavor may be given a score of 18 to 20 points. "Good flavor" means a good and distinct flavor and aroma characteristic of properly prepared and properly processed apple butter prepared from good quality ingredients.

(c) (B) *classification.* Apple butter that has a reasonably good flavor may be given a score of 16 or 17 points. "Good flavor" means a good and distinct flavor and aroma characteristic of properly prepared and properly processed apple butter prepared from good quality ingredients. "Reasonably good flavor" means a characteristic apple butter flavor and odor that may be excessively sweet or excessively tart, may be excessively spiced or lacking in proper spicing, or may be excessively caramelized but is not seriously objectionable for any reason.

(d) (SStd) *classification.* Apple butter that fails to meet the requirements for U.S. Grade B may be given a score of 0 to 15 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

## LOT COMPLIANCE

## § 52.2811 Determining the grade of a lot.

The grade of a lot of apple butter covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 to 52.87).

## SCORE SHEET

## PROPOSED RULE MAKING

Dated: February 28, 1973.

E. L. Peterson,  
Administrator,  
Agricultural Marketing Service.  
[FR Doc. 73-4339 Filed 3-6-73; 8:45 am]

Commodity Exchange Authority  
[17 CFR Part 1]TRADING IN "PUTS" AND "CALLS" IN  
NONREGULATED COMMODITIESGeneral Regulations Under the Commodity  
Exchange Act

Notice is hereby given in accordance with administrative procedure provisions of 5 U.S.C. section 553 that the Secretary of Agriculture, pursuant to the authority of sections 3, 4f, and 8a of the Commodity Exchange Act (7 U.S.C. 5, 6f and 12a), is considering adding a new § 1.19 to Part 1 of the regulations under the Commodity Exchange Act (17 CFR Part 1) to read as set forth below. The purpose of the proposed regulation is to protect regulated commodity markets and the funds of persons trading in regulated commodities through registered futures commission merchants. A growing list of firms is reportedly selling "puts" and "calls", commonly referred to as commodity options, on a large and expanding scale. It appears that the vast majority of the option business is being done in the so-called naked options in which the option firm takes the opposite side of its customers' "puts" and "calls." In a situation of this type, the potential liability of the option firm, as a result of adverse price movements, is virtually unlimited.

Trading in "puts" and "calls" has been a concern of the Federal and State governments and of the exchanges for many years. As early as 1874, the State of Illinois prohibited trading in options. Later, the Illinois law was changed to permit such trading. In 1921, the directors of the Chicago Board of Trade recommended that trading in "puts" and "calls" be prohibited, stating that its advantages were outweighed by its disadvantages. That same year, the U.S. Congress passed the Futures Trading Act which, by levying a 20-cent per bushel tax, effectively prohibited options in grains. This Act was declared unconstitutional in 1926 and trading was resumed.

Following a sensational price collapse in the grain futures markets on July 19 and 20, 1933, the Chicago Board of Trade suspended all trading in "puts" and "calls." At that time, exchange representatives asserted that the elimination of such trading "has removed one of the prime causes of excessive price movements." The permanent elimination of trading in "puts" and "calls" was one of the "reforms" which a committee representing the grain exchanges pledged to recommend to the respective exchanges. In 1936, the Commodity Exchange Act was amended to make illegal

all trading in "puts" and "calls" in regulated commodities. Such trading has been outlawed continuously since that time.

Option trading could become a threat to the financial stability of registered futures commission merchants. If such firms should underwrite, issue, or otherwise assume financial responsibility for the fulfillment of commodity options and suffer major financial reverses, the possibility of which is inherent in the present option system, the firm's customers trading in regulated commodities could suffer. With a sudden demand for funds to pay option holders or to secure the futures contracts called for by the options, a futures commission merchant might become insolvent and be sorely tempted to dip into the funds of customers dealing in regulated commodities to meet its obligations to option holders.

In addition, a collapse of the option business with substantial losses to option holders would seriously damage public confidence in the entire brokerage industry and the whole system of futures trading which is so essential in the orderly production and marketing of commodities.

## § 1.19 Prohibited trading in "puts" and "calls" in nonregulated commodities.

No futures commission merchant shall make, underwrite, issue, or otherwise assume any financial responsibility for the fulfillment of, any transaction which is, is of the character of, or is commonly known to the trade as, a "privilege," "indemnity," "bid," "offer," "put," "call," "advanced guarantee," or "decline guarantee" in any commodity regardless of whether such commodity is included in the term "commodity" as such term is defined in § 1.3(e).

If any interested person desires a hearing with reference to this proposed regulation, he should make a request to that effect stating the reasons therefor, addressed to the Administrator, Commodity Exchange Authority, U.S. Department of Agriculture, Washington, D.C. 20250, on or before April 9, 1973.

Written statements with reference to the subject matter of this proposal may be submitted by any interested person. Such statements should be mailed to the Administrator of the Commodity Exchange Authority prior to April 9, 1973.

The transcript of the proceedings at any hearing which may be held and all written submissions made pursuant to this notice will be made available for public inspection in the Office of the Administrator, Commodity Exchange Authority, during regular business hours.

Issued March 2, 1973.

ALEX C. CALDWELL,  
Administrator,  
Commodity Exchange Authority.

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## Food and Drug Administration

## [21 CFR Parts 1, 131, 176]

AEROSOLIZED FOOD, DRUG, AND  
COSMETIC PRODUCTS

## Proposal Regarding Warning Statements

For several years adolescents have been deliberately inhaling fumes of various household products to produce intoxication. The Food and Drug Administration has received numerous reports of cardiotoxicity and sudden death associated with deliberate misuse by inhalation of food, drug, and cosmetic aerosol products containing halocarbons, and to a lesser extent, hydrocarbons. Death may follow such inhalation suddenly without relation to the number of times the vapors are inhaled. The mechanism of death is unknown at this time, and research on this matter is continuing.

Aerosol propellants currently used in food, drug, and cosmetic products do not appear to present a significant problem of safety resulting from proper usage of these products. Toxicity and possible death result solely from intentional misuse.

On the basis of the above information and after discussion with and concurrence by the Environmental Protection Agency, the Commissioner of Food and Drugs has concluded that the labels of aerosolized food, drug, and cosmetic products should bear a warning against intentional inhalation. It is recognized that any such warning could lead those persons who might wish to inhale intoxicating substances directly to products that could be abused, but the Commissioner is of the opinion that a warning of the drastic consequences that can result from misuse will at least deter the unknowledgeable experimenter from risking his life for a momentary thrill. No warning can protect from harm those

who intentionally indulge in practices that they know to be harmful.

21 CFR 191.61(a) provides that label warnings established under the Federal Hazardous Substances Act and which are also applicable to foods, drugs, and cosmetics, are required to appear on food, drug, and cosmetic labels pursuant to the Federal Food, Drug, and Cosmetic Act even though such products are exempt from the Federal Hazardous Substances Act. Although the standard aerosol warning under 21 CFR 191.110 against incineration or puncture is clearly applicable to aerosolized food, drug, and cosmetic products, the Commissioner is aware that it is not included on some of these products. Accordingly, the Commissioner is also proposing that this warning be included on such products through a specific regulation on this matter.

Part 131 already contains warnings for use on drug products as required by section 502(f)(2) of the Federal Food, Drug, and Cosmetic Act. The Commissioner proposes to establish a new § 1.13 for food warnings, and a new Part 176 for cosmetic warnings. Comment is requested on two alternative forms of a deliberate inhalation warning, one proposed by the Food and Drug Administration and the other suggested by an industry trade association.

Section 402(a)(1) of the act states that a food is adulterated if it bears or contains any poisonous or deleterious substance which may render it injurious to health. Section 403(a) states that a food is misbranded if its labeling is false or misleading in any particular, and section 201(n) further defines misbranding to include the failure to reveal material facts with respect to consequences which may result from use of the article. The cosmetic provisions of the law (sections 601(a) and 602(a)) contain similar provisions. The Commissioner is of the opinion that these provisions contain adequate statutory authority to require label warnings for food and cosmetic products where there is a potential health hazard that may be prevented or alleviated by use of a warning.

The extent and seriousness of consumer injury resulting from cosmetic products has been difficult to assess because of the lack of reliable data. At the request of the cosmetic industry, the Commissioner has recently published a proposed system under which consumer product experience will voluntarily be

## PROPOSED RULE MAKING

submitted to the Food and Drug Administration, as a result of which decisions with respect to the safety of cosmetics and the appropriateness of label warnings will become far more reliable (37 FR 23344).

Further, with respect to the safety of cosmetics, although the act does not require approval by FDA prior to marketing a cosmetic product, it necessarily contemplates that the manufacturer or distributor has obtained all data and information necessary and appropriate to substantiate the product's safety before marketing. Any cosmetic product whose safety is not adequately substantiated prior to marketing may be adulterated and would in any event be misbranded unless it candidly and prominently warns that the safety of the product has not been adequately determined.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 402, 403, 501, 502, 601, 602, 701, 52 Stat. 1040-1042, 1046-1048, 1050-1051, 1054, 1055-1056; 21 U.S.C. 321, 342, 343, 351, 352, 361, 362, 371) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that Parts 1 and 131 be amended and a new Part 176 be added as follows:

# PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

1. By adding the following new section:

## § 1.13 Food; labeling; warning statements.

(a) The label of a food packaged in an aerosol container in which the propellant consists in whole or in part of a halocarbon or a hydrocarbon shall bear the following warning:

Warning—Do not inhale directly; deliberate inhalation of contents can cause death.

or

Warning—Use only as directed; intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.

(b) The label of a food packaged in an aerosol container shall bear the following warning:

Warning—Contents under pressure. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120° F. Keep out of reach of children.

## PART 131—INTERPRETATIVE STATEMENTS RE WARNINGS ON DRUGS AND DEVICES FOR OVER-THE-COUNTER SALE

### § 131.15 [Amended]

2. In § 131.15 the listing "Dispensers Pressurized by Gaseous Propellants for Drugs for External Use" and all warnings under that listing are revoked.

In § 131.16 the following provisions are added:

### § 131.16 Drugs for human use; warning and caution statements required by regulations.

DRUGS IN DISPENSERS PRESSURIZED BY GASEOUS PROPELLANTS (See also § 130.102(a) (11) and (18) of this chapter.)

Warning—Avoid inhaling. Keep away from eyes or other mucous membranes. The statement "Avoid inhaling" is not necessary for preparations specifically designed for use by inhalation.

The phrase "or other mucous membranes" is not necessary for preparation specifically designed for use on mucous membranes.

Where indicated, in order to prevent chilling the skin, a caution should be included against holding the dispenser too close to the body.

Warning—Contents under pressure. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120° F. Keep out of reach of children.

In addition to the above warnings, the label of a drug packaged in an aerosol container in which the propellant consists in whole or in part of a halocarbon or hydrocarbon shall bear the following warning:

Warning—Do not inhale directly; deliberate inhalation of contents can cause death.

or

Warning—Use only as directed; intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.

## PART 176—COSMETIC PRODUCT WARNING STATEMENTS

3. By adding the following new Part 176 to this chapter:

### Subpart A—General

176.1 Definitions.  
176.2 Establishment of warning statements.  
176.3 Conspicuousness of warning statements.  
176.4-176.9 [Reserved]

### Subpart B—Warning Statements

176.10 Labeling of cosmetic products for which adequate substantiation of safety has not been obtained.  
176.11 Aerosolized cosmetics.

### Subpart A—General

(a) The term "act" means the Federal Food, Drug, and Cosmetic Act.  
(b) The term "cosmetic" is defined in section 201(i) of the act.

§ 176.2 Establishment of warning statements.

(a) The label of a cosmetic product shall bear a warning or caution whenever necessary or appropriate to prevent or alleviate a health hazard that may be associated with the product.

(b) Regulations under Subpart B of this Part may be proposed or amended by the Commissioner of Food and Drugs on his own initiative or on behalf of any interested person who has submitted a petition. Any such petition shall include a proposed regulation to establish a warning together with an adequate factual basis to support the petition in the form set forth in § 2.65 of this chapter and will be published for comment if it contains reasonable grounds for the proposed regulation.

### § 176.3 Conspicuousness of warning statements.

A warning statement shall appear in the labeling prominently and conspicuously as compared to other words, statements, designs, or devices, and in bold type on clear contrasting background, in order to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

### Subpart B—Warning Statements

#### § 176.10 Labeling of cosmetic products for which adequate substantiation of safety has not been obtained.

Ingredients used in cosmetic products, and the finished product containing these ingredients, shall be adequately substantiated for safety prior to marketing. Any such ingredient or product whose safety is not adequately substantiated prior to marketing may be deemed to be adulterated and in any event will be deemed to be misbranded unless it contains the following conspicuous front panel statement:

Warning—The safety of this product has not been determined.

#### § 176.11 Aerosolized cosmetics.

(a) The label of a cosmetic packaged in an aerosol container in which the propellant consists in whole or in part of a halocarbon or a hydrocarbon shall bear the following warning:

Warning—Do not inhale directly; deliberate inhalation of contents can cause death.

Warning—Use only as directed; intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.

(b) The label of a cosmetic packaged in an aerosol container shall bear the following warning:

Warning—Contents under pressure. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120° F. Keep out of the reach of children.

Interested persons may, on or before May 7, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in triplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Comments received will be available for public inspection at the

above office during regular business hours, Monday through Friday.

Dated: February 23, 1973.

SHERWIN GARDNER,  
Acting Commissioner of  
Food and Drugs.

[FR Doc. 73-4325 Filed 3-6-73; 8:45 am]

## Office of Child Development [45 CFR Part 1301] FEE SCHEDULE FOR HEAD START PROGRAM Proposed Fees To Be Charged Nonpoor Families

Notice is hereby given that the Secretary of Health, Education, and Welfare proposes to establish a fee schedule for nonpoor families participating in Head Start programs whose children enroll after April 1, 1973, as required and authorized by section 8, 86 Stat. 690, 42 U.S.C. 2809(a) (1). The charges imposed by the schedule, in accordance with the statute, apply only to families whose income exceeds \$4,320 (with appropriate upward adjustments for families having more than two children). As provided by the statute, if payment will be made by a third party on behalf of a family whose income is lower than \$4,320, as adjusted, the charge will be accepted to the extent of such payment. The proposed fee schedule follows the formula set forth in the statute for family incomes between \$4,320, as adjusted, and the lower living standard budget. It takes account of the ability of the family to pay.

It is proposed to amend Title 45 CFR, Subtitle B, by adding a new Chapter XIII, Office of Child Development. With the adoption of this proposal, the chapter, for the time being, will consist only of Part 1301, Fee Schedule for Head Start Program, which, it is proposed, will read as set forth hereinafter.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Acting Director, Office of Child Development, Department of Health, Education, and Welfare, 400 Sixth Street SW., Washington, DC 20201 on or before April 6, 1973. Comments received will be available for public inspection in Room 2030 of the Office of Child Development at the above address on Monday through Friday of each week from 8:30 to 5 p.m. (area code 202-755-7762).

Dated: March 2, 1973.

FRANK C. CARLUCCI,  
Acting Secretary.

The proposed Chapter XIII, Part 1301, reads as follows:

## CHAPTER XIII—OFFICE OF CHILD DEVELOPMENT, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### PART 1301—FEE SCHEDULE FOR HEAD START PROGRAM

#### § 1301.1 Fees to be charged non-poor families.

The fees which shall be charged non-poor families whose children enroll in

## PROPOSED RULE MAKING

Head Start programs after April 1, 1973, are set forth in the Monthly Fee Schedule in this section. Nonpoor families are those whose incomes exceed \$4,320 as adjusted for families with more than

two children. No charges shall be imposed where the family income is equal to or less than \$4,320, as adjusted, except to the extent that payment will be made by a third party.

#### HEAD START FEE SCHEDULE, MONTHLY CHARGE

Gross annual family income	Number of children in family							
	1	2	3	4	5	6	7	8
0-\$4,320	0	0	0	0	0	0	0	0
\$4,321-\$4,675	\$2.50	\$2.50	\$2.50	\$2.50	\$2.50	\$2.50	\$2.50	\$2.50
4,676-4,900	5.00	5.00	5.00	5.00	5.00	5.00	5.00	5.00
4,901-5,225	7.50	7.50	7.50	7.50	7.50	7.50	7.50	7.50

11,726-12,050	60.00	60.00	60.00	60.00	60.00	60.00	60.00	60.00
12,051-12,375	62.50	62.50	62.50	62.50	62.50	62.50	62.50	62.50
12,376-12,700	65.00	65.00	65.00	65.00	65.00	65.00	65.00	65.00
12,701-13,025	67.50	67.50	67.50	67.50	67.50	67.50	67.50	67.50
13,026-13,350	70.00	70.00	70.00	70.00	70.00	70.00	70.00	70.00
13,351-13,675	72.50	72.50	72.50	72.50	72.50	72.50	72.50	72.50
13,676-14,000	75.00	75.00	75.00	75.00	75.00	75.00	75.00	75.00
14,001-14,325	77.50	77.50	77.50	77.50	77.50	77.50	77.50	77.50

X—Statutory maximum allowable fee charge is marginal. No fee will be assessed.  
NOTE.—To allow for higher costs of living in Alaska and Hawaii, multiply family income by 0.8 and 0.87, respectively, and correlate the lowered income figure with the fee. This variation complies with the statutory language mandating that the fee schedule must be based upon the ability of the family to pay. A family with 2 or more children enrolled shall pay one full fee for the first 2 children, and 25 percent of that full fee for each additional child. The above fee schedule applies to both farm and nonfarm families. A family whose ability to pay has been impaired because of unusual medical and dental expenses or unusual casualty or theft losses shall be eligible for a reduction in fee charge if the amount of unusual expenses exceeds 10 percent of the annual gross family income.

(Sec. 8, 86 Stat. 690 (42 U.S.C. 2809(a) (1)); sec. 602(n), 78 Stat. 530 (42 U.S.C. 2842(n)); Delegation of Authorities to Secretary of Health, Education, and Welfare, 34 FR 11398)

## Social and Rehabilitation Service [45 CFR Part 204] SOCIAL AND REHABILITATION SERVICE GRANT PROGRAMS State Plans; Format

Notice is hereby given that the regulation set forth in tentative form below is proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulation would specify that any State plan submitted for Social and Rehabilitation Service approval must be prepared in the format prescribed by the Service. The intention is to convert State plans into preprinted format to the extent possible, in keeping with plan simplification efforts. The medical assistance plan under title XIX of the Social Security Act will be issued in preprinted form for completion by States during the next few months (changes resulting from the Social Security Amendments of 1972, Public Law 92-603, will be issued as regulations are published). Plans for other programs will be converted at an appropriate time in light of State needs, pending legislation, and similar considerations. However, financial assistance plans for the adult categories will not be included in the ef-

fort since the programs will become Federal on January 1, 1974.

Prior to the adoption of the proposed regulation, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, DC 20201, on or before April 6, 1973. Comments received will be available for public inspection in Room 5121 of the Department's offices at 301 C Street SW., Washington, DC, on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202-963-7361).

The proposed regulation is to be issued under section 1102, 49 Stat. 647, 42 U.S.C. 1302.

Dated: January 5, 1973.

PHILIP J. RUTLEDGE,  
Acting Administrator, Social and  
Rehabilitation Service.

Approved: March 1, 1973.

CASPAR W. WEINBERGER,  
Secretary.

Part 204 of Chapter II, Title 45 of the Code of Federal Regulations is amended by adding a new § 204.2 to read as follows:

#### § 204.2 State plans—format.

State plans for federally-assisted programs for which the Social and Rehabilitation Service has responsibility must be

submitted to the service in the format and containing the information prescribed by the service, and within time limits set in implementing instructions by the service.

[FR Doc. 73-4376 Filed 3-6-73; 8:45 am]

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

#### [14 CFR Part 71]

[Airspace Docket No. 73-EA-8]

#### TRANSITION AREA

##### Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Indiana, Pa., transition area (38 FR 506).

A new LOC Runway 28 instrument approach procedure has been developed for Indiana County—Jimmy Stewart Field, Indiana, Pa., and will require alteration of the transition area to provide controlled airspace for aircraft executing the new procedure.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received on or before April 6, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Indiana, Pa., proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to amend the description of the Indiana, Pa., transition area by inserting after "Indiana County—Jimmy Stewart Field, Indiana, Pa." the following: "within 3.5 miles each side of the Indiana County—Jimmy Stewart Field ILS localizer east course, extending from the 7-mile radius area to 12 miles east of the OM (40°-37'19" N., 78°58'43" W.)."

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348)

## PROPOSED RULE MAKING

and section 8(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on February 21, 1973.

ROBERT H. STANTON,  
Acting Director, Eastern Region.  
[FR Doc. 73-4308 Filed 3-6-73; 8:45 am]

#### [14 CFR Part 71]

[Airspace Docket No. 73-OL-9]

#### TRANSITION AREA

##### Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Lockport, Ill.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Divisions, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018. All communications received on or before April 6, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

A new instrument approach procedure to the Lewis Lockport Airport, Lockport, Ill., has been developed. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Lockport, Ill. The new procedure will become effective concurrently with the designation of the transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is added:

LOCKPORT, ILL.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Lewis Lockport Airport (latitude 41°36'25" N.; longitude 88°05'10" W.).

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 8(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Ill., on February 12, 1973.

R. O. ZIEGLER,  
Acting Director,  
Great Lakes Region.

### National Highway Traffic Safety Administration

#### [49 CFR Part 571]

[Dockets Nos. 70-7, 71-3a, Notices 4, 3]

#### MOTOR VEHICLE SAFETY STANDARDS

##### Further Notice on Visibility Standards

Notices of proposed motor vehicle safety standards have been issued on the subjects of Fields of Direct View (Docket No. 70-7, 37 FR 7210, Apr. 12, 1972) and Indirect Visibility (Docket No. 71-3a, 36 FR 1156, Jan. 23, 1971). The NHTSA has decided, on the basis of comments received and other available information, to conduct further research and standards development before issuing a rule on these subjects. Accordingly, no such rule will be issued without another notice of proposed rulemaking and opportunity for public comment.

(Secs. 103, 110, Public Law 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1407; delegations of authority at 49 CFR 1.51 and 49 CFR 501.3)

Issued on March 2, 1973.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

[FR Doc. 73-4401 Filed 3-6-73; 8:45 am]

#### [49 CFR Part 575]

[Docket No. 25; Notice 4]

#### UNIFORM TIRE QUALITY GRADING

##### Consumer Information Regulations

This notice proposes a new consumer information regulation, Uniform Tire Quality Grading, designed to provide consumers with information to help them make an informed choice in the purchase of passenger car tires. A previous notice proposing a tire grading system was published September 21, 1971 (36 FR 18751). This notice supersedes the September 21, 1971, notice.

The regulation would require manufacturers and brand name owners to grade the performance of all passenger car tires having nominal rim diameters of 13, 14, and 15 inches in the areas of treadwear, traction, and high speed performance. Grading in areas of road hazard resistance, endurance, and uniformity and balance, proposed in the notice of September 21, 1971, has been omitted from this proposal. The NHTSA has found, on the basis of the comments received in response to that notice, that consumers are most interested in evaluations of tire tread life, traction, and high speed performance, and that it is desirable, in terms of public understanding, to limit grading information to the

performance factors the public considers important. It appeared from the comments that grading in many additional areas could cause confusion.

Consumers would be informed of the grade for each tire, in each of the three performance areas, by a symbol permanently molded into or onto the tire sidewall, and by a label attached to the tire tread which indicates both the grades for the particular tire, and an explanation of the various symbols. The label would also state that the tire meets Federal standards for safety. In addition, tire grading information would be required to be furnished to prospective purchasers of tires at each location where they are offered for sale. Finally, tire grading information for the tires on new passenger cars would also be required to be furnished to purchasers and prospective purchasers of these vehicles.

The grade a tire is given for treadwear would be based upon its performance when compared to a control tire, when both tires are placed on identical vehicles and driven over a 16,000 mile test course. The control tire proposed in the notice is a 2-ply rayon tire, the specifications for which are contained in the proposed rule. These specifications are tentative only, and the NHTSA requests specifically that comments be submitted regarding them. The NHTSA presently intends that the actual control tires used for testing purposes by manufacturers will be obtained from a source specified by NHTSA. The NHTSA plans to sample test control tires to determine uniformity, and to make available to manufacturers tires from uniform batches for use by them in their grading tests.

Control tires which NHTSA uses for compliance testing will likewise be taken from these batches. This procedure, which is optional with the manufacturer, is being proposed by NHTSA as a method of keeping to a minimum variations in the control tire (the test device), which can occur due to the nature of tire construction despite precise specifications. The NHTSA is of the opinion that this method will preserve necessary objectivity in the regulation, as manufacturers will have cognizance of full specifications for the test device, yet will eliminate as much as possible disparities in results between NHTSA and manufacturer tests which may still occur due to variations in control tires. Manufacturers who utilize tires obtained from the NHTSA source would be entitled to rely fully on the performance of these tires.

The proposed grades for treadwear, which would be molded into or onto the tire sidewall, are less than 60, representing a tire whose treadwear performance is less than 60 percent of that of the control tire, and the numbers 60, 85, 100, 150, or 200, representing that the tire can produce at least that percentage of the treadwear performance of the control tire. The NHTSA has decided that it is impractical to provide actual mileage figures for treadwear ratings because mileage figures vary widely depending upon such factors as geo-

graphic location, environmental effects, and individual driving habits.

The grades for traction would also reflect a tire's performance compared to the performance of the control tire. In this case, the grades molded into or onto the tire sidewall would be either a dash (—), or one, two, or three asterisks (\*), or five-pointed stars. The dash would represent a level of performance less than 90 percent of the performance of the control tire. One asterisk or star would represent a performance level of at least 90 percent of that of the control tire, two asterisks or stars would represent at least 100 percent, and three, at least 110 percent. The test for traction grading would utilize a two-wheel trailer built essentially to specifications in American Society and Materials Method E-274-70, Skid Resistance of Paved Surfaces Using a Full-Scale Tire. Traction tests would consist of equipping the trailer with a manufacturer's tires, and computing the average coefficient of friction obtained when the trailer's wheels are locked at 20, 40, and 60 m.p.h. on a surface having a wet skid number of 30, and then again, at each speed, on a surface having a wet skid number of 50. Grades would be obtained by comparing these results with results obtained when the control tire is tested similarly.

In grading high speed performance, the regulation would require an A, B, or C to be molded into or onto the tire sidewall, based on the tire's performance on the laboratory test wheel specified in the high speed performance test of Motor Vehicle Safety Standard No. 109, New Pneumatic Tires (49 CFR 571.109). The Standard No. 109 test specified in this proposal is that previously proposed in a notice of September 20, 1972 (37 FR 19381) that would amend the high speed and endurance test requirements of Standard No. 109. The requirements ultimately specified as a result of that notice will be incorporated into the final Uniform Tire Quality Grading regulation. A grade of C would be applied to tires which only pass the requirements of Standard No. 109. A grade of B would be applied to tires that, in addition to passing the Standard No. 109 tests, withstand two 1-hour tests on the test wheel at 90 and 95 m.p.h. Tires eligible for a grade of A would be required further to withstand two 1-hour tests at 100 and 105 m.p.h. An explanation in lay terms of what each high speed grade means, in terms of suitable use, would be included on the label attached to the tire. Proposed effective date: September 1, 1974.

Interested persons are invited to submit comments on the proposal. Comments are requested specifically on methods and procedures for testing tires designed for use on other than 13-inch, 14-inch, and 15-inch rims. Comments should refer to the docket and notice numbers (Docket No. 25; Notice 4), and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, DC 20590. It is re-

quested but not required that 10 copies be submitted.

All comments received before the close of business on June 4, 1973, will be considered, and will be available for examination in the docket at the above address both before and after the closing date. To the extent possible, comments filed after the above date will also be considered. However, the rule making action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule making. Relevant material will continue to be filed, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

In light of the above, it is proposed that Part 575, Title 49, Code of Federal Regulations, be amended as set forth below.

(Secs. 103, 112, 119, 201, 203, Public Law 89-563, 80 Stat. 718; 15 U.S.C. 1392, 1401, 1407, 1421, 1423; delegations of authority at 49 CFR 1.51; 49 CFR 501.8)

Issued on February 28, 1973.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

1. Sections 575.4 and 575.6 would be revised to read as follows:

§ 575.4 Application.

(a) General. Except as provided in paragraphs (b) through (d) of this section, each section set forth in Subpart B of this part applies according to its terms to motor vehicles and tires manufactured after the effective date indicated.

(b) Military vehicles. This part does not apply to motor vehicles or tires sold directly to the Armed Forces of the United States in conformity with contractual specifications.

(c) Export. This part does not apply to motor vehicles or tires intended solely for export and so labeled or tagged.

(d) Import. This part does not apply to motor vehicles or tires imported for purposes other than resale.

§ 575.6 Requirements.

(a) At the time a motor vehicle is delivered to the first purchaser for purposes other than resale, the manufacturer of that vehicle shall provide to that purchaser, in writing and in the English language, the information specified in Subpart B of this part that is applicable to that vehicle and its tires. The document provided with a vehicle may contain more than one table, but the document must clearly and unconditionally indicate which of the tables applies to the vehicle and its tires.

Example 1. Manufacturer X furnishes a document containing several tables, which apply to various groups of vehicles that it produces. The document contains the following notation on its front page: "The information that applies to this vehicle is contained in Table 5." The notation satisfies the requirement.

Example 2. Manufacturer X furnishes a document containing several tables as in Example 1, with the following notation on its front page:

Information applies as follows:  
Model P, 6-cylinder engine—Table 1.  
Model P, 8-cylinder engine—Table 2.  
Model Q—Table 3.

This notation does not satisfy the requirement, since it is conditioned on the model or the equipment of the vehicle with which the document is furnished, and therefore additional information is required to select the proper table.

(b) At the time a motor vehicle tire is delivered to the first purchaser for a purpose other than resale, the manufacturer of that tire, or in the case of a tire marketed under a brand name, the brand name owner, shall provide to that purchaser the information specified in Subpart B of this part that is applicable to that tire, in the manner specified in § 571.104 of this chapter.

(c) Each manufacturer of motor vehicles, each brand name owner of tires, and each manufacturer of tires for which there is no brand name owner shall provide for examination by prospective purchasers, at each location where its vehicles or tires are offered for sale by a person with whom the manufacturer or brand name owner has a contractual, proprietary, or other legal relationship, or by a person who has such a relationship with a distributor of the manufacturer or brand name owner concerning the vehicle or tire in question, the information specified in Subpart B of this part that is applicable to each of the vehicles or tires offered for sale at that location. With respect to newly introduced vehicles or tires, the information shall be provided for examination by prospective purchasers not later than the day on which the manufacturer or brand name owner first authorizes those vehicles or tires to be put on general public display and sold to consumers.

(d) Each manufacturer of motor vehicles, each brand name owner of tires, and each manufacturer of tires for which there is no brand name owner shall submit to the Administrator 10 copies of the information specified in Subpart B of this part that is applicable to the vehicles or tires offered for sale, at least 30 days before that information is first provided for examination by prospective purchasers pursuant to paragraph (c) of this section.

2. A new § 575.104 would be added to read as follows:

#### § 575.104 Uniform tire quality grading.

(a) *Scope.* This section requires tire manufacturers and brand name owners to provide information indicating the relative performance of passenger car tires in the areas of treadwear, traction, and high speed performance.

(b) *Purpose.* The purpose of this section is to aid the consumer in making an informed choice in the purchase of passenger car tires.

(c) *Application.* This section applies to new pneumatic tires for use on passenger cars manufactured after 1948. However,

this section does not apply to deep tread, winter-type snow tires or to tires having rim sizes other than 13, 14, or 15 inches.

(d) *Requirements.* Each manufacturer of tires, or in the case of tires marketed under a brand name, each brand name owner, shall furnish the information specified in paragraph (d) (1) through (4) of this section, in the form illustrated in Figure 1, in letters not less than three thirty-seconds of an inch high, on a label affixed to the tread surface of each tire in a manner such that it is not easily removable. In addition, letters, figures, and symbols indicating the quality grades assigned to the tire shall be permanently molded into or onto one sidewall of the tire between the maximum section width and the bead as illustrated in Figure 2. No symbols other than those specified shall be used to indicate performance grades. Each such tire shall be capable, under the conditions and procedures specified in this section, of performing at least as well in each area as the grade placed on the tire indicates.

(1) The statement: This tire conforms to Federal safety requirements.

(2) The phrase, "less than 60," or the number 60, 85, 100, 125, 150, or 200, representing the tire's grade for treadwear, when the tire is tested in accordance with the general conditions specified in paragraph (e) of this section and the treadwear grading conditions and procedure specified in paragraph (f) of this section.

(i) The tire shall be graded "less than 60" if the value obtained pursuant to paragraph (f) (2) (ix) of this section is less than 60 percent.

(ii) The tire may be graded 60 only if the value obtained pursuant to paragraph (f) (2) (ix) of this section is 60 percent or more.

(iii) The tire may be graded 85 only if the value obtained pursuant to paragraph (f) (2) (ix) of this section is 85 percent or more.

(iv) The tire may be graded 100 only if the value obtained pursuant to paragraph (f) (2) (ix) of this section is 100 percent or more.

(v) The tire may be graded 125 only if the value obtained pursuant to paragraph (f) (2) (ix) of this section is 125 percent or more.

(vi) The tire may be graded 150 only if the value obtained pursuant to paragraph (f) (2) (ix) of this section is 150 percent or more.

(vii) The tire may be graded 200 only if the value obtained pursuant to paragraph (f) (2) (ix) of this section is 200 percent or more.

(3) The symbol—, \*, \*\*, or \*\*\* (either asterisks or five-pointed stars may be used) representing the tire's grade for traction, when the tire is tested in accordance with the general conditions specified in paragraph (e) of this section and the traction grading conditions and procedure specified in paragraph (g) of this section.

(i) The tire shall be graded — if the value obtained pursuant to paragraph (g) (2) (xi) of this section is less than 90 percent.

(ii) The tire may be graded \* only if the value obtained pursuant to paragraph (g) (2) (xi) of this section is 90 percent or more.

(iii) The tire may be graded \*\* only if the value obtained pursuant to paragraph (g) (2) (xi) of this section is 100 percent or more.

(iv) The tire may be graded \*\*\* only if the value obtained pursuant to paragraph (g) (2) (xi) of this section is 110 percent or more.

(4) The letter A, B, or C, representing the tire's grade for high speed performance, when the tire is tested in accordance with the general conditions specified in paragraph (e) of this section, and the high speed performance grading procedure specified in paragraph (h) of this section. A tire shall be considered to have completed a test stage if, at the end of the stage, the tire pressure is not less than 95 percent of the pressure specified in paragraph (h) (1) of this section, and the tire exhibits no displacement of any portion of the tire from its design position, including partial or complete separation of any portion or component of the tire from any other portion or component. It may exhibit exposed chafer fabric and surface cracking that does not expose ply cord or belt cord, but no crack in a tread groove may exceed three-sixteenths of an inch in length.

(i) The tire shall be graded C if it fails to complete the 425 r.p.m. test stage specified in paragraph (h) (9) of this section.

(ii) The tire may be graded B only if it completes the 475 r.p.m. test stage specified in paragraph (h) (9) of this section.

(iii) The tire may be graded A only if it completes the 525 r.p.m. test stage specified in paragraph (h) (9) of this section.

(e) *General conditions.* (1) Each tire shall be able to achieve the level of performance indicated by the grade it is given for each area of performance. An individual tire need not, however, meet further requirements after having been subjected to any one of the following:

(i) The test for grading treadwear (paragraph (f) of this section);

(ii) The test for grading traction (paragraph (g) of this section); or

(iii) The test for grading high speed performance (paragraph (h) of this section).

(2) In the case of the high speed performance test specified in paragraph (h) of this section, each tire shall meet the performance level indicated by the grade it is given when tested on any "test rim" as defined in § 571.109 of this chapter (Motor Vehicle Safety Standard No. 109).

(f) *Treadwear grading.* (1) *Conditions.* (i) The control tires are the 2-ply rayon tires specified in paragraph (i) of this section in sizes 6.50-13, 7.75-14, and 8.55-15.

(ii) The test roadway is any route of 16,000 miles on which, at completion of the procedure specified in paragraph (f) (2) of this section, the tread of the

control tire, measured as specified in paragraph (f) (2) (i) of this section is worn between 65 percent and 90 percent of its original depth.

(ii) A test convoy consists of no more than four identical passenger cars. Each vehicle maintains its position relative to the other vehicles during the test, and except for the lead vehicle, is throughout the test within human eye range of the vehicle immediately preceding it.

(iv) Wheel alignment is that specified by the vehicle manufacturer, and is maintained throughout the test.

(2) *Procedures.* (i) Obtain the average original tread depth of each control tire and each candidate tire to be used in the test by measuring the depth of each continuous rib at six equidistant points around the tire, avoiding tread wear indicators. Average all values obtained. In the case of control tires, obtain the average tread depth of all four tires placed on the test vehicle pursuant to paragraph (f) (2) (i) (A) of this section. In tires having lug-tread designs, obtain the average tread depth by measuring the tread depth at six equidistant points around the tire at a distance from both sides of the tire center line equal to one-third of the width of the tire tread, and averaging all values obtained.

(ii) Equip a test convoy with the control and candidate tires, as follows:

(A) One vehicle with four control tires of identical size, and

(B) Each other vehicle with four candidate tires of the same type, trade name or line, and size designation, and having the same rim size as the control tire.

(iii) Inflate each control tire to a cold inflation pressure of 24 p.s.i. Inflate each candidate tire to a cold inflation pressure 8 pounds less than its maximum permissible inflation pressure.

(iv) Load the vehicle equipped with control tires so that the load on each tire is the maximum load specified for the tire at 24 p.s.i. in the 1972 Tire and Rim Association, Inc., Yearbook. Load each vehicle equipped with candidate tires so that the load on each tire is that specified in Appendix A of § 571.109 of this chapter (Motor Vehicle Safety Standard No. 109) for the inflation pressure at which the tire is inflated.

(v) Drive the convoy on the test roadway described in paragraph (f) (1) (ii) of this section for 1,000 miles.

(vi) Stop the convoy, and rotate each vehicle's tires clockwise on that vehicle one wheel position. However, rotate radial tires only by interchanging the right front tire with the right rear tire, and the left front tire with the left rear tire. Repeat this procedure every subsequent 1,000 miles.

(vii) In addition to the procedure specified in paragraph (f) (2) (vi) of this section, at 4,000 miles and every 4,000-mile interval thereafter, advance each set of tires to the next forward vehicle, placing the tires of the lead vehicle on the rearmost vehicle.

(viii) At the end of 16,000 miles, or whenever a candidate tire is worn to a tread depth of zero at any of the measuring points established pursuant to paragraph (f) (2) (i) of this section, stop the

#### PROPOSED RULE MAKING

graph (f) (2) (i) of this section, stop the vehicle, remove its tires, allow them to cool to ambient temperature, and measure the average tread depth of each tire in the manner specified and at the measuring points established in paragraph (f) (2) (i) of this section.

(ix) Compute the percentage (P) of control tire wear experienced by each candidate tire, using the following formula:

$$P = \frac{A_o(C_o - C_c)}{C_o(A_o - A_c)} \times 100$$

where:

A<sub>o</sub> = candidate tire's average original tread depth.

A<sub>c</sub> = candidate tire's average worn tread depth.

C<sub>o</sub> = control tire's average original tread depth.

C<sub>c</sub> = control tire's average worn tread depth.

(g) *Traction grading.* (1) *Conditions.* (i) The control tires are the two-ply rayon tires specified in paragraph (i) of this section in sizes 6.50-13, 7.75-14, and 8.55-15.

(ii) A control tire is discarded when its non-skid depth is worn 0.100 inches at any point.

(iii) Before testing, protuberances (except for treadwear indicators) that are not part of the tread design are removed from candidate and control tires.

(iv) Ambient temperatures are any temperatures between 40° F. and 80° F.

(2) *Procedures.* (i) Mount two identical control tires on a test trailer built in conformity with the specifications in Paragraph 3, "Apparatus," of American Society for Testing and Materials Method E-274-70, except that

(a) "Wheel load" in paragraph 3.2.2 of that method shall be as specified in paragraph (g) (2) (iii) of this section and

(b) Tire and rim specifications in paragraph 3.2.3 of that method shall be candidate and control tires, as appropriate, and rims for the size of tire graded.

(ii) Inflate the tires to a cold inflation pressure of 24 p.s.i.

(iii) Load the trailer so that the load on each tire equals the tire's maximum design load at 24 p.s.i. as specified in the 1972 Tire and Rim Association, Inc. Yearbook.

(iv) Tow the trailer at 20 m.p.h.

(v) On a surface having a wet skid number of 30, determined pursuant to American Society for Testing and Materials Method E-274-70, "Skid Resistance of Paved Surfaces Using a Full-Scale Tire," except that the control tire specified in paragraph (i) of this section rather than the ASTM tire shall be used to determine skid number, lock the trailer's brakes for 2 seconds while maintaining its forward speed.

(vi) Record the retarding force on the tire at the tire-ground interface continuously from 0.2 to 1.2 seconds after wheel lockup, and compute the average retarding force over that interval.

(vii) Compute the average coefficient of friction, at the tire-ground interface ("20"), in the manner specified for calculating skid number (SN) in paragraphs

8.1 and 8.2 of American Society for Testing and Materials Method E-274-70.

(viii) Repeat the procedures specified in subdivisions (i) through (vii) of this subparagraph except with the trailer towed at 40 m.p.h., and again at 60 m.p.h.

(ix) Repeat the procedures specified in paragraph (g) (2) (i) through (viii) of this section on a surface with a wet skid number of 50, determined pursuant to American Society for Testing and Materials Method E-274-70, "Skid Resistance of Paved Surfaces Using a Full-Scale Tire," except with a control tire specified in paragraph (i) of this section rather than the ASTM tire used to determine skid number.

(x) Equip the trailer with 2 candidate tires, of the same type, trade name or line, and size designation, and having the same rim size as the control tire, inflated to a cold inflation pressure 8 pounds less than their maximum permissible inflation pressure, loaded to the weight specified for the tire at that inflation pressure in Appendix A of § 571.109 of this chapter (Motor Vehicle Safety Standard No. 109), and repeat the procedures specified in paragraph (g) (2) (iv) through (ix) of this subparagraph.

(xi) Compute the candidate tire's traction grade, as the ratio of its average friction coefficient to that of the control tire, expressed as a percentage (Q), as follows:

$$Q = \frac{20 + 40 + 60 + 80 + 100 + 120 + 140 + 160}{20 + 40 + 60 + 80 + 100 + 120 + 140 + 160} \times 100$$

where " and " refer to the average, measured friction coefficient for a test of candidate and control tire respectively, on a surface with wet skid number of 30, " and " the same for a surface with wet skid number of 50, and the subscripts refer to the test speeds in m.p.h.

(h) *High speed performance grading.* (i) Mount the tire on a test rim and inflate it to 2 pounds less than its maximum permissible inflation pressure.

(2) Condition the tire-rim assembly at an ambient temperature of 100° F. for 3 hours.

(3) Adjust the pressure again to 2 pounds less than its maximum permissible inflation pressure.

(4) Mount the tire-rim assembly on an axle, and press the tire tread against the surface of a flat-faced steel test wheel that is 67.23 inches in diameter and at least as wide as the section width of the tire.

(5) During the test, including the pressure measurements specified in paragraphs (h) (1) and (3) of this section, maintain the temperature of the ambient air, as measured 12 inches from the edge of the rim flange at any point on the circumference on either side of the tire, at 100° F. Locate the temperature sensor so that its readings are not affected by heat radiation, drafts, variations in the temperature of the surrounding air, or guards or other devices.

(6) Press the tire against the test wheel at the load specified in Appendix A of § 571.109 of this chapter (Motor Vehicle Safety Standard No. 109) for the tire's

## PROPOSED RULE MAKING

size designation and type, at the inflation pressure that is 8 pounds less than the tire's maximum permissible inflation pressure.

(7) Rotate the test wheel at 250 r.p.m. for 2 hours.

(8) Remove the load, allow the tire to cool to 100° F. or for 2 hours, whichever occurs last, and readjust the inflation pressure to 2 pounds less than the tire's maximum permissible inflation pressure.

(9) Reapply the load and without interruption or readjustment of inflation pressure, rotate the test wheel at 375 r.p.m. for 30 minutes, then at 400 r.p.m. for 30 minutes, and then for 1 hour each at 425 r.p.m., 450 r.p.m., 475 r.p.m., 500 r.p.m., and 525 r.p.m. respectively, or to failure, whichever occurs first.

(1) *Control tire.* The control tires used in grading treadwear and traction performance of passenger car tires shall conform to the specifications of this paragraph.

(1) *Rubber compound—formula.* The formula for rubber compound for use in both the tread and sidewall of the tire is set forth in Table I.

RUBBER FORMULA	
	Parts
SBR-1714	97.5
Polybutadiene (approximately 95 percent CIS)	35.0
N-242 (ISAF-HS) carbon black	75.0
Hi aromatic petroleum oil	14.0
Zinc oxide	3.0
Stearic acid	2.0
Wax—fully refined paraffin	2.0
Antioxidant-Antiozonant (Santoflex 77 or equivalent)	1.4
Antioxidant-Antiozonant (Santoflex 13 or equivalent)	1.4
CBS (Santocure)	1.1
DPG	1.1
Sulfur	1.8
Total	234.3

TABLE I

(2) *Rubber compound—physical characteristics.* The rubber compound used in the tread and sidewall has the physical characteristics set forth in Table II.

PHYSICAL CHARACTERISTICS

(3) *Mold dimensions.* The dimensions for control tire molds are set forth in Table III and NHTSA Drawings Nos. 1000, 1001, and 1002.

TABLE III.—MOLD DIMENSIONS<sup>1</sup>

	NHTSA Dwg. No. 1000	NHTSA Dwg. No. 1001	NHTSA Dwg. No. 1002
Tire size	6.50-13	7.75-14	8.55-15
Nominal bead dia.	13.00	14.00	15.00
Mold cavity outside dia.	24.730	26.920	28.530
Cavity cross section	6.600	7.718	8.400
Cavity bead width	4.500	5.800	6.000
Seal. ht. from nominal bead dia. (ref.)	5.805	6.460	6.765
Horizontal c/l major dia.	18.200	19.624	20.875
Ht. of rim centering rib	0.781	0.828	0.812
Distance from horizontal c/l to nominal lead diameter (ref.)	2.625	2.812	2.938
Cavity radius above horiz. c/l	2.625R	3.031R	3.062R
Cavity radius below horiz. c/l	2.938R	3.281R	3.250R
Floating radius between lower and upper sidewall	0.500R	0.500R	0.500R
Distance from nominal bead dia. (ref.) to bead ring cavity radius	0.214	0.214	0.273
Bead ring cavity radius	0.380	0.380	0.350
Nonskid depth	0.535	0.545	0.555
Cavity radius on c/l	8.250R	9.500R	10.500R
Top of nonskid	7.915R	9.115R	10.145R
Bottom of nonskid	1.856	2.277	2.421
Cavity tread are measured horizontally from c/l	0.211	0.277	0.288
Shoulder drop	0.531R	0.531R	0.500R
Cavity tread are shoulder radius	6.500R	8.000R	8.000R
Floating radius between cavity shoulder radius and radius of cavity upper sidewall	3.740	4.500	4.890
Developed tread width	0.160	0.200	0.210
Tread groove width	0.620	0.760	0.810
Tread rib width	12.900	13.900	14.900
Bead rings (steel) dia. at heel	0.250R	0.250R	0.260R
Radius at heel			

<sup>1</sup> All mold dimensions are in inches and are based on nominal rim diameter. Mold manufacturers' tolerances: ±0.005 inch.

## PROPOSED RULE MAKING

(4) *Rim centering rib.* The rim centering rib has a width of 0.062 inch, a depth of 0.047 inch, and a radius of 0.047 inch at the mold surface.

(5) *Treadwear indicators.* Treadwear indicators having a height of 0.062 inch, a length at the bottom (base of tread groove) of 1.000 inch, a length at the top of 0.500 inch, and a radius at each end of 0.100 inch, are placed across the width of the tread at 6 equidistant points around the circumference of the mold.

(6) *Grooves.* Each groove is parallel to the tread arc radius and has a full radius at the bottom.

(7) *Tread vents.* (i) Each tread vent is radial to the tread surface.

(ii) The male half of the mold contains 24 equidistant void vents, each having a height of one-sixteenth inch and a width of one-sixteenth inch.

(iii) Each tread rib contains 20 equidistant vents each having a diameter of 0.082 inch (No. 45 drill), staggered 0.094 inch from each groove edge, and 0.250 inch from the shoulder.

(8) *Shoulder vents.* (i) Each shoulder vent has a diameter of 0.052 inch (No. 55 drill). Each vent is chamfered at 0.040 inch radius at the mold surface.

(ii) Each mold half contains 10 vents placed in line with void vents, 0.250 inch from the shoulder.

(iii) The top mold half contains one row of 16 equidistant vents placed midway between the horizontal centerline and the junction of the shoulder radius and the shoulder.

(iv) The bottom mold half contains one row of 16 equidistant vents placed midway between the horizontal centerline and the junction of the shoulder radius and the shoulder.

(9) *Sidewall vents.* (i) Each sidewall vent has a diameter of 0.052 inch (No. 55 drill). Each vent is chamfered at 0.040 inch radius at the mold surface.

(ii) The top mold half contains two rows of 16 equidistant vents placed midway between the rim centering rib and the horizontal centerline.

(iii) The bottom mold half contains three rows of 16 equidistant vents placed midway between the rim centering rib and the horizontal centerline.

(10) *Branding.* (i) The labeling specified in paragraph S4.3 of §571.109 of this chapter (Motor Vehicle Safety Standard No. 109) (omitting paragraphs S4.3.1, S4.3.2, and S4.3.3) is branded into each mold half in accordance with that paragraph.

(ii) The legend, NHTSA Control Tire—Do Not Use Except for Testing Purposes is branded into each mold half, in letters 0.5000-inch high, 0.020-inch deep, between the maximum section width and rim centering rib.

(iii) One of the following legends is branded into each mold half, in letters one-sixteenth-inch high, one-eighth-inch above the rim centering rib:

(A) In the case of the 6.50-13 control tire: 6.50-13—Test at 24 p.s.i.—980 lbs.

(B) In the case of the 7.75-14 control tire: 7.75-14—Test at 24 p.s.i.—1,270 lbs.

(C) In the case of the 8.55-15 control tire: 8.55-15—Test at 24 p.s.i.—1,510 lbs.

(11) *Miscellaneous construction requirements.* Miscellaneous construction requirements for the control tires are set forth in Table IV.

TABLE IV.—TIRE CONSTRUCTION<sup>1</sup>

Tire size	6.50-13	7.75-14	8.55-15
Number of plies	2	2	2
Unit tread and side-wall	Yes	Yes	Yes
Under tread thickness	0.10	0.10	0.10
Cured angle	36° ± 2°	36° ± 2°	36° ± 2°
Fabric, rayon	1650/3	2300/3	2300/3
Ends per inch at calendar	24	22	22
Calendar gauge:			
1st ply	0.081	0.056	0.056
2nd ply	0.049	0.034	0.034
Moisture in fabric at calendar	1 percent or less	1 percent or less	1 percent or less
Bead (0.037 dia. wire)	1 strand, 4 layers	4 strands, 6 layers	4 strands, 6 layers
Bead filler (Apex)	Optional	Optional	Optional
Bead wrap (cotton, 7 or sq. yd.)	154	154	154
Width	0.024	0.024	0.024
Bead wire winding dia.	13.15	14.15	16.15
Innerliner (chloro-butyl) gauge	0.055	0.058	0.058
Rim width	4.50	5.50	6.00
Section width <sup>2</sup>	6.60	7.75	8.45
Overall diameter <sup>3</sup>	24.58	28.96	28.82
Chamber (nylon monofilament):			
Gauge	0.045	0.045	0.045
Width	2	2	2

<sup>1</sup> Dimensions are in inches unless otherwise specified.  
<sup>2</sup> Turn-up heights and "step-offs" to follow tire manufacturer's standard practice.  
<sup>3</sup> Overall width may exceed section width by 7 percent.  
<sup>4</sup> May be exceeded by 7 percent, computed as follows: OD' = 1.07 (OD - ND) + ND, where OD = stated overall diameter, ND = nominal diameter, and OD' = adjusted overall diameter.

(12) *Skid number.* A control tire suitable for purposes of grading treadwear and traction pursuant to this section shall, when tested on a surface having a wet skid number of 30, determined in accordance with American Society for Testing and Materials (ASTM) E274-70, Skid Resistance of Paved Surfaces Using a Full-Scale Tire except with a control tire rather than the ASTM tire used to determine skid number, produce a wet skid number of 30 ± 10 percent.

FIGURE 1.—DOT TIRE QUALITY GRADES  
 THIS TIRE CONFORMS TO FEDERAL SAFETY REQUIREMENTS

Tire grade	Performance
Treadwear, less than 60	Below 60 percent of NHTSA control tire <sup>1</sup>
60	At least 60 percent.
85	At least 85 percent.
100	At least 100 percent.
125	At least 125 percent.

150----- At least 150 percent.  
 200----- At least 200 percent.

This tire is graded -----

Traction: ----- Below 90 percent of NHTSA control tire<sup>1</sup>

----- At least 90 percent.

----- At least 100 percent.

----- At least 110 percent.

This tire is graded -----

High speed performance:

A----- Meets 105 m.p.h. laboratory wheel test. Suitable for frequent and prolonged driving on roads with no speed limitations.

B----- Meets 95 m.p.h. laboratory wheel test. Suitable for frequent and prolonged driving on roads with speed limitations up to 85 m.p.h.

C----- Meets 85 m.p.h. laboratory wheel test. Suitable for driving at speed up to 70 m.p.h., but infrequent driving at higher speeds.

This tire is graded -----

<sup>1</sup> The NHTSA control tires are not available to the general public and are designed and constructed to give consistent test results. Comparative results, and not actual values, are indicated in the treadwear and traction grading scales as these aspects of tire performance are affected by geographic location, environmental effects, and driving habits.

## FOREIGN CURRENCIES

## Rates of Exchange

FEBRUARY 26, 1973.

The appended table shows the rates of exchange certified to the Secretary of the Treasury by the Federal Reserve Bank of New York pursuant to section 522(c), Tariff Act of 1930, as amended (31 U.S.C. 372(c)), which are applicable to the cur-

rencies of the countries listed in §16.4(d), Customs regulations (19 CFR 16.4(d)), for the period from February 9 through February 16, 1973. This table is published for the information and use of Customs officers and others concerned to show the amount of variation in these exchange rates following the devaluation of the U.S. dollar which took effect on February 13, 1973.

## Internal Revenue Service

[Order 128]

## ASSISTANT COMMISSIONER (STABILIZATION), ET AL

## Delegation of Authority Regarding Implementation of Stabilization of Certain Prices, Wages and Salaries

1. Pursuant to the authority delegated to the Commissioner of Internal Revenue by Cost of Living Council Order No. 15 in connection with the administration of the Economic Stabilization Act of 1970, as amended, the following authority is hereby redelegated to:

Assistant Commissioner (Stabilization)

Regional Commissioners

Assistant Regional Commissioners (Stabilization)

District Directors

2. The authority hereby being redelegated, subject to the policy guidance and direction of the Director of the Cost of

Living Council (the Director CLC), consists of authority to perform the following functions:

(a) Operation and maintenance of local service and compliance centers established in support of the Economic Stabilization Program in Standard Metropolitan Statistical Areas and such other places as the Commissioner may determine;

(b) Dissemination of information and informal guidance in response to inquiries from the public, except that inquiries received with respect to firms with annual sales or revenues of \$50 million or more or pay units of 1,000 employees or more shall be forwarded to the Director CLC for response;

(c) All functions previously delegated to the Secretary of the Treasury, the Commissioner or District Directors of the Internal Revenue Service applicable to the food industry or the health services industry by the Pay Board or the Price

Commission, except that matters involving firms with annual sales or revenue of \$50 million or more or pay units of 1,000 employees or more shall be forwarded to the Director CLC for response;

(d) Conducting investigations as directed by the Director CLC;

(e) Receiving, investigating, and resolving by obtaining compliance, where possible, complaints received with respect to program violations in the food industry and the health services industry and recommending enforcement action to the Director CLC, where necessary; and

(f) Maintaining adequate records and the making of periodic reports to the Director CLC.

3. The authority delegated herein may be redelegated only by the officials specified in this order and may not be redelegated by those officials to whom the specified officials redelegate.

4. Internal Revenue Service Delegation Orders 121, 123, 124, and 126 are hereby superseded, except that actions in process relating to Phase II matters shall be expeditiously completed.

This delegation shall be effective as of January 11, 1973.

Issued: February 28, 1973.

[SEAL] JOHNNIE M. WALTERS,  
Commissioner.

## Office of the Secretary

## PIG IRON FROM BRAZIL

## Determination of Sales at Not Less Than Fair Value

MARCH 2, 1973.

On November 21, 1972, there was published in the FEDERAL REGISTER a notice of tentative negative determination (37 FR 24771) that pig iron from Brazil is not being, nor is likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)) (referred to in this notice as "the Act").

The statement of reasons for the tentative determination was published in the above-mentioned notice and interested parties were afforded an opportunity to make written submissions and to present oral views in connection with the tentative determination.

No written submissions or requests to present oral views having been received, I hereby determine that, for the reasons stated in the tentative determination, pig iron from Brazil is not being, nor is likely to be, sold at less than fair value

(section 201(a) of the Act; 19 U.S.C. 160(a)).

This determination is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)) and section 153.33(b), Customs Regulations (19 CFR 153.33(b)).

[SEAL] MATTHEW J. MARKS,  
Acting Assistant Secretary  
of the Treasury.

#### Office of Hearings and Appeals

[Docket No. M 73-29]

#### PITTSBURG & MIDWAY COAL MINING CO. Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), the Pittsburgh & Midway Coal Mining Co. has filed a petition to modify the application of 30 CFR 77.1303 (e) and (g) to its Mine No. 19 in Cherokee County, Kans., and Empire Mine in Barton County, Mo.:

30 CFR 77.1303 (e) and (g) read as follows:

(e) Where electric blasting is to be performed, electric circuits to equipment in the immediate area to be blasted shall be deenergized before explosives or detonators are brought into the area; the power shall not be turned on again until after the shots are fired.

(g) Areas in which charged holes are awaiting firing shall be guarded, or barricaded and posted, or flagged against unauthorized entry.

Petitioner requests that the standard be modified to allow normal mining activities to be conducted nearby or in the vicinity of loaded horizontal drill holes, each drill hole being properly loaded with explosives, primers, a primer cord and properly tamped inert material, and effectively insulated from the outside by a wood plug. The wood plug will be of such shape and design as to fit tightly within and completely seal the opening to the drill hole and provide absolute protection against premature detonation.

Petitioner contends that the proposed alternate method will at all times guarantee no less than the same measure of protection afforded the miners at the affected mine by 30 CFR 77.1303 (e) and (g) and will not result in a diminution of safety in any respect. Petitioner further alleges that the alternate method will in fact improve the safety and efficiency of the mining operation because it will eliminate the problems and risks attendant to loading drill holes which have become partially blocked or closed, as well as the hazards of secondary shooting often resulting from partially blocked or closed drill holes.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before April 6, 1973. Such request or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 6432 Federal Building, Salt Lake City, Utah 84111. Copies of the petition are available for inspection at that address.

JAMES M. DAY,

Director,  
Office of Hearings and Appeals.

#### Office of the Secretary

WILLIAM P. HENNE

#### Report of Appointment and Statement of Financial Interests

JANUARY 11, 1973.

Pursuant to section 302(a) of Executive Order 10647, the following information on a WOC appointee in the Department of the Interior is furnished for publication in the FEDERAL REGISTER:

Name of appointee: William P. Henne.  
Name of employing agency: Department of the Interior, Defense Electric Power Administration.

The title of the appointee's position: Deputy Director, DEPA Area 8.

The name of the appointee's private employer or employers: Union Electric Co.

The statement of "financial interests" for the above appointee is enclosed.

ROGERS C. B. MORTON,  
Secretary of the Interior.

#### APPOINTEE'S STATEMENT OF FINANCIAL INTERESTS

In accordance with the requirements of section 302(b) of Executive Order 10647, I am filing the following statement for publication in the FEDERAL REGISTER:

(1) Names of any corporations of which I am, or had been within 60 days preceding my appointment, on January 11, 1973, as Deputy Director, Area 8, Defense Electric Power Administration, an officer or director:

None.

(2) Names of any corporations in which I own, or did own within 60 days preceding my appointment, any stocks, bonds, or other financial interests:

Union Electric Co.

(3) Names of any partnerships in which I am associated, or had been associated within 60 days preceding my appointment:

None.

(4) Names of any other businesses in which I own, or owned within 60 days preceding my appointment:

None.

WILLIAM P. HENNE.

Dated: January 24, 1973.

[INT FEB 73-10]

#### SAN JUAN GENERATING STATION, COAL MINE, AND TRANSMISSION LINES

#### Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the San Juan Generating Station, Coal Mine, and Transmission Lines. The first 345-MW unit of this generating station is under construction by Public Service Company of New Mexico and Tucson Gas & Electric Co. in San Juan County, N. Mex. Transmission lines of 345-KV are planned from the station to points near Tucson, Ariz., approximately 400 miles; Espanola, N. Mex., approximately 160 miles; and two lines to the Four Corners Generating Station area, about 9 miles distant. Coal for the station will initially be supplied from a strip mine adjacent to the station site to be operated by Utah International, Inc.

Copies are available for inspection at the following locations:

Office of Communications, Room 7220, Department of the Interior, Washington, D.C. 20240, Telephone 202-343-9247.

Office of Ecology, Room 7620, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240, Telephone 202-343-4091.

Division of Engineering Support, Technical Services Branch, E&E Center, Denver Federal Center, Denver, Colo., 80225, Telephone 303-234-3007.

Office of the Regional Director, Bureau of Reclamation, Department of the Interior, Post Office Box 11568, Salt Lake City, UT 84111, Telephone 801-524-5540.

Bureau of Reclamation, Department of the Interior, 1000 Municipal Drive, Farmington, NM 87401, Telephone 505-325-1794.

Bureau of Land Management, Department of the Interior, South Federal Plaza, Post Office Box 1449, Santa Fe, NM 87501, Telephone 505-982-9217.

Forest Service, Department of Agriculture, Region 3, 517 Gold Avenue SW., Albuquerque, NM 87101, Telephone 505-982-3327.

Single copies of the final statement may be obtained on request to the Commissioner of Reclamation or the Regional Director. In addition, copies may be purchased from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151. Please refer to the statement number above.

WILLIAM W. LYONS,  
Deputy Assistant Secretary  
of the Interior.

MARCH 1, 1973.

[FR Doc.73-4363 Filed 3-6-73; 8:45 am]

#### TINICUM NATIONAL ENVIRONMENTAL CENTER, PENNSYLVANIA

#### Notice of Establishment

Whereas, the act of June 30, 1972 (86 Stat. 391), authorizes the Secretary of the Interior to establish the Tincum National Environmental Center, Pennsylvania, for administration as a unit of the National Wildlife Refuge System, and Whereas, section 2 of that act provides that the Secretary shall acquire by donation, purchase with donated or appropriated funds, by exchange of federally owned lands in the vicinity, not to exceed 1,200 acres of land in the Counties of Delaware and Philadelphia, Commonwealth of Pennsylvania, and

Whereas, section 2 of the act further provides that a description by metes and bounds of the proposed Tincum National Environmental Center shall be published in the FEDERAL REGISTER, and that a scale drawing thereof shall be available in the Office of the Secretary, and such other place and places in the vicinity of the proposed center as will afford interested parties easy access to information respecting the proposed center.

Now, therefore, notice is given that the Tincum National Environmental Center is established on Federal lands and lands or interests in lands hereafter acquired within the boundary described as follows:

Beginning on the easterly edge of Wanamaker Avenue at the centerline of Darby Creek; thence easterly, along the centerline of Darby Creek, 1,720 feet, more or less; thence northerly, along the centerline of an inlet, 600 feet, more or less; thence northeasterly, along the upland edge of the marsh, 1,150 feet, more or less; thence southeasterly, 1,020 feet, more or less, to the centerline of Darby Creek; thence northeasterly, along

the centerline of said creek, 3,600 feet, more or less, to the intersection of the centerline of said creek with the northwesterly sideline of the Philadelphia Electric Co. right-of-way; thence northeasterly, along the northwesterly sideline of said right-of-way, 1,000 feet, more or less; thence northeasterly, along the northwesterly sideline of said right-of-way, 1,500 feet, more or less; thence southeasterly, along the northwesterly sideline of said right-of-way, 25 feet, more or less; thence northeasterly, along the northwesterly sideline of said right-of-way, 1,610 feet, more or less; thence southeasterly, along the northwesterly sideline of said right-of-way, 510 feet, more or less, to the centerline of Hermesprota Creek; thence southwesterly, along the centerline of Hermesprota Creek, 1,250 feet, more or less; thence south and easterly, along the land fill area, the eleven (11) following courses, S. 07°54' W., 215 feet, more or less; thence S. 04°52' E., 132.20 feet; thence S. 31°29' E., 159.16 feet; thence S. 60°14' E., 173.81 feet; thence S. 20°17' E., 199.53 feet; thence S. 25°56' E., 91.50 feet; thence S. 20°27' E., 108.65 feet; thence S. 42°54' E., 185.88 feet; thence S. 71°26' E., 145.18 feet; thence N. 88°08' E., 168.92 feet; thence N. 69°19' E., 145.56 feet; thence N. 69°19' E., 63.0 feet, more or less; thence southeasterly, 50 feet more or less to the centerline of Thoroughfare Creek; thence northeasterly, along the centerline of Thoroughfare Creek, 3,680 feet, more or less; thence southeasterly, 300 feet, more or less; thence southwesterly, along the northerly sideline of the Reading Railroad, 2,100 feet, more or less; thence westerly, along the northerly sideline of Interstate Highway 1-95, 11,750 feet, more or less, to Wanamaker Avenue; thence northwesterly, along the easterly sideline of said avenue, 1,650 feet, more or less to the place of beginning, containing 890 acres, more or less.

A map showing the proposed boundary of the Tincum National Environmental Center is available from the Director, Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240, from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109, or from the Regional Solicitor, U.S. Department of the Interior, 123 South Third Street, Philadelphia, PA 19106.

Dated: February 27, 1973.

JOHN C. WHITAKER,  
Acting Secretary of the Interior.

[NTIS Order No. EIS-73-0293-F]

#### PROPOSED COMMITMENT OF ACREAGE TO NEW BEET SUGAR PRODUCING AREA—WAHPETON, N. DAK.

#### Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of

1969, the Agricultural Stabilization and Conservation Service, Department of Agriculture, has prepared a final environmental statement for the Proposed Commitment of Acreage to a New Beet Sugar Producing Area in the vicinity of Wahpeton, N. Dak., USDA-ASCS-ES (Adm.) 73-3. The 1971 amendments to the Sugar Act of 1948, in order to make acreage available for the growth and expansion of the beet sugar industry, provides that the Secretary of Agriculture shall allocate as needed the acreage required to yield not more than a total of 100,000 tons, raw value, of sugar for localities to be served by new or substantially enlarged existing sugar beet processing facilities. Allocations are to be for a period of 3 years and limited for any one processing facility to the acreage required to yield a maximum of 50,000 short tons, raw value, of sugar and a minimum of 25,000 short tons, raw value.

The environmental statement applies to the growing of approximately 30,000 acres of sugar beets in the Red River Valley of North Dakota and Minnesota near Wahpeton, N. Dak., in Dwight Township. The sugar beets will be planted on mostly dryland farming acreage used in rotation with other crops (primarily wheat, corn and soybeans), the acreage having previously been devoted to such crops.

A draft environmental statement was filed with the Council on Environmental Quality on December 15, 1972. Comments on the draft statement were received from the Environmental Protection Agency; Minnesota Pollution Control Agency; North Dakota State Department of Health; North Dakota State Planning Division; and Economic Research Service, USDA. Questions raised with respect to the draft statement were considered in preparing the final statement. This final environmental statement was filed with the Council on Environmental Quality on February 22, 1973.

Copies are available for inspection at USDA, Agricultural Stabilization and Conservation Service, Room 3758, 14th and Independence Avenue SW., Washington, DC 20250.

Copies may be obtained from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please refer to the name and number of the statement above when ordering.

Any comments concerning the final environmental statement should be addressed to the Director, Sugar Division, Agricultural Stabilization and Conservation Service, Room 3752, 14th and Independence Avenue SW., Washington, DC 20250. Comments should be received by March 20, 1973.

Signed at Washington, D.C. on March 2, 1973.

KENNETH E. FRICK,  
Administrator,  
Agricultural  
Stabilization and Conservation  
Service.

**PROPOSED COMMITMENT OF ACREAGE  
TO NEW BEET SUGAR PRODUCING  
AREA—HILLSBORO, N. DAK.****Notice of Availability of Final  
Environmental Statement**

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Agricultural Stabilization and Conservation Service, Department of Agriculture, has prepared a final environmental statement for the Proposed Commitment of Acreage to a New Beet Sugar Producing Area in the vicinity of Hillsboro, N. Dak., USDA-ASCS-ES (Adm.) 73-2. The 1971 amendments to the Sugar Act of 1948, in order to make acreage available for the growth and expansion of the beet sugar industry, provides that the Secretary of Agriculture shall allocate as needed the acreage required to yield not more than a total of 100,000 tons, raw value, of sugar for localities to be served by new or substantially enlarged existing sugarbeet processing facilities. Allocations are to be for a period of 3 years and limited for any one processing facility to the acreage required to yield a maximum of 50,000 short tons, raw value, of sugar and a minimum of 25,000 short tons, raw value.

The environmental statement applies to the growing of approximately 30,000 acres of sugarbeets in the Red River Valley of North Dakota and Minnesota near Hillsboro, N. Dak., in Traill County. The sugarbeets will be planted on mostly dryland farming acreage used in rotation with other crops (primarily wheat, corn and soybeans), the acreage having previously been devoted to such crops. A draft environmental statement was filed with the Council on Environmental Quality on December 15, 1972. Comments on the draft statement were received from the Environmental Protection Agency; Minnesota Pollution Control Agency; North Dakota State Department of Health; North Dakota State Planning Division; and Economic Research Service, USDA. Questions raised with respect to the draft statement were considered in preparing the final statement. This final environmental statement was filed with the Council on Environmental Quality on February 22, 1973.

Copies are available for inspection at USDA, Agricultural Stabilization and Conservation Service, Room 3758, 14th and Independence Avenue SW., Washington, D.C. 20250.

Copies may be obtained from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please refer to the name and number of the statement above when ordering.

Any comments concerning the final environmental statement should be addressed to the Director, Sugar Division, Agricultural Stabilization and Conservation Service, Room 3752, 14th and Independence Avenue SW., Washington, D.C. 20250. Comments should be received by March 20, 1973.

**Soil Conservation Service  
CANEE CREEK WATERSHED PROJECT, KY.****Notice of Availability of Draft  
Environmental Statement**

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for Caney Creek Watershed Project, Ohio, Butler and Grayson Counties, Ky., USDA-SCS-ES-WS-(ADM)-73-47-(D).

The environmental statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment, supplemented by nine floodwater retarding structures, one multiple-purpose structure, and 20 miles of channel modification.

This draft environmental statement was transmitted to CEQ on February 20, 1973.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, DC 20250

Soil Conservation Service, USDA, 333 Waller Avenue, Lexington, KY 40504

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please use name and number of statement above when ordering. The estimated cost is \$3.25.

Copies of the draft environmental statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Glen E. Murray, State Conservationist, Soil Conservation Service, 333 Waller Avenue, Lexington, KY 40504.

Comments must be received within 60 days of the date the statement was transmitted to CEQ in order to be considered in the preparation of the final environmental statement.

**STEVENS-RUGG WATERSHED PROJECT,  
FRANKLIN COUNTY, VT.****Notice of Availability of Final  
Environmental Statement**

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, Department of Agriculture, has prepared a final environmental statement for the Stevens-Rugg Watershed Project, USDA-SCS-ES-WS-(ADM)-73-10 (F).

The environmental statement concerns a plan for watershed protection, and flood prevention. The planned works of improvement include conservation land treatment supplemented by a floodwater diversion system and 0.89 mile of channel clearing and snagging on Stevens Brook.

The final environmental statement was transmitted to the Council on Environmental Quality on February 23, 1973.

Copies are available for inspection during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, DC 20250

Soil Conservation Service, USDA, 96 College Street, Burlington, VT 05401

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please order by name and number of statement. The estimated cost is \$3.75.

Copies of the environmental statement have been sent to various Federal, State and local agencies as outlined in the Council on Environmental Quality Guidelines.

**DEPARTMENT OF COMMERCE****Maritime Administration****ECONOMIC VIABILITY ANALYSIS****Revised Notice of Announcement of  
Publication**

Revised notice is hereby given that the Maritime Subsidy Board/Maritime Administration announces on March 2, 1973, publication, prior to final adoption, of an Economic Viability Analysis (EVA) pursuant to the terms of the stipulation agreement in "Environmental Defense Fund, Inc. et al v. Peter G. Peterson, et al." Civil Action No. 2164-72 in the U.S. District Court for the District of Columbia.

Copies of the EVA may be obtained by interested persons from the Secretary, Maritime Subsidy Board, Maritime Administration, Department of Commerce, 14th and E Streets NW., Washington,

**NOTICES**

D.C. 20235. Comments on the EVA by any interested persons must be received by the Secretary, Maritime Subsidy Board, by close of business on March 19, 1973.

Dated: March 2, 1973.

By order of the Maritime Subsidy Board, Maritime Administration.

**AARON SILVERMAN,**  
*Assistant Secretary.*

[FR Doc.73-4398 Filed 3-6-73; 8:45 am]

[Docket No. S-332]

**PACIFIC FAR EAST LINE, INC.****Notice of Application**

Notice is hereby given that Pacific Far East Line, Inc., has requested amendment of its Trade Route 29 Transpacific Freight Service as set forth in its Operating-Differential Subsidy Agreement, Contract No. FMB-81 so as to permit its subsidized vessels to call at Guam with its subsidized transpacific freight vessels. The applicant also proposes to withdraw the two C-4's from its unsubsidized Guam service and to place them in layup. Subsidized ships calling at Guam with U.S. cargo would be subject to the reduction-in-subsidy formula set forth in sections 605(a) and 506 of the Merchant Marine Act, 1938, as amended.

Interested parties may inspect this application in the Office of the Secretary, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, D.C.

Commerce between continental U.S. ports and Guam has been determined to be not "domestic intercoastal or coastwise service" within the meaning of section 805(a) of the Act. Also it is not foreign commerce, and therefore does not fall within the provisions of section 605(c) of the Act. However, the Board in Dockets No. S-33 and No. S-17 (Sub 1) (4 F.M.B. --- M.A. 499) expressed its judgment that operators trading to Guam are entitled to some protection.

Therefore, any person, firm, or corporation having any interest in the above-mentioned application should by the close of business on March 16, 1973, submit such views as may be pertinent to such application in writing in triplicate. Such views should be directed to the issue as to whether the effect of the amendment sought by PFEL would be to give undue advantage or be unduly prejudicial as between PFEL and other operators serving Guam.

In accordance with provisions in the rules of practice and procedure of the Maritime Subsidy Board, a full evidentiary hearing on the California/Guam phase of the application may not be held. Written comments from interested parties should state in full their position on the above-mentioned application, whereupon the Maritime Subsidy Board in its discretion may call an informal public hearing prior to making a final decision.

Pacific Far East Line, Inc.'s application would permit its subsidized Trade

Route 29 Transpacific Freight Service as set forth in its Operating-Differential Subsidy Agreement, Contract No. FMB-81 to carry cargo between Guam and foreign ports on the above-mentioned service.

Any person, firm or corporation having any interest in the foreign service aspect of such application and desiring a hearing on issues pertinent to section 605(c) of the Merchant Marine Act, 1938, as amended (46 U.S.C. 1175), should by the close of business on March 16, 1973, notify the Secretary, Maritime Subsidy Board in writing in triplicate, and file petition for leave to intervene in accordance with the rules of practice and procedure of the Maritime Subsidy Board.

In the event a section 605(c) hearing is ordered to be held on the foreign service aspect, the purpose thereof will be to receive evidence relevant to (1) whether the application is one with respect to a vessel to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry in such essential service is inadequate, and (2) whether in the accomplishment of the purpose and policy of the Act additional vessels should be operated therein.

If no request for hearing and petition for leave to intervene is received within the specific time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board will take such action as may be deemed appropriate.

Date: March 2, 1973.

By order of the Maritime Subsidy Board/Maritime Administration.

**AARON SILVERMAN,**  
*Assistant Secretary.*

**National Technical Information Service****GOVERNMENT-OWNED INVENTIONS****Notice of Availability for Licensing**

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the GSA Patent Licensing Regulations.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Va. 22151, at the prices cited. Requests for copies of patent applications must include the PAT-APPL number and the title. Inquiries and requests for licensing information should be directed to the address cited on the first page of each copy of the patent application.

Paper copies of patents cannot be purchased from NTIS but are available from the Commissioner of Patents, Washington, D.C. 20231, at \$0.50 each. Inquiries

and requests for licensing information should be directed to the "Assignee" as indicated on the copy of the patent.

**Office of the Secretary****SMALL CARPETS AND RUGS****Flammability Standard; Proposed Sampling  
Plan**

On June 2, 1972, there was published in the FEDERAL REGISTER (37 FR 11079) a notice of finding that amendments to provide for sampling plans may be needed to two standards; namely, the Standard for the Surface Flammability of Carpets and Rugs, DOC FF 1-70 (35 FR 6211, Apr. 16, 1970) and the Standard for the Surface Flammability of Small Carpets and Rugs (Pill Test), DOC FF 2-70 (35 FR 19702, Dec. 29, 1970). The FEDERAL REGISTER notice of June 2, 1972, announced a preliminary finding that such amendments to provide for sampling plans might be needed to detect noncomplying carpet and rugs before they are placed on the market in order to provide increased protection to the public against unreasonable risk of the occurrence of fire leading to death or personal injury or significant property damage, and that confirmation of the need would require appropriate amendment of those standards.

**PROPOSED SAMPLING PLANS FOR STANDARD  
FOR THE SURFACE FLAMMABILITY OF  
SMALL CARPETS AND RUGS (PILL TEST)  
DOC FF 2-70**

After review and analysis of the comments received, and analysis developed through further research, it is hereby found that an amendment of the Standard for the Surface Flammability of Small Carpets and Rugs (Pill Test) DOC FF 2-70 (35 FR 19702, Dec. 29, 1970) is needed to provide for a sampling plan under the standard. It is preliminarily found that the plan which is set out in full below is:

(a) Needed for small carpet and rugs to protect the public against unreasonable risk of the occurrence of fire leading to death, personal injury, or significant property damage;

(b) Reasonable, technologically practicable, and appropriate, and is stated in objective terms; and

(c) Limited to small carpet and rugs which currently present the unreasonable risks specified in (a) above.

#### AMENDMENT OF THE STANDARD FOR THE SURFACE FLAMMABILITY OF CARPETS AND RUGS (DOC FF 1-70)

The finding as to whether there is the need to amend the Standard for the Surface Flammability of Carpets and Rugs, DOC FF 1-70 (35 FR 6211, Apr. 16, 1970), to provide for a sampling plan is the subject of a separate Federal Register notice.

#### BASIS FOR PROPOSED STATISTICAL SAMPLING PLAN

The finding of need to amend the Standard for the Surface Flammability of Small Carpets and Rugs (Pill Test) (DOC FF 2-70) to include a statistical sampling plan is based on the objective of giving maximum practicable assurance that the product which reaches the marketplace meets established flammability requirements. The test method which has been developed for this standard involves a destructive test, thus precluding the testing of all items covered under the standard. It is, therefore, essential to have some type of statistical sampling procedure. By providing a statistically based sampling plan, as part of the testing procedure in the standard, the consumer would be given increased protection. This proposed sampling plan would also provide a framework for premarket testing, and thus assist greatly in detecting noncomplying carpet and rugs before they are placed on the market. The proposed plan, which is appended hereto, is based on well recognized sampling procedures.

#### APPLICABILITY OF PROPOSED SAMPLING PLAN

As is the case with all flammability standards issued under the Flammable Fabrics Act, the proposed sampling plan contemplated herein would apply to all domestic and imported carpet and rugs as defined in the standard (DOC FF 2-70). Pursuant to section 4(b) of the Flammable Fabrics Act, as amended (15 U.S.C. 1193(b)), the amendment exempts carpet and rugs in inventory or with the trade as of the date on which the amendment becomes effective.

#### EFFECTIVE DATE OF PROPOSED AMENDMENT

The present Standard for the Surface Flammability of Small Carpets and Rugs (Pill Test) (DOC FF 2-70) became effective December 29, 1971. All small carpet and rugs as defined under the standard and manufactured subsequent to December 29, 1971, are required to comply. An amendment to a flammability standard normally becomes effective 12 months from the date on which such amendment is promulgated unless the Secretary of Commerce finds for good cause shown that an earlier or later date is in the public interest and publishes the reason for such finding. Since information received

by this Department indicates that compliance with the small carpet and rug standard (DOC FF 2-70) will be substantially accelerated by the sampling plan, the Secretary proposes to make this amendment effective 90 days following publication of the final sampling plan in the Federal Register.

#### REISSUANCE OF THE STANDARD

The sampling plan is expected to be included in the small carpet and rug standard (DOC FF 2-70) under a section 4, titled "Sampling and Acceptance Procedures." Inclusion of the sampling plan in the standard requires that certain portions of the standard be revised, deleted, and/or renumbered. The definitions under the present section 1 of the standard would be renumbered and would contain new proposed sections (g), (h), (i), (j), and (k). The term "acceptance criterion" would be deleted. Changes would be made to present sections 3(a) and 4(a)(4). Present sections 4 (e) and (f) would be deleted. Also amendments will be made to present sections 1(g), 4(a), 4(b), 4(c), and 4(d).

In the light of the foregoing, reissuance of the standard to include all changes is considered appropriate. Set forth below is the proposed standard to be reissued as the Standard for the Surface Flammability of Small Carpets and Rugs (Pill Test) (DOC FF 2-70; as amended).

#### EFFECT ON REQUIREMENT TO COMPLY WITH THE PRESENT STANDARD

This notice and the proposed sampling plan issued below do not affect the existing requirement to comply with the Standard for the Surface Flammability of Small Carpets and Rugs (Pill Test) (DOC FF 2-70) which is presently in effect.

Issued: March 1, 1973.

RICHARD O. SIMPSON,  
Acting Assistant Secretary  
for Science and Technology.

SMALL CARPET AND RUGS  
[DOC FF 2-70]

#### PROPOSED AMENDMENT TO THE STANDARD FOR THE SURFACE FLAMMABILITY OF SMALL CARPET AND RUGS (PILL TEST)

1. Definitions.
2. Scope and application.
3. General requirements.
4. Sampling and acceptance procedures.
5. Test procedure.
6. Labeling requirement.

1. **Definitions.** In addition to the definitions given in section 2 of the Flammable Fabrics Act, as amended (sec. 1, 81 Stat. 568; 15 U.S.C. 1191), and section 7.2 of the Procedures (33 FR 14642, Oct. 1, 1968), the following definitions apply for the purposes of this standard:

(a) "Small Carpet" means any type of finished product made in whole or in part of fabric or related material and intended for use or which may reasonably be expected to be used as a floor covering which is exposed to traffic in homes, offices, or other places of assembly or accommodation, and which may or may not be fastened to the floor by mechanical means such as nails, tacks, barbs, staples, adhesives, and which has no dimension greater than 1.83 m. (6 ft.) or an area not greater than 2.23 sq. m. (24 sq. ft.). Products such as "Carpet Squares" with dimensions smaller than these but intended to be assembled, upon installation, into assemblies which may have dimensions greater than these, are excluded from this definition. They are, however, included in Standard DOC FF 1-70. Mats, hides with natural or synthetic fibers, and other similar products are included in this definition if they are within the defined dimensions, but resilient floor coverings such as linoleum, asphalt tile, and vinyl tile are not.

(b) "Small rug" means, for the purposes of this standard, the same as small carpet and shall be accepted as interchangeable with small carpet.

(c) "Traffic surface" means a surface of a small carpet or rug which is intended to be walked upon.

(d) "Test criterion" means the basis for judging whether or not a single specimen of a small carpet or rug has passed the test; i.e., the charred portion of a tested specimen shall not extend to within 2.54 cm. (1.0 in.) of the edge of the hole in the flattening frame at any point.

(e) "Timed burning tablet" (pill) means the methenamine tablet, weighing approximately 0.149 grams (2.30 grains), sold as Product No. 1588 in Catalog No. 79, December 1, 1969, by the Eli Lilly Co. of Indianapolis, Ind. 46206, or an equal tablet.

(f) "Fire-retardant treatment" means any process to which a small carpet or rug has been exposed at any time during manufacture, or in any event prior to delivery to the consumer which significantly decreases the flammability of that small carpet or rug and enables it to meet this standard.

(g) "Production unit" (unit) means a quantity of carpet or rugs of one quality. This quantity is predetermined, before sampling, by the manufacturer, seller, or other person responsible for performing tests and maintaining records, within the limitations described in 4. Sampling and Acceptance Procedures.

(h) "Quality" means a particular style or design of carpet or rug, manufactured in essentially the same process and identical except for color or print pattern as specified in 4. Sampling and Acceptance Procedures.

(i) "Item" means an individual carpet or rug.

(j) "Production unit sample" (sample) means eight specimens from a production unit.

(k) "Specimen" means a  $22.86 \pm 0.64 \times 22.86 \pm 0.64$  cm. ( $9 \pm \frac{1}{4} \times 9 \pm \frac{1}{4}$  in.) section of carpet or rug.

3. **Scope and application.** This standard provides a test method to determine the surface flammability of small carpet and rugs when exposed to a standard small source of ignition under carefully prescribed draft-protected conditions. It is applicable to all types of small carpet or rugs used as floor covering materials regardless of their method of fabrication or whether they are made of natural or synthetic fibers or films, or combinations of, or substitutes for these.

One of a kind small carpet or rug, such as an antique, an Oriental or a hide, may be excluded from testing under this standard pursuant to conditions established by the Federal Trade Commission.

3. **General requirements—(a) Summary of test method.** This method involves the exposure of conditioned specimens of a small carpet or rug to a standard igniting source in a draft-protected environment and measurement of the proximity of the charred portion to the edge of the hole in the prescribed flattening frame.

(b) **Test criterion.** A specimen passes the test if the charred portion does not extend to within 2.54 cm. (1.0 in.) of the edge of

the hole in the flattening frame at any point.

#### 4. Sampling and acceptance procedures—

(a) **General.** The test criterion of 3(b) shall be used in conjunction with the following sampling plan, or any other approved by the Department of Commerce that provides at least the equivalent level of fire safety to the consumer. Alternate sampling plans submitted for approval shall have operating characteristics such that the probability of unit acceptance at any percentage defective does not exceed the corresponding probability of unit acceptance of the following sampling plan in the region of the latter's operating characteristic curves that lies between 5 and 95 percent acceptance probability.

The production unit size shall not exceed 25,000 individual small carpet or rugs of a single quality.

All carpet or rugs of the same quality whose manufacture is completed during production of a production unit shall be deemed to be members of that unit. Different colors and different print patterns of the same quality may be included in a single production unit, provided such colors and print patterns demonstrate flammability characteristics that are not significantly different from each other as determined by previous testing of three samples of eight specimens each taken from at least three individual carpets or rugs of each color and print pattern to be included in the unit.

(b) **Sampling—(1) Sampling plan.** A production unit is either accepted or rejected in accordance with the following plan:

From each production unit, select at random at least four carpets or rugs. From the selected items, cut sufficient material to provide 32 specimens (not more than eight per item) for test. Assign not more than two specimens from each item to each of four production unit samples. Test one production unit sample (eight specimens) in accordance with 5. Test procedure. If all eight specimens pass the test criterion of 3(b), accept the unit. If three or more individual specimens fail the test criterion of 3(b), reject the unit. If one or two individual specimens fail the test criterion of 3(b), test a second production unit sample of eight specimens as follows:

Test the second production unit sample in accordance with 5. Test procedure. If the total number of individual specimens (from both the first and second samples) failing the test criterion is one, accept the unit. If the total number of individual specimens (from both samples) failing the criterion is four or more, reject the unit. If the total number of individual specimens (from both samples) failing the test criterion is two or three, test a third production unit sample of eight specimens as follows:

Test the third production unit sample in accordance with 5. Test procedure. If the total number of specimens (from the three samples) failing the test criterion is two, accept the unit. If the total number of specimens (from the three samples) failing the test criterion is four or more, reject the unit. If the total number of specimens (from the three samples) failing the test criterion is three, test a fourth production unit sample of eight specimens as follows:

Test the fourth production unit sample in accordance with 5. Test procedure. If the total number of specimens (from the four samples) failing the test criterion is three, accept the unit. If the total number of specimens (from the four samples) failing the test criterion is four or more, reject the unit.

(2) **Disposition of rejected units.** Carpet and rugs contained in rejected production units must be labeled, prior to their intro-

duction into commerce, according to 6. Labeling requirements unless accepted as a result of retesting without reworking and/or reworking and retesting as prescribed below.

(a) **Reworking and retesting.** A rejected production unit may be retested after all carpet and rugs contained therein are subjected to reprocessing or additional processing to improve the flammability characteristics. From the unit, select four carpet or rugs as follows:

Select items from the immediate vicinity (with respect to time sequence of production) of all items that contributed failing specimens to the sample(s) employed in reaching the decision to reject the unit originally and that are present in the reworked unit.

Select additional items as required from the immediate vicinity of items that contributed failing specimens to the sets of specimens employed in reaching decisions to reject subunits or items in retesting (without reworking) and that are present in the reworked unit.

Select at random additional items as required from among remaining items that are present in the reworked unit.

From the selected items, cut sufficient material to provide 24 specimens (not more than six specimens from each selected item) for test. Test 16 specimens (four from each selected item) in accordance with 5. Test procedure. If all 16 specimens pass the test criterion of 3(b), accept the unit. If two or more individual specimens fail the test criterion of 3(b), reject the unit. If one individual specimen fails the test criterion of 3(b), test the remaining eight specimens in accordance with 5. Test procedure. If all of the eight remaining specimens pass the test criterion of 3(b), accept the unit. If one or more of the eight remaining specimens fail the test criterion of 3(b), reject the unit.

A production unit rejected as a result of retesting following reworking shall not be subjected to further reworking and testing, but may be subjected to retesting in accordance with the provisions of 4(b)(2)(b) if such testing has not previously been performed on the rejected production unit from which the items contained in the reworked unit were obtained. Carpet and rugs contained in a production unit rejected as a result of retesting following reworking shall not be eligible for further attempts at acceptance under this Standard by any other means or procedures except as specified in 6. Labeling requirements.

(b) **Retesting (without reworking).** A rejected production unit may be subdivided into two or more subunits consisting of three or more items each. Such subdivision shall correspond to the time sequence of production of finished items or to differences in materials or process steps, such as dye lots, fiber sources, tufting machines, or rinsing operations, determined by the manufacturer's tests or analyses to constitute the probable cause of differences in flammability characteristics.

If the subdivision corresponds to the time sequence of production of finished items, each item from which one or more failing specimens were obtained in sampling shall constitute a boundary of a subunit. Subunits of a rejected production unit may be tested and their constituent items accepted or rejected according to the following plan:

From each subunit, select at least two items near the boundaries of the subunit if the subdivision corresponds to the time sequence of production of finished items or select one item at random if the subdivision was made on any other basis. From the selected item(s), cut sufficient material to pro-

vide a total of 16 specimens from the subunit, an equal number of specimens being obtained from each item when two items have been selected. Test all specimens in accordance with 5. Test procedure. If all 16 specimens pass the test criterion of 3(b), accept the subunit. If one specimen fails the test criterion of 3(b), select an additional item at random and cut sufficient material to provide a total of 16 additional specimens in accordance with 5. Test procedure. If all 16 additional specimens pass the test criterion of 3(b), accept the subunit. If one or more specimens fail the test criterion of 3(b), reject the subunit.

Rejected subunits from the same production unit that have not been reworked previously may be construed to comprise a rejected production unit for reworking and retesting in accordance with 4(b)(2)(a). Rejected subunits that have been reworked previously or that are not reworked shall not be eligible for further attempts at acceptance under this Standard except as specified in 6. Labeling requirements.

(3) **Records.** Records of all unit sizes, test results, and the disposition of rejected units must be maintained by the manufacturer upon the effective date of this standard. Rules and regulations may be established by the Federal Trade Commission.

(4) **Compliance market sampling plan by FTC.** The FTC may submit, for approval by the Secretary of Commerce, sampling plans for use in market testing of items covered by this standard. For approval, such plans shall define noncompliance of a production unit to exist only when it is shown, with a high level of statistical confidence, those production units represented by tested items which fail such FTC plans will, in fact, fail this standard. Production units found to be noncomplying under these provisions shall be deemed not to conform to this standard.

5. **Test procedure—(a) Apparatus—(1) Test chamber.** The test chamber shall consist of an open top hollow cube made of noncombustible material<sup>1</sup> with inside dimensions  $30.48 \pm 0.13 \times 30.48 \pm 0.13 \times 30.48 \pm 0.13$  cm. ( $12 \pm \frac{1}{4} \times 12 \pm \frac{1}{4} \times 12 \pm \frac{1}{4}$  in.) and minimum 6.35 mm. ( $\frac{1}{4}$  in.) wall thickness. The flat bottom of the box shall be made of the same material as the sides and shall be easily removable. The sides shall be fastened together with screws or brackets and taped or otherwise suitably sealed to prevent air leakage into the box during use.

Note: A minimum of two chambers and two extra bottoms is suggested for efficient operation.

(2) **Flattening frame.** A steel plate,  $22.86 \pm 0.64 \times 22.86 \pm 0.64$  cm. ( $9 \pm \frac{1}{4} \times 9 \pm \frac{1}{4}$  in.), 6.35 mm. ( $\frac{1}{4}$  in.) thick (Commercial tolerances) with a  $20.32 \pm 0.02$  cm. ( $8 \pm \frac{1}{4}$  in.) diameter hole in its center is required to hold the specimen flat during the course of the test. It is recommended that one be provided for each test chamber.

(3) **Standard igniting source.** No. 1588 methenamine timed burning tablet or an equal tablet. These tablets shall be stored in a desiccator over a desiccant for 24 hours prior to use. (Small quantities of sorbed water may cause the tablets to fracture when first ignited. If major fracture occurs, any results from that test shall be ignored, and it shall be repeated.)

(4) **Test specimens.** Each test specimen shall be a  $22.86 \pm 0.64 \times 22.86 \pm 0.64$  cm. ( $9 \pm \frac{1}{4} \times 9 \pm \frac{1}{4}$  in.) section of the small carpet or rug to be tested.

(5) **Circulating air oven.** A vented forced circulation drying oven capable of removing

<sup>1</sup> Cement asbestos board is a suitable material.

the moisture from the specimens when maintained at 105±2.8° C. (221±5° F.) for 2 hours.<sup>1</sup>

(6) *Desiccating cabinet.* An airtight and moisture-tight cabinet capable of holding the floor covering specimens horizontally or vertically without contacting each other during the cooling period following drying, and containing silica gel desiccant with an indicator. Replace or reactivate the desiccant when it becomes inactive.

(7) *Gloves.* Nonhygroscopic gloves (such as rubber or polyethylene) for handling the sample after drying and raising the pile on specimens prior to testing.

(8) *Hood.* A hood capable of being closed and having its draft turned off during each test and capable of rapidly removing the products of combustion following each test. The front or sides of the hood should be transparent to permit observation of the tests in progress.

(9) *Mirror.* A small mirror may be mounted above each test chamber at an angle to permit observation of the specimen from outside the hood.

(10) *Vacuum cleaner.* A vacuum cleaner to remove all loose material from each specimen prior to conditioning. All surfaces of the vacuum cleaner contacting the specimen shall be flat and smooth.

(b) *Specimens.*—(1) *Selection of specimens.* After selection of the test items as specified in 4. *Sampling and acceptance procedures*, select a sample of each item large enough to cut the required specimens free from creases, fold marks, delaminations, or other distortions. The test specimens should contain the most flammable parts of the traffic surface at their centers. The most flammable area may be determined on the basis of experience or through pretesting.

(2) *Cutting.* Cut 22.86±0.64 cm. (9±¼ in.) square specimens of each carpet or rug to be tested to comply with 4. *Sampling and acceptance procedures*.

(c) *Conditioning.* Clean each specimen with the vacuum cleaner until it is free of all loose ends left during the manufacturing process and from any material that may have been worked into the pile during handling.<sup>2</sup> Care must be exercised to avoid "fuzzing" of the pile yarn.

Place the specimens in the drying oven in a manner that will permit free circulation of the air at 105±2.8° C. (221±5° F.) around them for 2 hours.<sup>4</sup> Remove the specimens from the oven with gloved hand and place them horizontally in the desiccator with traffic surface up or vertically and free from contact with each other until cooled to room temperature, but in no instance less than 1 hour. No more than 16 specimens shall be in the desiccator at one time.

(d) *Testing.* Place the test chamber in the draft-protected environment (hood with draft off) with its bottom in place. Wearing gloves, remove a test specimen from the desiccator.

<sup>1</sup> Option 1 of ASTM D 2654-67T, "Methods of Test for Amount of Moisture in Textile Materials," describes a satisfactory oven. ("1969 Book of ASTM Standards," Part 24, published by the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.)

<sup>2</sup> The vacuum cleaning described is not intended to simulate the effects of repeated vacuum cleaning in service.

<sup>3</sup> If the specimens are moist when received, permit them to air-dry at laboratory conditions prior to placement in the oven. A satisfactory preconditioning procedure may be found in ASTM D 1776-67, "Conditioning Textiles and Textile Products for Testing," ("1969 Book of ASTM Standards," Part 24, published by the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.)

cator and brush its traffic surface with a gloved hand in such a manner as to raise its pile. Place the specimen on the center of the floor of the test chamber, traffic surface up, exercising care that the specimen is horizontal and flat. Place the flattening frame on the specimen and position a methenamine tablet on one of its flat sides in the center of the 20.32±0.02 cm. (8±¼ in.) hole.

Ignite the tablet by touching a lighted match or an equivalent igniting source carefully to its top. Close the hood door.<sup>5</sup> If more than 2 minutes elapse between the removal of the specimen from the desiccator and the ignition of the tablet, the conditioning must be repeated.

Continue each test until one of the following conditions occurs:

(1) The last vestige of flame or glow disappears. (This is frequently accompanied by a final puff of smoke.)

(2) The flaming or smoldering has approached within 2.54 cm. (1.0 in.) of the edge of the hole in the flattening frame at any point.

When all combustion has ceased, ventilate the hood and measure the shortest distance between the edge of the hole in the flattening frame and the charred area. Record the distance measured for each specimen.

Remove the specimen from the chamber and remove any burn residue from the floor of the chamber. Before proceeding to the next test, the floor must be cooled to normal room temperature or replaced with one that is at normal room temperature.

(c) *Laundrying.* If the small carpet or rug has had a fire-retardant treatment, or is made of fibers which have had a fire-retardant treatment, the selected sample or oversized specimens thereof shall be washed, prior to cutting of test specimens, either 10 times under the washing and drying procedure prescribed in Method 124-1967 of the American Association of Textile Chemists and Colorists [washing procedure 6.3 (III) with a water temperature of 60±2.8° C. (140±5° F.), drying procedure 6.3.2 (B), maximum load 3.64 kg. (8 pounds)]<sup>6</sup> or such number of times under such other washing and drying procedures as shall previously have been found to be equivalent by the Federal Trade Commission. Alternatively, the selected sample or oversized specimens thereof may be washed, dry-cleaned, or shampooed 10 times, prior to cutting of test specimens, in such manner as the manufacturer or other interested party shall previously have established to the satisfaction of the Federal Trade Commission. It is normally used for that type of small carpet or rug in service. Under the rules and regulations which may be established by the Federal Trade Commission, the laundrying requirement may be modified or waived by FTC where it is shown that laundrying does not affect the flame-retardant treatment.

(d) *Labeling requirements.* (a) If a small carpet or rug is not accepted under any of the provisions of 4. *Sampling and acceptance procedures*, it shall, prior to its introduction into commerce, be permanently labeled, pursuant to rules and regulations established by the Federal Trade Commission, with the following statement: Flammable (Fails U.S. Department of Commerce Standard FF 2-70); Should not be used near sources of ignition.

(b) If a small carpet or rug has had a fire-retardant treatment or is made of fibers which have had a fire-retardant treatment, it shall be labeled with the letter "T" pursuant to rules and regulations established by the Federal Trade Commission.

[FR Doc. 73-4270 Filed 3-2-73; 10:41 am]

#### CARPET AND RUGS

##### Notice of Proposed Sampling Plan

On June 2, 1972, there was published in the FEDERAL REGISTER (37 FR 11079) a notice of finding that amendments to provide for sampling plans may be needed to two standards; namely, the Standard for the Surface Flammability of Carpets and Rugs, DOC FF 1-70 (35 FR 6211, Apr. 16, 1970) and the Standard for the Surface Flammability of Small Carpets and Rugs (Pill Test), DOC FF 2-70 (35 FR 19702, Dec. 29, 1970). The FEDERAL REGISTER notice of June 2, 1972, announced a preliminary finding that such amendments to provide for sampling plans might be needed to detect noncomplying carpet and rugs before they are placed on the market in order to provide increased protection to the public against unreasonable risk of the occurrence of fire leading to death or personal injury or significant property damage, and that confirmation of the need would require appropriate amendment of those standards.

##### PROPOSED SAMPLING PLAN FOR STANDARD FOR THE SURFACE FLAMMABILITY OF CARPETS AND RUGS (DOC FF 1-70)

After review and analysis of the comments received, and analysis developed through further research, it is hereby found that an amendment of the standard for the Surface Flammability of Carpets and Rugs, DOC FF 1-70 (35 FR 6211, Apr. 16, 1970) is needed to provide for a sampling plan under the standard.

It is preliminarily found that the plan which is set out in full at the end hereof is:

(a) Needed for large carpet and rugs to protect the public against unreasonable risk of the occurrence of fire leading to death, personal injury, or significant property damage;

(b) Reasonable, technologically practicable, and appropriate, and is stated in objective terms; and

(c) Limited to large carpet and rugs which currently present the unreasonable risks specified in (a) above.

##### AMENDMENT OF THE STANDARD FOR THE SURFACE FLAMMABILITY OF SMALL CARPETS AND RUGS (PILL TEST) (DOC FF 2-70)

The finding as to whether there is the need to amend the Standard for the Surface Flammability of Small Carpets and Rugs (Pill Test), DOC FF 2-70 (35 FR 19702, Dec. 29, 1970), to provide for a

sampling plan is the subject of a separate FEDERAL REGISTER notice.

##### BASIS FOR PROPOSED STATISTICAL SAMPLING PLAN

The finding of need to amend the Standard for the Surface Flammability of Carpets and Rugs (DOC FF 1-70) to include a statistical sampling plan is based on the objective of giving maximum practicable assurance that the product which reaches the marketplace meets established flammability requirements. The test method which has been developed for this standard involves a destructive test, thus precluding the testing of all items covered under the standard. It is, therefore, essential to have some type of statistical sampling procedure. By providing a statistically based sampling plan as part of the testing procedure in the standard the consumer would be given increased protection. This proposed sampling plan would also provide a framework for premarket testing, and thus assist greatly in detecting non-complying carpet and rugs before they are placed on the market. The proposed plan, which is appended hereto, is based on well recognized sampling procedures.

##### APPLICABILITY OF PROPOSED SAMPLING PLAN

As is the case with all flammability standards issued under the Flammable Fabrics Act, the proposed sampling plan contemplated herein would apply to all domestic and imported carpet and rugs as defined in the standard (DOC FF 1-70). Pursuant to section 4(b) of the Flammable Fabrics Act, as amended (15 U.S.C. 1193(b)), the amendment exempts carpet and rugs in inventory or with the trade as of the date on which the amendment becomes effective.

##### EFFECTIVE DATE OF PROPOSED AMENDMENT

The present Standard for the Surface Flammability of Carpets and Rugs (DOC FF 1-70) became effective April 16, 1971. All carpet and rugs as defined under the standard and manufactured subsequent to April 16, 1971, are required to comply. An amendment to a flammability standard normally becomes effective 12 months from the date on which such amendment is promulgated unless the Secretary of Commerce finds for good cause shown that an earlier or later date is in the public interest and publishes the reason for such finding. Since information received by this Department indicates that compliance with the carpet and rug standard (DOC FF 1-70) will be substantially accelerated by the sampling plan, the Secretary proposes to make this amendment effective 90 days following publication of the final sampling plan in the FEDERAL REGISTER.

##### REISSUANCE OF THE STANDARD

The sampling plan is expected to be included in the carpet and rug standard (DOC FF 1-70) under a section 4, titled "Sampling and Acceptance Procedures." Inclusion of the sampling plan in the standard requires that certain portions of the standard be revised, deleted, and/or

or renumbered. The definitions under the present section 1 of the standard would be renumbered and would contain new proposed sections (g), (h), (i), (j), and (k). The term "acceptance criterion" would be deleted. Changes would be made to present sections 3(a) and 4(a)(4). Present sections 4(e) and (f) would be deleted. Also, amendments will be made to present sections 1(b), 1(g), 4(a), 4(b), 4(c), and 4(d).

In the light of the foregoing, reissuance of the standard to include all changes is considered appropriate. Appended hereto, is the proposed standard to be reissued as the Standard for the Surface Flammability of Carpets and Rugs (DOC FF 1-70; as amended).

##### EFFECT ON REQUIREMENT TO COMPLY WITH THE PRESENT STANDARD

This notice and the proposed sampling plan issued, hereunder, do not affect the existing requirement to comply with the Standard for the Surface Flammability of Carpets and Rugs (DOC FF 1-70) which is presently in effect.

Issued: March 1, 1973.

RICHARD O. SIMPSON,  
Acting Assistant Secretary  
For Science and Technology.  
CARPET AND RUGS

##### PROPOSED AMENDMENT TO THE STANDARD FOR THE SURFACE FLAMMABILITY OF CARPET AND RUGS (PILL TEST)

(DOC FF 1-70)

1. Definitions.
2. Scope and application.
3. General requirements.
4. Sampling and acceptance procedures.
5. Test procedure.
6. Labeling requirements.

1. *Definitions.* In addition to the definitions given in section 2 of the Flammable Fabrics Act, as amended (sec. 1, 81 Stat. 568; 15 U.S.C. 1191), and § 7.2 of the Procedures (33 FR 14442, Oct. 1, 1968), the following definitions apply for the purpose of this standard:

(a) "Carpet" means any type of finished product made in whole or in part of fabric or related material and intended for use or which may reasonably be expected to be used as a floor covering, which is exposed to traffic in homes, offices, or other places of assembly or accommodation, and which may or may not be fastened to the floor by mechanical means, such as nails, tacks, barbs, staples, adhesives, and which has one dimension greater than 1.83 m. (6 ft.) and a surface area greater than 2.23 sq. m. (24 sq. ft.). Products such as "carpet squares", with one dimension less than 1.83 m. (6 ft.) and a surface area less than 2.23 sq. m. (24 sq. ft.), but intended to be assembled upon installation into assemblies which may have one dimension greater than 1.83 m. (6 ft.) and a surface area greater than 2.23 sq. m. (24 sq. ft.) are included in this definition. Mats, hides with natural or synthetic fibers, and other similar products in the above defined dimensions are included in this definition, but resilient floor coverings such as linoleum, asphalt tile, and vinyl tile are not.

(b) "Rug" means, for the purpose of this standard, the same as carpet and shall be accepted as interchangeable with carpet.

(c) "Traffic Surface" means a surface of a carpet or rug which is intended to be walked upon.

(d) "Test Criterion" means the basis for judging whether or not a single specimen of carpet or rug has passed the test; i.e., the charred portion of a tested specimen shall not extend to within 2.54 cm. (1.0 in.) of the edge of the hole in the flattening frame at any point.

(e) "Timed Burning Tablet" (pill) means the methenamine tablet, weighing approximately 0.149 gram (2.30 grains), sold as product No. 1588 in Catalog No. 79, December 1, 1969, by the Eli Lilly Co. of Indianapolis, Ind. 46206, or an equal tablet.

(f) "Fire-Retardant Treatment" means any process to which a carpet or rug has been exposed at any time during manufacture or in any event prior to delivery to the consumer which significantly decreases the flammability of that carpet or rug and enables it to meet this standard.

(g) "Production Unit" (Unit) means a quantity of carpet or rugs of one quality. This quantity is determined, before sampling, by the manufacturer, seller, or other person responsible for performing tests and maintaining records, within the limitations described in 4. *Sampling and Acceptance Procedures*.

(h) "Quality" means a particular style or design of carpet or rug, manufactured in essentially the same process and identical except for color or print pattern as specified in 4. *Sampling and Acceptance Procedures*.

(i) "Item" means a piece, roll, individual carpet, or rug, or other natural aggregate of product from which test specimens are cut.

(j) "Production Unit Sample" (Sample) means eight specimens from a production unit.

(k) "Specimen" means a 22.86±0.64 x 22.86±0.64 cm. (9±¼ x 9±¼ in.) section of carpet or rug.

2. *Scope and application.* This standard provides a test method to determine the surface flammability of carpet and rugs when exposed to a standard small source of ignition under carefully prescribed draft-protected conditions. It is applicable to all types of carpet and rugs used as floor covering materials regardless of their method of fabrication or whether they are made of natural or synthetic fibers or films, or combinations of, or substitutes for these.

One of a kind carpet or rug, such as an antique, an Oriental, or a hide, may be excluded from testing under this standard pursuant to conditions established by the Federal Trade Commission.

3. *General requirements.*—(a) *Summary of test method.* This method involves the exposure of conditioned specimens of a given carpet or rug production unit to a standard igniting source in a draft-protected environment, and measurement of the proximity of the charred portion to the edge of the hole in the prescribed flattening frame.

(b) *Test criterion.* A specimen passes the test if the charred portion does not extend to within 2.54 cm. (1.0 in.) of the edge of the hole in the flattening frame at any point.

4. *Sampling and acceptance procedures.*—(a) *General.* The test criterion of 3(b) shall be used in conjunction with the following sampling plan, or any other approved by the Department of Commerce that provides at least the equivalent level of fire safety to the consumer. Alternate sampling plans submitted for approval shall have operating characteristics such that the probability of unit acceptance at any percentage defective does not exceed the corresponding probability of unit acceptance of the following sampling plan in the region of the latter's operating characteristic curves that lies between 5 and 95 percent acceptance probability.

The size of a production unit of machine-made carpet or rugs shall not exceed 22,936 linear meters (25,000 linear yards) or 84,175

square meters (100,000 square yards), which ever is greater, and in any event shall not exceed the quantity produced in 45 consecutive calendar days. The size of a production unit of handmade or hide carpet or rugs shall not exceed 8,418 square meters (10,000 square yards).

All carpet or rugs of the same quality whose manufacture is completed during production of a production unit shall be deemed to be members of that unit. Different colors and different print patterns of the same quality may be included in a single production unit, provided such colors and print patterns demonstrate flammability characteristics that are not significantly different from each other as determined by previous testing of three samples of eight specimens each taken from at least three pieces, rolls, individual carpet or rugs, or other natural aggregates of product, of each color and print pattern to be included in the unit.

Initial, normal, reduced, and tightened sampling shall be followed, as described in the following sections, for all machine-made carpet and rugs. For all handmade or hide carpet or rugs, all sampling shall be according to Initial Sampling only.

(b) *Sampling.* A unit is either accepted or rejected in accordance with the following plan:

(1) *Initial sampling.* From each production unit, select at random four items (pieces, rolls, individual carpet or rugs, or other natural aggregates of product). From the four selected items, cut sufficient material to provide 32 specimens (eight per item) for test. Assign two specimens from each item to each of four production unit samples. Test one production unit sample (eight specimens) in accordance with 5 Test procedure. If all eight specimens pass the test criterion of 3(b), accept the unit. If three or more individual specimens fail the test criterion of 3(b), reject the unit. If one or two individual specimens fail the test criterion of 3(b), test a second production unit sample of eight specimens as follows:

Test the second production unit sample in accordance with 5 Test procedure. If the total number of individual specimens failing the test criterion is one, accept the unit. If the total number of individual specimens failing the test criterion is two, reject the unit. If the total number of individual specimens failing the test criterion is three, test a third production unit sample of eight specimens as follows:

Test the third production unit sample in accordance with 5 Test procedure. If the total number of specimens (from the three samples) failing the test criterion is two, accept the unit. If the total number of specimens (from the three samples) failing the test criterion is three, test a fourth production unit sample of eight specimens as follows:

Test the fourth production unit sample in accordance with 5 Test procedure. If the total number of specimens (from the four samples) failing the test criterion is three, accept the unit. If the total number of specimens (from the four samples) failing the test criterion is four or more, reject the unit.

(2) *Normal sampling.* Normal sampling may be initiated or resumed when five successive production units of the same quality have all been accepted under either initial or tightened sampling.

Normal sampling shall be the same as initial sampling except that:

(a) The quantity of carpet or rug under test may be increased to two production units of the same quality,

(b) Sixteen specimens shall be taken from each of two items selected at random,

(c) If more than one production unit is represented in the quantity under test, an equal number of specimens (16 each) shall be selected from each unit and each sample shall contain four specimens from each unit.

(d) If more than one production unit is represented in the quantity under test, the acceptance or rejection decision reached as a result of testing shall apply to both units, and

(e) Normal sampling shall be discontinued and tightened sampling commenced when a rejection occurs.

(3) *Reduced sampling.* Reduced sampling may be initiated or resumed when 10 successive production units of the same quality have all been accepted under normal sampling. Reduced sampling may be conducted in accordance with Option 1 or Option 2 below.

(a) *Reduced Sampling Option 1.* Reduced sampling under Option 1 shall be the same as initial sampling except that:

The quantity of carpet or rug under test may be increased to four production units of the same quality.

Sixteen specimens shall be taken from each of two items selected at random,

If more than one production unit is represented in the quantity under test, the first item shall be selected at random from these production units and the second item shall be selected at random from the units not containing the first item.

If more than one production unit is represented in the quantity under test, the acceptance or rejection decision reached as a result of testing shall apply to all units, and reduced sampling shall be discontinued and tightened sampling commenced when a rejection occurs.

(b) *Reduced Sampling Option 2.* Reduced sampling under Option 2 shall be the same as initial sampling except that:

The quantity of carpet or rug under test may be increased to two production units of the same quality.

Sixteen specimens shall be taken from each of two items selected from initial production of the first production unit represented in the quantity under test, the items being of different colors or print patterns if the quantity under test contains more than one color or print pattern.

If more than one production unit is represented in the quantity under test, the acceptance or rejection decision reached as a result of testing shall apply to both units, and

Reduced sampling shall be discontinued and tightened sampling commenced when a rejection occurs.

(4) *Tightened sampling.* Tightened sampling shall be the same as initial sampling. If tightened sampling remains in effect for 15 consecutive production units of a quality, production of that quality must be discontinued until that part of the process or component which is causing failure has been identified and the flammability characteristics of the end product have been improved.

(5) *Disposition of rejected units.* Carpet and rugs contained in production units that have been rejected, under sections (1), (2), (3), and (4) of this sampling plan, may be subjected to retesting without reworking in accordance with one of the options provided hereunder and/or reworking and retesting as prescribed below. The item definition used for purposes of sampling (piece, roll, individual carpet or rug, or other natural aggregates of product) shall be retained for these purposes.

(a) *Reworking and retesting.* A rejected production unit may be retested after all carpet and rugs contained therein are subjected to reprocessing or additional processing

to improve the flammability characteristics. From the unit, select four items as follows:

Select all items that contributed failing specimens to the sample(s) employed in reaching the decision to reject the unit originally and that are present in the reworked unit.

Select additional items as required from among those items that contributed failing specimens to the sets of specimens employed in reaching decisions to reject subunits or items in retesting (without reworking) and that are present in the reworked unit.

Select at random additional items as required from among remaining items that are present in the reworked unit.

If the unit contains fewer than four items, select all items in the unit.

From the selected items, cut sufficient material to provide 24 specimens (equal numbers of specimens from all selected items) for test.

Test 16 specimens (at least four from each selected item) in accordance with 5 Test procedure. If all 16 specimens pass the test criterion of 3(b), accept the unit.

If two or more individual specimens fail the test criterion of 3(b), reject the unit. If one individual specimen fails the test criterion of 3(b), test the remaining eight specimens in accordance with 5 Test procedure.

If all of the eight remaining specimens pass the test criterion of 3(b), accept the unit. If one or more of the eight remaining specimens fail the test criterion of 3(b), reject the unit.

A production unit rejected as a result of retesting following reworking shall not be subject to further reworking and retesting, but may be subjected to retesting in accordance with one of the options provided hereunder, provided that neither option may be accepted or rejected on an item-by-item basis as follows. From each item, cut sufficient material to provide a total of 16 specimens. Test all specimens in accordance with 5 Test procedure. If all 16 specimens pass the test criterion of 3(b), accept the item. If one or more specimens fail the test criterion of 3(b), reject the item.

Carpet and rugs contained in a production unit rejected as a result of retesting following reworking shall not be eligible for further attempts at acceptance under this standard other than by means of one of the retesting options provided.

(b) *Retesting (without reworking) Option 1.* This option is not available when the item for sampling purposes has been defined as an individual carpet or rug. Items contained in a rejected production unit may be tested and accepted or rejected on an item-by-item basis according to the following plan:

From each item, cut sufficient material to provide 16 specimens. All specimens shall be obtained from the vicinity of the item boundary nearest to a specimen that failed in sampling, or eight specimens shall be obtained from the vicinity of each item boundary. Test all specimens in accordance with 5 Test procedure. If all 16 specimens pass the test criterion of 3(b), accept the item. If two or more specimens fail the test criterion of 3(b), reject the item. If one specimen fails the test criterion of 3(b), cut sufficient material to provide 16 additional specimens from any desired single location in the item.

Test all additional specimens in accordance with 5 Test procedure. If all 16 additional specimens pass the test criterion of 3(b), accept that portion of the item that is not contained between the locations from which the failing (original) specimen and the additional specimens were obtained. If one or more specimens fail the test criterion of 3(b), reject the item. Rejected items and rejected portions of items shall not be eligible for further attempts at acceptance under this standard. If retesting under this option is initiated and is abandoned before all items in a production unit have been retested,

those items in that production unit that have not been retested and have not been reworked previously may be construed to comprise a rejected production unit for reworking and retesting in accordance with 4(b)(5)(a).

(c) *Retesting (without reworking) Option 2.* A rejected production unit may be subdivided into two or more subunits consisting of one or more items each. Such subdivision shall correspond to the time sequence of production of finished items or to differences in materials or process steps, such as dye lots, fiber sources, tufting machines, or rinsing operations, determined by the manufacturer's tests or analyses to constitute the probable cause of differences in flammability characteristics.

If the subdivision corresponds to the time sequence of production of finished items, each item from which one or more failing specimens were obtained in sampling shall constitute a boundary of a subunit. Subunits of a rejected production unit may be tested and their constituent items accepted or rejected according to the following plan:

From each subunit, select the two items at the boundaries of the subunit if the subdivision corresponds to the time sequence of production of finished items or select one item at random if the subdivision was made on any other basis. From the selected item(s), cut sufficient material to provide a total of 16 specimens from the subunit, an equal number of specimens being obtained from each item when two items have been selected.

Test all specimens in accordance with 5 Test procedure. If all 16 specimens pass the test criterion of 3(b), reject the subunit. If one specimen fails the test criterion of 3(b), individual items of the subunit may be accepted or rejected on an item-by-item basis as follows. From each item, cut sufficient material to provide a total of 16 specimens. Test all specimens in accordance with 5 Test procedure. If all 16 specimens pass the test criterion of 3(b), accept the item. If one or more specimens fail the test criterion of 3(b), reject the item.

Rejected items and rejected subunits from the same production unit that have not been reworked previously may be construed to comprise a rejected production unit for reworking and retesting in accordance with 4(b)(5)(a). Rejected items and rejected subunits that have been reworked previously or that are not reworked shall not be eligible for further attempts at acceptance under this standard.

(6) *Records.* Records of all unit sizes, test results, and the disposition of rejected units must be maintained by the manufacturer upon the effective date of this standard. Rules and regulations may be established by the Federal Trade Commission.

(7) *Compliance market sampling plan by FTC.* The FTC may submit, for approval by the Secretary of Commerce, sampling plans for use in market testing of items covered by this standard. For approval, such plans shall define noncompliance of a production unit to exist only when it is shown, with a high level of statistical confidence, those production units represented by tested items which fail such FTC plans will, in fact, fail this standard.

Production units found to be noncomplying under these provisions shall be deemed not to conform to this standard.

5 Test procedure—(a) *Apparatus—(1) Test chamber.* The test chamber shall consist of an open top, hollow cube made of noncombustible material<sup>1</sup> with inside dimensions of 30.48±0.13×30.48±0.13×30.48±0.13 cm. (12±1/4×12±1/4×12±1/4 in.) and a minimum of 6.35 mm. (1/4 in.) wall thickness. The flat bottom of the box shall be made of the same material as the sides and shall be easily removable. The sides shall be fastened together with screws or brackets and taped or otherwise suitably sealed to prevent air leakage into the box during use.

Note: A minimum of two chambers and two extra bottoms is suggested for efficient operation.

(2) *Flattening frame.* A steel plate, 22.86±0.64×22.86±0.64 cm. (9±1/4×9±1/4 in.), 6.35 mm. (1/4 in.) thick (Commercial tolerances) with a 20.32±0.02 cm. (8±1/4 in.) diameter hole in its center is required to hold the carpet or rug flat during the course of the test. It is recommended that one be provided for each test chamber.

(3) *Standard igniting source.* No. 1588 methenamine timed burning tablet or an equal tablet. These tablets shall be stored in a desiccator over a desiccant for 24 hours prior to use. (Small quantities of sorbed water may cause the tablets to fracture when first ignited. If a major fracture occurs, any results from that test shall be ignored, and it shall be repeated.)

(4) *Test specimens.* Each test specimen shall be a 22.86±0.64×22.86±0.64 cm. (9±1/4×9±1/4 in.) section of the carpet or rug to be tested.

(5) *Circulating air oven.* A vented forced circulation drying oven capable of removing the moisture from the specimens when maintained at 105±2.8° C. (221±5° F.) for 2 hours.

(6) *Desiccating cabinet.* An airtight and moisture-tight cabinet capable of holding the floor covering specimens horizontally or vertically without contacting each other during the cooling period after drying, and containing silica gel desiccant with an indicator. Replace or reactivate the desiccant when it becomes inactive.

(7) *Gloves.* Nonhygroscopic gloves (such as rubber or polyethylene) for handling the sample after drying, and raising the pile on specimens prior to testing.

(8) *Hood.* A hood capable of being closed and having its draft turned off during each test and capable of rapidly removing the products of combustion following each test. The front or sides of the hood should be transparent to permit observation of the tests in progress.

(9) *Mirror.* A small mirror may be mounted above each test chamber at an angle to permit observation of the specimen from outside the hood.

(10) *Vacuum cleaner.* A vacuum cleaner to remove all loose material from each specimen prior to conditioning. All surfaces of the vacuum cleaner contacting the specimen shall be flat and smooth.

(b) *Specimens—(1) Selection of specimens.* After selection of the test items as specified in 4 Sampling and acceptance procedures, select a sample of each item large enough to cut the required specimens, free from creases, fold marks, delaminations, or other distortions. The test specimens should contain the most flammable parts of the traffic surface at their centers. The most flammable area may be determined on the basis of experience or through pretesting.

\* Option 1 of ASTM D 2654-67T, "Methods of Test for Amount of Moisture in Textile Materials," describes a satisfactory oven. ("1969 Book of ASTM Standards," Part 24, published by the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.)

<sup>1</sup>Cement asbestos board is a suitable material.

mensons of 30.48±0.13×30.48±0.13×30.48±0.13 cm. (12±1/4×12±1/4×12±1/4 in.) and a minimum of 6.35 mm. (1/4 in.) wall thickness. The flat bottom of the box shall be made of the same material as the sides and shall be easily removable. The sides shall be fastened together with screws or brackets and taped or otherwise suitably sealed to prevent air leakage into the box during use.

Note: A minimum of two chambers and two extra bottoms is suggested for efficient operation.

(2) *Flattening frame.* A steel plate, 22.86±0.64×22.86±0.64 cm. (9±1/4×9±1/4 in.), 6.35 mm. (1/4 in.) thick (Commercial tolerances) with a 20.32±0.02 cm. (8±1/4 in.) diameter hole in its center is required to hold the carpet or rug flat during the course of the test. It is recommended that one be provided for each test chamber.

(3) *Standard igniting source.* No. 1588 methenamine timed burning tablet or an equal tablet. These tablets shall be stored in a desiccator over a desiccant for 24 hours prior to use. (Small quantities of sorbed water may cause the tablets to fracture when first ignited. If a major fracture occurs, any results from that test shall be ignored, and it shall be repeated.)

(4) *Test specimens.* Each test specimen shall be a 22.86±0.64×22.86±0.64 cm. (9±1/4×9±1/4 in.) section of the carpet or rug to be tested.

(5) *Circulating air oven.* A vented forced circulation drying oven capable of removing the moisture from the specimens when maintained at 105±2.8° C. (221±5° F.) for 2 hours.

(6) *Desiccating cabinet.* An airtight and moisture-tight cabinet capable of holding the floor covering specimens horizontally or vertically without contacting each other during the cooling period after drying, and containing silica gel desiccant with an indicator. Replace or reactivate the desiccant when it becomes inactive.

(7) *Gloves.* Nonhygroscopic gloves (such as rubber or polyethylene) for handling the sample after drying, and raising the pile on specimens prior to testing.

(8) *Hood.* A hood capable of being closed and having its draft turned off during each test and capable of rapidly removing the products of combustion following each test. The front or sides of the hood should be transparent to permit observation of the tests in progress.

(9) *Mirror.* A small mirror may be mounted above each test chamber at an angle to permit observation of the specimen from outside the hood.

(10) *Vacuum cleaner.* A vacuum cleaner to remove all loose material from each specimen prior to conditioning. All surfaces of the vacuum cleaner contacting the specimen shall be flat and smooth.

(b) *Specimens—(1) Selection of specimens.* After selection of the test items as specified in 4 Sampling and acceptance procedures, select a sample of each item large enough to cut the required specimens, free from creases, fold marks, delaminations, or other distortions. The test specimens should contain the most flammable parts of the traffic surface at their centers. The most flammable area may be determined on the basis of experience or through pretesting.

\* Option 1 of ASTM D 2654-67T, "Methods of Test for Amount of Moisture in Textile Materials," describes a satisfactory oven. ("1969 Book of ASTM Standards," Part 24, published by the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.)

(2) *Cutting.* Cut 22.86±0.64 cm. (9±1/4 in.) square specimens of each carpet or rug to be tested to comply with 4 Sampling and acceptance procedures.

(c) *Conditioning.* Clean each specimen with the vacuum cleaner until it is free of all loose ends left during the manufacturing process and from any material that may have been worked into the pile during handling. Care must be exercised to avoid "fuzzing" of the pile yarn.

Place the specimens in the drying oven in a manner that will permit free circulation of the air at 105±2.8° C. (221±5° F.) around them for 2 hours. Remove the specimens from the oven with gloved hands and place them horizontally in the desiccator with traffic surface up or vertically and free from contact with each other until cooled to room temperature, but in no instance less than 1 hour.

No more than 16 specimens shall be in the desiccator at one time.

(d) *Testing.* Place the test chamber in the draft-protected environment (hood with draft off) with its bottom in place. Wearing gloves, remove a test specimen from the desiccator and brush its surface with a gloved hand in such a manner as to raise its pile. Place the specimen on the center of the floor of the test chamber, traffic surface up, exercising care that the specimen is horizontal and flat. Place the flattening frame on the specimen and position a methenamine tablet on one of its flat sides in the center of the 20.32±0.02 cm. (8±1/4 in.) hole.

Ignite the tablet by touching a lighted match or an equivalent igniting source carefully to its top. Close the hood door. If more than 2 minutes elapse between the removal of the specimen from the desiccator and the ignition of the tablet, the conditioning must be repeated.

Continue each test until one of the following conditions occurs:

(1) The last vestige of flame or glow disappears. (This is frequently accompanied by a final puff of smoke.)

(2) The flaming or smoldering has approached within 2.54 cm. (1 in.) of the edge of the hole in the flattening frame at any point.

When all combustion has ceased, ventilate the hood and measure the shortest distance between the edge of the hole in the flattening frame and the charred area. Record the distance measured for each specimen.

Remove the specimen from the chamber and remove any burn residue from the floor of the chamber. Before proceeding to the next test, the floor must be cooled to normal

\* The vacuum cleaning described is not intended to simulate the effects of repeated vacuum cleaning in service.

\* If the specimens are moist when received, permit them to air-dry at laboratory conditions prior to placement in the oven.

A satisfactory preconditioning procedure may be found in ASTM D 1776-67, "Conditioning Textiles and Textile Products for Testing," ("1969 Book of ASTM Standards," Part 24, published by the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.)

\* To provide a draft-protected environment while avoiding the possibility of oxygen starvation, presence of an adequate oxygen supply during the test must be insured. Small hoods should be louvered to permit entry of air during the test, or alternatively the hood door may be left open in excess of 6 inches. In the event the hood door is left open, precautions must also be taken to insure that other sources of air movement in the laboratory which might create drafts in the test chamber are minimized.

room temperature or replaced with one that is at normal room temperature.

(e) *Laundering*. If the carpet or rug has had a fire-retardant treatment, or is made of fibers which have a fire-retardant treatment, the selected sample or oversized specimens thereof shall be washed, prior to cutting of test specimens, either 10 times under the washing and drying procedure prescribed in Method 124-1987 of the American Association of Textile Chemists and Colorists [washing procedure 6.2 (III) with a water temperature of 60±2° C. (140±5° F.) drying procedure 6.3.2 (B), maximum load 3.64 kg. (8 pounds)]<sup>1</sup>, or such number of times under such other washing and drying procedure as shall previously have been found to be equivalent by the Federal Trade Commission. Alternatively, the selected sample or oversized specimens thereof may be washed, dry cleaned, or shampooed 10 times, prior to cutting of test specimens, in such manner as the manufacturer or other interested party shall previously have established to the satisfaction of the Federal Trade Commission is normally used for that type of carpet or rug in service. Under the rules and regulations which may be established by the Federal Trade Commission, the laundry requirement may be modified or waived by FTC where it is shown that laundering does not affect the flame-retardant treatment.

8 *Labeling requirements*. If the carpet or rug has had a fire-retardant treatment or is made of fibers which have had a fire-retardant treatment, it shall be labeled with the letter "T" pursuant to conditions established by the Federal Trade Commission.

Food and Drug Administration  
[FAP 1B2682]

### ALLIED COLLOIDS, INC.

#### Withdrawal of Petition for Food Additives

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b), 72 Stat. 1786; 21 U.S.C. 348(b)), the following notice is issued:

In accordance with § 121.52 *Withdrawal of petitions without prejudice* of the procedural food additive regulations (21 CFR 121.52), Allied Colloids, Inc., 1 Robinson Lane, Ridgewood, NJ 07450, has withdrawn its petition (FAP 1B2682), notice of which was published in the FEDERAL REGISTER of June 29, 1971 (36 FR 12246), proposing that § 121.2526 *Components of paper and paperboard in contact with aqueous and fatty foods* (21 CFR 121.2526) be amended to provide for the safe use of sodium polyacrylate as a dispersant of pigments used in the manufacture of paper and paperboard for contact with aqueous and fatty foods.

Dated: February 26, 1973.

## NOTICES

[Docket No. FDC-D-589; NADA No. 30-704V]

### BEECHAM-MASSENGILL PHARMACEUTICALS

#### Daribiotic Improved; Notice of Withdrawal of Approval of New Animal Drug Application

Beecham-Massengill Pharmaceuticals, Division of Beecham, Inc., Bristol, Tenn. 37620 was informed that the Commissioner of Food and Drugs proposed to issue an order under the provisions of section 512(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(3)) withdrawing approval of NADA (new animal drug application) No. 30-704V with respect to the use of Daribiotic Improved. The drug is administered by intramammary infusion to cows for the treatment and prevention of acute or chronic mastitis; each 25 cc. dose contains 200 milligrams of neomycin sulfate (equivalent to 140 milligrams of standard neomycin base) and 50,000 units of polymyxin B sulfate in an aqueous milk-miscible base. Labeling includes a statement that milk taken from animals during treatment and within 72 hours (6 milkings) after treatment not be used for food.

The Commissioner, on the basis of new information before him with respect to such drug evaluated together with the evidence available to him when the application was approved, concludes that the drug is not shown to be safe under the conditions of use upon the basis of which the application was approved.

Information available to the Commissioner has established that residues of neomycin exceeding the tolerance of 0.15 part per million (negligible residue provided by 21 CFR 135g.25) are present in milk taken from animals in which the drug has been used as directed in the labeling. Available evidence also established that residues of neomycin are present 120 hours following treatment. Section 135.103 (21 CFR 135.103), which provides for label requirements for new animal drugs intended for intramammary use in milk-producing animals, limits the maximum milk discard period to 96 hours. Accordingly, there cannot be approved for the subject drug labeling which would ensure the absence of neomycin residues in milk when the drug is labeled for use in lactating animals.

Beecham-Massengill Pharmaceuticals upon being informed of the Commissioner's intent to issue a notice of opportunity for a hearing proposing issuance of an order to withdraw approval of the subject new animal drug application requested that the application be withdrawn.

Based on the firm's request and the findings set forth above, the Commissioner concludes that approval of new animal drug application No. 30-704V should be withdrawn. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345-47; 21 U.S.C. 360b(e)) and under the authority delegated to the Commissioner (21 CFR 2.120), approval of new animal drug application No. 30-704V including all amendments and

supplements thereto is hereby withdrawn effective on February 26, 1973.

Dated: February 26, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

[Docket No. FDC-D-607; NADA No. 8-689V]

### Pfizer, Inc.

#### Oxytetracycline With or Without Vitamin A; Withdrawal of Approval of New Animal Drug Application

In the FEDERAL REGISTER of August 25, 1970 (35 FR 13542, DESI 8689B), the

Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group on Terramycin Animal Formula Tablets and Terramycin Bolus with Vitamin A, new animal drug application (NADA) No. 8-689V; marketed by Pfizer, Inc., 235 East 42d Street, New York, NY 10017.

Pfizer, Inc., responded to the announcement by waiving an opportunity for a hearing and requesting that approval of NADA No. 8-689V be withdrawn.

Based on the grounds set forth in said announcement and the firm's response, the Commissioner concludes that approval of said new animal drug application should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360(b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 8-689V, including all amendments and supplements thereto, is hereby withdrawn effective on March 7, 1973.

Dated: February 23, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

### Food and Drug Administration

[Docket No. FDC-D-448; NDA 5-933; DESI-5933]

### COOPER LABORATORIES, INC.

#### Bistramate; Final Order on Objections and Request for a Hearing Regarding Withdrawal of Approval of New Drug Application

In an announcement published in the FEDERAL REGISTER of August 25, 1970 (35 FR 13541), the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of a report received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group, on Bistramate Tablets (NDA 5-933) containing bismuth sodium triglycollamate. The holder of the new drug application at that time was Smith, Miller and Patch, Inc., 401 Joyce Kilmer Avenue, New Brunswick, New Jersey 08902. The present holder of the new drug application is Cooper Laboratories, Inc., 2900 North 17th Street, Philadelphia, Pennsylvania 19132.

The announcement stated that there is a lack of substantial evidence that the drug Bistramate is effective for its labeled indications, and that the Commissioner intended to initiate proceedings to withdraw approval of the new drug application for the drug. Interested persons were invited to submit any pertinent data bearing on the proposal within 30 days following publication of the announcement. Material submitted

by Smith, Miller and Patch in response to the announcement was reviewed and found not to provide substantial evidence of effectiveness.

As a result of this review, on September 13, 1971, Smith, Miller and Patch, Inc., was notified by letter that the Commissioner intended to initiate proceedings to withdraw approval of the new drug application.

Subsequently, on June 6, 1972, there was published in the FEDERAL REGISTER (37 FR 11284), a notice to Smith, Miller and Patch, Inc., holder of NDA 5-933 for Bistrimate Tablets, and to any interested person who may be adversely affected, that the Commissioner of Food and Drugs proposed to issue an order withdrawing approval of said application, and all amendments and supplements thereto, on the ground that new information before him with respect to the drug, evaluated together with the evidence available to him when the application was approved, shows there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. The notice provided an opportunity for hearing on withdrawal of the new drug application for Bistrimate (NDA 5-933). Thirty days were allowed for filing a written appearance requesting a hearing by the applicant or any interested person who would be adversely affected by an order withdrawing approval of the application, giving the reasons why approval of the new drug application should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data they were prepared to prove in support of their opposition.

On July 5, 1972, a written appearance and request for a hearing was submitted by Cooper Laboratories, Inc., the current holder of the new drug application (NDA 5-933). Submitted with the request was a statement of grounds including the medical documentation relied upon, legal arguments, and an affidavit.

The medical presentation of Cooper Laboratories, Inc., has been considered, and the Commissioner of Food and Drugs concludes that there is no genuine and substantial issue of fact requiring a hearing and that the legal arguments offered are insubstantial, all as explained in more detail below.

I. *The drug.* Bistrimate is the sodium bismuth salt of triglycolamic acid combined with three equivalents of disodium triglycolamate to form a double salt-like compound. It contains 18.3 percent metallic bismuth.

II. *Recommended uses.* Bistrimate is a prescription drug recommended for use in treatment of chronic sore throat and syphilis. It is recommended for administration in tablets equivalent to 75 mgs. of metallic bismuth each. The administration of two tablets three times a day is recommended, but it is cautioned that care be exercised, and that the drug be taken only as prescribed.

III. *Medical documentation to support claims of effectiveness.* In response to the notice, Cooper Laboratories, Inc., has submitted an affidavit and several literature reprints. None of this submission concerns or refers to the effectiveness of Bistrimate as a treatment for chronic sore throat. No evidence whatever has been submitted that Bistrimate is effective for the treatment of chronic sore throat. Previously, on January 22, 1971, the holder of the new drug application (Smith, Miller and Patch, Inc.), informed the Commissioner by letter that it would not be opposed to deleting chronic sore throat as an indication for Bistrimate.

A. *The affidavit.* Included as a part of the July 5, 1972 submission, is the affidavit of Dr. Herbert J. Spoor, a physician who has prescribed Bistrimate for syphilis and has found it to be effective for this condition. Dr. Spoor's affidavit states that it is his opinion that Bistrimate is an effective treatment for syphilis. He makes no reference to any adequate and well-controlled clinical investigations having been conducted to support his opinion, but relies only upon general clinical experience to justify his conclusion.

Of the 45 articles authored or co-authored by Dr. Spoor, cited in the bibliography attached to the affidavit, none deal with syphilis or any form of bismuth treatment.

In addition to his affidavit, Dr. Spoor had a meeting with representatives of the Food and Drug Administration on February 9, 1971, to discuss Bistrimate. At that time, Dr. Spoor told the Food and Drug Administration personnel about a group of patients treated at the New York Eye-Ear Infirmary Syphilis Clinic between 1967-70. His report of that treatment consisted of a list of patients who had a positive serologic test for syphilis and were treated with a variety of drugs; no controls of any kind were employed in this group of patients. In addition, only six of 136 patients were treated with bismuth tablets. Of those patients, according to Dr. Spoor's summary sheet which was supplied to the FDA, the results were: "Claims improved: 1; 'Not known' 2; 'Improved' 1; 'No change' 1; 'Still not happy' 1. The efficacy of Bistrimate cannot be evaluated on the basis of these six patients. Moreover, this is the only specific basis the Commissioner has been given to support Dr. Spoor's opinion that Bistrimate is effective in the treatment of syphilis. It does not constitute substantial evidence of efficacy.

B. *Four cited articles.* Cooper submitted reprints of four articles which it contends establish Bistrimate's effectiveness. The Commissioner has reviewed these articles and concludes that none of these constitute substantial evidence of efficacy, as follows:

1. Elmer R. Gross, M.D., and James K. Howles, M.D., "Non Specific Treatment of Dermatoses and Adjunctive Therapy of Syphilis with Oral Sodium Bismuth Triglycolamate." This is the text of an unpublished paper read before

an American Medical Association section meeting in 1947. It is a report of the treatment of 354 patients with a variety of dermatoses (lupus erythematosus, scleroderma, lupus vulgaris, alopecia areata, etc.). There were no controls. Of the 354 patients, 222 with syphilis in various stages were treated with Bistrimate, 450 mg. daily, for periods up to 6 months. There were various treatment regimens used throughout the study. Some patients received other medications including penicillin. The criterion used by the authors was inappropriate in that they state that "for clinical purposes, patients demonstrating visible lesions are the best index of therapeutic response." This is a poor index of infection. At that time, and now, it is known that visible syphilitic lesions disappear without any treatment, although the disease continues (William Boyd, "Textbook of Pathology," 5th ed., p. 174-8 Phila., 1947). Apparently the only patients in whom serological (i.e., blood) testing was used to evaluate response were those who received both penicillin and Bistrimate.

The authors conclude that Bistrimate is the drug of choice in patients who have had major arsenical reaction, or in patients whose physical status precludes the use of arsenic. They find Bistrimate useful where parenteral bismuth therapy produced local reactions, or in geriatric syphilis where passive specific therapy is indicated. However, it is difficult to tell from the paper what percentage of patients were believed to have benefited from Bistrimate. No individual case reports are described in any detail whatever. The authors themselves realized that their conclusions were "a bit premature" and that the series was a small one.

This paper is not an adequate and well-controlled clinical study. Specifically, it fails to meet the statutory requirement as spelled out in 21 CFR 130.12(a)(5).

2. Arthur C. DeGraff, M.D. et al., "Report on the Pharmacology and Toxicology of Bistrimate" (1946). This unpublished paper consists of five parts: Part 1 relates to acute toxicity of Bistrimate in experimental animals; part 2 relates to chronic toxicity in experimental animals; part 3 concerns the urinary excretion of bismuth following administration of Bistrimate in man; part 4 concerns the effect of Bistrimate on blood clotting time; and part 5 is a report of five case histories of treatment of patients with syphilis using Bistrimate.

This paper contains no human clinical documentation of effectiveness for syphilis. The vast majority of it deals with nonpertinent data compiled from administration to animals.

The only section of the paper which is at all pertinent to the efficacy of Bistrimate on humans is a report of five case histories of treatment of patients with syphilis using the drug. No definite conclusions can be made regarding the efficacy of oral Bistrimate from only case reports without controls. Dosages of Bistrimate varied among the five patients, as did duration of administration. No statistically valid conclusion could be

drawn from this small a study, and the report itself admits that the group is small. This report does not contain any adequate and well-controlled clinical studies. Specifically, the five case histories fail to meet the criteria set forth at 21 CFR 130.12(a)(5).

3. Arthur C. DeGraff, M.D., and Robert A. Lehman, Ph. D. "Oral Sodium Bismuth Triglycolamate in the Treatment of Syphilis." This is an unpublished paper which was apparently written in 1946. Included in this paper is a short description of animal toxicity studies.

The authors state that Bistrimate was given three times daily to 13 subjects at various dosage levels for a period from 1 to 16 weeks. Twenty-four hour urine specimens were analyzed for bismuth and examined for evidence of renal irritation. The authors used a daily excretion of at least 2 mgs. of bismuth in a 24-hour specimen as an "adequate excretion level." The authors point out that some subjects achieved this level, some did not.

The authors describe two patients treated with Bistrimate, one with primary syphilis, the other with multiple gummata of late syphilis. The authors made no attempt to conduct an adequate and well-controlled investigation and do not represent their report to be one. These two patients were among the five previously discussed in Dr. DeGraff's "Report on the Pharmacology and Toxicology of Bistrimate." The entire study was totally uncontrolled. In the first patient the chancre improved after 29 days, but there is no indication that the drug was responsible, since, as earlier stated, chancres heal without treatment although the disease may continue. Further, the paper is not explicit on whether the positive serologic test was repeated or not. In the second patient, similarly uncontrolled, the gummata are reported improved but again, since the serology was not repeated it cannot be concluded that the treatment with Bistrimate had any effect.

4. Elmer R. Gross, M.D. and Carroll S. Wright, M.D., "Bistrimate in Dermatology and Syphilology." This is an unpublished article which was apparently written in 1946. Of the 34 cases in the study, Bistrimate was not the only drug given in 26. The authors pointed out that in these 26 cases "Bistrimate was given only simultaneously with other therapy and hence cannot be used to judge therapeutic efficacy." In the eight cases where Bistrimate was administered alone it was administered alone only during the first period of treatment. Thereafter, additional therapy was used in conjunction with the Bistrimate treatment. With the eight cases where Bistrimate was initially used alone to treat syphilis, it is not possible to evaluate the therapeutic efficacy of the drug because there had not been sufficient time for followup at the time of the writing of the paper. No subsequent article has been submitted by Cooper. Although the lesions cleared up during the period of treatment, there may have been subsequent relapses, when the

treatment was discontinued. Further, as previously discussed, lesions will clear up without treatment. In addition, in seven out of the 34 patients, there were symptoms definitely referable to bismuth intoxication. There were no controls used in treating the patients in this report.

These studies are not adequate and are not well-controlled investigations in accordance with the statutory requirements, as set forth in 21 CFR 130.12(a)(5). No plan or protocol for any of the studies, or the report of the results of the effectiveness of Bistrimate in any of the studies provide adequate assurance that the subjects were always suitable for the purposes of the study [(1)(a)(2)(i)], or that the subjects were assigned to test groups in such a way as to minimize bias [(1)(a)(2)(ii)], or that comparability or pertinent variables in test and control groups were assured [(1)(a)(2)(iii)]. Furthermore, these studies do not adequately explain the methods of observation of subjects and recording of results [(1)(a)(3)]. They fail to provide a comparison of the results of treatment or diagnosis with a control in such a fashion as to permit quantitative evaluation. No controls were employed [(1)(a)(4)]. Finally, the summaries of the methods of analysis and evaluation of data derived from the studies, including appropriate statistical methods are inadequate [(1)(a)(5)]. The most that may be said of these studies is that they are merely clinical impressions.

IV. *Legal arguments.* Cooper contends that Bistrimate is not a new drug, relying on long usage of bismuth to make the product "not a new drug." However, no evidence is presented to establish that Bistrimate is not a new drug within the meaning of the statute.

Cooper states that Bistrimate was once listed as effective by a number of medical texts. It is now indisputable that the product is not regarded as effective. There is no mention of Bistrimate in the publication of the American Medical Association's Council on Drugs, "Drug Evaluations—1971." Nor is it listed in any of the official drug compendia. A leading medical text, Goodman and Gilman, "The Pharmacological Basis of Therapeutics" (3d ed. 1965) states that it is difficult to justify the use of bismuth in any of its forms, and the current fourth edition (1970) states that "Although it was the last of the group V metals to be introduced into medicine (1785), it should be the first to be abandoned, since there is little reason to recommend its continuance in a modern therapeutic armamentarium." Moreover, because of its inefficaciousness with respect to treatment of syphilis, Bistrimate is not only a hazard to the diseased patient who is denied proper treatment; it constitutes a public health hazard, for that patient may infect others.

Finally, it is immaterial whether Bistrimate was generally recognized as safe on October 10, 1962. The Drug Amendments of 1962 require that every drug which was the subject of an NDA between 1938 and 1962 is required to be

proven effective for its labeled uses. 76 Stat. 780, 788-789; USV Pharmaceutical Corp. v. Richardson, 461 F. 2d 223 (C.A. 4, 1972); Hynson, Wescott and Dunning, Inc. v. Richardson, 461 F.2d 215 (C.A. 4, 1972). Because Bistrimate was the subject of an NDA during that period of time, the act requires that it be shown by Cooper to be effective for its claimed uses. Pfizer, Inc. v. Richardson, 434 F.2d 536 (C.A. 2, 1970; Upjohn Co. v. Finch, 422 F.2d 944 (C.A. 6, 1970); Pharmaceutical Manufacturers Association v. Richardson, 318 F. Supp. 301 (D. Del., 1970).

Cooper's contentions that the Commissioner has no authority to establish criteria for adequate and well-controlled clinical investigations necessary to demonstrate effectiveness of drug products on the market, and to condition the holding on an evidentiary hearing on a showing that reasonable grounds exist therefore, have been ruled upon adversely to the firm. Diamond Laboratories, Inc. v. Richardson, 452 F. 2d 803 (C.A. 8, 1972); Ciba-Geigy Corp. v. Richardson, 446 F. 2d 466 (C.A. 2, 1971); Pfizer, Inc. v. Richardson, supra; Upjohn v. Finch, supra; Pharmaceutical Manufacturers Association v. Richardson, supra. Thus, the objections of Cooper on these grounds are unfounded.

V. *Findings.* The Commissioner, based on the information before him and a review of the medical documentation, affidavit, and legal arguments offered to support the claims of effectiveness for Bistrimate, finds that there is a lack of substantial evidence that Bistrimate has the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling, that the legal arguments are insubstantial, and that Cooper Laboratories, Inc. has failed to set forth specific facts showing that there is a genuine and substantial issue of fact requiring a hearing.

The Commissioner finds that no evidence whatever has been submitted regarding the effectiveness of Bistrimate for chronic sore throat, and thus it cannot be found to be effective for this indication. The evidence submitted to support effectiveness is wholly lacking in both quantity and quality, and does not even purport to meet the statutory standard of substantial evidence of effectiveness.

The Commissioner further finds that, because Bistrimate has not been shown to be effective in the treatment of syphilis, it permits a contagious patient to continue to transmit venereal disease. Bistrimate is thus a public health hazard in that its use exposes the public to needless risk of disease. Therefore, the new drug application heretofore approved for Bistrimate (NDA 5-933) is hereby withdrawn on the basis of a lack of substantial evidence of effectiveness and the public health hazard such ineffectiveness creates.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 701, 52 Stat. 1052-1053, 1055-1056, as amended, and 76 Stat. 781-785, as amended; 21 U.S.C. 355, 371),

and under authority delegated to the Commissioner (21 CFR 2.120), the request for an evidentiary hearing is denied. Notice is given that the approval of the new drug application for Bistri-mate (NDA 5-933) and all amendments and supplements thereto is withdrawn effective on March 7, 1973.

Dated: March 2, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

[FR Doc. 73-4447 Filed 3-6-73; 8:45 am]

[DESI 10240; Docket No. FDC-D-273,  
NDA 12-718]

#### MESULFIN TABLETS

##### Final Order on Objections and Request for a Hearing Regarding Withdrawal of Approval of New Drug Application

In the FEDERAL REGISTER of September 27, 1969 (34 FR 14907), the Food and Drug Administration announced its evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the preparation Mesulfin tablets, containing 250 milligrams sulfamethizole and 250 milligrams methenamine mandelate per tablet; Ayerst Laboratories, 685 Third Avenue, New York, NY 10017 (NDA 12-781; DESI 10240).

The announcement stated the conclusion of the Food and Drug Administration that on an overall basis there is a lack of substantial evidence that the drug will have the effect it purports to have or is recommended to have. The Commissioner further stated that he intended to initiate proceedings to withdraw NDA 12-718. However, before initiating such proceedings, the holder of the new drug application was invited to submit, within 30 days of the date of publication of the announcement in the FEDERAL REGISTER, any pertinent data bearing on the proposal. The Commissioner stated he would only consider well-organized material consisting of adequate and well-controlled studies bearing on the efficacy of Mesulfin tablets that had not previously been submitted. On October 27, 1969, Ayerst Laboratories submitted information concerning Mesulfin tablets to the FDA. The information received (discussed below) together with information previously available, did not provide substantial evidence of effectiveness of the drug for use in man for the conditions for which it is recommended in its labeling.

A notice was thereafter published in the FEDERAL REGISTER of February 18, 1971 (36 FR 3146), which provided an opportunity for hearing on withdrawal of the new drug application for Mesulfin tablets (NDA 12-718). Thirty days were allowed for filing a written appearance requesting a hearing by an interested person, giving the reasons why approval of the new drug application should not be withdrawn, together with a well-organized and full factual analysis of the clinical and other investiga-

tional data they were prepared to prove in support thereof.

On March 15, 1971, American Home Products Corp., on behalf of Ayerst Laboratories, Inc., requested an extension of time to respond to the notice, and also requested the Commissioner, pursuant to 21 CFR 130.14(a), to explain the reasons for his actions, enumerating six particular inquiries. By letter of March 24, 1971, an extension of time to April 6, 1971, was granted and a full explanation of the basis for the Commissioner's action was provided.

On April 6, 1971, American Home Products filed a response which consisted of a request for a hearing and written notice of appearance, including a statement of reasons why the firm contended that a hearing was in order, and the firm's medical documentation.

This submission has been considered, and the Commissioner of Food and Drugs concludes that there is no genuine and substantial issue of fact requiring a hearing, and that the legal arguments offered are insubstantial, all as explained in more detail below.

I. *The drug.* Mesulfin tablets is a fixed combination preparation containing, in each tablet, sulfamethizole (250 milligrams) and methenamine mandelate (250 milligrams).

II. *Recommended uses.* Mesulfin tablets are offered for use in the treatment of cystitis, urethritis, pyelitis, pyelonephritis, and prostatitis due to bacterial infection amenable to sulfonamide therapy. It is also offered for prophylaxis of patients with indwelling catheters, ureterostomies, urinary calculi, urinary stasis, and neurogenic bladders. It is also indicated to be of value in genitourinary surgery and instrumentation, and for the treatment of many infections due to organisms resistant to antibiotics, sulfonamides, and other chemotherapeutic agents. The usual dose is two tablets four times daily.

III. *The data to support claims of effectiveness.* In support of its request for hearing, American Home Products submitted numerous studies on the use of Mesulfin tablets. These consisted of two new studies, one long-term study, and 11 studies originally submitted with NDA 12-718, and arguments presented why these studies should be considered "controlled." Proposed revised labeling for Mesulfin tablets was also submitted. Also submitted were the testimonial affidavits of eight physician-investigators who have worked with Mesulfin.

A. *The recent studies.* 1. *Whalley, The Effects of Treatment or Non-Treatment of Asymptomatic Bacteriuria of Pregnancy, unpublished.* The purpose of this study was to determine the effect of treating asymptomatic bacteriuria on the course of the bacteriuria and on the incidence of ante-partum, intra-partum and post-partum complications.

The 139 patients studied were divided into three groups; the first group, consisting of 62 patients, was untreated from the date the bacteriuria was diagnosed until parturition; the second group, con-

sisting of 52 patients, was treated with Mesulfin for a 2-week period; and a third group, consisting of 25 patients, was treated with Mesulfin from the time of diagnosis to the end of pregnancy. Of the 25 patients on continuous Mesulfin therapy, all had bacteriologically negative urine cultures throughout the study. Of the 52 treated for 2 weeks, 29 (55 percent) obtained bacteriologically negative urine cultures for the remainder of their pregnancy; three patients (5.8 percent) had no improvement with Mesulfin; reinfection occurred in 20 (38.5 percent) of this group; and of these latter 23, eight developed symptomatic urinary tract infections. All of the 62 untreated patients continued to show evidence of urinary tract infection as evidenced by consistent bacteriologically positive cultures.

The conclusion was reached that Mesulfin therapy is markedly superior to no treatment in asymptomatic bacteriuria of pregnancy.

However, for the following reasons, the Commissioner concludes that the Whalley study is not adequate and well-controlled and does not constitute substantial evidence of the effectiveness of Mesulfin. The study was not designed in a manner which leads to the collection of data capable of demonstrating the specific effects of each active ingredient, as required by 21 CFR 3.86. As the title of the study indicated, it was conducted to compare the effect of the fixed dose combination therapy versus no treatment in pregnant women with asymptomatic bacteriuria. The results of the study thus could not provide evidence as to the potential benefit or risk attributable to each active component of Mesulfin. Furthermore, the Whalley study does not appear to be well controlled. Had random allocation been applied to the three treatment groups, one would have expected 46 patients in each group. The random occurrence of 25 for continuous treatment, 52 for 2 week treatment and 62 for no treatment could be expected less than 1 time in 100 by chance. It is unlikely that randomization would have produced a distribution as uneven as the one reported. The result implies that randomization has failed to produce comparable groups with regard to numbers.

The statistical analysis of the Whalley study is clearly in error. The author concludes that there is an almost perfect correlation between the group with positive urine cultures and symptomatic urinary tract infection. However, in the untreated group, 62 patients had positive urinary cultures but only 27 had symptomatic urinary infections, less than 44 percent; this is clearly less than the 100 percent suggested by the investigator's and the company's analysis.

Finally, testing was not done to identify the microorganisms present in positive cultures before beginning medication in order to determine drug susceptibility of these microorganisms. Susceptibility tests of microorganisms to the testing

drug was performed only in case of initial treatment failure or relapse. Thus, it was not possible to evaluate the final results for drug susceptibility.

2. *McGarity and LeBlanc, Asymptomatic Bacteriuria in Pregnancy, unpublished.* The purpose of this study was to determine the effects of treatment of bacteriuria on development of urinary tract disease such as pyelonephritis and on prematurity. The methodology is described in Texas Reports on Biology and Medicine, 22:336, summer, 1964. Thirteen hundred patients were used in this study. All prenatal patients had urine cultures done on their initial visits and those having colony counts of greater than  $10^4$  per ml. of a single organism were placed on randomized therapy. This therapy was not based on bacteriological sensitivity studies. Drugs were initially used in therapeutic dosages and then reduced to prophylactic dosages when the urine cultures became negative. Patients were given Mesulfin, methenamine mandelate, furadantin, or no treatment. No patients were administered sulfamethizole or a sulfa drug alone. In their protocol, the investigators stated that they were using Mesulfin as a representative of the sulfa group, yet Mesulfin is a combination of a sulfa and methenamine mandelate.

Patients were followed throughout the remainder of pregnancy; delivery cultures and 6-week post-partum cultures were done. The investigators concluded that the results of the study demonstrated an incidence of asymptomatic bacteriuria of 6.5 percent; the incidence of subsequent pyelonephritis in the initially negative culture group was 2 percent. A selected group of patients with initial negative cultures who were placed on long-term drug therapy had an incidence of acute pyelonephritis of 0.9 percent, leading the investigators to conclude that continuous drug therapy appeared to diminish the risk of catheterization. In those patients with initial positive cultures receiving continuous but randomized drug therapy, the incidence of acute pyelonephritis was 4.3 percent, whereas in those without continuous therapy, the incidence of subsequent acute pyelonephritis was 20 percent. It was concluded that antibiotic (sic) therapy used continuously throughout pregnancy in patients with asymptomatic bacteriuria reduced the incidence of acute pyelonephritis to that of a normal population.

For the following reasons, the Commissioner concludes that the McGarity and LeBlanc study is not adequate and well-controlled and therefore does not constitute substantial evidence of the efficacy of Mesulfin. Like the Whalley study, this study was not designed in a manner which would lead to the collection of data capable of demonstrating the specific effects of each active ingredient, as required by 21 CFR 3.86. The comparable analysis and report suggest a reduction in bacteriuria and urinary tract infections but these results do not provide evidence as to the potential bene-

fit or risk attributable to each active component of Mesulfin.

The study has a multipurpose protocol which does not have as its aim the evaluation of the relative importance of the components of Mesulfin in the treatment or prevention of urinary infections. It is unclear if the study was based on randomization and conducted in a double blind fashion. Both of these would be necessary for a properly controlled study. Of the 110 patients with positive cultures only nine were reported to have been administered methenamine mandelate compared to 23 for no drug, 41 for Mesulfin and 34 for Furadantin; three are unaccounted for. None were administered sulfamethizole or another sulfa drug alone. Adequate randomization would have resulted in more patients having taken methenamine mandelate, thus making any statistical conclusion both more accurate and more reliable.

The chi-square analyses on pages 6, 7, and 8 of the McGarity and LeBlanc study, although providing a summary of the data, are insufficient to support a claim that the components are contributing to the efficacy of the combined product, since there is no data comparing the sulfa component to the methenamine mandelate and in turn comparing the components individually to the composite drug and to no treatment. Moreover, four times as many patients were treated with Mesulfin than methenamine mandelate. This statistical variation questions the reliability of the results.

A criterion for bacteriuria was not stated although "negative culture" was defined as "colony count less than  $10^4$ " in the clinical protocol. The criterion of "negative culture" is questionable since the count is much too high to be considered as such, especially when the organism is of the same species, strain, or serotype. The clinical protocol and summary presented are not coherent. It is therefore difficult to arrive at a meaningful evaluation.

B. *The Long-Term Study.* Zinsser, et al., Comparative Drug Study in Chronic Urinary Infections Using Computer Definition of Patient Disease Patterns and Quantitative Measures of Drug Efficacy by Sequential Analysis and Patient Derived Autodeinition of a Disease: Pyelonephritis. This long-term study together with the submitted analysis of the data by Dr. Hyman Menduke clearly reveal that the study was designed primarily to investigate the diseases involved rather than the drug efficacy. The study comprises a retrospective analysis of a patient population covering the past 20 years. Dr. Menduke's letter points out that the subjects were not assigned on a random basis, nor were the treatments specified for certain durations with specific intervals per treatment. In his analysis, Dr. Menduke only addresses those patients with a "usable episode," whose condition at the beginning and at the end is unknown. Dr. Menduke also redefined the sampling unit to a per-patient basis. Moreover, this set of observations suggests that at least one

component is not contributing to the drug's effect; Dr. Menduke's analysis reveals that methenamine mandelate has a success rate equivalent to the no treatment group. The clinical protocol for the study included a bacteriological evaluation but Dr. Menduke did not mention a bacteriological evaluation at all. The study was not controlled as required by section 505 of the Act nor designed to evaluate the effectiveness of each component as required by 21 CFR 3.86. For these reasons, the Commissioner finds that the data as presented do not constitute an adequate and well-controlled investigation and are not substantial evidence of the effectiveness of Mesulfin.

C. *The studies contained in the New Drug Application file.* 1. John P. Colmore, M.D., and Barbara F. Branden, M.D., University of Oklahoma Medical Center, evaluated the effectiveness of Mesulfin in patients with pyelonephritis and bacteriuria of pregnancy. Quantitative urine bacteriology was obtained at each visit and CBS's, urinalysis, SGOT, and BUN determinations were obtained before initiation of therapy and monthly thereafter. The principal infecting organisms were E. coli or an Escherichia species and Klebsiella-Aerobacter, 63 and 14 cases respectively. A total of 110 patients were treated with two tablets q.i.d. and of these 84 were evaluated. Results are reported that "Mesulfin was shown to be highly effective (79.3 percent success) and safe in the eradication of bacteria due to gram-negative bacilli (particularly E. coli, other Escherichia species and Klebsiella-Aerobacter)".

This study fails to investigate the effectiveness of each individual active component of the combination drug Mesulfin; hence it is not determined which component is effective or the overall effect of the sulfamethizole or methenamine mandelate in the combination formulation, as required by 21 CFR 3.86. Nor was the study controlled as required by section 505 of the Act.

The drug is reported safe and effective when used as the treatment of bacteriuria in the third trimester of pregnancy with exception of one case of hemolytic anemia with recovery following discontinuance of therapy. The time involved for return to normal is not given, nor are followup reports of urine cultures given. The Commissioner finds that, based on the data submitted, this study is not adequate and well-controlled and does not constitute substantial evidence of the effectiveness of Mesulfin.

2. Fred K. Garvey and Harold L. Murray: A Clinical Report on the Use of Combined Mandelamine and Thiosulfil in Resistant Urinary Tract Infections, N.C. Med. J., 22(5) May 1961. These doctors investigated the effectiveness of Mesulfin for the treatment of chronic bacillary urinary tract infections resistant to antibiotic therapy. Twenty-five patients meeting this criterion were selected for study. Before initiating therapy, the infecting organism was identified by culture technique and the degree of pyuria noted for each patient. The dosage used

was two tablets four times a day except in a few cases when only one tablet was given four times daily. The main duration of therapy was 3 to 4 months. In 21 of the 25 patients Mesulfin effectively relieved the symptoms and cleared the urine of microscopic evidence of pyuria and bacteriuria. The authors concluded the product is superior to other antimicrobial agents in that it is relatively free from toxicity, continuous in its action, and has the advantage of waging a twofold attack on bacteria—that is, in both the tissues and the urinary stream.

The Commissioner finds that this study was not adequate for the following reasons: Microscopic examination alone is not acceptable criterion used for cure of urinary tract infection. Culture of urine and repeated cultures that remain normal varying in time based on the site of infection in the urinary tract are required. Cultures were not done on most patients as a follow-up and no culture reports are presented. Furthermore, there was no clinical study conducted to show the effectiveness of each drug (methenamine mandelate and sulfamethizole) compared to the overall effectiveness of the combination as required by 21 CFR 3.86. No controls were employed as required by section 505 of the Act.

Early in their experience the investigators noted a frequently occurring turbidity of the urine which varied from a milk cloudiness to a buttermilk flocculence. Turbidity was greater at lower pH levels and qualitative analysis of the sediment showed ammonium, uric acid, oxalate, calcium and phosphate ions. They reported no sulfa crystals large enough to be morphologically evident under microscope. They concluded that apparently, the flocculency was due to amorphous deposits of the varying ions resulting from a lower pH in the urine, and became more marked after the urine cooled. The pH of urine was not recorded even though it is well known that most of the sulphonamide compounds have a low solubility in water and in urine, unless the latter is alkaline. This requirement for alkaline urine for sulfa solubility is in direct conflict with acid urine required for methenamine to be effective.

In Zinsser, et al., "Formation of an Insoluble Condensation Product from Sulfamethizole and Formaldehyde" appearing in January 1963, Journal of Pharmaceutical Sciences, the composition of the sediment found in human urine after the ingestion of a combination of sulfamethizole, methenamine, and mandelic acid using the Bratton and Marshall assay procedure was more than 50 percent sulfonamide. The sediment was also said to contain ammonium and urate salts. Their in vitro studies showed sulfamethizole, methenamine, and mandelic acid in the pH range of 4.5 to 6.0, and that precipitation of the sulfonamide Since methenamine is hydrolyzed to formaldehyde in acidic solution, the aldehyde was tested in the same manner, and the formaldehyde precipitated the

sulfamethizole from solution. Zinsser reported that other investigators have independently discovered that sulfamethizole formed the same insoluble condensation product with either formaldehyde or methenamine. Helv Drury, J. Chim. Acta., 31, p. 179 (1948); U. P. Basu, J. Indian Chem. Soc., 26, p. 125 (1949). The findings of these investigators are in contradistinction to the conclusions as to the etiology and composition of the precipitate as described by Garvey and Murray.

3. Fred K. Garvey and Harold L. Murray, "A Clinical and Laboratory Study of Combined Mandelamine and Thiosulfil in Resistant Urinary Tract Infections", North Carolina M.J. 21:183, May, 1960.

The authors conducted an in vitro study of the comparative effect of methenamine mandelate and sulfamethizole, alone and in combination, and Mesulfin, against Proteus, Aerobacter, and Pseudomonas bacilli isolated from patients who were resistant to previous therapy. The isolates were used to inoculate urine of four nonmedicated healthy male subjects to establish a normal growth of the bacteria. The four males were given 0.5 gm. of each test drug every 6 hours for a total of four doses, allowing at least 4 days between each course. On the morning following administration of the test drug, their first voided specimens were collected, combined and filtered through porcelain candles and used as diluent for the culture. After incubation, the effect of each dosage regimen on growth of the test bacteria was determined turbidometrically. All organisms grew well in normal urine. In urine containing methenamine mandelate alone, growth of all these organisms were substantially inhibited. Aerogenes and Pseudomonas growth was inhibited but Proteus growth was simply delayed in urine containing Thiosulfil (sulfamethizole). Growth of these organisms in the presence of urine containing both drugs was satisfactorily inhibited and compared favorably with Mesulfin.

The size of the group is so small that the study cannot be considered adequate and results are statistically insignificant. There is no data on patient tolerance for the drug, side effects, or problems encountered in connection with other body processes. None of the investigation methods are outlined, making an objective statistical evaluation impossible. Furthermore, there is no data to indicate at what level the drugs obtained their desired effect. For these reasons, the Commissioner finds that this study is not adequate and it does not constitute substantial evidence of the effectiveness of Mesulfin.

4. Drs. S. A. Wolfson, G. M. Kalmanson, M. E. Rubini, and L. B. Guz, Wadsworth Hospital, Veterans' Administration Center and Department of Medicine U.C.L.A. did an epidemiological survey of 521 consecutive admissions to the medical service of the VA hospital. Fifteen percent of the male patients presented asymptomatic significant bacteriuria,

100,000 organisms per ml. of urine. Fifty-nine percent of these elderly male patients were selected for treatment with 4 grams divided doses of Mesulfin daily for 10 days. Pretreatment urine cultures identified the infecting organisms as Escherichia Coli, Pseudomonas, Proteus or Klebsiella-Aerobacter. Followup cultures were obtained 10 days, 1 month, and 3 to 6 months after cessation of therapy. The cure rate was 59 percent based on the criterion that the original organisms found prior to therapy were eradicated and did not recur within the followup period.

This study is not adequate since the individual components of Mesulfin were not tested individually, as required by 21 CFR 3.86. Furthermore, it is obviously not controlled since there is no indication that any controls were used at all, as required by section 505 of the Act. Thus, there is no basis upon which to compare the patients treated with Mesulfin and those who would have been untreated. The Commissioner finds that this study does not constitute substantial evidence of the efficacy of Mesulfin.

5. Roger Barnes, M.D. (and Associates) of White Memorial Clinic, Los Angeles, Calif., evaluated the effectiveness of Mesulfin for the treatment of acute and chronic urinary tract infections in a series of 97 patients. Prior to initiating therapy, a complete urinalysis was done and bacteria were evaluated using gram-staining techniques. The usual dosage employed was two tablets q.i.d. In acute conditions duration of treatment was from 1 to 6 weeks and for chronic infections, therapy was extended for periods of 12 months or more. At the end of the treatment period, gram-staining techniques were again employed and urinalyses were done. Successful therapy was defined as symptomatic improvement with a negative post-treatment culture; partial success was defined as symptomatic improvement, but no post-treatment culture taken. Results showed the drug was a success or partial success in 55 patients (56 percent) and not effective in 35 patients (36 percent) who showed a positive post-treatment culture; 54 percent of the patients showed reduction of WBC in the urine after Mesulfin therapy. Adverse reactions noted consisted of dizziness, nausea, blurred vision, diarrhea, and irritation of the bladder. Dr. Barnes recommended the drug for use in treatment of chronic urinary tract infection when it is necessary to continue antibacterial medication over a long period of time.

The number of post-treatment cultures obtained per patient is not stated. Treatment was declared a success (or the drug considered successful) in 56 percent of the trials. This number includes those patients who were asymptomatic with a negative post-treatment culture and those who showed symptomatic improvement but who had positive post-treatment cultures. There is no value given for those patients who had post-treatment negative cultures alone.

This is obviously not a controlled study since there is no indication that any controls were employed, as required by section 505 of the Act. Moreover, there is no data as to the type of bacteria which were involved in the patients' infections. Finally, the individual components were not tested against the combination drug to determine if the combination was more effective than the single drug, as required by 21 CFR 3.86. The Commissioner finds that this study does not constitute substantial evidence of the efficacy of Mesulfin.

6. Bruce H. Stewart, M.D., Cleveland, Ohio, used Mesulfin to treat 26 cases of urinary tract infections in whom conventional therapy had failed. Adult dosage was two tablets q.i.d., and for children one tablet t.i.d. The organisms identified in pretreatment cultures were: *E. coli*, *Proteus*, *A. aeruginosa*, *Alkaligenes species*, *S. faecalis*, *A. viridans* and *S. aureus*. Five patients had negative pretreatment cultures. Negative posttreatment cultures were obtained in two with recurrent cystitis and one with chronic prostatitis. Negative cultures were also obtained for one patient with urethral stenosis with infection, and one with benign prostatic hyperplasia with infection. One patient with urethritis relapsed after treatment. Three cases of chronic pyelonephritis had negative post-treatment cultures, four were positive and an additional four relapsed. Three patients with probable post operative pyelonephritis had positive posttreatment cultures as had one patient with postoperative phylloplasty.

The study was not controlled as required by section 505 of the Act and the individual components of the drug were not tested against the combination as required by 21 CFR 3.86. Moreover, the results indicate that the drug may not be effective. The Commissioner finds that this study does not constitute substantial evidence of the effectiveness of Mesulfin.

7. Cecil M. Crigler, M.D., Houston, Tex., treated urinary tract infections in 31 female patients and one male patient. Dosage of Mesulfin administered was two tablets q.i.d. from 2 to 8 weeks. The principal infecting organisms were identified as *E. coli*, *P. vulgaris*, and *S. aureus*. Pre- and post-treatment cultures were obtained in 16 cases and in 15 of these the post-treatment cultures were negative. In nine of the 15 cases the organism present was shown to be resistant to many of the commonly used antibiotics and sulfa drugs. An *E. coli* infection in one patient which did not respond to Mesulfin was also resistant to penicillin, bacitracin, erythromycin, and several sulfonamides. The only side effect noted was one patient reporting marked bladder cramps.

This study was not controlled as required by section 505 of the act and the individual components were not tested against the combination as required by 21 CFR 3.86. No follow-up data is provided. No data is given for the 15 patients on whom preclinical cultures were not taken. The Commissioner finds that

this study does not constitute substantial evidence of the effectiveness of Mesulfin.

8. Yves Goudreau, M.D., of Montreal, Canada, treated four cases of chronic cystitis and one case of subacute pyelonephritis with Mesulfin. A divided daily dosage of 1-2 grams was used from 1 to 2 weeks. Negative postculture was obtained in the pyelonephritic patient and in three of the four chronic cystitis patients.

There is no definition as to length of followup. The report refers to one follow-up culture on each patient; a single followup is inadequate to document effectiveness of the drug. There were no controls used as required by section 505 of the Act and the individual components of Mesulfin were not tested against the combination as required by 21 CFR 3.86. The Commissioner finds that this study is not substantial evidence of the effectiveness of Mesulfin.

9. H. S. Everett, M.D., Baltimore, Md., treated five female patients with cystitis and a sixth with a low grade urinary tract infection with 0.5 gm. q.i.d. of Mesulfin. Organisms cultured were the usual gram negative found in the urinary tract. Only three patients had negative posttreatment cultures; two were positive. All five patients were listed as clinically improved.

Duration of followup is not given, hence the extent of effectiveness of the drug cannot be determined. This is obviously not a controlled study since there is no indication that any controls were employed, as required by section 505 of the Act. The individual components were not tested against the combination drug to determine if the combination was more effective than the single drug as required by 21 CFR 3.86. The Commissioner finds that this study does not constitute substantial evidence of effectiveness of Mesulfin.

10. Temple W. Williams, Hanna ABU-Nassau and Ellare M. Yow, "Methenamine Mandelate-Sulfamethizole Combination Evaluation in Management of Urinary Tract Infections", Tex. St. M.J. 60:149 (February 1964). The investigators evaluated the results of Mesulfin in the treatment of 37 patients with symptoms of acute or chronic pyelonephritis. Criteria for selection of patients were: Presence of symptoms referable to the urinary tract, and demonstration of pyuria and/or significant bacteriuria. Urine samples were collected before and after treatment and examined for colony count. Gram negative organisms and *E. coli* predominated. Dosage of 1 gram initially followed by 1 gram four times daily was used in acute pyelonephritis and 1-4 grams in chronic pyelonephritis. A good response was interpreted as meaning symptomatic response within 2 to 3 days, cessation of pyuria, and a significant reduction of bacteriuria when present. Fair response was interpreted as diminished pyuria and bacteriuria but with no symptomatic response until the completion of at least 1 week of therapy. Of the 15 acute pyelonephritic patients, 11 showed good response and four patients fair. Of the 22 chronic pyelone-

phritic patients, only two had good response and 19 fair with one patient with poor response.

This study is not a controlled study as required by section 505 of the Act. Like the other clinical studies reported above, there are no studies to determine the effectiveness of either active component individually as required by 21 CFR 3.86. The Commissioner finds that this study does not constitute substantial evidence of the effectiveness of Mesulfin.

11. H. A. Baker and A. Sidorowicz, "Therapy of Urinary Tract Infections Based on In Vitro Studies with a combination of Sulfamethylthiadiazole and Methenamine Mandelate", Clin. Med. 70:1307 July 1963.

This is an in vitro study evaluating sulfamethylthiadiazole, methenamine mandelate and the two in combination against *E. coli*, *Aerobacter aeruginosa*, *proteus sp.* and *Ps. aeruginosa*. The two drugs were tested at a concentration of 2.5 mg./ml. alone and in combination (i.e., total of 5 mg./ml.).

The authors concluded that lowering the pH increased the activity of sulfamethylthiadiazole and the methenamine mandelate was more active at pH 6.0 than at pH 9.0; sulfamethylthiadiazole was bacteriostatic while methenamine mandelate was bactericidal as well as bacteriostatic; and the combination has an antibacterial activity superior to either agent.

Absolutely no data has been provided to determine if any patients at all were used in the study. There is no data to support the conclusion of the investigators. The study is obviously inadequate and not well controlled. The Commissioner finds that this study is not substantial evidence of the effectiveness of Mesulfin.

D. The physicians' affidavits. American Home Products has also submitted the affidavits of eight physicians, all of whom conducted the studies on Mesulfin discussed above, and all of whom attest to the effectiveness of Mesulfin and the validity of their own studies. These affidavits are in fact testimonials to Mesulfin. They neither contain nor refer to adequate and well-controlled clinical studies. The Commissioner finds that these affidavits are inadequate to establish that Mesulfin is effective.

E. Other medical authorities supporting the Commissioner's determination. The AMA Drug Evaluations, 1971, does not recommend the combination of sulfamethizole and methenamine mandelate for any indication. Indeed, the AMA Drug Evaluations, 1971, at pp. 436-7 states that the "Use of Methenamine (is) usually restricted to patients with infections not cured by more effective antibacterial agents." Sulfamethizole is recommended for use (p. 47) in urinary tract infections alone, not in combination with any other drug.

Furthermore, in Goodman and Gilman, The Pharmacological Basis Of Therapeutics, Fourth Edition (1970), the authors state at page 1042 that "an incompatibility between methenamine mandelate and sulfamethizole has been

## NOTICES

noted (Lipton, 1963); the formaldehyde liberated in the urine forms an insoluble precipitate with the sulfanamide." None of the studies submitted by American Home Products addressed this problem nor offered any explanation. Finally, in Goodman and Gilman, it is stated at p. 1161 that sulfanamides are the drug of choice in treating urinary infections caused by *E. coli*. For treating urinary infections caused by *A. aerogenes*, *A. faecalis*, *proteus* and *pseudomonas aeruginosa*, sulfanamides are not listed at all as drugs of choice. Only for treating *proteus mirabilis* are sulfanamides recommended. Methenamine mandelate is nowhere listed as a drug of choice for urinary infections.

**F. Summary.** In order to establish that a drug is effective for the conditions for which it is prescribed, recommended or suggested, substantial evidence consisting of adequate and well-controlled clinical investigations must be submitted to the FDA. 21 U.S.C. 355(e); 21 CFR 130.12(a)(5). No controls were employed in the Colmore, Wolfson, Barnes, Stewart, Cigler, Gaudreau, Everett, Williams, Baker, and the first Garvey study discussed. The deficiencies in the controls used in the other studies and the inadequacies of all the studies are discussed in detail above.

As pointed out above, Mesulfin is a fixed dose combination drug, composed of 250 mg. sulfamethizole and 250 mg. methenamine mandelate. As the Commissioner stated in the preamble to 21 CFR 3.86 (36 FR 3126, Feb. 18, 1971): "A fixed dose combination drug must have an advantage to the patient over and above that obtained when one of the individual ingredients is used in the usual safe and effective dose. No drug should be present in a fixed combination unless its inclusion clearly enhances safety or efficacy and the fixed ratio of doses is safe and effective for all indications and for patients requiring such concurrent therapy."

American Home Products claims that Mesulfin is a rational fixed combination drug. However, American Home Products has produced no adequate and well-controlled clinical investigations that support this contention. The only submitted study that compared the combination against its individual components and no treatment was the second Garvey study involving only four laboratory subjects. Both the NAS/NRC and the Commissioner have found the combination of methenamine mandelate and sulfamethizole, i.e., Mesulfin, ineffective for its intended uses. Moreover, there is evidence, cited above, that sulfamethizole and methenamine mandelate are antagonistic to one another, which evidence American Home Products has not refuted. Therefore, claimants' contention is without merit.

**IV. The NAS/NRC evaluation of Mesulfin.** American Home Products claims that the Commissioner's evaluation of Mesulfin differs substantially from that of the NAS/NRC. The NAS/NRC Panel found that indication for use of Mesulfin in the treatment of cystitis, urethritis,

pyelitis, pyelonephritis and prostatitis due to bacterial infection amenable to sulfonamide therapy, was ineffective unless qualified. The panel gave several examples of the qualifications that would have to be added to the label of Mesulfin: "for example patients having any one of these conditions would rarely be cured by sulfonamide therapy in the presence of obstruction; if gonorrhea is meant by 'urethritis,' it should be so stated, and if a claim is made in regard to pyelonephritis, it should be stated that this product is most effective against acute, nonobstructive first episode, bacterial urinary tract infections and in general is less effective against chronic infections or in the presence of anatomic abnormalities." Moreover, the NAS/NRC made no reference to combining methenamine mandelate with sulfamethizole in its discussion of the effectiveness of Mesulfin for these indications or any other indications. The panel found that American Home Products had not submitted any reference or scientific study relating to the combination of sulfamethizole and methenamine mandelate. It is apparent that the NAS/NRC did not find the fixed combination of sulfamethizole and methenamine mandelate effective for these indications, as American Home Products' claims. The Commissioner concurred in this finding. American Home Products has still not submitted any adequate and well-controlled study that supports the efficacy of Mesulfin for these indications.

Significantly, the NAS/NRC found that Mesulfin was ineffective: in genitourinary surgery and instrumentation, and that addition of methenamine mandelate to sulfamethizole would make no difference; in infections due to organisms resistant to antibiotics, sulfonamides, and other chemotherapeutic agents; and for prophylaxis of patients with indwelling catheters, ureterostomies, urinary calculi, urinary stasis and neurogenic bladders. It concluded that wide usage of methenamine does not imply effectiveness and that effectiveness should be documented.

**V. Legal objections.** The Commissioner has authority to establish criteria for adequate and well-controlled clinical investigations necessary to demonstrate effectiveness of drug products on the market and may condition holding of an evidentiary hearing on a showing by American Home Products that reasonable grounds exist therefor. *Diamond Laboratories, Inc. v. Richardson*, 452 F.2d 803 (C.A. 8, 1972); *Ciba-Geigy Corp. v. Richardson*, 446 F.2d 468 (C.A. 2, 1971); *Phizer, Inc. v. Richardson*, 434 F.2d 536 (C.A. 2, 1970); *Pharmaceutical Manufacturers Ass'n v. Richardson*, 318 F. Supp. 301 (D. Del., 1970).

Since American Home Products has submitted no adequate and well-controlled clinical studies establishing the effectiveness of Mesulfin for its recommended uses, no hearing on the withdrawal of the NDA for Mesulfin is justified as no genuine issue exists as to the material question of the effectiveness of Mesulfin for its recommended uses. 21 CFR 3.86, 130.12(a)(5)(H), 130.14(b)

and 130.27(b)(3); *Ciba-Geigy Corp. v. Richardson*, supra; *Upjohn Co. v. Finch*, 422 F.2d 944 (C.A. 6, 1970).

**VI. Findings.** The Commissioner, based on the review of the medical documentation offered to support the claims of effectiveness for Mesulfin, finds that American Home Products has failed to present substantial evidence of effectiveness for this product. Therefore, pursuant to 21 CFR 130.14(b), American Home Products' request for a hearing is denied. No objection or documentation was presented by any other firms and, in accordance with 21 CFR 130.15, this failure is construed as an election by any other firm not to avail itself of the opportunity for the hearing.

The Commissioner further finds that the approval of the new-drug application heretofore approved for Mesulfin (NDA 12-718) should be withdrawn on the basis of a lack of substantial evidence of effectiveness.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 701, 52 Stat. 1052-53, 1055-56, as amended; 21 U.S.C. 355, 371), and under authority delegated to the Commissioner (21 CFR 2.120), notice is given that the approval of the new-drug application for Mesulfin (NDA 12-718) is withdrawn. The withdrawal is effective immediately.

(Secs. 505, 701, 52 Stat. 1052-53, 1055-56, as amended, and 76 Stat. 781-785, as amended; 21 U.S.C. 355, 371)

Dated: March 2, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

**ATOMIC ENERGY COMMISSION  
CONSOLIDATED EDISON COMPANY OF  
NEW YORK, INC.**

[Docket No. 50-247]

Order Extending Facility Operating License  
Expiration Date

Consolidated Edison Co. of New York, Inc., is the holder of Facility Operating

## NOTICES

License No. DPR-26 issued by the Commission on October 19, 1971, which authorizes fuel loading and subcritical testing of the Indian Point Nuclear Generating Unit No. 2, a 2758 megawatt (thermal) pressurized water nuclear reactor, located on the company's site in the village of Buchanan, Westchester County, N.Y.

On January 30, 1973, the company requested an extension of the expiration date because of delays which prevent completion of subcritical testing. Such testing was interrupted by the determination to refabricate the core. The final shipment of fuel is expected on site shortly, but because of the time element involved the fuel may not be loaded into the reactor prior to the expiration of DPR-26. The Director of Regulation having determined that this action involves no significant hazards consideration different from those previously evaluated, and good cause having been shown:

It is hereby ordered, That the latest expiration date of Facility Operating License No. DPR-26 is extended from March 1, 1973, to June 1, 1973.

Dated at Bethesda, Md., this 1st day of March 1973.

For the Atomic Energy Commission.

A. GIAMBUSSO,  
Deputy Director for Reactor  
Projects, Directorate of Li-  
censing.

[FR Doc.73-4335 Filed 3-6-73; 8:45 am]

[Docket No. 50-270]

**DUKE POWER CO.**

**Order Extending Completion Date**

Duke Power Co. is the holder of Provisional Construction Permit No. CPPR-34 issued by the Commission on November 6, 1967, for the construction of the Oconee Nuclear Station, Unit No. 2, a 2,568 megawatt (thermal) pressurized water nuclear reactor presently under construction at the company's site in Oconee County, S.C., approximately 8 miles northeast of Seneca, S.C.

On January 25, 1973, the company requested an extension of the completion date because construction of Unit No. 2 has been delayed due to: (i) Diversion of construction forces from Unit No. 2 to Unit No. 1 to solve problems occasioned by the lateness of Unit No. 1, (ii) delay in delivery of major reactor coolant components, and (iii) modifications required to the reactor vessel internals for Unit No. 2. The Director of Regulation having determined that this action involves no significant hazards consideration, and good cause having been shown:

It is hereby ordered, That the latest completion date for CPPR-34 is extended from February 28, 1973, to September 1, 1973.

Date of Issuance: February 28, 1973.

For the Atomic Energy Commission.

A. GIAMBUSSO,  
Deputy Director for Reactor  
Projects, Directorate of Li-  
censing.

[FR Doc.73-4336 Filed 3-6-73; 8:45 am]

[Docket No. 50-275]

**PACIFIC GAS & ELECTRIC CO.**

**Notice of Opportunity for Hearing**

The Pacific Gas & Electric Co. (the licensee) is the holder of Provisional Construction Permit No. CPPR-39 (the permit) issued by the Atomic Energy Commission on April 23, 1968. The permit authorizes the licensee to construct a pressurized water nuclear reactor, designated as the Diablo Canyon Reactor Unit No. 1, at the licensee's site in San Luis Obispo County, Calif.

The facility is subject to the provisions of section C.3. of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities for which construction permits were issued prior to January 1, 1970. Notice is hereby given, pursuant to 10 CFR Part 50, "Implementation of the National Environmental Policy Act of 1969," that the Commission is providing an opportunity for hearing with respect to whether, considering those matters covered by Appendix D to 10 CFR Part 50, the existing construction permit should be continued, modified, terminated or appropriately conditioned to protect environmental values. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission or an atomic safety and licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition and the Secretary or the designated atomic safety and licensing board will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR 2.714. As required by 10 CFR 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceedings on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

## NOTICES

A request for a hearing or a petition for leave to intervene must be filed with the Office of the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief Public Proceedings Staff, or the Commission's Public Document Room, 1717 H Street NW., Washington, DC, on or before April 6, 1973. A petition for leave to intervene which is not timely will not be granted unless the Commission, the presiding officer, or the Atomic Safety and Licensing Board designated to rule on the petition or request determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the consideration of those factors specified in 10 CFR 2.714(a).

For further details with respect to the matters under consideration, see the licensee's Environmental Report dated August 9, 1971, and Supplements thereto dated November 9, 1971, July 28, 1972, and August 25, 1972, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the San Luis Obispo County Free Library, 1354 Bishop Street, San Luis Obispo, CA. The Commission's Draft Environmental Statement is also available at the above locations. As it becomes available, the following document will also be available at the above location: (1) The Commission's final environmental statement on environmental considerations.

Copies of item (1) may be obtained when available by request to the Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

For the Atomic Energy Commission.  
Dated at Bethesda, Md., this 28th day of February 1973.

GORDON K. DICKER,  
Chief, Environmental Projects  
Branch No. 2, Directorate of  
Licensing.

[FR Doc. 73-4334 Filed 3-6-73; 8:45 am]

[Docket No. 50-312]  
**SACRAMENTO MUNICIPAL UTILITY DISTRICT**  
Notice and Order for Prehearing Conference

Take Notice, that pursuant to the Commission's "Memorandum and Order" and "Notice of Hearing On a Facility Operating License" both dated February 23, 1973, and the rules of the Commission, a hearing will be held on the application filed under section 104(b) of the Atomic Energy Act of 1954, as amended, by the Sacramento Municipal Utility District for a facility operating license. Said license would authorize the operation of a pressurized water nuclear reactor, identified as the Rancho Seco Nuclear Generating Station, Unit No. 1, at steady State power levels not to exceed 2,772 megawatts (thermal) at applicant's site in Sacramento County, Calif.

In accordance with the Commission's rules of practice, a special prehearing

conference will be held commencing at 9:30 a.m., on March 15, 1973, at the Federal Building and Court House, 650 Capital Mall, Room 3410, Sacramento, CA 95814.

While all members of the public are entitled to attend this conference, it should be noted that no evidence will be received, nor will there be opportunity for comments from members of the public through limited appearances. Such limited appearances will be permitted at the first session of the evidentiary hearing to be scheduled at a later date.

The primary objective of said special prehearing conference will be to establish a clear and particularized identification of the actual matters in controversy through a review of the contentions filed by the intervenors, Mr. Dick Gregory et al., and to determine which contentions should be admitted as matters in controversy in this proceeding. The Board will also consider any preliminary matters by the parties, any prospects of settlement, any need for discovery, establishment of a schedule for the proceeding, and such other matters as may aid in the early resolution of the matter.

It is so ordered.

Issued at Washington, D.C., this 1st day of March 1973.

THE ATOMIC SAFETY AND LICENSING BOARD  
JOHN B. FARMAKIDES,  
Chairman,

[FR Doc. 73-4292 Filed 3-6-73; 8:45 am]

[Docket No. 50-281]  
**VIRGINIA ELECTRIC & POWER CO.**  
Notice of Issuance of Facility Operating License  
Correction

In FR Doc. 73-2307, appearing at page 3540 for the issue of Wednesday, February 7, 1973 the phrase in the 20th line of the second paragraph now reading "on or before March 9, 1973", should read "within 30 days from the date of its publication in the FEDERAL REGISTER".

**CIVIL AERONAUTICS BOARD**  
[Docket No. 23333; Order 73-2-100]  
**INTERNATIONAL AIR TRANSPORT ASSOCIATION**

Order Regarding Specific Commodity Rates  
Issued under delegated authority, February 27, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA). The agreement, which was adopted at the 14th meeting of the Joint Specific Commodity Rates Board held in Geneva on November 20-24, 1972, has been assigned the above CAB agreement number.

The agreement proposes revisions to the specific commodity rate structure applicable within the South Pacific area. These revisions, insofar as they would affect air transportation, are outlined in the attachments hereto.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the condition hereinafter ordered.

Accordingly, it is ordered, That: Agreement CAB 23461, R-2 be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication; provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within 10 days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] PHYLLIS T. KAYLOR,  
Acting Secretary.

[Docket No. 25219]  
**KOREAN AIR LINES CO., LTD., AND SEABOARD WORLD AIRLINES, INC.**  
Notice of Proposed Approval  
Joint application of Korean Air Lines Co., Ltd., and Seaboard World Airlines, Inc., for approval pursuant to section 408(b) of the Federal Aviation Act of 1958, as amended, Docket 25219.  
Notice is hereby given, pursuant to the statutory requirements of section 408(b) of the Federal Aviation Act of 1958, as amended, that the undersigned intends to issue the attached order under delegated authority on March 9, 1973. Prior to that time, interested persons may file comments or request a hearing with respect to the action proposed in the order.

The lease agreement between the parties indicates that Seaboard will lease two DC-8-63F aircraft<sup>1</sup> to Korean for the periods March 11, 1973, and March 25, 1973, respectively, until April 30, 1975. Rental for each aircraft will be at the rate of \$140,000 per month.

According to the application, the instant lease transaction was entered into pursuant to the provisions of a supplemental letter to an earlier lease agreement between Seaboard and Korean which was approved by the Board<sup>2</sup> and which also provided for the lease of two DC-8-63F aircraft to Korean. In this connection the application indicates that the two aircraft previously leased to Korean will continue to be operated by Korean in accordance with the terms of the earlier lease.

The application recites, inter alia, that the aircraft in question are two of the eleven DC-8-63F aircraft which, together with two DC-8-54 and one DC-8-55 aircraft, presently constitute Seaboard's operating fleet. It is asserted that, as with the prior aircraft leased to Korean, the instant aircraft are not required by Seaboard in the operation of its certificated services during the 2-year period

<sup>1</sup> Aircraft N8637 (Manufacturer's Serial No. 46052) and Aircraft N8638 (Manufacturer's Serial No. 46053).

<sup>2</sup> See Order 72-12-50, Dec. 12, 1972, Docket 24926.

Dated at Washington, D.C., March 2, 1973.

[SEAL] A. M. ANDREWS,  
Director,  
Bureau of Operating Rights.  
[Docket 25219]

KOREAN AIR LINES CO., LTD. AND SEABOARD WORLD AIRLINES, INC.

ORDER OF APPROVAL

By joint application filed February 15, 1973, Korean Air Lines Co., Ltd. (Korean) and Seaboard World Airlines, Inc. (Seaboard) have requested Board approval pursuant to section 408(b) of the Federal Aviation Act of 1958, as amended (the Act), with respect to the lease of two DC-8-63F aircraft by Seaboard to Korean.

Seaboard is a U.S. certified all-cargo air carrier. Korean holds Board authority as a foreign air carrier and, in this connection, conducts scheduled air transportation with jet aircraft between the Republic of Korea and the United States. Korean intends to use one of the leased aircraft in passenger service between Korea and the United States and the other aircraft in passenger service outside the United States.

The lease agreement between the parties indicates that Seaboard will lease two DC-8-63F aircraft<sup>1</sup> to Korean for the periods March 11, 1973, and March 25, 1973, respectively, until April 30, 1975. Rental for each aircraft will be at the rate of \$140,000 per month.

According to the application, the instant lease transaction was entered into pursuant to the provisions of a supplemental letter to an earlier lease agreement between Seaboard and Korean which was approved by the Board<sup>2</sup> and which also provided for the lease of two DC-8-63F aircraft to Korean. In this connection the application indicates that the two aircraft previously leased to Korean will continue to be operated by Korean in accordance with the terms of the earlier lease.

The application recites, inter alia, that the aircraft in question are two of the eleven DC-8-63F aircraft which, together with two DC-8-54 and one DC-8-55 aircraft, presently constitute Seaboard's operating fleet. It is asserted that, as with the prior aircraft leased to Korean, the instant aircraft are not required by Seaboard in the operation of its certificated services during the 2-year period

<sup>1</sup> Aircraft N8637 (Manufacturer's Serial No. 46052) and Aircraft N8638 (Manufacturer's Serial No. 46053).

<sup>2</sup> See Order 72-12-50, Dec. 12, 1972, Docket 24926.

of the lease, due to the continuing excess of transatlantic cargo capacity over demand and the reduction in Department of Defense utilization of Seaboard's aircraft. Thus, it is further asserted that Seaboard has no comparable revenue use for the aircraft during the term of the lease and the revenues received for the lease of the instant aircraft are vitally needed by Seaboard. The applicants also submit that the transaction does not affect the control of Seaboard, create a monopoly, nor tend to restrain competition.

No objections to the application or requests for a hearing have been received.

Upon consideration of the foregoing, it is concluded that the lease of the two DC-8-63F aircraft from Seaboard to Korean covered by the instant application would involve the leasing of a substantial portion of the properties of Seaboard within the meaning of section 408 of the Act, and, therefore, the lease transaction is subject to such section. However, it is further concluded that the transaction does not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, does not result in creating a monopoly, and does not tend to restrain competition. Furthermore, no person disclosing a substantial interest in the proceeding is currently requesting a hearing, and it is concluded that the public interest does not require a hearing. It appears that Seaboard is able to carry out the lease without depriving itself of the aircraft necessary to meet the requirements of its authorized services. Moreover, as indicated earlier herein, the transaction is similar to others approved by the Board. Under all the circumstances, it is not found that the lease transaction will be inconsistent with the public interest or that the conditions of section 408 will be unfulfilled.

Notice of intent to dispose of the application without a hearing has been published in the FEDERAL REGISTER, and a copy of such notice has been furnished by the Board to the Attorney General not later than the day following the date of such publication, both in accordance with the requirements of section 408(b) of the Act.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.13, it is found that the foregoing transaction should be approved under the third proviso of section 408(b) of the Act without a hearing.<sup>3</sup>

Accordingly, it is ordered, That: The lease without crew of two DC-8-63F aircraft from Seaboard to Korean as described in the application in Docket 25219 be and it hereby is approved pursuant to section 408 of the Act.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within 10 days after the date of this order.

This order shall be effective upon issuance and the filing of such petitions shall not stay its effectiveness.

[SEAL] HARRY J. ZINK,  
Secretary.  
[FR Doc. 73-4390 Filed 3-6-73; 8:45 am]

<sup>3</sup> It is further found, pursuant to 14 CFR 385.6, that the actions taken herein are governed by prior Board precedent and policy, and, because of the imminent transaction date, that immediate action is required to enable effectuation of the transaction; therefore, it is determined that the filing of petitions for review of this order will not preclude this order from becoming effective immediately.

## MOTOR VEHICLE POLLUTION CONTROL SUSPENSION REQUEST

### Notice and Procedures for Public Hearing Correction

In FR Doc. 73-3671 appearing on page 5281 of the issue for Tuesday, February 27, 1973, in the seventh line of the third column "44 hours notice" should read "24 hours notice".

## NATIONAL AIR POLLUTION MANPOWER DEVELOPMENT ADVISORY COMMITTEE

### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the National Air Pollution Manpower Development Advisory Committee will be held at 8 p.m., March 26, and at 8:30 a.m. on March 27-28, 1973, in the National Environmental Research Center Auditorium, EPA, Research Triangle Park, N.C.

This is the regular quarterly meeting of this Committee. Most of the meeting will be devoted to Committee review of applications for training grants and fellowships. Reports will also be presented by ad hoc subcommittees on Specialty Training Programs and Training Priorities.

The meeting will be open to the public. Any member of the public wishing to attend or participate should contact Mr. Ronnie E. Townsend, Manpower Development Staff, Research Triangle Park, N.C., (919) 549-8411, extension 2492.

## TECHNICAL ADVISORY GROUP TO THE MUNICIPAL WASTE SYSTEMS DIVISION

### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the Technical Advisory Group to the Municipal Waste Water Systems Division will be held on March 21, 1973, at 8:30 a.m. in the Crystal City Marriott Hotel in Crystal City, Arlington, Va.

This is a regularly scheduled meeting of this advisory group. The agenda includes a review of items needed to implement the 1972 Amendments to the Federal Water Pollution Control Act and a review of wastewater treatment facility designs, operation and maintenance information.

The meeting will be open to the public. Any member of the public who would like to participate may submit written comments to the Chairman of the advisory group prior to the closing of the meeting. Persons desiring more information should contact Mr. Ralph C. Palange, Executive Secretary, Technical Advisory Group to the Municipal Waste

## FEDERAL MARITIME COMMISSION LYKES BROS. STEAMSHIP CO., INC., AND SOUTH AFRICAN MARINE CORP., LTD.

### Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before March 27, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

### Notice of agreement filed by:

Mr. R. J. Finnan, Rate Analyst, Lykes Bros. Steamship Co., Inc., 300 Poydras Street, New Orleans, LA 70130.

Agreement No. 10036 is an arrangement between Lykes Bros. Steamship Co., Inc., and the South African Marine Corp., Ltd., which would permit the two lines to meet together, discuss, and agree on matters of mutual interest and courses of action to promote trade between the United States and Southwest Africa, the Republic of South Africa and Mozambique, including the spacing of their vessels, and coverage of ports, not inconsistent with the rules, regulations, limitations, and procedures of conferences to which either might belong and which cover the agreement trade. Any agreement reached involving matters other than the spacing of sailings, and the coverage of ports, will not be implemented prior to the approval of the Federal Maritime Commission.

Dated: March 2, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,  
Secretary.

## FEDERAL POWER COMMISSION

[Projects Nos. 160, 162, 383, 689, 951, 1232, 2001, 2178, and 2505]

### ALASKA

#### Order Vacating Land Withdrawals

FEBRUARY 28, 1973.

The Alaska Power Administration, U.S. Department of the Interior, has reviewed the land withdrawals created for the nine projects designated above and has recommended revocation of these withdrawals in their entirety, thereby requiring Commission consideration under section 24 of the Federal Power Act. The withdrawn lands are described in the attachment below.

Proceedings for Projects Nos. 160, 162, 383, 689, 2178, and 2505 ended without issuance of a license. The license for Project No. 951 has expired and the licenses for Projects Nos. 1232 and 2001 have been surrendered.

The lands withdrawn for Projects Nos. 160, 162, 2178, and 2505 are located along Power Creek, a tributary of Eyak Lake, near Cordova, Alaska. These projects contemplated diversion of Power Creek

a short distance upstream from Ohman Falls to a powerhouse about 1½ miles below the falls. This powersite is also covered by the withdrawal for Project No. 2656 for which an application for license is pending. Since the site is covered by the withdrawal for Project No. 2656, the withdrawals for Projects Nos. 160, 162, 2178, and 2505 no longer serve a useful purpose.

The lands withdrawn for Projects Nos. 383 and 689 are located along the Soule Glacier River, a tributary to Portland Canal, about 8 miles southwest of Hyder, Alaska. Development of the power potential of the Soule Glacier River is considered economically unfeasible. Studies indicate that equivalent power could be obtained more cheaply from diesel generators or by development of a hydroelectric site on the Davis River located about 5 miles south of the Soule Glacier River.

Project No. 951 was a 1,180 horsepower project the license for which expired in 1955. Redevelopment of this site is considered unlikely because equivalent power could be obtained more cheaply from portable diesel generators.

The license for minor Project No. 1232 (installed capacity less than 100 horsepower) was surrendered in 1943. The site was subsequently redeveloped as Project No. 2001 (installed capacity 50 horsepower) the license for which was surrendered in 1953. Redevelopment of this site is considered unlikely because equivalent power could be obtained more cheaply from portable diesel generators.

Revocation of the withdrawals will facilitate the disposal of some of the lands and facilitate the administration of the lands which remain in federal ownership.

The U.S. Geological Survey has concurred with the recommendations of the Alaska Power Administration.

### The Commission finds:

The withdrawals of the subject lands pursuant to the applications for Projects Nos. 160, 162, 383, 689, 951, 1232, 2001, 2178, and 2505 serve no useful purpose and should be vacated in their entirety.

### The Commission orders:

The withdrawals of the subject lands pursuant to the applications for Projects Nos. 160, 162, 383, 689, 951, 1232, 2001, 2178, and 2505 are hereby vacated in their entirety.

### By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

### ATTACHMENT

1. Lands withdrawn for Project No. 160 as described in the Commission's February 15, 1921, notice of land withdrawal to the General Land Office (now Bureau of Land Management):

VICINITY OF ORCA INLET, PRINCE WILLIAM SOUND, CHUGACH NATIONAL FOREST, ALASKA

All lands within one-quarter of a mile of Power Creek for 2 miles of its length beginning at and extending upstream from Eyak Lake.

(Approximately 640 acres.)

Note: Project No. 160 (and Project Nos. 162 and 2178 cited below) contemplated the diversion of Power Creek at a point about one-half mile above Ohman Falls. The latest topographic maps show that this diversion point is more than 2 miles upstream from Eyak Lake, hence the notice of February 15, 1921, was incomplete.

2. A notice of land withdrawal was not issued for Project No. 162. This project affected the same lands as Project No. 160 (see item 1 above).

3. Lands withdrawn for Project No. 383 as described in the Commission's March 23, 1923, notice of land withdrawal to the General Land Office:

TONGASS NATIONAL FOREST, ALASKA

Soule Glacier River, tributary to Portland Canal from the west, approximately 8 miles southwest of Hyder, Alaska.

All lands within one-quarter of a mile of Soule Glacier River from its mouth to a point 2 miles above the mouth.

(Approximately 640 acres.)

Additional lands withdrawn for Project No. 383 as described in the Commission's April 21, 1925, notice of land withdrawal to the General Land Office:

All lands within one-quarter of a mile of Soule Glacier River from a point 2 miles above the mouth of said river to "Unnamed Lake."

Also all lands lying within 500 feet of elevation 100 feet above the mean low water level of said "Unnamed Lake."

(Approximately 480 acres.)

4. Project No. 689 affected lands along the Soule Glacier River near Hyder, Alaska. A notice of land withdrawal was not issued for this project and the acreage involved has not been determined.

5. Lands withdrawn for Project No. 951 as described in the Commission's February 9, 1929, notices of land withdrawal to the General Land Office:

TONGASS NATIONAL FOREST, ALASKA, SITKA RECORDING DISTRICT, CHICHAGOF ISLAND, DIVISION NO. 1

All lands within 100 feet of the marginal limits of Rust Lake; all lands within the project boundaries surrounding the powerhouses and appurtenant structures on the shore of Sister Lake; all lands within 100 feet of the diversion dam locations; all lands within 50 feet of the center line of the pipeline, flume, and tunnel locations between Rust Lake and said Powerhouse Site; all as shown on a map entitled "Chichagof Power Co., Map of Power Project, Chichagof Island, Alaska," and filed in the office of the Federal Power Commission on December 31, 1928.

(Approximately 43 acres.)

All lands lying within 50 feet of the center line of the constructed transmission line location, approximately 4.5 miles in length from the powerhouse on the shore of Sister Lake to the location of the mine, stamp mill, and cyanid plant at Chichagof, Alaska, all as shown on the above described map.

(Approximately 54 acres.)

6. Lands withdrawn for Project No. 1232 as described in the Commission's January 18, 1933, notice of land withdrawal to the General Land Office:

FORT WALTER, BARANOF ISLAND, TONGASS NATIONAL FOREST, ALASKA

All lands lying within 50 feet of the center line and the two parallel 8-inch wood stave pipelines into which it branches; all lands below the 250-foot contour above mean sea level which drain into the reservoir lake and into that section of the stream between the lake outlet and the storage dam; all as shown

on a map designated "Exhibit E" and entitled "Chatham Strait Fish Company, Port Walter, Alaska, Tongass National Forest, Map to accompany application for license for minor project," and filed in the office of the Federal Power Commission on January 9, 1933.

(Approximately 50 acres.)  
7. Lands withdrawn for Project No. 2001 as described in the Commission's August 29, 1949, notice of land withdrawal to the Bureau of Land Management:

TONGASS NATIONAL FOREST, ALASKA, BARANOF ISLAND, PORT WALTER, AN ARM OF CHATHAM STRAIT

All lands of the United States lying within 10 feet of the high water line of the reservoir (Lake Osprey) and New Port Walter Creek to intake, and 50 feet from center line of water conduit, powerhouse and dam, and 20 feet either side of center line of transmission line, all as shown on a map designated "Exhibit K" and entitled "Map Showing Project Boundaries Accompanying Application for License (Minor Project) of Newport Fisheries, Inc.," filed in the office of the Federal Power Commission on February 8, 1949.

(Approximately 40.04 acres.)  
8. A notice of land withdrawal was not issued for Project No. 2178. This project affected the same lands as Project No. 160 (see item 1 above).

9. Project No. 2505 affected lands lying along Power Creek, near Cordova, Alaska. A precise boundary was not established for this project, a notice of land withdrawal was not issued, and the acreage involved has not been determined. The project was similar to Project No. 160 except that a storage reservoir was contemplated above Ohman Falls.

[FR Doc. 73-4290 Filed 3-6-73; 8:45 am]

[Project No. 1222]

#### ALASKA

##### Order Vacating Land Withdrawal

FEBRUARY 28, 1973.

The Alaska Power Administration, Department of the Interior, has reviewed the land withdrawal for Project No. 1222 and recommended that it be vacated in its entirety, thereby requiring Commission consideration under section 24 of the Federal Power Act.

The following described lands are withdrawn pursuant to the filing on September 29, 1932, by the Wards Cove Packing Co., of an application for Project No. 1222 for which the Commission gave notice of land withdrawal to the General Land Office (now Bureau of Land Management) by letter dated October 8, 1932.

WARD COVE, REVILLAGICEDO ISLAND, ALASKA

All lands draining into a small unnamed stream tributary to Ward Cove, which lie below elevation 150 feet above mean sea level and upstream from the southeast boundary of the Trade and Manufacturing Site belonging to the Wards Cove Packing Co. (U.S. Survey No. 1207), as shown on a map designated "Exhibit E" and entitled "Wards Cove Packing Company, Alaska, Tongass National Forest, Map to Accompany Application for License for Minor Project," and filed in the office of the Federal Power Commission on September 29, 1932.

(Approximately 3 acres.)

Project No. 1222 was located on Walsh Creek, about 3 miles northwest of Ketchikan, Alaska, and consisted of a rock-filled crib dam 18.5 feet high with a crest 80.5 feet long, a 3-acre reservoir with a capacity of 15 acre-feet, and a 700-foot-long conduit leading to a 20-horsepower water wheel connected to a generator in the licensee's fish cannery.

The 25-year license for the project expired April 20, 1958, and the development of electrical energy has been discontinued as the cannery now receives its power from Ketchikan Public Utilities. The dam, reservoir, and pipeline are being maintained by the Wards Cove Packing Co., Inc., for water supply purposes.

Walsh Creek has no significant power potential as its drainage area is less than 1 square mile.

The Commission finds:

The withdrawal for Project No. 1222 no longer serves a useful purpose and should be vacated in its entirety.

The Commission orders:  
The withdrawal of the subject lands pursuant to the application for Project No. 1222 is hereby vacated in its entirety.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. CP73-223]

#### COLUMBIA GAS TRANSMISSION CORP. Notice of Application

FEBRUARY 28, 1973.

Take notice that on February 20, 1973, Columbia Gas Transmission Corp. (Applicant), 20 Montchanin Road, Wilmington, DE 19807, filed in Docket No. CP73-223 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to receive volumes of synthetic gas as mixed with natural gas for certain of its customers and deliver such volumes to those customers at existing points of delivery, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that certain of its customers have exercised agreements with Columbia LNG Corporation (Columbia LNG), an affiliate of Applicant, providing for the purchase of a specified share of synthetic gas from Columbia LNG and for the delivery of such volumes by Applicant as proposed herein. Applicant also states that it has been advised that Columbia LNG anticipates annual deliveries of 75,600,000 Mcf of synthetic gas at an average daily rate of 216,000 Mcf per day, to commence January 1, 1974. It is stated that customers of Applicant were given the opportunity to purchase synthetic gas based on their purchases of historic gas from Applicant under Applicant's existing rate schedules.

Applicant proposes to accept for the account of certain of its customers, their respective shares of synthetic gas pur-

chased from Columbia LNG, at Green Springs, Ohio, and to deliver such volumes to these customers at existing points of delivery at monthly load factors represented by each customer's maximum monthly volumes. Applicant states that the synthetic gas so accepted will be at essentially uniform monthly and daily rates. Applicant also states that it will be under no obligation to deliver gas to customers when Applicant is delivering that customer's total daily entitlement under the rate schedules contained in Applicant's effective FPC gas tariff.

Applicant states that customers will pay applicant 13 cents per Mcf for the delivery of mixed gas proposed herein, that the rate is a one-part rate per Mcf, and that the rate will be calculated from time-to-time based upon Applicant's average systemwide transmission and storage costs as reflected in Applicant's effective rates.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-7743]

#### CONNECTICUT LIGHT & POWER CO. Notice of Further Extension of Time and Postponement of Hearing

FEBRUARY 28, 1973.

On February 22, 1973, The Connecticut Municipal Group filed a motion for

further extension of time of the remaining procedural dates as established by the order issued November 30, 1972, and January 16, 1973, in the above matter. The motion states that the Commission Staff Counsel and the company consent to the request.

Upon consideration, notice is hereby given that the procedural dates in the above matter are further modified as follows:

Interveners' prepared testimony and exhibits, March 30, 1973.  
Connecticut Light & Power Co.'s rebuttal testimony and exhibits, April 21, 1973.  
Hearing, May 6, 1973 (10 a.m., e.d.t.).

KENNETH F. PLUMB,  
Secretary.

[Project 2338]

#### CONSOLIDATED EDISON CO. OF NEW YORK, INC.

##### Notice of Extension of Time

FEBRUARY 28, 1973.

On February 21, 1973, Consolidated Edison Co. of New York, Inc., filed a motion for an extension of time to answer the petition filed February 2, 1973, by the Hudson River Fishermen's Association (HRFA), for hearing and for order regulating operation of Pumped Storage Project (Cornwall Project). The motion states that HRFA has no objection to the requested extension of time.

Upon consideration, notice is hereby given that the time is extended to and including April 4, 1973, within which answers may be filed to the petition filed by HRFA.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4280 Filed 3-6-73; 8:45 am]

[Docket No. C173-556]

#### DYNAMIC EXPLORATION, INC. Notice of Application

FEBRUARY 28, 1973.

Take notice that on February 22, 1973, Dynamic Exploration, Inc. (applicant), Post Office Box 52889, Oil Center Station, Lafayette, LA 70501, filed in Docket No. C173-556 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co., from the North Bourg Field, Lafourche Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it proposes to commence the sale of natural gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpreta-

tions (18 CFR 2.70). Applicant proposes to sell approximately 120,000 Mcf of gas per month at 45 cents per Mcf at 14.7 p.s.i.a., subject to upward and downward B.t.u. adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4193 Filed 3-6-73; 8:45 am]

[Docket No. CP73-221]

#### EL PASO NATURAL GAS CO. Notice of Application

FEBRUARY 28, 1973.

Take notice that on February 16, 1973, El Paso Natural Gas Co., Post Office Box 1492, El Paso, TX 79978, filed in Docket No. CP73-221 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to construct and operate certain facilities and to sell and deliver natural gas to Northern Natural Gas Co. (Northern), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it purchases, gathers and transports natural gas from fields located in Lea County, N. Mex., that it has excess capacity on its system, and that it has contracted with Warren

Petroleum Co. (Warren) to use a portion of Warren's processing capacity at Warren's Monument and Eunice Plants in Lea County to process gas for Applicant. It is also stated that Northern does not have enough system capacity to gather, process, and transport volumes of gas available to it from its Lea County, N. Mex., sources.

Applicant states that it will receive up to 75,000 Mcf of raw, sour, natural gas per day from Northern, at approximately 100 p.s.i.a. or less, for an initial price of 18.87 cents per Mcf pursuant to an agreement between Applicant and Northern dated January 31, 1973. It is stated that Applicant will receive such gas at seven points of interconnection of existing natural gas gathering facilities in the Lea County area of New Mexico and that approximately 32,000 Mcf of such natural gas will be delivered to Warren for Applicant's account.

Applicant proposes to sell, at a rate equivalent to that under Applicant's Rate Schedule X-1, and deliver to Northern daily volumes of residue gas equal to the volume of gas remaining after Applicant processes the raw gas purchased from Northern, approximately 60,000 Mcf per day. The current rate under Rate Schedule X-1 is 30.9 cents per Mcf. It is stated that the proposed sale and delivery of natural gas to Northern will be at an existing point of connection at the outlet of Mobil Oil Corp.'s Coynosa Gas Plant, Pecos County, Tex., and/or at the point of interconnection where Applicant's 12-inch line in Lea County, N. Mex., crosses Northern's 16-inch mainline.

Applicant states that it commenced the sale and delivery of natural gas to Northern and installed three metering and regulating stations at the points of interconnection between Applicant's and Northern's gathering system facilities in Lea County, N. Mex., to make sales and deliveries within the contemplation of § 157.22 of the regulations under the Natural Gas Act (18 CFR 157.22).

Applicant proposes to construct and operate an interconnecting meter station, to be known as Field Sales Meter Station No. 1, to accommodate deliveries to Northern at the point of interconnection where Northern's 16-inch mainline crosses Applicant's 12-inch Gulf-Eunice pipeline in Lea County, N. Mex. Applicant also proposes to continue the operation of the aforementioned metering and regulating stations. Applicant estimated the total cost of the facilities constructed in connection with this project will total \$52,087.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants

parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CI73-553]

#### EXCHANGE OIL & GAS CORP.

##### Notice of Application

FEBRUARY 28, 1973.

Take notice that on February 20, 1973, Exchange Oil & Gas Corp. (applicant), 1010 Common Street, New Orleans, LA 70112, filed in Docket No. CI73-553 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. from the Orange Grove Field, Terrebonne Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on February 12, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70), except that the sale may be terminated after 6 months' deliveries under the authorization requested herein. Applicant proposes to sell approximately 37,500 Mcf of gas per month at 35 cents per Mcf at 15.025 p.s.i.a., subject to upward and downward B.t.u. adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 16, 1973, file with the

Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CI73-544]

#### EXXON CORP.

##### Notice of Application

FEBRUARY 28, 1973.

Take notice that on February 16, 1973, Exxon Corp. (Applicant), Post Office Box 2180, Houston, TX 77001, filed in Docket No. CI73-544 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas to Union Texas Petroleum, a Division of Allied Chemical Corp. (Union Texas), for resale in interstate commerce and pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to El Paso Natural Gas Co. (El Paso), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it is presently selling natural gas from production in the Fort Chadbourne and West Fort Chadbourne Fields, Coke and Runnels Counties, Tex., under a percentage-type casinghead gas contract to Union Texas for processing at the latter's Perkins Natural Gasoline Plant in Coke County and resale to El Paso. Applicant states further that the primary term of its percentage contract with Union Texas has

expired and that Applicant now proposes to sell to El Paso at 36 cents per Mcf at 14.65 p.s.i.a. residue gas from the Fort Chadbourne and West Fort Chadbourne casinghead gas after having the casinghead gas processed for Applicant by Union Texas at the Perkins Natural Gasoline Plant.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. E-7806]

#### ILLINOIS POWER CO.

##### Notice of Further Extension of Time

FEBRUARY 28, 1973.

On January 24, 1973, Illinois Power Co. filed a motion for an extension of time to comply with paragraph (D) of the order issued on December 29, 1972. The motion states that nine electric cooperatives have no objection to the motion. On January 19, 1973, a notice was issued changing the other procedural dates established by that order pursuant to a motion filed January 15, 1973 by the Illinois Power Co. On February 16, 1973, Illinois Power Co. filed a request for an extension of time so as to file a proposed offer of settlement. This extension is within the time of the earlier request.

Upon consideration, notice is hereby given that the time is extended to and

including April 16, 1973, within which Illinois Power Co. shall respond to paragraph (D) of the order issued December 29, 1972. The procedural dates are further modified accordingly:

Service of evidence by parties supporting, April 23, 1973.  
Service of evidence by parties opposing, April 30, 1973.  
Service of rebuttal evidence supporting, May 8, 1973.  
Hearing and cross-examination, May 15, 1973 (10 a.m., e.d.t.).

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4283 Filed 3-6-73; 8:45 am]

[Docket No. CI73-555]

#### McCULLOCH OIL CORP. OF TEXAS

##### Notice of Application

FEBRUARY 28, 1973.

Take notice that on February 22, 1973, McCulloch Oil Corp. of Texas (applicant), 10880 Wilshire Boulevard, Los Angeles, CA 90024, filed in Docket No. CI73-555 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Co. from Hemphill County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 7,500 Mcf of natural gas per day at 50 cents per Mcf at 14.65 p.s.i.a., subject to upward and downward B.t.u. adjustment, until July 1, 1974, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Estimated initial upward B.t.u. adjustment is 6.5 cents per Mcf.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on

this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4191 Filed 3-6-73; 8:45 am]

[Project 2684]

#### NORTH CENTRAL POWER CO., INC.

##### Notice of Application

FEBRUARY 28, 1973.

Public notice is hereby given pursuant to section 4(e) of the Federal Power Act (16 U.S.C. 791a-825r) that application for approval of compliance with license Article 18 was filed on July 14, 1972, by North Central Power Co., Inc. (correspondence to: Mr. Mark F. Dahlberg, vice-president, North Central Power Co., Inc., Grantsburg, Wis. 54840) Licensee for Project 2684, known as the Arpin Dam, located on the Chippewa River in Sawyer County, Wis.

Licensee has filed for approval of its compliance with Article 18 of its minor license, issued June 3, 1969 (41 FPC 682) requiring the development of recreational facilities and the submission of plans for stump removal from the reservoir.

Licensee states that it has completed all recreational development having completed the construction of a public boat landing and having placed two picnic tables on the site.

The development of a proposed park on a 29-acre parcel of land has been dropped from present plans. The parcel is being reserved for future development.

Licensee has consulted with the State of Wisconsin, Department of Natural Resources concerning stump removal and has received a recommendation that the stumps be left for fish and wildlife enhancement.

Any person desiring to be heard or to make protest with reference to said application should on or before April 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4284 Filed 3-6-73; 8:45 am]

[Docket No. CI73-202]

#### PENNZOIL CO.

##### Notice of Application

FEBRUARY 28, 1973.

Take notice that on February 15, 1973, Pennzoil Co. (Applicant), 900 Southwest Tower, Houston, TX 77002, filed in Docket No. CI73-202 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce with pregranted abandonment authorization to Northern Natural Gas Co. (Northern) from the Quito Area, Ward County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional gas pricing procedure to sell natural gas to Northern from the Quito Area at an initial rate of 37 cents per Mcf at 14.65 p.s.i.a., subject to upward and downward B.t.u. adjustment. The basic contract for the subject sale provides of 1-cent per Mcf price escalations each year, for reimbursement to Applicant for 90 percent of any new or increased taxes and for a contract term of 20 years.

Applicant states that on September 19, 1972, it filed an application for a certificate of public convenience and necessity in Docket No. CI73-202 authorizing the sale of the subject gas and was granted a temporary certificate for the sale on October 3, 1972, at 27 cents per Mcf. Applicant further states that it accepted the temporary certificate, but deliveries of gas have not commenced thereunder.

Applicant asserts that the instant contract prices were reasonable at the time the contract was entered into and that recently executed contracts for the sale of gas in the same area call for higher prices in the neighborhood of 45 to 50 cents per Mcf. Also, Applicant asserts that the instant contract prices are lower than recently negotiated intrastate contracts, such as the sales reported at 52 cents per Mcf in New Mexico and Oklahoma, 73 cents per Mcf in Ohio and 76 cents per Mcf in Alabama-Florida. Applicant believes that the assurance of a long-term supply of natural gas produced domestically, like the present one, is extremely beneficial to consumers faced with the prospect of paying in excess of \$1 (initial price) for gas imported from countries with uncertain political futures or transported over long distances from Alaska.

In the alternative, Applicant requests an amendment of the certificate heretofore issued in Docket No. CI73-202 to accomplish the above-described results on a permanent basis.

## NOTICES

Any person desiring to be heard or to make any protest with reference to said application should on or before March 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CI73-546]

# **PENNZOIL OFFSHORE GAS OPERATORS, INC.**

## **Notice of Application**

FEBRUARY 28, 1973.

Take notice that on February 16, 1973, Pennzoil Gas Operators, Inc. (Applicant), 900 Southwest Tower, Houston, TX 77002, filed in Docket No. CI73-546 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing sales for resale and delivery of natural gas in interstate commerce with pregranted abandonment authorization to Sea Robin Pipeline Co. from Block 270, East Cameron area, and Block 330, Eugene Island area, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional gas pricing procedure to sell natural gas to Sea Robin, an affiliated company, from Block 270 and Block 330 at an initial rate of 35 cents per Mcf at 15.025 p.s.i.a., subject to upward and downward B.t.u. adjustment. The basic contracts for the

subject sales dated April 20, 1972, provide for 2.5 cents per Mcf price escalations every 3 years, for reimbursement to Applicant for any new or additional taxes and for a contract term of 20 years.

Applicant states that it was issued certificates of public convenience and necessity in Dockets Nos. CI72-692 and CI72-694 for the subject sales from Block 330 and Block 270, respectively, on October 17, 1972, in Amoco Production Co. (Operator) et al., Docket No. G-4904 et al. Applicant indicates that deliveries have not commenced under either of these certificates. Applicant also indicates that certain wells in these blocks were commenced prior to April 6, 1972, and are not to be covered by this application.

Applicant asserts that the instant prices were reasonable at the time the subject contracts were entered into and that recently executed contracts for the sale of gas in the same area call for higher prices in the neighborhood of 45 cents per Mcf to 50 cents per Mcf. Also, Applicant asserts that the instant contract prices are lower than recently negotiated intrastate contracts, such as those sales reported at 52 cents per Mcf in New Mexico and Oklahoma, 73 cents per Mcf in Ohio and 76 cents per Mcf in Alabama-Florida. Applicant believes that the assurance of a long-term supply of natural gas produced domestically, like the present one, is extremely beneficial to consumers faced with the prospect of paying in excess of \$1 (initial price) for gas imported from countries with uncertain political futures or transported over long distances from Alaska.

In the alternative, Applicant requests an amendment of the certificates issued in Dockets Nos. CI72-692 and CI72-694 to accomplish the above-described results on a permanent basis.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public

convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4285 Filed 3-6-73; 8:45 am]

[Docket No. CP72-259]

# **SOUTHERN NATURAL GAS CO.**

## **Notice of Application**

MARCH 1, 1973.

Take notice that on February 20, 1973, Southern Natural Gas Co. (Applicant), Post Office Box 2563, Birmingham, AL 35202, filed in Docket No. CP72-259 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Sea Robin Pipeline Co. (Sea Robin) from Block 225, Ship Shoal area, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional gas pricing procedure to sell natural gas to Sea Robin from Block 225 at an initial rate of 35 cents per Mcf at 15.025 p.s.i.a., subject to upward and downward B.t.u. adjustment. The basic contract for the subject sale dated April 27, 1972, provides for 2.5-cents per Mcf price escalations every 3 years, for reimbursement to Applicant for any increased or new taxes and for a contract term expiring on January 1, 1993.

Applicant states that it was granted a temporary certificate for the subject sale in Docket No. CP72-259 but that deliveries have not commenced from the subject acreage. Such certificate was issued at a rate of 26 cents per Mcf on June 9, 1972. In the event the Commission approves the instant proposal, Applicant requests that its original application in this docket filed May 10, 1972, be considered withdrawn.

Applicant asserts that the instant contract prices were reasonable at the time of execution of the contract and that recently executed intrastate sales in southern Louisiana call for higher rates, some in excess of 50 cents per Mcf. Applicant further asserts that the cost of liquefied natural gas and other nonconventional supply sources are much higher. Applicant alleges that the instant definite pricing provisions in the gas sales contract are needed to provide funds for increasing lease sale costs in the southern Louisiana area and otherwise to provide funds for exploration, development, and production of needed gas supplies, thereby maintaining Applicant's financial integrity.

## NOTICES

In the alternative, Applicant requests that this application be treated as an amendment to its existing, pending application in Docket No. CP72-259 to accomplish the above described results on a permanent basis. In such case Applicant requests that its notice of withdrawal of application be disregarded.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed petitions to intervene in this docket need not file again.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4291 Filed 3-6-73; 8:45 am]

[Docket No. E-7929]

# **TOLEDO EDISON CO.**

## **Order Accepting for Filing**

FEBRUARY 28, 1973.

On December 22, 1972, Toledo Edison Co. (Toledo) tendered for filing copies of the following rate schedules: Municipal Resale Service Rate—Small, applicable to 11 small municipalities<sup>1</sup> and Municipal Resale Service Rate—Large, applicable to the cities of Bowling Green, Napoleon, Montpelier and Bryan.

<sup>1</sup> The Villages of Bradner, Custer, Edgerton, Elmore, Genoa, Haskins, Liberty Center, Oak Harbor, Pemberville, Pioneer, and Woodville, Ohio.

Toledo stated that the proposed changes would increase Toledo's revenues from jurisdictional sales and service by \$494,747 based on a 1971 test year. The proposed tariff is intended to be applicable to all of its municipal wholesale customers and Toledo maintains that it is replacing existing individual municipal wholesale agreements with the standardized rate tariffs submitted.

Toledo says that the existing agreements with the large municipalities of Bowling Green, Napoleon, and Montpelier have expired, and that as to those municipalities, the proposed effective date of the new tariff will be March 1, 1973. The new tariff is proposed to become effective as to Bryan upon the expiration date of the current agreement May 31, 1974.

With regard to the 11 small municipalities the proposed tariff rate is the same as that incorporated in existing rate schedules except for a revision to the fuel adjustment clause which excludes fuel handling costs. This revised fuel clause would have the effect of reducing revenues from the small municipalities. The company requests that the revised fuel clause go into effect on March 1, 1973.

Notice of the proposed increase was issued on January 11, 1973, petitions to intervene or protests were due February 5, 1973.<sup>2</sup> A timely petition to intervene was filed by the city of Napoleon, Ohio. On February 5, 1973,<sup>3</sup> Bowling Green, Bryan, and Napoleon (Cities) filed a joint motion to reject the filing contending that it lacks jurisdiction for allocation of demand charges to Cities contrary to the regulations under the Federal Power Act, § 35.13(b)(iv); it violates antitrust laws and prohibitions of section 205(b) of the Federal Power Act in that it eliminates provision for coordination with the two municipals with self-generation contrary to the standards confirmed in the Gainesville decision and restricts self-generation through imposition of high minimum charges and refusal to provide outage service and transmission service; it acts to impose unlawful restrictions on retail sales by Cities; and that the ratchet provision is unlawful.

Also on February 5, 1973, the Cities filed a motion by the Cities to protest, reject, request for hearing and 5 months suspension, and to intervene in which the arguments raised in joint motion to reject were reargued. The Cities also maintain that the lack of environmental impact statement is a reason for rejection. Alternatively, the Cities request suspension of the filing and hearing on Toledo's anticompetitive practices and their environmental impact, or refuse

<sup>2</sup> The original notice provided for filing Green, Ohio, filed the same date extending the filing date for interventions until Feb. 5, 1973.

<sup>3</sup> petitions and intervention by Jan. 22, 1973. On Jan. 22, 1973, the Secretary granted a motion by the cities of Bryan and Bowling Green, Ohio, filed the same date.

<sup>4</sup> Supplemented by Feb. 21, 1973, filing.

to accept the proposed tariff sheets unless Toledo agrees to coordinate operations with the Cities generating plants and correct various discrimination clauses or order a hearing and 5-month suspension. On February 20, 1973, Toledo filed an answer to the Cities' motions.

We believe that the allegations contained in the Cities' motions raise issues which may require development in an evidentiary hearing and therefore will deny said motions.

Our review of Toledo's filing reveals that, with respect to the three large cities being served under expired contracts, as well as the city of Bryan, the proposed rate increase has not yet been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Therefore, we will accept for filing, the tendered large municipal rate schedule and suspend it for 5 months. However, Toledo's contract with the city of Bryan does not expire until May 31, 1974, therefore, the proposed rate increase applicable to the city of Bryan may not become effective until that date.

With regard to the small municipal rate schedule, we will permit the revised fuel adjustment clause to go into effect on March 1, 1973, without suspension, subject to the condition that Toledo file a revised fuel clause in conformance with New England Power Co., Docket No. E-7541 Opinion No. 633.

Finally, in order that the Commission has an up to date record on all the issues presented, we shall require Toledo to submit cost and revenue data for calendar year 1972. In this connection our caveat \* \* \* on page 7 in Duke Power Co., Opinion No. 641, in Docket No. E-7557 is particularly appropriate in cases such as this where a 1971 test period is being used. There we stated:

\* \* \* our filing requirements are not to be construed as a limitation on evidence which may be proffered as an aid to us in determining just and reasonable rates. All evidentiary material relevant to a fair determination of cost and revenue expectations may be appropriately presented in filings before us.

The Commission finds:

(1) The tariff schedule, Municipal Resale Service Rate—Large, tendered for filing December 22, 1972, should be accepted for filing as hereinafter ordered.

(2) The above increased rates and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

(3) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Toledo's Municipal Resale Service Rate—Large as proposed to be amended in this docket, and that the tendered Rate Schedule be suspended as herein-after provided.

(4) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

## NOTICES

(5) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

(6) The tariff schedule, Municipal Resale Service Rate—Small, tendered for filing December 22, 1972, is accepted to become effective as hereinafter ordered.

(7) Participation of the applicants for intervention cities of Napoleon, Bowling Green, and Bryan, Ohio, may be in the public interest.

(8) The motions of the Cities should be denied.

The Commission orders:

(A) Toledo's rate schedule, Municipal Resale Service Rate—Large, filed on December 22, 1972, is accepted for filing and suspended until August 1, 1973, as hereinafter provided.

(B) Toledo's Municipal Resale Service Rate—Small is accepted for filing and the revised fuel adjustment clause therein is permitted to become effective March 1, 1973. Toledo shall file a revised fuel clause in conformance with New England Power Co., Docket No. E-7541 Opinion No. 633 within 60 days from the date of issuance of this order.

(D) The Cities' motion to reject the filing and motion to protest, reject, request for hearing and 5 months suspension and intervention are denied for the reasons heretofore stated.

(E) Pursuant to the authority of the Federal Power Act, including sections 205, 206, 308, and 309 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act, a public hearing shall be held commencing with a prehearing conference on July 24, 1973, at 10 a.m. in a hearing room of the Federal Power Commission, at 441 G Street NW., Washington, DC 20426 concerning the lawfulness of the rate increase as set forth above.

(F) On or before April 16, 1973, Toledo shall file cost and revenue data for the calendar year 1972. On or before July 16, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before July 30, 1973. Any rebuttal evidence by Toledo shall be served on or before August 13, 1973. Cross-

examination on the evidence filed will commence on August 28, 1973.

(H) A Presiding Examiner to be designated by the Chief Examiner for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided and shall control the proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(I) Pending such hearing and decision thereon, Toledo's proposed rate schedule Municipal Service Rate—Large listed above is hereby suspended except as hereinafter noted, and the use thereof deferred until August 1, 1973, subject to the terms and conditions of this order: *Provided, however*, That with respect to the city of Bryan, the proposed rate increase may not become effective prior to May 31, 1974. Toledo shall refund at such times and in such manner as may be required by final order of the Commission, the portion of the increased rates and charges found by the Commission in this proceeding not justified, together with interest at the rate of 7 percent per annum, from the date of payment of Toledo until refunded; shall bear all costs of all refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates and charges effective as of August 1, 1973, for each billing period, and shall report (original and one copy) in writing and under oath, to the Commission monthly, for each billing period, by customer, under the above described tariff sheets, and the revenue immediately prior to August 1, 1973, and under the rates and charges declared by this order to have become effective, together with the differences in the revenues so computed.

(J) The parties named above are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however*, That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene: *and provided, further*, That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

[Docket No. R173-226]

MOBIL OIL CORP.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, Allowing Rate Change To Become Effective Subject To Refund

FEBRUARY 28, 1973.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR Ch. I], and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

The proposed increase of Mobil Oil Corp. does not exceed the rate limit for a 1-day suspension and therefore is suspended for 1-day from the expiration of the 60-day notice period or the contractual effective date, whichever is later.

Mobil is required to notify the Commission of the date of the first delivery and the effective date of the rate increase. Additionally, Mobil is required to file a rate schedule quality statement with the Commission within 90 days of first delivery.

Mobil's proposed increased rate and charge exceed the applicable area price level for increased rates as set forth in the Commission's statement of general policy No. 61-1, as amended (18 CFR 2.56).

The rate increase granted in this case has been reviewed in the light of and is consistent with the Economic Stabilization Act of 1970 as amended, Executive Order No. 11695, and the rules and regulations issued thereunder.

[FR Doc. 73-4274 Filed 3-6-73; 8:45 am]

TRANSCONTINENTAL GAS PIPE LINE

Notice of Filing of Exchange Agreement

FEBRUARY 23, 1973.

Take notice that on February 14, 1973, Transcontinental Gas Pipe Line Co. tendered for filing the following sheets to its FPC Gas Tariff, original volume No. 2:

Original sheets Nos. 542 through 547 constituting rate schedule X-60, an exchange agreement dated May 17, 1972 between Transco and United Gas Pipe Line Co. (United).

The subject exchange arrangement was authorized by the Commission by certificate issued in Joint Docket No. CP73-42 on January 19, 1973.

The tariff sheets are proposed to become effective January 19, 1973, the date of issuance of the certificate in Docket No. CP73-42, and the company requests to permit the filing to become effective on such date.

The company states that copies of the filing have been mailed to United.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 8, 1973.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4275 Filed 3-6-73; 8:45 am]

## NOTICES

[Docket No. ID-1494]

WILLIAM C. TALLMAN  
Notice of Application

FEBRUARY 28, 1973.

Take notice that on October 16, 1972, William C. Tallman (Applicant) filed an application pursuant to section 305(b) of the Federal Power Act seeking authority to hold interlocking directorate positions.

Applicant is president and director of Public Service Co. of New Hampshire, a public utility principally engaged in the transmission, generation, and sale of electric energy in 212 cities and towns in New Hampshire, Maine, and Vermont. Applicant is also director of both Connecticut Yankee Atomic Power Co., and Yankee Atomic Electric Co. Connecticut Yankee was organized by 11 participating investor-owned utilities to construct a single-unit nuclear electric generating plant in Haddam, Conn. Yankee Atomic was organized by 11 investor-owned utilities in September 1954, to operate an atomic-electric plant in Rowe, Mass.

On January 18, 1966, Applicant was elected director of Maine Yankee Atomic Power Co. However, the company did not become a public utility until it commenced generation of power for transmission in interstate commerce in late 1972. Therefore, no previous authority to hold such positions was requested. Applicant now seeks authority to hold the position of director of Maine Yankee Atomic Power Co.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests to intervene in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4287 Filed 3-6-73; 8:45 am]

FEDERAL RESERVE SYSTEM

FIRST NATIONAL HOLDING CORP.

Order Approving Acquisition of Woods-Tucker Leasing Corp.

First National Holding Corp., Atlanta, Ga., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 4(c) (8) of the Act and

§ 225.4(b) (2) of the Board's Regulation Y, to acquire all of the outstanding common stock of Woods-Tucker Leasing Corp., Hattiesburg, Miss. (Company). The Company engages in the business of leasing personal property (fixtures and equipment) on a "full pay-out basis", and acting as agent, broker, or adviser in the leasing of such property. These activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 FR 28326). The time for filing comments and views has expired, and none has been timely received.

The Company, which was organized in 1970, had net leases outstanding of \$1.7 million on June 30, 1972, from business generated by its own employees and agents in Alabama, Louisiana, and Mississippi. It does no business outside these States.

Applicant's banking subsidiary, First National Bank of Atlanta ("First National"), is the third largest banking organization in the State of Georgia, with deposits of \$870.1 million, representing 9.9 percent of the total State deposits as of June 30, 1972. It is the only subsidiary of Applicant which engages in financial leasing and does so only in the State of Georgia. It has no leases outstanding, and does not actively seek business in the Company's market, i.e., Alabama, Louisiana, and Mississippi. Consequently, no present competition would be eliminated by the acquisition.

Company is relatively small, and its growth is limited by available financing. It is not likely to expand its leasing activities into Georgia. First National is capable of expanding into Company's market, but there are a number of regional and national competitors there. Barriers to entry into the product and geographic markets are not great, and there are several potential entrants. It appears, therefore, that removal of First National, as a possible de novo entrant, would not be adverse to probable future competition. In brief, no adverse competitive effects would result from this acquisition.

Public benefits are likely to result from the acquisition, inasmuch as Applicant is apparently able to provide more funds and at more favorable rates than those now obtainable by Company; this could enable Company to compete more effectively in its present market, to expand, and, possibly, to lower its rates.

There is no evidence that consummation of the proposed transaction would result in undue concentration of resources, conflicts of interest, unsound banking practices, or decreased or unfair competition.

Based upon the foregoing and other considerations reflected on the record,

the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By order of the Board of Governors,<sup>1</sup> effective February 27, 1973.

[SEAL] **TYNAN SMITH,**  
*Secretary of the Board.*  
[FR Doc. 73-4293 Filed 3-6-73; 8:45 am]

#### FIRST NATIONAL STATE BANCORPORATION

##### Order Approving Acquisition of Bank

First National State Bancorporation, Newark, N.J., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of the successor by merger to Somerset Hills & County National Bank, Basking Ridge, N.J. (Bank).

The bank into which Bank is to be merged has no significance except as a means to facilitate acquisition of the voting shares of Bank. Therefore, the proposed acquisition of the shares of the successor bank is treated herein as the proposed acquisition of shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest banking organization in New Jersey, controls seven banks with aggregate deposits of approximately \$1.2 billion, representing 6.7 percent of total deposits in commercial banks in the State.<sup>2</sup> Applicant's acquisition of Bank (\$59.6 million in deposits) would increase its share of commercial bank deposits in New Jersey by only 0.3 percentage points; its rank among banking organizations in the State would be unchanged; and there would be no significant increase in the concentration of banking resources in the State.

<sup>1</sup> Voting for this action: Vice Chairman Robertson and Governors Daane, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governor Mitchell.

<sup>2</sup> Banking data are as of June 30, 1972, and reflect bank holding company formations and acquisitions approved by the Board through Dec. 31, 1972.

Bank operates two offices in the New Brunswick banking market where it is the 17th largest of 20 banks, controlling approximately 0.5 percentage points of market deposits. Bank also operates five offices in the Plainfield banking market and, with 9.4 percent of market deposits, is the fourth largest of 17 banks in that market.

One of Applicant's subsidiary banks, The Edison Bank, N.A. (Edison Bank), operates an office in the New Brunswick banking market located 2.4 miles from an office of Bank. Edison Bank controls 9.6 percent of deposits in the New Brunswick banking market and is the third largest bank in that market. Applicant's acquisition of Bank would neither significantly increase the concentration of deposits in that market nor give Applicant a dominant position in that market. Bank derives 4.1 percent of its loans and 4.2 percent of its deposits from the area served by Edison Bank. Some existing competition among these two banks would, therefore, be eliminated upon consummation of this proposal. However, since Bank and Edison Bank are separated by the Raritan River and seven offices of three competing banks and because competition among the 17 banks in the market seems keen, it does not appear that a significant amount of existing or potential competition in the New Brunswick market would be eliminated upon consummation of this proposal.

Applicant is not presently represented in the Plainfield market and none of its subsidiary banks derive a significant amount of their deposits or loans from that market. Although consummation of the proposal would foreclose the possibility that Applicant would enter the market de novo or through branches of its present subsidiaries, it would not raise significant barriers to entry into this market by other holding companies, since about 15 other independent banks would be available for acquisition. Additionally, due to the highly competitive structure of the Plainfield market (there are 20 competing banks), foreclosure of the possibility of Applicant's entry would have no significant adverse effects on potential competition in the Plainfield market. On the basis of these and other facts of record, the Board concludes that consummation of the proposed acquisition would not result in significant adverse effects upon existing or potential competition in any relevant area nor would it adversely affect any competing bank.

The financial condition and managerial resources of Applicant, its subsidiary banks and Bank are regarded as generally satisfactory and the future prospects of each appears favorable. Upon approval of this application, Applicant proposes to add accounts receivable financing, commercial term loans, construction loans, and international banking services to the services presently offered by Bank. Applicant also proposes to improve the trust and data processing services presently offered by Bank. Although it appears such services are pres-

ently available in Bank's area, the increased and improved services that would be offered by Bank as a result of its affiliation with Applicant would provide area residents another competitive alternative for specialized banking services. Considerations relating to the convenience and needs of the communities to be served are consistent with and lend some weight toward approval of the application.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before March 29, 1973, or (b) later than May 28, 1973, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,<sup>1</sup> effective February 27, 1973.

[SEAL] **TYNAN SMITH,**  
*Secretary of the Board.*  
[FR Doc. 73-4294 Filed 3-6-73; 8:45 am]

#### NATIONAL BANCSHARES CORPORATION OF TEXAS

##### Order Approving Acquisition of Bank

National Bancshares Corporation of Texas, San Antonio, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to The First National Bank of Eagle Pass, Eagle Pass, Tex. (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the eighth largest multi-bank holding company in Texas, controls two banks located in the San Antonio area with aggregate deposits of \$295.2 million, representing .98 percent of total deposits of commercial banks in the State. (All banking data are as of June 30, 1972, and reflect holding company formations and acquisitions approved through January 22, 1973.) Acquisition of Bank (\$16.7 million of deposits) would increase applicant's share of deposits in the State insignificantly and its ranking

<sup>1</sup> Voting for this action: Vice Chairman Robertson and Governors Daane, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governor Mitchell.

among banking organizations in the State would be unchanged.

Bank, which operates one office in Eagle Pass, Tex., is the largest of two banks in the Maverick County banking market and controls approximately 71 percent of the deposits of commercial banks in that area. Bank is located approximately 140 miles southwest of applicant's two subsidiary banks in the San Antonio area. No competition exists between Bank and either of applicant's subsidiary banks. Thus, consummation of the proposed acquisition would not have an adverse effect on existing competition. Furthermore, in view of the distance separating applicant's present subsidiary banks and Bank and the size of Bank, it appears unlikely that any competition would develop between Bank and applicant's subsidiary banks in the future. Since the population-to-banking office ratio in Bank's market is below the State average, it appears unlikely that applicant would attempt de novo entry into the Maverick County market.

The present financial and managerial resources and prospects of applicant, its subsidiary banks and Bank are regarded as satisfactory and consistent with approval. Entry of applicant should provide a source of expanded and more sophisticated financial services to residents of the Maverick County banking market. Convenience and needs considerations are therefore consistent with approval. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before March 29, 1973, or (b) later than May 28, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,<sup>1</sup> effective February 27, 1973.

[SEAL] **TYNAN SMITH,**  
*Secretary of the Board.*

# NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

## NOTICE OF PUBLIC MEETING

Notice is hereby given, Public Law 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on March 16, 1973 at 9 a.m.-5 p.m., and March 17, 1973 at 9 a.m.-4 p.m., local time in Room 261, 1717 H Street NW., Washington, DC 20006.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Education Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The meeting is called to review the final draft for the Annual Report to the President and the Congress for March 31, 1973.

Because of limited space for the public meeting of March 16 and 17 all persons wishing to attend should call for reservations at Area Code 202-632-5221 by March 12, 1973.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located in Room 202, 1717 H Street NW., Washington, DC 20006.

Signed at Washington, D.C., on March 5, 1973.

ROBERTA LOVENHEIM,  
Executive Director.

[Notice 73-18]

## AD HOC SUBCOMMITTEE OF SPACE SCIENCE AND APPLICATIONS STEERING COMMITTEE FOR EVALUATION OF PIONEER VENUS FLIGHT EXPERIMENT PROPOSALS

### Notice of Meeting

The NASA ad hoc Subcommittee of the Space Science and Applications Steering Committee for the Evaluation of Pioneer Venus Flight Experiment Proposals will meet at the Goddard Space Flight Center on March 12, 13, and 14, 1973. The meeting will be held in the conference room of Building 26, Goddard Space Flight Center, Greenbelt, Md. 20771.

The subcommittee will serve the National Aeronautics and Space Administration in a consultative capacity to review, evaluate, and categorize the flight experiments proposed for the planned Pioneer Venus flight. After completing this evaluation of the experiment proposals, the subcommittee will be terminated. Dr. Robert F. Fellows of Headquarters, NASA, will chair the subcommittee, which will have 18 members. For further information regarding the meeting, please contact Mr. Robert W. Jackson, area code 202-755-3770.

It has been determined that the subject matter to be discussed at this meeting falls within the provisions of section 552(b) of title 5 of the United States Code and that public interest requires that the discussion and evaluation of flight experiment proposals be withheld from public disclosure. Accordingly, the meeting will not be open to the public. The agenda for the meeting is as follows:

MARCH 12, 1973	
Time	Topic
9:00 a.m.	Mission Constraints and Definition (Action. The NASA Program Office is required to clarify the planned purpose, scheduling, and constraints of the mission and the anticipated physical limitations and facilities of the spacecraft.)
10:00 a.m.	Instruction and Procedures (Action. To establish the procedures to be followed in evaluating and categorizing the proposals in accordance with NASA Management Instruction 7100.1. Emphasis will be placed upon the avoidance of any conflict of interest.)
10:30 a.m.	Evaluation and Categorization of Flight Experiment Proposals (Action. The Subcommittee is required to evaluate the experiment proposals for the planned Pioneer Venus flight with respect to scientific merit.

Time	Topic
	value of the expected scientific return and other parameters, and is required to recommend their categorization to NASA in accordance with NASA Management Instruction 7100.1.)
MARCH 13 & 14, 1973	
Time	Topic
	Evaluation and Categorization of Flight Experiment Proposals, continued.

HOMER E. NEWELL,  
Associate Administrator, National Aeronautics and Space Administration.

MARCH 2, 1973.

## RESEARCH AND TECHNOLOGY ADVISORY COUNCIL, COMMITTEE ON AERONAUTICS

### Notice of Meeting

The NASA Research and Technology Advisory Council, Committee on Aeronautics, will meet on March 14, 15, and 16, 1973, at the NASA Ames Research Center, Moffett Field, Calif. 94035. The meeting will be held in the Conference Room of Building 200. Members of the public will be admitted to the open portion of the meeting beginning at 9 a.m. on the agenda below on a first-come-first-served basis up to the seating capacity of the room, which is about 40 persons. All visitors must report to the Ames Research Center receptionist in Building 200.

The NASA Research and Technology Advisory Council, Committee on Aeronautics, serves in the advisory capacity only. In this capacity, the Committee is concerned with aerodynamics and aircraft vehicle systems. The current Chairman is Mr. E. S. Carter. There are 12 members. The following list sets forth the approved agenda and schedule for the March 14, 15, and 16, 1973, meeting of the Aeronautics Committee. For further information, please contact Mr. J. Lloyd Jones, Area Code 202-755-2397.

MARCH 14, 1973	
Time	Topic
9:00 a.m.	Report of the Chairman. (Purpose. To discuss the report of the Chairman prepared to relay the results of the previous meeting to the Council.)
9:30 a.m.	Report of the Executive Secretary. (Purpose. To report on recent developments of interest including policy, program, and organizational changes as well as review of the status of the proposed Full-Scale Subsonic Wind Tunnel and the proposed High Reynolds Number Wind Tunnel.)

Time	Topic
10:30 a.m.	Review of the Activities of the RTAC Joint Ad Hoc Panel on Aerospace Vehicle Dynamics and Control. (Purpose. To review the activities to date of the RTAC Ad Hoc Panel on Aerospace Vehicle Dynamics and Control with a view to offering comments and guidance to the member of the Committee on Aeronautics that is serving on the ad hoc panel.)
11:00 a.m.	Status Report on the Computational Aerodynamic Program. (Purpose. To advise the Committee on the status of NASA's computational aerodynamics program.)
11:30 a.m.	Review of Wake Turbulence Minimization Program. (Purpose. To advise the Committee of the accelerated program being undertaken by NASA seeking both short-range and long-range aerodynamic solutions to the aircraft operational hazard caused by aircraft trailing vortices.)
12:30 p.m.	Lunch.
1:30 p.m.	Review of Advanced Supersonic Technology Program. (Purpose. The Committee will be briefed on NASA's Advanced Supersonic Technology program in order that it may comment on the scope of the activity, the program balance, possible deficiencies, and the adequacy of the effort.)
MARCH 15, 1973	
8:30 a.m.	Review of Studies on High-Lift Transonic Maneuverability Including Stall/Spin Research. (Purpose. The Committee will be briefed on the research currently underway and planned on high-lift maneuverability, including stall/spin research in order that it may comment on the scope of the activity, the balance of the effort, possible deficiencies, and the adequacy of the effort.)
11:30 a.m.	Review of Powered-Lift Research. (Purpose. The Committee will be briefed on NASA's powered-lift research program in order to comment on the scope of the activity, the balance of the program, possible deficiencies, and the adequacy of the effort.)
12:30 p.m.	Lunch.
1:30 p.m.	Continuation of Review of Powered-Lift Research.
3:00 p.m.	Review of the Committee's Method for Handling its Consideration of the Problems of General Aviation. (Purpose. To discuss the desirability of establishing an ad hoc panel to review the field of general aviation and report on those areas that would benefit from research by NASA.)

## NOTICES

Time	Topic
3:30 p.m.	Executive Session. (Purpose. To develop final Committee comments and recommendations pertaining to the scope and focus of the technical programs reviewed earlier as well as the importance and value of the results. Classified information will be discussed as well as information of a proprietary nature offered in confidence. Preliminary projected future year distribution of efforts and related budget limitations will be presented.)

MARCH 16, 1973

8:30 a.m.	Continuation of Executive Session.
12:00 p.m.	Adjournment.

HOMER E. NEWELL,  
Associate Administrator, National Aeronautics and Space Administration.

MARCH 2, 1972.

## NATIONAL CREDIT UNION ADMINISTRATION

### NATIONAL CREDIT UNION BOARD

#### Notice of Meeting and Agenda

Pursuant to the provisions of the Federal Advisory Committee Act, Public Law 92-463, 86 Stat. 770, notice is hereby given that the National Credit Union Board will hold its quarterly meeting on March 27-28, 1973, at the offices of the National Credit Union Administration, 2025 M Street NW., Washington, DC 20456. The meetings will commence at 9 a.m. daily in Room 4210.

The agenda for this meeting will consist of an update briefing regarding the

activities of the several offices of the National Credit Union Administration, a briefing on the progress of the Administration's library project, a briefing on share insurance activities, and other aspects of the Administration. Matters for discussion will include revisions of manuals published by the Administration, legislation, and a meeting with representatives of trade associations.

This meeting of the National Credit Union Board will be open to the public. Members of the public may file written statements with the Board either before or after the meeting. To the extent that time permits, interested persons may be permitted to present oral statements to the Board only on items listed in the aforementioned agenda. Requests to present such oral statements must be approved in advance by the Chairman of the Board. Such requests should be directed to the Chairman, National Credit Union Board, National Credit Union Administration, Washington, D.C. 20456.

HERMAN NICKERSON, Jr.,  
Administrator.

## TARIFF COMMISSION

[AA1921-110]

### CANNED BARTLETT PEARS FROM AUSTRALIA

#### Determination of Likelihood of Injury

MARCH 1, 1973.

On November 30, 1972, the Tariff Commission received advice from the Treasury Department that canned Bartlett pears from Australia are being, or are likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). In accordance with the requirement of section 201(a) of that Act, the Tariff Commission instituted investigation No. AA1921-110 to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States. A public hearing was held on January 9, 1973.

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of its investigation, the Commission has determined, by a vote

Notice of the Commission's investigation and hearing was published in the FEDERAL REGISTER of Dec. 12, 1972 (37 FR 26475).

\* Vice Chairman Parker and Commissioner Young did not participate in the decision.

of 2 to 2.5 that an industry in the United States is likely to be injured by reason of the importation of canned Bartlett pears from Australia that are being, or are likely to be, sold at less than fair value (LTFV) within the meaning of the Antidumping Act of 1921, as amended.

**STATEMENT OF REASONS FOR AFFIRMATIVE DETERMINATION OF CHAIRMAN BEDELL AND COMMISSIONER MOORE**

Under the Antidumping Act of 1921, an affirmative determination by the Tariff Commission requires satisfaction of two conditions: (1) That an industry in the United States is being injured, or is likely to be injured, or is prevented from being established; and (2) that such injury or likelihood of injury must be "by reason of" the importation into the United States of the class or kind of foreign merchandise the Secretary of the Treasury has advised is being, or is likely to be, sold at less than fair value (LTFV).

Our determination is in the affirmative since, in our judgment, both of the required conditions are satisfied, i.e., an industry in the United States is likely to be injured, and such likelihood of injury is by reason of imports of Australian canned Bartlett pears sold at LTFV. The reasons for our determination are set forth below.

In this case, in our view, the domestic industry consists of those enterprises, proprietary and grower-owned cooperatives, engaged in the production of canned Bartlett pears.

Most of the LTFV canned pear imports are being sold in a marketing region encompassing the States in the Northeast and mid-Atlantic Regions, i.e., Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, New Jersey, Delaware, and Maryland. In recent years, this region has accounted for about one-fourth of the total U.S. apparent consumption of domestic canned Bartlett pears, and an estimated three-fifths of U.S. consumption of canned Bartlett pears from Australia sold at LTFV prices.

Penetration of the domestic regional market of the Northeast and mid-Atlantic States by LTFV imports of canned pears from Australia apparently was less than 1 percent of consumption in the marketing year ending May 1970, but grew to the significant level of 8.9 percent in the year ending May 1971. In the marketing year ending May 1972, such regional penetration by the LTFV imports decreased to about 5 percent, a lesser but still significant level. This reduced penetration in the year ending

\* Chairman Bedell and Commissioner Moore determined in the affirmative; Commissioners Leonard and Ablondi determined in the negative. Pursuant to section 201(a) of the Antidumping Act of 1921, as amended, the Commission is deemed to have made an affirmative decision when the Commissioners voting are equally divided.

\* Prevention from being established is not an issue in this case.

May 1972, however, reflected reduced imports coincident with Treasury's antidumping investigation; reductions in imports have been a typical reaction in antidumping cases. Treasury's investigation in this case was instituted in January 1972, and its determination was that all imports of Australian canned pears in calendar year 1971 were sold at LTFV prices.

The apparent suppression of levels of domestic producers' prices in the marketing year ending in May 1971, and the depression of such prices in the year ending May 1972 cannot be attributed solely to the LTFV imports of canned Bartlett pears from Australia. The fact remains, however, that it has been demonstrated that there have been substantial inroads into the U.S. market by imports of Australian canned pears when sold at LTFV, and below the U.S. price level. The cause of the price depression is difficult to determine because of the inability to separate or to measure the impact of the LTFV sales apart from the impact of imports of Italian canned pears. Italian canned pear imports not only undersold domestic canned pears but also undersold LTFV imports of canned pears from Australia. Such underselling of Italian canned pears contributed substantially to the disruptive situation in the U.S. market.

The evidence in this investigation leads us to the conclusion that a U.S. industry is likely to be injured by reason of the importation of canned Bartlett pears from Australia at LTFV prices. Capacity of the Australian industry will increasingly exceed the levels of consumption of the Australian home market and its foreign markets outside the United States. Consumption in the Australian home market has been absorbing about one-fourth of the total canned pear production in recent years, and is not likely to expand substantially. The pressure to find export markets for the bulk of annual production of canned pears will therefore continue.

Australian Government efforts, such as the so-called "tree-pull" program, to restrict the supply of pears and thereby to reduce the supply of canned pears are judged unlikely to succeed. With respect to the "tree-pull" program, there is no definite assurance that the program will be continued. Furthermore, there is no known legal requirement, nor is there any agreement among the growers to comply with the "tree-pull" program. The industry's expectations of new and expanded markets probably will largely offset or nullify such Government efforts.

The pressures on the Australian industry to find new export markets and to expand existing markets for canned pears is expected to grow considerably during coming years. This expectation is based on the projected loss to Australia of its main export market—the United Kingdom, as a consequence of its membership in the European Economic Community (EEC). As a member of the EEC, the United Kingdom will impose a duty on various Australian goods, including canned pears. As now provided, with

respect to non-EEC countries, the United Kingdom is scheduled to impose a duty of about 9.6 percent ad valorem on canned pears, effective January 1, 1974, and to increase that rate in several stages to the final level of 24 percent ad valorem, effective July 1, 1977, or January 1, 1978. The probabilities that Australia will obtain significant tariff concessions are minimal, as such concessions would be disadvantageous to other EEC members, especially Italy. Beginning in 1973, the United Kingdom will reduce its tariff on imports of canned Bartlett pears from other EEC members so that by 1977 such imports will be entered duty-free. These tariff reductions, together with Australia's burden of high export transportation costs, will gradually, but effectively, shut off any substantial exports of canned Bartlett pears from Australia to the United Kingdom in the coming years.

The Australian industry has argued that their market for canned Bartlett pears in Japan will expand considerably. This is speculation as there is no conclusive evidence of expanded demand for exports to that market in the foreseeable future.

Faced with the loss of its largest export market—the United Kingdom—and lacking other significant export outlets for its canned Bartlett pears, the Australian industry can be expected to earmark an increasing share of its output for the U.S. market, with the bulk of such exports destined for the populous regional market of the Northeast and mid-Atlantic States. Indeed, we tend to view the recent rise of imports from Australia as the precursor of an effort to establish and to develop the U.S. market as a replacement for the United Kingdom market.

In this situation, as we see it, continued penetration of the Northeast and mid-Atlantic regional market with LTFV imports from Australia is a prime likelihood. Continued penetration by LTFV imports from Australia would create abnormal pressures on the domestic industry, through losses of sales of canned Bartlett pears, suppression or depression of domestic producers' prices, and losses of revenue and profits stemming from both lost sales and reduced prices.

Sensitivity of the U.S. canned pear industry to the abnormal pressures from LTFV sales has been indicated in recent years. This sensitivity is based on certain conditions. Bartlett pears, in contrast with winter pears (such as Anjou and Bosc), are highly perishable and have a limited storage span. Decisions concerning the disposal of pears, as fresh or canned fruit, must be made early in the season. If after marketing decisions are made, involving rather close limits, the producers are faced with large imports selling at LTFV prices their marketing plans are seriously disrupted. Subjected to such pressures continually, the domestic industry is likely to be injured.

Our conclusion is, therefore, that an industry in the United States is likely to be injured by reason of the importation of canned Bartlett pears from

Australia which are being, or are likely to be, sold at less than fair value.

**STATEMENT OF REASONS FOR NEGATIVE DETERMINATION OF COMMISSIONER LEONARD**

The finding of a majority of the Commission in this investigation is that an industry in the United States is likely to be injured by reason of the importation of canned Bartlett pears sold, or likely to be sold, at less than fair value. The majority of the Commission did not find that an industry is being injured by reason of the less-than-fair-value (LTFV) canned Bartlett pears from Australia. I agree with the majority that there is no present injury due to the LTFV imports of Australian canned Bartlett pears. I cannot make the causal connection necessary between LTFV imports and any present injury to a domestic industry.

The penetration of the U.S. market by Australian canned pears has been relatively small and exhibited no particular upward trend. Downward fluctuations in the prices of domestic canned pears have not been correlated with increases in LTFV imports; indeed, the opposite is indicated—when prices of domestic pears were high (1970/71), the LTFV imports were at their peak, and when domestic prices were lower (1971/72), the LTFV imports were also lower. Any lost sales or decline in prices or reduction in profitability experienced by the domestic industry were caused by factors other than the sale of Australian canned pears at LTFV.

However, I cannot agree with the finding of the majority that there is a likelihood of injury due to the LTFV imports. Such a finding is predicated on two major assumptions. One of these is the projected lack of success of the Australian Government's recently initiated program to limit the supply of fresh pears. Some salient facts which discredit this assumption should be cited. During 1970-72, fresh pear production in Australia—although substantially larger than during the previous 3 years—varied little from year to year and averaged about 210,000 tons. Canned pear production, however, declined from 4.4 million equivalent cases\* in 1970 to an estimated 2.2 million cases in 1972. Such reduction in output of canned pears was achieved in the absence of the recently initiated program aimed at limiting the supply of fresh pears.

Both the Australian Government and the canners themselves are aware of the pear oversupply problem and both have addressed themselves to the solution of the problem. It appears unlikely that the Australian canners would seek that solution in the U.S. market.

The second assumption is that the joining of the European Community by the United Kingdom (currently the prime

\* Pursuant to section 201(a) of the Antidumping Act, 1921, as amended, the Commission is deemed to have made an affirmative determination when the Commissioners voting are equally divided.

\* Cases equivalent to 24 size 2½ cans.

market for Australian canned pears),<sup>1</sup> is forcing, and will force, the Australian producers to shift their exports from that market to the United States. It is claimed that Italy, a major European Community producer, will gain a substantially improved market position over Australia in the United Kingdom. This assumption appears also to be questionable. For one, the change in the dutiable status of the various imports (including canned pears) into the United Kingdom is scheduled to be implemented in four or five stages and is to reach its final stage in 1977 or 1978. Moreover, it is doubtful whether Italy could—even with a tariff advantage—supplant Australia as the major supplier of canned pears to the United Kingdom to a substantial degree. In recent years the United Kingdom has imported an average of 2.9 million cases of canned pears; nearly 50 percent (1.4 million cases) originated in Australia. The current production of canned pears in Italy is about 2.7 million cases annually; its major market, West Germany, takes half (1.3 million cases) and the Italian home market takes from 15 percent to 20 percent (0.4 to 0.5 million cases) of this production. Therefore, it does not seem likely that Italy would be able to supply much more than 0.5 million cases (20 percent of its output) to the U.K. market.

As a matter of fact, some degree of benefit may eventually (by 1977 or 1978) accrue to U.S. producers of canned pears from the elimination of the preferential treatment for Australian pears entering the United Kingdom. For the first time, as far as the applicable tariffs are concerned, U.S. canned pears would be able to compete with Australian canned pears on an equal footing in the U.K. market.

Thus, the bases for a finding of likelihood of injury to a domestic industry by reason of the importation of canned Bartlett pears from Australia sold, or likely to be sold, at less than fair value are unconvincing, and a negative determination in this investigation is required.

**STATEMENT FOR NEGATIVE DETERMINATION OF COMMISSIONER ABLONDI**

I am of the opinion, that, under section 201(a) of the Antidumping Act, 1921, as amended, an industry in the United States is not being or is not likely to be injured, or is not prevented from being established, by reason of sales at less than fair value of Bartlett pears imported from Australia.

By order of the Commission.

KENNETH R. MASON,  
Secretary.

[AA1921-116]

**IMPRESSION FABRIC OF MAN-MADE FIBER FROM JAPAN**

**Notice of Investigation and Hearing**

Having received advice from the Treasury Department on February 13,

<sup>1</sup> Australian canned pears enter the United Kingdom duty free.

1973, that impression fabric of man-made fiber from Japan is being, or is likely to be, sold at less than fair value, the U.S. Tariff Commission has instituted investigation No. AA1921-116 under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

**Hearing.** A public hearing in connection with the investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, Eighth and E Streets, NW., Washington, D.C., beginning at 10 a.m., e.s.t. on Tuesday, April 3, 1973. All parties will be given an opportunity to be present, to produce evidence, and to be heard at such hearing. Requests to appear at the public hearing should be received by the Secretary of the Tariff Commission, in writing, at its office in Washington, D.C., not later than noon, Thursday, March 29, 1973.

Issued: March 1, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,  
Secretary.

[FR Doc 73-4310 Filed 3-6-73; 8:45 am]

[AA1921-111]

**ROLLER CHAIN, OTHER THAN BICYCLE, FROM JAPAN**

**Determination of Injury**

MARCH 1, 1973.

The Treasury Department advised the Tariff Commission on November 30, 1972, that roller chain, other than bicycle, from Japan is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160(a)), the Tariff Commission instituted investigation No. AA1921-111 to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

A public hearing was held on January 23, 1973. Notice of the investigation and hearing was published in the FEDERAL REGISTER of December 8, 1972 (37 FR 26169).

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the investigation, the Commission has determined that an industry in the United States is being injured by reason of the importation of roller chain, other than bicycle, from Japan covered by the aforementioned

<sup>1</sup> Commissioner Young did not participate in the decision.

less-than-fair value determination of the Treasury Department.<sup>2</sup>

#### STATEMENT OF REASONS

The Antidumping Act, 1921, as amended, requires that the Tariff Commission find two conditions satisfied before an affirmative determination can be made.

First, there must be injury, or likelihood of injury, to an industry in the United States, or an industry in the United States must be prevented from being established. Second, such injury (or likelihood of injury or prevention of establishment of an industry) must be "by reason of" the importation into the United States of the class or kind of foreign merchandise the Secretary of the Treasury determined is being, or is likely to be, sold at less than fair value (LTFV).

In our judgment the aforementioned conditions are satisfied in the instant case. Accordingly, we have made an affirmative determination—that an industry in the United States is being injured by reason of imports of roller chain, other than bicycle, from Japan sold at less than fair value. Our determination is based primarily on the following considerations:

**Market penetration.** The Treasury Department's investigation covered imports by one Japanese firm over a period of 2½ months and imports entered by four other Japanese firms over a period of 7 months. The investigation showed that three of the five firms investigated made sales at LTFV; imports entered by a number of other firms that accounted for about 40 percent of Japanese roller chain exports to the United States were not investigated. Of the total roller chain imports entered by the five companies investigated, 30 percent were found by Treasury to have been sold at LTFV. These LTFV sales were the equivalent of 20 percent of all of the roller chain imported from Japan on an annual basis in 1971. We find that the price advantage afforded by such sales in the United States at LTFV enabled Japanese importers to make substantial inroads into an already declining market. In addition, such sales occurring as they did during a period of rapidly rising costs and during which the market was being increasingly supplied by imports—the import share increased from 13 percent in 1966 to 31 percent in the first 9 months of 1972—the impact of the LTFV imports was severe. Moreover, in specific markets which were targeted by Japanese roller chain

<sup>2</sup> Vice Chairman Parker's determination is limited to the importation of roller chain from the 3 Japanese concerns found by the Secretary of the Treasury to have been making sales at less than fair value.

<sup>3</sup> We have determined that a domestic industry injured by the LTFV imports herein considered consists of all facilities in the United States used in the production of roller chain. In 1971, roller chain was produced by 7 firms operating 9 plants in the United States. All of the domestic firms produced the sizes of roller chain imported from Japan and sold at less than fair value.

producers, particularly the agricultural Original Equipment Manufacturers (OEM) market which traditionally has accounted for about one-fifth of U.S. consumption of roller chain, penetration by imports from Japan reached an estimated 40 percent of consumption in 1971. The inroads into this market are a direct result of leverage gained by sales at LTFV.

**Price depression.** The price level for roller chain in the U.S. market was depressed during recent years, especially during the 1971-72 period of the Treasury investigation of LTFV imports from Japan. Domestic prices for roller chain were forced down in order to meet the competition of the Japanese product, especially in popular, fast-moving sizes, but the differentials between United States and LTFV Japanese prices were so great (in some instances as high as 49 percent on high-volume sizes) that despite these price reductions, the Commission was able to verify that many sales were lost by domestic producers, and that many of the sales made by domestic producers were negotiated only at considerably reduced prices.

The price differential between domestic and LTFV Japanese roller chain was clearly evidenced by data submitted to the Commission by OEM purchasers, importers, and domestic producers on sales that occurred during the period of the Treasury investigation of LTFV imports of Japanese roller chain. This substantial price differential favoring LTFV Japanese chain resulted in depressed prices and reduced profits for the domestic industry.

**Profitability.** During 1970-72, the domestic industry remained profitable, although at slightly reduced margins. The profitability of individual firms during this period, however, was adversely affected as a result of lost sales and of reduced profits on sales of many fast-moving, high-volume sizes of roller chain. The reduced profitability of these firms was a direct result of the depression of the price level by widespread sales of Japanese chain at LTFV prices in the domestic market.

**Conclusion.** On the basis of the foregoing, we conclude that an industry in the United States is being injured by reason of imports of roller chain, other than bicycle, from Japan sold at less than fair value.

By order of the Commission.

[SEAL] KENNETH R. MASON,  
Secretary.

[AA1921-115]

#### SYNTHETIC METHIONINE

##### Rescheduling of Hearing Date

Notice is hereby given that the hearing in Investigation No. AA1921-115, scheduled to be held in the Tariff Commission's Hearing Room, Tariff Commission Building, Eighth and E Streets

NW., Washington, DC, beginning at 10 a.m., (e.s.t.), on April 10, 1973, has been rescheduled for 10 a.m. (e.s.t.), on April 19, 1973. Requests to appear at the public hearing should be received by the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., not later than noon, Friday, April 13, 1973.

The hearing is being held in connection with a Commission investigation under the provisions of section 201(a) of the Antidumping Act, 1921, as amended, to determine whether an industry in the United States is being or is likely to be injured, or is being prevented from being established, by reason of the importation of synthetic methionine from Japan which the Assistant Secretary of the Treasury has determined is being, or is likely to be sold, at less than fair value. Notice of the investigation was published in the FEDERAL REGISTER of February 26, 1973 (38 FR 5212).

Issued: March 3, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,  
Secretary.

#### DEPARTMENT OF LABOR Occupational Safety and Health Administration

##### ARIZONA DEVELOPMENTAL PLAN Submission of Plan and Availability for Public Comment

1. **Submission and description of plan.** Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) and § 1902.11 of Title 29, CFR, notice is hereby given that an Occupational Safety and Health Plan for the State of Arizona has been submitted to the Assistant Secretary of Labor for Occupational Safety and Health for approval. A preliminary examination of the plan raises serious questions involving its enforcement features that put in issue not only the approval but possible disapproval of the plan. The questions are discussed below in this numbered paragraph. In order to insure that the public has an opportunity to discuss these questions and to identify and discuss any additional questions, interested persons are hereby invited to submit in writing data, views, and arguments on the plan within the time provided under paragraph No. 3 of this notice.

The plan identifies the Industrial Commission of Arizona as the State agency designated by the Governor of the State to administer the plan throughout the State. It further creates a Division of Occupational Safety and Health within the Commission. The plan defines the covered occupational safety and health issues as defined by the Secretary of Labor in 29 CFR 1902.2(c) (1).

Although Arizona has enacted enabling legislation, the Arizona Occupational Safety and Health Act of 1972, A.R.S. 23-401 et seq., the plan is still developmental; that is, steps remain which are in-

tended to make the plan as effective as the Federal program. The plan includes proposed amendments to this legislation and a 3-year developmental schedule before becoming fully operational. The amendments are accompanied by a statement of the Governor's support and a legal opinion that they meet the requirements of the Occupational Safety and Health Act of 1970 and are consistent with the laws and constitution of Arizona.

The plan asserts that upon enactment of the legislative amendments and upon culmination of the developmental period, the Arizona occupational safety and health program will comply with all the requirements of section 18 of the Occupational Safety and Health Act of 1970 and 29 CFR Part 1902.

The preliminary examination of the plan indicates that in its enforcement provisions there is no distinction between serious and nonserious violations and that "first instance" sanctions (i.e. the assessment of sanctions for first violations) are available only in situations involving imminent danger to employees. Public comments are particularly invited to these features of the plan.

2. **Location of plan for inspection and copying.** A copy of the plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, Occupational Safety and Health Administration, Room 305, Railway Labor Building, Washington, D.C. 20210; Regional Administrator, Occupational Safety and Health Administration, 9470 Federal Building, 450 Golden Gate Avenue, Box 36017, San Francisco, CA 94102; and the Arizona Industrial Commission, 1601 West Jefferson Street (Post Office Box 1907, 85005), Phoenix, AZ 85007. Copies of the plan may be obtained at the expense of the person(s) requesting the copies.

3. **Public participation.** Interested persons are hereby given until April 6, 1973, in which to submit to the Assistant Secretary written data, views, and arguments concerning the plan. The submissions are to be addressed to the Director, Office of Federal and State Operations, Room 305, Railway Labor Building, Washington, D.C. 20210. The written comments will be available for public inspection and copying, at the expense of the person(s) requesting such copies, at the above addresses.

Any interested person(s) may request an informal hearing concerning the proposed plan, or any part thereof, whenever particularized written objections thereto are filed by April 6, 1973. If the Assistant Secretary finds that substantial objections are filed, he shall hold a formal or informal hearing on the subjects and issues relating to approval or disapproval of the plan.

The Assistant Secretary of Labor for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented and issue his decision as to approval or disapproval of the plan.

Signed at Washington, D.C., this 2d day of March 1973.

CHAIN ROBBINS,  
Acting Assistant  
Secretary of Labor.

[FR Doc. 73-4373 Filed 3-6-73; 8:45 am]

##### MISSOURI DEVELOPMENTAL PLAN Submission of Plan and Availability for Public Comment

1. **Submission and description of plan.** Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) and § 1902.11 of Title 29, Code of Federal Regulations, notice is hereby given that an Occupational Safety and Health Plan for the State of Missouri has been submitted to the Assistant Secretary of Labor for Occupational Safety and Health. The Assistant Secretary has preliminarily reviewed the plan, and hereby gives notice that the question of the approval of the plan is in issue before him.

The plan designates the Division of Industrial Inspection as the agency to be responsible for administering the plan throughout the State. It proposes to define the occupational safety and health issues covered by it as defined by the Secretary of Labor in 29 CFR 1902.2(c) (1). The Division of Industrial Inspection is to have full authority to administer and to enforce occupational safety and health laws applicable to all employees within the State with the exception of domestic servants, clergymen and other participants in religious services, self-employed agricultural workers and their immediate families, employees of the United States, employees whose safety and health are subject to protection under the Atomic Energy Act of 1954, 45 U.S.C. 431, and the Longshoremen's Health and Safety Act of 1969, 30 U.S.C. 801, the Federal Metal and Nonmetallic Mine Safety Act, 30 U.S.C. 721, the Federal Safety Appliances Act, 45 U.S.C. 1, the Federal Railroad Safety Act of 1970, 45 U.S.C. 431, and the Longshoremen's and Harbor Worker's Compensation Act, 33 U.S.C. 901.

Implementation of the plan is dependent upon enactment of the Missouri Occupational Safety and Health Act of 1973 which is presently being considered by the 1973 session of the Missouri General Assembly. The proposed legislation is accompanied by a statement of legal opinion that it will meet the requirements of the Federal Act and that it is consistent with the constitution and other laws of the State of Missouri. The legislation is intended to meet the requirements of Part 1902 of the regulations of the Occupational Safety and Health Administration of the United States Department of Labor.

Within the proposed Act are provisions relating to the authority of the Director of the Division of Industrial Inspection to inspect workplaces including inspections in response to employee complaints with employees having the right to request an informal review of any refusal

to issue a citation with respect to an alleged violation; the right of both a representative of the employer and the employees to consult with or accompany inspectors during an inspection; and a prohibition of advance notice of such inspections. The legislation also contains sanctions against employers for violation of standards and abatement orders with employers having the right of review of such alleged violations, abatement periods and proposed penalties, and employees having the opportunity to participate in such review proceedings.

The legislation also includes provisions relating to the granting of variances; the promulgation of temporary emergency standards; the prompt restraint of imminent danger situations; the requirement of employer recordkeeping and reporting; the protection of employees against new and unforeseen hazards; the protection of employees against discharge or discrimination in terms and conditions of employment; and the safeguarding of trade secrets.

The plan is developmental within the terms of 29 CFR 1902.2(b) and there is set forth in it anticipated target dates for bringing the various provisions of the plan into full conformity with the criteria of 29 CFR Part 1902 within the required 3-year period. Also appearing in the plan are a comprehensive description of the resources to be allocated to it and a description of the States' merit system of personnel.

2. **Location of plan for inspection and copying.** A copy of the plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, Occupational Safety and Health Administration, Room 305, Railway Labor Building, 400 First Street NW, Washington, DC 20210; Regional Administrator, Occupational Safety and Health Administration, Department of Labor, 823 Walnut Street, Waltham Building, Room 300, Kansas City, MO 64106; and the Department of Labor and Industrial Relations, 1904 Missouri Boulevard, Jefferson City, MO 65101. Copies of the plan may be obtained at the expense of the person(s) requesting the copies.

3. **Public participation.** Interested persons are hereby given until April 6, 1973, in which to submit to the Assistant Secretary written data, views, and arguments concerning the plan. The submissions are to be addressed to the Director, Office of Federal and State Operations, Occupational Safety and Health Administration, Railway Labor Building, Room 305, U.S. Department of Labor, Washington, D.C. 20210. The written comments will be available for public inspection and copying, at the expense of the person(s) requesting such copies, at the above address.

Any interested person(s) may request an informal hearing concerning the proposed plan, or any part thereof, whenever particularized written objections thereto are filed by April 6, 1973. If the Assistant Secretary finds that substantial objections are filed, he shall hold a

formal or informal hearing on the subjects and issues involved.

The Assistant Secretary of Labor for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented and issue his decision as to approval or disapproval of the plan.

Signed at Washington, D.C., this 1st day of March 1973.

CHAIN ROBBINS,  
Acting Assistant  
Secretary of Labor.

## INTERSTATE COMMERCE COMMISSION

[Notice 192]

### ASSIGNMENT OF HEARINGS

MARCH 2, 1973.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 136974, Checker Transfer & Storage Co., now assigned April 2, 1973, will be held in Room 709, South Carolina Public Service Commission, Owen Building, 1321 Lady Street, Columbia, SC.

MC 115162 Sub 212, Poole Truck Line, Inc., continued to March 26, 1973 (1 week), in Room 208, Federal Building, 51 SW First Avenue, Miami, FL.

AB 8 Sub 2, Denver & Rio Grande Western Railroad Co., abandonment between Montrose and Ridgeway, Montrose and Ouray Counties, Colo., now assigned March 26, 1973, will be held at the Council Chambers, City Hall, 433 South First Street, Montrose, Colo.

MC-133276 Sub 7, Berry Transport, Inc., now assigned March 26, 1973, will be held on sixth floor, Highway Licenses Bureau, 12th and Washington Street, Olympia, Wash.

MC-136790, Hall Distributors Ltd., now assigned March 14, 1973, will be held on the sixth floor, Highway Licenses Bureau, 12th and Washington Street, Olympia, Wash.

MC 7-11590, North Park Transportation Co.—Purchase—Clarence Shaw, DBA Saratoga Truck Line (Mary Alice Sjoden, executrix), now assigned March 29, 1973, will be held in Room 262, New Customs House, 19th and Stout Street, Denver, Colo.

MC 123004 Sub 2, The Luper Transportation Company, now assigned April 2, 1973, MC 117119, Sub 463, Willis Shaw Frozen Express, Inc., now assigned April 5, 1973, will be held in Room 666, New Federal Building, 601 East 12th Street, Kansas City, Mo.

## NOTICES

MC 111424 Sub 4, Shippers Truck Service, Inc., now assigned April 9, 1973, at New York, N.Y., is postponed indefinitely.

[SEAL] ROBERT L. OSWALD,  
Secretary.

No. MC 117565 (Sub-No. 34) (Republication), filed October 1, 1970, published in the FEDERAL REGISTER issue of October 22, 1970, and republished this issue. Applicant: MOTOR SERVICE COMPANY, INC., 237 South Fifth Street, Coshocton, OH 43812. Applicant's representative: Louis J. Amato, Post Office Box E, Bowling Green, Ky. 42101. A decision and order of the Commission, Review Board No. 3, dated January 23, 1973, and served February 2, 1973, finds that operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, (1) of all-terrain vehicles and parts, accessories, and attachments therefor, from points in Huron County, Ohio, to points in the United States (except Hawaii); (2) of trailers designed to be drawn by passenger automobiles, in initial movements, from Mason, Ohio, to points in Michigan, Indiana, Kentucky, West Virginia, and Pennsylvania; and (3) of utility trailers designed to be drawn by passenger automobiles, in initial movements, from points in Mahaska County, Iowa, to points in the United States (except Hawaii), will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service

<sup>1</sup> Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 121659 (Sub-No. 3) (Republication), filed December 19, 1972, State Docket published in the FEDERAL REGISTER issue of September 20, 1972, and republished this issue. Applicant: ALLISON-LOGAN FREIGHT LINES, INC., 106 West High Street, Post Office Box 724, Terrell, TX 75160. By order of the Commission, Operating Rights Board, dated February 6, 1973, and served February 15, 1973, finds applicant entitled to a Certificate of Registration solely within the State of Texas, as a motor common carrier, pursuant to that portion of Certificate of Convenience and Necessity No. 4354, authorized by order dated November 28, 1972, issued by the Railroad Commission of Texas, as follows: General commodities: The proposed routes will be State Highway 34 from Terrell, Tex., to Quinlan, Tex., thence State Highway 34 at the intersection of FM Road 35 to the intersection of FM Road 35 and FM Road 513 and then FM Road 35 and FM Road 47 to connect with existing authority, serving all intermediate points, returning over the same routes. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a Certificate of Registration in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 136305 (Sub-No. 2) (Republication), filed March 20, 1972, published in the FEDERAL REGISTER issue of April 20, 1972, and republished this issue. Applicant: GAIL CISELL and ALICE CISELL, a partnership, doing business as CISELL TRANSFER & STORAGE CO., 112 East Railroad Avenue, Portales, NM 88130. Applicant's representative: Edwin E. Piper, Jr., 715 Simms Building, Albuquerque, N. Mex. 87107. A supplemental order of the Commission, Operating Rights Board, dated December 14, 1972, and served January 8, 1973, finds

that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of used household goods, between points in Curry, DeBaca, Guadalupe, Quay, and Roosevelt Counties, N. Mex., and Bailey and Farmer Counties, Tex.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

#### MOTOR CARRIER OF PASSENGERS

No. MC 130171 (Republication), filed July 10, 1972, published in the FEDERAL REGISTER issue of July 17, 1972, and republished this issue. Applicant: AUTOMOBILE CLUB OF MISSOURI, 3917 Lindell Boulevard, St. Louis, MO 63108. Applicant's representative: Gregory M. Rebman, Suite 1230, Boatmen's Bank Building, St. Louis, Mo. 63102. An order of the Commission, Operating Rights Board, dated January 22, 1973, and served February 14, 1973, finds that operation by applicant at St. Louis and Kansas City, Mo., as a broker in arranging for transportation by motor vehicle, in interstate or foreign commerce, of passengers and their baggage, in all expense round-trip tours, in special and charter operations beginning and ending in St. Louis and Kansas City, Mo., on the one hand, and, on the other, points in the United States, including Alaska and Hawaii, will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a license in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 135392 (Republication), filed March 3, 1971, published in the FEDERAL REGISTER issue of June 24, 1971, and

republished this issue. Applicant: IRON RANGE BUS LINES LIMITED, 329 John Street, Thunder Bay "P", Ontario, Canada. Applicant's representative: John W. Erickson, 17A South Cumberland Street, Thunder Bay "P", Ontario, Canada. A supplemental order of the Commission, Operating Rights Board, dated January 22, 1973, and served February 8, 1973, finds that the present and future public convenience and necessity require operation by applicant, in foreign commerce, as a common carrier by motor vehicle, over irregular routes, of passengers and their baggage, in the same vehicle with passengers, in charter operations, in round trip sightseeing and pleasure tours beginning and ending at ports of entry on the international boundary line between the United States and Canada, located in Michigan and Minnesota, and extending to points in Minnesota and Wisconsin; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

#### NOTICE FOR FILING PETITIONS

No. MC 21866 (Sub-No. 61) (notice of filing of petition for modification of commodity description in a certificate), filed January 26, 1973. Petitioner: WEST MOTOR FREIGHT, INC., 740 South Reading Avenue, Boyertown, PA 19512. Petitioner's representative: Alan Kahn, Suite 1920, 2 Penn Center Plaza, Philadelphia, Pa. 19102. Petitioner presently holds a motor common carrier certificate on No. MC 21866 (Sub-No. 61), issued August 25, 1967, and authorizing, as pertinent, the transportation of: *Iron and steel, and equipment used or useful in the erection thereof*, between Pottstown, Pa., on the one hand, and, on the other, points in Massachusetts, Connecticut, New York, New Jersey, Delaware, Maryland, Virginia, and the District of Columbia. By the instant petition, petitioner seeks to modify the commodity description to read: *"Iron and steel articles, and equipment used or useful in the erection thereof."* Any person or persons desiring to participate may file an original and six copies of his written representations, views, and arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 118722 (Sub-Nos. 2 and 3) (notice of filing of petition for removal of plantsite restrictions), filed February

12, 1973. Petitioner: FRIGID EXPRESS, INC., 396 Henderson Street, Jersey City, NJ 07302. Petitioner's representative: Charles J. Williams, 47 Lincoln Park, Newark, NJ 07102. Petitioner presently holds motor common carrier certificates in No. MC-118722 (Sub-Nos. 2 and 3) issued November 26, 1965, and September 21, 1966, respectively, authorizing operations over irregular routes of: (1) In Sub-No. 2—*Prepared frozen foods*, from (origin) the plantsite of Gretchen Grant Kitchens, Inc., at Jersey City, N.J., and (2) *frozen poultry, fish, and shellfish*, when moving in the same vehicle with prepared frozen foods from the plantsite of Gretchen Grant Kitchens, Inc., at Jersey City, N.J., from (origin) New York, N.Y., and Jersey City, N.J.; and (3) In Sub-No. 3—*Prepared frozen foods, and frozen poultry, fish, and shellfish*, when moving in the same vehicle and at the same time with prepared foods, from (origin) the storage and warehouse facilities of Durkee Famous Foods, Gretchen Grant Kitchens Division, the Gilden Co., at Jersey City, N.J., and destined in (1), (2), and (3) above to Birmingham, Ala., Athens, Augusta, Macon, and Savannah, Ga., Bloomington, Chicago, East St. Louis, Joliet, Moline, Peoria, Rockford, and Springfield, Ill., Bloomington, Evansville, Fort Wayne, Indianapolis, Lafayette, South Bend, and Terre Haute, Ind., Lexington and Louisville, Ky., New Orleans, La., Ann Arbor, Detroit, Grand Rapids, Jackson, Kalamazoo, and Lansing, Mich., Duluth, Hopkins, Minneapolis, and St. Paul, Minn., Jefferson, Joplin, Kansas City, St. Joseph, St. Louis, and Springfield, Mo., Charlotte, Raleigh, and Winston-Salem, N.C., Akron, Canton, Cincinnati, Cleveland, Columbus, Dayton, Lima, Portsmouth, Springfield, Toledo, and Youngstown, Ohio, Pittsburgh, Pa., Charleston, Columbia, and Spartanburg, S.C., and Baraboo, Eau Claire, Madison, Milwaukee, and Oshkosh, Wis., with no transportation for compensation on return except as otherwise authorized. By the instant petition, petitioner seeks to remove (a) the restrictions "from the plantsite of Gretchen Grant Kitchens, Inc., at Jersey City, N.J." in (1) and (2) above and the restriction "from the storage and warehouse facilities of Durkee Famous Foods, Gretchen Grant Kitchens Division, the Gilden Co., at Jersey City, N.J." from (3) above. Any person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 124211 (Sub-No. 191) (Notice of filing of petition for amendment and reconsideration of an application), filed June 29, 1971, published in the FEDERAL REGISTER issues of July 29, 1971, and as petitioned, on January 17, 1973, and republished with reply and representation information this issue. Petitioner: HILT TRUCK LINE, INC., Post Office Box 988 D.T.S., Omaha, Nebr. 68101. Petitioner's representative: Thomas L. Hilt (same address as applicant). Authority sought

## NOTICES

to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouses* as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Darr, Lincoln, and Norfolk, Nebr., to points in Kentucky. **NOTE:** The purpose of this republication is to indicate the additional origins of Darr and Lincoln, Nebr., and applicant's request for reconsideration of an order of the Commission, Review Board No. 3, filed November 13, 1972, and served November 21, 1972, wherein it stated that the applicant failed to show evidence of its ability to satisfy the shipper's needs. Applicant states that the requested authority can be tacked at points in Nebraska with its existing authority in Sub-Nos. 36 and 121 to serve points in Iowa, Illinois, and Nebraska, and can also be tacked at points in Missouri with the authority it holds in Sub-No. 39 to serve points in Illinois, Kansas, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin. Applicant further states that tacking is unlikely as operations thereunder would be unduly circuitous to the extent that shippers would not want to utilize the services of the applicant. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before April 6, 1973.

No. MC 125985 (Sub-No. 9) (Notice of filing of petition for territorial modification of a certificate), filed February 2, 1973. Petitioner: AUTO DRIVEAWAY COMPANY, a Corporation, 343 South Dearborn Street, Chicago, IL 60604. Petitioner's representative: Daniel B. Johnson, 716 Perpetual Building, 1111 E Street NW., Washington, DC 20004. Petitioner presently holds a motor common carrier certificate in No. MC-125985 (Sub-No. 9) issued December 11, 1972, authorizing the transportation of: *Motor homes, in driveway service, between Oneonta, N.Y., Commerce City, Colo., Middlebury, Ind., Spencer, Wis., Ft. Worth, Tex., Waycross, Ga., Fredericksburg, Va., Forest Grove, Oreg., Hutchinson, Kans., Hialeah, Fla., and Nampa, Idaho, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).* By the instant petition, petitioner seeks modification of its certificate by expanding its territorial authority to read: "Between points in the United States (including Alaska and Hawaii, but excluding points in California), on the one hand, and on the other, points in the United States (except Mount Clemens and Pontiac, Mich.)." Any person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before April 6, 1973.

No. MC 126600 (Notice of Filing of Petition To Add a Shipper), filed January 17, 1973. Petitioner: EHRSAM TRANSPORT, INC., 108 North Factory, Enterprise, Kans. 67441. Petitioner's representative: William P. Keefe (same address as applicant). Petitioner presently holds a permit in No. MC-126600 issued September 12, 1972, authorizing operations as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) *Materials handling and processing equipment, elevator equipment, power transmission equipment, foundry castings, and materials* used in the manufacture of such commodities (except commodities the transportation of which because of their size or weight require the use of special equipment, and except commodities in bulk), between Enterprise, Wichita, and Clay Center, Kans., on the one hand, and, on the other, points in the United States, including, Alaska, but excluding Hawaii, under a continuing contract, or contracts, with Combustion Engineering, Inc., Ehrsam Wichita Foundry, Inc., and Ehrsam, Inc.; (2) *Forest products and lumber products* (except in bulk), and *agricultural commodities* (not including manufactured products thereof) as defined in section 203(b) (6) of the Interstate Commerce Act when transported in the same vehicle and at the same time with forest products and lumber products (except in bulk), from points in Washington, Oregon, Idaho, California, and Arizona, to points in Kansas, Missouri, Oklahoma, and Texas, with no transportation for compensation on return, except as otherwise authorized, under a continuing contract, or contracts, with Combustion Engineering, Inc.; and (3) *Materials handling and processing equipment, elevator equipment, power transmission equipment, foundry castings, and materials* and *supplies* used in the manufacture of such commodities, except in bulk, between Concordia, Kans., on the one hand, and, on the other, points in the United States, and the District of Columbia, except Alaska, Hawaii, and Cushing, Okla., under a continuing contract, or contracts, with Combustion Engineering, Inc. By instant petition, petitioner seeks to add Wichita Brass & Aluminum Foundry at Wichita, Kans. as an additional contracting shipper to its presently held authority as stated in (1), (2), and (3) above. Petitioner has pending a similar petition filed October 18, 1972, and published in the *FEDERAL REGISTER* on November 29, 1972 to add North Central Foundry, Inc. as an additional contracting shipper to its authority as stated herein. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before April 6, 1973.

No. MC 129759 (Sub-No. 2) (Notice of Filing of Petition To Add a Shipper), filed February 7, 1973. Petitioner: TRIANGLE TRUCKING CO., a Corporation, 936 West Carlisle Street, Martins Ferry, OH 43935. Petitioner's representative: A. Charles Teil, 100 East Broad Street, Co-

lumbus, OH 43215. Petitioner presently holds a motor contract carrier permit in No. MC-129759 (Sub-No. 2) issued April 14, 1972, authorizing transportation, over irregular routes by motor vehicle, of: (1) *Pipe, cable, and strip steel*, from Glendale, W. Va., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, and Wisconsin, and the District of Columbia; and (2) *cable, wire, rods, pipe, and pipe fittings and component parts*, from New Brunswick and South Brunswick, N.J., to points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Ohio, West Virginia, and Wisconsin; and (3) *commodities* used in the manufacture and distribution of the commodities named in (1) and (2) above (except commodities in bulk), from points in the destination States named in (1) and (2) above, to Glendale, W. Va., and New Brunswick and South Brunswick, N.J., restricted in (1), (2), and (3) above against the transportation of shipments originating at points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and New Jersey destined to New Brunswick and South Brunswick, N.J., and limited to a transportation service to be conducted under a continuing contract, or contracts, with Triangle Conduit & Cable Co., Inc., of Glendale, W. Va., and Triangle-Price Co. of South Brunswick, N.J. By the instant petition, petitioner seeks to add Triangle Pipe & Tube Co., Inc., of Glendale, W. Va., as a contracting shipper. Petitioner further indicates that Triangle Pipe & Tube Co., Inc., has been formed through the corporate reorganization of Triangle Conduit & Cable Co., Inc. Any person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before April 6, 1973.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATION UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE.

No. MC 52938 (Sub-No. 9), filed January 23, 1973. Applicant: MASHKIN FREIGHT LINES, INC., 115 Park Avenue, East Hartford, CT 06108. Applicant's representative: Hugh M. Joseloff, 410 Asylum Street, Hartford, CT 06103. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities* (except household goods as defined by the Commission, office furniture and equipment, and commodities which require the use of dump and tank trucks or special equipment), between points in Connecticut. **NOTE:** This application is a matter directly related to a purchase proceeding in No. MC-F-11790 published in the *FEDERAL REGISTER* issue of February 14, 1973. Applicant states that the requested authority can be tacked at points in Fairfield and New Haven Counties, Conn. to provide a through service between New York, N.Y. and other Con-

necticut counties. If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn. or Washington, D.C.

No. MC 138416, filed February 22, 1973. Applicant: MISSISSIPPI FREIGHT LINES, INC., 1720 Central Avenue, Memphis, TN 38104. Applicant's representative: A. Alvis Layne, 915 Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a common carrier, by motor vehicle, over regular and irregular routes, transporting: *Regular routes: General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Forest and Jackson, Miss., from Forest over U.S. Highway 80 to Jackson, and return over the same route, serving all intermediate points and the U.S. Navy jet base near Lauderdale, Miss., as an off-route point. *Irregular routes: General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Forest, Miss., and points within a 25-mile radius of Forest, and (2) between Forest and Meridian, Miss. **NOTE:** The instant application is a matter directly related to MC-F 11750 published in the *FEDERAL REGISTER* issue of December 26, 1972. Common control may be involved. Applicant states that the requested irregular route authority can be joined at Carthage, Forest, and Union, Miss., and may also be tacked with other authority. Applicant is currently seeking in the purchase of a Certificate of Registration in MC-F 11750 to provide service to points in Mississippi. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

## MOTOR CARRIERS OF PROPERTY

No. MC-F-11802. Authority sought for purchase by WEST COAST TRUCK LINES, INC., Post Office Box 668, Coos Bay, OR 97420, of a portion of the operating rights of OREGON TRANSFER CO., 3232 Northwest Industrial, Portland, OR 97210, and for acquisition by E. P. BARTON, also of Coos Bay, Oreg. 97420, of control of such rights through the purchase. Applicants' attorney: John G. McLaughlin, 100 Southwest Market Street, 620 Blue Cross Building, Portland, OR 97201. Operating rights sought to be transferred: *Commodities*, the transportation of which, by reason of size or weight, requires the use of special equipment; and of *related machinery parts and related contractor's materials and supplies* when their transportation is incidental to the transportation of the

## NOTICES

commodities authorized above, as a common carrier over irregular routes, between points in Oregon and Washington. Vendee is authorized to operate as a common carrier in California, Oregon, and Washington. Application has been filed for temporary authority under section 210a(b).

No. MC-F-11803. Authority sought for purchase by F-B TRUCK LINE COMPANY, 1891 West 2100 South, Salt Lake City, UT 84119, of a portion of the operating rights of B-LINE TRANSPORT CO., INC., East 7100 Broadway, Spokane, WA 99213, and for acquisition by MERLIN J. NORTON, also of Salt Lake City, Utah 84119, of control of such rights through the purchase. Applicants' representative: David J. Lister, 1891 West 2100 South, Salt Lake City, UT 84119. Operating rights sought to be transferred: *Heavy machinery, structural steel, culverts, pipe, and construction and building materials and equipment*, as a common carrier over irregular routes, between points in Washington, that part of Oregon on and north of the 44th parallel, that part of Montana on and west of a direct north and south line extending from the northwest corner of Wyoming to the boundary of the United States and Canada, and those in boundary, Bonner, Kootenai, Benewah, Shoshone, Latah, Nez Perce, Clearwater, Lewis, Idaho, Adams, Washington, Valley, Payette, Gem, Boise, Custer, Ada, Canyon, and Elmore Counties, Idaho; *commodities*, the transportation of which, by reason of size or weight, requires the use of special equipment; and of *related machinery parts and related contractor's materials and supplies* when their transportation is incidental to the transportation of the commodities authorized above, between points in Washington, that part of Oregon on and north of the 44th parallel, that part of Montana on and west of a direct north and south line extending from the northwest corner of Wyoming to the boundary of the United States and Canada, and those in Boundary, Bonner, Kootenai, Benewah, Shoshone, Latah, Nez Perce, Clearwater, Lewis, Idaho, Adams, Washington, Valley, Payette, Gem, Boise, Custer, Ada, Canyon, and Elmore Counties, Idaho. Vendee is authorized to operate as a common carrier in Idaho, Utah, Montana, California, Oregon, Washington, Colorado, Nevada, Wyoming, Arizona, and New Mexico. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11804. Authority sought for control and merger by DALLAS & MAVIS, INC., a noncarrier, 4200 39th Avenue, Kenosha, WI 53140, of the operating rights and property of DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, IN 46627, and for acquisition by JUPITER TRANSPORTATION COMPANY 400 East Randolph Street, Chicago, IL 60601, of control of such rights and property through the transaction. Applicants' attorneys: Jack Goodman, 39 South La Salle Street, Chicago, IL 60603, Charles Pieroni, 4000 West Sample Street, South Bend, IN 46627, Friedman & Koven, 208 South La

Salle Street, Chicago, IL 60604, and Paul F. Sullivan, 711 Washington Building, 15th and New York Avenue NW., Washington, DC 20005. Operating rights sought to be controlled and merged: *Specified commodities, primarily, new automobiles, new trucks, new tractors, and new chassis; buses; cranes; shovels, straddle trucks, fork trucks, and building construction, and moving machinery, all self-propelled; lumber; snow plows, spreaders, and leaf and debris collectors, etc., as a common carrier over regular and irregular routes, from, to, and between, all points in the United States, with certain restrictions, as more specifically described in Docket No. MC-29886 and sub-numbers thereunder.* This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating in full, the entirety thereof. DALLAS & MAVIS, INC., holds no authority from this Commission. However it is affiliated with KENOSHA AUTO TRANSPORT CORPORATION, 4200 39th Avenue, Kenosha, WI 53140, which is authorized to operate as a common carrier in all of the States in the United States (except Alaska and Hawaii). Application has not been filed for temporary authority under section 210a(b).

**NOTE:** If the application in No. MC-F-11687—COMMERCIAL CARRIERS, INC.—PURCHASE—PAUL A. MAVIS, is denied, then applicant seeks to purchase the operating rights as follows: *New automobiles*, in initial movements, as a common carrier over irregular routes, from Long Beach, Calif., to points and places in Arizona, New Mexico, Nevada, Oregon, and Utah; *new automobiles and new trucks*, in initial movement, from Maywood, Calif., and points and places within 1 mile thereof, to points and places in Arizona, Nevada, and Oregon; *new automobiles*, in secondary movements, from points and places in California, on San Francisco Bay, to points and places in California, except Long Beach, San Pedro, and Wilmington; *new automobiles and new trucks*, in secondary movements, from Phoenix, Ariz., to Los Angeles, Calif.; *new automobiles, new trucks, and new chassis*, in initial movements, in truckaway service, from San Leandro, Calif., and all points and places within 1 mile of San Leandro except points and places in Oakland, Calif., to points and places in California, Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming; *new trucks, and new chassis*, in initial movements, in driveway service, from the above-specified origin points and places to the destination points and places described immediately above; *new trucks*, in secondary movements, in driveway and truckaway service, from San Leandro, Calif., and points and places within 20 miles thereof, to points and places in the States named above; *new automobiles, new trucks, and new chassis*, in secondary

movements, in truckaway service, from Salt Lake City, Utah, to San Leandro, Calif., and points and places within 20 miles thereof; *automobiles*, in initial movements, in truckaway service, from the site of the plant of the Chrysler Corp. located adjacent to Maywood, Calif., to points in the Los Angeles Harbor commercial zone, as defined by the Commission; and points in Idaho and Washington; *automobiles*, in secondary movements, in truckaway service, from points in the Los Angeles Harbor commercial zone, as defined by the Commission, to points in Los Angeles County, Calif.; *new automobiles*, in secondary movements, by the truckaway method, from Phoenix, Ariz., to a defined area in California; *automobiles, trucks, and buses* (except those which have been repossessed, embezzled, stolen, or wrecked, and except trailers), in secondary movements, in truckaway service from points in Nebraska to points in New Mexico, Arizona, and California, between points in New Mexico, Arizona, and that part of California, south of the northern boundaries of San Luis Obispo, Kern, and San Bernardino Counties, Calif.; *automobiles*, (except used automobiles, and except repossessed, embezzled, stolen or wrecked automobiles), in secondary movements, in truckaway services, from Sacramento, Calif., to points in Arizona and New Mexico, with restriction; *new and used motor vehicles* (except trailers), in secondary movements, in truckaway service, between points in Arizona, New Mexico, Nevada, and Utah (except shipments from Phoenix, Ariz.), with restriction, from Phoenix, Ariz., to points in Arizona, New Mexico, Nevada, and Utah; *automobiles and trucks*, in initial movements, in truckaway service, from the plantsite of Chrysler Corp., in Maywood, Calif., to Farwell, Tex., and points in New Mexico, from Maywood, Calif., to points in Montana; *motor vehicles* (except trailers, trucks, imported motor vehicles, and used motor vehicles which have been repossessed, embezzled, stolen, or damaged), in secondary movements, in truckaway service, between points in Nevada and points in that part of California south of the northern boundaries of San Luis Obispo, Kern, and San Bernardino Counties, Calif., with restriction.

No. MC-F-11805. Authority sought for control by QUICK AIR FREIGHT, INC., Port Columbus Cargo Building, Columbus, Ohio 43219, of VANDALIA AIR FREIGHT, INC., Dayton Municipal Airport, Vandalia, Ohio 45377, and for acquisition by UNITED TRANSPORTATION, INC., 525 Kennedy Drive, Columbus, OH 43215, and, in turn, by RONALD KAUFFMAN, Port Columbus Cargo Building, Columbus, Ohio 43219, of control of VANDALIA AIR FREIGHT, INC., through the acquisition by QUICK AIR FREIGHT, INC. Applicants' attorney: James R. Stivers, 50 West Broad Street, Columbus, OH 43215. Operating rights sought to be controlled: Under a certificate of registration, in Docket No. MC-120265 (Sub-No. 1), covering the transportation of property, as a common carrier, in interstate commerce,

within the State of Ohio. Quick Air Freight, Inc., is authorized to operate as a common carrier in Ohio, Illinois, Indiana, Michigan, New York, Pennsylvania, Kentucky, and West Virginia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11806. Authority sought for purchase by Hagen, Inc., 4120 Floyd Boulevard, Sioux City, IA 51108, of the operating rights and property of Wincoma, Inc., Sun Prairie, Wis. 53590, and for acquisition by Fred Hagen, also of Sioux City, Iowa 51108, of control of such rights and property through the purchase. Applicants' attorney: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Operating rights sought to be transferred: *Meats, meat products, and meat byproducts*, and *articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 MCC 209 and 766, and *dairy products*, except commodities in bulk, in tank vehicles, as a common carrier over irregular routes, from points in Wisconsin, and from Minneapolis, Minn., to points in Kansas, Missouri, Iowa, Nebraska, Oklahoma, and Arkansas, and to East St. Louis, Ill.; *such commodities* as are dealt in by retail gift and curio shops, from Monroe, Wis., to points in Arkansas, Iowa, Kansas, Missouri, Nebraska, Oklahoma, and East St. Louis, Ill.; *cheese and cheese products*, from the plantsite and warehouse facilities utilized by the Paul Cheese Co., at Green Bay, Wis., to points in South Dakota; *fresh meats and food products*, from the plantsite and warehouse facilities utilized by Purdy Steak Corp. at or near Cudahy, Wis., to points in Minnesota, North Dakota, South Dakota, and Colorado, with restriction; *dairy products*, from Clinton, Iowa, to points in Colorado, Iowa, Nebraska, Kansas, Missouri, and North Dakota, from Green Bay and LaCrosse, Wis., to points in Colorado and North Dakota. Vendee is authorized to operate as a common carrier in Illinois, Iowa, Minnesota, Montana, Nebraska, North Dakota, Wisconsin, Wyoming, South Dakota, Idaho, Oregon, Missouri, Indiana, Kansas, Michigan, Utah, Arizona, California, Colorado, Washington, Nevada, New Mexico, Ohio, Kentucky, North Carolina, South Carolina, Alabama, Georgia, Louisiana, Mississippi, Texas, and Tennessee. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11807. Authority sought for control by S. R. Bowen, a noncarrier, 219 North Jackson, Mason City, IA 50401, of Seco, Inc., also of Mason City, IA 50401. Applicants' attorney: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Operating rights sought to be controlled: In Docket No. MC-135109 (Sub-No. 1 TA), drugs, in containers, for the account of ICI America, Inc., successor in interest to Atlas Chemical Industries, Inc., as a contract carrier, over irregular routes, from the plantsite of ICI America, Inc. at or near Newark, Del., to the warehouse utilized by said shipper at Chicago,

Ill., Dallas, Tex., Memphis, Tenn., and St. Louis, Mo. S. R. Bowen, holds no authority from this Commission. However, he is affiliated with Seco Trucking Co., Inc., 219 North Jackson Avenue, Mason City, IA 50401, which is authorized to operate as a contract carrier in Pennsylvania, Illinois, Missouri, Iowa, Nebraska, South Dakota, Minnesota, Michigan, North Dakota, Wisconsin, Oklahoma, Kansas, Arkansas, Indiana, Ohio, Louisiana, New Mexico, Texas, and Arizona. Application has not been filed for temporary authority under section 210a(b).

NOTE: In pending Docket No. MC-135109 a corresponding permanent application has been filed.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

#### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MARCH 1, 1973.

The following are notices of filing of applications<sup>1</sup> for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field office named in the FEDERAL REGISTER publication, on or before March 22, 1973. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

#### MOTOR CARRIERS OF PROPERTY

No. MC 14552 (Sub-No. 47 TA), filed February 21, 1973. Applicant: J. V. McNICHOLAS TRANSFER COMPANY, 555 West Federal Street, Youngstown, OH 44502. Applicant's representative: Paul F. Beery, 88 East Broad Street, Columbus, OH 43215. Note: Applicant intends to tack with its present authority and to interline with other carriers. Tacking will occur at Knoxville, Tenn., Charlotte, N.C., and Chattanooga, Tenn. Supporting shipper: The Southwestern Co., 2968 Foster Creighton Drive, Post Office Box 11379, Nashville, TN 37211.

Send protests to: Robert W. Waldron, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 10-502 Federal Building, 400 North Eighth Street, Richmond, VA 23240.

No. MC 109612 (Sub-No. 33 TA), filed February 20, 1973. Applicant: LEE MOTOR LINES, INC., Post Office Box 728, Muncie, IN 47305. Applicant's representative: Donald W. Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers and closures therefor*, from the plantsite of Midland Glass Co., Inc., at Terre Haute, Ind., to the plantsite of Schlitz Brewing Co., Inc., at Memphis, Tenn., for 180 days. Note: Applicant does intend to tack. Supporting shipper: Midland Glass Co., Inc., Cliffwood, N.J. Send protests to: District Supervisor J. H. Gray, Bureau of Operations, Interstate Commerce Commission, 345 West Wayne Street, Room 204, Fort Wayne, IN 46802.

No. MC 112989 (Sub-No. 28 TA), filed February 23, 1973. Applicant: WEST COAST TRUCK LINES, INC., Post Office Box 668, Coos Bay, OR 97420. Applicant's representative: Jerry R. Woods, 620 Blue Cross Building, Portland, Ore. 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gates and accessories, iron or steel posts, and iron or steel fencing*, from Los Angeles County, Calif., to points in Arizona, Colorado, Nevada, and Utah, for 180 days. Supporting shippers: Master Fence Fittings, Inc., 700 East Lambert Road, Post Office Box 365, La Habra, CA 90631. Send protests to: A. E. Odams, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 113106 (Sub-No. 38 TA), filed February 22, 1973. Applicant: THE BLUE DIAMOND COMPANY, 4401 East Fairmount Avenue, Baltimore, MD 21224. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer, fertilizer materials, and agricultural related chemicals, and seed in containers*, from E. Hempfield Township, Lancaster County, Pa., to points in New York, New Jersey, Delaware, Maryland, and West Virginia, for 180 days. Supporting shipper: Mr. A. S. Corbin, Manager, Transportation Services, Royster Co., Post Office Drawer 1940, Norfolk, VA 23501. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 814-B Federal Building, Baltimore, Md. 21201.

No. MC 114829 (Sub-No. 9 TA), filed February 23, 1973. Applicant: GENERAL CARTAGE COMPANY, INC., Box 417, Sterling, IL 61081. Applicant's representative: Daniel C. Sullivan, 327 South La Salle Street, Chicago, IL 60604. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular

routes, transporting: *Door, door accessories, door parts, and automatic door openers*, from Sterling and Rock Falls, Ill., to points in Iowa, Minnesota, Indiana, Wisconsin, and Omaha, Nebr., for 180 days. Supporting shipper: Mr. J. L. Rutt, Franz Manufacturing Co., 301 West Third Street, Sterling, IL 61081. Send protests to: District Supervisor Richard O. Chandler, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1086, Chicago, IL 60604.

No. MC 117799 (Sub-No. 49 TA), filed February 22, 1973. Applicant: BEST WAY FROZEN EXPRESS, INC., 3033 Excelsior Boulevard, Room 205, Minneapolis, MN 55416. Applicant's representative: K. O. Petrick (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Manufactured mulches* (except in bulk) from Berton and Findlay, Ohio, to points in the United States (except Alaska and Hawaii), for 150 days. Supporting shipper: Environmental Products Corp., 10501 Taconic Terrace, Cincinnati, OH. Send protests to: A. N. Spath, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building and U.S. Court House, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 119726 (Sub-No. 29 TA), filed February 22, 1973. Applicant: N.A.B. TRUCKING CO., INC., Post Office Box 21006, 2502 West Howard Street, Indianapolis, IN 46221. Applicant's representative: James L. Beatty, 130 East Washington Street, Suite 1000, Indianapolis, IN 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty glass containers, caps, covers, and tops*, from Terre Haute, Ind., to Memphis, Tenn., for 180 days. Supporting shipper: Midland Glass Co., Inc., Cliffwood, N.J. Send protests to: District Supervisor James W. Habermehl, Interstate Commerce Commission, Bureau of Operations, 802 Century Building, 36 South Penn St., Indianapolis, IN 46204.

No. MC 124692 (Sub-No. 100 TA), filed February 21, 1973. Applicant: SAMMONS TRUCKING, Post Office Box 1447, Missoula, MT 59801. Applicant's representative: Gene P. Johnson, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fabricated iron and steel articles* (except those requiring special equipment) from the plantsite and warehouse facilities of Tube-Lok Products at Portland, Ore., to the plantsite and warehouse facilities of Tube-Lok Products at Mattoon, Ill., for 180 days. Supporting shipper: Tube-Lok Products, 4644 Southeast 17th Avenue, Portland, OR 97202. Send protests to: Paul J. Labane, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 222 U.S. Post Office Building, Billings, Mont. 59101.

No. MC 127418 (Sub-No. 6 TA) (Correction), filed December 4, 1972, pub-

## NOTICES

lished in the FEDERAL REGISTER issue of December 27, 1972, and republished as corrected this issue. Applicant: TROP-ARCTIC REFRIGERATED SERVICE, INC., Post Office Box 1272, Gainesville, GA 30501. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree Street NW., Atlanta, GA 30309. Note: The purpose of this partial republication is to add Nevada as a destination point in part (1) of the application, which was omitted in error. The rest of the application remains the same.

No. MC 133095 (Sub-No. 37 TA), filed February 26, 1973. Applicant: TEXAS CONTINENTAL EXPRESS, INC., Post Office Box 434, 2603 West Euleas Boulevard, Euless, TX 76039. Applicant's representative: Rocky Moore (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Alcohol and alcoholic beverages, from the plant site and warehouse facilities of Schenley Distillers, Inc., located at Frankfort and Louisville, Ky. and Lawrenceburg, Ind., to Houston, Tex., for 180 days. Supporting shippers: Schenley Distillers, Inc., 38 East Fourth Street, Cincinnati, OH 45202 and Key Distributors, Inc., Post Office Box 303, Houston, TX 77001. Send protests to: H. C. Morrison, Sr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, 9A27 Federal Building, 819 Taylor Street, Fort Worth, TX 76102.

No. MC 133318 (Sub-No. 5 TA), filed February 23, 1973. Applicant: VAN DE HOGEN CARTAGE LIMITED, Route 4, Chatham, Ontario, Canada. Applicant's representative: William J. Hirsch, 35 Court Street, Suite 444, Buffalo, NY. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Building brick, from Corunna, Mich. to ports of entry on the International Boundary line between the United States and Canada on the Detroit and St. Mary's Rivers, for 90 days. Supporting shipper: Windsor Builders Supply Ltd., doing business as Canadian Builders Supply, 2595 Dougall Avenue, Windsor, ON, Canada. Send protests to: District Supervisor Melvin Kirsch, Interstate Commerce Commission, Bureau of Operations, 1110 David Broderick Tower, 10 Witherill Street, Detroit, MI 48226.

No. MC 134631 (Sub-No. 15 TA), filed February 22, 1973. Applicant: SCHULTZ TRANSIT, INC., Post Office Box 503, 323 Bridge Street, Winona, MN 55987. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: General commodities, from Winona, Minn., to points in the United States (except Alaska and Hawaii), for 180 days. Supporting shipper: Watkins Products, Inc., 150 Liberty Street, Winona, MN 55987. Send protests to: A. N. Spath, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building and U.S.

Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 138097 (Sub-No. 1 TA) (Correction), filed October 30, 1972, published in the FEDERAL REGISTER issue of November 21, 1972, and republished as corrected this issue. Applicant: PERCY KAGEL, doing business as KAGEL TRUCKING, 404 Fifth Avenue, Ironton, MN 56455. Applicant's representative: A. R. Fowler, 2288 University Avenue, St. Paul, MN 55114. Note: The purpose of this republication is to add four additional supporting shippers. The additional shippers are: Boundary Forest Products, Inc., Ely, Minn. 55731; Hamdorf Lumber Co., Ironton, Minn. 56455; Kainz Logging Co., Ely, Minn. 55731; and Burns Kneeland Lumber Co., Aitkin, Minn. 56431, which was omitted in previous publication. The rest of the application remains the same.

No. MC 138223 (Sub-No. 3 TA) (Amendment), filed November 20, 1972, published in the FEDERAL REGISTER issue of December 15, 1972, as MC 138210 TA and republished as amended this issue. Applicant: LINE HALL TRANSPORT, INC., 75 West Emerson Avenue, Rahway, NJ 07065. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Such commodities as are dealt in by department stores and supplies and equipment used in the conduct of such business, for the account of Buckeye Mart, between Jersey City, N.J., on the one hand, and, on the other, Columbus, Ohio, for 180 days. Supporting shipper: Buckeye Mart, 3636 Indianola Avenue, Columbus, OH 43214. Send protests to: District Supervisor Robert E. Johnston, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, NJ 07102. Note: The purpose of this republication is to show that applicant now seeks to operate as a contract carrier, in lieu of common carrier, shown in error in the previous publication.

No. MC 138384 (Sub-No. 1 TA), filed February 8, 1973. Applicant: ELWOOD LYNCH, Krafts Trailer Court, Moberly, Mo. 65270. Applicant's representatives: Tom Kretsinger and Warren Sapp, Suite 910 Fairfax Building, 101 West 11th Street, Kansas City, MO 64105. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Malt beverages, from Belleville, Ill., to Moberly, Mo., and empty malt beverage containers, from Moberly, Mo., to Belleville, Ill., for 180 days. Supporting shipper: Hunt Distributing Inc., Moberly, Mo. Send protests to: Vernon V. Coble, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 600 Federal Building, 911 Walnut Street, Kansas City, Mo. 64106.

## MOTOR CARRIER TRANSFER PROCEEDINGS

MARCH 2, 1973.

Application filed for temporary authority under section 210a(b) in connection with transfer application under section 212(b) and Transfer Rules, 49 CFR Part 1132:

No. MC-FC-74322. By application filed February 27, 1973. LEE GODDARD, INC., Post Office Box 803, Bay City, MI 48706, seeks temporary authority to lease the operating rights of BARNEY KOSOF-SKY, doing business as BARNEY'S CARTAGE COMPANY, 4500 Lawton, Detroit, MI, under section 210a(b). The transfer to LEE GODDARD, INC., of the operating rights of BARNEY KOSOF-SKY, doing business as BARNEY'S CARTAGE COMPANY, is presently pending.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc.73-4387 Filed 3-6-73; 8:45 am]

## NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

MARCH 2, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by § 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Texas Docket No. 2627 filed January 5, 1973. Applicant: CENTRAL FREIGHT LINES, INC., 303 South 12th Street, Waco, TX 76703. Applicant's representative: Phillip Robinson, Post Office Box 2207, Austin, TX 78767. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of general commodities, between Longview, Tex., and the site of the Martin Lake Steam Electric Station, Texas Utilities Services, Inc., as follows: From Longview over Texas Highway 149 to Tatum, thence over Texas Highway 43, 5 miles to its intersection with Farm Road 2658, thence over Farm Road 2658 one-half mile to the named electric station, and return over the same route, serving all intermediate points. Both

intrastate and interstate authority sought.

HEARING: Approximately 30 days after publication in the FEDERAL REGISTER unless application is protested, then approximately 90 days after publication in the FEDERAL REGISTER. Requests for procedural information should be addressed to the Texas Railroad Commission, Drawer 12967, Capitol Station, Austin, TX 78711, and should not be directed to the Interstate Commerce Commission.

Kansas Docket No. 87,469-M, Route No. 8435, dated January 16, 1973. Applicant: GOLDEN PLAINS EXPRESS, INC., 540 West 29 North, Post Office Box 4209, Applicant's representative: Jack Graves, 900 O. W. Garvey Building, Wichita, Kans. 67202. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of agricultural implements and equipment, assembled or unassembled, parts or portions thereof, tools, materials, equipment, supplies, and machinery used in the manufacture, assembly, repair, distribution, sale, and transport thereof, through, between, and to and from all points and places in the State of Kansas. Both intrastate and interstate authority sought.

HEARING: March 20, 21, and 22, 1973, at the Fiesta Room, Mid-Town Holiday Inn, 1000 North Broadway, Wichita, KS. Requests for procedural information should be addressed to the State Corporation Commission, fourth floor, State Office Building, Topeka, Kans. 66612, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice No. 8]

## MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

MARCH 2, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed on or before April 6, 1973.

## NOTICES

Successfully filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

## MOTOR CARRIERS OF PROPERTY

No. MC-2202 (Deviation No. 119), ROADWAY EXPRESS, INC., Post Office Box 471, Akron, OH 44309, filed February 21, 1973. Carrier's representative: J. F. Clements, same address as applicant. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Shreveport, La., over U.S. Highway 80 to junction Louisiana Highway 3 near Bossier City, La., thence over Louisiana Highway 3 to the Louisiana-Arkansas State line, thence over Arkansas Highway 29 to junction Interstate Highway 30 near Hope, Ark., thence over Interstate Highway 30 to Little Rock, Ark., thence over Interstate Highway 40 to junction U.S. Highway 65 near Conway, Ark., thence over U.S. Highway 65 to Springfield, Mo., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent regular route as follows: (1) From Shreveport, La., over U.S. Highway 80 to Dallas, Tex., thence over U.S. Highway 75 to Denison, Tex., thence over U.S. Highway 69 to junction U.S. Highways 60-66 about 6 miles west of Vinita, Okla., thence over U.S. Highway 66 to Springfield, Mo., and (2) from Marshall, Tex., over U.S. Highway 59 to junction Texas Highway 49, thence over Texas Highway 49 to junction U.S. Highway 271, thence over U.S. Highway 271 via Paris, Tex., to junction Oklahoma Highway 3, thence over Oklahoma Highway 3 to junction U.S. Highway 69, and return over the same routes.

No. MC-89913 (Deviation No. 2), FRISCO TRANSPORTATION COMPANY, 906 Olive Street, St. Louis, MO 63101, filed February 8, 1973. Carrier's representative: J. S. Bowie, same address as applicant. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: Between Kansas City, Mo., and Fayetteville, Ark., over U.S. Highway 71, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Kansas City, Mo., over U.S. Highway 50 to Warrensburg, Mo., thence over Missouri Highway 13 to Springfield, Mo., (2) from St. Louis, Mo., over U.S. Highway 66 to junction U.S. Highway 60, thence over U.S. Highway 60 to junction U.S. Highway 166, thence over U.S. Highway 166 to Joplin, Mo., (3) from Carthage, Mo., over U.S. Highway 66 to Springfield, Mo., (4) from junction Alternate U.S. Highway 71 and U.S. Highway 166, near Fidelity, Mo., over

U.S. Highway 166 to Sarcoxie, Mo., thence over Missouri Highway 37 to the Missouri-Arkansas State line, thence over Arkansas Highway 47 to Gateway, Ark., thence over U.S. Highway 62 to Rogers, Ark., thence over U.S. Highway 71 to Alma, Ark., (5) from Springfield, Mo., over U.S. Highway 66 to junction unnumbered highway approximately four miles west of Springfield, thence over unnumbered highway via Brookline Station to junction U.S. Highway 60, thence over U.S. Highway 60 to Seneca, Mo., (6) from junction U.S. Highway 71 and Missouri Highway 7 over Missouri Highway 7 to junction Missouri Highway 13, thence over Missouri Highway 13 to Clinton, Mo., and (7) from junction U.S. Highway 71 and Missouri Highway 7 over U.S. Highway 71 to Kansas City, Mo., and return over the same routes.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc.73-4383 Filed 3-6-73; 8:45 am]

[Ex Parte No. 293]

NORTHEASTERN RAILROAD  
Order of Investigation

At a general session of the INTERSTATE COMMERCE COMMISSION, held at its office in Washington, D.C., on the 9th day of February 1973.

It appearing, That in recent years, seven Class I railroads operating in Northeastern United States, have entered into reorganization under section 77 of the Bankruptcy Act (11 U.S.C. 205 et seq.); and that, to date, there has been little progress toward a traditional income-based reorganization for any of these carriers;

It further appearing, That six of the railroads are under the supervision of five Federal judges, sitting in four United States Judicial Districts, which in turn are located in three Appellate Circuits; thus making it difficult for the separate railroads to undertake mutually beneficial cooperative measures, to coordinate their efforts at planning reorganization and continuing operations, to rationalize the railroad system in the territory, to consolidate properties, make joint use of facilities, coordinate operations, and plan for territorywide release of redundant capacity; and to give effect to national policies pertaining to the regulated sector of surface transportation;

It further appearing, That the Trustees of the Penn Central Transportation Company, in interim reports dated January 1, and February 1, 1973, to the United States District Court for the Eastern District of Pennsylvania, have stated that without massive Government financial assistance for improvement of the railroad, a reorganization cannot be achieved in 1976, the target year previously stated by Trustees; and that most of the major northeastern railroads in reorganization are already receiving substantial subsidies from State or local governments, but that notwithstanding

the subsidy funds, the railroads have been unable to reverse the downward trend in their financial condition and their ability to compete with other modes of transportation.

It further appearing, that several of the railroads in bankruptcy have had to contend with recurring cash crises and/or creditors' petitions for dismissal of the reorganization proceedings which, if granted, could lead to the eventual cessation and liquidation of the transport facilities of the carriers;

It further appearing, that the above-mentioned factors create implications of nationwide importance, including but not limited to such matters as: rationalization of the rail transportation system in the Northeast, the public need for rail services in the Northeast and whether such services should be performed by a single rail system rather than a multi-railroad system of competing carriers, the effects that consolidation or cessation of services would have on connecting carriers, on service to the public, railroad employees, and the human environment; and the need for additional legislation;

It is ordered, That pursuant to the provisions of the National Transportation Policy (49 U.S.C., preceding section 1), section 12 of the Interstate Commerce Act (49 U.S.C. 12), sections 77(b) (5), 77(c)(11), and 77(d) of the Bankruptcy Act (11 U.S.C., sections 205, et seq.), and in consideration of sections 3 (a), 3(b) (4), 5(a) and 6(b) of the Emergency Rail Services Act (45 U.S.C. 661), an investigation be, and it is hereby, instituted upon the Commission's own motion, into and concerning the operations, finances, and other practices of the Boston and Maine Corporation, the Central Railroad Company of New Jersey, the Erie-Lackawanna Railway, the Lehigh and Hudson River Railway Company, the Lehigh Valley Railroad Company, the New York, New Haven & Hartford Railroad Company, the Penn Central Transportation Company, the Reading Company—all debtors in reorganization—in order to determine, among other things, whether such operations, financial condition and practices are adequate to the transportation needs of the public and sufficient to the implementation of the National Transportation Policy; which investigation should provide a basis for determining whether the Northeastern section of the country should be limited to service by a single railroad system or whether adequate service to the public requires operation by two or more competing rail systems and what orders of the Commission or legislative changes would be appropriate in the premises;

It is further ordered, That Robert W. Meserve, Trustee of the Boston and Maine Corporation, R. D. Timpany, Trustee of the Central Railroad Company of New Jersey, T. Patton and R. J. Taylor, Jr., Trustees of the Erie-Lackawanna Railway, J. C. Trolana, Trustee of the Lehigh and Hudson River Railway Company, J. F. Nash and R. C. Halde-man, Trustees of the Lehigh Valley Railroad Company, R. D. Smith, Trustee of the New York, New Haven & Hartford Railroad Company, G. P. Baker, R. C. Bond, and J. Langdon, Jr., Trustees of the Penn Central Transportation Company, and R. Dilworth and A. Lewis, Trustees of the Reading Company be, and they are hereby made respondents in this proceeding, that this order be served on said respondents and upon the Governors and Public Utility Commissions of the States of Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, the District of Columbia, Virginia, West Virginia, Kentucky, Ohio, Michigan, Indiana, Illinois, and Missouri; and upon the Federal Railroad Administration, United States Department of Transportation; and that notice to the public be given by posting a copy of this order in the office of the Secretary of the Commission; and by publication of this order in the FEDERAL REGISTER;

It is further ordered,

(1) That this proceeding be initiated under the modified procedure specified below.

(2) That any person, other than the respondents desiring to introduce evidence in this proceeding shall advise the Secretary in writing not later than February 28, 1973, with copies to the respondents; and such person shall state whether he can and is willing to consolidate his interest with those of other interested parties by filing joint statements to thereby reduce the number of pleadings that need to be served;

(3) That on or before March 15, 1973, the respondents, and any person having given notice of his intention as provided in (2) above, shall file with the Secretary of the Commission verified statements containing evidence of the operating and financial affairs of the respondents subsequent to the filing of the petitions for reorganization under section 77 of the Bankruptcy Act, including but not limited to all efforts at joint use of facilities, consolidation of properties, or coordination of operations with other carriers, and of such other matters as may be appropriate to the purposes of this inquiry as described in the first ordering paragraph hereof; that each verified statement shall be signed in ink by the affiant

and verified (notarized) in the manner provided by rule 50 and form No. 6 of the Commission's general rules of practice; and that the post office address of the affiant or his counsel shall be shown;

(4) That, except as hereinafter provided, verified statements (whether having appendices or not) shall be filed and served as follows:

The original and 24 copies of each such document for the use of the Commission shall be sent to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

One copy of each statement shall be sent by first-class mail to each of the regional offices of the Commission where it will be open to public inspection.

One copy of each statement shall be served upon each respondent herein. Respondents should also serve one copy of each statement upon each person who (under item (2) above) gives notice of intent to participate, and upon the individuals and public bodies listed in the second ordering paragraph.

In all cases, where service is made by mail, the document shall be mailed in time to be received by March 15, 1973.

Each verified statement shall contain a certificate of service stating that it has been timely served on all parties, as herein provided; and verified statements not so served will not be considered.

(5) That on or before April 15, 1973, any party to the proceeding, having received the initial statements of others, may file supplemental verified statements in the same form, number, and manner as hereinbefore prescribed, each duly attested and containing a certificate of service.

(6) That copies of verified statements, exhibits, and other written evidence of the Commission staff shall be served only on the respondents and be made available for inspection by all other persons at the regional and Washington, D.C., offices of the Commission;

And it is further ordered, That additional procedures, if deemed necessary, for the introduction of further evidence will be prescribed by further order of this Commission.

Due and timely execution of the Commission's functions with regard to the matters involved in this investigation makes it imperative and unavoidable that an initial or recommended decision and order by an administrative law judge be omitted.

By the Commission.

NOTE: The order instituting this investigation will not significantly affect the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

ROBERT L. OSWALD,  
Secretary.

Title 21—Food and Drugs  
CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE  
SUBCHAPTER C—DRUGS  
PART 130—NEW DRUGS

PART 132—REGISTRATION OF PRODUCERS OF DRUGS AND LISTING OF DRUGS IN COMMERCIAL DISTRIBUTION

Establishment of Implementing Regulations for the Drug Listing Act of 1972

In the FEDERAL REGISTER of December 12, 1972 (37 FR 26431), the Commissioner of Food and Drugs proposed to amend 21 CFR Parts 130 and 132 to provide procedural regulations for the enforcement of the "Drug Listing Act of 1972," an Act to amend the Federal Food, Drug, and Cosmetic Act, which became effective on February 1, 1973. Interested persons were invited to submit comments on the proposal within 40 days. Comments were received from six trade associations and 18 manufacturers. In addition, members of the industry met with representatives of the Food and Drug Administration to discuss a means of achieving compatibility between the National Drug Code (NDC) and the Universal Product Code (UPC), a retail industry identification number.

The principal comments received and the Commissioner's conclusions are as follows:

1. Three drug manufacturers and one trade association objected to the statement in the preamble that the first listing of drugs will be required during June 1973. These persons state that the Drug Listing Act and the legislative history clearly reflect a congressional mandate that the first listing of drugs would not be required until the time of the first registration under section 510 of the Federal Food, Drug, and Cosmetic Act which occurs after the effective date of the Drug Listing Act. They noted that subsection 510(b) requires such registration on or before December 31 of each year. Accordingly, they believe that persons subject to the new drug listing requirements should not be required to submit drug listings prior to registration in December 1973.

The Commissioner does not agree with these comments. All persons who are registered are required under section 510-(j)(2) to provide drug listing information once during the month of June of each year and once during the month of December of each year. Thus, for persons who are registered prior to February 1, 1973, the first drug list must be reported during the month of June 1973. In enacting the Drug Listing Act of 1972, Congress intended to provide the Food and Drug Administration with the legislative authority to compile a list of currently marketed drugs in order to assist the Agency in the enforcement of Federal laws requiring that drugs be safe and effective, and not adulterated or misbranded. In light of this congressional intent to protect the public health, the Commissioner can find no justification for

RULES AND REGULATIONS

delaying the filing of the first drug listing information beyond June 1973.

The Commissioner wishes to make clear that the filing of the drug list is separate from registration. Persons already registered are not required to "re-register" during June 1973. Persons who register under subsection 510 (c) or (d) between February 1 and June 1, 1973, are required under section 510(j)(1) to file the drug listing information at the time of registration. However, because of the time needed by the Food and Drug Administration to develop procedures for handling this information and for informing the affected industry as to how this information is to be reported, the Commissioner has determined that persons who register under § 510 (c) or (d) between February 1 and June 1, 1973, will not be required to submit the drug listing information until June 1973.

2. Four manufacturers of in vitro diagnostic products objected to the request that they register and submit drug listing information. The objections were based primarily on the contention that in vitro diagnostic products differ in many ways from conventional drug products and these differences make the proposed regulations inappropriate for such products. They further contend that many of these products are devices and therefore not subject to the drug registration and listing provisions of the Act.

In vitro diagnostic products that are drugs are clearly subject to all of the drug provisions of the Act, including the provisions of section 510. In vitro diagnostic products which are determined to be devices are not subject to section 510 of the Act and are therefore not subject to registration and listing. In any doubtful cases, the courts have held that the Food and Drug Administration has the legal authority to classify such products as drugs. Rather than attempt to classify all such products as drugs or devices, the Commissioner has proposed to establish a new procedure containing labeling requirements and a mechanism for establishing standards governing these products (37 FR 16613). The Food and Drug Administration is seeking the cooperation of the industry to register and submit drug listing in order to eliminate the need for regulatory action to obtain the information.

The Food and Drug Administration has the authority administratively to determine whether products are drugs or devices. Until new device legislation is enacted, and where the authority inherent in section 505 of the Act is necessary to adequately protect the public health, products which may be devices in the classic sense will be regarded as new drugs. No such determination will be necessary for listing purposes provided that the manufacturers of all in vitro diagnostic products register and submit the listing information.

Two manufacturers of in vitro diagnostic products requested that the Food and Drug Administration allow such manufacturers until December 1973 to

submit listing information. The basis for this request is that most manufacturers of in vitro diagnostic products did not participate in the voluntary drug inventory program and will therefore require more time to develop listing information. The Commissioner has considered this request and has concluded that a June 1973 reporting date should allow ample time for the submission of listing information.

3. One manufacturer, while acknowledging that the preamble to the proposed regulations recognizes that they duplicate, in some respects, existing reporting requirements under sections 505, 507, and 512 of the Federal Food, Drug, and Cosmetic Act and section 351 of the Public Health Service Act, urged that steps be taken to eliminate such duplication in the final regulations. The Commissioner, although recognizing the problems associated with the duplicity of many of the reporting requirements, has concluded that it would be premature to eliminate or reduce this duplicity until the procedures of the drug listing regulations become fully operational. The Commissioner has determined that Congress, in enacting the Drug Listing Act, was aware that some of the information required to be submitted in the drug listing is required to be submitted to the Food and Drug Administration under existing regulations. However, Congress clearly intended that procedures be established for compiling the information required by the Drug Listing Act in a single system. As was stated in the preamble to the proposal, when the drug listing regulations become fully operative, steps will be undertaken to relieve the duplication, but such steps will still be compatible with the need for ready availability of the information for review purposes.

4. Two manufacturers submitted comments concerning the definition of "establishment" in § 132.1(a). One manufacturer requested that clinical chemistry laboratories be exempted from that part of the definition regarding "independent laboratories that engage in control activities for registered establishments (e.g., consulting laboratories)." This manufacturer expressed concern that such laboratories will no longer be willing to perform such services if they are required to register. The manufacturer also stated that the particular laboratory used by a manufacturer is generally proprietary information and that, if the Commissioner feels it to be essential that he be aware of these clinical laboratories, the manufacturer should submit the names of those he is using as a separate part of his drug listing information.

The Commissioner rejects the request that consulting laboratories not be required to register. The definition of "establishment" in the proposed regulations remains unchanged from that in the current regulations (21 CFR 132.1(b)) and consulting laboratories are already required to register. Such consulting laboratories are required to register in-

dependently of the firm for whom they perform services. Establishments who utilize the services of these consulting laboratories are not required to identify such laboratories in either their registration or drug listing submission. However, this does not exempt establishments from providing this information to the Food and Drug Administration when specifically requested.

A manufacturer stated that, since the proposed regulations can have no applicability to foreign establishments not registered under the Act, the definition of the term establishment should be amended to include only establishments registered under the Act. The Commissioner disagrees with this statement and sees no need to amend the definition of establishment as suggested by this manufacturer. The definition neither requires nor prohibits registration of foreign establishments. However, the 1972 law clearly requires a foreign drug manufacturer to comply with the drug listing requirements of the Act, whether or not he is registered. No unlisted drug may be imported into the United States. The proposed regulations contain no requirements regarding the registration of foreign establishments. The Commissioner published in the FEDERAL REGISTER of May 24, 1972 (37 FR 10510), a proposal concerning the registration of foreign drug establishments and a final order in this regard will be issued at a later date.

5. One manufacturer urged that the definition of "commercial distribution" in § 132.1(d) be revised so as to exclude products which are merely being distributed by a drug manufacturer. This manufacturer commented that section 510(j) of the Act requires the submission of drug listing information only for those drugs which the establishment manufactures, prepares, propagates, compounds, or processes. In addition, the manufacturer stated that if establishments include in their listing drugs which they merely distribute, the Food and Drug Administration will receive a false count as to the number of drugs actually being manufactured in this country.

The Commissioner has considered these comments but, in view of revisions of § 132.2 in the final regulations as to who must register and submit a drug list, has concluded that no revision in the definition of commercial distribution is necessary. Firms that merely distribute drug products and do not meet the definition of "manufacture, preparation, propagation, compounding, or processing" of a drug in § 132.1(c) are not required to register. In the final regulations a new § 132.2(b) is added to allow distributors (who are otherwise exempted from registration) to furnish drug listing information directly to the Food and Drug Administration for those products which they distribute under their own label but which are manufactured, prepared, propagated, compounded, processed, repackaged or otherwise changed in regard to container, wrapper, or labeling by a registered establishment. In such an instance, the Food and Drug Administration will assign a "Labeler

RULES AND REGULATIONS

Code" to the distributor and transmit drug listing instructions. To avoid duplicity in the submission of drug listing information, registered establishments are not required to submit drug listing information for those products for which the distributor has submitted this information directly to the Food and Drug Administration. This procedure is covered in paragraph 12(b) of this preamble.

6. Two trade associations and six manufacturers filed comments concerning the definition of "any material change" in § 132.1(g). In general, these comments suggested that the definition be revised to clarify that only "material or significant" changes in the labeling of a prescription drug or in the label or package insert of an over-the-counter drug are to be reported. In response to these comments, the applicable phrase of the definition of "any material change" has been revised in the final regulation to read "any significant change in the labeling of a prescription drug, and any significant change in the label or package insert of an over-the-counter drug." Changes that are not significant include changes in arrangement or printing or changes of an editorial nature.

7. One trade association submitted comments regarding the definition of bulk drug substance in § 132.1(h). The trade association said that it is not the intent of the Federal Food, Drug, and Cosmetic Act to require noncommercial in-house or subsidiary transfer of bulk drugs to conform to the requirements of the Drug Listing Act. They recommended that in order to exclude domestic and foreign internal transfers of bulk drug substances from the drug listing requirements, the phrase "or internal transfers of bulk drug substances" should be added to the end of the last sentence in § 132.1(h).

The Commissioner agrees that it was not intended that owners or operators of registered establishments report as a separate entity on the drug list a bulk drug substance which is manufactured, prepared, propagated, compounded, or processed at one registered domestic establishment for noncommercial internal or interplant transfer for additional processing to another registered domestic establishment within the same parent, subsidiary, and/or affiliate company. However, because of the need to obtain and compile information on all drugs (bulk as well as finished dosage forms) which are imported into the United States and the requirements as set forth in § 132.31 that no drug may be imported into the United States unless it is first the subject of a drug listing, the proceeding statement concerning internal or interplant transfers of a bulk drug substance does not apply to such transfers between foreign and domestic establishments regardless if these establishments are within the same parent, subsidiary, and/or affiliate company.

Therefore the definition of "Commercial distribution" (§ 132.1(d)) is revised by adding the following phrase "but does not include internal or interplant trans-

fer of a bulk drug substance between registered domestic establishments within the same parent, subsidiary, and/or affiliate company."

8. Four trade associations and one manufacturer offered comments regarding who must register and submit a drug list (§ 132.2). One trade association stated that a corporate group should be permitted to designate a single corporate member as the central registrant, regardless of so-called "parent" or "subsidiary" relationship, so long as there exists joint ownership and control among all the companies and suggested that the parenthetical clauses in § 132.2(a) be expanded to read "(except . . . parent, subsidiary and/or affiliate companies)." This same trade association also commented that the Food and Drug Administration should emphasize in the final order that establishments operating in intrastate commerce (including those marketing virus, serum, toxin, or analogous products for treatment of domestic animals in intrastate commerce) are required to register their establishments and list their products. One trade association suggested that the phrase "a list of drugs used" be used in place of the phrase "drug listing" in that part of the last sentence in § 132.2(a) relating to the manufacturing, preparation, propagation, compounding, or processing of an animal feed bearing or containing an animal drug. Another trade association stated that when the registration requirements contained in § 132.2 are viewed in context with the information required in registration and drug listings as set forth in § 132.5, it could be required that an "NDC" number be assigned when a new drug application (NDA) is initially submitted. This trade association suggested that the proposal be revised to require an "NDC" number assignment only when finished labeling for an approved NDA is submitted. One manufacturer submitted a similar comment remarking that, because of the long time span between submission of a new drug application, new animal drug application, antibiotic Forms 5 or 6, or Form 1800 (Medicated Feed Application) and FDA approval thereof, filings under this regulation should be deferred until submission of final printed labeling or some other act occurring late in the pendency of the application. One trade association suggested that intermediate premixes, feed additive concentrates, and feed additive supplements be exempt from drug listing along with medicated feeds.

The Commissioner agrees that a corporate group should be permitted to submit listing information for all subsidiaries and or affiliate companies when operations are conducted at more than one establishment so long as there exists joint ownership and control among all the establishments. However, each establishment must be registered separately. This is what was intended in the proposal. To clarify this intent, the parenthetical clauses in § 132.2(a) have been expanded in the final order to read "(except . . . parent, subsidiary and/or af-

affiliate company, for all establishments when operations are conducted at more than one establishment so long as there exists joint ownership and control among all the establishments).

While agreeing completely with the comment made regarding the applicability of the registration and drug listing requirements of section 510 of the Act to establishments engaged in intrastate commerce, the Commissioner sees no need to clarify these requirements. Section 132.2(a) as proposed already contains the statement that all establishments are required to register and submit drug listing information "whether or not the output of such establishment or any particular drug so listed enters interstate commerce."

Section 132.51(g) exempts from registration, domestic manufacturers of a virus, serum, toxin, or analogous product intended for the treatment of domestic animals, who hold an unsuspended and unrevoked license issued by the Secretary of Agriculture. Thus, any intrastate manufacturer of such products, or any manufacturer of such products who for any other reason does not hold a USDA license, is required to register and submit a drug list.

The Commissioner rejects the comment that the phrase "a list of drugs used" be used in place of phrase "drug listing" in § 132.2(a). Drug listing requires more than just the submission of a list of drugs used.

The Commissioner has considered the comments concerning the registration and drug listing requirements contained in proposed §§ 132.2(b) and 132.5. Most of these comments reflect a lack of understanding of the proposed regulations. Establishment registration is entirely separate from drug listing. Establishments are required to register under § 132.2 within 5 days after beginning operations or after the submission of a new drug application, new animal drug application, Form 1800 (Medicated Feed Application), antibiotic Forms 5 or 6, or an establishment license application in order to manufacture biological products. At the time of such registration, the owners or operators of such establishments are required to submit a list of every drug in commercial distribution. However, since drugs subject to section 505, 506, 507, or 512 of the Federal Food, Drug, and Cosmetic Act, or 351 of the Public Health Service Act may not be commercially distributed prior to approval by the Food and Drug Administration, it is not necessary for an establishment to include such products in the drug listing information until approval for the commercial marketing of these products has been obtained. An NDC number will not be assigned to such drugs until after commercial distribution of these products has been approved by the Food and Drug Administration and the information required by § 132.5 concerning these drugs has been included in the establishment's drug listing submission. In order to clarify that registration and drug listing are separate re-

quirements, separate forms will be used.

The Commissioner has determined that all animal drugs including animal feeds bearing or containing animal drugs are subject to the registration and drug listing requirements of the Drug Listing Act. As stated in the preamble, however, it is the opinion of the Food and Drug Administration that the intent of the Drug Listing Act can be fulfilled at this time by limiting the drug listing requirements to animal dosage form drugs and drug premixes. The term "drug premixes" refers to all premixes which are intended to be used in the manufacture of an animal feed as defined in section 201(x) of the act. Manufacturers of animal feeds including feed concentrates, feed supplements, and complete animal feeds, bearing or containing an animal drug are exempted by the Commissioner in § 132.2(a) from furnishing drug listing information at this time. Such manufacturers, however, are required to register their establishments. In order to clarify this policy, an appropriate change has been made in the last sentence of § 132.2(a).

9. One trade association and six manufacturers submitted comments regarding § 132.5. One manufacturer suggested that the statement "bulk drug substance" should be deleted from § 132.5(b)(1). This manufacturer stated that since the bulk drug substance is identified in each submission as required under sections 505, 506, 507, and 512 of the FDCA, and in view of § 132.5(b)(6) of this regulation, in our judgement to require an additional listing of the bulk drug substance information represents an unnecessary duplication of effort. Another manufacturer commented that it is unnecessary to utilize the concept of "bulk drug substance" in the regulations since the Act is concerned with commercial distribution, which should be limited to drugs prepared in final dosage form and not extended to those fine chemicals which may technically be drugs and which are intended for interplant shipment. One other manufacturer suggested that § 132.5(b)(2) be clarified as to whether or not only one representative container or carton label need be submitted for each drug where differences exist only in that such labeling designates the drug package for hospital use only or indicates different storage conditions because of the use of a different package system. Still another manufacturer recommended that the final order clarify that, where submission of labeling is required, only that labeling which is currently in use should be submitted. This manufacturer was concerned that someone would interpret the requirement for the submission of "a copy of all labeling" to mean cumulative submission of labeling (i.e., all labeling used up to the time of the submission). One manufacturer suggested that § 132.5(b)(3), (5), and (6) be revised to include a reference to section 151 of the Virus, Serum, Toxin, and Analogous Products Act so as to include veterinary biological products. Two manufacturers and one trade association commented

that the reference to section 512 of the Act in § 132.5(b)(4), should be deleted because new animal drugs are not subject to section 503(b)(1) of the Act. One manufacturer urged that the requirements for listing of premixes be simplified, perhaps by permitting filing on categories of such products, listing ranges of the various active ingredients, rather than requiring separate filings for custom manufacture of drug premixes for animal feeds.

The Commissioner has rejected the suggestion recommending that the statement "bulk drug substance" be deleted from § 132.5(b)(1). There is no duplication in the requirements for listing of bulk drug substances in § 132.5(b)(1) and (6) or in any parts of § 132.5 where reference is made to sections 505, 506, 507, and 512 of the Act.

The Commissioner agrees with the comment by one manufacturer that the drug listing requirements of the Act are concerned solely with drugs in commercial distribution. However, he disagrees that drug listing should be limited to drugs prepared in final dosage form. The Commissioner believes, that, in order for the Food and Drug Administration to enforce the provisions of the act to protect the public health, it is necessary to obtain and compile drug listing information for all drugs, including bulk drugs, substances, which are commercially distributed. The Commissioner has clarified the position of the Food and Drug Administration concerning the noncommercial internal or interplant transfer of bulk drug substances in paragraph 7 above in dealing with comments received regarding § 132.2.

The Commissioner has reviewed the comment concerning the requirements of § 132.5(b)(2) for the submission of container or carton labels and has determined that where such labeling designates the drug package for hospital use only, or indicates different storage conditions because of the use of a different package system, a copy of such labeling is to be submitted along with a copy of all other labeling as required in § 132.5(b)(2). The Commissioner sees no need to amend § 132.5(b)(2) to clarify this statement since § 132.5(b)(2) as written requires the submission of a copy of all labeling except as specifically provided for in the section.

In order to clarify that, where submission of labeling is required, only labeling which is currently in use should be submitted, the Commissioner has concluded that the word "current" is to be inserted between the words "all" and "labeling" where they appear in § 132.5(b)(2) and (4).

The Commissioner has rejected the suggestion that § 132.5(b)(3), (5), and (6) be revised to include a reference to section 151 of the Virus, Serum, Toxin, and Analogous Products Act so as to include veterinary biological products. The Virus, Serum, Toxin, and Analogous Products Act is enforced by the U.S. Department of Agriculture. § 132.51(g) in

the proposed regulation contains an exemption from registration for any manufacturer of a virus, serum, toxin, or analogous products intended for treatment of domestic animals, who holds an unsuspended and unrevoked license issued by the Secretary of Agriculture.

The Commissioner agrees with the comments that animal drugs are not subject to section 503(b)(1) of the Act, and thus that both prescription animal drugs and OTC animal drugs are subject to § 132.5(b)(5) and are not subject to § 132.5(b)(4). § 132.5(b)(4) is revised in the final order to clarify this policy.

In order to simplify the procedures for drug listing for drug premixes, the Commissioner has determined that § 132.5(b)(6) should be revised in the final order to provide that, for such products, "the quantitative listing of ingredients may be limited to each variation of level of active drug ingredient."

10. One manufacturer commented that § 132.6 describing the updating of the drug listing should be clarified so as to indicate that only major changes are required to be submitted. This manufacturer expressed concern that § 132.6 could be interpreted as requiring that all labeling revisions, regardless of how minor, must be submitted periodically and that this places an unwarranted and extreme burden on the manufacturers of drug products. The Commissioner has determined that it was not intended that manufacturers be required to submit, at the time of the updating of the drug listing information, copies of revised labeling where the revision consists only of minor changes in arrangement or printing or changes of an editorial nature. Section 132.6(a)(4) of the proposed regulations provides that the drug listing update is to include any material change in any information previously submitted. As noted in paragraph 6 of this preamble, the definition of "any material change" in § 132.1(g) has been revised in the final order to clarify that only significant changes in labels or labeling need be submitted and specifically excludes minor changes in arrangement or printing or changes of an editorial nature. In view of the revision in § 132.1(g), the Commissioner has concluded that there is no need to revise § 132.6 as suggested in this comment.

11. One trade association and three manufacturers submitted comments concerning § 132.7, relating to additional drug listing information. Two of the manufacturers and the trade association suggested that paragraphs (b) and (c) of this section regarding the voluntary submission of production data and a qualitative listing of the inactive ingredients, respectively, be deleted. These commenters stated that request for the voluntary submission of such information should not be included in regulations implementing an act where Congress has specifically stated that the authority to require such information is not authorized by the enabling statute. One of these manufacturers remarked

that if production data and qualitative listing of ingredients is desired in specific cases, the Food and Drug Administration should request such information, by letter, from the manufacturer. One manufacturer suggested that prior to requesting submission of information regarding in vitro diagnostic reagents which is deemed to be necessary to carry out the purposes of the Act, or that is requested on a voluntary basis, the Commissioner should seek comments as to the appropriateness of such submissions by way of a proposal in the FEDERAL REGISTER. This manufacturer commented that, although this information may be of value when dealing with traditional drugs administered or applied to man, they were not certain such information would be useful for in vitro diagnostic reagents.

In the opinion of the Commissioner the comment regarding the request in § 132.7 (b) and (c) for the voluntary submission of production data and a qualitative listing of the inactive ingredients was adequately discussed in the preamble to the proposal (37 FR 26432). The information in that paragraph continues to be applicable here. The Commissioner has concluded that the term "production data" in § 132.7(b) does not adequately describe the intent of this section of the regulations. In order to clarify this intent, the term "production data" in § 132.7(b) has been replaced in the final order by the phrase "information concerning the quantity of drug distributed."

The Commissioner sees no merit in the suggestion that, prior to requesting or requiring the submission of information regarding in vitro diagnostic reagents, he seek comments as to the appropriateness of such submissions by way of a proposal in the FEDERAL REGISTER. In paragraph 2 of this preamble the Commissioner set forth the position of the Food and Drug Administration regarding the inclusion of in vitro diagnostic products for coverage under these regulations. The procedures for obtaining information regarding in vitro diagnostic products will be the same as those established for obtaining such information for all other products subject to these regulations.

12. Five trade associations and 11 manufacturers submitted comments concerning § 132.8, relating to notification of the registrant of the drug establishment registration number and drug listing number. One trade association suggested that the Food and Drug Administration revise the regulations as necessary to insure that the manufacturer identification number issued under the National Drug Code system is compatible with the new animal drug application "sponsor" number assigned under 21 CFR 135.501. One manufacturer questioned if a "Labeler Code" will be assigned to firms who distribute drugs under their own label which are manufactured, prepared, propagated, compounded, or processed by a registered establishment. Two trade associations and eight manufacturers recommended

against the requirement in § 132.8(b)(3) regarding the exclusive use of the National Drug Code number on labeling. Their comments noted that product labels will normally include several sets of numbers, including a list number, a lot number, a label number, a patent number, a license number, etc., and questioned whether such numbers are to be prohibited. One trade association stated that the National Drug Code System is not adequate to provide for the retrieval of comparative information about drug products, is too long for practical use in hospital systems, and cannot identify the pharmacologic-therapeutic category of any drug. One trade association and four manufacturers objected to the requirements in § 132.8(b)(3)(i) and (ii) regarding the placement of the National Drug Code number on the label. They indicated that the regulations should be revised to indicate that the National Drug Code numbers be placed "prominently" on the label; that there appears to be no logical reason for the requirement that the initials "NDC" be in a different color or type style than that used to print the National Drug Code number; and that there is no need for the use of insignificant leading and following zeroes in the National Drug Code number as it appears on the label. One manufacturer commented that a qualifying statement should be incorporated in § 132.8(b)(3) to indicate that when a National Drug Code number is used in drug labeling, the specific provisions of § 132.8(b)(3)(i) and (ii) apply only to labeling redesigned after publication of the final order. One trade association recommended that custom medicated premixes be exempted from the product identification provisions of the National Drug Code. This association noted that, because such premixes are formulations which are changed frequently, particularly with regard to the vitamin and mineral ingredients, to permit certain accommodations of the needs of the feed manufacturer, routine assignment of product code numbers to each of these formulations is not practical. The association indicated that, if such exemption is not deemed possible, consideration should be given to a "class of drugs" identification procedure. Two trade associations and one manufacturer recommended that the National Drug Code system be made compatible with the Universal Product Code system being developed by the retail industry. In addition to these written comments filed with the Hearing Clerk concerning the compatibility of the National Drug Code and the Universal Product Code, members of the affected industry met with representatives of the Food and Drug Administration to discuss this issue.

The Commissioner has carefully considered each of the comments received regarding § 132.8 together with other pertinent information and his conclusions concerning these comments are as follows:

a. The new animal drug application "sponsor" numbers assigned to manufac-

turers under 21 CFR 135.501 are intended to eliminate the need for repetition of names and addresses of each manufacturer in regulations published pursuant to section 512(i) of the Federal Food, Drug, and Cosmetic Act. The Commissioner believes that it is premature to revise these "sponsor" numbers until the procedures of the drug listing regulations become fully operational. However, when such regulations become fully operational, steps will be taken to assure compatibility between the "Labeler Code" segment of the National Drug Code and the new animal drug application "sponsor" number.

b. "Private-label" distributors of drugs are not required to register under section 510 of the Federal Food, Drug, and Cosmetic Act if they do not engage in any of the activities set out in § 132.1(c). However, the Commissioner has concluded that such distributors may submit drug listing information to the Food and Drug Administration for those products which they distribute under their own label or trade name but which are manufactured, prepared, propagated, compounded, or processed by a registered establishment. In lieu of submission by the establishment, distributors submitting drug listing information to the Food and Drug Administration will be assigned a "Labeler Code" under the National Drug Code system. Registered establishments shall be responsible for submitting drug listing information and for obtaining from the Food and Drug Administration a "Labeler Code" which uniquely identifies each of the various private-label distributors for whom the establishment manufactures, prepares, propagates, compounds, or processes drug products for commercial distribution if such distributors do not submit drug listing information directly to the Food and Drug Administration and so certify in writing to the registered establishment. Section 132.2 is revised in the final order to permit "private-label" distributors to submit drug listing information and to be assigned a "Labeler Code."

c. There are valid reasons why the National Drug Code number should not be the only "registration or similar number" which may appear in labeling. Accordingly, the sentence "no other registration or similar number may appear in labeling" is deleted from § 132.8(b)(3) in the final order.

d. The comment that the National Drug Code System is not adequate to provide for the retrieval of comparative information about drug products, is too long for practical use in hospital systems, and cannot identify the pharmacologic-therapeutic category of any drug, is rejected as being without merit. The Commissioner has determined that the National Drug Code system, which is specifically provided for in the Drug Listing Act, is adequate to allow the Food and Drug Administration to retrieve information concerning drugs being commercially marketed in the United States to the extent provided for in the act, and as necessary to protect the public health.

e. The Commissioner believes that the requirements, with the exception of the use of leading zeros, in § 132.8(b)(3) (i) and (ii) concerning the placement of the National Drug Code number on the label, are necessary in order to assure that this number is prominently displayed on the label and is readily discernible from other graphic and printed matter on the label. Where the National Drug Code is shown in drug labeling, it is provided that the leading zeros in any segment of the National Drug Code shall appear to prevent errors in transcription and to assure compatibility with the Universal Product Code. Where the National Drug Code is used for product identification by direct imprinting on dosage forms, leading zeros may be dropped from the product segment of the National Drug Code. Section 132.8(b)(3) is amended in the final regulation to reflect this change in the use of leading zeros in the National Drug Code number.

f. There is no need to revise § 132.8(b)(3) to include a qualifying statement that, where the National Drug Code is already being used in labeling, the specific provisions of § 132.8(b)(3) (i) and (ii) apply only to labeling redesigned after publication of the final order. Reasonable time for the affected industry to redesign labels and labeling as may be necessitated by any of the provisions of these regulations is permitted. Manufacturers are allowed to redesign their labels and labeling to conform to the provisions of these regulations at the time of the first printing of labels and labeling on or after July 1, 1973.

g. In response to the comment regarding the assignment of the Product Code segment of the National Drug Code number to custom medicated premises, § 132.8(b) is revised in the final regulation to provide for the assignment of a separate Product Code only to such premises where there is a variation in the level of the active drug ingredient.

h. The policy of the Food and Drug Administration is to encourage the use of the National Drug Code number on all drug labels and labeling, including the label of any prescription drug container furnished to a consumer. The Commissioner believes that such use of the National Drug Code is in the interest of the public health and will be of significant value for the Food and Drug Administration in maintaining surveillance over the distribution of drugs in the United States. The retail industry is developing a Universal Product Code which will be assigned to every product sold by participating retailers throughout the United States. The Universal Product Code will be translated into a standard symbol that is preprinted on each consumer package and electronically scanned at retail checkouts to facilitate retail price totaling and inventory control. The Commissioner has determined that it is not the policy of the Food and Drug Administration to prevent industry from developing procedures to assist in the control and marketing of drug prod-

ucts insofar as such procedures do not conflict with public health considerations. The Commissioner has concluded that in order to encourage the use of the National Drug Code on drug labels and labeling and to reduce the multiplicity of product identification numbers appearing on drug labels and labeling, procedures shall be established to assure that the National Drug Code is compatible with the Universal Product Code. Agreement has been reached by members of the industry and the Food and Drug Administration on procedures to achieve compatibility of the National Drug Code (NDC) and the Universal Product Code. Section 132.8 is amended in the final order to reflect these procedures to assure compatibility between the National Drug Code and the Universal Product Code.

13. Comments on § 132.9, relating to inspection of registrations and drug listings, were received from six manufacturers and three trade organizations. The principal comments were that full confidentiality should be afforded to all information voluntarily submitted and which a manufacturer indicates is confidential or of a nature that he would not ordinarily disclose; the phrase "a matter of public knowledge" as used in the regulation is too vague and uncertain; and the proposed regulations fail to clearly state that any of the information supplied on the listing form which constitutes a trade secret or is otherwise entitled to confidential treatment will not be available for public disclosure. Several of the commenters requested that the comments which they previously submitted in regard to the public information proposal published in the FEDERAL REGISTER on May 15, 1972 (37 FR 9128), be applied to this proposal as well.

The applicable statutes (18 U.S.C. 1905 and 21 U.S.C. 331(j)) provide for the confidentiality of trade secrets obtained from a person. The Food and Drug Administration is bound by these statutes and will treat as confidential all information that has been demonstrated by the submitter as falling within the confidentiality provisions of either of those statutes. The information which is listed in the regulation as being illustrative of the type of information that will be available for public disclosure is that which is clearly not subject to the above-cited statutes.

14. The following comments were received in regard to § 132.31, relating to drug listing requirements for foreign drug establishments. One manufacturer commented that firms frequently import a new drug either in finished or bulk form, which does not have an approved new drug application or antibiotic or Form 5 or 6, to stockpile the drug in anticipation of FDA approval. The firm stated that since a new drug cannot be listed until it has been approved, § 132.31 should be amended to allow importation, but not commercial distribution prior to drug listing. Another manufacturer recommended that the entire § 132.31 be deleted from the regulation because foreign drug firms are not required to reg-

ister and therefore cannot be required to submit drug listing information.

The Commissioner has concluded that the drug listing requirements apply only to products in commercial distribution, as defined in § 132.1(d) of the proposal. Shipment or delivery of a new human drug that is being imported or offered for import into the United States pursuant to the investigational use provisions of § 130.3 is not commercial distribution and the drug is not required to be listed. Section 132.31(b) is revised to clarify this point.

The Commissioner does not agree with the contention that because foreign drug firms are not required to register they cannot be required to submit drug listing information. The purpose of the Drug Listing Act is to provide the Commissioner with a current list of each drug commercially distributed in the United States. Without information on imports such a list would be incomplete. It would also be a gross inequity to impose such a requirement on domestic producers while not imposing a comparable requirement on imports. The act is clear on this point and the legislative history also demonstrates that Congress intended foreign manufacturers to submit listing information on any drug which they import into the United States for commercial distribution.

15. Questions have been raised about the justification for the exemption presently contained in § 132.51(h), for governmental officers and employees, particularly in light of the clear congressional intent expressed in the Drug Listing Act that a single list be developed for all drug products distributed in interstate or intrastate commerce in the United States. The Commissioner has concluded that registration and a listing of drugs manufactured, prepared, propagated, compounded, or processed by any governmental agency, officer, or employee is clearly within the intent of the Drug Listing Act and is required to carry out the public health purposes of the act. Accordingly, this exemption is no longer in the public interest and has been deleted in the final regulations.

16. Two manufacturers and two trade associations submitted comments concerning § 132.51, relating to exemptions for domestic establishments. One trade association suggested that the introduction to this section should be revised to include the phrase "and/or filing of drug information." One manufacturer recommended that this section be revised by adding a new paragraph to exempt intermediate premises, feed additive concentrates, and feed additive supplements. One trade association and one manufacturer suggested that § 132.51(f) be revised by deleting the phrase "or drug-containing feed concentrates" that appears in two places and by substituting the term "FD Form 1800" for the term "an antibiotic Form 10."

The Commissioner agrees with the comment that the introduction of this section should be revised to include a phrase such as "and/or filing of drug

information" and the introduction has been revised accordingly.

The Commissioner in paragraph 8 of this preamble gave his conclusions concerning the comments that intermediate premises, feed additive concentrates, and feed additive supplements be exempt along with medicated feeds from drug listing. These conclusions are applicable to the comments received regarding § 132.51. In addition, the Commissioner wishes to make it clear that manufacturers of medicated feeds, including feed additive concentrates, feed additives supplements, and complete animal feeds, are required to register except as specifically provided for in § 132.5(f).

The Commissioner has revised § 132.5(f) in the final order to reflect the comments made regarding the deletion of the phrase "or drug-containing feed concentrates" that appears in two places and the substitution of the term "FD Form 1800" for the term "an antibiotic Form 10."

All other comments have been carefully considered by the Commissioner and, where deemed to be appropriate, have been incorporated into the regulations as set forth below.

In addition to revising the proposal to reflect the comments received, the Commissioner has added to, deleted, and rearranged parts of the proposal as he deemed necessary for the implementation of the proposed regulations.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 502, 505, 506, 507, 510, 512, 701(a), 704; 52 Stat. 1040-1042 as amended, 1050-1053 as amended, 1055, and 1057 as amended; 21 U.S.C. 321, 352, 355, 356, 357, 360, 360(b), 371(a), and 374), the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262), and the Drug Listing Act of 1972 (Public Law 92-387; 86 Stat. 559-562), and under authority delegated to the Commissioner (21 CFR 2.120), Parts 130 and 132 are amended as follows:

1. In Part 130 by adding a new subparagraph (4) to § 130.27(c) as follows:

§ 130.27 Withdrawal of approval of an application.

(4) That the applicant has failed to comply with the notice requirements of section 510(j) (2) of the act.

2. By revising Part 132 to read as follows:

Subpart A—Definitions	
Sec. 132.1	Definitions.
Subpart B—Procedures for Domestic Drug Establishments	
132.2	Who must register and submit a drug list.
132.3	Times for registration and drug listing.
132.4	How and where to register and list drugs.
132.5	Information required in registration and drug listing.
132.6	Updating drug listing information.

Sec. 132.7	Additional drug listing information.
132.8	Notification of registrant; drug establishment registration number and drug listing number.
132.9	Inspection of registrations and drug listings.
132.10	Amendments to registration.
132.11	Misbranding by reference to registration or to registration number.

#### Subpart C—Procedures for Foreign Drug Establishments

132.31	Drug listing requirements for foreign drug establishments.
--------	--

#### Subpart D—Exemptions

132.51	Exemptions for domestic establishments.
--------	---

**AUTHORITY:** Federal Food, Drug, and Cosmetic Act, secs. 201, 502, 505, 506, 507, 510, 512, 701(a), 704; 52 Stat. 1040-1042 as amended, 1050-1053 as amended, 1055, and 1057 as amended; 21 U.S.C. 321, 352, 355, 356, 357, 360, 360(b), 371(a), and 374, the Public Health Service Act, sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262; and the Drug Listing Act of 1972, Public Law 92-387; 86 Stat. 559-562; and authority delegated to Commissioner, 21 CFR 2.120.

#### Subpart A—Definitions

##### § 132.1 Definitions.

(a) The term "act" means the Federal Food, Drug, and Cosmetic Act approved June 25, 1938 (52 Stat. 1040 et seq., as amended, 21 U.S.C. 301-392).

(b) "Establishment" means a place of business under one management at one general physical location. The term includes, among others, independent laboratories that engage in control activities for registered drug establishment (e.g., "consulting" laboratories), manufacturers of medicated feeds and of vitamin products that are "drugs" within the meaning of section 201(g) of the act, human blood donor centers, and animal facilities used for the production or control testing of licensed biologicals.

(c) Manufacture, preparation, propagation, compounding, or processing of a drug or drugs means the making by chemical, physical, biological, or other procedures of any articles which meet the definition of drugs as defined in section 201(g) of the act, and including manipulation, sampling, testing, or control procedures applied to the final product or to any part of the process. The term includes repackaging or otherwise changing the container, wrapper, or labeling of any drug package in furtherance of the distribution of the drug from the original place of manufacture to the person who makes final delivery or sale to the ultimate consumer.

(d) "Commercial distribution" means any distribution of a human drug except pursuant to the investigational use provisions of § 130.3 of this chapter, and any distribution of an animal drug or an animal feed bearing or containing an animal drug for noninvestigational uses but does not include internal or interplant transfer of a bulk drug substance between registered domestic establishments within the same parent, subsidiary, and/or affiliate company.

(e) "Representative sampling of advertisements" means typical advertising material (excluding labeling as determined in § 1.105(1)(2) of this chapter) which gives a balanced picture of the promotional claims being used for the drug (e.g., if more than one medical journal advertisement is used but their promotional content is essentially identical, only one need be submitted).

(f) "Representative sampling of any other labeling" as used in this part means typical labeling material (excluding labels and package inserts) which gives a balanced picture of the promotional claims being used for the drug (e.g., if more than one brochure is used but their promotional content is essentially identical, only one need be submitted).

(g) "Any material change" includes but is not limited to any change in the name of the drug, in the quantity or identity of the active ingredient(s) or in the quantity or identity of the inactive ingredient(s) where quantitative listing of all ingredients is required pursuant to § 132.7(a)(2), any significant change in the labeling of a prescription drug, and any significant change in the label or package insert of an over-the-counter drug. Changes that are not significant include changes in arrangement or printing or changes of an editorial nature.

(h) "Bulk drug substance" means any substance that is represented for use in a drug and when used in the manufacturing, processing, or packaging of a drug becomes an active ingredient or a finished dosage form of such drug, but does not include intermediates used in the synthesis of such substances.

(i) "Advertising" and "labeling" include the promotional material described in § 1.105(1)(1) and (2) of this chapter respectively.

(j) The definitions and interpretations contained in sections 201 and 510 of the act shall be applicable to such terms when used in this Part 132.

#### Subpart B—Procedures for Domestic Drug Establishments

##### § 132.2 Who must register and submit a drug list.

(a) Owners or operators of all drug establishments, not exempt under section 510(g) of the act or Subpart D of this Part 132, that engage in the manufacture, preparation, propagation, compounding, or processing of a drug or drugs are required to register and to submit a list of every drug in commercial distribution (except that listing information may be submitted by the parent, subsidiary, and/or affiliate company for all establishments when operations are conducted at more than one establishment and control among all the establishments). Such owners or operators are required to register and to submit a list of every drug in commercial distribution (except that listing information may be submitted by the parent, subsidiary, and/or affiliate company for all establishments when operations are conducted at more than one establishment and there

exists joint ownership and control among all the establishments), whether or not the output of such establishment or any particular drug so listed enters interstate commerce, except that drug listing is not required at this time for the manufacturing, preparation, propagation, compounding, or processing of an animal feed (including a feed concentrate, a feed supplement, and a complete animal feed) bearing or containing an animal drug.

(b) Distributors which are not otherwise required to register under section 510 of the act, may submit drug listing information directly to the Food and Drug Administration for those drugs which they distribute under their own label or trade name but which are manufactured, prepared, propagated, compounded, or processed by a registered establishment. Where drug listing information is submitted by a distributor, the registration number of the drug establishment which manufactured, prepared, propagated, compounded, or processed the drug shall be included for each drug listed. If a distributor does not elect to obtain a "Labeler Code" the registered establishment shall submit the drug listing information. Such submissions and requests for Labeler Codes shall be made on Form FD-2658 (Registered Establishments' Report of Private Label Distributors). All distributors submitting drug listing information to the Food and Drug Administration assume full responsibility for compliance with all of the requirements of this part. Each distributor at the time of each submission of drug listing information or updating as required under § 132.6 shall so certify to the registered establishment that such submission has been made by providing a signed copy of Form FD-2656 (Registration of Drug Establishment) to the registered establishment which manufactures, prepares, propagates, compounds, or processes the drug. The original of Form FD-2656 (Registration of Drug Establishment) showing such certification shall be submitted to the Food and Drug Administration. Such certification shall be accompanied by a list showing the National Drug Code number assigned to each drug product by the distributor.

(c) Preparatory to engaging in the manufacture, preparation, propagation, compounding, or processing of a drug, owners or operators of establishments who are submitting new drug applications, new animal drug applications, Form FD-1800 (Medicated Feed Application), antibiotic Forms 5 and 6, or an establishment license application in order to manufacture biological products are required to register before the new drug application, new animal drug application, Form FD-1800, antibiotic Form 5 or 6, or establishment license application are approved.

(d) No registration fee is required. Registration and listing do not constitute an admission or agreement or determination that a product is a "drug" within the meaning of section 201(g) of the act.

##### § 132.3 Times for registration and drug listing.

The owner or operator of an establishment entering into an operation defined in § 132.1(c) shall register such establishment within 5 days after the beginning of such operation and submit a list of every drug in commercial distribution at that time. If the owner or operator of the establishment defined in § 132.1(c) has not previously entered into such operation, registration shall follow within 5 days after the submission of a new drug application, new animal drug application, Form FD-1800, antibiotic Form 5 or 6, or an establishment license application in order to manufacture biological products. Owners or operators of all establishments so engaged shall register annually between November 15 and December 31 and shall update their drug listing information every June and December.

##### § 132.4 How and where to register and list drugs.

(a) The first registration of an establishment shall be on Form FD-2656 (Registration of Drug Establishment) obtainable on request from the Department of Health, Education, and Welfare, Food and Drug Administration, Bureau of Drugs, Registration Section, 5600 Fishers Lane, Rockville, MD 20852, or from Food and Drug Administration district offices. Subsequent annual registration shall also be accomplished on Form FD-2656 (Registration of Drug Establishment), which will be furnished by the Food and Drug Administration before November 15 of each year to establishments whose drug registration for that year was validated pursuant to § 132.8. The completed form shall be mailed to the above address before December 31 of that year.

(b) The first list of drugs and subsequent June and December updates shall be on Form FD-2657 (Drug Product Listing), obtainable upon request as described in paragraph (a) of this section. In lieu of Form FD-2657 (Drug Product Listing), tapes for computer inputs may be submitted if equivalent in all elements of information as specified in Form FD-2657 (Drug Product Listing). All formats proposed for such use will require initial review and approval by the Food and Drug Administration.

##### § 132.5 Information required in registration and drug listing.

(a) Form FD-2656 (Registration of Drug Establishment) requires furnishing or confirming information required by the act. This information includes the name and street address of the drug establishment, including post office ZIP code; all trade names used by the establishment; the kind of ownership or operation (that is, individually owned partnership, or corporation); and the name of the owner or operator of such establishment. The term "name of the owner or operator" shall include in the case of a partnership the name of each partner, and in the case of a corporation the name and title of each corporate officer and

director and the name of the State of incorporation. The information required shall be given separately for each establishment, as defined in § 132.1(b).

(b) Form FD-2657 (Drug Product Listing) requires furnishing information required by the act as follows:

(1) A list of drugs, including bulk drug substances and drug premises for use in the manufacture of animal feeds as well as finished dosage forms, by established name as defined in section 502(e) of the act and by proprietary name, which are being manufactured, prepared, propagated, compounded, or processed for commercial distribution and which have not been included in any list previously submitted on Form FD-2657 (Drug Product Listing) or in conjunction with the Food and Drug Administration voluntary inventory on Form FD-2422 (Survey Report of Marketed Drugs), or Form FD-2250 (National Drug Code Directory Input).

(2) For each drug so listed which is regarded by the registrant as subject to section 505, 506, 507, or 512 of the act, the new drug application number, abbreviated new drug application number, new animal drug application number, or Form 5 or Form 6 number, and a copy of all current labeling, except that only one representative container or carton label need be submitted where differences exist only in the quantity of contents statement.

(3) For each drug so listed which is regarded by the registrant as subject to section 351 of the Public Health Service Act, the license number of the manufacturer.

(4) For each human drug so listed which is subject to section 503(b)(1) of the act and regarded by the registrant as not subject to section 505, 506, or 507 of the act or 351 of the Public Health Service Act, and which is not manufactured by a registered blood bank, a copy of all current labeling except that only one representative container or carton label need be submitted where differences exist only in the quantity of contents statement and a representative sampling of advertisements.

(5) For each human over-the-counter drug or each animal drug so listed which is regarded by the registrant as not subject to section 505, 506, 507, or 512 of the act, or 351 of the Public Health Service Act, a copy of the label except that only one representative container or carton label need be submitted where differences exist only in the quantity of contents statement, package insert, and a representative sampling of any other labeling.

(6) For each prescription or over-the-counter drug so listed which is regarded by the registrant as not subject to section 505, 506, 507, or 512 of the act, or 351 of the Public Health Service Act, and which is not manufactured by a registered blood bank, quantitative listing of the active ingredient(s). If the drug is in unit dosage form the statements of the quantity of ingredient shall express the amount, not the percent, of such ingre-

redient in each such unit, unless the quantitative listing is expressed as a percentage in the official compendium. If the drug is not in unit dosage form, the statement of the quantity of an ingredient shall express the amount, not the percent, of such ingredient in a specific unit of weight or measure of the drug unless the quantitative listing is expressed as a percentage in the official compendium, except that for drug premises for use in the manufacture of animal feeds such ingredient which is not an antibiotic may be expressed in terms of percent. If a drug premix has been assigned a Product Code as provided for in § 132.8(b)(2)(iii), the quantitative listing of ingredients may be limited to each variation of level of action drug ingredient.

(7) For each drug listed, the registration number of every drug establishment within the parent company at which it is manufactured, prepared, propagated, compounded, or processed.

(8) For each drug listed, the registration number of every drug establishment within the parent company at which it is manufactured, prepared, propagated, compounded, or processed.

(9) For each drug so listed, the National Drug Code (NDC) number. If no NDC Labeler Code number has been assigned, the Product Code and Package Code will be included and a Labeler Code will be assigned as described in § 132.8(b)(2)(i).

##### § 132.6 Updating drug listing information.

(a) After submission of the initial drug listing information, every person who is required to list drugs pursuant to § 132.2 shall submit on Form FD-2657 (Drug Product Listing) during each subsequent June and December, or at the discretion of the registrant at the time the change occurs, the following information:

(1) A list of each drug introduced by the registrant for commercial distribution which has not been included in any list previously submitted. All of the information required by § 132.5(b) shall be provided for each such drug.

(2) A list of each drug formerly listed pursuant to § 132.5(b) for which commercial distribution has been discontinued, including for each drug so listed the NDC number, the identity by established name and proprietary name, and date of discontinuance. It is requested but not required that the reason for discontinuance of distribution be included with this information.

(3) A list of each drug for which a notice of discontinuance was submitted pursuant to paragraph (a)(2) of this section and for which commercial distribution has been resumed, including for each drug so listed the NDC number, the identity by established name as defined in section 502(e) of the act and by any proprietary name, the date of resumption, and any other information required by § 132.5(b) not previously submitted.

(4) Any material change in any information previously submitted.

(b) When no changes have occurred since the previously submitted list, no report is required.

##### § 132.7 Additional drug listing information.

(a) In addition to the information routinely required by §§ 132.5 and 132.6, the Commissioner may require submission of the following information by letter or by FEDERAL REGISTER notice:

(1) For a particular drug so listed which is subject to section 503(b)(1) of the act and regarded by the registrant as not subject to section 505, 506, or 507 of the act, upon request made by the Commissioner for good cause, a copy of all advertisements.

(2) For a particular drug product so listed which is regarded by the registrant as not subject to section 505, 506, 507, or 512 of the act, upon a finding by the Commissioner that it is necessary to carry out the purposes of the act, a quantitative listing of all ingredients.

(3) For a particular drug product upon request by the Commissioner, a brief statement of the basis upon which the registrant has determined that the drug product is not subject to section 505, 506, 507, or 512 of the act.

(4) For each registrant, upon a finding by the Commissioner that it is necessary to carry out the purposes of the act, a list of each listed drug product containing a particular ingredient.

(b) It is requested but not required that information concerning the quantity of drug distributed be submitted in conjunction with the annual registration in the format prescribed in section of Form FD-2658A (Optional Distribution Data), for each drug currently listed.

(c) It is requested but not required that a qualitative listing of the inactive ingredients be submitted for all listed drugs in the format prescribed in Form FD-2657 (Drug Product Listing).

(d) It is requested but not required that a quantitative listing of the active ingredients be submitted for all drugs listed which are subject to section 505, 506, 507, or 512 of the act or section 351 of the Public Health Service Act.

##### § 132.8 Notification of registrant; drug establishment registration number and drug listing number.

(a) The Commissioner will provide to the registrant a validated copy of Form FD-2656 (Registration of Drug Establishment) as evidence of registration. This validated copy will be sent only to the location shown for the registering establishment. A permanent registration number will be assigned to each drug establishment registered in accordance with these regulations.

(b) A drug listing number will be assigned, using the National Drug Code numbering system, to each drug or class of drugs listed as follows:

(1) If a drug is already listed in the National Drug Code System or in the National Health Related Items Code System, the number will be the same as that assigned pursuant to those codes. A lead zero will be added by the Food and

Drug Administration to the first three characters of the code, which identifies the manufacturer or distributor, to expand the "Labeler Code" segment to four characters. The National Drug Code, Product Code and Package Code configurations used to describe such drugs, or any new drugs added to the product line, will remain the same (i.e., a four-character Product Code and a two-character Package Code). Alphanumeric characters where already used in the Product Code and Package Code segments of the National Drug Code may be retained; however, these alphanumeric characters may be converted to all numeric digits. The manufacturer or distributor shall inform the Food and Drug Administration of such changes.

(2) If a registered establishment or distributor has not previously participated in the National Drug Code system, or in the National Health Related Items Code system, the National Drug Code numbering system will be used in assigning a number, as follows (only numerics will be used):

(i) The first five numeric characters of the 10-character code identify the manufacturer or distributor and are known as the Labeler Code. The Food and Drug Administration will expand the Labeler Code from five to six numeric characters when the available five-character code combinations are exhausted. These code numbers are assigned by the Food and Drug Administration and provided to the registrant along with the validated copy of Form FD-2656 (Registration of Drug Establishment). Any registered firm that does not have an assigned "Labeler Code" will be assigned one when registration and listing information is submitted.

(ii) The last five numeric characters of the 10-character code identify the drug and the trade package size and type. The segment which identifies the drug formulation is known as the Product Code and the segment which identifies the trade package size and type is known as the Package Code. The Product Code and the Package Code shall be assigned by the manufacturer or distributor prior to drug listing and included in Form FD-2657 (Drug Product Listing). Either of two methods may be used by the manufacturer or distributor in assigning the Product and Package Codes; a 3-2 Product-Package Code configuration (i.e., 542-12) or a 4-1 Product-Package Code configuration (i.e., 5421-2). Only one such Product-Package Code configuration may be used by a manufacturer or distributor with a given Labeler Code and this same configuration shall be used in assigning the Product-Package Codes for all drugs included in the drug listing. The manufacturer or distributor shall report to the Food and Drug Administration the Product-Package Code configuration he used in assigning these codes. Once a Product Code has been assigned to a specific drug, this same code may never again be used for any other drug regardless whether the drug has been discontinued.

(iii) If the drug formulation is a custom premix intended for use in the manufacture of an animal feed, a separate Product Code is required only for each variation of level of active drug ingredient.

(3) The NDC number is requested but not required to appear on all drug labels and in all drug labeling, including the label of any prescription drug container furnished to a consumer. If the NDC number is shown on a drug label it shall be placed as follows:

(i) The NDC number shall be placed prominently in the top third of the center panel of the label of the immediate container and of the outside container or wrapper if such there be.

(ii) The NDC number shall be preceded by the initials NDC, in a different color or different type style (font) than that used to print the number if the label is printed rather than typewritten, whenever it is used on a label or in labeling.

(iii) The Product-Package Code configuration shall be indicated and the segments of the number shall be separated by a dash (i.e., NDC 15643-542-12 or NDC 15643-5421-2).

(iv) All 10 characters shall appear and the leading zeros in any segment of the NDC number shall be shown: *Provided, however, That when the NDC number is used for product identification by direct imprinting on dosage forms, leading zeros may be dropped from the Product Code segment of the NDC number.*

(v) The placing of the assigned NDC number on a label or in labeling does not require the submission of a supplemental new drug application, supplemental new animal drug application, or supplemental antibiotic Form 5 or 6.

(4) If any material change occurs in product characteristics (including but not limited to a change in dosage form, active ingredient(s) or active ingredient(s) strength or concentration, route of administration, or product name, etc.) a new NDC number shall be assigned by the registrant to the new product version and the information submitted to the Food and Drug Administration. If a change in packaging code can be revised without the necessity of assigning a new product code segment, but the Food and Drug Administration shall be informed about the new trade package code and characteristics.

(c) Although registration and drug listing are required to engage in the drug activities described in § 132.2, validation of registration and the assignment of a drug listing number do not, in themselves, establish that the holder of the registration is legally qualified to deal in such drugs.

§ 132.9 Inspection of registrations and drug listings.

(a) A copy of the Form FD-2656 (Registration of Drug Establishment) filed by the registrant will be available for inspection pursuant to section 510(f) of the act, at the Department of Health,

Education, and Welfare, Food and Drug Administration, Bureau of Drugs, Registration Section, 5600 Fishers Lane, Rockville, MD 20852. In addition, there will be available for inspection at each of the Food and Drug Administration district offices the same information for firms within the geographical area of such district office. Upon request and receipt of a self-addressed stamped envelope, verification of registration number, or location of a registered concern will be provided.

(1) The following information submitted pursuant to the drug listing requirements is illustrative of the type of information that will be available for public disclosure when it is compiled:

(i) A list of all drug products.

(ii) A list of all drug products broken down by labeled indications or pharmacological category.

(iii) A list of all drug products, broken down by manufacturer.

(iv) A list of a drug product's active ingredients.

(v) A list of drug products newly marketed or where marketing is resumed.

(vi) A list of drug products discontinued.

(vii) All labeling.

(viii) All advertising.

(ix) All data or information that has already become a matter of public knowledge.

(2) The following information submitted pursuant to the drug listing requirement is illustrative of the type of information that will not be available for public disclosure:

(i) Any data or information submitted as the basis upon which it has been determined that a particular drug product is not subject to section 505, 506, 507, or 512 of the act.

(ii) A list of a drug product's inactive ingredients.

(iii) A list of drugs containing a particular ingredient.

(iv) *Provided, That any of the above information will be available for public disclosure if it has already become a matter of public knowledge or if the Commissioner finds that confidentiality would be inconsistent with protection of the public health.*

(b) Requests for information about registrations and drug listings should be directed to the Department of Health, Education, and Welfare, Food and Drug Administration, Bureau of Drugs, Registration Section, 5600 Fishers Lane, Rockville, MD 20852.

§ 132.10 Amendments to registration.

Changes in individual ownership, corporate or partnership structure location or drug-handling activity, shall be submitted by Form FD-2656 (Registration of Drug Establishment) as amendment to registration within 5 days of such changes. Changes in the names of officers and directors of the corporations do not require such amendment but must be shown at time of annual registration.

§ 132.11 Misbranding by reference to registration or to registration number.

Registration of a drug establishment or drug wholesaler or assignment of a registration number or assignment of a NDC number does not in any way denote approval of the firm or its products. Any representation that creates an impression of official approval because of registration or possession of registration number or NDC number is misleading and constitutes misbranding.

Subpart C—Procedures for Foreign Drug Establishments

§ 132.31 Drug listing requirements for foreign drug establishments.

(a) Every foreign drug establishment shall comply with the drug listing requirements contained in Subpart B of this part, unless exempt under Subpart D of this part, whether or not it is also registered.

(b) No drug may be imported from a foreign drug establishment into the United States except a drug imported or offered for import pursuant to the investigational use provisions of § 130.3, unless it is first the subject of a drug listing as required in Subpart B of this part. The drug listing information shall be in the English language.

(c) Foreign drug establishments shall submit as part of the drug listing, the name and address of the establishment and the name of the individual responsible for submitting drug listing information. Any changes in this information shall be reported to the Food and Drug Administration at the intervals specified for updating drug listing information in § 132.6(a).

Subpart D—Exemptions

§ 132.51 Exemptions for domestic establishments.

The following classes of persons are exempt from registration and drug list-

ing in accordance with this Part 132 under the provisions of section 510(g), (1), (2), and (3) of the act, or because the Commissioner has found, under section 510(g)(4), that such registration is not necessary for the protection of the public health.

(a) Pharmacies that are operating under applicable local laws regulating dispensing of prescription drugs and that do not manufacture, prepare, propagate, compound, or process drugs for sale other than in the regular course of the practice of the profession of pharmacy including the business of dispensing and selling drugs at retail. The supplying by such pharmacies of prescription drugs to a practitioner licensed to administer such drugs for his use in the course of his professional practice or to other pharmacies to meet temporary inventory shortages are not acts which require such pharmacies to register.

(b) Hospitals, clinics, and public health agencies which maintain establishments in conformance with any applicable local laws regulating the practices of pharmacy and medicine and which are regularly engaged in dispensing prescription drugs, other than human blood or blood products, upon prescription of practitioners licensed by law to administer such drug for patients under the care of such practitioners in the course of their professional practice.

(c) Practitioners who are licensed by law to prescribe or administer drugs and who manufacture, prepare, propagate, compound, or process drugs solely for use in the course of their professional practice.

(d) Persons who manufacture, prepare, propagate, compound, or process drugs solely for use in research, teaching, or chemical analysis and not for sale.

(e) Manufacturers of harmless inactive ingredients which are excipients, colorings, flavorings, emulsifiers, lubricants, preservatives, or solvents that become components of drugs, and who otherwise would not be required to register under the provisions of this Part 132.

(f) Any person who uses drugs to prepare feed for his own animals: *Provided, That under the act and its regulations such person would not be required to hold an approved new animal drug application (or supplement thereto) or a Form FD-1800 in order to possess and use the drug.*

(g) Any manufacturer of a virus, serum, toxin, or analogous product intended for treatment of domestic animals, who holds an unsuspended and unrevoked license issued by the Secretary of Agriculture under the animal virus-serum-toxin law of March 4, 1913 (37 Stat. 832; 21 U.S.C. 151 et seq.): *Provided, That such exemption from registration shall apply only with respect to the manufacture of such animal virus, serum, toxin, or analogous product.*

(h) Carriers, by reason of their receipt, carriage, holding, or delivery of drugs in the usual course of business as carriers.

*Effective date.* This order shall be effective on March 7, 1973, except that § 132.8(b)(3) shall not be effective for labeling bearing a National Drug Code number printed prior to July 1, 1973. All registered drug establishments and all distributors who voluntarily elect to submit drug listing information shall submit the first drug listing to the Food and Drug Administration during the month of June 1973.

Dated: March 2, 1973.

SHERWIN GARDNER,  
Deputy Commissioner  
of Food and Drugs.

# An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

FAA—Standard instrument approach pro- cedures.....	2443, 1-26-73; 2964, 1-31-73

**federal register**

Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

## Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

### Title 9—Animals and Animal Products CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

#### SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

#### PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, AND HOG CHOLERA: PROHIBITED AND RESTRICTED IMPORTATIONS

#### Restrictions on Importation of Pork and Pork Products From Certain Countries

##### Correction

In FR Doc. 73-2901 appearing on page 4384 in the issue of Wednesday, February 14, 1973, the headings should read as set forth above.

### Title 13—Business Credit and Assistance CHAPTER IV—EMERGENCY LOAN GUARANTEE BOARD

#### PART 402—RULES REGARDING AVAILABILITY OF INFORMATION

Part 402 to Chapter IV of Title 13 reflects the rules and procedures adopted by the Emergency Loan Guarantee Board to comply with the requirements of making information available under the Public Information Act.

1. Effective February 21, 1973, Title 13 is amended by adding a new Part 402 to Chapter IV as follows:

Sec.

402.1 Basis.

402.2 Definition.

402.3 Published information.

402.4 Access to records.

402.5 Exemptions from disclosure.

AUTHORITY: 5 U.S.C. 552.

##### § 402.1 Basis.

This part is issued by the Emergency Loan Guarantee Board (the "Board") pursuant to the requirements of section 552 of title 5 of the United States Code, including the requirements that every Federal agency shall publish in the FEDERAL REGISTER, for the guidance of the public, descriptions of the established places at which, the officers from whom, and the methods whereby, the public may obtain information, make submissions or requests, or obtain decisions.

##### § 402.2 Definition.

"Records of the Board." For purposes of this part, the term "records of the Board" means rules, statements, opinions, orders, memoranda, letters, reports,

accounts, and other papers containing information in the possession of the Board that constitute part of the Board's official files.

##### § 402.3 Published information.

(a) "Federal Register." To the extent required by sections 552 and 553 of title 5 of the United States Code, and subject to the provisions of § 402.5, the Board publishes in the FEDERAL REGISTER for the guidance of the public, in addition to this part, descriptions of its organization and procedures, substantive rules of general applicability, statements of general policy, and interpretations of general applicability. Because of the nature of its functions pursuant to the Emergency Loan Guarantee Act of August 9, 1971 (Public Law 92-70) (the "Act"), the Board normally does not issue any substantive rules of general applicability, statements of general policy, or interpretations of general applicability.

(b) Annual report. As required by section 12 of the Act, the Board submits to the Congress annually a full report of its operations under the Act and such report is made public immediately after its submission to the Congress.

(c) Other published information. From time to time, the Board issues statements to the press relating to its operations.

(d) Obtaining published information. If not otherwise available through the Government Printing Office, published information released by the Board may be obtained without cost from the Secretary of the Board, Main Treasury Building, Washington, D.C. 20220.

##### § 402.4 Access to records.

(a) General rule. All records of the Board, including information set forth in section 552(a)(2) of title 5 of the United States Code, are made available to any person, upon request, for inspection and copying in accordance with the provisions of this section and subject to the limitations stated in § 402.5. Records falling within the exemptions from disclosure set forth in section 552(b) of title 5 of the United States Code and in § 402.5 may nevertheless be made available in accordance with this section to the fullest extent consistent, in the Board's judgment, with the effective performance of the Board's statutory responsibilities and with the avoidance of injury to a public or private person intended to be protected by such exemptions.

(b) Obtaining access to records. Records of the Board subject to this section

are available by appointment for public inspection or copying during regular business hours on regular business days at the office of the secretary of the Board. Every request for access to such records, other than published records described in § 402.3, shall be submitted in writing to the secretary of the Board, shall state the name and address of the person requesting such access, and shall describe such records in a manner reasonably sufficient to permit their identification without undue difficulty; and such person shall pay a fee in an amount based upon \$5 per hour for the time required to locate such records and prepare them for inspection, plus 10 cents per standard page for any copying thereof. For making available a record by mail an appropriate fee will be charged to cover the cost of postage and any packaging or special handling.

##### § 402.5 Exemptions from disclosure.

(a) General rule. Except as otherwise provided in this part or as may be specifically authorized by the Board, information in the records of the Board that has not been published in accordance with § 402.3 and is determined by the secretary of the Board, subject to the appeal provided in § 402.6, is not available to the public through other sources will not be made available for inspection and copying if such information is exempted from required disclosure by the provisions of section 552(b) of title 5 of the United States Code.

(b) Deletion of identifying details. Before any records are made available under § 402.4(a) any identifying details the disclosure of which would be an unwarranted invasion of personal privacy will be deleted by the secretary of the Board and justification therefor will be made in writing.

(c) Prohibition against disclosure. Except as provided in this part, no officer, employee, or agent of the Board shall disclose or permit the disclosure of any exempt information, as defined in § 402.5(a) or § 402.5(b), of the Board to anyone (other than an officer, employee, or agent of the Board properly entitled to such information for the performance of his official duties), whether by giving out or furnishing such information or a copy thereof or by allowing any person to inspect or copy such information or copy thereof, or otherwise.

##### § 402.6 Appeal.

(a) Any person denied access to records requested under § 402.4 may within 30 days after notification of such denial,

file an appeal to the Executive Director of the Emergency Loan Guarantee Board. Such an appeal shall be in writing addressed to the Executive Director of the Emergency Loan Guarantee Board, c/o The Department of the Treasury, Washington, D.C. 20220. The appeal shall provide the name and address of the appellant, the identification of the record denied, and the dates of the original request and its denial.

(b) The appeal will be promptly considered. The granting or denial of the request upon appeal shall constitute final agency action.

2a. This action is taken pursuant to and in accordance with the provisions of section 552 of title 5 of the United States Code.

b. The provisions of section 553 of title 5, United States Code, relating to notice and public participation and to deferred effective dates, are not followed in connection with the adoption of this action, because the rules involved are procedural in nature and accordingly do not constitute substantive rules subject to the requirements of such section.

Dated: February 26, 1973.

TIMOTHY G. GREENE,  
Secretary, Emergency  
Loan Guarantee Board.

#### Title 14—Aeronautics and Space CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 11802; Amdt. 61-80]

#### PART 61—CERTIFICATION: PILOTS AND FLIGHT INSTRUCTORS

##### Miscellaneous Amendments; Correction

The purpose of this correction is to supply language inadvertently omitted from the lead-in statement in § 61.87(d) of Amendment 61-60 published in the FEDERAL REGISTER on February 1, 1973 (38 FR 3156), to become effective November 1, 1973. The correction is consistent with the proposal in Notice 72-9.

Accordingly, the lead-in statement in paragraph (d) of § 61.87 of Amendment 61-60, published in the FEDERAL REGISTER on February 1, 1973 (38 FR 3172; FR Doc. 73-1899), is corrected to read as follows:

§ 61.87 Requirements for solo flight.

(d) *Flight instructor endorsements.* A student pilot may not operate an aircraft in solo flight unless his student pilot certificate is endorsed, and unless within the preceding 90 days his pilot logbook has been endorsed, by an authorized flight instructor who—

Issued in Washington, D.C., on March 1, 1973.

J. H. SHAFFER,  
Administrator.

## RULES AND REGULATIONS

[Airspace Docket No. 72-NW-27]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Transition Area

On January 19, 1973, a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 1938) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Bellingham, Wash., transition area.

Interested persons were given 30 days in which to submit written comments. No objections to the proposed amendment were received.

In consideration of the foregoing, the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., May 24, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Wash., on February 28, 1973.

C. B. WALK, Jr.,  
Director, Northwest Region.

In § 71.181 (38 FR 435) the description of the Bellingham, Wash., transition area is amended as follows:

To the text add, "and within 3.5 miles north and 8 miles south of the 288° bearing from Lummi NDB (latitude 48°47'38" N.; longitude 122°32'08" W.) extending from the NDB 11.5 miles west of the NDB."

[FR Doc. 73-4411 Filed 3-7-73; 8:45 am]

[Airspace Docket No. 72-NW-26]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Transition Area

On January 17, 1973, a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 1644) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Idaho Falls, Idaho, transition area.

Interested persons were given 30 days in which to submit written comments. No objections to the proposed amendment were received.

In consideration of the foregoing, the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., May 24, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Wash., on February 28, 1973.

C. B. WALK, Jr.,  
Director, Northwest Region.

In § 71.181 (38 FR 435) the description of the Idaho Falls, Idaho, transition area is amended as follows:

In line 2 of the text, delete, "... extending from 21.5 miles northeast ... " and substitute therefor, "... extending from 25.5 miles northeast ... "

[FR Doc. 73-4412 Filed 3-7-73; 8:45 am]

[Docket No. 12573; Amdt. No. 854]

#### PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

##### Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making docket of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of \$150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for \$30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAP's effective March 22, 1973.

Mosinee, Wis.—Central Wisconsin Airport, VOR-A, Amdt. 1.

... effective March 15, 1973.

New Castle, Ind.—New Castle-Henry County Municipal Sky Castle Airport, VOR Runway 27, Original.

## RULES AND REGULATIONS

... effective February 27, 1973.

Valdosta, Ga.—Valdosta Municipal Airport, VOR Runway 35, Amdt. 20.

2. Section 97.25 is amended by originating, amending, or canceling the following SDF-LOC-LDA SIAP's effective March 22, 1973.

Mosinee, Wis.—Central Wisconsin Airport, LOC Runway 8, Original.  
Mosinee, Wis.—Central Wisconsin Airport, LOC (BC) Runway 26, Original.  
Philadelphia, Pa.—Philadelphia International Airport, LOC (BC) Runway 27R, Original.

... effective February 22, 1973.

Christiansburg, St. Croix, V.I.—Alexander Hamilton Airport, LOC Runway 9, Amdt. 1.

3. Section 97.27 is amended by originating, amending, or canceling the following NDB/ADF SIAP's effective April 19, 1973.

Youngstown, Ohio—Lansdowne Airport, NDB-A, Amdt. 3.

... effective February 22, 1973.

Christiansburg, St. Croix, V.I.—Alexander Hamilton Airport, NDB Runway 9, Amdt. 1.

4. Section 97.29 is amended by originating, amending, or canceling the following ILS SIAP's effective February 23, 1973.

Lebanon, N.H.—Lebanon Regional Airport, ILS Runway 7, Amdt. 1.

... effective February 22, 1973.

Pontiac, Mich.—Oakland-Pontiac Airport, ILS Runway 9, Amdt. 1.

(Secs. 307, 313, 801, 1110, Federal Aviation Act of 1958; 49 U.S.C. 1438, 1354, 1421, 1610; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c) and 5 U.S.C. 552(a)(1))

Issued in Washington, D.C., on March 1, 1973.

C. R. MELUGIN, Jr.,  
Acting Director,  
Flight Standards Service.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (38 FR 5610) approved by the Director of the Federal Register on May 12, 1969.

[FR Doc. 73-4413 Filed 3-7-73; 8:45 am]

#### Title 17—Commodity and Securities Exchanges

#### CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-10020]

#### PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

##### Continued Suspension of Exempted Securities

On January 30, 1973, in Securities Exchange Release No. 9974 (38 FR 4401), the Commission suspended the operation of paragraph (m) of Rule 15c3-3 under the Securities Exchange Act of 1934 as

Paragraph (m) of Rule 15c3-3 requires that if a broker-dealer executes a sell order for a customer and if for any reason the broker-dealer has not obtained possession of the securities from the customer within 10 business days after settlement date, the broker-dealer shall immediately thereafter close the transaction by purchasing securities of like kind and quantity.

to sell orders for exempted securities (e.g., U.S. Government and municipal obligations) until March 1, 1973, and requested comments of interested persons by February 20, 1973, regarding the operational problems encountered by customers in making deliveries of exempted securities within the designated time frame of paragraph (m). It was stated in Release No. 9974, that it had been represented to the Commission that the application of paragraph (m) to exempted securities may create operational hardships with respect to the delivery of exempted securities, and, in this connection, the Commission had been requested to reconsider the applicability of the rule with respect to exempted securities, particularly with regard to paragraph (m).

The Commission has received numerous comments on the operational problems encountered by applying paragraph (m) to exempted securities. As most of these comments were received on or around February 20, the Commission is still in the process of reviewing them. As it does not appear that this review will be completed by March 1, the Commission has determined to continue the suspension of the operation of paragraph (m) as to sell orders for exempted securities until April 10, 1973. After reviewing the comments, the Commission will set forth its views on this matter.

Broker-dealers are reminded that paragraph (m) remains in effect as to sale transactions by all customers, including financial institutions, with regard to all securities other than exempted securities.

The continued suspension of paragraph (m) with regard to exempted securities relieves a restriction within the meaning of 5 U.S.C. 553(d) and is effective March 1, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,  
Secretary.

MARCH 1, 1973.

[FR Doc. 73-4458 Filed 3-7-73; 8:45 am]

#### Title 26—Internal Revenue CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY SUBCHAPTER A—INCOME TAX (T.D. 7265)

#### PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

##### Percentage To Be Used by Foreign Life Insurance Companies in Computing Income Tax for the Taxable Year 1972 and Estimated Tax for the Taxable Year 1973

This document contains the proclamation of the Secretary of the Treasury of a percentage to be used in determining a "minimum figure" for each foreign corporation carrying on a life insurance business, as provided for under section 819 of the Internal Revenue Code of 1954 (see 26 CFR 1.819).

Where this minimum figure exceeds such a corporation's surplus held in the United States, the amount of the "policy and other contract liability requirements" (determined under section 805 without regard to section 819), and the amount of the "required interest" (de-

termined under section 809(a) without regard to section 819), must each be reduced by an amount determined by multiplying such excess by the "current earnings rate" (as defined in section 805(b)(2)).

It is hereby determined that for purposes of computing the 1972 income tax for foreign corporations carrying on a life insurance business a percentage of 15.1 shall be used in determining the "minimum figure" under section 819.

It is presently anticipated that the data with respect to domestic life insurance companies for 1972 required for the computation of the percentage to be used by foreign corporations carrying on a life insurance business in computing their estimated tax for the taxable year 1973 will not be available in time for the filing of the declaration of estimated tax for such taxable year. Accordingly, it is hereby determined that for purposes of computing the estimated tax for the taxable year 1973 and payments of installments thereof by such corporation a percentage of 15.1 (the percentage applicable for 1972) shall be used in determining the minimum figure under section 819. No additions to tax shall be made because of any underpayment of estimated tax for the taxable year 1973 which results solely from the use of this percentage.

Because the percentage announced in this Treasury decision is computed from information contained in the income tax returns of domestic life insurance companies for the year 1971, which are not open to public inspection, the public accordingly cannot effectively participate in the determination of such figure. Therefore, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under subsection (b) of 5 U.S.C. 553 or subject to the effective date limitation of subsection (d) of that section.

[SEAL] FREDERIC W. HICKMAN,  
Assistant Secretary  
of the Treasury.

MARCH 3, 1973.

[FR Doc. 73-4504 Filed 3-7-73; 8:45 am]

[T.D. 7264]

#### PART 12—TEMPORARY INCOME TAX REGULATIONS UNDER THE REVENUE ACT OF 1971

##### Transfer to a DISC of Assets of Export Trade Corporation

This document contains amendments to § 12.5 of the Income Tax Regulations, which was promulgated in 26 CFR Part 12 and published in 37 FR 26007 for December 7, 1972, in order to conform the regulations to section 505 of the Revenue Act of 1971 (85 Stat. 551).

Under section 505(c) of the Revenue Act of 1971, no corporation may qualify as an export trade corporation unless it qualified prior to October 31, 1971. Section 505(b) provides for a tax-free transfer of the business of an existing export trade corporation to a DISC without the need of complying with section 367 and the other provisions of sections 354 through 368 of the Internal Revenue

Code. Section 12.5 of the Income Tax Regulations, which is hereby amended, provides rules for the transfer, including an indirect transfer, to a DISC of assets of an export trade corporation under section 505.

The amendments to § 12.5 contained herein clarify the applicability of such rules to transactions in which there is integrally involved the transfer of stock of the export trade corporation as well as a transfer of its assets. If the export trade corporation does not receive consideration for the stock or assets, then, with one possible exception, no gain or loss shall be recognized by, and no constructive dividend shall be included under section 301 of the Internal Revenue Code in the gross income of, the DISC, the export trade corporation, or their common parent by reason of the transaction.

The one exception is that if a party other than the export trade corporation receives consideration for the transfer of stock the rules of § 12.5 and section 505 do not prevent the recognition of so much of the gain realized by such party as is solely attributable to receiving such consideration and do not prevent the attribution of such recognized gain to the common parent. The amount of such gain is not adjusted by reason of section 482 of the Internal Revenue Code.

*Amendments to the regulations.* In order to clarify the applicability of section 505 of the Revenue Act of 1971 (85 Stat. 551) and § 12.5 of the Income Tax Regulations (26 CFR Part 12) to certain transactions involving the transfer to a DISC of stock and assets of an export trade corporation, paragraphs (a) and (b) of § 12.5 are hereby amended to read as follows:

**§ 12.5 Transfer to a DISC of assets of export trade corporation.**

(a) *In general.* (1) Section 505 of the Revenue Act of 1971 (85 Stat. 551) permits, subject to certain adjustments, certain tax-free transactions involving a transfer of property by an export trade corporation (as defined in section 971) to a DISC (as defined in section 992(a)).

(2) For purposes of this section, all statutory references are to the Internal Revenue Code of 1954 except that references to section 505 are to the Revenue Act of 1971. All terms used in this section shall have the same meaning as when used in such Code.

(b) *Direct, indirect, and other transfers.* (1) Under section 505(b)(1), if during a taxable year of an export trade corporation beginning before January 1, 1976, such export trade corporation without receiving consideration directly transfers property to a DISC, if all of the outstanding stock of each of such corporations is owned by a common parent, and if certain other conditions are met, then, among other consequences enumerated in section 505, notwithstanding section 367 or any other provision of Chapter 1 of the Code, no gain or loss shall be recognized by, and no constructive dividend shall be includible in the

gross income of the export trade corporation, the parent, or the DISC by reason of such transaction. If, instead of a direct transfer from the export trade corporation to the DISC, the parties enter into an indirect transfer in which the property is distributed by the export trade corporation to the parent without receiving consideration and immediately thereafter is transferred by the parent to the DISC, then for purposes of section 505(b) the transaction will be treated as a direct transfer by the export trade corporation to the DISC, but only if—

(1) It is shown to the satisfaction of the Commissioner or his delegate that such indirect transfer of the property was carried out for bona fide business reasons, and

(2) Each U.S. person (as defined in section 7701(a)(30)) which is a party to the indirect transfer enters into a closing agreement under section 7121 which provides that each of the tax consequences enumerated in section 505(b) shall apply.

(2) Subparagraph (1) of this paragraph shall apply also to:

(i) Any other indirect transfer of property of the export trade corporation to the DISC if section 505 would be applicable to a direct transfer of such property by the export trade corporation to the DISC, and

(ii) Any transaction as a part of which the stock of the export trade corporation is transferred to the DISC prior to a direct transfer of the property of the export trade corporation to the DISC.

If all of the parties to such indirect transfer or transaction meet the 100 percent stock ownership requirement set forth in paragraph (c) of this section.

(3) A transaction described in subparagraph (2) of this paragraph includes any transaction in which the common parent or its wholly owned subsidiary acquires the stock of the export trade corporation without any consideration paid directly or indirectly to the export trade corporation. Thus, except as otherwise provided in this subparagraph, no gain or loss is recognized by, and no constructive dividend is includable under section 301 in the gross income of, the export trade corporation, the common parent, or the DISC by reason of such transaction. If, in exchange for such transfer of stock, a party, other than the export trade corporation, receives consideration and realizes gain, then subparagraph (1) of this paragraph and section 505 do not apply with respect to the amount realized by such party (determined without regard to section 482) and thus do not prevent recognition of such gain and, for example, the application of section 951 to the parent of such party with respect to such gain.

Because of the need for immediate guidance with respect to the provisions contained in this Treasury decision, it is found impracticable to issue it with

notice and public procedure thereon under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,  
Commissioner of Internal Revenue.

Approved: March 3, 1973.

FREDERIC W. HICKMAN,  
Assistant Secretary  
of the Treasury.

#### Title 29—Labor CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR

##### PART 511—WAGE ORDER PROCEDURE FOR PUERTO RICO, THE VIRGIN ISLANDS, AND AMERICAN SAMOA

###### Compensation of Committee Members

Pursuant to authority in section 5 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, as amended; 29 U.S.C. 205) and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), I hereby amend 29 CFR 511.4 to read as set forth below. The purpose of this amendment is to increase the compensation of each member of an industry committee from \$90 to \$95 for each day spent in the work of the committee.

As this amendment concerns only a rule of agency practice, and is not substantive, notice of proposed rule making, opportunity for public participation, and delay in effective date are not required by 5 U.S.C. 553. It does not appear that such participation or delay would serve a useful purpose. Accordingly, this revision shall be effective immediately.

###### § 511.4 Compensation of committee members.

Each member of an industry committee will be allowed a per diem of \$95 for each day actually spent in the work of the committee, and will, in addition, be reimbursed for necessary transportation and other expense incident to traveling in accordance with Standard Government Travel Regulations then in effect. All travel expenses will be paid on travel vouchers certified by the Administrator or his authorized representative. Any other necessary expenses which are incidental to the work of the committee may be incurred by the committee upon approval of, and shall be paid upon certification of, the Administrator or his authorized representative.

(Sec. 5, 52 Stat. 1062, as amended; 29 U.S.C. 205)

Signed at Washington, D.C., this 2d day of March 1973.

BEN P. ROBERTSON,  
Acting Administrator, Wage and  
Hour Division, United States  
Department of Labor.

#### Title 40—Protection of Environment CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

##### SUBCHAPTER C—AIR PROGRAMS

##### PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

###### Maintenance of National Ambient Air Quality Standards

On April 30, 1971, pursuant to section 109 of the Clean Air Act, as amended, the Administrator promulgated national primary and secondary ambient air quality standards for six pollutants. The Act requires that the primary standards protect the public health with an adequate margin of safety and that the secondary standards protect the public welfare from any known or anticipated adverse effects. Under section 110 of the Act, States are required to prepare and submit to the Administrator plans for implementing the national ambient air quality standards in each air quality control region in the State. The Administrator published on May 31, 1972, his initial approvals and disapprovals of the State implementation plans developed and submitted under these provisions of Federal law.

On January 31, 1973, the U.S. Court of Appeals for the District of Columbia Circuit decided the case of "Natural Resources Defense Council, Inc., et al. v. Environmental Protection Agency" (Civil Action No. 72-1522) and seven other related cases. The Court's order required the Administrator to review within 30 days from the date of the order the maintenance provisions of all State implementation plans that were approved on May 31. The Administrator was directed to disapprove plans "which do not provide for measures necessary to insure the maintenance of the primary standard after May 31, 1975, and those plans which do not analyze the problem of maintenance of standards in a manner consistent with applicable regulations."

The Administrator has completed his review as required by the court order. This further examination of State plans confirmed that no State plan contained adequate growth projections for any significant period of time into the future. Moreover, it is recognized that maintenance of standards cannot be insured simply by projecting future growth and

curtailing present emissions in order to provide opportunities for this future growth of emission sources. Since the plans must provide for maintenance of the standards over an indefinite period of time, it is the Administrator's determination that the most practical manner in which to adequately and effectively provide for maintenance of the standards at this time is to require State plans to contain procedures by which each State will review a wide range of new sources and causes of air pollution and will have the authority to prevent the development of such sources or causes where necessary to insure that the standards are maintained.

Maintenance is partially insured by the provisions of 40 CFR 51.18 which require each State plan to have adequate procedures to review, and where necessary prevent, the construction or modification of any stationary source at a location where emissions from that source would result in interference with the attainment or maintenance of a national standard or with the State control strategy. Where State plans were judged inadequate in this respect, the Administrator has promulgated or will promulgate such regulations. In addition, new source performance standards promulgated by the Administrator under section 111 of the Act and motor vehicle emission standards promulgated under section 202 will also serve to mitigate the impact of growth.

However, these measures, by themselves, are not adequate to insure the maintenance of standards, particularly for air pollutants emitted largely by motor vehicles. Nor do they deal with the problem of emissions generated not by the facility being constructed but by sources associated with such facility, including general urban and commercial development. In the Administrator's judgment, it is also necessary to require States to review, and where necessary prevent, the construction of facilities which may result in increased emissions from motor vehicle activity or emissions from stationary sources that could cause or contribute to violations of national ambient air quality standards. Such facilities generally are designated "complex sources." EPA guidelines did not require this and the review of State plans indicates that no State included such a provision in its implementation plan. Accordingly, in order to comply with the court order, it has been determined that all State plans must be disapproved to the extent that they do not contain provisions which will permit the review, and provide the authority to prevent, the construction, modification, or operation of complex sources at a location where emissions associated with such source would result in violation of a national standard or the State's control strategy.

The action taken herein to disapprove State implementation plans with respect to their lack of provisions for review of complex sources is not intended to affect, and should not be construed as affecting, the validity of prior approvals of State plans by the Administrator or prior promulgation of regulations to correct State plan deficiencies. Provisions of approved or promulgated plans remain in effect and are enforceable by the State and/or Federal Government in accordance with the provisions of the Clean Air Act.

The Administrator has also determined that many States' procedures for the review of stationary sources, and the consequent authority to disapprove the construction or modification of any such source where it would interfere with the maintenance of a national standard, contain a variety of exemptions so that certain sources need not be reviewed by the State prior to construction or modification. While such exemptions will not necessarily interfere with the ability of the State to attain the national standards, the exempted sources may, at some time in the future, comprise significant sources of air pollution which should be reviewed in order to insure maintenance of the standards. Accordingly, the Administrator will also set forth a regulation that will specify a limitation on the sources that may be exempted from a new source review procedure.

In order to correct the disapprovals set forth in this document, the Administrator will require States, where necessary, to revise their review procedures for construction or modification of sources. He will also require all States to adopt and submit to him a legally enforceable procedure for reviewing the impact of the construction or modification of a "complex source" and for preventing the construction or modification of such complex source where necessary to attain and maintain a national standard or to prevent interference with the State control strategy. The Administrator will propose amendments to 40 CFR Part 51 which will set forth such requirements. This document is intended to be an advance notice of proposed rule making and will appear at page 6290 of this issue.

The complex source review procedures will also be required as part of the plan for attainment of the standards. EPA is continuing to review the problem of maintenance of standards to determine other techniques or procedures that could be employed by States as part of their plans.

At the present time, the Environmental Protection Agency is preparing draft regulations which will identify the types of facilities to be covered by complex source regulations and some of the factors to be considered in determining the impact that such facilities will have on air quality, as a result of emissions directly from such facilities and from air pollution sources associated with them.

A complex source is generally defined as a facility that has or leads to secondary or adjunctive activity which emits or may emit a pollutant for which there is a national standard. These sources include, but are not limited to:

- (1) Shopping centers;
- (2) Sports complexes;
- (3) Drive-in theaters;
- (4) Parking lots and garages;
- (5) Residential, commercial, industrial, or institutional developments;

(6) Amusement parks and recreational areas;

(7) Highways;

(8) Sewer, water, power, and gas lines;

and other such facilities which will result in increased emissions from motor vehicles or other stationary sources. The regulation will further provide that each State must have procedures whereby, prior to construction or modification of such sources, the State will be able to determine whether the construction or modification of the complex source would cause violations of the applicable portions of a control strategy or interfere with the attainment or maintenance of the national ambient air standards. States will be required to have the authority to disapprove the construction or modification where it would have such a result. The regulation will set forth the basic minimum considerations which should be addressed by a State before it can approve or disapprove any such construction or modification. States should begin now to determine their legal authority to adopt such a regulation, and to obtain such authority where it is lacking.

The order of the court on January 31, 1973, required the Administrator, upon disapproval of State plans, to direct States to submit approval provisions for maintaining the standards by April 15, 1973. Since this does not provide States with adequate time to develop corrective regulations and submit them to the Administrator in accordance with the procedural requirements of 40 CFR 51.4, the Administrator has applied to the court for a modification of that order to defer submittal of plans by the States until after the promulgation of the amendments to Part 51 establishing the requirement of a complex source provision. The new timetable requested from the court would permit proposal of the amendment to 40 CFR Part 51 on April 15 with the final regulation being promulgated by June 11, 1973. State plans providing for maintenance of the standards and containing such a procedure would have to be submitted by August 15. Should the court not modify its order, States will have to submit their plan for maintenance of the standards by April 15, 1973. Should the court grant the motion, the disapproval prescribed below will be amended to set forth the later date for submittal of the plans.

The amendments set forth below are effective from the date of publication in the FEDERAL REGISTER since the amendments are made pursuant to a court order which requires the Agency to disapprove the State plans which do not provide for maintenance of the primary standards.

Dated: March 2, 1973.

WILLIAM D. RUCKELSHAUS,  
Administrator,  
Environmental Protection Agency.

Subpart A of Part 52, Chapter I, Title 40 of the Code of Federal Regulations is amended by adding § 52.22 as follows:

#### § 52.22 Maintenance of national standards.

Subsequent to January 31, 1973, the Administrator reviewed again State implementation plan provisions for insuring the maintenance of the national standards. The review indicates that State plans generally do not contain regulations or procedures which adequately address this problem. Accordingly, all State plans are disapproved with respect to maintenance because such plans lack enforceable procedures or regulations for reviewing and preventing construction or modification of facilities which will result in an increase of emissions from State plans are disapproved with respect to other sources of pollutants for which there are national standards. The disapproval applies to all States listed in Subparts B through DDD of this part. Nothing in this section shall invalidate or otherwise affect the obligations of States, emission sources, or other persons with respect to all portions of plans approved or promulgated under this part. Pursuant to an order of the U.S. Court of Appeals for the District of Columbia Circuit entered on January 31, 1973, State plans providing for maintenance of the national standards must be submitted to the Administrator no later than April 15, 1973.

#### Title 41—Public Contracts and Property Management CHAPTER I—FEDERAL PROCUREMENT REGULATIONS

##### PART 1-15—CONTRACT COST PRINCIPLES AND PROCEDURES Miscellaneous Amendments

###### Correction

In FR Doc. 73-3376, appearing at page 4753 in the issue of Thursday, February 22, 1973, the following changes should be made:

1. On page 4755, directly under § 1-15.306-4(a), place a line of five stars.
2. In the first line of paragraph (g) of § 1-15.309-7, in the second column on page 4757, after the word "charging", insert "personal services. Budget estimates on a".
3. In the second column on page 4758, directly above § 1-15.309-13, place a line of five stars.

#### Title 43—Public Lands: Interior CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR SUBCHAPTER E—FOREST MANAGEMENT (5000) [Circular 2339]

##### SALES OF FOREST PRODUCTS Timber Sale Contract Procedures

On page 26114 of the FEDERAL REGISTER of December 8, 1972, there was published a notice and text of a proposed amendment to Group 5400 of Title 43, Code of Federal Regulations. The purpose of the amendment is to update the regulations

relating to timber sale contracts and bidding procedures. These changes include definition of "loading point," permission to submit a payment bond to assure payment for timber to be cut, revision and clarification of bidding procedures, provision for the resale of timber involved in uncompleted contracts, and extension of the maximum term for a timber contract from 30 to 36 months.

Interested persons were given until January 8 to submit comments, suggestions, or objections to the proposed amendment. No comments were received. However, it has been determined that the format of portions of the proposal would be more self-explanatory if the text was rearranged. Accordingly, several editorial changes are made and the proposed amendments to §§ 2451.2, 2451.4, and 2461.2 are revised.

Since these are nonsubstantive modifications, the proposed amendment is hereby adopted, as revised, and is set forth below in its entirety. This amendment shall become effective July 1, 1973.

JOHN C. WHITAKER,  
Acting Secretary  
of the Interior.

MARCH 1, 1973.

Group 5400 of Chapter II of Title 43 of the Code of Federal Regulations is amended as follows:

#### PART 5400—SALES OF FOREST PRODUCTS; GENERAL

1. In § 5400.0-5 a new paragraph (m) is added to read as follows:

##### § 5400.0-5 Definitions.

(m) "Loading point" means any landing or other area in which logs are capable of being loaded for transportation out of the contract area; *Provided, however*, That right-of-way timber which has been cut shall not be considered to be at a loading point until such time as logs from any source are actually transported over that portion of the right-of-way.

#### PART 5440—CONDUCT OF SALES

##### Subpart 5441—Advertised Sales

2. In § 5441.1-1 the last sentence is amended to read as follows:

##### § 5441.1-1 Bid deposits.

... The deposit of the successful bidder will be applied on the purchase price at the time the contract is signed by the authorized officer unless the deposit is a corporate surety bid bond or a bond is accepted by the Bureau to secure payment of the first installment.

3. Subpart 5442 is revised to read as follows:

##### Subpart 5442—Bidding Procedure

Sec. 5442.1 Procedure.  
5442.2 Resale of timber from uncompleted contracts.  
5442.3 Rejection of bids; waiver of minor deficiencies.

AUTHORITY: Sec. 5, 50 Stat. 875, 61 Stat. 631, as amended, 69 Stat. 367; 43 U.S.C. 1181e, 30 U.S.C. 601 et seq.

#### § 5442.1 Bidding.

(a) Bidding at competitive sales shall be conducted by the submission of sealed bids, written bids, oral bids, or a combination of bidding methods as directed by the authorized officer.

(b) In sealed bid sales, the bidder submitting the highest sealed bid shall be declared the high bidder. In the event of a tie in high sealed bids, the high bidder shall be determined by lot from among those who submitted the tie bids.

(c) In oral auction sales, submission of the required minimum bid deposit and a written bid at not less than the advertised appraised price shall be required to participate in oral bidding. The officer conducting the sale shall declare a specific period, prior to oral bidding on each tract, during which bid deposits and written bids may be submitted. Bid deposits and written bids also may be submitted any time prior to the specific period declared by the officer conducting the sale. Oral bidding to determine the high bidder shall begin from the highest written bid after closure of the submittal period. In the event there is a tie in high written bids, and no oral bidding occurs, the bidder who was the first to submit his bid deposit and written bid shall be declared the high bidder. If the officer conducting the sale cannot determine who made the first submission of high tie written bids, the high bidder shall be determined by lot. The declared high bidder must confirm his oral bid in writing immediately after the sale, but failure to do so shall not relieve him of his purchase obligation.

#### § 5442.2 Resale of timber from uncompleted contracts.

(a) Except as otherwise provided in this section, in the resale of timber remaining from an uncompleted timber sale contract, no bid will be considered from any person, or from an affiliate of such person, who failed to complete the original contract because of: (1) Cancellation for purchaser's breach; or (2) failure to cut designated timber on portions of the sale area and complete payment by the expiration date. As used in this section: "person" means an individual, partnership, corporation, or association; an "affiliate" means a person who controls or is controlled by another person.

(b) The provisions of paragraph (a) of this section shall apply only: (1) When 50 percent or more of the timber included in the resale is timber remaining from the uncompleted contract; or (2) when imposed because of failure to cut designated timber on portions of the sale area and to complete payments by the expiration date on contracts awarded after the effective date of this regulation.

#### § 5442.3 Rejection of bids; waiver of minor deficiencies.

When the authorized officer determines it to be in the interest of the Government to do so, he may reject any or all bids and may waive minor deficiencies in the bids or the timber sale advertisement.

#### PART 5450—AWARD OF CONTRACT

##### Subpart 5450—Award of Contract; General

##### § 5450.1 [Amended]

4. In § 5450.1 the third sentence of paragraph (a) and the first sentence of paragraph (b) are amended by changing "required performance bond" to read "required performance bond and any required payment."

5. Subpart 5451 is amended as follows: The heading of Subpart 5451 is amended by changing "Performance Bond" to read "Bonds", the heading of § 5451.1 is amended by changing "Minimum bond requirements; types." to read "Minimum performance bond requirements; types."; § 5451.2 is revised, the heading of § 5451.3 is amended by changing "Bond reduction" to read "Performance bond reduction", and a new § 5451.4 is added. As amended Subpart 5451 reads as follows:

##### Subpart 5451—Bonds

##### § 5451.1 Minimum performance bond requirements; types.

Sec. 5451.1 Minimum performance bond requirements; types.  
5451.2 Performance bonds in excess of minimum.  
5451.3 Performance bond reduction.  
5451.4 Payment bond.

AUTHORITY: Sec. 5, 50 Stat. 875, 61 Stat. 631, as amended, 69 Stat. 367; 43 U.S.C. 1181e, 30 U.S.C. 601 et seq.

##### § 5451.2 Performance bonds in excess of minimum.

(a) To obtain permission for the delayed payment of the first installment, the purchaser must increase the minimum performance bond required by § 5451.1(a) by an amount equal to the first installment. The increased bond must be on a form approved by the Director and upon completion must be approved by the authorized officer. If a bond of corporate surety is used, the bond shall provide that the surety will make payment to the Bureau of the amount of the increase within 60 days after demand therefor by the Bureau whenever the purchaser shall fail to make payment as required by § 5461.2(a)(2) of this chapter.

(b) To obtain permission to cut timber before payment of the second or a subsequent installment the purchaser must increase the minimum performance bond required by § 5451.1(a) by an amount equal to one or more installment payments, as determined by the authorized officer. The adjusted bond must be approved by the authorized officer in writing prior to cutting any timber under the adjusted bond.

##### § 5451.3 Performance bond reduction.

##### § 5451.4 Payment bond.

To obtain permission to (a) cut and remove timber, or (b) remove timber already cut, which has been secured by an increased performance bond as provided for in § 5451.2(b), before payment

of the second or subsequent installments, the purchaser must obtain a payment bond in an amount equal to one or more installment payments as determined by the authorized officer. The payment bond may be a bond of a corporate surety shown on the approved list issued by the U.S. Treasury Department and executed on an approved form or negotiable securities of the United States. The payment bond must be approved by the authorized officer in writing prior to cutting or removing any timber under the bond. If a bond of a corporate surety is used, the payment bond shall provide that if the purchaser fails to make payment as required by § 5461.2(a)(4) of this chapter, the surety will make such payment including any required interest to the Bureau within 60 days after demand therefor by the Bureau. With the written approval of the authorized officer a single blanket payment bond may be allocated to two or more contracts with the same purchaser in the same Bureau of Land Management administrative district.

#### PART 5460—SALES ADMINISTRATION

##### Subpart 5461—Contract Payments

##### § 5461.1 [Amended]

6. In § 5461.1, the first sentence is amended by changing the reference "§ 5451.2" to read "§§ 5451.2 and 5451.4."

7. In § 5461.2, paragraph (a)(2) is revised and paragraphs (a)(3) and (4) are added. As amended § 5461.2 reads as follows:

##### § 5461.2 Installment payment requirements.

(a) Contract installment payments shall be determined by authorized officer as follows:

(2) *Delayed payment of first installment.* Payment of the first installment required in subparagraph (1) of this paragraph may be delayed if the purchaser increases the performance bond as provided by § 5451.2(a) of this chapter. If delayed payment of first installment is approved by the authorized officer, cash payment for that installment must be made either before the cutting or removing of the last portion of timber sold under the contract having a value equal to the amount of the first installment or at any time the Bureau exercises its authority to cancel the rights of the purchaser under the terms of the contract, whichever occurs first.

(3) *Delayed payment of second or subsequent installments.* Delayed payment of the second or a subsequent installment may be allowed if the purchaser furnishes a bond as provided by § 5451.2(b) of this chapter. The first installment shall be paid in the same manner as provided in paragraph (a)(1) and (2) of this section. If cutting is permitted before payment, as provided by § 5451.2(b) of this chapter, payment by installment shall be made before timber may be skidded or yarded to a loading point or removed from the contract area. Each subsequent installment shall be due and payable without notice when the sale value of the timber skidded or yarded

to a loading point or removed equals the sum of all the payments minus the first installment. The unenhanced value of timber allowed to be cut in advance of payment is limited to the amount of the increase over and above the required minimum performance bond. Upon payment, the amount of the bond may be applied to other timber sold under the contract to permit its cutting in advance of payment.

(4) *Payment where cutting or removal has been permitted under payment bond authorized by § 5451.4 of this chapter.* The first installment shall be paid in the same manner as provided in subparagraphs (1) and (2) of this paragraph. If cutting and/or removal is permitted before payment, as provided by § 5451.4 of this chapter, the purchaser shall be billed monthly for timber skidded or yarded to a loading point or removed from the contract area and for any related road maintenance fees unless a lesser period is agreed to by the Bureau and the purchaser. Payment shall be made within 15 days of the billing date shown on the billing form. The unenhanced value of timber allowed to be cut and/or removed in advance of payment is limited to the amount of the payment bond. Upon payment, the amount of the bond may be applied to other timber.

**Subpart 5463—Expiration of Time for Cutting and Removal**

**§ 5463.1 [Amended]**

8. In § 5463.1 the words "thirty months" are changed to read "thirty-six months."

[FR Doc. 73-4491 Filed 3-7-73; 8:45 am]

**Title 50—Wildlife and Fisheries**

**CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR**

**PART 28—PUBLIC ACCESS, USE, AND RECREATION**

**De Soto National Wildlife Refuge, Iowa and Nebr.**

The following special regulations are issued and are effective on March 8, 1973.

§ 28.28 Special regulations, public access, use, and recreation, for individual wildlife refuge areas.

**IOWA-NEBRASKA**

**DE SOTO NATIONAL WILDLIFE REFUGE**

Public recreational activities on De Soto National Wildlife Refuge, Missouri Valley, Iowa, are permitted from April 15 through September 30, 1973, inclusive, subject to the following special conditions:

(1) *Authorized activities.* Public recreational activities are limited to fishing, picnicking, swimming, boating, water skiing, sightseeing, mushroom picking, and nature observation.

(2) *Open season.* The open season for general public recreation use is from April 15, 1973, through September 30, 1973. During the period April 15, 1973, through May 25, 1973, the public recreational use area is open from 6 a.m. to 9

p.m. c.d.s.t. During the remainder of the public recreational season, the area is open daily from 6 a.m. through 10 p.m. c.d.s.t. Between the dates of September 16 and September 30, 1973, all water-oriented recreational activities, except boat and bank fishing, are prohibited. Swimming will be permitted from May 16 through September 3, 1973, between the hours of 11 a.m. and 7 p.m., and only in the designated beach area. Admittance onto the refuge is prohibited 1 hour prior to the scheduled closing time. Two separate mushroom picking areas are open daily to the public during the month of May, hours of use are the same as for the general use area.

(3) *Open area.* The area open for general public use comprises approximately 2,000 acres and the special mushroom picking areas comprise approximately 1,100 acres. These areas are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West Sixth Avenue, Denver, CO 80215. Maps of the open areas are also posted or available for handout at entrance points.

(4) *Access.* Entry onto the open area is permitted only at gates or points of entry specifically posted for this purpose.

(5) *User fees.* Entry to the public use area shall be subject to fee charging for use of facilities. The types of user permits available and the fees therefor shall be as determined by the Secretary. Permits will be available at fee collection stations located at two entrance points.

(6) *Other provisions.* The use of air mattresses, innertubes, beach balls and all other flotation devices, other than life preservers, is prohibited on refuge waters.

(b) The possession of bottles or cans is prohibited on the designated swimming beach.

(c) The use of fire is permitted, but only in grills.

(d) Access to refuge waters with airboats or houseboats is prohibited.

(e) Access to refuge waters with boats that have toilets that flush directly into the water is prohibited, unless such toilets are sealed from use.

(f) The possession of open alcoholic beverages is prohibited on any boat propelled by mechanical power while the craft is in operation.

(g) The lake being long and narrow requires that all boaters keep to the right and maintain a highway type traffic pattern. Turns shall always be made to the operator's left except when beaching or docking a boat.

(h) A portion of the refuge lake is posted as a "No Wake Zone." Boaters using this area shall travel at an idling speed sufficiently slow to prevent a wake that would rock another boat.

(i) All boats are prohibited from loading or unloading passengers from the swimming area.

(j) All boat and bank fishermen will be permitted to use the entire lake.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation

on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through September 30, 1973.

**PART 32—HUNTING**

**Hagerman National Wildlife Refuge, Tex.**

The following special regulation is issued and is effective on March 8, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

**TEXAS**

**HAGERMAN NATIONAL WILDLIFE REFUGE**

The public hunting of rabbits and squirrels on the Hagerman National Wildlife Refuge, Tex., is permitted only on the area designated by signs as open to hunting. This open area, comprising 2,644 acres, is delineated on maps available at refuge headquarters, 15 miles northwest of Sherman, Tex., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with all applicable State regulations governing the hunting of rabbits and squirrels subject to the following special conditions:

(1) The open season for hunting rabbits and squirrels on the refuge extends from May 1 through July 31, 1973, inclusive.

(2) Hunting with rifles or handguns is not permitted.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through July 31, 1973.

**PART 33—SPORT FISHING**

**Mark Twain National Wildlife Refuge, Ill.-Iowa-Mo.**

The following special regulation is issued and is effective on March 8, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

**ILLINOIS-IOWA-MISSOURI**

**MARK TWAIN NATIONAL WILDLIFE REFUGE**

Sport fishing on the Mark Twain National Wildlife Refuge, Ill., Iowa, and Mo., is permitted only on the areas designated by signs as open fishing. These open areas, comprising 6,457 acres, are

delineated on maps available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

**ILLINOIS**

(1) The open season for sport fishing on the Batchtown, Calhoun, and Gilbert Lake Divisions of the Mark Twain National Wildlife Refuge extends from January 1, 1973, through October 15, 1973, with the exception of certain designated areas which are open until December 31, 1973.

(2) The open season for sport fishing on the Keithsburg Division of the Mark Twain National Wildlife Refuge extends from January 1, 1973, through October 15, 1973.

(3) The open season for sport fishing on the Gardner Division of the Mark Twain National Wildlife Refuge extends from January 1, 1973, through October 15, 1973.

**IOWA**

(1) The open season for sport fishing on the Louisa Division of the Mark Twain National Wildlife Refuge extends from January 1, 1973, through September 30, 1973, with the exception of areas adjacent to the Port Louisa road which are open until December 31, 1973.

(2) The open season for sport fishing on the Big Timber Division of the Mark Twain National Wildlife Refuge extends from January 1, 1973, through December 31, 1973.

**MISSOURI**

(1) The open season for sport fishing on the Clarence Cannon National Wildlife Refuge extends from April 1, 1973, through September 30, 1973, with the exception of Bryants Creek and certain designated areas which are open from January 1, 1973, through December 31, 1973.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through December 31, 1973.

**LESLIE F. BEATY,**  
*Refuge Manager, Mark Twain National Wildlife Refuge, Quincy, Ill.*

**CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE**

**SUBCHAPTER F—AID TO FISHERIES**

**PART 258—FISHERMEN'S PROTECTIVE ACT PROCEDURES**

**Provision for Extension and Change of Fund's Name**

The account established in the Treasury of the United States under the pro-

visions of section 7(c) of the Act and referred to as the Fishermen's Protective Fund shall hereinafter be known as the Fishermen's Guarantee Fund.

Public Law 92-594 amended section 7 of the Fishermen's Protective Act of 1967 (22 U.S.C. 1977) by providing that "The provisions of this section shall be effective until July 1, 1977."

Agreements and fees under the Act are based on a July 1 to June 30 year. Nevertheless, since the Fishermen's Protective Act of 1967 was to have expired on February 8, 1973, agreements for the year beginning July 1, 1972, were effective only through February 8, 1973. Public Law 92-594 amended the Act by extending its provisions until July 1, 1977. Therefore, § 258.5 of the regulations is here being amended to extend agreements for the year beginning July 1, 1972, through a new termination date of June 30, 1973. Fees are subject to adjustment as provided for in paragraph (a) of § 258.5. The Administration is presently considering adjusting fees for the current agreement year. Appropriate notice will first be given.

This amendment relates to matters which are exempt from the rule making requirements of the Administrative Procedures Act (5 U.S.C. 553). Furthermore, this amendment makes no substantive change in the conduct of the program. This amendment is hereby adopted.

Paragraph (d) of § 258.1 is hereby amended by deleting the present paragraph and substituting therefor the following:

**§ 258.1 Definition of terms.**

(d) *Fishermen's Guarantee Fund.* The account established in the Treasury of the United States under the provision of section 7(c) of the Act.

**§ 258.5 [Amended]**

Paragraph (b) of § 258.5 is hereby amended by deleting "February 8, 1973, unless extended" and substituting therefor "June 30, 1973."

Dated: February 27, 1973.

By order of the Administrator, National Oceanic and Atmospheric Administration.

**ROBERT M. WHITE,**  
*Administrator.*

**Title 6—Economic Stabilization**

**CHAPTER I—COST OF LIVING COUNCIL**  
**PART 130—COST OF LIVING COUNCIL**  
**PHASE III REGULATIONS**

**Sale of Crude Petroleum and Petroleum Products**

Part 130 is amended by adding an appendix to Subpart K providing for special mandatory rules established pursuant to Subpart K of the Economic Stabilization Regulations and setting forth Special Rule No. 1 governing prices for the sale of crude petroleum and petroleum products.

On February 1, 1973, the Cost of Living Council issued a notice of public hearings to receive information and to hear the views of interested persons on appropriate pricing policies for home heating oil with special emphasis on price increases for home heating oil recently effected by major producers. Hearings were held February 7-9, 1973, in the General Services Administration Auditorium, Washington, D.C. Oral and written testimony was received from the representatives of various segments including government agencies, consumers and the oil industry.

The record of the proceedings, together with copies of statements filed with the Council, is available for inspection at the public reference facility of the Council at Room B-120, 2000 M Street NW., Washington, DC during normal business hours.

Based upon its review of the record and other information available to it, the Council has determined that price increases on home heating oil placed into effect in January and February 1973 by many oil companies are supported by adequate cost justification. Moreover, since the date of hearing, the United States has devalued the dollar, thereby increasing the price of imported crude petroleum and petroleum products and adding to the costs incurred by the companies. Consequently, the Council has concluded that the foregoing price increases for home heating oil are not unreasonably inconsistent with the standards of the Economic Stabilization Program so as to warrant challenge under Subpart J of the Council's regulations.

Subpart K of Title 130 of the Economic

Stabilization Regulations provides: "Whenever the Council in the course of administering the Economic Stabilization Program determines that the goals of the program would be significantly advanced by reasserting controls over an industry, sector of the economy, or a part thereof, it may issue a special rule providing, on a prospective basis, for the stabilization of prices or wages and salaries on a mandatory basis, in that industry, sector of the economy or part thereof." Special Rule No. 1 governing prices charged for crude petroleum and petroleum products is being issued pursuant to the procedures of Subpart K.

The petroleum industry is one of America's most basic industries and petroleum products are one of its basic resources. Annual sales are in excess of \$80 billion. Moreover, petroleum is not only a vital energy source, but also a basic raw material used in the production of countless manufactured goods. A special rule restraining price increases is thus of particular importance in this industry both because of the influence of petroleum price movements on other segments of the economy, through what might be characterized as a ripple effect, and because petroleum products serve as important inputs into the production process in most sectors. Moreover, since a large portion of crude oil supply is subject to pricing arrangements involving international agreements and since crude

## RULES AND REGULATIONS

oil production is unevenly distributed among geographic regions, more specific restraints on prices will help to assure less inflationary cost and price increases throughout the production, processing and distribution chain.

The hearings conducted by the Council clearly brought out the need for actions to assure adequate supplies of gasoline as well as home heating oil in the months immediately ahead. Seasonal demand fluctuations are likely to create pressures on gasoline supplies, and hence upon current gasoline prices, during the summer months. A special rule governing the prices of these products should provide companies with greater certainty on their pricing obligations under the Economic Stabilization Program and should help them in their planning process and in making the wide range of business decisions needed to increase domestic supply. Special rules which recognize the need for flexibility in individual prices to meet seasonal demand fluctuations should also help assure adequate supplies in circumstances where, as here, current prices are below base, but seasonal fluctuation and demand-supply factors may bring about increases above base. In the context of other actions being taken by the Administration to deal with the pressing need for increased supplies of crude petroleum and petroleum products, the special rules should help to stimulate needed domestic investment in expanded refining capacity and to encourage other actions to alleviate possible supply shortfalls.

For all of the foregoing reasons the Council has therefore concluded that the Economic Stabilization Program would be significantly advanced by issuing special rules establishing mandatory controls governing prices for the sale of crude petroleum and petroleum products.

Paragraph 1 sets forth the scope of the controls, which apply to price increases for the sale of crude petroleum and petroleum products. Paragraph 2, in defining the terms used in the special rule, providing that base price for a product covered by a term limit pricing agreement on January 10, 1973, is the price for that product in effect on that date. Otherwise, its base price is its base price as defined in Phase II Price Commission regulations. Paragraph 3 provides that firms which derive \$250 million or more of annual sales or revenues from the sale of the specified products are subject to the special rule.

Price increases for these products above base (as defined in paragraph 2 of the special rule) are limited to a weighted annual average price increase of 1 percent above base prices for the year beginning January 11, 1973. Increases above that figure, but not more than 1.5 percent on a weighted annual average basis, must be supported by new cost justification, incurred since the date of this regulation. Any increase above 1.5 percent over base is subject to profit margin limitations and to prenotification rules of the Council in addition to the foregoing rule. Term limit pricing authorization applicable to firms subject to

the special rule are terminated as of March 6, 1973. Price increases on covered products made after January 10, 1973, pursuant to a TLP, are to be included in the calculation of weighted average annual price increases.

Firms subject to the special rule are required to file an initial report listing the base prices of their covered products and a calculation of their weighted average price increase covering the period from January 10, 1973, to the date of the special rule. They are also required to file monthly reports covering posted price movements, cost increases, and supply conditions and quarterly reports covering cost increases, profit margins, supply conditions, and weighted average annual price increases.

Because the immediate implementation of Executive Order No. 11695 is required, and because the purpose of this special rule is to provide immediate guidance as to a Cost of Living Council decision, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making this special rule effective in less than 30 days. Interested persons may submit comments regarding this special rule. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Washington, D.C. 20508.

Issued in Washington, D.C. on March 6, 1973.

JAMES W. McLANE,  
Deputy Director,  
Cost of Living Council.

Part 130 of Title 6 of the Code of Federal Regulations is amended by adding an appendix to Subpart K to read as follows:

## APPENDIX

## SPECIAL RULES REASSERTING MANDATORY CONTROLS

## Special Rule No. 1

1. *Scope.* This special rule issued in accordance with the provisions of 6 CFR 130.101 establishes mandatory rules governing price adjustments for the sale of crude petroleum and petroleum products.

2. *Definitions.* As used in this special rule—

"Base price" means, in the case of a product not subject to a term limit pricing authorization on January 10, 1973, the base price determined under the provisions of Subpart F of 6 CFR, Part 300, which were in effect on January 10, 1973, or in the case of a product subject to a term limit pricing authorization on January 10, 1973, the price in effect on January 10, 1973.

"Control year" means the year beginning January 11, 1973, and ending January 10, 1974.

"Covered product" means any product described in Standard Industrial Classification Code 1311 (other than natural gas) or 2911.

3. *Applicability.* This special rule applies to each firm which derives \$250 million or more of its annual sales or revenues from the sale of covered products.

4. *Pricing rules for covered products.* (a) Except as otherwise provided in subparagraphs (b) and (c) of this paragraph, a firm to which this special rule applies may not increase the price for a covered product above its base price if the increase would result in a weighted annual average price increase for

the control year for the firm's covered products of more than 1 percent above base prices.

(b) A firm may increase the price for a covered product above its base price resulting in a weighted annual average price increase for the control year for the firm's covered products of more than 1 percent above base prices but not more than 1.5 percent above base prices only to reflect increased costs incurred since March 6, 1973.

(c) A firm may increase the price for a covered product above its base price resulting in a weighted annual average price increase for the control year for the firm's covered products of more than 1.5 percent only if, in addition to meeting the cost justification requirements of subparagraph (b), (1) the firm's profit margin does not increase over that which prevailed during the base period as defined in Subpart L of 6 CFR, Part 130, and (2) the firm prenotifies the Cost of Living Council of the increase and receives approval before implementing the increase.

5. *Effect on term limit pricing authorizations.* Term limit pricing authorizations applicable to firms to which this special rule applies are hereby terminated effective March 6, 1973. In computing weighted annual average price increases for the control year, a firm shall include all price increases for covered products put into effect after January 10, 1973, pursuant to a TLP authorization.

6. *Reporting requirements.* Firms to which this special rule applies shall file the following reports with the Cost of Living Council on forms to be prescribed by the Council:

(a) Each firm shall file not later than March 30, 1973, a list of the base price, as defined in paragraph 2 of this special rule, for each of its covered products, and a calculation of its weighted average annual price increase for price increases in covered products implemented since January 10, 1973, and before March 6, 1973.

(b) Each firm shall file a monthly report not later than 30 days after the close of each calendar month commencing with March 1973, setting forth posted price movements, cost increases, and supply conditions.

(c) Each firm shall file a quarterly report, not later than 45 days after the close of each of its fiscal quarters, setting forth cost increases, profit margin, supply conditions, and a computation of its weighted average annual price increase for prices increased above base price as defined in paragraph 2 of this special rule.

[FR Doc. 73-4588 Filed 3-6-73; 4:01 pm]

## Title 7—Agriculture

## CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

## PART 68—REGULATIONS AND STANDARDS FOR INSPECTION AND CERTIFICATION OF CERTAIN AGRICULTURAL COMMODITIES AND PRODUCTS THEREOF

## Fees and Charges for Certain Federal Inspection Services

*Statement of considerations.* The Agricultural Marketing Act of 1946 provides for the collection of fees equal as nearly as may be the cost of inspection services rendered under its provisions. This amendment adjusts the hourly rate for services charged by the hour under § 68.42a from \$10.12 to \$11.20 per hour, and makes corresponding changes in fees or charges for certain other services

which are based on the hourly rate. The changes are necessary due to recent general salary increases to Federal employees and increases in other costs.

The amendment provides for a baking test for cookies and for a new demonstration grading service. The fee for the baking test for cookies is \$5 per test. The fee for the demonstration grading service will be \$175 per request, plus all travel costs associated with the performance of the service.

Certain laboratory tests for which there have been no requests for service for several years are being deleted from § 68.42a.

Pursuant to sections 203 and 205 of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1622, 1624), the provisions of 7 CFR 68.42a prescribing fees in connection with the inspection of agricultural commodities administratively assigned to the Grain Division are hereby amended as follows:

## § 68.42a Fees and charges for certain Federal inspection services.

The following fees and charges apply to the Federal inspection services specified below:

## Appeal inspection:

Service Fee or charge

(a) Basis original sample..... (1)

(b) Basis new sample..... (2)

Bean, lentil, and pea inspection (including chick peas, cowpeas, split peas, and similar commodities):

(a) Lot inspection:

(1) Field run (quality and dockage analysis)—per lot..... \$1.15

(2) Other than field run (grade, class, and quality)—per lot..... 5.35

(In addition to the fee for analysis or grading in (1) and (2) above, a fee for sampling, checkweighing, and checkloading, if any, will be assessed at the prescribed rate.)

(b) Sample inspection:

(1) Field run (quality and dockage analysis)—per lot..... 7.15

(2) Other than field run (grade, class, and quality)—per sample..... 5.35

Checkloading—per man-hour..... \$11.20

Checkweighing—per man-hour..... \$11.20

Condition examination—per man-hour..... \$11.20

Demonstration grading—per request..... \$175.00

Extra copies of certificates—per copy..... 1.00

Grade factor analysis (as defined in any official U.S. Standards) per factor..... 3.60

Hay and straw inspection:

(a) Lot inspection:

(1) For sampling and grading—per man-hour..... 11.20

(b) Sample inspection:

(1) Grade only—per sample..... 7.15

(2) Factor analysis—per man-hour..... 11.20

Hop inspection:

(a) Lot inspection:

(1) For seed, leaf, and stem content—per lot..... 8.45

(2) Aphid infestation—per lot..... 11.20

(In addition to the fee for analysis in (1) and (2) above, a charge for sampling, if any, will be assessed at the prescribed rate.)

NOTE: See footnotes at end of table.

## RULES AND REGULATIONS

6285

(b) Sample inspection:

(1) For seed, leaf, and stem content—per sample..... 8.45

(2) Aphid infestation—per sample..... 11.20

Laboratory report..... 1.00

Laboratory testing:

(a) In addition to the charges, if any, for sampling or other requested service, a fee will be assessed for each laboratory analysis or test as follows:

(1) Acetyl value..... 5.00

(2) Acidity—Greek..... 1.70

(3) Acid value—oil..... 2.35

(4) Aflatoxin..... 15.00

(5) Appearance, flavor, and odor of oils..... 1.10

(6) Ash..... 1.70

(7) Bacteria count..... 3.50

(8) Baking test—bread..... 7.50

(9) Baking test—cookies..... 5.00

(10) Baking test—prepared mix..... 3.05

(11) Baume..... 4.50

(12) Break test..... 3.05

(13) Calcium AOAC..... 4.00

(14) Calcium enrichment..... 4.00

(15) Calcium carbonate..... 4.00

(16) Carotenoid color..... 4.50

(17) Checked and broken macaroni units..... 2.65

(18) Clarity of oil involving heating..... 1.45

(19) Cold test—oil..... .75

(20) Color—bleached..... 2.10

(21) Color—Gardner..... 2.10

(22) Color—Lovibond..... 2.10

(23) Color—Wesson..... 2.10

(24) Color—oil and shortening..... 4.30

(25) Congealpoint..... 1.35

(26) Consistency..... 1.85

(27) Cooking test..... 2.25

(28) Crude fat..... 3.35

(29) Crude fiber..... 1.20

(30) Density..... 2.80

(31) Diastatic activity of flour..... .85

(32) Enrichment—quick test..... 1.25

(33) Falling number..... 6.00

(34) Farinograph characteristics..... 4.40

(35) Fat—acid hydrolysis..... 2.25

(36) Fat—crude..... 2.25

(37) Fat—extraction..... 1.70

(38) Fat acidity..... 4.80

(39) Fat stability—AOM..... 3.35

(40) Fiber, crude..... 3.05

(41) Flth—heavy..... 4.85

(42) Flth—light..... 3.05

(43) Flash point—open and closed cup..... 1.10

(44) Flavor, odor, and appearance of oils..... 2.15

(45) Foots—heated and/or chilled..... 2.65

(46) Foreign material—processed grain products..... 2.35

(47) Free fatty acids..... 3.00

(48) Gossypol, free..... 2.30

(49) Grade and class of unprocessed grain..... 2.25

(50) Heating test—oil and shortening..... 1.70

(51) Hydrogen ion concentration—pH..... 2.20

(52) Insoluble bromides..... 2.80

(53) Insoluble impurities—oil and shortening..... 2.60

(54) Iodine number or value..... 6.60

(55) Iron enrichment..... 4.80

(56) Keeping time—oil and shortening..... 2.05

(57) Kjeldahl protein..... 12.00

(58) Linoleic acid..... 5.75

(59) Lipid phosphorus..... 1.35

(60) Loss on heating (oil)..... 5.00

(61) Lysine from fortification..... 10.00

(62) Lysine from hydrolysis of protein.....

(63) Macaroni—checked and broken units.....	2.65
(64) Maltose value—flour.....	2.80
(65) Marine oil in vegetable oil—qualitative.....	2.20
(66) Melting point—Wiley.....	2.60
(67) Moisture—distillation.....	2.15
(68) Moisture—oven.....	1.45
(69) Moisture and volatile matter—oil and shortening.....	1.35
(70) Neutral oil loss.....	5.50
(71) Nitrogen solubility index.....	2.60
(72) Odor, appearance and flavor of oil.....	1.10
(73) Oil content—oilseed.....	3.50
(74) pH—Hydrogen ion concentration.....	1.70
(75) Peroxide value.....	1.75
(76) Peroxide value after 8 hours.....	4.80
(77) Phosphorus.....	3.65
(78) Popping value—popcorn.....	1.50
(79) Potassium bromate—qualitative.....	.85
(80) Potassium bromate—quantitative.....	3.25
(81) Protein—Kjeldahl.....	2.05
(82) Reducing sugars.....	8.40
(83) Refractive index.....	1.20
(84) Riboflavin.....	6.60
(85) Rope spore count.....	11.10
(86) Salt content.....	3.50
(87) Saponification number.....	3.05
(88) Sieve test.....	2.20
(89) Smoke point.....	1.40
(90) Softening point.....	4.30
(91) Solid fat index.....	9.90
(92) Solubility in alcohol—oil.....	1.10
(93) Specific baking volume—prepared mix.....	3.05
(94) Specific gravity—oils.....	2.95
(95) Spreadfactor—cookies.....	5.00
(96) Test weight per bushel—other than grain.....	1.20
(97) Unsaponifiable matter.....	5.80
(98) Urease activity.....	2.25
(99) Viscosity—flour.....	5.00
(100) Viscosity—Gardner-Holdt.....	1.50
(101) Water soluble protein.....	2.60
(102) Xanthol test for rodent urine.....	2.50

(If a requested analysis or test is on the basis of a specified moisture content, a charge for an oven moisture test will also be made.)

Lentil inspection: (See Bean Inspection).

Minimum fee for services covered by hourly rates—a minimum fee for 2 hours per man, per service request, will be assessed at the applicable hour rate.

New inspection—fees and charges to be based on services requested.

Pea inspection: (See Bean Inspection).

Sampling per man-hour..... \$11.20

Special inspection service per man-hour..... \$11.20

Split pea inspection: (See Bean Inspection).

Standby time per man-hour..... 11.20

Straw inspection: (See Hay Inspection).

<sup>1</sup> The applicable grading or laboratory analysis or testing charge. Minimum fee, if any, \$11.20.

<sup>2</sup> Applicable sampling charge, if any, plus applicable grading or laboratory analysis or testing fee.

<sup>3</sup> Only one fee will be charged for these services whether performing singly or concurrently. (But see minimum fee requirement.)

<sup>4</sup> Plus all travel costs associated with the performance of the demonstration grading service.

The need for increases in the fees for services and the amount thereof are dependent upon facts within the knowledge of the Agricultural Marketing Service. The additional services provided for in this document are voluntary in nature. The provisions, therefore, do not require any action by any member of the public but make available services for which there is a public need. Therefore, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public rule making procedures on the amendments are impractical and unnecessary.

(Sec. 203, 205, 60 Stat. 1087, 1090, as amended; 7 U.S.C. 1622, 1624)

This amendment shall become effective on April 29, 1973.

Done at Washington, D.C., on March 2, 1973.

E. L. PETERSON,  
Administrator,  
Agricultural Marketing Service.

### CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

#### PART 301—DOMESTIC QUARANTINE NOTICES

##### Subpart—Japanese Beetle Exemptions

This document revises the Japanese Beetle Quarantine supplemental regulation concerning exemptions to add potting soil to the list of articles exempted from certification, permit, or other requirements. It also changes the conditions under which used mechanized soil-moving equipment is exempt. Used mechanized soil-moving equipment is now exempt if cleaned of all loose noncompacted soil. Various other changes were made.

Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.48-2 of the Japanese Beetle Quarantine regulations (7 CFR 301.48-2, as amended), a supplemental regulation granting exemption from specified requirements of the regulations is hereby issued to appear in 7 CFR 301.48-2b as set forth below. The Deputy Administrator of Plant Protection and Quarantine Programs has found that facts exist as to the pest risk involved in the movement of such articles which make it safe to relieve the requirements as provided therein.

##### § 301.48-2b Exempted articles.<sup>1</sup>

The following articles are exempt from the certification, permit, or other requirements of this subpart if they meet the applicable conditions prescribed in paragraph (a) through (d) of this section and have not been exposed to infestation after cleaning or other handling as prescribed in said paragraphs:

<sup>1</sup> The articles hereby exempted remain subject to applicable restrictions under other quarantines.

(a) Compost, decomposed manure, humus, and peat, if dehydrated, ground, pulverized, or compressed.

(b) True bulbs, corms, rhizomes, and tubers (other than clumps of dahlia tubers) of ornamental plants, if free of soil.

(c) Used mechanized soil-moving equipment, if cleaned of all loose, non-compacted<sup>2</sup> soil.

(d) Potting soil, if commercially prepared, packaged, and shipped in original containers.

(Secs. 8 and 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 37 FR 28464, 28477; 37 FR 24327, 7 CFR 301.48-2)

This list of exempted articles shall become effective on March 8, 1973, when it shall supersede the list of exempted articles in 7 CFR 301.48-2b which became effective July 1, 1970.

Inasmuch as this revision relieves certain restrictions presently imposed, it should be made effective promptly in order to be of benefit to the persons subject to the restrictions that are being relieved. Accordingly, it is found, under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to this revision are unnecessary and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2d day of March 1973.

LEO G. K. IVERSON,  
Deputy Administrator, Plant  
Protection and Quarantine  
Programs.  
[FR Doc. 73-4500 Filed 3-7-73; 8:45 am]

#### PART 301—DOMESTIC QUARANTINE NOTICES

##### Subpart—Pink Bollworm REGULATED AREAS

This document amends the list of areas regulated because of the pink bollworm by adding under suppressive areas the following previously nonregulated counties and parish: Conway, Faulkner, Franklin, Jackson, Johnson, Little River, Logan Miller, Woodruff, and Yell Counties in Arkansas; and Caddo Parish in Louisiana.

Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.52-2 of the Pink Bollworm Quarantine regulations, 7 CFR 301.52-2, as amended, a supplemental regulation designating regulated areas, 7 CFR 301.52-2a, is hereby amended as follows:

A. In § 301.52-2a relating to the State of Arkansas, under suppressive area, the

<sup>2</sup> Compacted soil is defined as soil attached to equipment which cannot be removed by brisk brushing and/or washing with water under normal city water pressure.

entire description for that State is changed to read as set forth below.

B. In § 301.52-2a relating to the State of Louisiana, under suppressive area, the entire description for that State is changed to read as set forth below.

##### § 301.52-2a Regulated areas; suppressive and generally infested areas.

###### ARKANSAS

- (1) Generally infested area. None.
- (2) Suppressive area.  
Conway County. The entire county.  
Faulkner County. The entire county.  
Franklin County. The entire county.  
Jackson County. The entire county.  
Jefferson County. That portion of the county lying east of the Arkansas River and north of U.S. Highway 79.  
Johnson County. The entire county.  
Lafayette County. The entire county.  
Little River County. The entire county.  
Logan County. The entire county.  
Lonoke County. That portion of the county lying south of Interstate 40.  
Miller County. The entire county.  
Woodruff County. The entire county.  
Yell County. The entire county.

###### LOUISIANA

- (1) Generally infested area. None.
  - (2) Suppressive area.  
Caddo Parish. The entire parish.  
Rapides Parish. The entire parish.
- (Secs. 8 and 9, 37 Stat. 318, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 37 FR 28464, 28477; 32 FR 16385, 7 CFR 301.72-2)

This amendment shall become effective March 8, 1973, when it shall supersede 7 CFR 301.52-2a effective June 7, 1972.

The Deputy Administrator of the Plant Protection and Quarantine Programs has determined that infestations of the pink bollworm exist or are likely to exist in the civil divisions or parts of civil divisions listed above, or that it is necessary to regulate such localities because of their proximity to infestations or their inseparability for quarantine enforcement purposes from infested localities.

The Deputy Administrator has further determined that each of the quarantined States, wherein only portions of the State have been designated as regulated areas, is enforcing a quarantine or regulation with restrictions on intrastate movement of the regulated articles substantially the same as the restrictions on the interstate movement of such articles imposed by the quarantine and regulations in this subpart, and that designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the pink bollworm. Therefore, such civil divisions and parts of civil divisions listed above are designated as pink bollworm regulated areas.

This amendment imposes restrictions necessary to prevent the spread of the pink bollworm and it should be made effective promptly to accomplish its purpose in the public interest. Accordingly, it is found upon good cause, under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public

procedure with respect to this amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 2d day of March 1973.

LEO G. K. IVERSON,  
Deputy Administrator, Plant  
Protection and Quarantine  
Programs.  
[FR Doc. 73-4501 Filed 3-7-73; 8:45 am]

### CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (SUGAR), DEPARTMENT OF AGRICULTURE

#### SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

##### PART 730—RICE

##### Subpart—1973-74 Marketing Year PROCLAMATION OF RESULT OF MARKETING QUOTA REFERENDUM

Section 730.1508 is issued to announce the results of the rice marketing quota referendum for the marketing year August 1, 1973, through July 31, 1974, under the provisions of the Agricultural Adjustment Act of 1938, as amended. The Secretary proclaimed a marketing quota for rice for the 1973-74 marketing year and announced that a referendum would be held during the period January 22 to 26, 1972, each inclusive, by mail ballot in accordance with Part 717 of this chapter.

Since the only purpose of § 730.1508 is to announce the referendum results, it is hereby found and determined that compliance with the notice, public procedure, and 30-day effective date provisions of 5 U.S.C. 553 is unnecessary.

§ 730.1508 Proclamation of the result of the rice marketing quota referendum for the marketing year 1973-74.

In a referendum of farmers engaged in the production of rice of the 1972 crop held by mail ballot during the period January 22 to 26, 1973, each inclusive, 11,422 voted. Of those voting 10,768, or 94.3 percent favored quotas for the marketing year beginning August 1, 1973. Therefore rice marketing quotas will be in effect for the 1973-74 marketing year.

(Secs. 354, 375, 52 Stat. 61, as amended, 66, as amended; 7 U.S.C. 1354, 1375)

Effective date: March 8, 1973.

Signed at Washington, D.C., on: March 2, 1973.

KENNETH E. FRICK,  
Administrator, Agricultural Sta-  
bilization and Conservation  
Service.

### CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (SUGAR), DEPARTMENT OF AGRICULTURE

#### SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 811, Amdt. 2]

##### PART 811—CONTINENTAL SUGAR REQUIREMENT AND AREA QUOTAS Requirements, Quotas, and Quota Deficits for 1973

Basis and purpose and bases and considerations. This amendment is issued pursuant to the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, as amended; 7 U.S.C. 1101), hereinafter referred to as the "Act." The purpose of this amendment to Sugar Regulation 811 is to revise the determination of sugar requirements for the calendar year 1973, establish quotas and prorations consistent with such requirements and to determine and prorate or allocate the deficits in quotas established pursuant to the Act.

Section 201(a) of the Act requires a determination of the amount of sugar needed to meet the requirements of consumers in the continental United States whenever necessary to attain the price objectives set forth in section 201(b) of the Act.

Section 202(g)(3) of the Act, which sets forth the procedure to use in attaining such price objective, provides that whenever the simple average of prices of raw sugar for 7 consecutive market days ending after October 31 and before March 1 is 3 percent or more above or below the average price objective for the preceding 2 calendar months, the determination of requirements of consumers shall be adjusted to the extent necessary to attain such price objective.

For the 7 consecutive market days ended February 27, the simple average of the daily price of raw sugar was 9.08 cents per pound and was at least 3 percent below the average price objective of 9.49 cents per pound. Therefore, a downward adjustment in sugar requirements is considered appropriate at this time to meet the requirements of the Act.

A decrease in requirements of 100,000 short tons, raw value, is necessary to obtain the price objective set forth in the Act. Accordingly, total sugar requirements for the calendar year 1973 are hereby decreased by 100,000 short tons, raw value, to a total of 11.5 million short tons, raw value.

Section 204(a) of the Sugar Act of 1948, as amended, provides in part that "The Secretary shall, at the time he makes his determination of requirements of consumers for each calendar year and on December 15 preceding each calendar year, and as often thereafter as the facts

are ascertainable by him but in any event not less frequently than each 60 days after the beginning of each calendar year, determine whether, ----- any area or country will not market the quota for such area or country."

It was previously determined in Sugar Regulation 811 that the Domestic Beet Sugar Area would be unable to market in excess of 3,500,000 short tons, raw value, of sugar in 1973. Accordingly, deficits were determined in the quota for the Beet area of 96,667 tons representing the amount its quota exceeded 3,500,000 tons. Since this amendment decreases the quota for that area by 47,667 tons, the deficit previously determined in the 1973 quota for the Domestic Beet Sugar Area is reduced by 47,667 short tons, raw value, to 49,000 tons. If production exceeds the present estimates for the Domestic Beet Area, the marketing opportunities for that area within the total quota for that area will not be limited as a result of the deficit determination and proration provided herein.

It is hereby determined that deficits previously declared and that declared herein constitute all known deficits on which data are currently ascertainable by the Department.

Section 202(a)(3) of the Act provides that whenever the sugar produced in Hawaii or Puerto Rico in any year is prevented from being marketed or brought into the continental United States in that year for reasons beyond the control of the shipper or producer of such sugar, the quota for the immediately following year shall be increased by an amount equal to the amount of sugar so prevented from being marketed or brought into the continental United States ----- It is hereby determined that 75,000 tons of 1972 Hawaiian quota sugar were not shipped to the United States due to a west coast shipping strike which lasted from October 24, to December 12, 1972. On the basis of information available to the Department such undershipment is herein determined to be beyond the control of the shipper. Therefore, the 1973 quota for Hawaii has been increased herein by 75,000 tons.

By virtue of the authority vested in the Secretary of Agriculture by the Act, Part 811 of this chapter is hereby amended by amending §§ 811.20, 811.21, 811.22, and 811.23 as follows:

1. Section 811.20 is amended to read as follows:

§ 811.20 Sugar requirements, 1973.

The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1973 is hereby determined to be 11.5 million short tons, raw value.

2. Section 811.21 is amended by amending paragraph (a) to read as follows:

### § 811.21 Quotas for domestic areas.

(a) (1) For the calendar year 1973, domestic area quotas limiting the quantities of sugar which may be brought into or marketed for consumption in the continental United States are established, pursuant to section 202(a) of the Act, in column (1) and the amounts of such quotas for offshore areas that may be filled by direct-consumption sugar are established, pursuant to section 207 of the Act in column (2) as follows:

Area	Quotas	Direct consumption limits
(1)	(2)	
(Short tons, raw value)		
Domestic beet sugar.....	3,540,000	No limit
Mainland cane sugar.....	1,891,000	No limit
Texas cane sugar.....	20,000	No limit
Hawaii.....	1,188,000	40,366
Puerto Rico.....	866,000	169,000

(2) It is hereby determined pursuant to section 204(a) of the Act that for the calendar year 1973, the Domestic Beet Sugar Area and Puerto Rico will be unable by 49,000 and 650,000 short tons, raw value, respectively, to fill the quotas established for such areas in subparagraph (1) of this paragraph. Pursuant to section 204(b) of the Act the determination of such deficits shall not affect the quotas established in subparagraph (1) of this paragraph.

3. Section 811.22 is amended by amending paragraph (a) to read as follows:

### § 811.22 Proration and allocation of deficits in quotas.

(a) The total deficits determined in quotas established under section 202 of the Act for the Domestic Beet Area and Puerto Rico of 699,000 short tons, raw value, is hereby prorated and allocated pursuant to section 204(a) of the Act, by allocating 30.08 percent or 210,259 short tons, raw value, to the Republic of the Philippines and by prorating the remaining 488,741 short tons, raw value, to Western Hemisphere countries on the basis of quotas determined herein pursuant to section 202.

4. Section 811.23 is amended by amending paragraphs (b) and (c) to read as follows:

### § 811.23 Quotas for foreign countries.

(b) For the calendar year 1973, the quota for the Republic of the Philippines is 1,347,591 short tons, raw value, representing 1,126,020 short tons, established pursuant to section 202(b) of the Act, 210,259 short tons established pursuant to section 204(a) of the Act, and 11,312 short tons established pursuant to section 202(d) of the Act. Of the quantity of 1,126,020 short tons established pursuant to section 202(b) of the Act, only 59,920 short tons, raw value, may be filled by direct-consumption sugar pursuant to section 207(d) of the Act.

(c) For the calendar year 1973, the proration to individual foreign countries other than the Republic of the Philippines pursuant to section 202 of the Act are shown in columns (1) and (2) of

the following table. Deficit prorations previously established in this Sugar Regulation 811 are shown in column (3). New deficit prorations established herein are shown in column (4). Total quotas and prorations are shown in column (5).

Countries	Base quotas	Temporary quotas and prorations pursuant to Sec. 202(d) 1	Previous deficit prorations	New deficit prorations	Total quotas and prorations
(1)	(2)	(3)	(4)	(5)	
(Short tons, raw value)

1 Proration of the quotas withheld from Cuba, Southern Rhodesia, Bahamas, and Uganda.

[Valencia Orange Reg. 420]

(Secs. 201, 202, 204, and 403; 61 Stat. 923, as amended, 924, as amended, 925, as amended, 932; and 7 U.S.C. 1111, 1112, 1114, and 1153)

**Effective date.** This action decreases requirements and quotas for the calendar year 1973 by 100,000 tons and revises deficit determinations and allocations. In order to promote orderly marketing, it is essential that this amendment be effective immediately so that all persons selling and purchasing sugar for consumption in the continental United States can promptly plan and market under the changed marketing opportunities. Therefore, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of 5 U.S.C. 533 is unnecessary, impracticable, and contrary to the public interest and this amendment shall be effective when filed for public inspection in the Office of the Federal Register.

Signed at Washington, D.C., on March 2, 1973.

KENNETH E. FRICK,  
Administrator, Agricultural Sta-  
bilization and Conservation  
Service.

[FR Doc.73-4323 Filed 3-2-73; 11:41 am]

Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(1) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. Prices at auction have averaged \$3.49 per carton for the season to date.

(1) Having considered the recommendation and information submitted by the committee, and other information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such

provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 6, 1973.

(b) Order. (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period March 9, 1973, through March 15, 1973, are hereby fixed as follows:

- (i) District 1: Unlimited;
- (ii) District 2: Unlimited;
- (iii) District 3: 200,000 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs 1-19, 18 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: March 7, 1973.

PAUL A. NICHOLSON,  
Acting Director, Fruit and Veg-  
etable Division, Agricultural  
Marketing Service.

#### TRANSITION AREA Proposed Alteration

##### Correction

In FR Doc. 73-3758 appearing on page 5482 in the issue of Thursday, March 1, 1973, in the 11th line of the second paragraph, change the date "March 2, 1973", to read "April 2, 1973".

#### Federal Aviation Administration [ 14 CFR Part 71 ]

[Airspace Docket No. 73-SO-13]

#### TRANSITION AREA Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Nashville, Tenn., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, Post Office Box 20636, Atlanta, GA 30320. All communications received on or before April 9, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but

arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, GA.

The Nashville transition area described in § 71.181 (38 FR 435) would be amended as follows:

" \* \* \* long. 86°18'55" W.) \* \* \* would be deleted and " \* \* \* long. 86°18'55" W.) ; within an 8-mile radius of Murfreesboro Municipal Airport (lat. 35°52'32" N., long. 86°22'45" W.) ; within 3 miles each side of the 007° bearing from Lascassas RBN (lat. 35°52'18" N., long. 86°22'37" W.) , extending from the 8-mile-radius area to 8.5 miles north of the RBN \* \* \* " would be substituted therefor.

The proposed alteration is required to provide controlled airspace protection for IFR operations at Murfreesboro Municipal Airport, Murfreesboro, Tenn. A prescribed instrument approach procedure to this airport, utilizing the Lascassas (private) nondirectional radio beacon, is proposed in conjunction with the alteration of this transition area.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in East Point, Ga., on February 26, 1973.

PHILIP M. SWATEK,  
Director, Southern Region.

#### [ 14 CFR Part 71 ]

[Airspace Docket No. 73-SO-14]

#### TRANSITION AREA Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Chattanooga, Tenn., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, Post Office Box

20636, Atlanta, GA 30320. All communications received on or before April 9, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, GA.

The Chattanooga transition area described in § 71.181 (38 FR 435) would be amended as follows:

" \* \* \* 030° bearing from Lovell Field \* \* \* " would be deleted and " \* \* \* 030° bearing from Lovell Field; within a 6.5-mile radius of Hardwick Field, Cleveland, Tenn. (lat. 35°13'20" N., long. 84°49'58" W.) ; within 3 miles each side of the 221° bearing from Hardwick RBN (lat. 35°09'13" N., long. 84°54'21" W.) , extending from the 6.5-mile-radius area to 8.5 miles southwest of the RBN \* \* \* " would be substituted therefor.

The proposed alteration is required to provide controlled airspace protection for IFR operations at Hardwick Field, Cleveland, Tenn. A prescribed instrument approach procedure to this airport, utilizing the Hardwick (private) nondirectional radio beacon, is proposed in conjunction with the alteration of this transition area.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on February 26, 1973.

PHILIP M. SWATEK,  
Director, Southern Region.

#### ENVIRONMENTAL PROTECTION AGENCY

##### [ 40 CFR Part 50 ]

#### PREPARATION, ADOPTION, AND SUBMITTAL OF IMPLEMENTATION PLANS

Advance Notice of Proposed Rule Making  
On August 14, 1971 (36 FR 15486), the Administrator of the Environmental

Protection Agency (EPA) promulgated as 40 CFR Part 420, regulations for the preparation, adoption, and submittal of State implementation plans under § 110 of the Clean Air Act, as amended. These regulations were republished November 25, 1971 (36 FR 22398), as 40 CFR Part 51. Section 110(a)(2)(B) of the Clean Air Act and 40 CFR 51.12 require that State implementation plans provide for maintenance as well as for attainment of the national standards.

On January 31, 1973, the U.S. Court of Appeals for the District of Columbia Circuit issued an order in the case of Natural Resources Defense Council, Inc., et al. v. Environmental Protection Agency (Case No. 72-1522) and seven related cases. That order directed the Administrator of EPA to again review all implementation plans which were approved on May 31, 1972 (37 FR 10842, et seq.), to determine if they contain measures necessary to insure maintenance of the standards.

Such review has been completed and the Administrator has determined that it is necessary for State plans to contain, as a minimum, procedures whereby the State can review, prior to construction or modification, the location both of sources of pollution and of other facilities which may cause an increase in air pollution because of activities associated with such facilities, in order to insure that the national standards will be maintained; 40 CFR 51.18 imposes a review requirement with respect to stationary sources of air pollution. However, it does not require the review of facilities to determine the effect on air quality caused by associated activity, such as increased motor vehicle traffic. Because the implementation plans did not contain such a provision, they are being disapproved with regard to maintenance of the standards.

Notice is hereby given that the Administrator will propose an amendment to 40 CFR 51.18 which will extend the requirements for review set forth therein to apply to facilities which may cause an increase in air pollution because of activity associated with such facilities. The States will be required to have legally enforceable procedures reviewing, prior to construction or modification, the location of such facilities and for preventing such construction or modification where it would result in interference with the attainment or maintenance of a national standard. The Administrator is presently considering the types of facilities to be covered by such procedures and the factors to be considered in determining the impact such facilities will have on air quality. The amendment to 40 CFR 51.18 will be proposed by April 15, 1973.

The reasons for the regulation and the general form of it are more specifically discussed in the preamble to the Administrator's disapproval of the maintenance provisions of State plans which is published in 38 FR 6279. This advance notice of proposed rule making is published with the intention of informing the pub-

#### PROPOSED RULE MAKING

lic of the Agency's actions and plans in this important area, and for the purpose of providing States notice of an impending change in the implementation plan regulations which will require the adoption and submission to the Administrator of additional plan provisions. States should begin now to determine whether they have adequate legal authority to adopt such a regulation and, if they do not, take steps to secure such legal authority.

Dated: March 2, 1973.

WILLIAM D. RUCKELSHAUS,  
Administrator,  
Environmental Protection Agency.

#### SMALL BUSINESS ADMINISTRATION

##### [ 13 CFR Part 121 ]

#### SMALL BUSINESS SIZE STANDARDS Definition of Affiliates as Affecting Licensed Small Business Investment Companies and Certain Other Registered Companies

The purpose of this notice is to give the public an opportunity to comment on a proposal by the Administrator of the Small Business Administration to amend the definition of the term "affiliates" as used in the small business size standards regulation to exclude licensed small business investment companies (SBIC) and investment companies registered under the Investment Company Act of 1940, as amended, from being considered as affiliates for size determination purposes, notwithstanding the fact that there may be common ownership, common management, or contractual relationship between such companies and an applicant for SBA assistance.

Section 121.3-2(a) of the currently effective size standards regulation provides that concerns are affiliated if one concern other than an investment company licensed under the Investment Company Act of 1958 or registered under the Investment Company Act of 1940 controls or has the power to control both. Concerns also are affiliated if the same third party, other than an SBIC or investment company registered under the Investment Company Act of 1940, controls or has the power to control both. However, the regulation does not except from affiliation the situation wherein a third party controls or has the power to control both an SBIC (or an investment company registered under the Investment Company Act of 1940) and another concern. Thus, an otherwise small concern might lose its small business size status just because the party which controls or has the power to control it, also controls or has the power to control an SBIC (or an investment company registered under the Investment Company Act of 1940).

It is the view of the Small Business Administration that, to preclude a concern from receiving SBA assistance under the above circumstances would be contrary to the intent and spirit of the Small

Business Act in that it would discourage the formation of companies designed to assist small business and in many instances also prevent the Government from assisting concerns which are really small and need such assistance.

Accordingly it is proposed to amend Part 121 of Chapter I of Title 13 of the Code of Federal Regulations by revising § 121.3-2(a) to read as follows:

§ 121.3-2 Definition of terms used in this part.

(a) Affiliates; Concerns, other than investment companies licensed under the Small Business Investment Act of 1958 or registered under the Investment Company Act of 1940, as amended, are affiliates of each other when either directly or indirectly (1) one concern controls or has the power to control the other, or (2) a third party or parties controls or has the power to control both. In determining whether concerns are independently owned and operated and whether or not affiliation exists, consideration shall be given to all appropriate factors, including common ownership, common management, and contractual relationships; *Provided, however*, That restraints imposed on a franchisee by its franchise agreement shall not be considered in determining whether the franchisor controls or has the power to control and, therefore, is affiliated with the franchisee, if the franchisee has the right to profit from his effort, commensurate with ownership, and bears the risk of loss or failure. Where a concern is a subcontractor pursuant to section 8(a)(2) of the Small Business Act and, in connection therewith, is the subject of a divestiture agreement approved by SBA for the benefit of socially or economically disadvantaged individuals, the receipts, employment, and other factors of the concern attributable to the section 8(a)(2) subcontract shall not be included in determining the size of either concern during the term of such divestiture agreement. Other contracts and business of such subcontractor may also be excluded in determining the size if, in the judgment of SBA, substantial beneficiaries of such other contracts and business will be the socially or economically disadvantaged individuals in question.

Interested persons may file with the Small Business Administration on or before April 9, 1973, written statements of facts, opinions, or arguments concerning the proposal.

All correspondence shall be addressed to:

William L. Fellington, Director, Office of Industry Studies and Size Standards, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

Dated: February 26, 1973.

THOMAS S. KLEPPE,  
Administrator.

## Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

### DEPARTMENT OF THE TREASURY

#### Comptroller of the Currency

#### COMPTROLLER OF CURRENCY'S CONSULTING COMMITTEE OF BANK ECONOMISTS

##### Notice of Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a closed meeting of the Comptroller of the Currency's Consulting Committee of Bank Economists will be held at 9:30 a.m. on March 28, 1973.

The purpose of this meeting is to provide assistance to the Comptroller of the Currency through informal discussions on those banking issues and problems that lend themselves to economic analysis. The Committee functions as a subgroup of the National Advisory Committee on Banking Policies and Practices.

It is hereby determined pursuant to section 10(d) of Public Law 92-463 that the meeting is concerned with matters listed in section 552(b) of title 5 of the United States Code and particularly with exceptions (3), (4), and (8) thereof, and is therefore exempt from the provisions of sections 10(a)(1) and (a)(3) of the Act (Public Law 92-463) relating to open meetings and public participation therein.

Dated: March 5, 1973.

### DEPARTMENT OF THE INTERIOR

#### Bureau of Land Management

[CA 167]

#### CALIFORNIA

#### Notice of Proposed Withdrawal and Reservation of Lands

FEBRUARY 28, 1973.

The Forest Service, U.S. Department of Agriculture, has filed an application, Serial No. CA 167, for the withdrawal of national forest lands described below from appropriation under the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws.

The lands are located within the Shasta-Trinity National Forest and have been open to entry under the general mining laws. The lands contain developed campsites and administrative sites and any disturbance to these areas would adversely affect their value for public purposes. The Forest Service has made application to withdraw the lands from mining in order to protect their value for present and future public purposes.

On or before April 9, 1973, all persons who wish to submit comments, suggestions, or objections with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, CA 95825.

The Department's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate the lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination by the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN  
SHASTA-TRINITY NATIONAL FOREST  
T. 29 N., R. 10 W.,  
Sec. 11, SW 1/4 SW 1/4 SW 1/4;  
Sec. 14, S 1/4 SE 1/4, NW 1/4 SE 1/4, S 1/4 NE 1/4 SE 1/4;  
Sec. 23, N 1/2 N 1/2 NE 1/4.

The area described aggregates 190 acres of land in Shasta and Trinity Counties.

WALTER F. HOLMES,  
Chief, Branch of Lands  
and Minerals Operations.

### DEPARTMENT OF AGRICULTURE

#### Agricultural Marketing Service

#### GRAIN STANDARDS

##### Pennsylvania Inspection Point

Statement of considerations. The Grain and Hay Exchange of Pittsburgh, Pittsburgh, Pa., has proposed that, effective April 1, 1973, its designation under section 3(m) of the U.S. Grain Standards Act (sec. 3, 39 Stat. 482, as amended, 82 Stat. 762; 7 U.S.C. 75(m)) to operate an official grain inspection agency at Pittsburgh, Pa., be canceled. Therefore, the Agricultural Marketing Service proposes to cancel the designation of said exchange as the official grain inspection agency at Pittsburgh, effective on said date.

Interested organizations and persons are hereby given opportunity to make application for designation to operate an official inspection agency at Pittsburgh, Pa., according to the requirements in § 26.97 of the regulations (7 CFR 26.97) under the U.S. Grain Standards Act.

NOTE: Section 7(f) of the Act (sec. 3, 39 Stat. 482, as amended, 82 Stat. 764; 7 U.S.C. 79(f)) provides generally that not more than one inspection agency shall be operative at any one time for any one city, town, or other area.

Members of the grain industry who wish to submit views and comments are requested to include the name of the person or agency which they recommend to be designated to operate an official inspection agency at Pittsburgh, Pa., if they believe such an agency is needed there.

Opportunity is hereby afforded all interested persons to submit written data, views, or arguments with respect to this matter to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions shall be in duplicate and shall be mailed to the hearing clerk not later than April 9, 1973. All submissions made pursuant to this notice will be made available for public inspection at the office of the hearing clerk during regular business hours (7 CFR 1.27(b)). Consideration will be given to the written data, views, or arguments so filed with the hearing clerk and to other information available to the U.S.

### Forest Service STANISLAUS FOREST-WIDE LIVESTOCK ADVISORY BOARD

#### Notice of Meeting

The Stanislaus Forest-Wide Livestock Advisory Board will meet at 7:30 p.m., March 29, 1973, at 542 West Stockton Road, Sonoma, CA 95370.

The purpose of this meeting is to discuss the following agenda items:

1. May a Livestock Advisory Board member serve on more than one Livestock Advisory Board.
2. Review of the status of off-road vehicle use regulations.
3. Recommendations on setting of deer season dates.
4. Patrol of permittee range areas.
5. Clarification of Forest Service views on supplemental feeding on livestock ranges.
6. Request by Mr. Carl Dell'Orto for a joint Livestock Advisory Board-Forest Service range inspection tour of the Mattley grazing allotment.
7. Discuss comments Livestock Advisory Board members have on bylaws adopted for the Advisory Board.
8. Discuss potential impacts on livestock grazing of white water touring on the Tuolumne River.

The meeting will be open to the public. Written statements may be filed with the Board before or after the meeting.

The Board has established the following rules for public participation:

To the extent that time permits, members of the public may make oral statements on agenda items following completion of discussion of the agenda by the Advisory Board.

Dated: February 28, 1973.

### DEPARTMENT OF COMMERCE

#### Bureau of East-West Trade

[Case 442]

#### OTTO F. JOKLIK AND INSTITUTE OF ADVANCED TECHNOLOGY AND BIOTECHNOLOGY

##### Order Denying Export Privileges

In the matter of Otto F. Joklik, trading as Institute of Advanced Technology and Biotechnology, Haarlem University, Gersthoferstrasse 120, A-1180 Vienna 18, Austria (respondent).

By charging letter dated December 4, 1972, the Director, Compliance Division, Office of Export Control, charged the above respondent with violations of the regulations under the Export Adminis-

tration Act of 1969.<sup>1</sup> The charging letter was duly served and the respondent having failed to answer, was held in default pursuant to § 388.4 of the Export Control Regulations. In accordance with the usual practice an informal hearing was held before the Hearing Commissioner (on Feb. 2, 1973) at which evidence in support of the charges was presented on behalf of the Compliance Division.

There are two charges. Charge I alleges in substance that the respondent ordered certain strategic laser equipment from the West German affiliate of a U.S. company and represented that the equipment was for use in his laboratory in Vienna; that in reliance on respondent's representations an export license was issued authorizing the exportation; that on arrival of the equipment in Austria the respondent reexported and diverted it to U.S.S.R., an unauthorized destination. Charge II alleges in substance that in the course of an official investigation as to the disposition of the equipment (after respondent had reexported it to U.S.S.R.) the respondent falsely stated that he had not imported the equipment but expected to do so the following month and that he did not know where the equipment was at that time but assumed that it was at some customs area.

The Hearing Commissioner, after considering the evidence in the case, reported the findings of fact and concluded that the violations had occurred and he recommended the sanction hereinafter set forth be imposed.

After considering the evidence in the case, I adopt the Hearing Commissioner's findings of fact as follows:

Findings of fact. 1. The respondent, Otto F. Joklik, at the time here material, resided in Vienna, Austria. In the transaction that is the subject of the charging letter and in other transactions relating to the ordering and purchasing of U.S.-origin commodities the respondent has used letterheads imprinted as follows: "Prof. Otto F. Joklik, Ph. D., Institute of Advanced Technology and Biotechnology, Haarlem University." Some of these letterheads also bore an address in Vienna which is the residence apartment of respondent.

2. The respondent has represented that "Haarlem University" is located in Haarlem, The Netherlands. According to the Dutch Ministry of Education "Haarlem University" does not exist as a recognized institution. In the "World of Learning" (22d Ed. 1971-1972, Europa Publications, Ltd., London, England), a well recognized and authoritative publication that lists universities, learned societies, research institutes, etc., throughout the world, neither "Haarlem University" nor "Institute of Advanced Technology and Biotechnology" (hereinafter IATB) is shown to exist in The Netherlands or Austria.

The respondent acknowledged that his degree and title (of professor) stem from

<sup>1</sup> This Act has been amended by the Equal Export Opportunity Act, Public Law 92-412, 86 Stat. 644, approved Aug. 29, 1972.

## NOTICES

"Haarlem University." He also acknowledged that IATB does not have a laboratory or plant.

3. On June 25, 1970, the respondent on a letterhead of the type described in Finding 1, ordered from a firm in Frankfurt, West Germany, certain strategic laser equipment and accessories valued at approximately \$6,800. The Frankfurt firm is an affiliate of a company in New York City.

4. On August 14, 1970, the respondent sent to the Frankfurt firm an export control document showing that IATB/Joklik intended to import into Austria the laser articles in question, which were to be exported from the United States by the aforementioned New York company. The document showed that the articles were to be used by Joklik/IATB in their own laboratory for research purposes. The respondent knew that the export control document would be used by the exporter in support of an application for an export license.

5. The Frankfurt firm forwarded the export control document to the New York company. By application dated September 10, 1970, the New York company applied to the Office of Export Control (OEC) for an export license to export the articles in question, to be used by IATB in Vienna in its laboratory. In support of the application the New York company furnished to OEC the above-mentioned export control document. In reliance on the representations in the application for export license and in the said document, OEC on September 22, 1970, issued a license authorizing the New York company to export the articles in question for ultimate destination Austria.

6. On October 6, 1970, the New York company exported the articles in question, under the above-mentioned license, to the Frankfurt firm as intermediary consignee and for IATB, Vienna, as ultimate consignee. The shipment arrived in Frankfurt and was on-forwarded to Vienna where it arrived on or about October 16, 1970.

7. On or about October 19, 1970, the respondent instructed his freight forwarder in Vienna, who had possession of the articles, to on-forward them to a destination in Moscow, U.S.S.R. No authorization for such reexportation was obtained. The freight forwarder on or about October 19, 1970, shipped the articles to U.S.S.R. in accordance with respondent's instructions.

8. In the course of a postshipment investigation, under authority of the Export Administration Act of 1969, to determine the disposition of the above-mentioned laser equipment, the respondent on March 1, 1971, was interviewed by an official of the U.S. Embassy in Vienna. On this occasion respondent stated that he had not yet imported the equipment in question but expected to do so the following month. He also stated that he did not know where the equipment was but assumed that it must be at some customs area. He further stated

that he did not know who his shipping agent was for the equipment. At the time the respondent made these statements he knew that they were false. He knew that the equipment had arrived in Vienna on or about October 16, 1970, and that in accordance with his instructions to his freight forwarder the equipment had been on-forwarded to U.S.S.R.

Based on the foregoing, I have concluded that the respondent: (a) Violated § 387.6 of the Export Control Regulations in that without authorization from the Office of Export Control he knowingly diverted and reexported U.S.-origin commodities from Austria to the U.S.S.R. contrary to the terms and conditions of export control documents and contrary to prior representations; and (b) violated § 387.5 of said regulations in that during the course of an investigation instituted under authority of the Export Administration Act of 1969 he made false statements to and concealed material facts from an official of the U.S. Government concerning the disposition of U.S. origin commodities.

The Hearing Commissioner has recommended that the respondent be denied export privileges for the duration of export controls.

Now after considering the record in the case and the recommendation of the Hearing Commissioner, and being of the opinion that his recommendation as to the sanction that should be imposed is fair and just and calculated to achieve effective enforcement of the law:

*It is hereby ordered, That:*

I. All outstanding validated export licenses in which respondent, or Institute of Advanced Technology and Biotechnology, or Haarlem University appear or participate in any manner or capacity are hereby revoked and shall be returned forthwith to the Bureau of East-West Trade for cancellation.

II. So long as export controls are in effect the respondent is hereby denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States, in whole or in part, or to be exported, or which are otherwise subject to the Export Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction either in the United States or abroad, shall include participation: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control documents; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data; (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondent,

but also to his agents, employees, representatives, and partners, and to any person, firm, corporation, institution or organization with which he now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith. Included as related parties are Institute of Advanced Technology and Biotechnology and Haarlem University.

IV. No person, firm, corporation, partnership, institution, or other organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of East-West Trade, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with the respondent or other party denied export privileges within the scope of this order, or whereby said respondent or such other party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for said respondent or other party denied export privileges within the scope of this order; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

This order shall become effective on March 8, 1973.

Dated: March 1, 1973.

RAUER H. MEYER,  
Director, Office of Export Control,  
Bureau of East-West Trade.

SEC. 2. In accordance with approved procedures, the vessels listed below which called at Cuba after January 1, 1963, have reacquired eligibility to carry U.S. Government-financed cargoes from the United States by virtue of the persons who control the vessels having given satisfactory certification and assurance:

(a) That such vessels will not, thenceforth, be employed in the Cuban trade so long as it remains the policy of the U.S. Government to discourage such trade; and

(b) That no other vessels under their control will thenceforth be employed in the Cuban trade, except as provided in paragraph (c); and

(c) That vessels under their control which are covered by contractual obligations, including charters, entered into prior to December 16, 1963, requiring their employment in the Cuban trade shall be withdrawn from such trade at the earliest opportunity consistent with such contractual obligations.

National Bureau of Standards  
FEDERAL INFORMATION PROCESSING  
STANDARDS COORDINATING AND  
ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Public Law 92-463 and Executive Order 11686, notice is hereby given that the Federal Information Processing Standards Coordinating and Advisory Committee (FIPSCAC) will hold a meeting from 10 a.m. to 1 p.m., on Tuesday, March 27, 1973, in Room B-255, Building 225, of the National Bureau of Standards in Gaithersburg, Md.

The purpose of the meeting is to review the actions of the Federal Information Processing Standards (FIPS) Task Groups and to consider other matters relating to Federal information processing standards.

The public will be permitted to attend, to file written statements, and, to the extent that time permits, to present oral statements. Persons planning to attend should notify the Office of Infor-

mation Processing Standards, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, phone 301-921-3551.  
Dated: March 5, 1973.

RICHARD W. ROBERTS,  
Director.

SCHERING CORP. AND LEDERLE  
LABORATORIES

Metreton and Aristomin, Steroid Combination Preparations for Oral Use; Final Order on Objections and Request for Hearing Regarding Withdrawal of Approval of New Drug Applications

In the FEDERAL REGISTER of August 29, 1970 (35 FR 13802), the Food and Drug Administration announced its evalua-

tion of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on seven combination antihistamine/glucocorticoid drugs for oral administration, including Metreton Tablets (NDA 10-493 held by Schering Corp.) and Aristomin Capsules (NDA 11-686 held by Lederle Laboratories Division, American Cyanamid Co.).

The announcement stated the conclusion of the Food and Drug Administration that there is a lack of substantial evidence of effectiveness of these fixed dosage combination drugs for the conditions of use prescribed in their labeling. Accordingly, the Commissioner of Food and Drugs announced his intention to initiate action to withdraw approval of the new drug applications for these drugs. The Commissioner invited holders of new drug applications and any other interested persons who might be adversely affected by the removal of these drugs from the market, to submit, within 30 days, adequate and well-controlled clinical investigations to be considered in support of the effectiveness of these drugs.

On September 24, 1970, Schering Corp. (Schering) submitted information concerning the effectiveness of Metreton Tablets. This material was evaluated, but failed to provide substantial evidence, derived from adequate and well-controlled clinical investigations, of the effectiveness of the drug. Subsequently, on March 31, 1971, there was published in the FEDERAL REGISTER (36 FR 5928) a notice of opportunity for hearing in which the Commissioner proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 355(e), withdrawing approval of the new drug application for Metreton Tablets and all amendments and supplements applying thereto, on the ground that there was a lack of substantial evidence that the drug would have the effect it purports or is represented to have for the conditions of use recommended in its labeling. Thirty days were allowed for filing a written appearance requesting a hearing, giving the reasons why approval of the new drug application should not be withdrawn, together with a well-organized and full factual analysis of the clinical and other investigational data in support thereof, showing that a genuine and substantial issue of fact requires a hearing.

On September 25, 1970, Lederle Laboratories (Lederle) submitted its response to the initial notice of August 29, 1970. This submission was reviewed and evaluated and failed to provide any evidence, derived from adequate and well-controlled clinical studies, of the effectiveness of the drug. Thus, on May 27, 1971, there was published in the FEDERAL REGISTER (36 FR 9670) a notice of opportunity for hearing in which the Commissioner proposed to issue an order under the provisions of section 505(e) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 355(e), withdrawing approval of the new drug applications for Aristomin and five other fixed-dosage steroid combination preparations of similar composition, and all amendments and supplements thereto. Thirty days were allowed for filing a written appearance requesting a hearing by any interested person, giving the reasons why approval of the new drug application should not be withdrawn, together with well-organized and full factual analysis of the clinical and other investigational data in support thereof, showing that a genuine and substantial issue of fact requires a hearing.

On June 30, and June 24, 1971, respectively, Schering (Metreton Tablets, NDA 10-493) and Lederle (Aristomin Capsules, NDA 11-686) filed written appearances and requested a hearing. None of the holders of the other five glucocorticoid/antihistamine combinations listed in the FEDERAL REGISTER notice of August 29, 1970, filed a written appearance. Their failure to file is construed as an election not to avail themselves of the opportunity for a hearing. Accordingly, on September 29, 1972 (37 FR 20343), pursuant to section 505(e) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 355(e), the Commissioner withdrew approval of these new drug applications and all amendments and supplements thereto. The Commissioner found that there was a lack of substantial evidence that the drugs would have the effects recommended in their labeling. The Commissioner further concluded that the drugs were not appropriate for administration as fixed-dose combinations established in guidelines in the Statement of General Policy on Fixed Combination Prescription Drugs for Humans, 21 CFR 3.86, published in the FEDERAL REGISTER of October 15, 1971 (36 FR 20037).

The requests for hearing by Schering (Metreton) and Lederle (Aristomin) have been considered, including the medical presentation of Schering, and the Commissioner concludes that there is no genuine and substantial issue of fact requiring a hearing and that the legal arguments offered are insubstantial.

I. The drugs—A. Metreton Tablets. Metreton is a fixed-combination steroid-antihistamine compound consisting of prednisone (2.5 mg. per tablet), chlorpheniramine maleate (2.0 mg. per tablet) and ascorbic acid (75.0 mg. per tablet).

B. Aristomin Capsules. Aristomin is a fixed-combination steroid-antihistamine compound consisting of triamcinolone (1 mg. per capsule), chlorpheniramine maleate (2 mg. per capsule), and ascorbic acid (75.0 mg. per capsule).

II. Recommended uses and rationale. A. Metreton is recommended in its labeling for severe hay fever, severe chronic asthma or seasonal asthma, perennial allergic rhinitis, angioedema, urticaria, drug reactions, serum sickness due to penicillin or other causes; for use in the control of the exudative and inflammatory phases of ocular disorders as allergic conjunctivitis, keratitis, non-granulomatous iritis, iridocyclitis, choroiditis, chorioretinitis, and uveitis. Metreton is also recommended for difficult cases of atopic dermatitis, poison ivy

dermatitis, exfoliative dermatitis and, in dentistry, to reduce postoperative sequelae.

An initial dosage of Metreton is four to eight tablets per day, which dosage would provide 10 to 20 milligrams of prednisone and 8 to 16 milligrams of chlorpheniramine maleate, plus 300 to 600 milligrams of ascorbic acid (Vitamin C) per day.

In its written appearance requesting a hearing, Schering suggests that the rationale underlying the Metreton formulation is twofold: First, that a reduction of the quantity of the glucocorticoid component (prednisone) is made possible by the addition of the antihistamine component (chlorpheniramine maleate), which reduction decreases the frequency and severity of adverse reactions attributable to oral glucocorticoid therapy; and second, that antihistamine and glucocorticoids exert their antiallergic effects by different means thereby complementing one another.

B. Aristomin is recommended in its labeling for perennial asthma, drug reaction, seasonal and perennial rhinitis, allergic rhinitis, and for treatment of generalized pruritus.

The initial dosage recommendation for Aristomin Capsules is 3 to 6 capsules per day, which dosage would provide 3 to 6 milligrams of triamcinolone and 6 to 12 milligrams of chlorpheniramine maleate, plus 225 to 450 milligrams of ascorbic acid per day.

Lederle, in its written appearance and request for a hearing, suggests that the rationale for Aristomin is the effect of the antihistamine component (chlorpheniramine maleate) in permitting a lower dosage of the glucocorticoid component (triamcinolone).

III. Medical documentation to support claims of effectiveness.—A. The individual components. Schering, in its request for a hearing on the proposal to withdraw approval for Metreton, submitted brief summaries of several articles dealing with the action of two of the three components—prednisone and chlorpheniramine maleate—separately in the treatment of various indications, including allergic symptoms. The Commissioner does not question the effectiveness of these drugs, when used separately, for certain conditions. However, their effectiveness in independent treatment does not provide substantial evidence to support the claimed advantages of the fixed combination Metreton formulation. Thus, these articles are irrelevant and raise no genuine and substantial issue of fact concerning the effectiveness of Metreton which would require a hearing. United States v. An Article of Drug . . . Furestrol Vagina Suppositories, 294 F. Supp. 1307 (N.D. Ga., 1968), aff'd 415 F. Supp. 390 (C.A. 5, 1969); United States v. 7 Cartons . . . Ferro-Lac, 293 F. Supp. 660, 664 (S.D. Ill., 1968), aff'd 424 F. 2d 1364 (C.A. 7, 1970); United States v. 1,048,000 Capsules . . . Methyltestosterone, 347 F. Supp. 768, 773 (S.D. Tex., 1972); United States v. Mykocert, 345 F. Supp. 571, 574-6 (N.D. Ill., 1972).

Schering and Lederle rely upon the findings of the National Academy of Sciences-National Research Council on the efficacy of prednisone, triamcinolone and chlorpheniramine maleate, the glucocorticoid and antihistamine components of Metreton and Aristomin.

In the FEDERAL REGISTER of October 21, 1970 (35 FR 16424), the Food and Drug Administration announced its evaluation of the report of the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on certain corticosteroid drugs for oral use, including prednisone and triamcinolone. These oral corticosteroids have a large number of indications but with respect to those related specifically to the indications claimed for Metreton and Aristomin, prednisone and triamcinolone are indicated only for control of severe or incapacitating allergic conditions intractable to adequate trials of conventional treatment: severe, acute, and chronic allergic and inflammatory processes involving the eye and its adnexa; exfoliative dermatitis; and dental postoperative inflammatory reactions. The announcement further stated that dosage should be individualized according to the severity of the disease and the response of the patient, and that the severity, prognosis, and expected duration of the disease are primary factors in determining dosage.

In the FEDERAL REGISTER of June 18, 1971 (36 FR 11758), the Food and Drug Administration announced its evaluation of reports of the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on antihistamine preparations for oral administration, including chlorpheniramine maleate. The Food and Drug Administration concluded that chlorpheniramine maleate was indicated for perennial and seasonal allergic rhinitis, mild, uncomplicated allergic skin manifestations of urticaria and angioedema, mild, local allergic reaction to insect bites, physical allergies, and minor drug and serum reaction characterized by pruritis.

In its written appearance, Schering readily acknowledges the increased risk from the concomitant administration of glucocorticoid and antihistamine drugs when administered together in a fixed combination. The Commissioner concludes that the fixed combination of an antihistamine, known to be symptomatically effective for only mild to moderate forms of allergic disease, with high-risk glucocorticoid, indicated only for severe or incapacitating allergic conditions intractable to adequate trials of conventional treatment, is therapeutically irrational. The antihistamine is useless for severe conditions and thus its presence is unjustified; the potent glucocorticoid is unnecessary in mild cases and thus its presence adds substantial and unwarranted risk.

In summary, the Commissioner does not question the effectiveness of the individual glucocorticoid and antihistamine components of Metreton and Aristomin, when administered separately for the appropriate conditions contained in the

new labeling now approved by the Food and Drug Administration for these individual drugs. The sole issue is whether, in a fixed combination, there is substantial evidence of their effectiveness for the labeled conditions of use. Such evidence must meet the statutory standard of "adequate and well-controlled investigations" required by 21 U.S.C. 355(d), as elucidated in 21 CFR 130.12(a)(5), and must satisfy the requirements for fixed combination drugs established in 21 CFR 3.86. The medical documentation with respect to Metreton and Aristomin as fixed combination drugs is discussed below.

B. *The fixed combination.* Schering presented brief articles reporting two studies purporting to establish the effectiveness of Metreton as a fixed combination. The Commissioner has reviewed these submissions and concludes that they are not adequate and well controlled as required by 21 U.S.C. 355(d) and 21 CFR 130.12(a)(5) and thus cannot constitute substantial evidence of efficacy, and that they do not satisfy the requirements of 21 CFR 3.86 with respect to the type of proof needed specifically for fixed combination drugs.

1. Rudolph S. Lackenbacher, "Treatment of Pruritic Dermatoses with Chlorpheniramine Maleate and Prednisone in Combination (Metreton)," *Annals of Allergy* 15:409-413, 1957. Eighty-seven patients, ranging from ages 9 to 83 years and having nine different diagnoses, were given Metreton after treatment with chlorpheniramine maleate alone was unsuccessful. This study claims that "excellent" and "good" responses were observed in approximately 80 percent of the patients. However, no control group of patients similarly nonresponsive to initial antihistamine treatment alone was utilized in order to permit quantitative evaluation of the apparent success of the Metreton treatment, as required by 21 CFR 130.12(a)(5)(ii)(a)(4). Hence, no statistical analysis or other scientific evaluation could be made. This, in itself precludes the usefulness of this study to establish effectiveness under the statutory standard.

In addition to the absence of a control group, the diagnosis of the substantial number of the patients in the study indicated that they did not have conditions for which Metreton is recommended in its labeling. Moreover, the dosage schedule under this study was different than that recommended in the labeling of Metreton, since, in this study, two tablets were given after breakfast and two at bedtime, whereas the labeling for Metreton recommends that the tablets be taken one after each meal and at bedtime.

Moreover, the study does not adequately explain the variables measured in assessing the response of the subjects, as required by 21 CFR 130.12(a)(5)(ii)(a)(3). For example, patients were evaluated as having "good" response "if 70 to 85 percent improvement" occurred, which improvement was measured by relief of inflammation or pruritis, or both.

Rather than establishing the complementary effect of the steroid and antihistamine factors, the study indicates that in cases of severe dermatosis where antihistamine is ineffective, the introduction of a steroid component yields more successful results. In order to establish the complementary nature of the steroid and antihistamine components, the study would need to have included a control group which received prednisone alone where prior antihistamine was unsuccessful. Such a control group did not exist in this study.

2. Nathan E. Silbert, "Steroid, Antihistamine, and Vitamin C: A Synergism of Therapeutic Agents in the Treatment of Allergic Disease", *Acta Allergologica* 15 (Supp. 7): 518-525, 1960. Like the Lackenbacher study, this study lacks any control group in order to permit evaluation of claimed safety and effectiveness of Metreton tablets, as required by 21 CFR 130.12(a)(5)(ii)(a)(4). In the absence of a control group, it is impossible to determine whether any specific amount of antihistamine alone, glucocorticoid alone, or a specific combination of the two ingredients, other than that fixed in Metreton, would have yielded similar or better results. This study is neither adequate nor well controlled and fails to meet the statutory standard.

Moreover, the study purported to evaluate the use of Metreton for diagnoses not recommended in its labeling, such as "uncomplicated pollen hay fever," since Metreton is recommended only for severe hay fever. It is noteworthy that the study, even with its major methodological flaws, revealed that Metreton was of very limited success in cases of severe bronchial asthma.

C. *Additional studies.* In addition to the above two studies, several other studies were also submitted that, while not directly related to the effectiveness of Metreton, were offered by Schering in support of the medical rationale of Metreton and Aristomin.

1. "Repository Pollen Therapy," Mayer A. Green, *Annals of Allergy*, June 1963, p. 308. This study is not designed to evaluate the effectiveness of a fixed combination of glucocorticoid and antihistamine for any of the indications listed in the labeling of either Metreton or Aristomin. Rather, this study appears to constitute some evidence that antihistamine tablets containing prednisolone reduce the number of local reactions in patients receiving repository pollen injection therapy. Moreover, the study is not designed to make any conclusion as to whether it was the antihistamine or the prednisolone element which may account for the relative infrequency of local reactions and does not constitute evidence of synergistic qualities between the glucocorticoid and the antihistamine components.

2. "Repository Pollen Therapy," Mayer A. Green, *Annals of Allergy*, April 1964, p. 187. This study, like the study reported by Dr. Green in June 1963, does not purport to support the proposition that corticosteroid and antihistamine are effective for the indications on the labeling of Aristomin and Metreton but rather

is further evidence of their effect in reducing reactions to repository pollen therapy. The objective of the study was to determine the effect of steroid-antihistamine dosage on reaction rates associated with the use of emulsified antigens in allergy therapy and to determine the effectiveness of prophylactic administration of such medication given concurrently and separately with placebos. Contrary to the position adopted by the manufacturers of Aristomin and Metreton that a fixed dosage of corticosteroid and antihistamine is a rational medical approach, this study concludes that particularly in dosage has a critical effect in evaluating a steroid-antihistamine product.

3. "Steroids and Antihistamines Combined in Long-Term Therapy of Chronic Bronchial Asthma," M. M. El-Meharry and N. El-Tarabichi, *Annals of Allergy*, January 1963, p. 10. The study reported in this article has several significant procedural defects, such as inadequate diagnostic criteria in the selection of subjects. 21 CFR 130.12(a)(5)(ii)(a)(2). In addition, the specific corticosteroid-antihistamine ingredients used in this study were significantly different than those in either Aristomin or Metreton, since the steroid component was 0.75 mgm. of dexamethasone, with 25 mgm. of the antihistamine in each tablet.

Significantly, the study shows that while a regimen of three antihistamine tablets alone resulted in no improvement in the patients, the addition of increasing amounts of a corticosteroid component resulted in direct and increasing improvement (group one). Where patients received an initial regimen of three tablets of the corticosteroid component alone, significant improvement was shown, and when one of the corticosteroid tablets was replaced by one antihistamine tablet, improvements reduced (group two). Thus, contrary to the theory suggested by the manufacturers of Aristomin and Metreton, the study appears to support the effectiveness of corticosteroid therapy alone in treatment of "severe" cases. This is the conclusion one would expect. Moreover, in direct conflict with the rationale presented for the use of fixed doses of glucocorticoids and antihistamines in Aristomin and Metreton, the authors of this article state that "patients required careful handling and proper interplay of both doses of steroids and antihistamines . . . preference was given to the use of steroids and antihistamines separately and not in a united, compressed tablet." In both study groups, no placebo controls were used, as is required in 21 CFR 130.12(a)(5)(ii)(a)(4)(ii).

4. "Studies of Cyproheptadine Combined with Dexamethasone," Ashton L. Welsh, and Mitchell Ede, *The Journal of New Drugs*, July-August, 1962, p. 223. This article reports a study involving a combination of cyproheptadine with dexamethasone, which article suggests that the cyproheptadine would exert a "steroid-sparing effect" and permit use of lower dosage of dexamethasone for initial suppression of symptoms as well as

for maintenance therapy. This study demonstrates that glucocorticoid therapy creates a substantial risk of side effects and that unwarranted increases of the glucocorticoid component in combination with antihistamine will similarly increase side effects. However, this proposition is well established in medicine and is an important factor in the conclusion of the Commissioner and the NAS-NRC panels that Metreton and Aristomin are ineffective as a fixed combination.

In addition, the study does not show a synergistic action between the antihistamine component and the corticosteroid component. To create evidence for such a proposition, the study would have to compare the dosages given in the study groups with a placebo dose. The need for such control or placebo group is required by 21 CFR 130.12(a)(5)(ii)(a)(4)(ii). The authors conclude that the corticosteroid component, dexamethasone, enhances the antiallergic properties of the cyproheptadine. However, increased corticosteroid in one study group (Series 1) resulted in a lower percentage of improvement as measured by the investigators.

5. "Dexamethasone in Allergy," Cecil M. Kohn and William C. Grater, *Annals of Allergy*, May-June 1959, p. 385. This study could not support the rationale suggested for a fixed combination of glucocorticoid and antihistamine since the study "was undertaken in an attempt to evaluate the usefulness of dexamethasone, [alone] in the treatment of allergic disorders." In addition, the article does not state the method of selection of patients for the study and thus there is no adequate assurance that they are suitable for inclusion in this study. Nor were diagnostic criteria of the conditions of such patients stated; neither were confirmatory diagnostic tests reported. 21 CFR 130.12(a)(5)(ii)(a)(1) and (2). The most serious inadequacy of this study is the absence of a control group as is required by 21 CFR 130.12(a)(5)(ii)(a)(4). The methods of observation and recording of results, including the variables measured, were stated in broad and unspecific terms; "therapy was judged to have been satisfactory if both the patient and the physician agreed that the control of signs and symptoms outweighed any undesirable effects which may have occurred." 21 CFR 130.12(a)(5)(ii)(a)(4).

6. "A Possible Synergistic Effect Between Antihistamines and Corticosteroids," Blair Macaulay, *Acta Allergologica*, Supplement V, 1958, p. 159. This study involved only 12 patients who were on a maintenance dosage of corticosteroid therapy. The author claims that with the addition of an antihistamine component seven of the 12 patients "were able to reduce their dose of prednisolone by one tablet of 5 mg." In addition four asthmatic children, on maintenance corticosteroid therapy, were given an antihistamine component. The author reports that two were "able to reduce the dose of prednisolone." Neither the method of selection of the subjects nor

the methods of observations and recording results, including the variables measured, are reported as required by 21 CFR 130.12(a)(5)(ii)(a)(2). In addition, the author states that the results "can give rise to no conclusion of value. The numbers are insufficient: controls are quite inadequate." 21 CFR 130.12(a)(5)(ii)(a)(4). Thus, the author's conclusion, that "it is apparent that they (antihistamines and corticosteroids) have inhibiting action at differing levels of the histamine release mechanism" is totally without substantiation.

7. "Dexamethasone-Phenyltoloxamine in Bronchial Asthma," H. D. Ogden, *Medical Times*, October 1963. This study is wholly inadequate. The study group consisted of only 11 patients. Moreover, many of the essential criteria required to establish the adequacy of a clinical investigation, as required by 21 CFR 130.12(a)(5)(ii)(a), were not satisfied. And as with several other of the studies submitted by Schering the corticosteroid and antihistamine components in this study are not the same as those present in either Metreton or Aristomin tablets. This difference is particularly important with regard to the corticosteroid component, since the potency of dexamethasone is significantly greater than that of prednisone or triamcinolone. (As pointed out by Kohn and Grater, in "Dexamethasone in Allergy," submitted by Schering, 0.75 mg. of dexamethasone "would compare favorably" with 5 mg. of prednisone or prednisolone and 4 mg. of triamcinolone.)

8. "Investigations Into the Combined Action of Glucocorticoids and an Antihistaminic Agent Against Histamine and Allergic Processes," K. Credner and E. M. Schelske, *Arzneimittel Forschung*, Volume 14, 940-943, August 1964. This paper reported three experiments with laboratory animals. The first experiment dealt with allergically induced contraction of guinea pig ileum. The experiment reveals that for a given concentration of the antihistamine component, denominated in the study as WV 761, the antiallergic effect is strengthened by the addition of a steroid component. However, since the effect was dose related, increased inhibition could also be obtained by increasing the concentration of the antihistamine alone.

A second experiment concerned the effect of antihistamine and steroid in decreasing rat paw swelling. Here, neither 2.5 mg./kg. of WV 761 (antihistamine) nor 8 mg./kg. prednisolone (steroid) significantly reduced the swelling, whereas both 5 mg./kg. of WV 761 alone and a combination of 2.5 mg./kg. of WV 761 and 4 mg./kg. of prednisolone were effective in reducing the swelling.

In the third experiment, guinea pigs were sensitized to have a bronchial asthmatic allergic reaction. In this case, 10 mg./kg. of WV 761 offered slight protection to the sensitized animals whereas 100 mg./kg. of prednisolone had no effect. The combination of these amounts of antihistamine and steroid yielded clear reduction of the asthmatic symptoms. However, a higher dose of the

antihistamine alone was not tested to determine whether comparable reduction in symptoms could have been achieved without the large dosage of the steroid component.

The authors of the report on these experiments conclude that "the additional dose of adrenal cortex hormones (steroids) is indeed able to intensify the antihistamine-induced reduction of allergic phenomena. An explanation of this occurrence is difficult." In the models tested, the presence of steroid increased the response obtained with a given antihistamine dose. A similar response, however, could be obtained by increasing the dose of antihistamine alone, as was shown in the rat paw experiment. Thus, these animal studies merely show that steroids increase the response obtained with a given antihistamine dose. This is predictable in light of the extremely high potency of steroids, especially at the dosage levels utilized in these experiments. Moreover, the extremely high amount of antihistamine and steroid administered in these experiments are of questionable comparability to the dosage levels in Metreton or Aristomin.

9. "Pharmacological and Toxicological Expertise On Celestamine," P. Bouyard, unpublished paper, 1961. The product which was the subject of this essay, Celestamine, contained 0.25 mg. betamethasone, 2 mg. dexachlorpheniramine maleate, 0.15 mg. erythrosine, 4.91 mg. powdered gelatin, 19.65 mg. corn starch, 172.13 mg. lactose, and 1 mg. magnesium stearate. This study compared the effectiveness of the combination (Celestamine) with the steroid (betamethasone) alone in reducing inflammation of swelling in rat paws. The percentage of diminution of the inflammatory phenomena was almost indistinguishable between the combination and the steroid alone; 77 percent with four tablets of Celestamine and 74 percent with the same dosage of betamethasone alone.

Two other experiments are reported in this study: one dealing with the effectiveness of Celestamine on inflammatory granuloma and another on its antihistamine properties. Both of these experiments showed increased effectiveness and/or toxicity with increased dosages of the combination. But neither study included a control group to determine and compare the effect of the combination with the antihistamine and steroid components alone. Indeed, in his conclusions section, the author does not mention any evidence of synergism developed by the study.

10. "Report on the Clinical Experiments on the Preparation 'Celestamine' Tablets," Luigi Bruni, Unpublished Report, January 1966. This study dealt with Celestamine tablets, a fixed combination of 25 mg. of the steroid betamethasone and 2 mgs. of the antihistamine dex-trochlorpheniramine maleate. In "some" of the 65 patients, therapy was started with betamethasone alone and the purpose of the study was merely to establish

whether the combination preparation would be effective in maintaining the results already obtained in steroids alone. In "other cases," the number of which is not revealed in the Bruni article, treatment was started with the combination, Celestamine, using an initial daily dose containing half the amount of steroid which would have been used alone. However, the ratio of antihistamine and steroid in Celestamine is significantly different from the ratios fixed in both Aristomin and Metreton tablets.

The study has several significant methodological defects, including inadequate data on the method of selection of subjects, since the patients included in the study were those for whom steroids were contra-indicated or who had been treated as outpatients with steroids at too low or too high dosages (21 CFR 130.12(a)(5)(ii)(a)(2)); the absence of criteria upon which the study concluded that the treatment result was either "good," "excellent," or "moderate" (21 CFR 130.12(a)(5)(ii)(a)(3)); and a complete absence of a control group so as to permit quantitative evaluation (21 CFR 130.12(a)(5)(ii)(a)(4)).

D. Summary. It is clear that the medical evidence submitted by Schering does not meet the statutory standard of "adequate and well controlled investigations" required by 21 U.S.C. 355(d), as elucidated in 21 CFR 130.12(a)(5), and does not satisfy the requirements for a fixed combination drug for human use established in 21 CFR 3.86.

Schering has submitted no data at all on the effectiveness, or indeed the purpose, of the Vitamin C present in each tablet of Metreton. There has been presented no controlled study whatever on the use of the Metreton formulation of glucocorticoid and antihistamine for the conditions for which the drug is recommended in its labeling.

Reports of several studies were submitted by Schering to support its rationale for Metreton, namely, that glucocorticoid and antihistamine have a synergistic effect which permits a reduction in the quantity of the glucocorticoid component, which reduction decreases the frequency and severity of adverse reaction attributable to oral glucocorticoid therapy. However, these studies are wholly unsuccessful in establishing the firm's claimed rationale. Indeed, in direct conflict with the rationale suggested by Schering for Metreton, one article submitted by the firm concludes that patients require proper interplay of both doses of glucocorticoids and antihistamines and that preference was given to the use of steroids and antihistamines separately and not in a fixed combination. In addition, some of the studies clearly revealed that they were not designed to evaluate the effectiveness of a fixed combination of glucocorticoids and antihistamines for any of the indications listed on the labeling of either Metreton or Aristomin. In sum, these studies are marked by insufficient and inadequate controls, as one author unabashedly admits. Thus, it is clear that none of the medical documentation com-

plies with the requirements of 21 U.S.C. 355(d), 21 CFR 130.12(a)(5) or 21 CFR 3.86.

In addition, the rationale for the Metreton combination has been considered by the NAS-NRC expert panels in allergy, respiratory disturbances, dentistry, ophthalmology, and dermatology, as part of the Drug Efficacy Study Project. The panel on Drugs Used in Allergy stated that if antihistamine or corticosteroids are indicated in the management of any allergic condition they should be given separately and that in light of the side effects of each of the compounds, particularly the potent corticosteroids, the two compounds should be adjusted independently so as not to encourage indiscriminate medical use of corticosteroids. The panel on Drugs Used in Dermatology II warned that the fixed dosage form does not allow the flexibility required by clinical usage for dermatological conditions.

Thus, it is clear that there is a lack of substantial medical evidence that Metreton has the effect it purports and is represented to have under the conditions of use prescribed in its labeling. Moreover, there has not been submitted to the Commissioner adequate and well-controlled investigations which could establish a rationale for the use of glucocorticoid and antihistamine in fixed combination.

IV. Legal Arguments—A. Metreton. Schering states that, prior to the withdrawal of the new drug application for its Metreton Tablets, it is entitled to outside peer group review of the data demonstrating the effectiveness of the drug. Such a review has already been conducted by the NAS-NRC expert panels in allergy, respiratory disturbances, dentistry, ophthalmology, and dermatology, as part of the Drug Efficacy Study Project. Schering argues that since Metreton received an initial rating of "effective but" from three of these panels, the drug should be returned to the NAS-NRC for clarification. This second review has already occurred, with the result that the drug was found ineffective as a fixed combination. In addition, Metreton has been reviewed by the Fixed Combination Drug Committee of the Food and Drug Administration.

Schering states that holders of approved new drug applications have an unqualified right to a public hearing upon the proposed withdrawal of such application. This contention is without merit. *Ciba-Geigy Corporation v. Richardson*, 446 F. 2d 466 (C.A. 2, 1971); *Upjohn Company v. Finch*, 422 F. 2d 944 (C.A. 6, 1970). See *Diamond Laboratories, Inc. v. Richardson*, 452 F. 2d 803 (C.A. 8, 1972). The Commissioner has authority to establish criteria for adequate and well-controlled clinical investigations necessary to demonstrate effectiveness of drug products on the market and may condition the holding of an evidentiary hearing on a showing by a sponsor firm that a genuine issue exists as to the effectiveness of a drug product for its recommended uses. 21 CFR 130.14(b); *Ciba-Geigy Corp. v. Richardson*, supra; *Pfizer*,

*Inc. v. Richardson*, 434 F. 2d 536 (C.A. 2, 1970); *Pharmaceutical Manufacturers Association v. Richardson*, 318 F. Supp. 301 (D. Del., 1970).

Schering admits that these withdrawal procedures may be legally proper if the data, reasons and facts cited in support of the effectiveness of the drug are accepted as true for the purpose of determining if a factual issue exists and if such determination is made by an independent hearing examiner rather than by the Commissioner. The Commissioner has accepted the data submitted by Schering as true. It is patently clear, however, that none of the data meet the statutory standard of adequate and well-controlled investigations. The Commissioner is not required to submit that issue to a hearing examiner, since the statute requires him to make the decision. Thus, no genuine and substantial issue of fact exists on which to hold a hearing. 21 CFR 130.14(b).

Schering argues that Metreton is no longer a new drug because the drug was generally recognized as safe for its intended purposes on October 9, 1962, and thereby it is exempted from the effectiveness provisions of the 1962 Drug Amendments by the "grandfather clause." Public Law 87-781, section 107(c)(4). This argument is without merit. Section 107(c)(4)(C) provides that if a drug was covered by an effective new drug application under 21 U.S.C. 355 on October 9, 1962, the exemption from the 1962 Drug Amendments does not apply. *USV Pharmaceutical Corp. v. Richardson*, 461 F. 2d 223 (C.A. 4, 1972).

The new drug application for Metreton has been effective since 1956. It has never been disapproved or withdrawn by the Food and Drug Administration. The fact that Schering received a letter dated October 6, 1959, from the Food and Drug Administration to the effect that Metreton was no longer considered a new drug is irrelevant, since all such informal and formal opinions have been revoked by 21 CFR 130.39, and in any event that letter did not withdraw or disapprove the new drug application.

In its written request for a hearing, Schering suggests that the new drug application for Metreton be allowed to remain in effect; *Provided*, That (a) the ascorbic acid (Vitamin C) is either deleted from the product or that the product is labeled in such a way as to indicate that the ascorbic acid is but an inactive ingredient for which no therapeutic claims are made, and (b) that the labeling indications for the product be limited to "the symptomatic relief of allergic rhinitis". Neither of these proposals can substitute for the requirement that Schering submit substantial evidence that Metreton is effective as a fixed combination for the uses recommended in its labeling.

In this connection, Schering suggests that the Commissioner is required by section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c)(2), to permit the firm an opportunity to "demonstrate or achieve compliance with all lawful requirements" by permitting the new drug

application for Metreton to remain in effect under the new labeling proposed by the firm. The reliance on 5 U.S.C. 558(c)(2) here is misplaced. First, this statutory provision does not apply in cases in which public health, interest or safety requires otherwise. Moreover, the firm has had substantial opportunity to demonstrate compliance with the law by initiating adequate and well-controlled studies that will satisfy the statutory standard, and has failed to do so.

Schering suggests that the only issue raised by the NAS-NRC panels was whether the effectiveness of the Metreton combination is greater than that of the corticosteroid component alone. With reference to this remark, Schering argues that the issue in the evaluation of Metreton is not relative efficacy. The Commissioner agrees. The NAS-NRC and the Commissioner have concluded that Metreton is ineffective as a fixed combination. Each component of Metreton must make a contribution to the claimed effectiveness of the drug and the dosage of each component must be such that the combination is safe and effective for the uses recommended in its labeling. 21 CFR 3.86. Thus, for example, the NAS-NRC panel on drugs used in allergy stated "If antihistamines and corticosteroids are indicated in the management of any allergic condition, they should be given separately, so that the effects and side effects of the two classes of compounds can be adjusted independently. The physician may be unable to give a proper dose of either active ingredient with this type [fixed combination] of product. Furthermore, it seems to the panel that this type of product encourages indiscriminate use of corticosteroids."

B. Aristomin. Lederle submits that its new drug application for Aristomin should not be withdrawn because clinical experience with Aristomin has demonstrated its effectiveness. The firm notes that over 170 million capsules have been sold. However, the number of capsules sold cannot substitute for the requirements of law that there must be substantial evidence, consisting of adequate and well-controlled clinical investigations, that a drug product is effective for the uses recommended in its labeling. The marketing history of a drug does not constitute a genuine and substantial issue of fact regarding the existence of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use recommended in its labeling.

Lederle also states that the Commissioner has acted unreasonably and arbitrarily in not granting Lederle's request for an opportunity to conduct clinical investigations of the effectiveness of Aristomin prior to initiating proceedings to withdraw approval of its new drug application. Lederle has always been free to proceed with protocols which it feels may establish the effectiveness of Aristomin for the uses suggested in its revised labeling. The criteria for adequate and well-controlled clinical studies necessary to develop such data are set out in

21 CFR 130.12(a)(5). However, the pursuit of such investigation is irrelevant to the withdrawal of the new drug application for Aristomin since the law requires that such adequate and well-controlled clinical studies establishing the safety and effectiveness of Aristomin for its labeled uses must support the new drug application that is in effect. Development of this data at a later date may be pertinent only to a submission for reapproval of the new drug application.

V. Findings. On the basis of review of the documentation and legal arguments offered to support the claims of effectiveness for Metreton and Aristomin, the Commissioner finds that there is a lack of substantial evidence that these drugs have the effect they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling, and that the legal arguments are insubstantial, and that the petitioners have failed to set forth specific facts showing that there is a genuine and substantial issue of fact requiring a hearing.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1052, as amended; 21 U.S.C. 355(e)) and under the authority delegated to the Commissioner (21 CFR 2.120), the request for hearing is denied, and the approval of the new drug applications of Metreton (NDA 10-493) and Aristomin (NDA 11-686) and all amendments and supplements thereto, are withdrawn. Withdrawal is effective on the date of publication of this order.

Dated: March 5, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc. 73-4537 Filed 3-7-73; 8:45 am]

[Docket No. FDC-D-475; NDA 10-157; DESI 10157]

#### SCHERING CORP.

Sigmagen Tablets; Final Order on Objections and Request for a Hearing Regarding Withdrawal of Approval of New Drug Application

In the FEDERAL REGISTER of March 14, 1972 (37 FR 5309), the Food and Drug Administration announced its evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the product Sigmagen Tablets (NDA 10-157; DESI 10157). The holder of the new drug application is Schering Corp., Galloping Hill Road, Kenilworth, N.J. 07033.

The announcement stated the conclusion of the Food and Drug Administration that there is a lack of substantial evidence that this fixed combination drug will have the effect that it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling, and that each component of such drug will contribute to the total effects claimed. Accordingly, the announcement stated that

the Commissioner intended to initiate proceedings to withdraw approval of the new drug application. The holder or any interested persons were invited to submit, within 30 days, pertinent data bearing on the proposal. The announcement stated that to be acceptable for consideration in support of the effectiveness of the drug, any such data must be previously unsubmitted, well organized, and include data from adequate and well-controlled clinical investigations as described by regulations, 21 CFR 130.12 (a) (5). No data were submitted.

A notice was thereafter published in the Federal Register of June 29, 1972 (37 FR 12856), in which the Commissioner proposed to withdraw approval of the new drug application for Sigmagen Tablets, pursuant to section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), on the ground that new information before him with respect to the drug, evaluated together with the evidence available to him when the application was approved, shows that there is a lack of substantial evidence that the drug will have the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. Thirty days were allowed for any interested person to file a written appearance requesting a hearing, giving the reasons why approval of the new drug application should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data they were prepared to prove in support of their opposition.

A request for hearing was submitted by Schering Corp. on July 27, 1972. The request has been considered, and the Commissioner of Food and Drugs concludes that there is no genuine and substantial issue of fact requiring a hearing and that the legal arguments offered are insubstantial, all as explained in more detail below.

I. *The Drug.* Sigmagen is a tablet containing a fixed combination of 0.75 mg. prednisone, 325 mg. aspirin, 20 mg. ascorbic acid, and 75 mg. aluminum hydroxide.

II. *Recommended uses.* This product is recommended for use in the treatment of mild cases of rheumatoid arthritis, mild cases of spondylitis, subacute or interval gout, bursitis, myositis, fibrositis, and neuritis. The recommended dose is four to 12 tablets daily, in divided doses.

III. *The data to support claims of effectiveness.* In response to the notice, Schering Corp. filed a narrative statement, citing several medical publications, in which it asserts that a combination of prednisone and aspirin is effective for symptomatic relief of mild to moderate rheumatoid arthritis. Schering did not submit any data or studies concerning the drug Sigmagen, nor any drug consisting of a combination of prednisone, aspirin, ascorbic acid, and aluminum hydroxide, nor did it submit data to establish the efficacy of any such drug for the treatment of spondylitis, subacute or interval gout, bursitis, myositis, fibrositis, and neuritis. Schering stated that it

was willing to delete ascorbic acid and aluminum hydroxide from the Sigmagen formula, to limit the recommended uses of the product to symptomatic relief of mild to moderate rheumatoid arthritis, and to undertake new studies to prove that a prednisone-aspirin combination drug is safe and effective for symptomatic relief of mild to moderate rheumatoid arthritis.

If the proposed new studies do in fact establish safety and effectiveness for such a product for such a condition of use, nothing prevents Schering from filing another new drug application for its proposed newly formulated and labeled product. However, since Schering has presented no data concerning the effectiveness of Sigmagen as presently formulated, for the conditions of use as presently labeled, no genuine issue of fact has been presented requiring a hearing on whether there is a lack of substantial evidence of effectiveness of the presently formulated and labeled product. Approval of Sigmagen must be withdrawn where there is a lack of substantial evidence of effectiveness within the meaning of 21 U.S.C. 355(e).

Nevertheless, Schering contends that a combination prednisone-aspirin tablet is effective in the treatment of mild to moderate rheumatoid arthritis, and that the combination is justified in that the aspirin component enhances the safety of prednisone by allowing a lower dosage of prednisone to be used (and thus minimizing the risk of side effects of prednisone) without reducing the effectiveness of the treatment, and vice versa. In effect, Schering is requesting a hearing on a supplemental new drug application in advance of formal filing. Even if substantial evidence of effectiveness in fact existed with respect to the proposed product, a hearing would not be required to determine whether approval of the present new drug application should be withdrawn; but in any event, Schering has not raised a genuine and substantial issue of fact even with respect to the existence of substantial evidence of effectiveness of its proposed product.

To raise an issue of fact as to the existence of substantial evidence of effectiveness of a prednisone-aspirin fixed combination drug, Schering must identify the existence of adequate, well-controlled clinical investigations which show that the combination is effective in the treatment of mild to moderate rheumatoid arthritis, as required by section 505 of the Act and 21 CFR 130.12(a) (5). And further, since Schering's attempted justification of the combination in terms of safety is grounded on the premise that the components may be combined without reducing the therapeutic effect, it is necessary that such studies establish that each ingredient of the combination contributes to the effectiveness of the drug, as required by 21 CFR 3.86.

None of the medical articles cited by claimant constitute substantial evidence of effectiveness, as explained below:

a. *The articles cited by the NAS-NRC panel.* Schering cites 14 medical articles which had been cited by the NAS-NRC

panel in its review of Sigmagen. All of these articles are concerned with the effectiveness of various steroids used alone in the treatment of rheumatic diseases, and not with a fixed combination of prednisone and aspirin, and are thus irrelevant to whether Sigmagen or a fixed combination of prednisone and aspirin is effective for any condition (21 CFR 3.86).

b. Schoger, Von G. A., "Zur Beurteilung der Wirkung einer Kombination von Salicylaten und Prednisolon bei rheumatischen Erkrankungen," *Arzneimittel-Forschung*, 18:758-760, June 1968. The article is a report of 164 patients with "a rheumatic form of disease," of whom 27 patients were subjects of a double-blind study, treated with four different preparations: (1) A combination of 2.5 mg. prednisolone, 175 mg. Al acetylsalicylicum, and 100 mg. atoxybenzamid, in an enteric coating; (2) 2.5 mg. prednisolone alone; (3) 175 mg. Al acetylsalicylicum plus 100 mg. atoxybenzamid; and (4) a placebo. The results were measured by patient report of change in pain. The greatest number of "no pain" reports came from patients receiving the combination drug.

This is not an adequate and well-controlled clinical study as required by 21 CFR 130.12(a) (5). Although 164 patients are first discussed, the only portion of the study that was controlled dealt with only 27 patients, which is too small a number to permit statistically significant conclusions. Since the specific disease conditions of the patients in the double-blind study are not given, it is impossible to evaluate the effectiveness of the combination for a specific condition such as rheumatoid arthritis, osteoarthritis, etc. Since no details are given concerning the sequence of administration of the various preparations, the duration of the treatment with each preparation, the length of time between each treatment, the exact diagnosis of the test subjects, and information concerning the severity and duration of the disease, age, sex, etc., a reasonable analysis is impossible, and the study is little better than a testimonial. Further, the criterion of "no pain," "insignificant pain," "constant pain," and "more severe pain" is subjective and is not, standing alone, adequate to allow a valid conclusion to be drawn in this type of disease. The only other criterion reported, blood sedimentation rate, was only measured in 20 patients and showed no advantage to the combination. Finally, the combination utilized in the study differs both in formulation and dosage from the 0.75 mg. prednisone-325 mg. aspirin combination of Sigmagen.

c. Graber-Durvenay, J., Leroy, Martingay, Fauconnier, and Van Moorleghem, "L'Association Medicamenteuse Delta-1-Dehydrocortisone et Acide Acetylsalicylique dans le Traitement des Maladies Rheumatismales," *Rheumatologie* 3:127-31, 1956. The article reports that 228 cases of various rheumatic diseases were treated with a combination cortisone (1 mg.) and aspirin (5 grains)

drug in the form of a cachet (powder). The article does not state if any of the patients were suffering from rheumatoid arthritis. The study is uncontrolled, as there was no comparison of the combination with cortisone alone or with aspirin alone, and thus does not meet the requirements of 21 CFR 3.86 or 130.12(a) (5). Furthermore, the subject drug contained different ingredients, in different dosage, and in a different form than the prednisone-aspirin components of Sigmagen, and thus cannot be accepted as evidence of the effectiveness of Sigmagen.

d. Jick, H., R. S. Pinals, R. Ullian, D. Sloane, and H. Muench, "Dexamethasone-aspirin in the treatment of chronic rheumatoid arthritis," *Lancet* 2:1203-1205, 1965; and Gum, O. B., "A controlled study of two preparations, paramethasone, propoxyphene, and aspirin and propoxyphene and aspirin in the treatment of arthritis," *Amer. J. Med. Sci.* 251:328-332, 1966, are cited by Schering in support of their statement that a combination of a salicylate drug with a steroid drug has the advantage of allowing a lower dosage of steroid (thus minimizing the risk of adverse effects of the steroid) without sacrificing the therapeutic benefits. However, these studies are not adequate since no comparison was made of the combination with a larger dose of aspirin alone, and thus they do not show adequately whether the side-effect liability of the combination is less than that of aspirin alone when compared at equal therapeutic doses. Further, the studies did not utilize prednisone, but rather dexamethasone or paramethasone, as the steroid. While a steroid-aspirin combination study may be supportive of the rationale of a prednisone-aspirin combination it cannot substitute for the full reports of adequate and well-controlled investigations on the Sigmagen combination itself, which are required by section 505 of the Act.

e. Platt, W. D., and Steinberg, I. H., "Prednisone Alone And In Combination With Salicylates and Phenylbutazone in the Treatment of Rheumatoid Arthritis," *New England J. Med.* 256:823-827, 1957. In this study 16 patients with rheumatoid arthritis were treated with prednisone alone, and subsequently with aspirin and prednisone or with phenylbutazone and prednisone. The maintenance dose of prednisone was reduced by the addition of aspirin or phenylbutazone. Twelve out of sixteen patients thought that aspirin caused a decrease in pain and an increase in joint mobility.

The study is not well-controlled, as there is no "blinding" technique to minimize bias on the part of the observers and the analysts of the data, and for the further reason that there was no comparison of the combination with aspirin alone, as required by 21 CFR 130.12(a) (5). The aspirin was given separately and not in a fixed combination with prednisone, and thus has no bearing on the effectiveness of a fixed combination of 0.75 mg. prednisone and 325 mg. aspirin, since in the study, the dosages of each component were varied for each patient. Such variation and titration

cannot be accomplished with a fixed combination. Further, the number of patients is too small for any statistical significance to be attached to the study. Finally, the criteria for evaluation of effectiveness (patient-reported pain or joint mobility) is too subjective for adequate evaluation of drug effectiveness. As the authors state, "[t]he results of any therapy combining two medications in a disease having a fluctuating course are difficult to evaluate." This study fails to meet the criteria of 21 CFR 3.86 or 130.12(a) (5) and is not adequate to support the conclusion that prednisone-aspirin allows a lower dose of prednisone without a reduction in therapeutic effect.

f. Szucs, Petraglia, and Galose, "Clinical Evaluation Of Newer Anti-Inflammatory Steroids, II—A Comparative Study In 350 Cases With Prednisolone," *Ohio Medical Journal* 53:1418-1420, 1957. In this study, 350 patients with rheumatoid arthritis and miscellaneous other inflammatory conditions were divided into three groups, one group receiving a combination prednisolone (0.5 mg.) and aspirin (300 mg.) preparation, another receiving 2.5 mg. prednisolone alone, and the third receiving 5 mg. prednisolone alone.

The study is not adequate and well controlled and it fails to meet the criteria of 21 CFR 130.12(a) (5). No data is given so as to assure that the control groups were comparable in terms of age, sex, duration, and severity of the disease and previous treatment. The size of the group receiving 2.5 mg. prednisolone is too small. The criteria for differential diagnosis was not given, i.e., it is not explained how the diagnoses of the different types of arthritis were made. Although the article states that a control group received a placebo of a sugar tablet, no data concerning this group is included in the study. The classification of results is not adequate for proper evaluation of effectiveness, because the terms used, i.e., "moderate," "slight," "intensive," "average," are not defined. The study is not well controlled in that there is no comparison between the combination and aspirin alone, nor with 0.5 mg. prednisolone alone. The study was not performed with Sigmagen or a fixed combination of 0.75 mg. prednisone and 325 mg. aspirin, but rather with a combination of prednisolone and aspirin. Finally, the authors themselves state: "only fair results were obtained (with the combination) in rheumatoid arthritis and miscellaneous bursitis."

g. Peterson, Block, and Bunim, "Salicylates and Adrenocortical Functions in Man," *Arth. Rheum.* 1:29-37, 1958. This study on five normal subjects and four patients with rheumatoid arthritis was for the purpose of determining the effects of salicylates on plasma and urine steroids, and does not purport to establish the effectiveness of a fixed combination prednisone-aspirin drug. One of the patients received a combination of triamcinolone and aspirin, and was reported to respond better to the combination than to either triamcinolone or aspirin

alone. An isolated case report on one patient may not be considered (21 CFR 130.12(a) (5) (ii) (c)). Further, the response to a triamcinolone-aspirin drug does not establish the effectiveness of a fixed combination of prednisone and aspirin.

h. Szucs, Holanko, Forester, and Nalagan, "Evaluation of Combined Prednisolone-Aspirin Therapy in the Treatment of Arthritis," *Ohio Med. J.* 52:722-723, 1956. This article reports on the clinical response of 200 patients with rheumatoid arthritis to treatment with a combination of 300 mg. aspirin and 0.5 mg. prednisolone. The authors conclude, based on subjective evaluation of the responses, that the combination is of value in treating rheumatoid arthritis, although they state that the evaluation is "preliminary in nature" and "firm conclusions cannot be drawn" from it.

The study is completely uncontrolled, fails to meet the criteria of 21 CFR 130.12(a) (5), and is little more than a testimonial. There is no comparison of the effects of the combination with aspirin alone or with prednisolone alone. Further, the study is not adequate since the effectiveness of a drug containing 300 mg. aspirin and 0.5 prednisolone, even if properly established, would not be conclusive of the effectiveness of a fixed combination of 325 mg. aspirin and 0.75 mg. prednisolone, as contained in Sigmagen.

i. Schering cites four references in support of its statement that salicylates have a steroid-sparing effect (Glynn, J. H.; Merck, E.; Kersley, T. D.; and Cope, C. L.). These references do not constitute substantial evidence of effectiveness since they are not clinical studies, but only narrative statements, and no data is submitted in support of the statements. It is interesting to note, however, that Kersley states, at page 99 that "Many compounds containing largely aspirin and a little delta steroid are also appearing, but it is much better and cheaper to use the steroids and aspirin as separate tablets and adjust the dosage combination for the particular patient."

j. Tillis, H. H., "Prednisolone-Buffered Salicylates in the Treatment of Non-Articular Rheumatism," *J. Med. Soc. N.J.* 53:177-180, 1956, does not constitute substantial evidence of the effectiveness of Sigmagen and does not meet the criteria of 21 CFR 130.12(a) (5), since the study is uncontrolled, prednisolone, rather than prednisone, was the steroid utilized, the drugs were not given as a fixed combination but were administered separately and the condition treated was nonarticular rheumatism, and thus any data generated, even if well controlled, would not be adequate to establish the effectiveness of a drug intended for treatment of rheumatoid arthritis.

k. Holt, Illingsworth, Lorber, and Rendle-Short, "Cortisone and Salicylates in Rheumatic Fever," *Lancet* 2:1144-1148, 1954, does not constitute substantial evidence of the effectiveness of Sigmagen within the meaning of 21 U.S.C. 355(e), and 21 CFR 130.12(a) (5), since the study was conducted on children with acute

rheumatic fever, not rheumatoid arthritis, aspirin and cortisone were given separately and titrated according to the needs of the individual patient, and thus the results are not applicable to a fixed combination of prednisone and aspirin, nad tehré was no comparison of the combination with a steroid alone.

1. Salem, J. E., Methylprednisolone—Aspirin in Orofacial Surgery: Controlled Clinical Trial. J. Amer. Dent. Assoc. 68:188-190, 1964. In this study, aspirin was compared to a combination of aspirin and methylprednisolone in treatment of pain and swelling of orofacial surgery patients. Again, this study is irrelevant to Sigmagen since the study involved methylprednisolone and aspirin in treatment of orofacial surgery patients, and did not concern a fixed combination prednisone-aspirin drug in treatment of rheumatoid arthritis. Furthermore, the authors concluded that the differences in the results obtained were not statistically significant.

m. Zuckner, Uddin, and Ramsey, "Adrenal-Pituitary Relationships with Prolonged Low Dosage Steroid Therapy in Rheumatoid Arthritis," Missouri Med. 66:649-659, 1969. The article refers to an unpublished, unpublished study on 20 patients with rheumatoid arthritis to test the effectiveness of a paramethasone-propoxyphene HCl-aspirin combination as compared with aspirin alone. This study cannot be accepted as substantial evidence of the effectiveness of Sigmagen within the meaning of 21 U.S.C. 355(e) and 21 CFR 130.12(a)(5), because the combination utilized differs from the Sigmagen combination. It is not well controlled in that there is no comparison of the combination to a steroid alone or to a placebo, and the criteria to evaluate effectiveness is purely subjective, and in any event in only 11 of 20 patients did the combination prove superior to aspirin alone.

n. Winter, L., "A Controlled Evaluation Of Methylprednisolone—Aspirin Tablets In Oral Surgery," N.Y. State Dent. J. 29:103-105, 1963. The author found that a combination of methylprednisolone (1.5 mg.) and aspirin (500 mg.) was markedly more effective than the dose of aspirin alone in achieving pain relief in pre- and post-operative oral surgery. This study is not substantial evidence of the efficacy of Sigmagen within the meaning of 21 U.S.C. 355(e) and 21 CFR 130.12(a)(5), since it involved a different drug and was used to treat pain in oral surgery patients, which is not a recommended use of Sigmagen, and pain relief is entirely subjective and is not an adequate basis, alone, upon which to evaluate drug effectiveness.

o. Roskam, J., and Van Carvenberge, H., "Cortisone, ACTH and Salicylates in the Treatment of Inflammatory Rheumatism and Similar Conditions," Presse Medicale, Paris 60:1344-1347, 1952 (abstracted in JAMA 151:248, 1953). This study fails to meet the criteria of 21 CFR 130.12(a)(5), and is not adequate to establish the effectiveness of Sigmagen because it involved high doses (from 25 to 1,000 mg.) of ACTH or cortisone

plus aspirin and is thus not applicable to the prednisone-aspirin fixed combination as in Sigmagen. It is not well controlled since 50 patients received high aspirin to which cortisone was later added, and is thus not a double-blind study, nor is there any comparison of the combination to a steroid alone, and the study involved patients with rheumatic fever, not rheumatoid arthritis or any other condition for which Sigmagen is recommended.

p. Hersko, C., and Izak, G., "Anemia in Rheumatic Fever," Israel Med. Sci. J. 1:43-49, 1965. The authors noted that the addition of prednisone to aspirin markedly improved rheumatic fever patients' response to therapy as determined by increments in hemoglobin as compared with the same daily dosage of aspirin alone, or in combination with ferrous sulfate. This study fails to meet the criteria of 21 CFR 130.12(a)(5) and does not apply to Sigmagen, which is recommended for treatment of rheumatoid arthritis, and is not recommended for rheumatic fever. The study is not well controlled, as there is no comparison with prednisone alone, nor with a placebo. Finally, the effect on hemoglobin is not an adequate criteria for evaluation of the effectiveness of the drug.

q. Coste, F. et al., "Le Traitement des Rhumatismes Inflammatoires pour de Nouveaux Steroids Synthetiques," La Semaine de Hôpitaux de Paris 31: 1-8, 1955, is not adequate since it concerns only one patient and the steroid and aspirin were administered separately and not in a fixed combination. For the same reasons, the case report of one patient reported by Medvel, V. C., "Cortisone in Rheumatoid Arthritis," Lancet 2:1102, 1953, does not constitute substantial evidence of effectiveness of a fixed combination prednisone-aspirin drug.

None of the studies cited by Schering are adequate and well controlled in accordance with the criteria set forth at 21 CFR 3.86 and 130.12(a)(5), to establish that a fixed combination drug containing 0.75 mg. prednisone and 325 mg. aspirin is effective in the treatment of rheumatoid arthritis, and further that the combination is at least as effective as prednisone alone or as aspirin alone. In fact, only one article (Platt and Steinberg) was concerned with a prednisone-aspirin combination in treatment of rheumatoid arthritis. No plan or protocol for any of the studies, or the report of the results of the effectiveness of the test drug, provide adequate assurance that the subjects were always suitable for the purposes of the study, or that the subjects were assigned to test groups in such a way as to minimize bias, or that comparability of pertinent variables in test and control groups was assured. Finally, no data was submitted to establish the effectiveness of a fixed combination prednisone-aspirin drug, the dosage of which cannot be titrated or adapted to the needs of the individual patient.

IV. Legal objections. The Commissioner has authority to establish criteria for adequate and well-controlled clinical investigations necessary to demonstrate

effectiveness of drug products on the market, and may condition holding of an evidentiary hearing on a showing by Schering Corp., that reasonable grounds exist therefor. (Ciba-Geigy Corporation v. Richardson, 446 F. 2d 466 (C.A. 2, 1971); Pfizer Inc. v. Richardson, 434 F. 2d 536 (C.A. 2, 1970); Pharmaceutical Manufacturers Assn. v. Richardson, 318 F. Supp. 301 (D. Del., 1970)). Thus, the objections of Schering Corp. on these grounds are unfounded.

Since Schering Corp. has submitted no adequate and well-controlled clinical studies establishing the effectiveness of Sigmagen for its recommended uses or of the drug as proposed to be reformulated and relabeled, no hearing on the withdrawal of the NDA of Sigmagen is justified as no genuine issue exists as to the material question of the existence of substantial evidence of effectiveness of Sigmagen for its recommended uses. (21 CFR 3.86, 130.12(a)(5)(ii), 130.14(b), and 130.27(b)(3); Ciba-Geigy Corp. v. Richardson, supra; Upjohn Co. v. Finch, 422 F. 2d 944 (C.A. 6, 1970)).

The contention of Schering Corp., that Sigmagen Tablets are exempt from the effectiveness provision of the new drug definition, 21 U.S.C. 321(p), in that it is protected by the grandfather provisions of the 1962 Drug Amendments (Sec. 107(c)(4) of Public Law 87-781) is likewise unfounded. A drug subject to an NDA prior to October 9, 1962, does not qualify for an exemption from the new drug provisions of the Act under the grandfather provisions of the 1962 Drug Amendments. USV Pharmaceutical Corporation v. Richardson, 461 F. 2d 223 (C.A. 4, 1972).

Finally, Schering's contention that Sigmagen is not now a new drug, in that it is generally recognized as safe and effective under the conditions of use recommended in its labeling, does not require a hearing. Schering did not present any data or other evidence to establish that Sigmagen is not a new drug within the meaning of the statute, nor did it submit adequate, well-controlled published studies on Sigmagen upon which experts could conclude that Sigmagen is generally recognized among qualified experts to be safe and effective. Thus, Schering has not raised a genuine and substantial issue of fact requiring a hearing on whether Sigmagen is presently a new drug.

V. Findings. The Commissioner, based on the review of the medical documentation offered to support the claims of effectiveness for Sigmagen in the treatment of mild to moderate rheumatoid arthritis, mild cases of spondylitis, subacute or interval gout, bursitis, myositis, fibrositis, and neuritis, and to support the claims of effectiveness for a prednisone-aspirin combination drug for symptomatic relief of mild to moderate rheumatoid arthritis, finds that there is a lack of substantial evidence that this fixed combination drug will have the effect that it purports and is represented to have under the conditions of use prescribed, recommended, or suggested in

its labeling and that each component of the drug contributes to the total effects claimed, and that Schering Corp. has failed to set forth specific facts showing that there is a genuine and substantial issue of fact requiring a hearing. No objections or documentation were presented by any other firms, and, in accordance with the provisions of 21 CFR 130.15, this failure is construed as an election by any other firm not to avail itself of the opportunity for the hearing.

The Commissioner further finds that the approval of the new drug application heretofore approved for Sigmagen (NDA 10-157) should be withdrawn on the basis of a lack of substantial evidence of effectiveness.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (§§ 505, 701, 52 Stat. 1052-1053, 1055-1056, as amended; and 76 Stat. 781-785, as amended; 21 U.S.C. 355, 371), and under authority delegated to the Commissioner (21 CFR 2.120), the request for a hearing is denied, and notice is given that the approval of the new drug application for Sigmagen tablets (NDA 10-157) and all amendments and supplements thereto is withdrawn, effective on the date of publication of this document.

Dated: March 6, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc.73-4539 Filed 3-7-73; 8:45 am]

[DESI 8530; Docket No. FDC-D-141; NDA Nos. 10-613 and 8-530]

#### WINTHROP PRODUCTS, INC., AND WINTHROP LABORATORIES

#### Alevoire; Notice of Withdrawal of Approval of New Drug Application

In an announcement published in the FEDERAL REGISTER of July 17, 1968 (33 FR 10227), Winthrop Products, Inc., holder of new drug application No. 10-613 for Alevoire (tyloxapol 0.125 percent) and Winthrop Laboratories, Division of Sterling Drug, holder of NDA No. 8-530 for Alevoire (tyloxapol 0.125 percent), were notified of the National Academy of Sciences-National Research Council, Drug Efficacy Study Group's evaluation of the article as ineffective, and of the Food and Drug Administration's concurrence with the evaluation and its conclusions that there is a lack of substantial evidence that Alevoire will have the effect it purports and is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling. Accordingly, the Commissioner of Food and Drugs noted his intent to initiate action to withdraw approval of the new drug applications for Alevoire, and invited holders of the NDA's to submit any pertinent data.

After the announcement, Winthrop met with representatives of the Food and Drug Administration on August 13, 1968, to present arguments and additional evidence in support of the claimed effectiveness of Alevoire. The arguments and data were evaluated, but failed to

provide any evidence of effectiveness derived from adequate and well-controlled clinical investigations. On December 6, 1969, there was, therefore, published in the FEDERAL REGISTER (34 FR 19389), a notice of opportunity for hearing in which the Commissioner of Food and Drugs proposed to issue an order under the provisions of section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of NDA's Nos. 10-613 and 8-530 for Alevoire, and all amendments and supplements thereto, on the ground that there was a lack of substantial evidence to support the claims of effectiveness for the drug for the conditions for which it is prescribed, recommended, or suggested in the labeling.

Winthrop Products, Inc., holder of NDA No. 10-613; Winthrop Laboratories, Division of Sterling Drug, Inc., holder of NDA No. 8-530; and Breon Laboratories, Inc., a firm marketing Alevoire in the United States, filed a written appearance and request for hearing on January 20, 1970.

Submitted with the request was a statement of grounds, including the medical documentation relied upon, arguments which contended that there was an unqualified right to a hearing, and the affidavits of six physicians and scientists attesting to the drug's effectiveness. Additional medical documentation was submitted by a letter dated May 7, 1970.

On June 5, 1970, in response to the May 8, 1970, FEDERAL REGISTER publication of procedural and interpretative regulations, a supplemental election for hearing was submitted, included in which, was further medical documentation and a reiteration of the argument and reasons for a hearing as stated in the initial request for hearing. On August 13, 1970, one final medical document was submitted as a supplement to the January 20, and June 5 filings, and on March 1, 1971, the affidavit of the medical director of Breon Laboratories was received.

On June 21, 1971, a revision of an earlier submitted study was forwarded along with five affidavits. On August 12, 1971, a submission was made containing argument and two affidavits. Finally, on January 28, 1972, petitioners made a final submission containing raw data sheets on two previously submitted studies.

On September 11, 1971, a final order was published in the FEDERAL REGISTER (37 FR 17229) denying requests for a hearing and withdrawing approval of NDA's Nos. 10-613 and 8-530 on the grounds that there is a lack of substantial evidence that the drug, Alevoire, is effective for its recommended uses.

After preparation of the order, but prior to its publication in the FEDERAL REGISTER, the data received on June 21 and August 12, 1971, as set forth above, was received and due to inadvertence, was not considered prior to publication of the final order.

On January 11, 1972, upon being advised by the Government of the inad-

vertence, the U.S. Court of Appeals for the Second Circuit set aside the order of September 11, 1971, and remanded the proceeding to the Food and Drug Administration for reconsideration of the requests of hearing in light of the data not considered.

The additional data, as well as the medical documentation reviewed by the NAS-NRC panel and the medical documentation contained in both NDA's have been considered. The Commissioner of Food and Drugs concludes that there is no genuine and substantial issue of fact requiring a hearing and that the legal arguments are insubstantial.

#### REASONS FOR WITHDRAWAL OF APPROVAL

1. *The drug.* Alevoire is an aqueous solution of 0.125-percent tyloxapol, 2-percent sodium bicarbonate, and 5-percent glycerin.

It is recommended in the treatment of patients "with diseases and disorders of the lungs accompanied, or complicated, by excessive or thickened bronchopulmonary secretions," and is indicated also for persons having pulmonary diseases where "the normal mechanism for elimination of secretions is diminished or absent" or depressed.

The rationale for Alevoire has been variously described. At the time of initial NDA approval, it was offered as a "mucolytic" detergent aerosol which exerted a liquefying effect on excessive or thickened mucous secretions, thereby aiding the patient in their expulsion. The rationale, as reflected in the labeling submitted for review by the NAS-NRC panel, is that the drug acts as a detergent aerosol facilitating the removal of the pulmonary secretions allowing for excretion by normal processes by lowering or reducing the surface and interfacial tensions and reducing their viscosity.

Alevoire is recommended for administration in an undiluted form by an aerosol nebulizer delivering a fine mist to the patient in an open tent, croup tent, or incubator. Where short periods of therapy are indicated, 10-20 ml. are recommended to be administered by a face mask, positive pressure breathing machines, or oral or nasal spray apparatus.

2. *Medical documentation.* Petitioners have presented summaries and/or copies of 19 reports and have cited nine additional articles which they contend establish Alevoire's effectiveness. The Commissioner has reviewed these submissions and concludes that they include no adequate and well-controlled studies of the type required by 21 CFR 130.12(a)(5). These studies were generally discussed in the Commissioner's September 11, 1971, order and are discussed individually below.

(a) *Nine cited articles.* These articles are all mentioned in the submission of January 20, 1970. These articles, except No. (8) below, all contain mere passing references to Alevoire. They are not adequate and well-controlled studies since none of them, except No. (8), involved the use of any control whatever, in violation of section 505 of the act, 21 CFR

3.86, and 21 CFR 130.12(a)(5)(ii)(A)(4). Nor is No. (8) an adequate and well-controlled study, as detailed below.

(1) S. Bloom "Case Report: Tracheostomy in Status Asthmaticus," *Annals of Allergy*, 23:538 (1965). As suggested in the title, this article is a discussion of a case history of a patient. The patient was given several drugs including Alevaire in the course of his treatment, and no mechanism was used to compare the effects of the various treatments.

(2) R. M. Cherniak "The Recognition and Management of Respiratory Insufficiency," *Anesthesiology* 25:209 (1964). As suggested in the title, this article is a discussion of respiratory insufficiency. It is not a controlled comparison of the effects of drugs.

(3) D. E. Frank "WR 1339 Inhalations in the Treatment of Asthmatic Attacks and Chronic Asthma—A Pilot Study," *Annals of Allergy* 13:313 (1955). In this test, patients suffering from an asthma attack were treated with Alevaire for 15 minutes, but Alevaire was not compared to any control.

(4) O. C. Hansen-Pruss et al., "Emphysema in the Aged," *Journal of the American Geriatric Society* 2:153 (1954). This article is a general report concerning emphysema based on the observation of 24 uncontrolled patients and contains a single unsupported statement that Alevaire is an effective expectorant.

(5) M. Joannides, Jr., "Chronic Obstructive Emphysema," *Journal of the American Medical Association* 192:105 (1965). This article, rather than studying Alevaire, discusses aspects of the treatment of emphysema by surgery. The article recommends that expectorant therapy, preferably Alevaire, be used as preoperative preparation. It is not a controlled study of Alevaire's efficacy.

(6) F. Marchetta et al., "A Method of Tracheotomy Care," *Archives of Otolaryngology* 65:296 (1957). As suggested by the title, this article is not a controlled study of Alevaire. Its only mention of Alevaire is to suggest Alevaire's administration as a method of postoperative care for tracheotomy.

(7) T. H. McGavack et al., "Metabolic Emergencies Common in the Elderly," *The West Virginia Medical Journal* 61:109 (1965). This article, rather than being a study of Alevaire, discusses metabolic emergencies commonly affecting older persons. It says, in passing, that while the various detergents and enzymes have been used to thin tenacious bronchial secretions, none has been too successful, but that Alevaire has been the most satisfactory detergent aerosol.

(8) J. H. Modell et al., "The Effects of Wetting and Antifoaming Agents on Pulmonary Surfactant," *Anesthesiology* 30:164 (1969). This study purports to compare the in vitro and in vivo effects of Alevaire (a wetting agent) and ethyl alcohol (an antifoaming agent) on normal canine pulmonary surfactant. This does not constitute adequate and well-controlled study since Alevaire was compared to ethyl alcohol, not to a proper control, i.e., Alevaire minus the active

ingredient tyloxapol, in other words, a mixture of 2 percent sodium bicarbonate, 5 percent glycerin and 93 percent water, and the test was conducted on healthy dogs, not on human patients suffering from conditions for whose treatment Alevaire is recommended.

(9) J. E. Ruben "Alevaire as an Adjunct for Preventing Pulmonary Complications after Thoracotomy (A Comparative Study of 200 Cases)," *Anesthesiology* 16:801 (1955). The title explains the subject of this article and indicates that no control was used, which is borne out by reading the article.

b. Nineteen summarized or copied articles. The first 14 of the articles discussed below were summarized in the submission of January 20, 1970. The other five were submitted as indicated.

1. R. Denton et al., "Mist-O-Gen Therapy and Postural Drainage for Respiratory Difficulties of the Newborn Infant: A Preliminary Report," *Journal of Pediatrics* 42:551 (1953). This article is a discussion of Mist-O-Gen—an apparatus for the administration of aerosol treatment to newborn infants suffering from respiratory difficulties. In passing, the authors suggest that the apparatus can be used to administer Triton-A-20, a former designation for tyloxapol, the active ingredient in Alevaire and one of a group of chemicals which the authors say has "proved chemically valuable." This article does not constitute an adequate and well-controlled study since it was not a comparison of Alevaire to a control as required by 21 CFR 130.13(a)(5)(ii)(A)(4).

2. B. Gans, "Acute Bronchiolitis treated with Detergent Aerosols," *Lancet* 1:1011 (1954). This article concerns the treatment of infant victims of two epidemics of bronchiolitis. During the first epidemic the mortality rate was 21.9 percent; during the second epidemic patients were treated with three detergents, including Alevaire, and none died. This is not an adequate and well-controlled study since there were no stated diagnostic criteria on the condition treated as required by 21 CFR 130.12(a)(5)(ii)(A)(2)(i) and (iii), the article did not state the method of observation and recording of results including variables measured and quantitation as required by 21 CFR 130.12(a)(5)(ii)(A)(3) and the article makes no effort to define or explain the possible effects of environmental factors. This third reason is important when one considers that the patients were in London and the first epidemic occurred between November 1952 and February 1953, dates which include the severe fog of December 5-9, 1952. The author admits that "some [patients] may well have had a more severe type of illness as a result of their exposure [to the fog]." (1 *Lancet* at p. 1012). Most importantly, there was no comparison of Alevaire with a control, e.g., a product containing Alevaire's components minus tyloxapol.

3. C. J. Heinberg, "Laryngitis in Children," *Southern Medical Journal* 50:383 (1957). This article discusses laryngitis in children generally, and its purpose "is to plead for teamwork early in order to

prevent anoxemia and toxemia of severe impact" (50 *Southern Medical Journal* at 383). The article mentions Alevaire as an aid in treatment of acute laryngotracheobronchitis. This article does not constitute an adequate and well-controlled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4).

4. M. Holmes-Siedle et al., "Acute Laryngotracheobronchitis Treated with 0.125 percent Superinone," *British Medical Journal* 2:777 (1958). This article relates to five cases of acute laryngotracheobronchitis in which Alevaire was used as part of the therapy. It is not an adequate and well-controlled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4).

5. H. N. Kenwell et al., "Problems of Preoperative and Postoperative Cases," *American Practitioner and Digest of Treatment* 7:597 (1956). The title of this article indicates its concern. The article says that Alevaire is effective, inter alia, in liquefying bronchial secretions and should be used in preoperative and postoperative therapy in certain cases. This article merely mentions Alevaire. It is not an adequate and well-controlled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4).

6. D. M. Little, Jr., "Fetal Salvage in Cesarean Section—The Pediatric Viewpoint," *New York State Journal of Medicine* 53:2776 (1953). This article deals with methods to lower the mortality rate of infants delivered by cesarean section especially by aiding respiration. The article, in passing, makes the statement that Alevaire has been an effective detergent. This article, containing statements about Alevaire made in passing, does not constitute an adequate and well-controlled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4).

7. J. B. Miller et al., "Alevaire Inhalation for Eliminating Secretions in Asthma, Sinusitis, Bronchitis and Bronchiectasis of Adults: A Preliminary Report," *Annals of Allergy* 12:611 (1954). This article makes suggestions concerning how Alevaire might be administered. In addition the article contains case reports of seventeen people with respiratory diseases and their response to treatment with Alevaire. This article is not an adequate and well-controlled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4). In fact, the study itself says: "This does not pretend to be a controlled study." 12 *Annals of Allergy* at 624.

8. W. F. Miller, "Chronic Inflammatory Bronchopulmonary Disorders: A Physiologically Oriented Approach to Treatment," *Archives of Internal Medicine* 107:589 (1961). As suggested by the title, this article deals with the treatment of chronic inflammatory bronchopulmonary disorders. In passing the article says that Alevaire alleviates airway obstructions. This article, containing the living organism, the article does not

constitute an adequate and well-controlled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4).

9. S. F. Ravenel, "New Techniques of Humidification in Pediatrics," *Journal of the American Medical Association* 151:707 (1953). This article claims to contain the results of an in vitro experiment in which Alevaire was shown to lower the viscosity of saliva, bronchiectatic pus and amniotic fluid by 10 percent, 19 percent, and 24 percent respectively while water produced no thinning. The article also states that Alevaire has helped those with various respiratory conditions. The results of the in vitro study does not constitute an adequate and well-controlled study of Alevaire's effectiveness since in vitro tests do not assure that the same results will occur in the living organisms, the article does not explain quantitation and how variables were measured as required by 21 CFR 130.12(a)(5)(ii)(A)(3), the article does not present a summary of the methods of analysis and an evaluation of data derived from the study as required by 21 CFR 130.12(a)(5)(ii)(A)(5), and the article is conclusory and lacks detail, data and an explanation of experimental technique. In addition, Alevaire was not compared to a proper control, e.g., Alevaire minus tyloxapol.

10. M. S. Sadove et al., "Postoperative Aerosol Therapy," *Journal of the American Medical Association* 156:759 (1954). This article gives the views of the authors on the place of aerosol therapy in the care of patients after operation. The article mentions that Alevaire may be used for such therapy and offers testimonials of its effectiveness. This article does not constitute an adequate and well-controlled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4).

11. M. S. Segal et al., "Treatment of Chronic Pulmonary Emphysema," *American Rev. Tuberculosis* 69:915 (1954). The title of this article indicates its contents. Alevaire is mentioned as an aid in treatment. This article does not constitute an adequate and well-controlled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4).

12. A. Smessaert et al., "Aerosol Administration of Alevaire: II. Clinical Evaluation," *New York State Medical Journal* 55:1587 (1955). This article summarizes the reactions of 300 patients to Alevaire. The therapeutic response was listed in the article under four groups: good, appreciable, fair and poor. These responses were based on consideration of the following factors: volume, color, and viscosity of sputum or secretions; temperature and pulse; changes in the respiratory effort and in the auscultatory signs; radiologic appearance before and after therapy; and the general condition of the patient. The test found that 204 of the patients (70 percent) were in the "good" and "appreciable" category. This article does not constitute an adequate and well-con-

trolled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4).

13. F. C. Stiles, "Aerosol Therapy in Children," the *Wisconsin Medical Journal* 52:543 (1953). This article talks about the use of Alevaire and other aerosols for various respiratory conditions. It is not an adequate and well-controlled study since it did not compare Alevaire to a control as required by 21 CFR 130.12(a)(5)(ii)(A)(4).

14. M. L. Tainter et al., "Alevaire as a Mucolytic Agent," the *New England Journal of Medicine* 253:764 (1955). This article summarizes the conclusions of previous articles on Alevaire. The authors say that they have carried out in vitro experiments to measure surface tension effects of Alevaire on sputum. Alevaire was found to lower surface tension by 20 percent, whereas it was found that water did not lower surface tension. Other tests showed that when a glass plate was coated with Alevaire and set at a 45° angle and sputum was dropped into it, the time required for the sputum to slide a distance of 15 cm. was about one-third the time the sputum took to slide off of a glass plate which was water-wetted and held at a 45° angle. This article does not constitute an adequate and well-controlled study since in vitro results cannot be extrapolated to the living organism, the tests conducted do not show that Alevaire is effective for its recommended use since it does not show that patients with pulmonary diseases can better eliminate bronchial secretions, and it did not compare Alevaire to a proper control, e.g., Alevaire minus tyloxapol.

15. B. M. Cohen, "Ultrasonic Nebulization of Water and Mucocavacant Solutions in Patients with Obstructive Lung Disease: Volumetric and Ventilatory Responses to Acute Administration," This study was summarized in the submission of January 20, 1970, submitted as exhibit 19 of the submission of June 5, 1970 and resubmitted as revised in the submission of June 21, 1971. This test involved 15 patients with obstructive ventilatory diseases (bronchial asthma and chronic bronchitis) and retained secretions. The effects of Alevaire and distilled water were measured. The test measured several indices and concluded that Alevaire was more effective than water. This test is not an adequate and well-controlled study since the diagnostic criteria for identifying bronchial asthma and chronic bronchitis patients were not stated as required by 21 CFR 130.12(a)(5)(ii)(A)(2)(i), the method of patient selection is not explained, the study did not state the steps taken to assess subjective response and minimize bias on the part of the subject and observer as required by 21 CFR 130.12(a)(5)(ii)(A)(3), the test did not document the levels and method of blinding as required by 21 CFR 130.13(a)(5)(ii)(A)(4), and the administration of the water and Alevaire was preceded by the inhalation of a bronchodilator, meaning the effects of water and Alevaire cannot be separated from the effects of the bronchodilator. Most importantly, the

test did not compare Alevaire to a proper control, e.g., Alevaire minus tyloxapol, in other words a solution of 2 percent sodium bicarbonate, 5 percent of glycerin and 93 percent water. In addition the statistical support claimed for alevaire is not valid since the design of the experiment, although a crossover, was not analyzed as such, the baseline differences between treatment groups and patients were not adequately taken into account; nor were the summary tables submitted adequate to measure improvement for all volumetric and ventilatory responses taken, and the specific analytical model was not presented in a complete fashion. In particular, the definition of replication in the applicant's model and the magnitude of the error term and scientific degrees of freedom were not presented.

16. G. Beck, untitled and uncompleted study comparing Alevaire to isotonic saline. A description of this test was given in January 20, 1970. A summary of its progress was submitted on June 5, 1970. On June 21, 1971 Food and Drug Administration was told that Dr. Beck was having troubles finding proper patients for his study. On August 12, 1971, Food and Drug Administration was again informed of the difficulties encountered with completing this test along with Dr. Beck's affidavit concerning those difficulties. An incomplete test of this nature cannot constitute an adequate and well-controlled study since the information provided is too sketchy to evaluate.

17. W. F. Miller and P. Paez "Blind Comparison among Normal Saline, Distilled Water and Two Surface Active agents in Sputum Evacuation." This study was mentioned in the submission of January 20, 1970. A completed version was submitted as exhibit 18 of the submission of June 5, 1970. In this test 20 patients with a variety of bronchopulmonary diseases were each tested with four different substances. The test is not an adequate and well-controlled study since patient selection reflected variable disease conditions contrary to 21 CFR 130.12(a)(5)(ii)(A)(2)(i), and as a consequence the variability of sputum volume and retention qualities precluded uniform measurement of effectiveness, the test did not assure comparability in test and control groups of pertinent variables such as age, sex, severity, or duration of disease, and use of drugs other than the test drugs as required by 130.12(a)(5)(ii)(A)(2)(iii), the assessment of subjective response was not stated as required by 21 CFR 130.12(a)(5)(ii)(A)(3), an important factor in these cases where there is some question of whether patients are capable of accurate evaluation of their own sputum consistency, the study does not explain the method of observation and recording of results as required by 21 CFR 130.12(a)(5)(ii)(A)(4), the study does not explain the steps taken to minimize bias on the part of the subject and observer as required by 21 CFR 130.12(a)(5)(ii)(A)(3) and (4), the study did not provide a comparison of the results of diagnosis and treatment with a control in such a fashion as to

## NOTICES

permit the quantitative evaluation required by 21 CFR 130.12(a)(5)(ii)(c)(3), and the test did not document levels and methods of blinding as required by 21 CFR 130.12(a)(5)(ii)(c)(4). In addition the statistical analysis was not valid since Alevalre was administered to only half the number of patients who received normal saline and distilled water, the spirometric test is complicated by the use of Bronkometer aerosol which also has mucocavacant properties, and the data lack adequate detail to permit trend analysis or comprehension of methodology. Most importantly, this test is inadequate since it did not compare Alevalre to a proper control, e.g. Alevalre minus tyloxapol, in other words a solution of 2 percent sodium bicarbonate, 5 percent glycerin and 93 percent water.

18. R. E. Goldhammer et al., "Effects of a Mucocavacant on Mucus and Respiratory Tract Fluid: A Control Study in Immature Cats," Archives of Environmental Health 20:586 (1970). This article was mentioned in the submission of January 20, 1970, was submitted on May 7, 1970, and resubmitted as exhibit 16B of the submission of June 5, 1970. This article does not constitute an adequate and well-controlled study since there were no indications of the steps taken to minimize bias by the observer as required by 21 CFR 130.12(a)(5)(ii)(c)(3) and (4), and cats are poor animals to use to support claims of efficacy of Alevalre in humans because the respiratory tract of a cat is short compared to the human, thereby minimizing the "fallout" of large droplets. In addition Alevalre was not compared to a proper control, e.g., Alevalre minus tyloxapol, in other words a solution of 2 percent sodium bicarbonate, 5 percent glycerin and 93 percent water.

19. J. W. Polk et al., "A Comparative Study of Alevalre and a New Mucolytic Agent, Acumist in Postoperative Patients," the Eye, Ear, Nose and Throat Monthly 49:30 (1970). This article was submitted on August 13, 1970, and compares Alevalre to Acumist and concludes that Acumist is a more effective mucolytic agent. This article is not an adequate and well-controlled study demonstrating Alevalre's effectiveness since it did not compare Alevalre to a proper control, e.g., Alevalre minus tyloxapol.

3. *Affidavits concerning Alevalre's effectiveness.* On January 20, 1970, petitioners submitted six affidavits which contend that clinical experience has shown Alevalre to be effective for its recommended uses and that criteria for adequate and well-controlled clinical studies prescribed by FDA regulations should be deemed inapplicable to aerosol medication.

Despite the expressed opinions that Alevalre is effective, in only four of the affidavits (Cohen, Miller, Beck, and Ravenel) is anything more than general clinical experience relied upon to justify such a conclusion. The conclusions of Cohen, Miller, Beck, and Ravenel are based on general clinical impressions and upon studies, which have not been shown to be adequate and well controlled, that

each has conducted upon Alevalre, and which therefore do not constitute a valid basis for their final conclusions.

The affidavits also argue that the regulations requiring adequate and well-controlled studies of effectiveness as a prerequisite for a hearing should not be applied to Alevalre because of the special properties of aerosol drugs. It is contended that patients cannot be properly blinded because Alevalre tastes, looks, and foams and has a consistency different than water thereby allowing the patient to recognize which preparation he is receiving. It is also said that the disease states of patients vary from day to day. These contentions do not obviate the need for compliance with the regulations. Alevalre must be compared to its own vehicle, in other words, to a product containing the ingredients of Alevalre minus tyloxapol, i.e. a solution of 2 percent sodium bicarbonate, 5 percent glycerin and 93 percent water. A patient could not detect the difference between such a compound and Alevalre. And while the severity of a disease on any given day may vary from day to day or even minute to minute, a documentation of symptom trends over a period of time could be employed so as to reduce this obstacle. An adequate and well-controlled clinical study is therefore entirely feasible.

On June 21, 1971, petitioner submitted five additional affidavits. These affidavits stated that the affiants reviewed the Miller-Paez article and the Cohen article and concluded that these articles constituted adequate and well-controlled studies as defined by FDA regulations. This conclusion can have no basis in fact and does not require a hearing since, as pointed out above, the Cohen and Miller-Paez studies do not conform to several requirements of the FDA regulations defining adequate and well-controlled studies, and, most importantly, do not even compare Alevalre to a proper control, as pointed out in the discussions of two tests, supra.

On August 12, 1971, petitioners submitted two additional affidavits. Both affidavits state that they have been unable to complete the studies they had agreed to perform either due to lack of personnel or a proper patient population. In addition, one concludes that there is "substantial evidence" that Alevalre is effective based, in part, on the Cohen and Miller-Paez studies. The other concludes that the Cohen and Miller-Paez studies fall within the FDA regulation for adequate and well-controlled studies. These conclusions have no basis in fact and do not require a hearing since, as pointed out above, the Cohen and Miller-Paez studies do not conform to several requirements of the FDA regulations defining adequate and well-controlled studies, and, most importantly, do not even compare Alevalre to a proper control, as pointed out in the discussions of the two tests, supra.

4. *Legal arguments—A. Alevalre is not a "grandfathered" drug.* In the submission of January 20, 1970, petitioners claimed that Alevalre is not subject to

the requirements found in the 1962 New Drug Amendments to the Federal Food, Drug, and Cosmetic Act that "new drugs" must be generally recognized as safe and effective. Petitioners base their claim of exemption on the ground that they are "grandfathered," that is that Alevalre is not a "new drug" since it falls within the exemption found in section 107(c)(4) of the 1962 Amendments, Public Law 87-781. The contention that Alevalre is not subject to the efficacy review of the 1962 Amendments to the Act is insubstantial since the drug was covered by an effective application under 21 U.S.C. 355 on the day preceding the enactment date of the 1962 Amendments and in the NDA was never withdrawn or disapproved by FDA. A drug subject to an NDA prior to October 9, 1962, does not qualify for an exemption from the new drug provisions of the Act under the grandfather provisions of the 1962 New Drug Amendments. USV Pharmaceutical Corp. v. Richardson, 461 F. 2d 223 (C.A. 4, 1972).

b. *The right to a hearing is not unconditional.* In their submission of January 20, and June 5, 1970, petitioners contend that they have an unconditional right to a hearing concerning whether Alevalre is effective. This contention is without merit. Courts in several cases have held that there is no such unconditional right. Diamond Laboratories, Inc. v. Richardson, 452 F. 2d 803 (C.A. 8, 1972); Ciba-Geigy Corp. v. Richardson, 446 F. 2d 466 (C.A. 2, 1971); Upjohn Co. v. Finch, 422 F. 2d 944 (C.A. 6, 1970); Pharmaceutical Manufacturers Ass'n. v. Richardson, 318 F. Supp. 301 (D. Del., 1970). These cases recognize that those petitioning for a hearing must demonstrate that they have substantial evidence of the effectiveness of their drug as evidenced by adequate and well-controlled studies. Petitioners, as pointed out above, have not presented such evidence.

5. *Summary.* Before petitioners request for hearing may be granted, the information submitted as part of the request must show there is substantial evidence that Alevalre will have the effect it purports or is represented to have under the conditions of use prescribed, recommended or suggested in the labeling. 21 U.S.C. 355(e); 21 CFR 130.12(a)(5). Certain principles have been developed by the scientific community as essentials of adequate and well-controlled clinical investigations. They provide the basis for establishing that there is substantial evidence to support claims of effectiveness.

A well-controlled clinical investigation should provide for comparison of the results of treatment with a control which permits quantitative evaluation. The precise nature of the control must be stated and an explanation of the methods used to minimize bias on the part of observers and the analysis of the data. The level and method of "blinding" techniques must be documented.

In the case of Alevalre, a comparison of the results of use of the drug itself with an inactive preparation designed to

resemble Alevalre must be utilized. Thus, to establish effectiveness, the studies relied on would have to at least compare Alevalre to a product containing an aqueous solution of 2 percent sodium bicarbonate and 5 percent glycerin. None of the studies or articles cited make such a comparison. Moreover, the Palmer study cited by the NAS-NRC panel establishes that Alevalre containing tyloxapol, 2 percent sodium bicarbonate, and 5 percent glycerin was no more effective than the control solution containing no tyloxapol, which evidence petitioners have not refuted. Therefore, petitioners contention is without merit.

c. *The NAS-NRC report warrants institution of withdrawal procedures.* In their submission of January 20, 1970, petitioners argue that the NAS-NRC report does not warrant the institution of withdrawal proceedings against Alevalre since, inter alia, the NAS-NRC panel was not familiar with the clinical use of Alevalre, the Commissioner did not conduct an independent review of Alevalre's effectiveness, and the NAS-NRC panel apparently misunderstood the true physiological effects of Alevalre. This objection is insubstantial. The NAS-NRC reviewed medical literature on Alevalre determining that it did not contain substantial evidence of its effectiveness. To the contrary, the study by Palmer, "The effect of an aerosol detergent in chronic bronchitis," Lancet 1:611-613 (1957), clearly established that Alevalre containing a detergent and sodium bicarbonate was no more effective than the control solution containing sodium bicarbonate but no detergent. The Commissioner conducted an independent evaluation of the NAS-NRC conclusions, the material in Alevalre's new drug application and other scientific literature relating to Alevalre. On the basis of this evaluation the Commissioner concurred that there was a lack of substantial evidence that the addition of the small amount of tyloxapol which is found in Alevalre increases the effectiveness of the product. The NAS-NRC reviewed medical literature in light of the claims for Alevalre made by petitioners. It concluded and the Commissioner concurred that there was no substantial evidence that Alevalre had its labeled physiological effects.

d. *Other arguments.* In addition to the three legal arguments discussed above, petitioners state other reasons for granting a hearing for Alevalre. None of these, however, are of any merit.

5. *Findings.* The Commissioner, on the basis of the information before him and a review of the documentation, affidavits, and legal arguments offered to support the claims of effectiveness for Alevalre, finds that there is a lack of substantial evidence that the drug has the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling, that the legal arguments are insubstantial, and that the petitioners have failed to set forth specific facts showing that there is a genuine and substantial issue of fact requiring a hearing.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic

## NOTICES

6309

Act (section 505(e), 52 Stat. 1052, as amended; 21 U.S.C. 355(e)) and under the authority delegated to the Commissioner (21 CFR 2.120), the request for hearing is denied, and the approval of new drug application Nos. 10-613 and 8-530, and all amendments and supplements thereto, is withdrawn effective on the date of publication of this document.

Dated: March 2, 1973.

National Institutes of Health  
BREAST CANCER WORKING GROUP  
Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Breast Cancer Working Group of the Special Virus Cancer Program, March 30, 1973, at 9 a.m., National Institutes of Health, Building 31, Conference Room 7. This meeting will be open to the public from 9 a.m., March 30, 1973, to discuss the progress of the segment's program of breast cancer research during the previous 4 months and closed to the public from 9:30 a.m., March 30, 1973, in accordance with the provisions set forth in section 552(b)(4) title V, United States Code and section 10(d) of Public Law 92-463. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A-31, National Institutes of Health, Bethesda, Md. 20014, 301-496-1911, will furnish summaries of the open/closed meeting and roster of committee members.

Dr. Ernest J. Plata, Executive Secretary, Building 41, Suite 300, National Institutes of Health, Bethesda, Md. 20014, 301-496-6178, will provide substantive program information.

Dated: February 28, 1973.

NATIONAL ADVISORY COMMISSION ON  
MULTIPLE SCLEROSIS  
Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the National Advisory Commission on Multiple Sclerosis on March 27, 1973, at the National Institutes of Health, Building 31, Conference Room 3. This meeting will be open to the public from 10 a.m. to 4 p.m. and will continue the investigation into the most promising avenues for research leading to causes of and preventives and treatments for multiple sclerosis. Attendance by the public will be limited to space available.

Mrs. Ruth Dudley, Information Officer, NINDS, Building 31, Room 8A03, telephone 496-5751, will furnish summaries of the meeting, rosters of the Commission members, and Dr. Harry M. Weaver, Building 31, Room 8A34, telephone 496-3523, will give Commission activities information.

Dated: February 28, 1973.

**Office of the Secretary  
PRESIDENT'S COMMITTEE ON MENTAL  
RETARDATION**

**Notice of Meeting**

The President's Committee on Mental Retardation was established to provide advice and assistance in the area of mental retardation to the President including evaluation of the adequacy of the national effort to combat mental retardation; coordination of activities of Federal agencies; provision of adequate liaison between Federal activities and related activities of State and local governments, foundations, and private organizations; develop information designed for dissemination to the general public. The Committee will meet Friday and Saturday, March 16-17, 1973, from 9 a.m. to 5 p.m. in Washington, D.C., at the Watergate Hotel. The Committee will discuss health, education, services, and legal rights as they relate to the mentally retarded. These meetings are open to the public.

Dated: February 28, 1973.

FRED J. KRAUSE,  
Executive Director, President's  
Committee on Mental Retardation.  
[FR Doc 73-4489 Filed 3-7-73; 8:45 am]

**SECRETARY'S ADVISORY COMMITTEE ON  
THE RIGHTS AND RESPONSIBILITIES  
OF WOMEN**

**Notice of Meeting**

The Secretary's Advisory Committee on the Rights and Responsibilities of Women, which was established to review the policies, programs, and activities of the Department of Health, Education, and Welfare relative to women and to make recommendations to the Secretary on how to better the services of HEW's programs to meet these special needs of women, will meet Thursday and Friday, April 5-6, 1973. Thursday, April 5, the subcommittees will meet from 8:30 a.m. to 12 noon and 1 p.m. to 5:30 p.m. in the following rooms at HEW's North Building, 330 Independence Avenue SW., Washington, DC: Health Subcommittee—Room 3058, Education Subcommittee—Room 3510, Internal Affairs Subcommittee—Room 4623, and Social Services and Welfare Subcommittee—Room 3131. Then from 7:30 p.m. to 9:30 p.m. the Committee will meet in Room 5131 in the HEW-North Building. To be admitted to the building for this portion of the meeting, interested individuals must contact Ms. Karen Keesling, Executive Secretary of the Committee, HEW-North Room 3062, 202-962-0996 prior to the April 5 meeting. Friday, April 6, from 8:30 a.m. to 12 noon and 1 p.m. to 4 p.m. the Committee will meet in Room 5169 in the HEW-North Building. The Committee will be discussing health, education, social services, welfare, and HEW employment policies as they relate to

women. This meeting is open to the public.

Dated: March 2, 1973.

KAREN KEESLING,  
Executive Secretary, Secretary's  
Advisory Committee on  
the Rights and Responsibilities  
of Women.

**ATOMIC ENERGY COMMISSION**

[Docket No. 50-334]

**DUQUESNE LIGHT CO., ET AL.**

**Notice of Hearing on a Facility Operating License**

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and Part 2, "Rules of Practice," notice is hereby given that a hearing will be held at a time and place to be set in the future by an Atomic Safety and Licensing Board, to begin in or in the vicinity of Beaver County, Pa., to consider the application filed under section 104(b) of the Act by Duquesne Light Co., Ohio Edison Co., and Pennsylvania Power Co. (applicants), for a facility operating license which would authorize the operation of the pressurized water nuclear reactor (the facility), identified as the Beaver Valley Power Station, Unit No. 1, at reactor core power levels not to exceed 2,600 megawatts (thermal), at the applicants' site in Beaver County, Pa. The hearing will be conducted by an Atomic Safety and Licensing Board (Board) designated by the Chairman of the Atomic Safety and Licensing Board Panel, consisting of Samuel W. Jensch, Esq. (Chairman), Dr. John C. Geyer, and Mr. Frederick C. Shon. Dr. David L. Hetrick has been designated a technically qualified alternate, and Edward Luton, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

Construction of the facility was authorized by Construction Permit No. CPPR-75 issued by the Atomic Energy Commission (Commission) on June 26, 1970.

On November 10, 1972, a "Notice of Receipt of Application for Facility Operating License; Notice of Hearing; Notice of Consideration of Issuance of Facility Operating License and Opportunity for Hearing" in the above matter appeared in the FEDERAL REGISTER (37 F.R. 23935). The notice advised that, within 30 days from the date of publication, "any person whose interest may be affected by this proceeding may file a petition for leave to intervene: (1) With respect to the issuance of the facility operating license; or (2) with respect to whether, considering those matters covered by Appendix D to 10 CFR Part 50, the construction permit should be continued, modified,

terminated, or appropriately conditioned to protect environmental values." A joint petition for leave to intervene in each aspect of this proceeding was thereafter filed by the city of Pittsburgh and Mayor Pete Flaherty, Environmental Coalition on Nuclear Power, Ernest J. Sternglass, David Marshall, Friends of the Earth, Environment Pittsburgh, and the Beaver County Citizens Conservation Corps (joint petitioners). Answers to the petition were filed by the applicants and the Commission's regulatory staff.

As set forth in a memorandum and order on this matter dated March 2, 1973, the Atomic Safety and Licensing Board designated to rule on this petition has determined that a hearing with respect to the issuance of the facility operating license is warranted, that this hearing should be consolidated with the hearing on whether the construction permit should be continued, modified, terminated, or appropriately conditioned to protect any environmental values, and that, subject to acceptable clarification<sup>1</sup> of the interest of petitioner Environmental Coalition on Nuclear Power, all joint petitioners should be admitted jointly as intervenors party to the proceedings. The unopposed request of the Commonwealth of Pennsylvania, to participate in this proceeding as an interested State pursuant to 10 CFR 2.715(c), was also granted.

A prehearing conference on conferences will be held by the Licensing Board, at a date and place to be set by it, to consider pertinent matters in accordance with the Commission's rules of practice. The date and place of the consolidated hearing will be set by the Board at or after the prehearing conference. Notices as to the dates and places of the prehearing conference and the consolidated hearing will be published in the FEDERAL REGISTER.

The specific issues to be considered at the consolidated hearing will be determined by the Board in accordance with the cited memorandum and order.

The instant facility is subject to the provisions of section B of Appendix D to 10 CFR Part 50, which sets forth procedures for environmental review of certain licenses to construct or operate production or utilization facilities issued in the period January 1, 1970, to September 9, 1971. In addition to deciding the matters in controversy among the parties, the Board will, in accordance with section A.11 of said Appendix D: (a) Determine whether the requirements of section 102(2) (C) and (D) of NEPA and Appendix D to 10 CFR Part 50 of the Commission's regulations have been complied with in this proceeding; (b) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view

<sup>1</sup>Environmental Coalition on Nuclear Power is granted twenty (20) days to submit clarification.

toward determining the action to be taken; and (c) determine, after weighing the environmental, economic, technical, and other benefits against environmental costs and considering available alternatives, whether the construction permit should be continued, modified, terminated, or appropriately conditioned to protect environmental values.

Depending on the resolution of the issues specified by the Licensing Board, authorization for issuance of the operating license may be granted or denied, or the license may be authorized as appropriately conditioned. An operating license would be issued only after appropriate findings are made by the Director of Regulation on the matters set forth below which are not embraced by the Board's decision (and upon compliance with the applicable provisions of Appendix D to 10 CFR Part 50 dealt with above):

1. Whether construction of the facility has been substantially completed in conformity with the construction permit and the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

2. Whether the facility will operate in conformity with the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

3. Whether there is reasonable assurance: (i) That the activities authorized by the operating license can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the regulations of the Commission.

4. Whether the applicant is technically and financially qualified to engage in the activities authorized by the operating license in accordance with the regulations of the Commission.

5. Whether the applicable provisions of 10 CFR Part 140, "Financial Protection Requirements and Indemnity Agreements," of the Commission's regulations have been satisfied.

6. Whether the issuance of the license will be inimical to the common defense and security or to the health and safety of the public.

For further details pertinent to the matters under consideration, see the application for the facility operating license docketed October 18, 1972, as amended, and the applicants' Environmental Report dated September 24, 1971, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Beaver Area Memorial Library, 100 College Avenue, Beaver, PA 15009. As they become available, the following documents also will be available at the above locations: (1) The safety evaluation prepared by the Directorate of Licensing; (2) the Commission's draft detailed statement on environmental considerations pursuant to 10 CFR Part 50, Appendix D; (3) the Commission's final detailed statement on environmental considerations; (4) the report of the Advisory Committee on Reactor Safeguards on the application for fa-

cility operating license; (5) the proposed facility operating license; and (6) the proposed technical specifications, which will be attached to the proposed facility operating license. To the extent of supply, copies of items (1), (3), (4), and (5) will be furnished upon request to Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Any person who wishes to make an oral or written statement in this proceeding but who has not filed a petition for leave to intervene as noted above, may request permission to make a limited appearance pursuant to the provisions of 10 CFR § 2.715 of the Commission's rules of practice. Limited appearances will be permitted at the time of the hearing in the discretion of the Licensing Board, within such limits and on such conditions as may be fixed by it. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, on or before April 9, 1973. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR § 2.705 of the Commission's "rules of practice," must be filed by the parties to this proceeding (other than the regulatory staff) on or before March 28, 1973.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

Pending further order of the Licensing Board, parties are required to file pursuant to the provisions of 10 CFR § 2.708 of the Commission's "rules of practice," an original and 20 conformed copies of each such paper with the Commission.

Issued at Washington, D.C., this 2d day of March 1973.

THE ATOMIC SAFETY AND LICENSING BOARD,  
ELIZABETH S. BOWERS,  
Chairman.

[FR Doc 73-4431 Filed 3-7-73; 8:45 am]

[Docket No. 50-219]

**JERSEY CENTRAL POWER & LIGHT CO.  
Notice of Hearing on Facility Operating License**

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, Licensing of Production and Utilization Facilities and

Part 2, Rules of Practice, notice is hereby given that a hearing will be held at a time and place to be established in the future by an atomic safety and licensing board, commencing in the vicinity of Toms River, N.J., to consider the application filed by Jersey Central Power & Light Co. for a full-term facility operating license which would authorize the operation of a boiling water reactor (the facility) identified as the Oyster Creek Nuclear Power Plant, Unit 1, at steady-state power levels up to a maximum of 1,930 thermal megawatts at the applicant's site in Lacey Township, Ocean County, N.J. Construction of the facility was authorized by Provisional Construction Permit No. CPPR-15 issued on December 15, 1964. Provisional Operating License No. DPR-16 was issued on April 9, 1969, and the facility is presently operating under that license.

The hearing will be conducted by an atomic safety and licensing board (licensing board) designated by the Chairman of the Atomic Safety and Licensing Board Panel, consisting of Dr. Hugh C. Paxton, Dr. Paul W. Purdom, and Robert M. Lazo, chairman. Frederick J. Shon has been designated as a technically qualified alternate, and Joseph F. Tubridy as an alternate qualified in the conduct of administrative proceedings.

A "notice of consideration of issuance of facility operating license and opportunity for hearing" was published by the Commission on November 28, 1972 (37 FR 25190). The notice provided that, on or before April 9, 1973, any person whose interest might be affected by the proceeding might file a petition for leave to intervene with respect to the issuance of a full-term operating license.

A joint petition for leave to intervene was thereafter filed by Sands Point Marina, Inc., Henry J. Kurtz and Mary A. Kurtz, doing business as Oyster Creek Marina, and Charles B. Mallie and Joseph P. DiPaolo, doing business as Briarwood Yacht Basin. A petition for leave to intervene was also filed by Kenneth B. Walton. A memorandum and order of this atomic safety and licensing board dated March 2, 1973, has directed that a public hearing be held, and that the joint petition of Sands Point Marina, Inc. and others be granted and that they be admitted as parties to the proceeding. That memorandum and order denied the petition for leave to intervene filed by Kenneth B. Walton.

A prehearing conference will be held by the board, at a date and place to be set by it, to consider pertinent matters in accordance with the Commission's rules of practice. The date and place of the hearing will be set by the board at or after the prehearing conference. Notices as to the date and places of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

The facility is subject to the provisions of section A of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities.

In accordance with paragraph 11 of section A of Appendix D, the atomic safety and licensing board will decide those matters in controversy among the parties and take such other action as may be appropriate. The specific issues to be considered at the hearing will be determined by the licensing board.

A full-term operating license would be issued only after appropriate findings are made by the Director of Regulation on the matters set forth below (and upon compliance with the applicable provisions of Appendix D to 10 CFR Part 50):

1. Whether construction of the facility has been substantially completed in conformity with the construction permit and the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

2. Whether the facility will operate in conformity with the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

3. Whether there is reasonable assurance: (i) That the activities authorized by the operating license can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the regulations of the Commission.

4. Whether the applicant is technically and financially qualified to engage in the activities authorized by the operating license in accordance with the regulations of the Commission.

5. Whether the applicable provisions of 10 CFR Part 140, "Financial Protection Requirements and Indemnity Agreements," of the Commission's regulations have been satisfied.

6. Whether the issuance of the license will be inimical to the common defense and security or to the health and safety of the public.

The application for the full-term facility operating license and other documents pertinent to the matters under consideration have been or will be deposited in the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Ocean County Library, 15 Hooper Avenue, Toms River, NJ, where they will be available for inspection by members of the public. Copies of the safety evaluation by the Directorate of Licensing, and the proposed facility operating license, when available and to the extent of supply, may be obtained by request to the Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Any person who wishes to make an oral or written statement in this proceeding setting forth his position on the issues specified, but who has not filed either a petition for leave to intervene or a request for a hearing as noted above, may request permission to make a limited appearance pursuant to the provisions of 10 CFR § 2.715 of the Commission's rules of practice. Limited appearances will be permitted at the time of the hearing in the discretion of the board, within such limits and on such conditions as may be fixed by the board.

A person desiring to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified in the issues set out above. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR § 2.705 of the Commission's rules of practice, shall be filed by each party to the proceeding (other than the regulatory staff) on or before March 28, 1973. Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

Pending further order of the board, parties are required to file, pursuant to 10 CFR § 2.708 of the Commission's rules of practice, an original and 20 copies of each such paper.

Dated at Washington, D.C., this 2d day of March 1973.

THE ATOMIC SAFETY AND LICENSING BOARD,  
SIDNEY G. KINGSLEY,  
Chairman.

[FR Doc.73-4435 Filed 3-7-73; 8:45 am]

#### MATERIALS AND PLANT PROTECTION GUIDES

##### Notice of Issuance and Availability

The Atomic Energy Commission has issued three new guides, Regulatory Guide 5.3, "Statistical Terminology and Notation for Special Nuclear Materials Control and Accountability," Regulatory Guide 5.4, "Standard Analytical Methods for the Measurement of Uranium Tetrafluoride (UF<sub>4</sub>) and Uranium Hexafluoride (UF<sub>6</sub>)," and Regulatory Guide 5.5, "Standard Methods for Chemical, Mass Spectrometric, and Spectrochemical Analysis of Nuclear-Grade Uranium Dioxide Powders and Pellets," in its regulatory guide series. This series has been developed to describe and to make available to the public methods acceptable to the AEC regulatory staff for implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain information needed by the staff in its review of applications for permits and licenses.

The new guides are in Division 5, "Materials and Plant Protection Guides," of the regulatory guide series. Regulatory Guide 5.3 deals with acceptable statistical terminology and notation applicable to nuclear material control and accountability systems. Regulatory Guide 5.4 identifies acceptable methods for subsampling and chemical and isotopic

analysis of uranium tetrafluoride and hexafluoride which an applicant may specify as part of his procedures for accounting for special nuclear material. Regulatory Guide 5.5 identifies acceptable methods for chemical, isotopic, and impurity analysis which an applicant may specify as part of his procedures for accounting for special nuclear material.

Comments and suggestions for improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Copies of issued guides may be obtained by request to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director of Regulatory Standards.

Other Division 5 regulatory guides currently being developed include the following:

Nuclear Material Control Systems and Procedures for Conversion Facilities.

Standard Methods for Chemical, Mass Spectrometric and Spectrochemical Analysis of Nuclear Grade Plutonium Dioxide Powders and Pellets.

Guide for the Conduct of Nuclear Material Inventories.

Guide for Personnel Access Control.

Specification for Ge(Li) Detection and Data Acquisition Systems for Material Protection Measurements.

Methods for the Analytical Chemical Analysis of Nuclear-Grade Mixed Oxides (U, Pu O<sub>2</sub>).

(5 U.S.C. 552(a))

Dated at Bethesda, Md., this 1st day of March 1973.

For the U.S. Atomic Energy Commission.

LESTER ROGERS,  
Director of Regulatory Standards.

[FR Doc.73-4432 Filed 3-7-73; 8:45 am]

[License No. 01-15494-01E]

#### SCI SYSTEMS, INC.

##### Notice of Issuance of Byproduct Material License

Please take notice that the Atomic Energy Commission has, pursuant to § 32.26 of 10 CFR Part 32, issued License No. 01-15494-01E to SCI Systems, Inc., 8620 South Memorial Parkway, Huntsville, AL 35802, which authorizes the distribution of Model 50C14 fire detectors to persons exempt from the requirements for a license pursuant to § 30.20 of 10 CFR Part 30.

1. The devices are designed to detect incipient fires by responding to the products of combustion produced by thermal decomposition of building materials or contents prior to the appearance of visible smoke, flame, or appreciable heat. The sensitive element of the detector is an ionization chamber in which air flowing into the chamber is made conductive by beta particles emitted by carbon 14.

2. The byproduct material incorporated in the detector is carbon in a polystyrene form contained in sources manufactured by International Chemical

and Nuclear Corp. (Model SCI-1). The nominal activity contained in the unit is 50 microcuries but the maximum activity is 56 microcuries.

3. Each exempt unit will have a label identifying the manufacturer (SCI Systems, Inc.) and the byproduct material (carbon 14) contained in the unit and recommending that the unit be returned to SCI Systems, Inc., for disposal.

A copy of the license and a safety evaluation containing additional information, prepared by the Directorate of Licensing, are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., March 1, 1973.

For the Atomic Energy Commission.

S. H. SMILEY,  
Deputy Director for Fuels and Materials, Directorate of Licensing.

[FR Doc.73-4433 Filed 3-7-73; 8:45 am]

[Docket No. 50-271]

#### VERMONT YANKEE NUCLEAR POWER CORP.

##### Notice of Issuance of Amendment to Facility Operating License

Pursuant to an initial decision of the Atomic Safety and Licensing Board, issued February 27, 1973, notice is hereby given that the Atomic Energy Commission (the Commission) has issued Amendment No. 5 to Facility Operating License No. DPR-28 to Vermont Yankee Nuclear Power Corp. (Vermont Yankee) which authorizes full-term operation of the Vermont Yankee Nuclear Power Station (the facility) at steady-state power levels not to exceed 1,593 megawatts thermal in accordance with the technical specifications attached as appendices A and B thereto. The facility is a single cycle, forced circulation, boiling water reactor located at the licensee's site in Windham County, Vt.

On March 21, 1972, the Commission issued Facility Operating License No. DPR-28 pursuant to an initial decision of the Atomic Safety and Licensing Board, issued March 14, 1972, which authorized fuel loading and low-power testing at power levels not to exceed 15.9 megawatts thermal (1 percent of the rated power level of the facility). Amendment No. 1, issued April 21, 1972, authorized receipt, possession, and use of additional source and special nuclear materials. Amendment No. 2, issued September 7, 1972, authorized temporary operation at thermal power levels not to exceed 318.6 (20 percent of the facility's rated power). Amendment No. 3, issued on October 12, 1972, authorized temporary operation of the facility at steady-state power levels not to exceed 1,593 megawatts thermal. Amendment No. 4, issued on January 8, 1973, authorized receipt, possession, and use of up to 3,300 kilograms of U-235 and 16 grams of plutonium in connection with the operation of the facility.

The Commission's regulatory staff has inspected the facility and has determined that, for operation as authorized by the amended license, the facility has been constructed in accordance with the application, as amended, the provisions of Provisional Construction Permit No. CFP-36, as amended, the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The licensee has submitted proof of financial protection in satisfaction of the requirements of 10 CFR Part 140.

The Board has concluded that the facility will operate in conformity with the application, as amended, the provisions of the Act, and the rules and regulations of the Commission and will not be inimical to the common defense and security or to the health and safety of the public and that Vermont Yankee is technically and financially qualified to engage in the activities authorized by the amended license. The Board, after weighing the environmental, economic, technical, and other benefits of the facility against environmental costs and considering available alternatives, concluded that issuance of the amended operating license (subject to the conditions for protection of the environment set forth therein) is in accordance with 10 CFR Part 50, Appendix D, of the Commission's regulations and that all applicable requirements of said Appendix D have been satisfied.

The license as amended is effective as of the date of issuance and shall expire at midnight on December 11, 2007.

Copies of (1) the initial decision, dated February 27, 1973; (2) Amendment No. 5 to Facility Operating License No. DPR-28 and the Technical Specifications attached as Appendices A and B thereto; (3) the safety evaluation for the Vermont Yankee Nuclear Power Station, dated June 1, 1971, and Supplements 1 and 2, thereto, dated July 7, 1971, and July 19, 1971, respectively, and the report of the Advisory Committee on Reactor Safeguards, dated March 9, 1971, and attached to the safety evaluation as Appendix A; (4) draft detailed statement on the environmental considerations related to the proposed issuance of an operating license to the Vermont Yankee Nuclear Power Station, dated April 7, 1972; and (5) the final environmental statement, dated July 1972, are available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, DC and at the Brooks Memorial Library, 224 Main Street, Brattleboro, VT. Copies of items (2), (3), and (5) may be obtained upon request addressed to the Atomic Energy Commission, Washington D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this 28th day of February 1973.

For the Atomic Energy Commission.

WALTER R. BUTLER,  
Chief, Boiling Water Reactors Branch 1, Directorate of Licensing.

#### COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

##### CERTAIN MANMADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

##### Entry or Withdrawal From Warehouse for Consumption

On October 4, 1972, there was published in the FEDERAL REGISTER (37 FR 20883) a letter dated September 28, 1972, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs implementing those provisions of the bilateral Wool and Manmade Fiber Textile Agreement of January 4, 1972, between the Governments of the United States and the Republic of Korea which establish specific export limitations on wool and manmade fiber textile products in certain categories, including manmade fiber textile Categories 210, 213, 219, 224, and part of 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165), and 240; Categories 200-205 and 241-243, as a group; and in Categories 214-240, as a group; produced or manufactured in the Republic of Korea and exported to the United States during the 12-month period beginning October 1, 1972, and extending through September 30, 1973. The levels of restraint applicable to Categories 210, 224, and part of 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165), and 240 were amended by directive of February 9, 1973 (38 FR 4015).

On March 2, 1973, notes were exchanged between the Governments of the United States and the Republic of Korea further amending the levels of restraint applicable to manmade fiber textile products in Categories 210, 224, and part of 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165), and 240 and also amending the levels of restraint applicable to Categories 200-205 and 241-243, as a group; Categories 214-240, as a group; and individual Categories 213 and 219.

Accordingly, there is published below a letter of March 7, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs further amending the directive of September 28, 1972, to adjust the levels of restraint applicable to imports of manmade fiber textile products in Categories 200-205 and 241-243, as a group; Categories 214-240, as a group; and individual Categories 210, 213, 219, 224, and part of 222 (only T.S.U.S.A. Nos. 280.0428 and 280.8165), and 240 produced or manufactured in the Republic of Korea.

ARTHUR GAREL,  
Acting Chairman, Committee for the Implementation of Textile Agreements.

COMMISSIONER OF CUSTOMS,  
Department of the Treasury,  
Washington, D.C. 20229.

DEAR MR. COMMISSIONER: This directive further amends but does not cancel the directive issued to you on September 28, 1972, by the Chairman, Committee for the Implementation of Textile Agreements, regarding imports into the United States of wool and manmade fiber textile products in certain

categories, produced or manufactured in the Republic of Korea. The directive of September 28, 1972, was previously amended on February 7, 1973.

Under the provisions of the bilateral Wool and Man-Made Fiber Textile Agreements of January 4, 1972, between the Governments of the United States and the Republic of Korea and in accordance with Executive Order 11651 of March 3, 1972, you are directed to amend, effective as soon as possible, the levels of restraint established in the aforesaid directive of September 28, 1972, as amended, for manmade fiber textile products in Categories 200-205 and 241-243, as a group; Categories 214-240, as a group; and individual Categories 210, 213, 219, 224, and part of 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165), and 240, produced or manufactured in the Republic of Korea, as set forth below:

Category	Amended 12-month levels of Restraint <sup>1</sup>
200-205 and 241-243 (Group III).	31,498,882 square yards equivalent.
214-240 (Group I).	326,299,518 square yards equivalent.
210	156,521 square yards.
213	134,616 pounds.
219	3,634,293 dozen.
224 and part 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165).	1,670,226 pounds (of which not more than 873,077 pounds may be exported in T.S.U.S.A. No. 380-8160 during the period Mar. 1, 1973-Sept. 30, 1973).
240	217,687 pounds.

<sup>1</sup> The levels shown for Categories 210, 224, and part of 222 (only T.S.U.S.A. Nos. 380-0428 and 380.8165), and 240 have been adjusted to reflect entries through February 23, 1973. The levels for Categories 200-205 and 241-243, as a group; Categories 214-240, as a group; and individual Categories 213 and 219 have not been adjusted to reflect any entries on or after Oct. 1, 1972.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of manmade fiber textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

ARTHUR GAREL,  
Acting Chairman, Committee for the  
Implementation of Textile Agreements.

#### FEDERAL POWER COMMISSION

[Docket No. C173-558]

#### HURLEY PETROLEUM CORP.

##### Notice of Application

MARCH 2, 1973.

Take notice that on February 26, 1973, Hurley Petroleum Corp. (Applicant), 400 Petroleum Building, Shreveport, La. 71101, filed in Docket No. C173-558 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corp. from the Carthage Field, Panola County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on February 19, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 1,000 Mcf of gas per day at 45 cents per Mcf at 14.65 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a

proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.73-4562 Filed 3-7-73; 8:45 am]

[Docket No. C173-557]

#### MOBIL OIL CORP.

##### Notice of Application

MARCH 1, 1973.

Take notice that on February 26, 1973, Mobil Oil Corp. (Applicant), 800 3 Greenway Plaza East, Houston, TX 77046, filed in Docket No. C173-557 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Co. of America from the Sand Dunes Field Area, Eddy County, N. Mex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it intends to commence the sale of natural gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for 2 years from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 7,000 Mcf of gas per day at 35 cents per million B.t.u.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10).

All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. C173-559]

**PENNZOIL PRODUCING CO.**

**Notice of Application**

MARCH 1, 1973.

Take notice that on February 23, 1973, Pennzoil Co. (Applicant), 900 Southwest Tower, Houston, Tex. 77002, filed in Docket No. C173-559 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co., from the Humphries Field, East Gibson Area, Terrebonne Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant is presently selling natural gas from the subject properties pursuant to a temporary certificate issued March 24, 1972, in Docket No. C172-490 at 35 cents per Mcf at 15.025 p.s.i.a. Applicant proposes to continue said sale for

1 year from the expiration of the temporary authorization, March 26, 1973, at 45 cents per Mcf at 15.025 p.s.i.a., within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). The estimated monthly sales volume is 280,000 Mcf of gas.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein. If the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
*Secretary.*

[FR Doc. 73-4277 Filed 3-7-73; 8:45 am]

**FEDERAL RESERVE SYSTEM**

**BARNETT BANKS OF FLORIDA, INC.**

**Proposed Acquisition of Barnett Winston Mortgage Co.**

Barnett Banks of Florida, Inc., Jacksonville, Fla., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain indirect ownership of voting shares of Barnett Winston Mortgage Co. (formerly known as Barnett Mortgage Co.), Winter Park, Fla., through its 100-percent-owned subsidiary, Barnett Winston Co., Jacksonville, Fla. Notice of the application was published in the following newspapers:

Orlando Evening Star... Orlando, Fla. Dec. 13, 1972  
 Daytona Beach Evening News... Daytona Beach, Fla. Dec. 12, 1972  
 The Ledger... Lakeland, Fla. Dec. 13, 1972  
 The Tampa Tribune... Tampa, Fla. Dec. 11, 1972  
 St. Petersburg Times... St. Petersburg, Fla. Dec. 12, 1972  
 The Melbourne Times... Brevard County, Fla. Dec. 13, 1972

Applicant states that the proposed subsidiary would continue the activities of a mortgage company by originating as principal the following types of mortgage loans: (1) Insured or guaranteed permanent single-family residential mortgage loans for resale to unaffiliated institutional mortgage investors; (2) loans for the construction of single-family residential properties where FHA insurance or a VA guaranty commitment has been secured; and (3) land acquisition and development loans for development of single-family residential projects where FHA insurance or a VA guaranty commitment has been secured. Applicant also states that it would service permanent single-family residential mortgage loans for unaffiliated institutional mortgage investors. The proposed subsidiary owns 100 percent of Exchange Properties, Inc., a company which holds title to real property acquired upon foreclosure of mortgage loans. Applicant indicates that the activities described above have been specified by the Board in § 225.4(a)(1) and (3) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 29, 1973.

Board of Governors of the Federal Reserve System, March 1, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
*Assistant Secretary of the Board.*

[FR Doc. 73-4423 Filed 3-7-73; 8:45 am]

**CENTRAN BANCSHARES CORP.**

**Proposed Acquisition of Peoples Investment Co.**

Centran Bancshares Corp., Washington, D.C., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire all of the voting shares of Peoples Investment Co., Louisville, Ky. Notice of the application was published on January 17, 1973, in the Nashville Banner, a newspaper circulated in Nashville, Tenn.; on January 18, 1973, in the Cincinnati Post and Times-Star, a newspaper circulated in Cincinnati, Ohio; on January 18, 1973, in the Kentucky Post and Times-Star, a newspaper circulated in Covington, Ky.; and on January 19, 1973, in the Courier-Journal, a newspaper circulated in Louisville, Ky.

Applicant states that the proposed subsidiary would engage in the activities of making consumer finance loans and purchasing installment sales contracts, such as would be performed by a small loan company or an industrial loan company in the manner authorized by State law so long as such an industrial loan company does not both accept demand deposits and make commercial loans; and leasing of automobiles and industrial equipment. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b). Applicant indicates that through Fincastle Insurance Agency, Inc., Louisville, Ky., the proposed subsidiary engages in the sale of credit life, health, and accident insurance and mobile and vehicular damage insurance, at the borrowers' option, in connection with loans and discounts originating from the affiliated loans companies of Peoples Investment Co. Under certain circumstances specified in the Board's interpretation (12 CFR 225.138) of § 225.4(a)(9) of Regulation Y, such activities may be permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices. Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors

## NOTICES

or at the Federal Reserve Bank of Cleveland.

**CHASE MANHATTAN CORP.**

**Acquisition of Bank**

The Chase Manhattan Corp., New York, N.Y., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of Chase Manhattan Bank of Eastern New York (National Association), Albany, N.Y., a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the act (12 U.S.C. 1842(c)).

The Chase Manhattan Corp. is also engaged in the following nonbank activities: Mortgage servicing and servicing the Shapiro Factors Division of the Chase Manhattan Bank. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in light of the company's nonbanking activities and the provisions and prohibitions in section 4 of the act (12 U.S.C. 1843).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of New York. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than March 28, 1973.

Board of Governors of the Federal Reserve System, February 28, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
*Assistant Secretary of the Board.*

[FR Doc. 73-4421 Filed 3-7-73; 8:45 am]

**DORACO, INC.**

**Order Approving Retention of Bank**

Doraco, Inc., Doraville, Ga., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the act (12 U.S.C. 1842(a)(3)) to retain 58.2 percent of the voting shares of The Northeast Commercial Bank, Doraville, Ga. (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set

forth in section 3(c) of the act (12 U.S.C. 1842(c)).

Since the inception of Bank (\$3.4 million in deposits) in 1969, applicant has owned 5,780 shares, or 24.08 percent of the Bank's stock, with an option to purchase additional shares. Beginning June 28, 1972, applicant exercised its option, purchasing 13,975 additional shares to bring its total ownership of shares in Bank to 19,755 or 82 percent. The option was apparently exercised in the belief that applicant already controlled Bank, and that accordingly, prior Board approval was not required under section 3(a) of the Bank Holding Company Act (12 U.S.C. section 1842(a)). Upon being informed by the Federal Reserve Bank of Atlanta that the Board's approval of the transaction was required, applicant submitted the subject application.

Applicant's retention of the additional shares would not significantly affect competition between Bank and any competing institution, nor diminish the ability of Bank to meet the convenience and needs of its community. The financial and managerial resources of applicant and Bank are satisfactory, and future prospects for both appear favorable. It is the Board's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above.

By order of the Board of Governors, effective March 1, 1973.

[SEAL] TYNAN SMITH,  
*Secretary of the Board.*

[FR Doc. 73-4424 Filed 3-7-73; 8:45 am]

**FIRST AT ORLANDO CORP.**

**Order Approving Acquisition of Banks**

First at Orlando Corp., Orlando, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of Guaranty Bank of Miami (Guaranty Bank) and of West Dade Bank, both of Miami, Fla.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the third largest banking organization in Florida, controls 32 banks with aggregate deposits of \$1.1 billion, representing approximately 6.6 percent of the total deposits of commercial banks

Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns.

in Florida. (All banking data are as of June 30, 1972, and reflect bank holding company acquisitions approved through December 31, 1972.) Applicant is the seventh largest banking organization in the Greater Miami banking market (approximated by Dade County and the communities of Dania, Davie, Hallandale, and Hollywood in the southern portion of Broward County) with four subsidiary banks holding 3.4 percent of total deposits in commercial banks in that market. Consummation of the proposal herein would increase insignificantly applicant's share of commercial bank deposits in the Greater Miami area and its ranking among banking organizations in that market would remain unchanged.

Guaranty Bank (\$23.5 million of deposits), with approximately 0.6 percent of the total deposits in commercial banks in the market, ranks 66th in terms of deposits among the 93 commercial banks located in the Greater Miami market. Guaranty Bank is located approximately 8 miles southwest of applicant's closest subsidiary bank; however, neither that bank nor any of applicant's other subsidiaries compete with Guaranty Bank to any significant extent. Moreover, in the light of the size of Guaranty Bank, the large number of competing banks in the area, and the traffic patterns and congestion in the area, it appears unlikely that any significant competition between Guaranty Bank and any of applicant's subsidiary banks would develop in the future. The same conclusions apply with respect to the elimination of significant existing competition and to the development of future competition between applicant's subsidiaries and the West Dade Bank, which is located 3 miles west of Guaranty Bank.

West Dade Bank was organized in 1971 by officials of Guaranty Bank, and one or more officers or directors of Guaranty Bank have served on West Dade Bank's board of directors since it began operations in October 1972. At the present time, there exists a significant degree of common stock ownership among shareholders of both banks; and, although the offices of Guaranty Bank and West Dade Bank are separated by a distance of only 3 miles, the banks do not appear to compete with each other nor are they likely to do so in the future in view of the close affiliate relationship existing between the two banks.

On the record before it, the Board concludes that consummation of applicant's proposal would not result in a monopoly nor be in furtherance of any combination, conspiracy, or attempt to monopolize the business of banking, nor have any significant anticompetitive effect, in any area of the State of Florida.

The financial condition and managerial resources of applicant and of its subsidiaries appear satisfactory and future prospects of each seem favorable, particularly in view of applicant's plans to improve the capital positions of certain of its subsidiary banks from the proceeds of a public offering of sinking fund debentures. The same conclusion seems ap-

plicable to the financial condition and managerial resources of Guaranty Bank and West Dade Bank. However, affiliation with applicant would provide Guaranty Bank and West Dade Bank with a ready source for additional capital and managerial resources. Therefore, considerations relating to the banking factors and some weight toward approval of the applications.

In connection with the West Dade Bank, a newly chartered bank, the payment of a large premium raises the question whether the charter of the bank was originally sought by its organizers for speculative purposes, rather than for legitimate banking purposes. In a similar case, the Board stated:

In considering the public interest, the Board gives weight to a chartering authority being able to consider all of the relevant facts surrounding a proposal to establish a new bank including the probability that the ownership and management of a new bank will remain stable for a reasonable period of time.<sup>1</sup>

Although West Dade Bank opened for business on October 25, 1972, its organizers, the management of Guaranty Bank, originally applied to the State authorities for a charter in 1965; the application was denied because of the chartering authority's opinion that the area could not support an additional bank. The organizers filed a second application for a charter at the same location in August 1970; the application was granted in June 1971. It was not until March 1972, that the organizers approached applicant concerning the sale of the two banks. Based on this chronology and the facts of record, the Board concludes that the evidence does not indicate that the organizers of West Dade Bank secured the charter of the bank for the speculative purpose of selling it quickly for a profit.

Although the banking needs of residents of the Greater Miami area are being served adequately by existing institutions, applicant proposes to provide managerial and technical assistance to Guaranty Bank and West Dade Bank in order to enhance the competitive abilities of each of the banks. Considerations relating to the convenience and needs of the communities served by the two banks are regarded as consistent with approval of the applications.

It is the Board's judgment that the proposed acquisitions would be in the public interest and that the applications should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The transactions shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for

<sup>1</sup>See statement accompanying order of Jan. 6, 1972, denying application for acquisition of shares of Bank of Jacomo, Blue Springs, Mo., by United Missouri Bancshares, Inc., Kansas City, Mo., 1972 Federal Reserve Bulletin 155 (February 1972).

good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

#### FIRST PENNSYLVANIA CORP. Proposed Acquisition of Continental Finance Corp. of America

First Pennsylvania Corp., Philadelphia, Pa., has applied, pursuant to section 4 (c) (8) of the Bank Holding Company Act (12 U.S.C. 1843(c) (8)) and § 225.4 (b) (2) of the Board's Regulation Y, for permission to acquire voting shares of Continental Finance Corporation of America, Aurora, Colo., and thereby to indirectly acquire shares of its 17 subsidiaries which do business under the names CIB Co., East Continental Industrial Bank, Alliance Finance Company of California, Continental Finance Corporation of Aurora, or variations of the foregoing. Notice of the application was published on February 14, 1973, in the Denver Post, a newspaper circulated throughout the State of Colorado and in the Los Angeles Times, a newspaper circulated in Los Angeles County, Calif.

Applicant states that the proposed subsidiary would engage in the activities of (1) Operating industrial banks, in the manner authorized by Colorado law, that receive time and savings deposits and make loans to individuals, (2) the making of direct consumer loans to individuals on a secured or unsecured basis, and (3) the purchase of sales finance paper from retail dealers. Such activities have been specified by the Board in § 225.4 (a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4 (b). In addition, Applicant states that the proposed subsidiary would engage in the activity of (4) selling to its debtors credit life and credit health and accident insurance, as well as property damage, fire, and extended coverage insurance to those debtors. Applicant indicates that this insurance is sold in connection with extensions of credit. Under certain circumstances specified in the Board's interpretation (12 CFR 225.138) of § 225.4 (a) (9) of Regulation Y, such activity may be permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4 (b).

Interested persons may express their views on the question whether consummation of the proposal can reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse

<sup>1</sup>Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Brimmer, Sheehy, and Bucher. Absent and not voting: Chairman Burns.

effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices. Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Philadelphia.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 28, 1973.

Board of Governors of the Federal Reserve System, March 1, 1973.

#### TEXAS COMMERCE BANCSHARES, INC. Acquisition of Banks

Texas Commerce Bancshares, Inc., Houston, Tex., has applied, in two separate applications, for the Board's approval under section 3(a) (3) of the Bank Holding Company Act (12 U.S.C. 1842(a) (3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of Inwood National Bank, Houston, Tex., and Kingwood National Bank, Houston, Tex., both proposed new banks. The factors that are considered in acting on these applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

These applications may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on these applications should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than March 28, 1973.

## NOTICES

**SMALL BUSINESS ADMINISTRATION**

[Delegation of Authority No. 30, Region VIII, Amdt. 2]

**REGIONAL DIRECTOR ET AL.**  
**Delegation of Authority To Conduct**  
**Program Activities in Region VIII**

Delegation of Authority No. 30, Region VIII (37 FR 17620), as amended (38 FR 2358), is hereby further amended by revising Part IV, Sections A.2.; B.1.a. and B.2.h.(2) and Part VI, Sections A.1.b and 3. and B.1., 3., and 4.

**PART IV—LOAN ADMINISTRATION (LA)**  
**PROGRAM**

**SECTION A. Loan administration, servicing, collection, and liquidation authority.**

2. To contract for the services of fee appraisers, engineering, marketing, and feasibility studies, and other required services, in conjunction with loan processing, servicing, and loan liquidation:
  - (1) Regional Director.
  - (2) Chief and Assistant Chief, Regional LA Division.
  - (3) Supervisory Loan Officer, Regional LA Division.
  - (4) District Director.
  - (5) Chief, District LA Division.
  - (6) Branch Manager.

**SECTION B. Loan administration, servicing, and collection authority.**

1. *Except*—To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan; and the cancellation of authority to liquidate.
  - (1) Branch Manager.
  2. To approve the following actions:
    - a. Use of such portions of the cash surrender value of assigned life insurance as are required to pay premiums due on the policy.
    - b. Release of dividends on assigned life insurance or consent to application of dividends against premiums due or to become due.
    - c. Minor modifications in the authorizations.
    - d. Extension of disbursement period on loans partially undisbursed.
    - e. Extension of initial principal payments.
    - f. Adjustment of interest payment dates.
    - g. Release of hazard insurance checks not in excess of \$500 and endorsement of such checks on behalf of the Agency where SBA is named as joint loss payee.
    - h. Release of equipment with or without consideration where the value of

equipment being released does not exceed \$500.

- (1) Concerning all current direct and participation loans and First Mortgage Plan 502 loans:
  - (1) Loan Officer, Regional LA Division.
  - (2) Loan Officer, District LA Division.
- (2) Concerning all direct and participation loans:
  - (1) Loan Officer, Branch Office.

**PART VI—LEGAL SERVICES**

**SECTION A. Authority to conduct litigation activities.**

1. *Except*—The execution and delivery of contracts of sale or of lease or sublease, quit-claim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing, as to all matters in litigation.

(1) *Except*—To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement.

- (1) Regional Director.
- (2) Regional Counsel.
- (3) District Director.
- (4) Branch Manager.
- (2) *Except*—To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan; and the cancellation of authority to liquidate:
  - (1) District Counsel.
  - (2) Branch Counsel.

3. To take all necessary action in liquidating Economic Development Administration (EDA) loans having litigative aspects, when and as authorized by EDA:

- (1) Regional Director.
- (2) Regional Counsel.
- (3) Regional Attorneys.
- (4) District Director.
- (5) District Counsel.
- (6) District Attorneys.
- (7) Branch Counsel.

**Sec. B. Loan closing authority.**

1. To close and disburse approved SBA loans and rehabilitation loans for Department of Housing and Urban Development:

- (1) Regional Director.
- (2) Regional Counsel.
- (3) Regional Attorneys.
- (4) District Director.
- (5) District Counsel.
- (6) District Attorneys.
- (7) Branch Counsel.

3. To close approved EDA loans, as authorized:

- (1) Regional Director.
- (2) Regional Counsel.
- (3) Regional Attorneys.
- (4) District Director.
- (5) District Counsel.
- (6) District Attorneys.
- (7) Branch Counsel.

4. To approve, when requested, in advance of disbursements, conformed copies of notes and other closing documents; and certify to the participating bank that such documents are in compliance with the participating authorization:

- (1) Regional Director.
- (2) Regional Counsel.
- (3) Regional Attorneys.
- (4) District Director.
- (5) District Counsel.
- (6) District Attorneys.
- (7) Branch Counsel.

Effective date: September 28, 1972.

ROBERT G. SHERWOOD,  
Regional Director, Region VIII.

**U.S. ARMS CONTROL AND**  
**DISARMAMENT AGENCY**  
**ENVIRONMENTAL IMPACT**  
**STATEMENTS**

**Issuance of Agency Procedures for Compliance With Federal Environmental Statutes**

Notice is hereby given of the publication of proposed procedures of the U.S. Arms Control and Disarmament Agency (ACDA) for compliance with Federal environmental statutes, in accordance with the requirements of section 102(2) (C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2) (C)), and section 309 of the Clean Air Act (42 U.S.C. 1857).

These procedures, when established, will be published in the FEDERAL REGISTER and in the ACDA Manual. The proposed procedures are as follows:

1. *General.* Attention is called to section 102(2) (C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2) (C)); section 309 of the Clean Air Act (42 U.S.C. 1857); Executive Order 11514 of March 5, 1970; and the Guidelines for Federal Agencies under the National Environmental Policy Act (NEPA) issued by the CEQ April 23, 1971 (36 FR 7724), incorporated herein by reference. Except as modified by the present policy guides, the CEQ guidelines will be followed by the responsible Agency officials in complying with policies and provisions of the NEPA and section 309 of the Clean Air Act. The requirements of these procedures are in addition to, and not a substitute for,

any environmental analyses or consultations required by any international obligations of the United States.

2. *Determining the Need for Environmental Impact Statements.* (a) Whether or not an environmental impact statement is required under section 102(2)(C) of the NEPA and filed for any Agency action, the policies and provisions of NEPA require that the environmental effects of proposed actions, and reasonable alternatives thereto (including those not within the authority of the Agency), be considered. The process of deciding on the need for an environmental impact statement on any Agency action will itself require an analysis of the effects that the proposed action will have on the human environment. The inquiry into environmental effects is mandated, independent of the requirements to file environmental impact statements, by section 102(2)(B) of the NEPA, which requires procedures to insure that presently unquantified environmental amenities and values may be given appropriate consideration in decisionmaking along with economic, technical, and other considerations. CEQ Guideline No. 1 underscores this by recognizing that the purpose of section 102(2)(C) is to build into the agency decisionmaking process an appropriate and careful consideration of the environmental aspects of proposed actions, and to assist agencies in implementing not only the letter, but the spirit, of the NEPA. While the procedural requirements of section 102(2)(C) must be carefully complied with, it must also be emphasized that the essence of the NEPA is the need for real consideration of environmental effects.

(b) Section 102(2)(C) of the NEPA requires an environmental impact statement on "every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment." Therefore, an activity which is both a major Federal action and which has a potentially significant effect on the environment requires an impact statement. For a general elaboration of the terms, see the CEQ guidelines, especially CEQ Guidelines 5(a) and 5(b).

3. *Responsibility within the Agency.* The Bureau of Science and Technology (ST) has primary responsibility for the Agency's compliance with the requirements of NEPA and for determining whether any proposed action requires an environmental impact statement.

Each Agency bureau and office having operational responsibility over a proposed major action which may significantly affect the environment shall inform ST of the proposed action, its potential environmental impact and reasonable alternatives thereto. In order to determine whether the proposed action will be a "major Federal action significantly affecting the quality of the human environment," ST together with the bureau or office having operational responsibility will investigate the direct and indirect environmental effects of the proposed action and shall consult

with the Office of the General Counsel (GC). Where appropriate to supplement work in evaluating the environmental impact of the proposed action, they will solicit information from other parts of the Agency, from other Government agencies with jurisdiction by law or special expertise with respect to any environmental impact involved, or from private organizations.

In each instance where it is determined, after this investigation, that no environmental impact statement will be prepared by the Agency, a memorandum will be prepared for Agency files indicating the extent of the investigation conducted and the reasons for the determination that no impact statement will be prepared. A list of such actions will be available to Government agencies or members of the public on request to ST. In assessing the need for impact statements regarding any particular action, the following guidelines will be considered:

(a) Certain Agency activities would not be considered major Federal actions for purposes of the NEPA, for example, the following:

(1) Participation in research or study projects;

(2) Mandatory actions required under any treaty or international agreement to which the United States is a party, or required by the decisions of international organizations, authorities, conferences, or consultations in which the United States is a member or participant.

(b) Indirect effects of Agency activities can lead to a need to file an environmental impact statement. In some such instances, the Agency might be the lead agency responsible for the preparation of such a statement. However, in other cases, another agency might be the lead agency.

(c) The Agency is solely responsible for determining whether an environmental impact statement is required and for preparing an environmental impact statement only with respect to the Federal actions as to which it is the "lead agency," as defined in CEQ Guideline 5(b). Projects such as the destruction of weapons in accordance with the provisions of an international arms control agreement would be the subject of environmental impact statements, if otherwise required, prepared by the Department of Defense, the Department of State, or other lead agency. In some cases, joint preparation of the statement by two or more agencies may be appropriate.

Where it is determined that an environmental impact statement will be prepared by the Agency, ST together with the bureau having operational responsibility will prepare the statement. In doing so, they may, where appropriate, solicit information and comments from private organizations and government agencies with special expertise or interest, and, under the direction of the Secretary of State, engage in consultations, as appropriate, with foreign governments whose environments will be substantially affected by the proposed action. Advice

on legal requirements for filing environmental impact statements and on legal requirements regarding their contents will be obtained from the Office of the General Counsel (GC).

4. *Responsibility for Investigation into Environmental Effects of All Proposed Actions.* Even where it appears clear from the start that a proposed action will not require an environmental impact statement, the consideration of possible environmental effects will still be made and, as required by the NEPA, the results of that investigation will be an integral part of the decisionmaking process. Furthermore, where no impact statement will be prepared, ST and the bureau having operational responsibility will nonetheless submit for review and concurrence to the Environmental Protection Agency (EPA) all proposals for legislation, regulations, and construction projects which are related to the statutory responsibilities of the Administrator of the EPA, as indicated in CEQ Guideline No. 8.

5. *General Procedure.* Unless excluded under section 3, actions of the Agency which are covered by the NEPA will require an environmental impact statement.

(a) CEQ Guideline 10(b) requires "that draft environmental statements be prepared and circulated for comment and furnished to the Council early enough in the agency review process before an action is taken in order to permit meaningful consideration of the environmental issue involved."

The draft statements will be distributed by ST and the bureau or office having operational responsibility for comment to Government agencies with jurisdiction by law or special expertise with respect to any environmental impact involved, as determined by CEQ in Appendix II of the CEQ guidelines, and, in accordance with section 6(d) below, made available to the public. Upon circulation of draft statements to the EPA, comments shall be requested under both the NEPA and section 309 of the Clean Air Act. Notice of the draft statement's availability will be published in the FEDERAL REGISTER as a public notice. ST and GC shall arrange for the publication.

Any comments received will be considered in final policy decisions and in the preparation of a final environmental impact statement. All such comments should be attached to the final statement, and those responsible comments not adequately discussed in the draft statement should be appropriately dealt with in the final statement. In any case where comments are not received in sufficient time to allow consideration in final policy decisions, they should be considered in future decisionmaking in similar areas of policy.

(b) In the case of international agreements, draft statements will be prepared in accordance with Department of State procedures (37 FR 19167, September 9, 1972).

6. *Exceptions.* The nature of negotiations and relations at the international

level may make it necessary to depart in some instances from the procedures in the CEQ guidelines. CEQ foresaw the need for such departures in CEQ Guidelines 4 and 10. Exceptions applicable to the Agency are set forth below:

(a) The statements and other written matter written to comply with the NEPA should not normally include any classified or administratively controlled material. However, there may be situations where such statements and memoranda cannot adequately discuss environmental effects without including material classified or administratively controlled under the provisions of 22 CFR Part 605 and the ACDA Security and Classification Handbook. In any event, however, those portions of any statement which are not classified or administratively controlled shall be made available to the public unless the material thus disclosed would be distorted or incomprehensible.

(b) Every attempt will be made to comply with the 30-day and 90-day periods which CEQ Guideline 10(b) requires between submission of statements and final action. Where schedules of international conferences or other factors make this impossible, the Agency will consult with the CEQ concerning appropriate modifications by the Agency of these minimum arrangements for the availability of environmental impact statements.

(c) Normally, agencies consulted in accordance with CEQ Guideline 7 shall be allowed 30 days for reply, and the EPA shall be allowed 45 days. However, the procedure in section 6(b) above will be followed if it becomes necessary to reduce these periods. When this is the case, all agencies to whom the draft statement has been sent will be informed by the responsible bureau of the reduced time period. The reduced time period must also be included in the public notice published in the FEDERAL REGISTER.

(d) Section 2(b) of Executive Order 11514 establishes requirements for providing public information on Federal actions and impact statements and envisions use of public hearings whenever appropriate. Public hearings will be employed by the Agency following the circulation of each draft impact statement unless it is determined that the requirements of carrying on international relations, including the constraints of time and the posture of the United States in negotiations do not allow such hearings to be carried out without prejudice to the national interest. The provisions of the Administrative Procedure Act do not apply to hearings involving "foreign affairs functions"; however, in each case where hearings are employed in accordance with this paragraph, a public notice of the hearings shall be published in the FEDERAL REGISTER indicating the time and place of the hearing and the matters to be considered, and the draft environmental impact statement shall be made available to the public at least 15 days prior to the hearing. ST and GC shall determine the nature and the procedures to be employed for such hearings, shall arrange for the hearing and the pub-

lication of the prescribed notice, and shall conduct the hearing. If such hearings cannot be carried out, arrangements should still be made, where practicable, for an expedited opportunity for members of the public to present their views orally.

All interested persons who desire to submit written comments or suggestions for consideration concerning these proposed procedures should submit them in duplicate to the General Counsel, U.S. Arms Control and Disarmament Agency, 2201 C Street NW., Washington, DC 20520, on or before April 9.

PHILIP J. FARLEY,  
Acting Director.

#### CIVIL RIGHTS COMMISSION OHIO STATE ADVISORY COMMITTEE Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the Ohio State Advisory Committee will convene at 5 p.m. on March 9 and at 10 a.m. on March 10, 1973, at the Neil House, 41 South High Street, Columbus, OH 43215. This meeting shall be open to the public and the press.

The purposes of this meeting shall be to (1) finalize plans for an open meeting on Ohio Prison Reform and (2) interview State and local officials and community people.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., March 2, 1973.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

#### INTERSTATE COMMERCE COMMISSION

[Notice 193]

#### ASSIGNMENT OF HEARINGS

MARCH 5, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 51146 Subs 276 and 277, Schneider Transport, Inc., now assigned March 13, 1973, at St. Louis, Mo., is canceled and applications dismissed.

AB-5-Sub 48, Pennel Co. and George P. Baker, Richard C. Bond, Jervis Langdon, Jr., Willard Wirtz, trustees of the property of Penn Central Transportation Co., debtor, abandonment between Walton Junction and Traverse City, Traverse County, Mich., now assigned March 22, 1973, will be held in the Lars Hockstad Auditorium, Central High School, Traverse City, Mich.

MC 115841 Sub 438, Colonial Refrigerated Transportation, Inc., now being assigned hearing April 2, 1973 (2 weeks), at New York, N.Y., in a hearing room to be later designated.

MC-F-11682, U.S. Truck Co., Inc.—Purchase (portion)—Transportation Service, Inc., FD-27290, U.S. Truck Co., Inc., notes, MC-F-11683, Wilson Freight Co.—Purchase (portion)—Transportation Service, Inc., FD-27280, Wilson Freight Co., notes, now assigned March 26, 1973, will be held at the Sheraton-Cadillac Hotel, Washington Boulevard, and Michigan Avenue, Detroit, Mich.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice 226]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by Division 3 of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's general rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before April 9, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74039. By order of February 27, 1973, the Commission, Division 3, acting as an Appellate Division, approved the transfer to Bestway Express, a corporation, Columbia, S.C., of the operating rights in Certificates Nos. MC-120668 (Sub-No. 3) and MC-120668 (Sub-No. 4), issued October 2, 1967, and October 2, 1967, to HC&D Lines, Inc., Hartsville, S.C., authorizing the transportation of general commodities, except petroleum products, commodities in bulk, classes A and B explosives, and household goods as defined by the Commission, between points in Darlington and Florence Counties, S.C., on the one hand, and, on the other, points in South Carolina; sand and gravel, except in bulk, from points in Marlboro County, S.C., to points in South Carolina; brick, from Society Hill, S.C., to points in North Carolina within 150 miles of Society Hill; sand and gravel, from Blenheim, S.C., to points in North

Carolina within 100 miles of Blenheim; livestock, agricultural commodities, ginned cotton, tobacco, fertilizer, and fertilizer materials, between Hartsville, S.C., and points within 50 miles thereof, on the one hand, and, on the other, points in North Carolina and South Carolina within 150 miles of Hartsville; cotton linters and other specified commodities, between Hartsville, S.C., on the one hand, and, on the other, points in North Carolina within 150 miles of Hartsville, and oil mill rolls and fittings, between Hartsville, S.C., and Augusta, Ga. John H. Caldwell, 914 Washington Building, 15th Street and New York Avenue NW., Washington, DC 20005, attorney for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice 18]

# **MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS**

MARCH 2, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application) are governed by Special Rule 1100.247 of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no repre-

<sup>1</sup> Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

sentative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 1328 (Sub-No. 11), filed January 22, 1973. Applicant: MGS TRANSPORTATION, INC., Post Office Box 270, Alexandria, IN 46001. Applicant's representative: Donald W. Smith, 900 Circle Tower, Indianapolis, IN 46204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Corrugated containers*, from Montpelier, Ind., to points in Ohio, Michigan, and Illinois, and (2) *roll paper stock*, from Monroe, Mich., and Steubenville, Ohio, to Montpelier, Ind., under a continuing contract with Indiana Box Corp. of Montpelier, Ind. Note: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 2986 (Sub-No. 37), filed January 15, 1973. Applicant: I & S-MC-DANIEL, INC., 1102 Prairie Street, Vincennes, IN 47591. Applicant's representative: Ferdinand Born, 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment) between Indianapolis, Ind., and Cincinnati, Ohio, over Interstate Highway 74, serving as an alternate route for operating convenience only, in connection with applicant's regular-route authority (serving no intermediate points). Note: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 8535 (Sub-No. 45), filed January 19, 1973. Applicant: GEORGE TRANSFER AND RIGGING COMPANY,

INCORPORATED, Interstate 83 at Route 439, Parkton, Md. 21120. Applicant's representative: John Guandolo, 1000 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board and particleboard*, from Chesapeake, Va., to points in Connecticut, Delaware, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia. Note: Applicant states that the requested authority could be tacked at Chesapeake, Va., with its lead certificate MC 8535 to provide service on building, contractors', and plant construction materials from points in Virginia. In addition, applicant's MC 8535 may in turn be tacked with its Sub 38 at Kenbridge or Victoria, Va., to provide service on general commodities (with usual exceptions) from North Carolina. Thus, by tacking MC 8535 and its Sub 38 to the authority sought, service could be provided on specified commodities from North Carolina and Virginia to the destination States sought herein. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 9325 (Sub-No. 64), filed January 16, 1973. Applicant: K LINES, INC., Post Office Box 1348, Lake Oswego, OR 97034. Applicant's representative: Eugene A. Feise (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime*, in bulk, from Portland, Ore., to points in Idaho. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Ore., or Seattle, Wash.

No. MC 14702 (Sub-No. 49), filed January 29, 1973. Applicant: OHIO FAST FREIGHT, INC., 3893 Market Street NE., Warren, OH 44484. Applicant's representative: Paul F. Beery, 88 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum and aluminum articles*, between Rochester, N.Y., on the one hand, and, on the other, points in Indiana, those in Michigan on and south of Michigan Highway 46, and the Chicago Ill., commercial zone. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 19157 (Sub-No. 17), filed February 2, 1973. Applicant: MCCORMACK'S HIGHWAY TRANSPORTATION, INC., Rural Delivery No. 3, Box 4, Campbell Road, Schenectady, NY 12306. Applicant's representative: Anthony C. Vance, 1111 E Street NW., Suite 501, Washington, DC 20004. Authority sought to operate as a *common*

*carrier*, by motor vehicle, over irregular routes, transporting: *Radioactive material, new and spent, radioactive source, special nuclear and by-product materials, radioactive material shipping containers, nuclear reactor component parts, and related equipment*, between points in Rowan County, Ky., and Barnwell County, S.C., on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Tennessee, Virginia, Vermont, West Virginia, Ohio, Pennsylvania, Rhode Island, South Carolina, Wisconsin, and the District of Columbia. Note: Applicant states that the requested authority can be tacked with its existing authority with its subs 11, 13, and 15 but has no present intention to tack. If a hearing is deemed necessary, applicant requests it be held at Schenectady, N.Y., or New York, N.Y.

No. MC 30844 (Sub-No. 452), filed January 22, 1973. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Post Office Box 5000, Waterloo, IA 50702. Applicant's representative: Truman A. Stockton, The 1650 Grant Street Building, Denver, Colo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen and dehydrated foods*, from Boise, Burley, Fruitland, Nampa, and Weiser, Idaho, and Ontario, Ore., (1) to Greenville, Mich., and (2) to points in Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, Texas, and Wisconsin. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho, or Washington, D.C.

No. MC 34156 (Sub-No. 5), filed January 15, 1973. Applicant: NIEDERT MOTOR SERVICE, INC., 2300 South Mount Prospect Road, Des Plaines, IL 60018. Applicant's representative: Daniel C. Sullivan, Suite 1000, 327 South La Salle Street, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Chicago, Ill., and Lake McHenry, Boone, Cook, Du Page, Kane, De Kalb, Will, Kendall, and La Salle Counties, Ill.; (2) between points named in (1) above, on the one hand, and, on the other, points in Illinois; and (3) between Lake and Porter County, Ind., on the one hand, and, on the other, points in Illinois. Note: By the requests for authority in parts (1) and (2) above, applicant seeks to convert its Certificate of Regis-

tration to a Certificate of Public Convenience and Necessity. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 41951 (Sub-No. 15) (Amendment), filed May 22, 1972. Published in the FEDERAL REGISTER issue of August 31, 1972, and as corrected on October 27, 1972, and republished, as amended, this issue. Applicant: WHEATLEY TRUCKING, INCORPORATED, 125 Brohawn Avenue, Post Office Box 458, Cambridge, MD 21613. Applicant's representative: M. Bruce Morgan, Post Office Box 786, Azar Building, Glen Burnie, MD 21061. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except frozen or cold pack), from Cambridge, Md., to Plymouth, Ind. Note: The purpose of this amendment is to change the destination point from South Bend, Ind., to Plymouth, Ind. Applicant states that the existing authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Baltimore, Md., or Philadelphia, Pa.

No. MC 51146 (Sub-No. 308), filed January 24, 1973. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, WI 54304. Applicant's representative: Charles Singer, Suite 1000, 327 South La Salle, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such merchandise* as is dealt in by department stores (except foodstuffs, furniture and commodities in bulk) and (2) *foodstuffs and furniture* (except in bulk), moving in mixed loads with the commodities described in (1) above, from points in New York, Pennsylvania, West Virginia, Massachusetts, Rhode Island, Connecticut, Delaware, New Jersey, and Maryland, to the facilities maintained or utilized by The J. L. Hudson Co. located at Grand Rapids, Ann Arbor, Flint, Pontiac, and Detroit, Mich., and Toledo, Ohio, restricted to traffic originating at the origins sought and destined to the above-named facilities. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 52110 (Sub-No. 134), filed January 22, 1973. Applicant: BRADY MOTORFRATE, INC., 2150 Grand Avenue, Des Moines, IA 50312. Applicant's representative: Cecil L. Goettsch, 11th Floor Des Moines Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products, and articles distributed by meat packinghouses*, as described in Appendix 1 to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk), from Denison and Iowa Falls, Iowa to points in Connecticut, Delaware, Illinois, Indiana, Kansas, Kentucky, Maine,

Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, restricted to traffic originating at the facilities of Farmland Industries, Inc. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Washington, D.C.

No. MC 59059 (Sub-No. 6), filed January 26, 1973. Applicant: ARROW FREIGHT LINES, INC., Box 1665, East Highway 30, Grand Island, NE 68801. Applicant's representative: Gailyn L. Larson, Post Office Box 80806, 521 South 14th Street, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those requiring special equipment), serving the warehouse site of Western Electric, at or near Underwood, Iowa, as an off-route point in connection with applicant's regular route operations via Omaha, Nebr. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 61592 (Sub No. 297), filed January 29, 1973. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, IN 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors and attachments and agricultural implements*, between the warehouse site of Deutz Tractor Corp., located at or near O'Fallon, Mo., on the one hand, and, on the other, points in Minnesota and Wisconsin. Restriction: Shipments from points in Wisconsin and Minnesota to O'Fallon, Mo., restricted to traffic on behalf of the Deutz Tractor Corp. and from shipping facilities used by the Deutz Tractor Corp. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 61592 (Sub-No. 298), filed January 30, 1973. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, IN 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board and plywood*, unfinished or prefinished, natural veneers or synthetic, including, but not limited to plastics, vinyls, and polyesters, from Shawano, Wis., to points in the United States including Alaska (but excluding Hawaii). Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing

authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 61592 (Sub-No. 299), filed February 1, 1973. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, IN 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture and fixtures*, between points in Utah, on the one hand, and, on the other, points in Oregon, Idaho, Washington, and California. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah.

No. MC 61592 (Sub-No. 300), filed February 1, 1973. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Jackson County, W. Va., to points in the United States east of the Mississippi River (excluding Minnesota and Louisiana). Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 67200 (Sub-No. 39), filed January 29, 1973. Applicant: THE FURNITURE TRANSPORT COMPANY, INC., Post Office Box 392, Furniture Row, Milford, CT 06460. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, NY 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, crated and uncrated, (1) between points in Florida, Georgia, Mississippi, Tennessee, South Carolina, Alabama, and Louisiana; and (2) between points in Georgia, Mississippi, Tennessee, South Carolina, and Louisiana, on the one hand, and, on the other, points in New York, New Jersey, Pennsylvania, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, and Vermont. Note: Applicant states that it seeks no duplicating authority and that the requested authority herein cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests that it be held both at Miami, Fla., and Boston, Mass.

No. MC 67200 (Sub-No. 40), filed January 29, 1973. Applicant: THE FURNITURE TRANSPORT COMPANY, INC., Post Office Box 392, Furniture Row, Milford, CT 06460. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, NY 11368. Authority

sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, (1) between points in Texas, Arkansas, Louisiana, Mississippi, Oklahoma, Alabama, Georgia, Florida, and Tennessee; and (2) between points in Texas, Arkansas, Louisiana, Mississippi, Oklahoma, and Tennessee, on the one hand, and, on the other, points in New York, New Jersey, Pennsylvania, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire and Vermont. Note: Applicant states that it seeks no duplicating authority and that the requested authority herein cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at both Dallas, Tex., and Boston, Mass.

No. MC 70083 (Sub-No. 27), filed January 9, 1973. Applicant: DRAKE MOTOR LINES, INC., 20 Olney Avenue, Cherry Hill, NJ 08034. Applicant's representative: Herbert Burstein, One World Trade Center, New York, NY 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except explosives and inflammable commodities), moving on a through air bill of lading of direct air carriers or air freight forwarders, between New York, N.Y., and points in Nassau, Suffolk, Westchester, and Rockland Counties, N.Y.; Newark, N.J., and points in Hunterdon, Mercer, Middlesex, Burlington, Camden, Gloucester, Salem, Monmouth, Somerset, Morris, Passaic, Bergen, Essex, and Union Counties, N.J.; Philadelphia, Pa., and points in Bucks, Montgomery, Chester, and Delaware Counties, Pa.; Wilmington, Del., and points in New Castle County, Del.; points in Fairfield County, Conn.; Boston, Mass., and points in Middlesex, Plymouth, Essex, Bristol, Suffolk, and Norfolk Counties, Mass.; and Providence, R.I., and points in Providence County, R.I.; Baltimore, Md., and points in Anne Arundel, Baltimore, Carroll, Frederick, Harford, and Howard Counties, Md.; Washington, D.C., and points in Charles, Montgomery, and Prince Georges Counties, Md., and Fairfax, Prince William, and Loudoun Counties, Va.; on the one hand, and, on the other, Detroit, Mich., and points in Macomb, Monroe, Oakland, Washtenaw, Wayne, and Livingston Counties, Mich. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Philadelphia, Pa.

No. MC 71459 (Sub-No. 36), filed January 17, 1973. Applicant: O. N. C. FREIGHT SYSTEMS, a Corporation, 2800 West Bayshore Road, Palo Alto, CA 94303. Applicant's representative: C. J. Boddington (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual

value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), (1) between Page, Ariz., and Fredonia, Ariz., from Page over U.S. Highway 89 to junction Alternate U.S. Highway 89, thence over Alternate U.S. Highway 89 to Fredonia, Ariz., and return over the same route, (2) between San Bernardino, Calif., and Ashfork, Ariz., from San Bernardino, Calif., over Interstate Highway 15 to junction Interstate Highway 40, at or near Barstow, Calif., thence over Interstate Highway 40 (U.S. Highway 66) to Ashfork, Ariz., and return over the same route, (3) between Lordsburg, N. Mex., and Deming, N. Mex., from Lordsburg, over Interstate Highway 10 (U.S. Highway 70), to Deming, and return over the same route, and the requests for authority in (1), (2), and (3) above are for alternate routes in connection with applicant's regular route authority, for operating convenience only, serving no intermediate points. Notes: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz., or Los Angeles, Calif.

No. MC 74238 (Sub-No. 3) filed January 15, 1973. Applicant: KRIEGSMAN TRANSFER COMPANY, a Corporation, 278 Koch Street, Pekin, IL 61554. Applicant's representative: Robert M. Kaske, 2017 Wisteria Road, Rockford, IL 61107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between Peoria, Ill. and points in its commercial zone and Minnesota, on the one hand, and on the other points in Ohio, Nebraska, Colorado, Kansas, Arkansas, Mississippi, Tennessee, and Pennsylvania. Note: Applicant states that the requested authority can be tacked with its existing authority at Peoria, Ill., points in Illinois, Wisconsin, Michigan, Indiana, Kentucky, Missouri, and Iowa. If a hearing is deemed necessary, applicant requests it be held at either Springfield or Chicago, Ill. or Washington, D.C.

No. MC 82492 (Sub-No. 75), filed January 26, 1973. Applicant: MICHIGAN & NEBRASKA TRANSIT CO., INC., Post Office Box 2853, 2109 Olmstead Road, Kalamazoo, MI 49003. Applicant's representative: Jack H. Blanshan, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products* (except commodities in bulk), from points in Minnesota and Wisconsin, to Toledo and Maumee, Ohio and points in Michigan. Note: Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. or Washington, D.C.

No. MC 82079 (Sub-No. 31), filed January 22, 1973. Applicant: KELLER TRANSFER LINE, INC., 1239 Randolph

Avenue SW., Grand Rapids, MI 49507. Applicant's representative: J. M. Neath, Jr., 900—One Vandenberg Center, Grand Rapids, Mich. 49502. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, frozen prepared foods, frozen food products and frozen bakery goods*, from Cleveland, Ohio, to points in the Lower Peninsula of Michigan, restricted to traffic originating at Cleveland, Ohio, and terminating in the destination area. Note: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich., or Cleveland, Ohio.

No. MC 83835 (Sub-No. 100), filed January 29, 1973. Applicant: WALES TRANSPORTATION, INC., Post Office Box 6186, Dallas, TX 75222. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Building, Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Concrete reinforcement products, accessories and parts*, from the plant-site of Superior Concrete Accessories, Inc., located at Parson, Kans., to points in Colorado, Illinois, Indiana, Michigan, Minnesota, North Dakota, South Dakota, Wisconsin, New York, Pennsylvania, Georgia, Ohio, and North Carolina. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at (1) Dallas, Tex., or (2) Kansas City, Mo.

No. MC 100785 (Sub-No. 2), filed January 8, 1973. Applicant: LAWRENCE E. BULT, doing business as L. BULT CARTAGE, 123 North Williams Street, Thornton, IL 60476. Applicant's representative: Irving Stillerman, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime, limestone and limestone products*, in bag, or in bulk in dump or hopper-type vehicles, from Chicago, Ill., and points within the Chicago, Ill., commercial zone to points in Indiana, Michigan, Ohio, Pennsylvania, and Wisconsin. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 103051 (Sub-No. 268), filed January 19, 1973. Applicant: FLEET TRANSPORT COMPANY, INC., 934 44th Avenue North, Nashville, TN 37209. Applicant's representative: Russell E. Stone (same address as applicant). Authority sought to operate as a *common carrier*,

by motor vehicle, over irregular routes, transporting: (a) *Nitrogen fertilizer solutions or other liquid fertilizer solutions*, in tank vehicles, from Tyner, Tenn., to points in Georgia, North Carolina, South Carolina, Virginia, and Tennessee, and (b) *fertilizer*, dry in bags or in bulk, from Tyner, Tenn., to points in Alabama, Georgia, Kentucky, North Carolina, South Carolina, Virginia, and Tennessee. Note: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., or Atlanta, Ga.

No. MC 103993 (Sub-No. 754), filed January 19, 1973. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghe-san, 2800 West Lexington Avenue, Elkhart, IN 46514. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passenger automobiles, in initial movements, and (2) *buildings and sections of buildings* on undercarriages, from points in Weld County, Colo. (except Greeley, Colo.), to points in the United States (except Alaska and Hawaii). Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 103993 (Sub-No. 755), filed January 19, 1973. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghe-san, 2800 West Lexington Avenue, Elkhart, IN 46514. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passenger automobiles, in initial movements, and (2) *buildings and sections of buildings*, on undercarriages, from points in Washington County, N.Y., to points in the United States (except Alaska and Hawaii). Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 103993 (Sub-No. 756), filed January 29, 1973. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghe-san (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings and sections of building*, on undercarriages, from points in Columbia County, N.Y., to

points in the United States (except Alaska and Hawaii). Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Albany, N.Y.

No. MC 108207 (Sub-No. 366), filed January 22, 1973. Applicant: FROZEN FOOD EXPRESS, a corporation, 318 Cadiz Street, Post Office Box 5888, Dallas, TX 75222. Applicant's representative: J. B. Ham (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plant-site and warehouse facilities utilized by Jeno's, Inc., at Duluth, Minn., to points in Nebraska, Kansas, Missouri, Oklahoma, Louisiana, Mississippi, Arkansas, Texas, New Mexico, Arizona, and California. Note: Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Chicago, Ill.

No. MC 107012 (Sub-No. 172), filed February 1, 1973. Applicant: NORTH AMERICAN VAN LINES, INC., Post Office Box 988, Lincoln Highway East and Meyer Road, Fort Wayne, IN 46801. Applicant's representative: Donald C. Lewis (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture and commercial and institutional fixtures*, from Sanford, N.C., to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, West Virginia, Ohio, Michigan, Indiana, Illinois, Wisconsin, Kentucky, Virginia, North Carolina, Tennessee, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Florida, and the District of Columbia. Note: Dual operations and common control may be involved. Applicant states that the requested authority can be tacked with its existing authority and provide a through transportation service for new furniture and commercial and institutional fixtures from Sanford, N.C., to points in the United States via Tennessee. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 108393 (Sub-No. 68), filed January 12, 1973. Applicant: SIGNAL DELIVERY SERVICE, INC., 930 North York Road, Hinsdale, IL 60521. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Parts of electrical and gas appliances, and equipment, materials, and supplies* used in the manufacture, distribution and repair of electrical and gas appliances, between Fort Smith, Jacksonville, and Jonesboro, Ark.; Cleveland, Ohio; and St. Paul, Minn., on the one hand, and, on the other, La Porte, Ind., and (2) *gas and electrical appliances, parts of electrical and gas appliances, and equipment, materials, and supplies* used in the

manufacture, distribution and repair of electrical and gas appliances, between Evansville, Ind., and Chicago, Ill., on the one hand, and, on the other, St. Paul, Minn., under contract with Whirlpool Corp. **NOTE:** Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 110420 (Sub-No. 674), filed January 19, 1973. Applicant: QUALITY CARRIERS, INC., Post Office Box 186, Pleasant Prairie, WI 53158. Applicant's representative: Fred H. Figge (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt syrup*, in bulk, in tank vehicles, from Peoria, Ill., to points in Arkansas, Georgia, Illinois, Indiana, Kentucky, Michigan, Missouri, New Jersey, New York, Ohio, Pennsylvania, and Wisconsin; and (2) *chemicals*, in bulk, in tank vehicles, from Peoria, Ill., to points in Georgia, Louisiana, New York, Oklahoma, North Carolina, and South Carolina. **NOTE:** Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 110525 (Sub-No. 1047) (Amendment), filed November 29, 1972, published in the *FEDERAL REGISTER* issue of March 1, 1973, and republished in this issue. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, PA 19335. Applicant's representative: Leonard A. Jaskiewicz, 1730 M Street NW., Suite 501, Washington, DC 20036. **NOTE:** The purpose of this republication is to indicate that the applicant seeks to restrictively amend its previously published request for authority by restricting the requested operations therein "to traffic originating at the plant site and/or warehouse facilities of Cargill, Inc., at Dayton, Ohio." The rest of the application remains as previously published.

No. MC 110563 (Sub-No. 101), filed January 26, 1973. Applicant: COLDWAY FOOD EXPRESS, INC., Ohio Building, Sidney, Ohio 45365. Applicant's representative: Joseph M. Scanlan, 111 West Washington, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts and articles distributed by meat packinghouses* (except hides and commodities in bulk) as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766, from Hastings, Nebr., to points in New York, Connecticut, Delaware, New Jersey, Pennsylvania, Maryland, Massachusetts, Rhode Island, Virginia, Michigan, and the District of Columbia. **NOTE:** Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it

## NOTICES

be held at Philadelphia, Pa., or Washington, D.C.

No. MC 111720 (Sub-No. 10), filed January 17, 1973. Applicant: RAY WILLIAMS AND ARLENE WILLIAMS, a Partnership, doing business as WILLIAMS TRUCK SERVICE, 2800 East 11th Street, Post Office Box 40, Sioux Falls, SD 57101. No. MC 112304 (Sub-No. 62), filed January 26, 1973. Applicant: ACE DORAN HAULING & RIGGING CO., a corporation, 1601 Blue Rock Street, Cincinnati, OH 45223. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum and aluminum products, supplies, and equipment* used in the manufacturing thereof, between Adrian, Mich., on the one hand, and on the other, points in the United States in and east of Wisconsin, Iowa, Nebraska, Colorado, Oklahoma, and Texas. **NOTE:** Applicant states that tacking possibilities exist between the requested authority and its existing authority under MC 112304 (Sub-No. 1), but indicates that it has no present intention of tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif., or Washington, D.C.

No. MC 112822 (Sub-No. 258), filed January 12, 1973. Applicant: BRAY LINES INCORPORATED, Post Office Box 1191, 1401 North Little, Cushing, OK 74023. Applicant's representative: K. Charles Elliot (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Expanded polystyrene forms and shapes*, in packages, (1) from the plant site of Mobil Chemical Co., Frankfort, Ill., to points in Arkansas, Colorado, Georgia, Kansas, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, Tennessee, and Texas; and (2) from the plant site of Mobil Chemical Co., Covington, Ga., to points in Arkansas, Colorado, Illinois, Kansas, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, Tennessee, and Texas. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas or Houston, Tex.

No. MC 113658 (Sub-No. 6), filed January 29, 1973. Applicant: SCOTT TRUCK LINE, INC., 5871 North Broadway, Post Office Box 16346 T.A., Denver, CO 80216. Applicant's representative: Charles J. Kimball, State Bank Building, 1600 Broadway, Denver, CO 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products and meat byproducts* as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766, from Denver, Colo., to Elmsford, Rochester, Mount Kisco, Maspeth, and New York, N.Y., East Hartford, Hartford, and Stamford, Conn., Philadelphia and Allentown, Pa., Baltimore, Md., and the District of Columbia. **NOTE:** Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 113658 (Sub-No. 7), filed January 30, 1973. Applicant: SCOTT TRUCK LINE, INC., 5871 North Broadway (Post Office Box 16346-T.A., Denver, CO 80216. Applicant's representative: Marion F. Jones, Suite 1600, Lincoln Center, 1660 Lincoln Street, Denver, CO 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods as defined by the Commission, emigrant moveables, those of unusual value, classes A and B explosives, commodities requiring special equipment, and those injurious or contaminating to other lading), between the junction of Colorado Highway 113 and Interstate Highway 80S near Sterling, Colo., and the junction of U.S. Highway 26 and Interstate Highway 80 near Ogallala, Nebr., over Interstate Highway 80S and Interstate Highway 80, for joinder purpose only. **NOTE:** Common

control may be involved. Applicant states that the purpose of the instant application is to eliminate a gateway. Applicant further states that granting the authority sought in this application might affect the environment favorably due to elimination of 69 miles of highway travel per trip. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 114019 (Sub-No. 244), filed January 12, 1973. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, IL 60629. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food and food products*, (1) from points in Connecticut, Rhode Island, Massachusetts, and New Hampshire, to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Colorado, Ohio, Wisconsin, and that part of Pennsylvania on and west of U.S. Highway 15; (2) (a) from points in Connecticut, Rhode Island, and Massachusetts to points in Delaware, Maryland, Virginia, West Virginia, and the District of Columbia, points in that part of Pennsylvania east of U.S. Highway 15; Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Ocean, and Salem Counties, N.J.; and Albany, N.Y. (except points in the commercial zone of Albany, N.Y.); points in Allegany, Broome, Cattaraugus, Cayuga, Chautauqua, Chemung, Chenango, Clinton, Cortland, Delaware, Erie, Essex, Franklin, Fulton, Genesee, Greene, Hamilton, Herkimer, Jefferson, Lewis, Livingston, Madison, Monroe, Montgomery, Niagara, Oneida, Onondaga, Ontario, Orleans, Oswego, Otsego, Saint Lawrence, Saratoga, Schenectady (except points in the commercial zone of Albany, N.Y.), Schoharie, Schuyler, Seneca, Steuben, Sullivan, Tioga, Tompkins, Ulster, Warren, Washington, Wayne, Wyoming, and Yates Counties, N.Y.; and (b) from points in New Hampshire, to points in Delaware, Maryland, Virginia, West Virginia, and the District of Columbia, New York, New Jersey, and points in Pennsylvania east of U.S. Highway 15. **NOTE:** Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 114019 (Sub-No. 245), filed January 22, 1973. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, IL 60629. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transport-

## NOTICES

ing: *General commodities*, (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Underwood, Iowa as an off-route point in connection with applicant's regular route operations between Chicago, Ill., and Pueblo, Colo. **NOTE:** Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 114211 (Sub-No. 190), filed December 18, 1972. Applicant: WARREN TRANSPORT, INC., 324 Manhard, Post Office Box 420, Waterloo, IA 50704. Applicant's representative: Kenneth R. Nelson (same address as applicant) and Daniel Sullivan, 327 South La Salle Street, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors* (except those with vehicle beds, bed frames, and fifth wheels); (2) *Equipment* designed for use in conjunction with tractors; (3) *Agricultural, industrial and construction machinery and equipment*; (4) *Attachments*, for the above described commodities; (5) *Internal combustion engines*; (6) *Parts* of the above described commodities when moving in mixed loads with such commodities; and (1) *Materials, equipment and supplies* used in the manufacture and distribution of the commodities described in (1) through (6) above (except commodities in bulk), from the plant, warehouse and storage facilities of the J. I. Case Co. at or near Bettendorf and Burlington, Iowa and Racine, Wis. to points in Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington, restricted to traffic originating at the plant, warehouse and storage facilities of the J. I. Case Co. at or near Bettendorf and Burlington, Iowa, and Racine, Wis. **NOTE:** Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Milwaukee, Wis.

No. MC 114301 (Sub-No. 76), filed January 15, 1973. Applicant: DELWARE EXPRESS CO., a Corporation, Post Office Box 97, Elkton, MD 21921. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, DC 20005. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 115093 (Sub-No. 10) (Clarification), filed January 12, 1973, published in the *FEDERAL REGISTER* issue of March 1, 1973, and republished in this issue. Applicant: MERCURY MOTOR EXPRESS, INC., 704 West Kennedy Boulevard, Tampa, FL 33606. Applicant's represent-

ative: James F. Wharton, 17th Floor, CNA Building, Post Office Box 231, Orlando, FL 32802. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Wilson, N.C., and junction U.S. Highways 70 (also 701) and 301: From Wilson over U.S. Highway 301 to junction U.S. Highway 70, and return over the same route;

(2) Between Fayetteville, N.C., and junction U.S. Highways 301 and 701: From Fayetteville over U.S. Highway 13 to junction U.S. Highway 301, thence, over U.S. Highway 301 to junction U.S. Highway 701 (also 70), and return over the same route; (3) between Greensboro and Rockingham, N.C.: From Greensboro over U.S. Highway 220 to junction U.S. Highway 1 at Rockingham, and return over the same route; (4) between Petersburg, Va. and Raleigh, N.C.: From Petersburg over U.S. Highway 1 to Raleigh, and return over the same route; (5) between Raleigh and Rockingham, N.C.: From Raleigh over U.S. Highway 1 to Rockingham, and return over the same route; (6) between Rockingham, N.C., and Cheraw, S.C.: From Rockingham over U.S. Highway 1 to Cheraw, S.C. (and intersection South Carolina Highway 9), and return over the same route; (7) between Cheraw and Society Hill, S.C.: From Cheraw (and intersection South Carolina Highway 9) over U.S. Highway 52 to Society Hill (and intersection U.S. Highway 15 (also 401)), and return over the same route; (8) between Society Hill and Florence, S.C.: From Society Hill (and intersection U.S. Highway 15 (also 401)) over U.S. Highway 52 to Florence, and return over the same route; (9) between Raleigh and Fayetteville, N.C.: From Raleigh over U.S. Highway 401 to Fayetteville, and return over the same route; (10) between Fayetteville, N.C., and Bradenton, Fla.: Serving Florence, S.C. for purposes of joinder only;

And (11) between Bennettsville, S.C. and Columbus, Ga.: Serving Cheraw, S.C. for purposes of joinder only; and serving in (1) through (9) inclusive above no intermediate or off-route points except, as pertinent, those points in Virginia presently authorized in carriers regular-route operations. Restriction: Restricted to the transportation of traffic moving (a) between points in Connecticut, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, the District of Columbia, and those in that part of New York on and south of New York Highway 7, on the one hand, and, on the other, points in Georgia and Florida, and (b) through Mount Olive, N.C., and points within 15 miles thereof or those in Florence County, S.C. The requests for authority above are for alternative routes or additional service points for purposes of joinder for operating convenience only in connection with applicant's presently authorized regular-route operations in No. MC-115093. **NOTE:** The

purpose of this republication is to more clearly indicate the termini at which applicant will join this request for alternate routes with its presently authorized regular-route operations. The applicant states that this application seeks to obtain the alternate gateway of Florence, S.C. If a hearing is deemed necessary, applicant requests it be held at Tampa or Jacksonville, Fla.

No. MC 116544 (Sub-No. 137) (Correction), filed November 2, 1972, published in the FR issue of January 11, 1973, and republished this issue. Applicant: WILSON BROTHERS TRUCK LINE, INC., 700 East Fairview Avenue, Post Office Box 636, Carthage, MO 64836. Applicant's representative: Floyd F. Knutson (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from New Hampton, Iowa, to points in Florida, Georgia, Alabama, Mississippi, and Louisiana. Note: The purpose of this republication is to indicate the correct origin as New Hampton, Iowa, in lieu of Hampton, Iowa which was inadvertently previously published in error. Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 117119 (Sub-No. 470), filed January 22, 1973. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., Post Office Box 188, Elm Springs, AR 72728. Applicant's representative: Bobby G. Shaw (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foods, cooked, cured, preserved, prepared, or frozen; meats, meat products, and meat by-products* as described in sections A and C of Appendix 1 to the report in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from Oklahoma City, Okla., to points in Colorado, Idaho, Montana, Oregon, Utah, Washington, and Wyoming, restricted to traffic originating at the plantsite and/or warehouse facilities utilized by Geo. A. Hormel & Co., at or near Oklahoma City, Okla., and destined to points in the above-named States. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., or Washington, D.C.

No. MC 117940 (Sub-No. 87), filed January 22, 1973. Applicant: NATIONAL WIDE CARRIERS, INC., Post Office Box 104, Maple Plain, MN 55359. Applicant's

representative: Donald Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsite and warehouse facilities utilized by Jeno's, Inc., at Duluth, Minn., to points in Kansas, Missouri, Oklahoma, Arkansas, Louisiana, Texas, Ohio, Pennsylvania, New York, Massachusetts, New Jersey, Vermont, New Hampshire, Virginia, West Virginia, Maryland, Rhode Island, Connecticut, Delaware, Maine, and the District of Columbia. Note: Applicant also holds contract carrier authority under MC 114789 and subs, therefore dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 117940 (Sub-No. 88), filed January 22, 1973. Applicant: NATIONWIDE CARRIERS, INC., Post Office Box 104, Maple Plain, MN 55359. Applicant's representative: Donald Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Bananas, and agricultural commodities* otherwise exempt from economic regulation under section 203(b)(6) of the Interstate Commerce Act, when transported in mixed loads with bananas, (1) from Galveston, Tex., to points in Arizona, Arkansas, California, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, South Dakota, Oklahoma, Wisconsin, and ports of entry on the international boundary line between the United States and Canada in Minnesota and North Dakota, for furtherance to points in Canada, (2) from Mobile, Ala., to points in Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Ohio, Tennessee, Wisconsin, and ports of entry on the international boundary line between the United States and Canada in Minnesota and North Dakota, for furtherance to points in Canada, (3) from Charleston, S.C., to points in Alabama, Georgia, Indiana, Kentucky, Michigan, North Carolina, Ohio, Tennessee, Virginia, and West Virginia, and (4) from Wilmington, Del., to points in Ohio and West Virginia. Note: Applicant also holds contract carrier authority under MC 114789 and subs thereunder, therefore dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., Miami, Fla., or Washington, D.C.

No. MC 118159 (Sub-No. 130), filed January 29, 1973. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., 1925 National Plaza, Tulsa, Okla. 74151. Applicant's representative: Jack R. Anderson (same address as applicant). Authority sought to operate as a common

carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of Appendix 1 to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except in bulk, hides or skins), from Mankato, Kans., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Kentucky, Louisiana, Massachusetts, Maryland, Mississippi, New Jersey, New York, North Carolina, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, and West Virginia. Note: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Tulsa, Okla.

No. MC 118213 (Sub-No. 1), filed January 29, 1973. Applicant: ANTHONY TAMMARO, INC., U.S. Highway 130, Robbinsville, N.J. 08691. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Bananas, and agricultural commodities* otherwise exempt from economic regulation under section 203(B)(6) of the Act when transported in mixed shipments with bananas, from Newark, N.J., Wilmington, Del., points in the New York, N.Y., commercial zone, and Albany, N.Y., to New York, N.Y., points in Westchester County, N.Y., Essex, Bergen, and Mercer Counties, N.J., and Philadelphia and Northampton Counties, Pa., and returned shipments of the same commodities in the opposite direction. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 119634 (Sub-No. 6), filed January 22, 1973. Applicant: DICK IRVIN, INC., 218 12th Avenue North, Post Office Box F, Shelby, MT 59474. Applicant's representative: Joe Gerbase, 100 Transwestern Building, 404 North 31st Street, Billings, MT 59101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Glacier talc and diatomaceous earth*, in bags and in bulk, in tank vehicles, from Three Forks, Mont., to port of entry on the international boundary line between the United States and Canada at or near Sweetgrass, Mont., and (B) *gilsonite*, in bulk and in bags, from Bonanza, Utah, to port of entry on the international boundary line between the United States and Canada at or near Sweetgrass, Mont. Note: Applicant states that the requested

authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Great Falls or Billings, Mont.

No. MC 119880 (Sub-No. 55), filed January 26, 1973. Applicant: DRUM TRANSPORT, INC., Post Office Box 2056, East Peoria, IL 61611. Applicant's representative: Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Alcoholic liquors*, in bulk, in tank vehicles, from Detroit, Mich., to Scobeyville, N.J. Note: Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 120910 (Sub-No. 4), filed January 10, 1973. Applicant: SERVICE EXPRESS, INC., Post Office Box 1009, Tuscaloosa, AL 35401. Applicant's representative: William B. Jackson, Jr., 919 18th Street NW, Washington, DC 20006. (A) Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe*, from the plantsite and warehouse facilities of Central Foundry Co. located at Holt, Ala., to points in Hancock, Harrison, and Jackson Counties, Miss.; Benton, Washington, Madison, Carroll, Newton, Boone, Marion, Searcy, Stone, Izard, Fulton, Sharp, Lawrence, Randolph, Clay, Greene, Craighead, and Mississippi Counties, Ark.; Newton, McDonald, Barry, Stone, Taney, Christian, Douglas, Ozark, Howell, Oregon, Ripley, Carter, Butler, Stoddard, Mississippi, New Madrid, Dunklin, and Pemiscot Counties, Mo., restricted to the transportation of shipments originating at the plantsite and warehouse facilities of Central Foundry Co. at Holt, Ala.; (2) *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), between Tuscaloosa, Ala., on the one hand, and, on the other points within 75 miles of Tuscaloosa, Ala., that are located within the State of Alabama, restricted to the transportation of shipments originating at or destined to Tuscaloosa, Ala., and points within the commercial zone thereof;

And (3) *Building materials, farm products, fertilizer, gravel, household goods, live stock, and sand*, between points in Alabama within a radius of 100 miles of Greensboro, Ala. including Greensboro, Ala. (B) Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), between Coffeeville and Mobile, Ala.; from Coffeeville, over Alabama Highway 69 via Salitpa, Ala., to Jackson, Ala., thence over Alabama Highway 13 to Mobile, Ala., and return over the same route,

restricted such that no freight is to be handled between Mobile and Jackson, Ala., or intermediate points between Mobile and Jackson, Ala. Note: Applicant's requests for authority in parts (A) (2), (A) (3) and (B) above seek to convert authority it presently holds in certificate of registration No. MC-120910 (Sub-No. 2), issued April 25, 1966, to a certificate of public convenience and necessity. Applicant states that the requested authority cannot or will not be tacked with its existing authority, and that no duplicating authority is sought. If a hearing is deemed necessary, applicant requests it be held at Tuscaloosa, Birmingham, or Montgomery, Ala.

No. MC 121082 (Sub-No. 5) (Amendment), filed October 10, 1972, published in the FEDERAL REGISTER issue of November 16, 1972, and republished this issue. Applicant: ALLIED DELIVERY SYSTEM, INC., 2201 Fenkell Avenue, Detroit, MI 48238. Applicant's representative: William B. Elmer, 23801 Gratiot Avenue, East Detroit, MI 48021. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Patterns*, from the plantsite of Simplicity Pattern Co., Inc., at Niles, Mich., to points in Ohio on and west of Ohio Highway 4 from Sandusky to Springfield, and on and north of U.S. Highway 40 from Springfield to the Indiana State boundary line; points in Indiana on and north of U.S. Highway 50, points in Illinois on and north and east of Interstate 74, and points in Wisconsin on and south of U.S. Highway 18; (B) *packages*, not less than 25 pounds and not more than 70 pounds in weight in an industrial plant and commercial delivery service, from Detroit, Mich., and points within 8 miles thereof to points within 25 miles of Detroit, Mich., with return of rejected, refused, and damaged shipments, subject to the following restrictions: (1) No less than 25 pounds and no more than 200 pounds shall be delivered in any one day from one consignor to any one consignee; (2) no service shall be rendered to or from New Baltimore or New Haven and shipments to and from Mount Clemens from any one consignor to any one consignee on one day shall not exceed 50 pounds; (3) this grant of authority and any other authority granted to date hereof shall not be considered separable for purposes of transfer or sale;

(4) No vehicle operated under this grant of authority shall be used exclusively by any one shipper and all shipments shall be handled on a consolidated basis with a uniform charge applicable thereto; (C) *Restaurant and store fixtures, office equipment, printing machinery and supplies, janitor supplies, and salvage materials*, between Detroit, Mich., and points in Michigan. Note: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking.

Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Parts (B) and (C) of this application are presently held by applicant in certificate of registration No. MC-121082 (Sub-Nos. 1 and 2), and by the request herein applicant seeks to convert this authority to a certificate of public convenience and necessity. The purpose of this republication is to indicate that the authority requested in part (A) above is not a conversion proceeding and to indicate the requests for authority in parts (B) and (C) above. If a hearing is deemed necessary, applicant requests it be held at Lansing or Detroit, Mich.

No. MC 123176 (Sub-No. 10), filed January 26, 1973. Applicant: ROLLAND GUENTHER, doing business as R. GUENTHER TRUCKING, 3905 Kraus Lane, Ross, OH 45061. Applicant's representative: Jack B. Josselson, 700 Atlas Bank Building, Cincinnati, Ohio 45202. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Used empty whiskey barrels*, from Pekin, Ill., to Overpeck, Ohio. Note: Applicant holds a motor contract carrier permit in MC-78725, therefore dual operations may be involved. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Cincinnati or Columbus, Ohio.

No. MC 123556 (Sub-No. 4), filed January 8, 1973. Applicant: RAHIER TRUCKING, INC., 1822 South First Street, Yakima, WA 98901. Applicant's representative: Warren L. Dewar, Jr., 303 East D Street, Yakima, WA 98901. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Roofing and roofing materials*, from points in Multnomah County, Oreg., to points in Okanogan, Chelan, Kittitas, Klickitat, Yakima, Douglas, Grant, Benton, Adams, Franklin, Walla Walla, Whitman, Columbia, Garfield, and Asotin Counties, Wash. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Yakima, Kennewick, Richland, or Pasco, Wash., Portland, Oreg., or Seattle, Wash.

No. MC 124174 (Sub-No. 94), filed January 15, 1973. Applicant: MOMSEN TRUCKING CO., a Corporation, 2405 Hiway Boulevard, Spencer, IA 51301. Applicant's representative: Marshall D. Becker, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, and those requiring special equipment), serving the site of Western Electric Co. at or near Underwood, Iowa, as an off-route point in connection with

applicant's presently authorized regular route operations. **Note:** Common control may be involved. If a hearing is deemed necessary, applicant requests a consolidated hearing with coapplicants at Omaha, Nebr.

No. MC 125764 (Sub-No. 7), filed January 26, 1973. Applicant: LILAC CITY EXPRESS, INC., Post Office Box 13186, Spokane, WA 99213. Applicant's representative: Donald A. Ericson, 708 Old National Bank Building, Spokane, Wash. 99201. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Packaged foodstuffs* (except fresh meats and frozen foods), from points in San Francisco, Sonoma, Monterey, Merced, Fresno, and Orange Counties, Calif., to points in Spokane County, Wash., under a continuing contract, or contracts, with U.R.M. Stores, Inc. at Spokane, Wash. **Note:** If a hearing is deemed necessary, applicant requests it be held at Spokane, or Seattle, Wash., or Portland, Oreg.

No. MC 126222 (Sub-No. 13), filed January 18, 1973. Applicant: JOSEPH A. SIEFERT AND JOSEPH J. SIEFERT, a partnership, doing business as SIEFERT BROS. TRUCKING CO., Post Office Box 310, Du Quoin, IL 62832. Applicant's representative: G. M. Rebman, 314 North Broadway, 1230 Boatman's Bank Building, St. Louis, Mo. 63102. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Plastic pipe and component parts*, from the plantsite and shipping facilities of Drainage Engineering Co., at Benton, Ill., to points in Illinois, Tennessee, Michigan, Indiana, Missouri, Ohio, Iowa, Arkansas, Kentucky, Wisconsin, Minnesota, Louisiana, Mississippi, Texas, and Oklahoma, under contract with Drainage Engineering Co. **Note:** If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Washington, D.C.

No. MC 126899 (Sub-No. 61), filed January 24, 1973. Applicant: USHER TRANSPORT, INC., 3925 Old Benton Road, Paducah, KY 42001. Applicant's representative: George M. Catlett, 703-706 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages*, in containers, and related advertising materials and premiums, and empty malt beverage containers on return, from Evansville, Ind., to points in Ohio, the Lower Peninsula of Michigan, Kentucky (except Hopkinsville), Pennsylvania, West Virginia, New York, New Jersey, Maryland, North Carolina, Virginia, the District of Columbia, and those points in Illinois lying on and north of the junction of U.S. Highway 34 and the Illinois-Iowa State line, thence along U.S. Highway 34 to its junction with Illinois Highway 116, thence along Illinois Highway 116 to Peoria, Ill., thence along U.S. Highway 24 to the Illinois-Indiana State line; (2) *malt beverage containers* (a) from points in Illinois, Wisconsin, Missouri, the Lower Peninsula of Michi-

gan, New Jersey, New York, and Pennsylvania, to Evansville, Ind.; and, (b) from points in Illinois, the Lower Peninsula of Michigan, Indiana, New York, New Jersey, Ohio, Pennsylvania, Tennessee, and Wisconsin, to Newport, Ky. **Note:** Applicant states that the requested authority can be tacked with its existing authority at Sub 26 to allow service from Milwaukee, Wis., to points in Kentucky (except Hopkinsville) but it has no present intentions to tack. If a hearing is deemed necessary, applicant requests it be held at Cincinnati, Ohio, or Louisville, Ky.

No. MC 126956 (Sub-No. 8), filed January 31, 1973. Applicant: NORTHLAND TRANSPORT, INC., 1803 42d Avenue East, Superior, WI 54880. Applicant's representative: Robert D. Givold, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Duluth, Minn., to points in Ohio, West Virginia, Virginia, Maryland, Delaware, New Jersey, Pennsylvania, New York, Connecticut, Massachusetts, Vermont, New Hampshire, Maine, Rhode Island, and the District of Columbia, under a continuing contract with Jenos, Inc., Duluth, Minn. **Note:** If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 127505 (Sub-No. 53), filed January 29, 1973. Applicant: RALPH H. BOELK, doing business as R. H. BOELK TRUCK LINES, Route 2, Mendota, Ill. 61342. Applicant's representative: William H. Towle, 127 North Dearborn Street, Chicago, IL 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic pipe, fittings and accessories* (except those which because of size or weight require special equipment or handling), (1) from Davidson, Mich., to points in Iowa, Minnesota, and Wisconsin; (2) from Faribault, Minn., to points in Illinois, Iowa, and Wisconsin; and (3) from Wilton, Iowa, to points in Illinois, Indiana, Kentucky, Michigan, and Wisconsin. **Note:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Chicago, Ill.

No. MC 127962 (Sub-No. 4), filed January 30, 1973. Applicant: J. W. POOLE, INC., Post Office Box 408, Wytheville, VA 24832. Applicant's representative: Robert R. Tiernan, 1150 17th Street NW., Suite 1000, Washington, DC 20036. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Metal threaded screws, bolts, nuts, and wire*, from Norfolk, Va., to Elk Creek, Va., on traffic having a prior movement in foreign commerce, under contract with American Screw (a Division of Textron Industries, Inc.). **Note:** If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Roanoke, Va.

No. MC 128616 (Sub-No. 11), filed January 9, 1973. Applicant: BANKERS DISPATCH CORPORATION, 4970 South Archer Avenue, Chicago, IL 60632. Applicant's representative: Arnold Burke, Suite 1133, 127 North Dearborn, Chicago, IL 60604. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Commercial papers, documents, and written instruments* (except coins, currency, and negotiable securities) as are used in the conduct and operation of banks and banking institutions, between Detroit, Mich., on the one hand, and, on the other Buffalo, N.Y., under contract with banks and banking institutions. **Note:** Applicant holds common carrier authority under MC 114533 and subs thereto, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich. or Chicago, Ill.

No. MC 129282 (Sub-No. 16), filed December 15, 1972. Applicant: BERRY TRANSPORTATION, INC., Post Office Box 1824, Longview, TX 75601. Applicant's representative: Fred S. Berry (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Paper and paper articles*, from Monroe and West Monroe, La., to Beaumont, Dallas, Fort Worth, Houston, Longview, Lufkin, Nacogdoches, and Tyler, Tex. **Note:** Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Monroe or Shreveport, La.

No. MC 133220 (Sub-No. 7), filed January 23, 1973. Applicant: RECORD TRUCK LINE, INC., Post Office Box 11, Henderson, TN 38340. Applicant's representative: R. Connor Wiggins, Jr., 909 100 North Main Building, Memphis, Tenn. 38103. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) *Fire prevention sprinkler systems parts, accessories, and attachments, and tools, devices and apparatus* used in the installation and erection thereof; and (2) *pipe fittings, pipe connections, pipe hangers, castings and valves*, from the plantsite and warehouse facilities of ITT-Grinnell Corp., located at or near Clito, Ga., to points in the United States (except Alaska and Hawaii); and (3) *materials, tools, devices and apparatus* used in the fabrication, assembly, and installation of (1) and (2) from points in the United States (except Alaska and Hawaii) to the plantsite and warehouse facilities of ITT-Grinnell Corp., located at or near Clito, Ga., under contract with ITT-Grinnell Corp. and Grinnell Corp. **Note:** Applicant holds common carrier authority under MC 125227 and subs thereto, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 133775 (Sub-No. 13), filed January 16, 1973. Applicant: REEFER TRANSIT LINE, INC., 55 East Washington Street, Chicago, IL 60602. Applicant's representative: Daniel C. Sullivan, 327 South La Salle Street, Suite 1000, Chicago, IL 60604. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk), from the plantsites and storage facilities of Spencer Foods, Inc. at or near Spencer, Harley, and Cherokee, Iowa, to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia, and the District of Columbia. **Note:** Common control may be involved. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 134182 (Sub-No. 10), filed January 29, 1973. Applicant: MILK PRODUCERS MARKETING COMPANY, doing business as, ALL STAR TRANSPORTATION, a corporation, Second and West Turnpike Road, Lawrence, Kans. 66044. Applicant's representative: Warren H. Sapp, 910 Fairfax Building, 101 West 11th Street, Kansas City, MO 64105. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses*, as described in sections A and C to appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk), from Mankato, Kans., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and the District of Columbia. **Note:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., Topeka or Wichita, Kans.

No. MC 134599 (Sub-No. 68), filed January 26, 1973. Applicant: INTERSTATE CONTRACT CARRIER CORPORATION, Post Office Box 748, Salt Lake City, UT 84110. Applicant's representative: Richard A. Peterson, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Crated office furniture and parts thereof, and related advertising sales and promotional materials*, from the plantsite and facilities of Steelcase Corp. at Grand Rapids, Mich., to points in Minnesota, Wisconsin, Iowa, Michigan, Illinois, Indiana, Ohio, West Virginia, Kentucky, Virginia, Pennsylvania, New York, Connecticut, Vermont, New Hampshire, Massachusetts,

Rhode Island, Maine, New Jersey, Maryland, and Delaware, under a continuing contract, or contracts, with Steelcase Corp. at Grand Rapids, Mich. **Note:** If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or Lincoln, Nebr.

No. MC 135445 (Sub-No. 1) (Correction), filed December 10, 1972, published in the FEDERAL REGISTER on February 8, 1973, and republished as corrected this issue. Applicant: THOMAS E. ZABEL, Route 1, Box 118, Plainview, MN 55964. Applicant's representative: F. H. Kroeger, 2288 University Avenue, St. Paul, MN 55114. **Note:** The purpose of this republication is to show the correct docket number assigned thereto, as shown above, in lieu of No. MC 135455 (Sub-No. 1), which was published in error. The rest of the notice of filing remains as previously published.

No. MC 134755 (Sub-No. 33) (Amendment), filed October 2, 1972, published in the FEDERAL REGISTER issue of October 27, 1972, and republished, as amended, this issue. Applicant: CHARTER EXPRESS, INC., 1959 East Turner Street, Box 3772, Springfield, MO 65804. Applicant's representative: Le Roy Smith (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Articles manufactured and/or dealt in by wholesale and retail grocery houses, from the facilities of United Facilities, Inc., located at or near Galesburg, Ill., to points in Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin.* **Note:** The purpose of this amendment is to indicate Missouri as an additional destination State. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or St. Louis, Mo.

No. MC 135797 (Sub-No. 7), filed January 10, 1973. Applicant: J. B. HUNT TRANSPORT, INC., 833 Warner Street SW., Atlanta, GA 30310. Applicant's representative: Virgil H. Smith, Suite 12, 1587 Phoenix Boulevard, Atlanta, GA 30349. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Expanded polystyrene forms and shapes*, in packages, (1) from the plantsite of Mobil Chemical Co., located at or near Frankfort, Ill., to points in Arkansas, Colorado, Georgia, Kansas, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, Tennessee, and Texas; and (2) from the plantsite of Mobile Chemical Co., located at or near Covington, Ga., to points in Arkansas, Colorado, Illinois, Kansas, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, Tennessee, and Texas. **Note:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests to be held at Atlanta, Ga., or Dallas, Tex.

No. MC 135871 (Sub-No. 14), filed January 22, 1973. Applicant: H.G.M.

TRANSPORT COMPANY, a corporation, 1079 West Side Avenue, Jersey City, NJ 07306. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in by department stores, and supplies and equipment used in the conduct of such business, between points in the New York, N.Y., and Jersey City, N.J., commercial zone as defined by the Commission, on the one hand, and, on the other, points in Delaware, Maryland, and Pennsylvania, under continuing contract with Ames Department Stores, Inc.* **Note:** If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 135874 (Sub-No. 17), filed January 22, 1973. Applicant: LTL PERISHABLES, INC., Post Office Box 37468, Millard Station, Omaha, NE 68137. Applicant's representative: Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal casings*, from Rockport, Mo., to Chicago, Ill. **Note:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 136431 (Sub-No. 2), filed January 22, 1973. Applicant: FRANK ANDLER, doing business as A.T.C. TRUCKING COMPANY, Post Office Box 684, St. Clair Shores, MI 48080. Applicant's representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, MI 48080. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Hardwood flooring and materials and supplies* used in connection with the installation, repair or maintenance thereof, from Ishpeming, Mich., and White Lake, Wis., to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, New York, Ohio, and Wisconsin, and *lumber* from points in above-named destination territory to Ishpeming, Mich., and White Lake, Wis., and (2) *lumber* from points in Alger, Delta, Houghton, Marquette, Menominee, and Schoolcraft Counties, Mich., to points in Arkansas, Illinois, Indiana, Iowa, Kentucky, Minnesota, Mississippi, Missouri, New York, North Dakota, Ohio, Pennsylvania, South Dakota, Tennessee, and Wisconsin. **Note:** Applicant holds contract carrier authority under MC 114365, therefore dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich., Detroit, Mich., or Chicago, Ill.

No. MC 136760 (Sub-No. 1), filed January 26, 1973. Applicant: LISAN TRUCKING CORP., 290 Markley Street,

Port Reading, NJ 07064. Applicant's representative: A. David Millner, 744 Broad Street, Newark, NJ 07102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Household chemical products* (except in bulk), from Port Reading, N.J. to New York, N.Y., to points in Nassau, Suffolk, and Westchester Counties, N.Y., Lisbon, Mansfield, and Rockville, Conn., Hialeah, Jacksonville, and Miami, Fla., Portland, Maine, Baltimore, Md., Canton, East Weymouth, Norton, South Boston, and Springfield, Mass., Linden, N.J., Syracuse and Watford, N.Y., Ambridge, Dubois, McKeesport, Murfreesville, Philadelphia, and Pittsburgh, Pa., Esmond, R.I., and Manchester, N.H., under a continuing contract, or contracts, with Sage Laboratories, Inc. at New York, N.Y. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 136891 (Sub-No. 1), filed January 11, 1973. Applicant: STAN WATKINS TRUCKING, INC., 406 Fifth Avenue South, Shelby, MT 59474. Applicant's representative: Howard C. Burton, Post Office Box 2265, Great Falls, MT 59403. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (A) *malt beverages*, in bottles, can and kegs, (1) from the facilities of Theodore Hamm Brewing Co. at San Francisco, Calif. and St. Paul, Minn. to Shelby, Mont.; (2) from the facilities of Theodore Hamm Brewing Co. at San Francisco, Calif. to Kalispell and Libby, Mont.; (3) from the facilities of Ranier Brewing Co. at Seattle, Wash. to Missoula, Great Falls, and Shelby, Mont.; (4) from the facilities of Carling Brewing Co. at Tacoma, Wash. to Libby, Kalispell, Shelby, and Great Falls, Mont.; (5) from the facilities of Lucky Breweries, Inc. at Vancouver, Wash. and San Francisco, Calif. to Shelby and Havre, Mont.; (6) from the facilities of Pabst Brewing Co. at Los Angeles, Calif. and Milwaukee, Wis. to Missoula, Mont.; (7) from the facilities of Miller Brewing Co. at Azusa, Calif. to Great Falls, Kalispell and Libby, Mont.; (8) from the facilities of Anheuser-Busch, Inc. at Van Nuys, Calif. to Missoula, Shelby and Havre, Mont.;

(9) From the facilities of Minneapolis Brewing Co. (Grain Belt) at Minneapolis, Minn., to Missoula, Mont.; (10) from the facilities of Jacob Schmidt Brewing Co. at Minneapolis, Minn., to Missoula, Mont.; (11) from the facilities of Heileman Brewing Co. (Old Style), at La Crosse, Wis., to Shelby, Mont.; and (12) from the facilities of Joesph Schlitz Brewing Co. at Milwaukee, Wis., to Shelby, Mont.; (B) *carbonated beverages*, in bottles and cans, from Chico and Vista, Calif., Portland and Eugene, Oreg., and Seattle and Yakima, Wash., to Missoula, Great Falls, Shelby, Harve, Kalispell, and Libby, Mont.; and (C) *return shipments of bottles*, from the destination points in (A) and (B) above, to the origin points in (A) and (B) above, restricted to mixed truckload lots con-

sisting of a minimum of 42,000 pounds of all liquid commodities and a minimum of 20,000 pounds of bottles, kegs, cans, and pallets. The service to be performed in (A), (B), and (C) above will be under continuing contracts with: (a) Gusto Distributors at Great Falls, Mont.; (b) Harve Distributors at Harve, Mont.; (c) Lee Distributors at Kalispell, Mont.; (d) Shelby Distributors at Shelby, Mont.; (e) Triple "C" Distributors at Shelby, Mont.; and (f) Zip Beverages at Missoula, Mont. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Great Falls, Helena, or Missoula, Mont.

No. MC 136927 (Sub-No. 2), filed November 29, 1972. Applicant: PETERSEN NORTHWEST CORPORATION, Post Office Box 3156, Midway, WA. Applicant's representative: George Kargianis, 2120 Pacific Building, Seattle, Wash. 98104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Modular or factory constructed buildings or substantial sections thereof* in truckaway service and/or towaway service, from points in Washington to points in Oregon, Idaho, Montana, and points within said States. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 138043 (Sub-No. 1), filed September 18, 1972. Applicant: F. W. CASPERSEN, 622 Madison Avenue, Glencoe, IL 60022. Applicant's representative: Donald S. Mullins, 4704 West Irving Park Road, Chicago, IL 60641. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Radiopharmaceuticals, radioactive drugs, medical isotopes, and medical test kits*, between St. Louis, Mo., and Chicago, Ill., on the one hand, and, on the other, points in Illinois, Indiana, and Wisconsin, restricted to shipments weighing not more than 100 pounds and packages not exceeding 50 pounds, under contract with Mallinckrodt/Nuclear. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at either Chicago, Ill.; St. Louis, Mo.; or Milwaukee, Wis.

No. MC 138098 (Sub-No. 1), filed January 31, 1973. Applicant: JACK E. BRAZIL, doing business as BRAZIL VAN & STORAGE, 1427 D West Park Avenue, Redlands, CA 92373. Applicant's representative: Alan P. Wohlstetter, 1700 K Street NW, Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, as defined by the Commission, restricted to the transportation of traffic having a prior or subsequent movement beyond said points in containers, and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic, between points in Imperial, San Diego, Kern, Riverside, San Bernardino, Orange, Los Angeles, Ventura, Santa Barbara, and San Luis Obispo Counties, Calif. **NOTE:**

If a hearing is deemed necessary, applicant requests it be held at Redlands or Los Angeles, Calif.

No. MC 138277 (Sub-No. 1), filed January 22, 1973. Applicant: GEER TRUCKING CO., INC., Post Office Box 11993, Tampa, FL 33610. Applicant's representative: William P. Jackson, Jr., 919 18th Street NW, Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fabricated steel products*, from points in Florence and Darlington Counties, S.C., to points in Florida, Georgia, North Carolina, and Tennessee. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Columbia, S.C., or Washington, D.C.

No. MC 138338, filed December 27, 1972. Applicant: JAMES L. (JIM) PERKINS, Route No. 2, Box 248, Jellico, TN 37762. Applicant's representative: Don R. Moses, Post Office Box 67, Jellico, TN 37762. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Stone, crushed stone, and products made from stone or crushed stone* (including but not limited to asphalt paving materials) in dump trucks, between points in the area bounded as described herein: Beginning at Caryville, Tenn., thence northeast along U.S. Highway 25W to La Follette, Tenn.; thence northeast along Tennessee Highway 63 to the intersection of U.S. Highway 25E near Harrogate, Tenn.; thence north and northwest along U.S. Highway 25E to the intersection of Kentucky Highway 229; thence northwest along Kentucky 229 Highway to the intersection of Kentucky Highway 192; thence southwest along Kentucky Highway 192 to Baldrock, Ky.; thence southwest to U.S. Highway 27 at Parkers Lake, Ky.; thence south along U.S. Highway 27 to the intersection of Tennessee Highway 63; thence along Tennessee Highway 63 south and southeast to Caryville, Tenn., under contract with Jellico Stone Co., Inc., and Nally & Gibson Surfacing, Inc. **NOTE:** If a hearing is deemed necessary, applicant requests that it be held at Nashville, Tenn.

No. MC 138402, filed January 26, 1973. Applicant: IOWA COMMODITIES, INC., Sheldon, Iowa 51201. Applicant's representative: Robert G. Planansky, Post Office Box 82028, 605 South 14th Street, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Dry animal and poultry feeds, dry animal and poultry feed ingredients, and animal and poultry health aids* from the plantsites and warehouse storage facilities of Land O' Lakes at Sheldon and Fort Dodge, Iowa, to points in Minnesota, South Dakota, Nebraska, Colorado, Wyoming, Utah, and Nevada; (2) *animal and poultry feed ingredients* from the destination area named in (1) above to Sheldon and Fort Dodge, Iowa, on return; and (3) *anhydrous ammonia* from Spencer, Iowa, to points in Minnesota, South Dakota, and Nebraska. Restriction: The authority set forth above

is restricted to the transportation services to be performed under a continuing contract with Land O' Lakes. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Sioux City, Iowa, or Omaha, Nebr.

#### MOTOR CARRIER OF PASSENGERS

No. MC 138313, filed December 20, 1972. Applicant: NORTHERN BUS LINES LIMITED, 1416 Third Avenue South, Lethbridge, AB, Canada T1J0K7. Applicant's representative: B. P. Offet, Suite 204, 324 Seventh Street South, Lethbridge, AB, Canada T1J3Z6. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in special and charter operations, in round trip sightseeing or pleasure tours, beginning and ending at ports of entry on the United States-Canada boundary line and extending to points in the United States (including Alaska but excluding Hawaii). **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 138401, filed January 22, 1973. Applicant: CLAUDE G. PEARSON BUSES LIMITED, 68 Queen Street South, Tilbury, ON, Canada. Applicant's representative: Wilhelmina Boersma, 1600 First Federal Building, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in round trip charter operations, beginning and ending at ports of entry on the United States-Canada international boundary line at or near Detroit and Port Huron, Mich., and extending to points in Michigan. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Detroit or Lansing, Mich.

#### APPLICATION FOR FILING WATER CARRIERS

No. W-1263 (Sub-No. 2) (New England Steamboat Lines, Inc., Common Carrier Application), filed February 22, 1973. Applicant: NEW ENGLAND STEAMBOAT LINES, INC., 263 Main

Street, Old Saybrook, CT 06475. Applicant's representative: James A. Natalie, Jr., Middletown Savings Bank Building, Middletown, Conn. 06475. Application of New England Steamboat Lines, Inc., filed February 22, 1973, for a certificate to operate as a *common carrier*, by water, in interstate or foreign commerce, in the transportation of *passengers, motor vehicles, and commodities* loose and in vehicles, in round trip operations between Chester, Deep River, East Haddam, Middletown, and Old Saybrook, Conn., on the one hand, and, on the other, Greenport, Long Island, N.Y. All of the above are identical to service presently being provided by the applicant, previously known as Connecticut Steamboat Line, Inc., under grant of temporary authority, No. W-1263 (Sub-No. ITA, dated January 10, 1973).

No. W-1264 (Cruises East, Inc., Common Carrier Application), filed February 13, 1973. Applicant: CRUISES EAST, INC., Pier No. 1, Montauk, N.Y. Applicant's representative: Richard A. Corwin, 1 State Street Plaza, New York, NY 10004. Application of Cruises East, Inc., filed February 13, 1973, for a certificate to operate as a *common carrier*, by water, in interstate or foreign commerce, in the transportation of *passengers*, permitting it to operate the *MV Pompano*, a vessel owned by the corporation, in a daily scheduled service between Pier No. 1, Montauk Point, Long Island, N.Y., and Old Harbor Dock, Block Island, R.I.

#### APPLICATION FOR POSTAL CERTIFICATE

INTERSTATE COMMERCE COMMISSION, No. MC-137023 (Notice of Filing an Application for a Postal Certificate of Public Convenience and Necessity), filed January 15, 1973. Applicant: SAM BALLARD, 821 A Street, Meridian, MS 39301. Applicant's representative: John Ballard, 4230 37th Avenue, Meridian, MS 39301. By application filed January 15, 1972, applicant seeks a postal certificate of public convenience and necessity to transport mail in the following territory: (1) Serving Meridian, Miss.; (2) between Meridian, Miss., and New Orleans, La., from Meridian, over Interstate Highway 59 to New Orleans,

and return over the same route, serving the off-route points of Laurel, Hattiesburg, Poplarville, and Picayune, Miss.; (3) between Meridian, Miss., and Jackson, Miss., from Meridian, over Interstate Highway 20 to Jackson, and return over the same route, serving the Jackson Airport as an off-route point; (4) between Meridian, Miss., and Mobile, Ala., from Meridian, over U.S. Highway 45 to Mobile, and return over the same route, serving the intermediate point of Waynesboro; (5) between Meridian, Miss., and Macon, Miss., from Meridian, over U.S. Highway 45 to Macon, and return over the same route, serving the intermediate points of Porterville, Electric Mills, Scooba, and Shuqualak, Miss.;

And (6) between Meridian, Miss., and Louisville, Miss., from Meridian, over Mississippi Highway 19 to Philadelphia, thence from Philadelphia over Mississippi Highway 15 to Louisville, and return over the same routes, serving the intermediate points of Collinsville, Philadelphia, and Noxapater, Miss. Appended to the application are copies of six postal contracts held by applicant which were in effect on July 1, 1971, the critical "grandfather" date: Route No. 393-AY relating to service in the city of Meridian, Miss.; Route No. 39311 relating to service between Meridian, Miss., and New Orleans, La.; Route No. 39011 relating to service between Meridian, Miss., and Jackson, Miss.; Route No. 36910 relating to service between Meridian, Miss., and Mobile, Ala.; Route No. 39337 relating to service between Meridian, Miss., and Macon, Miss.; and Route No. 39332 relating to service between Meridian, Miss., and Louisville, Miss.

Any interested person desiring to oppose the application may file with the Commission an original and one copy of his written representations, views, or arguments in opposition to the application on or before April 9, 1973. A copy of each such pleading should be served upon applicant's representative.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

**Title 21—Food and Drugs**  
**CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**

**SUBCHAPTER C—DRUGS**  
**PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS**

**Combination Antibiotic Drugs Used in Animal Feeds No Longer Sanctioned**

An order was published in the *FEDERAL REGISTER* of October 7, 1972 (37 FR 21279), effective upon publication, establishing a new § 135e.1000 *Combination antibiotic drugs in animal feeds no longer sanctioned*.

Based upon the receipt of information that errors appeared to have been made

in the combination antibiotic drug listing in § 135e.1000(c), the Commissioner of Food and Drugs published an order in the *FEDERAL REGISTER* of November 4, 1972 (37 FR 23538) staying the effective date of § 135e.1000 for a period of 30 days and inviting interested persons to submit written comments within such period of time on what they believed to be errors in the combination antibiotic drug listing.

Comments were received from eight firms. Having considered the comments received and other relevant information the Commissioner concludes that the combination antibiotic drug listing in § 135e.1000(c) should be corrected to read as set forth below.

Therefore, pursuant to provisions of Federal Food, Drug, and Cosmetic Act

(sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), § 135e.1000 is amended in the table in paragraph (c) to read as set forth below.

*Effective date.* This order shall be effective on March 7, 1973.

(Sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b)

Dated: February 14, 1973.

**WILLIAM F. RANDOLPH,**  
*Acting Associate Commissioner*  
*for Compliance.*

§ 135e.1000 *Combination antibiotic drugs in animal feeds no longer sanctioned.*

(c) \* \* \*

REMINDERS

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

	Page no. and date
Rules Going into Effect March 10, 1973	
NATIONAL HIGHWAY TRAFFIC SAFETY ADMIN.—Federal motor vehicle safety standards	3601; 2-8-73
Rules Going into Effect March 11, 1973	
AEC—Information requested for antitrust review of facility license applications.	3956; 2-9-73

federal register

Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 38, NO. 46—FRIDAY, MARCH 9, 1973

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture  
CHAPTER VIII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (SUGAR), DEPARTMENT OF AGRICULTURE

GENERAL CONDITIONAL PAYMENTS PROVISIONS—BEET SUGAR AREA

On December 7, 1972, a notice of proposed rule making regarding the issuance of a revised regulation governing the conditional payments provisions of the Sugar Act of 1948, as amended, in the Beet Sugar Area, effective with respect to 1973 and subsequent crop years was published in the FEDERAL REGISTER (37 FR 28038).

Interested persons were given until January 8, 1973, to submit written comments, suggestions, or objections regarding the proposed regulations. After consideration of all such relevant matter as was presented by interested parties, the regulations so proposed are hereby adopted, subject to the following change:

The proposed revision of the method of calculating farm normal yields contained in § 891.40(a) has not been adopted. The method of adjusting farm normal yields as originally provided for in § 841.5(a) (33 FR 1067) will remain unchanged.

Pursuant to the provisions of the Sugar Act of 1948, as amended, Part 831, Subchapter E of this chapter (29 FR 11824), Part 841, Subchapter F of this chapter (30 FR 14846; 33 FR 1067; 34 FR 14685; 35 FR 14498), Part 842, Subchapter F of this chapter (36 FR 25210), Part 849, Subchapter G of this chapter (36 FR 25211), and Part 895, Subchapter G of this chapter (30 FR 15206; 35 FR 4545) are deleted and the regulations therein are revised and incorporated into Part 891. Part 891, Subchapter E of this chapter of the Code of Federal Regulations (32 FR 7837, 8283; 34 FR 3737, 12657, 14378; 35 FR 4609) is revised as follows.

Effective date: March 9, 1973.  
Signed at Washington, D.C., on March 1, 1973.

KENNETH E. FRICK,  
Administrator, Agricultural Stabilization and Conservation Service.

PURPOSE AND BASES AND CONSIDERATIONS

To qualify for Sugar Act payments, sugar beet producers must comply with various general provisions and requirements of the Act, as implemented in determinations issued by the Secretary. In addition, they must file applications for payments, use approved forms, adhere to certain instructions, and furnish information regarding eligibility for payment

and the basis for payment and in connection with appeals for review thereof.

This regulation represents an issuance of these general provisions applicable to the Beet Sugar Area. Prior to the revision of Part 891, the general conditional payments regulations applicable to the Beet Sugar Area were set forth in six separate parts. The consolidation of these separate parts provides a convenience for the user by placing all conditional payments provisions applicable to the Beet Sugar Area into one part.

This revision incorporated these parts into one, without substantive change, except as follows:

(1) Section 891.5 has been expanded to include the provisions of section 303 of the Act relating to the computation of abandonment and crop deficiency payments. This provision, heretofore, had not been included in applicable regulations.

(2) Section 891.15, paragraph (e), has been revised to conform with section 302(b) (2) of the Act which was amended in 1971 to provide for personal history of a farm operator who dies or becomes incapacitated. Section 891.15 was further changed to add paragraph (f) to conform with section 302(b) (10) of the Act which was added by the 1971 amendments to the Act to provide for history credit for farms (or producers in a personal history area) who lost a market for sugar beets as a result of the closing of a sugar beet factory.

(3) Section 891.22 has been added to provide that Sugar Act payments shall not be made to producers if illegal drug-producing plants are harvested on lands they own or control. The general applicability of this provision was previously set forth in Part 796 of Chapter VII, of this title.

Provisions of the Act relating to proportionate shares not included herein will be incorporated in the regulations pertaining to proportionate shares if and when it is determined by the Secretary that such shares are required.

PART 831—BEET SUGAR AREA

PART 841—NORMAL YIELDS; BEET SUGAR AREA

PART 842—BEET SUGAR AREA

PART 849—DOMESTIC BEET SUGAR PRODUCING AREA PREVENTED ACREAGE CREDIT; 1972 AND SUBSEQUENT CROPS

PART 895—RELEASE AND REALLOTMENT OF SUGAR BEET PROPORTIONATE SHARE ACREAGE, 1966 AND SUBSEQUENT CROPS

Parts 831, 841, 842, 849, and 895 are deleted and the regulations therein are

revised and incorporated into Part 891, reading as set forth below.

PART 891—GENERAL CONDITIONAL PAYMENTS PROVISIONS—BEET SUGAR AREA

Subpart A—General

Sec.	Purpose.
891.1	Definitions.
891.2	Instruction and forms.
891.3	Filing application for payment.
891.4	Authority to make and computation of Sugar Act payments.
891.5	List of prescribed forms.

Subpart B—Determination of Compliance With Conditions of Payments

891.10	Obtaining information regarding eligibility for payment.
891.11	Conditions of payment not met where producer prevents obtaining information.
891.12	Compliance with child labor provisions of the Act.
891.13	Compliance with acreage certification and land use provisions.
891.14	Compliance with other conditions of payment.
891.15	Credit for accredited sugar beet acreage record.
891.16	Determination of eligibility and basis for payment, review, and appeals.

891.17	Notification of shares when shares are in effect.
891.18	Harvesting within the farm's share when shares are in effect.
891.19	Notification of excess sugar beet acreage when shares are in effect.
891.20	Erroneous notice of share or of excess sugar beet acreage when shares are in effect.
891.21	Eminent domain.
891.22	Harvest of illegal drug-producing plants.

Subpart C—Prevented Acreage Credit

891.30	Prevented acreage credit.
891.31	Determining and recording prevented acreage credit.
891.32	Notification.

Subpart D—Released Share Acreage Credit

891.35	Limitation and retention of accredited acreage credit.
891.36	Notice and right to appeal.
891.37	Reallotment of released acreage.
891.38	No accredited acreage credit for reallotted released acreage.

Subpart E—Determination of Normal Yields and Eligibility for Abandonment and Crop Deficiency Payments

891.40	Farm normal yield.
891.41	Eligibility for abandonment and deficiency payments.
891.42	Approval and certification.

Subpart F—Determination of Sugar Commercially Recoverable

891.45	Determination of sugar commercially recoverable from sugar beets.

#### Subpart A—General

##### § 891.1 Purpose.

This part prescribes the authorizations and procedures applicable to the Beet Sugar Area under title III, conditional payments provisions, of the Sugar Act of 1948, as amended, effective for 1973 and subsequent crop years.

##### § 891.2 Definitions.

For the purpose of this part, the term: (a) "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the U.S. Department of Agriculture to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(b) "Deputy Administrator" or "DASCO" means the Deputy Administrator, State and County Operations, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture.

(c) "State Committee" means the persons in a State designated by the Secretary as the Agricultural Stabilization and Conservation State Committee under section 8(b) of the Soil Conservation and Domestic Allotment Act, as amended.

(d) "State Executive Director" means the person responsible for the day-to-day operations of the Agricultural Stabilization and Conservation Service State Office (herein referred to as State Office) or any employee of such office authorized to act on his behalf.

(e) "County Committee" means the persons elected within a county as the County Committee pursuant to regulations governing the selection and function of Agricultural Stabilization and Conservation County and Community Committees under section 8(b) of the Soil Conservation and Domestic Allotment Act, as amended.

(f) "County Executive Director" means the person responsible for the day-to-day operations of the Agricultural Stabilization and Conservation Service County Office (herein referred to as County Office).

(g) "Act" or "Sugar Act" means the Sugar Act of 1948, as amended.

(h) "Producer" means a person who is the legal owner, at the time of harvest or abandonment, of a portion or all of a crop of sugar beets grown on a farm for the extraction of sugar or liquid sugar.

(i) "Processor-producer" means a producer who is determined to be also a processor. A producer shall be deemed to be also a processor:

(1) If such producer is directly engaged in the processing of sugar beets for sugar;

(2) If such producer, whether alone or in conjunction with others, controls a person directly engaged in the processing of sugar beets for sugar, either by stock ownership or otherwise; or

(3) If such producer is controlled, whether through stock ownership or otherwise, by a person directly en-

#### RULES AND REGULATIONS

gaged in the processing of sugar beets for sugar.

(j) "Farm" means all land within a State farmed by the same operator and shall include, in addition, any land in an adjoining State or States farmed by such operator, if any of the equipment or labor used in the operation of the land in one State is also used in the operation of the land in the other State or States.

(k) "Operator" means, the producer (or producers) who has general control of the sugar beet operations on the farm. Guides of the county committee for determining the "operator" of a farm are set forth in paragraph (k) (1) to (7), inclusive of this section.

(1) The county committee shall determine the person (or persons acting together) who is a producer, as defined in paragraph (h) of this section, of the sugar beet crop and who has general control of the sugar beet operations and, hence, is the operator of all lands on which sugar beet operations are under his general control. The county committee shall determine the land that constitutes a farm in accordance with the definition of a farm in paragraph (j) of this section. To assist the county committee in determining who controls a sugar beet operation, there are set forth as follows certain factors that shall be given careful consideration in determining the operator of a farm. In developing information as to who controls a sugar beet operation where a partnership or legal entity such as a corporation is involved, the county committee shall consider whether an individual rather than the partnership or legal entity has the general control of the sugar beet operations and is a producer, as defined in paragraph (h) of this section, of the sugar beet crop.

(2) As possible indicia of control of a sugar beet operation, the county committee shall ascertain the producer who performs the following functions: (i) Controls the land (by ownership or lease); (ii) arranges for financing and is responsible for repayment of any loans or advances; (iii) arranges for and pays labor; and (iv) manages the sugar beet operations and makes the decisions with respect thereto.

(3) Also, as an indication of control over a sugar beet operation, the county committee shall ascertain whether a written record of accounts covering costs and income from such operations is maintained separately from that of any other operation in which the persons involved have an interest.

(4) Generally, the person (or persons acting together) who directs the sugar beet operation and who has the authority to make the final decisions with respect to growing, harvesting, and marketing the crop shall be considered as controlling the operation and, hence, the operator of the farm. Often, such person performs the actual farming functions himself. Usually, such person (or persons) also has the majority financial interest in the crop, either by direct ownership or indirectly by stock ownership or otherwise.

(5) Wherever a person has a substantial interest in more than one sugar beet operation, the county committee shall determine whether such operations are, in fact, separate and do not constitute a device to avoid the scale-down provisions of the Sugar Act.

(6) The fact that a person has a substantial interest or the majority financial interest in the crop of sugar beets does not preclude the county committee from determining that he is not the operator where it can be shown to the satisfaction of the committee that in consideration of other pertinent factors another person is a producer of the crop and controls the operations. Also, since the definition of a producer has been construed over a long period of time as not including a creditor whose only interest in a crop results from a lien upon a crop of sugar beets, such a creditor by not being a producer of such crop would not qualify as the operator of the land on which such crop was produced. For purposes of determining whether a person qualifies as a producer, as defined, the county committee should take into consideration that bare legal title does not solely determine the legal owner.

(7) In the following situations, it would appear that control of the sugar beet operations would be as indicated:

(i) Where two or more persons have the same ownership interest in a crop of sugar beets growing or grown on one or more tracts of land, and they are the only persons engaged in farming operations on such land, they will, generally, be considered as the operator of all of such land. However, if one or more of such persons is determined by the county committee as exercising control, he or they shall be considered as the operator.

(ii) Where a husband and wife not legally separated by judgment of a court are both engaged in the production of sugar beets and one of them shares in the crop produced on the land of the other, if the county committee determines that the one who shares in the crop of the other also controls the sugar beet operations of the other, the spouse exercising the control would be considered as the operator. If neither spouse shares in the sugar beet crop of the other, or the county committee determines that the indicia of control justify a conclusion that separate operations are involved, each such spouse would be considered as a separate operator.

(iii) If a minor child and a parent live in the same household and each is engaged in the production of sugar beets, the parent who is a producer of the crop would be considered the operator unless the county committee is satisfied that the minor child controls his sugar beet operations. However, the co-signing of a note by a parent to enable the child to obtain financing shall not of itself be considered as representing control by the parent. Any land farmed by a minor as a Future Farmers of America or 4-H project shall be considered a part of the parent's farm unless the land on which the sugar beets are grown is leased by the minor from someone other than the

parent and the parent has no control over the operation.

(i) "Ownership tract" means a farm or portion of a farm which is separately owned.

(m) "Proportionate share" or "share" means the proportionate share for a farm in terms of planted acreage as provided in sections 301 and 302 of the Act.

(n) "Planted acres" means the acreage of sugar beets within the farm proportionate share which was: (1) Harvested for the extraction of sugar, (2) abandoned (bona fide) insofar as its use in sugar production is concerned, because of drought, flood, storm, freeze, disease, or insects, or (3) any other acreage seeded to sugar beets for the production of sugar on lands suitable for the production of the crop and which was cared for during the growing season in a workmanlike manner.

(o) "Abandoned acres" means the planted sugar beet acreage on the farm (not in excess of the farm's share minus the acreage harvested for sugar) which meets all the requirements specified in § 891.41 with respect to approved abandoned acreage.

(p) "Harvested acres" means the acreage from which sugar beets were taken out of the ground preparatory to marketing for the extraction of sugar, when the completion of such marketing can be reasonably anticipated. Sugar beets which have merely been lifted or loosened shall not be classified as harvested. However, such acreage may be considered for classification as abandoned acreage pursuant to § 891.41.

(q) "Prevented acreage" means the number of acres on a farm (when shares are not in effect) (1) which the county committee determines would have been seeded to sugar beets of a crop for the production of sugar, but were not seeded to sugar beets because of drought, flood, storm, freeze, disease, or insects, or on approval of DASCO because of other similar abnormal or uncontrollable conditions, or (2) which the county committee upon prior approval of DASCO determines were seeded to sugar beets of a crop and were not harvested for the extraction of sugar because of abnormal and uncontrollable natural conditions such as wild animals or an intervening force of nature, but which could not be determined by a member of the county committee to be bona fide abandoned acreage because the reason for the abandonment was not drought, flood, storm, freeze, disease, or insects.

(r) "Released share acreage" means the number of acres of the farm proportionate share initially established for the farm as adjusted by appeal (or tentative share in a personal history area), which the county committee determines will not be planted on a farm in any crop year, when shares are in effect, because of a crop rotation program or for other reason beyond the control of the producer. "Other reasons beyond the control of the producer" are limited to the following circumstances that cause an operator to be unable to utilize all or a por-

#### RULES AND REGULATIONS

tion of the farm proportionate share acreage established for his farm:

(1) The operator is unavoidably absent or incapable and, therefore, cannot fully utilize his proportionate share, and arrangements cannot be made for the production of sugar beets on his land through a management or customwork type of operation;

(2) Planting is prevented by flood, drought, storm, freeze, disease, insects, or other similar abnormal and uncontrollable natural conditions;

(3) A sugar beet processing company contracts to purchase from a farm operator sugar beets produced on some but not all proportionate share acreage established for his farm, or does not offer a contract to a farm operator to purchase sugar beets which could be produced on the proportionate share acreage established for his farm.

(4) A sugar beet processing company contracts or offers to contract to purchase sugar beets to be produced on the proportionate share acreage established for the farm but the operator does not plant all or a portion of the proportionate share acreage because the company is abandoning sugar beet processing operations.

(s) "Accredited acreage" or "accredited acres" for any crop year means the acres on the farm (within the share for such farm if shares are in effect), but excluding any acreage for which credit may not be given pursuant to § 891.38, which are determined by the county committee to have been (1) harvested for the extraction of sugar, (2) bona fide abandoned to the extent of fulfilling the requirement for abandonment set forth in § 891.41, as shown by records of the county office, (3) seeded to sugar beets for the production of sugar on lands suitable for the production of the crop and cared for during the growing season in a workmanlike manner, (4) prevented acres approved for the farm or recorded for the allotment area pursuant to § 891.30, or (5) released share acres approved for the farm pursuant to § 891.35.

(t) "Personal history area" means any State or substantial portion thereof in which the personal sugar beet production history of farm operators was used generally prior to 1962 in establishing shares or where shares were not established prior to 1962 and the State committee is authorized by DASCO to use personal history of operators.

(u) "Farm history area" means any sugar beet production area which is not a personal history area.

(v) "Cropland" means the land suitable for the production of sugar beets on the farm.

(w) "Crop" or "crop year" means a crop of sugar beets designated by year. In southern California (including the counties of Imperial, San Diego, Riverside, Orange, San Bernardino, and that part of Los Angeles County lying south of the San Gabriel Mountains and in any other State, a crop of sugar beets shall be designated by year to correspond with the calendar year in which the beets are

planted. In other areas of California, a crop of sugar beets planted during the period beginning November 1, of one calendar year and ending October 31 of the following calendar year shall be designated by year to correspond with such following calendar year.

(x) "Annual yield for the farm" means the average yield in hundredweight of sugar commercially recoverable per planted acre, as computed from the production records applicable to all of the land constituting the farm in the crop year for which such annual yield is established.

(y) "County yield" means the average hundredweight of sugar commercially recoverable per planted acre in the county in a crop year, except that if the total number of farms producing such sugar beets was less than five for any such year, the county yield for such year shall be the yield established by the State committee on the basis of the yield which could have been reasonably expected that year in such county considering weather conditions and the yields obtained from other crops.

(z) "County normal yield" means the simple average of the county yields for three or more of the next preceding 5 crop years for which county yields are established. If county yields are established for less than three of such years on the basis of the yields which could have been reasonably expected in such years, the county normal yield shall be the yield established by the State committee on the basis of the yield which could have been reasonably expected in the county during such years considering weather conditions and the yields obtained from other crops.

(aa) "Commercially recoverable sugar" means the amount of sugar, in hundredweight raw value, determined annually as commercially recoverable from sugar beets grown on a farm in the Beet Sugar Area and marketed (or processed) for the extraction of sugar.

(bb) "Beet Sugar Area" means those States where sugar beets are grown and marketed (or processed) for the extraction of sugar.

##### § 891.3 Instructions and forms.

DASCO shall cause to be prepared such forms and internal management instructions as are necessary for carrying out the regulations in this part and regulations hereafter issued. These forms, instructions, and data pertaining to the individual farms are available in the county office of the county in which the farm headquarters is located, or in the absence of a farm headquarters, in the county office of the county in which the major portion of land suitable for the production of sugar beets on the farm is located. A list of forms prescribed for the conditional payment program in the Beet Sugar Area is set forth in § 891.6.

##### § 891.4 Filing application for payment.

(a) Form to be used. Applications for payments authorized under title III of the Act with respect to sugar commer-

## RULES AND REGULATIONS

cially recoverable from sugar beets grown on a farm, as well as for acreage abandonment and crop deficiency payments, shall be made on Form SU-110.

(b) *Person eligible to apply and certify compliance for payment.* The producer on the farm, or his legal representative, must sign and file form SU-110 in the county office or with a representative of such office for the county in which the farm headquarters is located or, in the absence of a farm headquarters, for the county in which the major portion of land suitable for the production of sugar beets on the farm is located. Each producer signing the application certifies that the application covers all land farmed as a unit as defined in paragraph (j) of § 891.2.

(c) *Closing date for filing.* Form SU-110 must be filed with respect to a crop of sugar beets no later than December 31 of the second calendar year following the year designating such crop. The producers shall be notified by the county office of the place and time the forms are available for signing.

(d) *Exception to closing date requirement.* An application may be filed after the closing date if the State committee determines that the applicant was prevented from filing by such date because of illness or other reason beyond his control.

(e) *Person eligible to receive payment.* Payment shall be made to a producer of the sugar beets in accordance with the provisions of section 304(d) of the Act. In the event of death, disappearance, or incompetency of the producer, payment shall be made to the beneficiary designated in the application for payment by the producer, or if no such beneficiary is named, to the producer's legal representative or his heirs as determined by the county committee.

(f) *Assignments.* Sugar Act payments may not be assigned.

(g) *Receivers.* A Sugar Act payment may not be made to a receiver.

§ 891.5 Authority to make and computation of Sugar Act payments.

(a) The county committee is authorized to make payments on the conditions provided in this Part 891 with respect to sugar commercially recoverable from the sugar beets grown on a farm for the extraction of sugar or liquid sugar.

(b) In addition to the amount of sugar with respect to which payments are authorized under paragraph (a) of this section the county committee is also authorized to make payments, on the conditions provided in this Part 891, with respect to bona fide abandonment of planted acreage and crop deficiencies of harvested acreage as determined in accordance with the provisions of § 891.41. Payments are authorized on the following quantities of sugar:

(1) With respect to such bona fide abandonment of each planted acre of sugar beets, one-third of the normal yield of commercially recoverable sugar per acre for the farm as determined by the county committee; and

(2) With respect to such crop deficiencies of harvested acreage of sugar beets, the excess of 80 percent of the normal yield of commercially recoverable sugar for the farm, as determined by the county committee, over the actual yield.

(c) Payment is computed as to each farm, and the amount of payment is scaled down in accordance with the following table when the quantity of sugar determined as provided in paragraphs (a) and (b) of this section exceeds 7,000 hundredweight:

If the hundredweight of commercially recoverable sugar determined for a farm is—	Multiply it by—	Then add—
1 to 7,000.....	\$0.80	0
7,001 to 14,000.....	.75	\$350
14,001 to 20,000.....	.70	1,050
20,001 to 30,000.....	.60	3,050
30,001 to 40,000.....	.55	4,550
40,001 to 50,000.....	.50	6,050
50,001 to 60,000.....	.45	7,550
60,001 to 70,000.....	.40	9,050
70,001 to 80,000.....	.35	10,550
80,001 to 90,000.....	.30	12,050

EXAMPLE: If the hundredweight of commercially recoverable sugar determined for a farm is 50,000 hundredweight: 50,000 × \$0.55 equals \$27,500.00 plus \$4,550.00 totals \$32,050.00, the amount of payment.

§ 891.6 List of prescribed forms.

Forms prescribed for the conditional payment program in the Beet Sugar Area.

FORM NUMBER AND TITLE
SU-70-Application To Produce and Market Sugar Under Bond.
SU-100-Request for Sugar Beet Proportionate Share.
SU-102-Sugar Beet Farming Unit Report.
SU-103-Notice of Sugar Beet Farm Proportionate Share.
SU-103-A-Notice of History Credit for Released Share.
SU-104-Sugar Beet Record Card.

SU-191-Claim Against Producer for Unpaid Wages.
SU-195-Sugar Act Payments Deductions.

Subpart B—Determination of Compliance With Conditions of Payments

§ 891.10 Obtaining information regarding eligibility for payment.

(a) Where information is necessary to assist the county committee in determining: (1) Compliance with the conditions prescribed by the Act and regulations for any payment authorized under title III of the Act, (2) the facts constituting the basis for any such payment, or (3) the amount thereof, or

(b) Where information is necessary to assist the State committee or the Deputy Administrator in reviewing upon appeal, or upon their own initiative, a determination by the county committee:

(c) Any such information with respect to acreage or compliance shall be obtained to the extent possible as provided in the applicable provisions of Part 718 of Chapter VII of this title, as amended.

(d) In the absence of a provision in such Part 718 of this title for obtaining any such information, any employee of the county office or employees of the State office designated respectively by the county executive director or by the State executive director to be qualified to perform such a duty may obtain such information.

§ 891.11 Conditions of payment not met where producer prevents obtaining information.

If the producer, or his representative, on any farm with respect to which application is made for any payment authorized under title III of the Act prevents the obtaining of: (a) The information necessary to determine compliance with the conditions for any such payment, or (b) the facts constituting the basis of any such payment, and (c) the facts necessary to determine the amount of such payment, the conditions prescribed by the Act and regulations for any such payment shall be deemed not to have been met until such producer or his representative permits such information to be obtained.

§ 891.12 Compliance with child labor provisions of the Act.

(a) *Applicability.* As a condition for payment under the Act, and except for a member of the immediate family of a person who was the legal owner of not less than 40 percent of the crop at the time work was performed, no child under the age of 14 shall have been employed or permitted to work on the farm, whether for gain to such child or any person, in the production, cultivation, or harvesting of a crop of sugar beets with respect to which application for payment is made, nor shall any child 14 or 15 years old have been employed or permitted to work for a longer period than 8 hours in any one day.

(b) *Deduction for noncompliance.* Payment authorized under the Act may be made notwithstanding a failure to comply with the conditions set forth in paragraph (a) of this section, but the payments made with respect to any crop shall be subject to a deduction of \$10 for each child for each day, or a portion of a day, during which such child was employed or permitted to work contrary to the provisions of this section.

(c) *Proof of age.* The operator of a farm upon which a child is found by a representative of the county or State office or county or State committee to have worked or to be working in the production, cultivation, or harvesting of a crop of sugar beets shall be required upon request of the representative to furnish proof of age of the child unless such child is a member of the immediate family of a person owning at least 40 percent of the crop of sugar beets at the time such work was performed. Proof of age may be established by: (1) An age certificate

issued pursuant to any child labor program carried out under the supervision of State or Federal personnel, or other authorized personnel such as a school superintendent or principal, (2) a birth certificate or transcript thereof, (3) a baptismal certificate showing the date of birth, (4) a passport, (5) an insurance policy, or (6) a Bible record.

(d) *Proving child member of producer's immediate family.* If it is alleged that the child is a member of the immediate family of a person who owns such 40 percent of a crop, such person or the operator of the farm must establish such relationship to the satisfaction of the representative of the county or State office or county or State committee. "Member of the immediate family" is deemed to include children living in the household of a person who is responsible for and provides the support of such children, either as parent or in place of the parent.

(e) *Checking compliance with child labor provisions.* In accordance with instructions issued by DASCO, the county committee shall determine by random selection the farms on which child labor compliance checks shall be made. The farm operator shall be notified immediately of any violation of these provisions.

§ 891.13 Compliance with the acreage certification and land use provisions.

If proportionate shares are in effect for a crop, and the operator of a farm located in a county designated in Part 718 of this title as a county in which farm operator's certification of the acreage and land use may be accepted in lieu of farm inspection and measurements either, (a) fails to file a report in compliance with § 718.8(b) (6) of this title, or (b) files a timely report showing that the acreage of beets is within the share for the farm and the county or State committee later determines that such acreage is in excess of the share and was knowingly reported incorrectly by the operator, no payment shall be made with respect to such farm.

§ 891.14 Compliance with other conditions of payment.

No person shall be eligible for payments under the Act unless he has met all requirements of the Act and the regulations issued pursuant thereto with respect to wage rates, farm proportionate shares (if in effect) and, in case of a processor-producer, prices paid for sugar beets.

§ 891.15 Credit for accredited sugar beet acreage record.

(a) *Crediting production record of farms which are subdivided.* For the purpose of compiling sugar beet production records for use in establishing proportionate shares, when required, and for use in determining normal yields for abandonment and crop deficiency payments, as provided in § 891.41, the production record for a subdivision of any farm which is divided shall be credited with its actual planted acreage, approved prevented acreage determined under

## RULES AND REGULATIONS

§ 891.31 and approved acreage eligible for release determined under § 891.35 if available from records in the county office. However, if such records are not available in such office, the production records of the subdivisions shall be credited with a pro rata share, respectively, of the planted acreage, approved prevented acreage, and approved released acreage of the farm on the basis of the cropland suitable for the production of sugar beets in each subdivision.

(b) *Corporations.* (1) In case of the merger or consolidation of two or more corporations in a personal history area, the accredited acreage record of any of the constituent corporations shall be credited to the surviving or consolidated corporation if the surviving or consolidated corporation operates land for the production of sugar beets.

(2) The personal sugar beet production records of individuals or members of a partnership forming a corporation may be credited to such corporation at the time it is formed. Furthermore, the corporation must conform to all of the following requirements: (i) The corporation must be formed by the members of an "immediate family" as defined in paragraph (g) of this section; (ii) all shares of stock in the corporation must be held by members of the immediate family; and (iii) one or more of the shareholders must have a personal accredited acreage record in the proportionate share base period at the time the corporation is formed. Thereafter, such production records will be credited to such corporation, except that if, at the time a proportionate share is established for the farm operated by the corporation, less than a majority of the outstanding shares of stock are owned by members of such immediate family, such production records will cease to be credited to such corporation.

(3) Upon the dissolution of a corporation, no personal history credits of the corporation shall be transferred to individuals, except, that in the case of the dissolution of a corporation of which a majority of the stock is owned by members of the immediate family that included members owning stock in the corporation when it was formed, the history credit of such corporation may be transferred to such individual members of the immediate family owning stock at the time of dissolution in the same ratio that the number of shares of stock owned by each member of the immediate family in such corporation bears to the total shares of stock issued by such corporation.

(c) *Initiation of joint operation.* Where a person having a personal accredited acreage record in a personal history area and another person (or persons) initiate a joint operation of a farm for the production of sugar beets by a partnership or other form of joint enterprise, the farm base shall be established on the basis of acreage not exceeding the landowner's share of the sugar beet crops included in the farm's accredited acreage records. A farm base may be established

on a basis of acreage not limited to the landowner's share of such sugar beet crops where the county committee determines, and a representative of the State committee concurs, that: (1) Such joint enterprise is conducted exclusively by the members of an immediate family, or (2) under such joint enterprise the person (or persons) having a personal production record during the base period qualifies either as the sole operator or as a joint operator of the farm, regardless of whether any other joint operator has a personal production record, and (3) the initiation of the joint operation was not made in an attempt to transfer a share or personal production history.

(d) *Dissolving of partnership.* If, in a personal history area, a partnership is dissolved, the accredited acreage record of the partnership shall be credited, pro rata, to the individuals who were members of the partnership on the basis of their respective contributions of sugar beet production history to such partnership at the time it was formed: *Provided, however,* That if such dissolved partnership was in existence for at least 3 years, the accredited acreage record of the partnership may be credited to each of the former partners in accordance with a written agreement signed by all of the former partners or their legal representatives.

(e) *Death or incapacity.* The personal sugar beet production history of a farm operator who dies, or becomes incapacitated, shall accrue to the legal representative of his estate or to a member of his immediate family if such legal representative or family member continues within 3 years of such death or incapacity the customary sugar beet operations of the deceased or incapacitated operator. If in any year during this period sugar beets were not planted by such legal representative or member of the family, production history shall be credited to such year equal to the acreage last planted by the deceased or incapacitated farm operator.

(f) *Closed factory history protection.* If any producer has lost a market for sugar beets as a result of: (1) The closing of a sugar beet factory in any year after 1970; or (2) the complete discontinuance of contracting by a processor after 1970 in a State; or (3) the discontinuance of contracting by a processor after 1970 in a substantial portion of a State in which the processor contracted a total of at least 2,000 acres of the 1970 crop of sugar beets, the county committee shall credit to the Farm (or to the operator in a personal history area) an acreage history for each of the next 3 years equal to the average acreage planted on the farm (or by the operator) in the last 3 years of such factory's operation or processor's contracting. Any unused proportionate share acreage resulting from such history credit shall not be transferred to other farms (or operators).

(g) *Immediate family.* For the purpose of the section the term "immediate family"

ily" shall include only persons who have one of the following relationships to an owner-operator or the persons credited with the personal sugar beet production records: Spouse, father, mother, brother, sister, children, grandchildren, and spouses of a brother, sister, or children. This definition applies regardless of whether such persons reside in the same household.

**§ 891.16 Determination of eligibility and basis for payment, review and appeals.**

The finality provisions of section 306 of the Act apply to determinations made in conformity with the regulations in this section. Compliance with the conditions prescribed by the Act and regulations for any payment authorized under title III of the Act, the facts constituting the basis for any such payment, and the amount thereof, shall be determined by the county committee, subject to redetermination initiated by the county committee and to review initiated by the State committee and to approval or redetermination by the State committee. Any determination by the State committee shall be subject to redetermination initiated by the Deputy Administrator and to approval or redetermination by the Deputy Administrator. Determinations and redeterminations by the county committee, the State committee, or the Deputy Administrator shall be made in accordance with the Act and regulations and on the facts in the individual case. The producers on the farm with respect to which such a determination or redetermination is made shall be promptly notified in writing of the substance and meaning of the determination or redetermination, the amounts of any payments and any reduction in payments which are determined; and that the producer may obtain reconsideration or review of the determination or redetermination and an informal hearing in connection therewith, by filing a written request within 15 days from the date of mailing of such written notification. The written notification also shall state where the request for reconsideration or review should be filed and where further information in regard to appeal procedure and the hearing may be obtained. The provisions apprising producers of their rights to request reconsideration or appeal from determinations affecting their eligibility for or the amounts of payments under the Act, and the procedure to follow in such instances including time limitations for filing requests for reconsideration and appeals are contained in Chapter VII, Part 780, of this title. The procedures applicable to claims for unpaid wages are set out in Part 862 of this chapter.
